

Technical Advisory Committee (TAC) Meeting

Marion County Library – Meeting Room C
2720 E. Silver Springs Blvd., Ocala, FL 34470

May 11, 2021

10:30 AM

AGENDA

1. **CALL TO ORDER AND ROLL CALL**
2. **PROOF OF PUBLICATION**
3. **ACTION ITEMS**
 - A. **Fiscal Years (FY) 20/21 to 24/25 Transportation Improvement Program (TIP) Amendment**
Financial Management Number (FM#)
448170-1: Section 5339 Small Urban Capital Fixed Route Project
447603-1: NW 10th/NE 14th Street (SR 492) to NE 25th Avenue
Staff is seeking review and approval of two additional projects to the TIP.
4. **PRESENTATIONS**
 - A. **Draft Fiscal Years (FY) 21/22 to 25/26 Transportation Improvement Program (TIP)**
TPO staff will provide a presentation on the draft FY 21/22 to 25/26 TIP.
 - B. **Draft 2021 List of Priority Projects (LOPP)**
TPO staff will present the draft 2021 LOPP for review and comment.
5. **DISCUSSION ITEMS**
 - A. **Bike Week 2021**
May is National Bike Month. TPO staff will share the schedule for activities during the week of May 17 to 21.
6. **CONSENT AGENDA**
 - A. **Meeting Minutes**
7. **COMMENTS BY FDOT**
8. **COMMENTS BY TPO STAFF**
 - A. **Legislative Activities**
9. **COMMENTS BY TAC MEMBERS**

10. PUBLIC COMMENT (Limited to 2 minutes)

11. ADJOURNMENT

If reasonable accommodations are needed for you to participate in this meeting, please call the TPO Office at (352) 438-2630 forty-eight (48) hours in advance so arrangements can be made. Pursuant to Chapter 286.0105, Florida Statutes, if a person decides to appeal any decision made by the TPO with respect to any matter considered at this meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

*The next regular meeting of the Technical Advisory Committee will be held on
June 8, 2021*

TO: Committee Members

FROM: Rob Balmes, Director

RE: Amendment of FY 2020/21 to 2024/25 Transportation Improvement Program (TIP)

Per the request of the Florida Department of Transportation (FDOT), two projects are proposed to be amended to the Fiscal Years (FY) 2020/2021 to 2024/2025 Transportation Improvement Program (TIP). The projects may be found on the following attached pages of the TIP document.

FM# 448170-1: Section 5339 Small Urban Capital Fixed Route

- Total: \$470,711
- New transit project – Capital Grant
- Funds to be added to FY 2021/22
- SunTran facility improvements

FM# 447603-1: NW 10th/NE 14th Street (SR 492) to NE 25th Avenue

- Total: \$1,258,199
- New project - Preliminary Engineering Funds (ACSL)
- Funds to be added to FY 2020/21, 2021/22, 2023/24
- Implementation of recommendations for crash reduction countermeasures

TPO staff is requesting your review and approval. If you have any questions regarding the proposed TIP amendments, please contact me at 438-2631.

Florida Department of Transportation

RON DESANTIS
GOVERNOR

719 S. Woodland Boulevard
DeLand, Florida 32720-6834

KEVIN J. THIBAUT, P.E.
SECRETARY

April 12, 2021

Robert Balmes
TPO Director
Ocala Marion Transportation Planning Organization
2710 E. Silver Springs Blvd
Ocala, FL 34470

Dear Mr. Balmes:

Subject: REQUEST FOR TRANSPORTATION IMPROVEMENT PROGRAM CHANGES

The Florida Department of Transportation (FDOT) requests the following changes to be made to Ocala Marion Transportation Planning Organization’s Adopted Fiscal Years 2020/2021 – 2024/2025 Transportation Improvement Program (TIP) in coordination with the corresponding changes to the Department’s Adopted Work Program. Please make sure that you put the amendment date on your cover page of the amended TIP and the page of the TIP that the project is listed on.

