**RE: FY 2025 List of Priority Projects**

---

We have been requested by FDOT to add the three previous priority lists into one overall list. Therefore, we are asking for discussion/action regarding where all projects, once combined, rank. Therefore, over the next two months we will be asking various staffs, committees, and eventually the TPO Board, how to rank the projects.

If you have any questions prior to the upcoming meeting, please contact our office at 629-8297.

This is a NEW template required by FDOT. They are requesting we combine the three previous lists, into one overall NEW list. The rankings will change as discussion between staff, and board members occurs over the next two months.
