Item 3a. SR - 40 Silver Springs Corridor Plan

In light of the recent planned changes to the Silver Springs attraction and its potential impact to the surrounding area, the Ocala/Marion County Transportation Planning Organization (TPO) sought to develop a plan to better integrate the section of SR 40 from NE 49th Court Road to NE 60th Court into the surrounding land uses and better prepare for redevelopment in the area. The purpose of the study was to review the existing corridor operations, land use and community characteristics, key transportation and mobility issues, and other issues and constraints, as well as to recommend transportation-related alternatives to create a gateway for the Silver Springs State Park area while also improving multi-modal transportation in the area.

Mr. London made a motion to approve the SR-40 Silver Springs Corridor Plan. Mr. Kelly seconded and the motion was unanimously approved.

Item 4a. FY 2022 Project Priorities

A copy of the DRAFT FY 2022 Priority Projects was provided to the committee. The overall order of the Priority Projects list had remained mostly unchanged from FY 2021 to FY 2022 because no additional projects had been identified for inclusion to the list. There had also been additional funding/phase additions to the other projects as they progressed towards construction. The committee reviewed the FY 2022 DRAFT Priority Projects list and discussed the staff recommended order and changes suggested. No action was necessary until June.