MARION COUNTY

FM#448170-1 MARION/OCALA SECTION 5339 SMALL URBAN CAPITAL FIXED ROUTE PROJECT

Current TIP Status:

Project is not in current TIP for Fiscal Years 2020/2021 – 2024/2025.

Proposed Amendment:

Phase	Amended Funding Type	Amended Amount	Fiscal Year
Grants and Miscellaneous	FTA	\$376,569	2022
Grants and Miscellaneous	LF	\$94,142	2022
	TOTAL	\$470,711	

Difference: New Transit Project with Phase 94 (Capital Grant) funds added in Fiscal Year 2021/2022. TIP must be updated to reflect new project and added funding.

Explanation: This new capital project was allocated funding for Suntran and facility improvements for Suntran. Funds are programmed in FY 2022, but project authorization is required before October 1st, the start of the new federal fiscal year.

FM#447603-1 NW 10TH/NE 14TH ST SR 492 TO NE 25TH AVE.

Current TIP Status:

Project is not in current TIP for Fiscal Years 2020/2021 – 2024/2025.

Proposed Amendment:

Phase	Amended Funding Type	Amended Amount	Fiscal Year
Preliminary Engineering	DIH	\$5,000	2021
Preliminary Engineering	ACSL	\$410,000	2022
Construction	ACSS	\$664,504	2024
Construction	LF	\$178,695	2024
	TOTAL	\$1,258,199	

Difference: New Project with federal preliminary engineering (ACSL) federal funds added in Fiscal Year 2021/2022. TIP must be updated to reflect new project and added funding.

Explanation: The purpose of the project is to provide crash reduction countermeasures at the intersection, in accordance with FDOT Design Manual requirements. The project is based on a request from the FDOT, District 5 Safety Office, to implement the recommendations of the “SR 492 (NE 14th St) at NE 25th Ave Intersection Safety Study” completed by Traffic Engineering Data Solutions, Inc. (TEDS) in March of 2020 (Study). FDOT will be coordinating with the City of Ocala to obtain an LFA Agreement for mast arm upgrades. The preliminary engineering (ACSL) federal funds are programmed in FY 2022, but project authorization is required before October 1st, the start of the new federal fiscal year.

Sincerely,

Anna Taylor, Government Liaison Administrator
 FDOT District Five

cc: Kellie Smith, Planning & Environmental Management Administrator, FDOT
 Rakinya Hinson, MPO Liaison, FDOT
 Carlos Colon, Transit Liaison, FDOT

INTRODUCTION

PURPOSE

The Ocala Marion Transportation Planning Organization (TPO) is the federally designated Metropolitan Planning Organization (MPO) for Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The TIP is a five-year schedule of transportation projects proposed by government agencies and other stakeholders within the TPO's Metropolitan Planning Area (MPA), which includes all of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is updated on an annual basis. The types of projects in the TIP include all modes of transportation, such as roadway construction, operations, and reconstruction; bicycle and pedestrian; transit and aviation. Other projects that are regionally significant, regardless of funding source, are also incorporated into this document.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the 3-C planning process, is carried out by the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The LRTP, which is also developed by the TPO, documents the community's transportation vision and goals 20 years into the future. The TIP outlines the short-term "action steps" necessary for achieving Marion County's long-term transportation vision by indicating specific improvements. In short, the TIP acts as the budget for carrying out the LRTP. The purpose of the TIP

is also to coordinate transportation projects between local, state, and federal agencies, thereby ensuring the efficient use of limited transportation funds.

All transportation projects contained in the TIP are financially feasible, located within the designated metropolitan planning area and funded by 23 United States Code (U.S.C.) and 49 U.S.C. Chapter 53 funds. For a project to be considered financially feasible, the anticipated cost must not exceed the anticipated revenue.

TPO PLANNING AREA

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and

implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to rapid population growth in the 1980s, the planning boundaries of the entire county were added. Figure 1 illustrates the 2010 Census designated Urbanized Areas (UZA) and Urban Cluster areas of Marion County, which are all served by the TPO. This also includes portions of Lady Lake-the Villages and the Homosassa Springs-Beverly Hills-Citrus areas within the Ocala Metropolitan Statistical Area (MSA), Marion Oaks, Rainbow Lakes and Ocala Estates-Lake Bryant.

Figure 1: Map of TPO Planning Area

DEVELOPMENT OF THE TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) and the TPO Board. The TPO also strives to engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for thirty (30) days once the TIP DRAFT is publicly noticed, in accordance with 23 Code of Federal Regulation (C.F.R.) 450.316 and 23 C.F.R. 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents can be found in Appendix G.

TPO Boards and Committees

The TPO submits its draft TIP for review and feedback to the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC). These boards/committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Greenways and Trails Association; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits its draft TIP to the TPO Board for review and to receive additional feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is presented to the TPO Board for adoption in May or June of each year. TPO staff presented the draft TIP to the TAC and CAC on May 12th and June 9th, the TPO Board on May 26th and June 23rd, the Dunnellon City Council on June 8th and the Belleview City Commission on June 16th.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's [Public Involvement Plan \(PIP\)](#). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC, TPO Board, Dunnellon City Council and Belleview City Commission meetings. The TAC and CAC meetings were held virtually and therefore were accessible to those with internet access. The TPO Board, Dunnellon and Belleview meetings were held in-person, with the added capability to participate virtually. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter, LinkedIn) and sending e-blast notifications. Beginning on May 19th, a legal notice of the draft version of the TIP was placed in the Ocala Star Banner for 30 days. The public comment period for the TIP began on May 19th and concluded on June 23rd. A copy of the notice can be found in Appendix E and a list of public comments, including the TPO's response to each comment, can be found in Appendix F. On May 19th, the TPO sent the Draft TIP for review and comment to the following agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged and the St. Johns River Water Management District.

CERTIFICATION

The most recent certification review of the Ocala Marion TPO was conducted by FDOT in February 2020. FDOT certified the transportation planning process for Fiscal Year 2020/2021. The next certification review will occur in February 2021.

CONSISTENCY WITH OTHER PLANS

The projects and project phases listed in the 2020/21-2024/25 TIP are consistent, to the maximum extent possible, with public transit development plans, aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2040 Long Range Transportation Plan (LRTP), Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), Congestion Management Plan (CMP) and the Transportation Development Plan (TDP).

2040 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long-term vision and goals for transportation, the LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2040 Long Range Transportation Plan is the current LRTP for Marion County and development of the 2045 LRTP is currently in progress. The 2045 is scheduled for adoption in November 2020. A list of TIP projects referenced in the 2040 LRTP can be found in Appendix I.

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety,

provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies.

Strategic Intermodal System (SIS) Policy Plan

The Strategic Intermodal System (SIS) Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in Appendix D.

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. In February 2018, FHWA approved the FMTP as FDOT's State Freight Plan.

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines the process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed

information, such as the department's assets, asset management strategies, and long-term expenditure forecasts, in order to help inform decision-making at both the State and Local levels.

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute 339.175 (6)(c)1. Guidance from the Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system.

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP often support improved travel conditions through the implementation of low cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time-consuming and expensive.

The TPO anticipates beginning the update of the CMP in 2020 and expects to complete the update in 2021. This plan serves two purposes; to meet state statute and to meet federal requirements for when the TPO becomes a Transportation Management Area (TMA). A TPO is considered a TMA when their urbanized area population exceeds 200,000. This is expected when the results of the 2020 census are finalized. Therefore, completing an update to the CMP will keep the TPO in compliance with both state statute and federal statutes.

Transit Development Plan (TDP)

The Transit Development Plan (TDP) represents

the community's vision for public transportation in the Ocala Marion TPO planning area for a 10-year span. Updated every five years to ensure transit services offered meet the mobility needs of the local communities, the TDP provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.

TIP REVISIONS

When the TIP and the FDOT Work Program became adopted in July 2020, there were cases in which some projects were not yet authorized. These projects, in addition to funding changes within other projects, "roll forward" automatically into the Work Program. These changes have been listed in Appendix J.

Revisions to the TIP may be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added, or deleted. There are three types of revisions to the TIP; a major amendment, a minor amendment, and an administrative modification. Major amendments require adoption by the TPO Board and public comment, while a minor amendment and administrative modification do not. [23 C.F.R. 450.104].

Administrative Modifications

An administrative modification include minor changes to project/project phase costs, funding sources of previously included projects, and project/project phase initiation dates. is needed if there are changes in project timing within the five years of the program, changes in non-discretionary funding sources, and changes that cost less than \$200,000. An administrative modification does not require public comment.

Minor Amendments

A minor amendment is required to the TIP if a project is added or deleted that is either less than \$3 million in construction costs or a non-capacity expansion project. Changes to a project that cost up to \$3 million also require a minor amendment. Minor amendments do not require a formal public comment period.

Major Amendments

Major amendments to the TIP are required if a project that is over \$3 million in construction costs is added or deleted, if a capacity expansion project is added or deleted, or there is a significant change in cost (\$3 million or more).

TRANSPORTATION DISADVANTAGED

The Transportation Disadvantage (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational

and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline or age 60+ or <16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. The TIP was developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County.

EFFICIENT TRANSPORTATION DECISION MAKING

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in this TIP through the ETDM process.

Grant	Grant Dates	Local	State	Federal	Total
5311 (Operating)	10/1/2020-9/30/2021	\$670,000		\$670,000	\$1,340,000
5310 (Capital)	10/1/2020-9/30/2021	\$42,114	\$42,114	\$336,911	\$421,139
TD Trip & Equipment Grant	07/01/2020-06/30/2021	\$94,899	\$854,091		\$948,990
Board of County Commissioners Transit and Match Funding	10/01/2020-09/30/2021				\$879,121
Grand Total		\$807,013	\$896,205	\$1,006,911	\$3,589,339

Figure 2: Transportation Disadvantaged Funding

PERFORMANCE MANAGEMENT

PERFORMANCE-BASED PLANNING

In order to develop a standardized process for monitoring the effectiveness of transportation investments across the country, the Federal government passed the Moving Ahead for Progress in the 21st Century Act (MAP-21). MAP-21 was enacted in 2012 by Congress to establish a framework to link performance management and decision-making for federally-funded transportation investments. MAP-21, which was supplemented by the Fixing America's Surface Transportation (FAST) Act in 2015, required the State Department of Transportations (DOTs) and TPOs/MPOs to conduct performance-based planning. The objective of performance-based planning is to invest resources in projects that help achieve the following seven national goals (23 CFR 490 or [23 USC 150(b)]):

#1- Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads

#2- Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair

#3- Congestion Reduction

To achieve a significant reduction in congestion on the National Highway System

#4- System Reliability

To improve the efficiency of the surface transportation system

#5- Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development

#6- Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment

#7- Reduced Project Delivery Delays

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices

Performance-based planning utilizes performance measures and performance targets to ensure the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes.

PERFORMANCE MEASURES & TARGETS

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures, and requirements for State DOTs, TPOs/MPOs and transit operators to establish and report performance targets for each performance measure. Performance measures are quantitative criteria used to evaluate progress of the seven national goals. In order to

determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt the State's performance targets, or develop their own targets.

Safety

Bridge and Pavement Condition

System Performance

Transit Asset Management

fatalities or serious injuries. As such, FDOT has set a statewide target of “0” for all five safety performance measures. Vision Zero is discussed in greater detail in the HSIP, the Florida Strategic Highway Safety Plan (SHSP), and the Florida Transportation Plan (FTP). FDOT set its safety performance targets on August 31, 2017. On February 27, 2018, the Ocala Marion TPO adopted its own safety performance targets. By adopting its own safety performance targets, the TPO is required to update the targets annually. The TPO most recently updated its safety targets on February 25, 2020. Figure 3 shows the safety performance targets set by FDOT and the TPO for each of the five performance measures.

The Ocala Marion TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which is published in its Traffic Counts & Trends Manual. Additionally, the TPO is involved in the Marion County Community Traffic Safety Team (CTST); Safety Through Engineering; Education and Responsibility (STEER); the Youth Bike Rodeo; CarFit; Walk Your Kids to School Day; and the Safe Routes to School program.

In March 2016, the FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rules, effective April 14, 2016. The Safety PM Final Rules established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP. Additionally, the Safety PM Final Rules established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether State DOTs have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

The State of Florida is committed to Vision Zero, a traffic safety policy aimed at achieving zero traffic

Safety Performance Measures	FDOT Target (2020)	TPO Target (2020)	Marion County Results (2019)
Number of Fatalities	0	88	86
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	1.86	1.48
Number of Serious Injuries	0	433	392
Rate of Serious Injuries per 100 Million VMT	0	9.19	8.44
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	55	54

Figure 3: Performance Measure Targets and Results - Safety

In January 2017, the FHWA published the Bridge and Pavement Condition Performance Measures Final Rule. The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in Appendix C.

The pavement condition measures represent the percentage of lane-miles on the Interstate and non-Interstate National Highway System (NHS) that are in good or poor condition. FHWA established five pavement condition metrics : International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is

classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

FDOT established its statewide targets for bridge and pavement condition on May 18, 2018. The Ocala Marion TPO agreed to support the FDOT statewide targets on October 23, 2018.

The two-year and four-year targets represent bridge and pavement conditions at the end of calendar years 2022 and 2024.

The bridge condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

Bridge and Pavement Condition Performance Measures	FDOT/TPO Target (2022)	FDOT/TPO Target (2024)	Marion County Results (2018)
Pavement Measures			
Percent of Interstate pavements in good condition	Not Required	≥ 60%	56%
Percent of Interstate pavements in poor condition	Not Required	≤ 5%	0%
Percent of non-Interstate NHS pavements in good condition	≥ 40%	≥ 40%	40.2%
Percent of non-Interstate NHS pavements in poor condition	≤ 5%	≤ 5%	0%
Bridge Deck Area Measures			
Percent of NHS bridges by deck area in good condition	≥ 50%	≥ 50%	78.5%
Percent of NHS bridges by deck area in poor condition	≤ 10%	≤ 10%	0%

Figure 4: Performance Measure Targets and Results - Bridge and Pavement Condition

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule. The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS. LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday, and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a

LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person-miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non-single occupancy vehicle (SOV) travel, and total on-road mobile source emissions reductions. The Ocala Marion TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established its statewide targets for system performance on May 18, 2018. The Ocala Marion TPO agreed to support the FDOT statewide targets on October 23, 2018.

System Performance Measures	FDOT/TPO Target (2022)	FDOT/TPO Target (2024)	Marion County Results (2018)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	≥ 75%	≥ 70 %	100%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	Not Required	≥ 50 %	96%
Truck Travel Time Reliability (TTTR)	1.75	2	1.31

Figure 5: Performance Measure Targets and Results - System Performance

from the oversight of the TPO to the City of Ocala. The SunTran system includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In July 2019, the City of Ocala set the transit asset targets below, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets.

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish “state of good repair” standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

On July 1, 2019, SunTran, the public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, moved

The chart shows the percentage of SunTran’s assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2019 and their performance targets for the next four years. FTA defines ULBs as “... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA.” The performance targets assume the assets are replaced as they reach their ULB.

Asset Class	2019 Performance	2020 Target	2021 Target	2022 Target	2023 Target
Rolling Stock					
Buses	69%	0%	0%	0%	0%
Cutaways	0%	0%	0%	0%	100%
Equipment					
Non-Revenue Vehicles	80%	0%	0%	0%	20%
Facilities					
Maintenance Facility	0%	0%	0%	0%	0%

Figure 6: Performance Measure Targets and Results - Transit Asset Management

performance targets. MPO/TPO’s then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

On December 1, 2020, SunTran submitted their PTASP and corresponding safety targets to the TPO, as adopted by City of Ocala City Council on November 30, 2020. Figure 7 displays the adopted SunTran PTASP targets.

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety

SunTran Safety Performance Targets 2020

FINANCIAL PLAN

The financial plan is determined during the development of the LRTP, as part of its Cost Feasible Plan. Once all projects have been determined as “needs”, the LRTP steering committee prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The cost feasible plan in the LRTP then becomes a prioritized project list. This list, known as the List of Priority Projects (LOPP), is then sent to FDOT annually, to be included in the next work program for funding. FDOT will decide which projects from the prioritized list or List of Prioritized Projects (LOPP) that can be reasonably funded with its cost/funding projections. The LOPP can be found in Figure 10 on page 23.

The 2020/21-2024/25 TIP is financially constrained for each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program. The TIP has been developed in cooperation with Marion County, the Cities of Belleview, Dunnellon, and Ocala, FDOT, SunTran, and Marion Transit. A summary of funds by funding source is included in Figure 8 ([23 CFR. 450.326(a) and Subsection 339.175(8), F. S.]).

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and all regional transportation projects requiring federal action. Projects in the TIP are derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program [339.135(4)(b)(5) F. S.]. Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

Figure 8 provides a summary of the funding categories, associated acronyms, and whether the funding source is federal, state, or local.

Acronym	Funding Category	Funding Source
ACFP	Advanced Construction Freight Prog	Federal
ACID	Advanced Construction Safety	Federal
ACNP	Advanced Construction NHPP	Federal

Figure 10: 5-Year Summary of Projects by Funding Source

PROJECT SELECTION PROCESS

The TPO has recently changed its project selection and priority process. The process includes prioritizing projects that are closest to receiving construction funding, help achieve performance measures, are multimodal, have available funding and/or include local funding sources and partnerships.

The TPO's project selection process is consistent with 23 C.F.R 450.332(b), the TPO's 2040 LRTP, and with the aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO service area, to the maximum extent feasible [s.339.175(8)(c)(7), F.S.]. A list of obligated projects, found in Appendix B, is a continuation of projects in the current TIP, and in some cases started in previous TIPs [23 CFR 450.334].

RANKING CRITERIA

The ranking criteria was narrowed down based on the adopted 2040 Long-Range Transportation Plan's (LRTP) Goals and Objectives. The goals from the 2040 LRTP that were used in this prioritization and selection process were Multimodal Choices (Goal #1), Economic Development and Growth (Goal #2), Safety and Security (Goal #3), Cooperation (Goal #4), and System Preservation (Goal #6). The ranking criteria is grouped into the following six categories:

1. Multimodal:

The ranking criteria looks at whether a project incorporates different modes of transportation into the project or is multimodal. Therefore, if a project incorporates bike lanes, sidewalks, transit options, or offers a new alternative, such as a trail, it receives one point for being multimodal.

2. Performance Measure:

Based on the latest federal transportation legislation, the Fixing America's Surface Transportation (FAST) Act was signed into law on December 4, 2015, which requires MPO/TPOs to measure the performance of projects. This is done by measuring projects on safety, system performance, pavement/bridge condition, and transit asset management. Therefore, the LOPP gives weight to any project that meets one of the performance measures, and an additional point if the project meets two. Please note: most projects could only obtain one point for a performance measure, as most performance measures require a project to either be on or demonstrate how it improves the performance of a corridor on the National Highway System (NHS). Therefore, most projects that obtained two points in this category were a part of the NHS.

3. Project Development:

This ranking criteria looks at where the projects are in their development. For example, if a project is in the Project Development & Environmental (PD&E) stage it gets one point, and it receives an additional point for each stage the project is in up until construction, which would be four points. Please note: projects can only qualify for one of the phases, with one to four points possible.

4. Funding Availability:

Due to limited funding, if a project has a lower cost associated with it, and/or a lower cost still needed for completion, the project can receive one additional point.

5. Local Revenue/Funding Source:

An additional category that staff thought was pertinent to the ranking system was local revenue. Therefore, if a project has local revenue being added to the project it receives an additional point.

6. Local Partnership:

The ranking criteria considers whether a project has a formal partnership between two agencies. For example, a project could be a Local Agency Program (LAP) project, or a project that FDOT manages or helps manage for another jurisdiction. In this case, the project would receive an additional point.

The Top 20 List of Priority Projects (LOPP) is shown in Figure 11 below. The following projects are identified in both the LOPP and TIP (referenced in the “Additional Information” section of the respective project page). Projects displayed show New Rank - FM Number (Page in TIP)

- #1 - 435209-1 (p. 34)
- #3 - 433651-1 (p.50)
- #6/18 - 435484-1/2 (p. 63)
- #8 - 433660-1 (p.42)
- #11 - 433661-1 (p.43)
- #12 - 433652-1 (p.52)
- #14 - 436755-1 (p.67)
- #15 - 238648-1 (p.40)
- #16 - 410674-2 (p.49)

Figure 11: List of Top 20 Priority Projects

PROJECTS

This section of the TIP consists of a map of projects throughout Marion County and five smaller scale maps, two lists that indicate projects and their associated page number, a list of project phase acronyms and 63 individual project pages. Only projects tied to a location are shown in the Marion County map and Maps A-E.

A summary of changes to regionally significant transportation projects from the previous Fiscal Years 2019/20 to 2023/24 TIP is available in Appendix H.

Figure 18 provides a list of project phases used in the individual project pages.

Acronym	Project Phase Information
ADM	Administration
CRT MTN	Contract Routine Maintenance
CST	Construction
CAP	Capital Grant
DES	Design
ENG	Engineering
ENV CON	Environmental/Conservation
INC	Construction Incentive/Bonus
MNT	Maintenance
MSC	Miscellaneous Construction
OPS	Operations
PD&E	Project Development & Environmental Study
PE	Preliminary Engineering
PLEMO	Planning and Environmental Offices Study
PLN	In House Planning
PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Rights-of-Way Support & Acquisition
RRU	Railroad & Utilities
RT MNT	Routine Maintenance
UTIL	Utilities Construction

Figure 18: Project Phase Acronyms

Interstate- 75 Projects

Project Description:

I-75 (SR 93) at NW 49th St. from end of NW 49th St. to end of NW 35th St.

Project Type:

Interchange

FM Number:

4352091

Lead Agency:

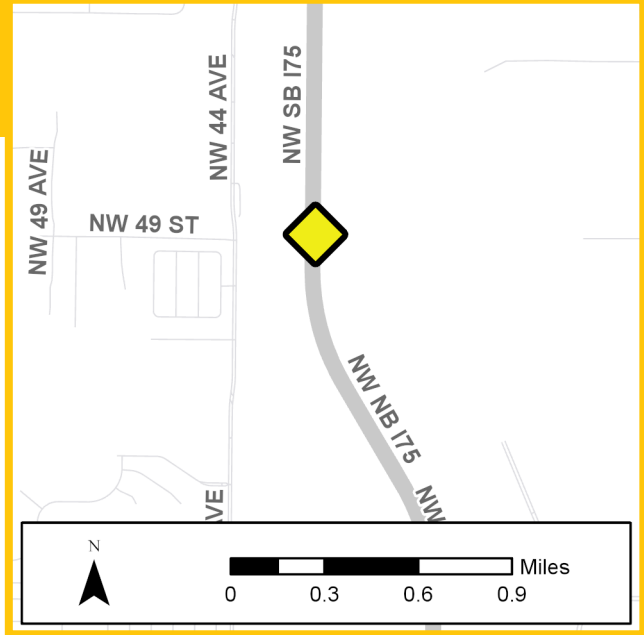

FDOT

Length:

0.1 miles

L RTP # (pg. #):

Goal 3: Objective 3 (2-9)

Prior Cost < 2020/21:

\$4,872,297

Future Cost > 2024/25:

\$0

Total Project Cost

\$64,129,644

Additional Information:

Construction of a new I-75 interchange at NW 49th Street to facilitate projected increases in freight traffic. This project also includes extending NW 49th Street from NW 44th Avenue to NW 35th Avenue. The project is currently in the PD&E phase. (Priority Project #1)

State & Local Road Projects

Project Description: SR 40 from end of 4 lanes to east of CR 314

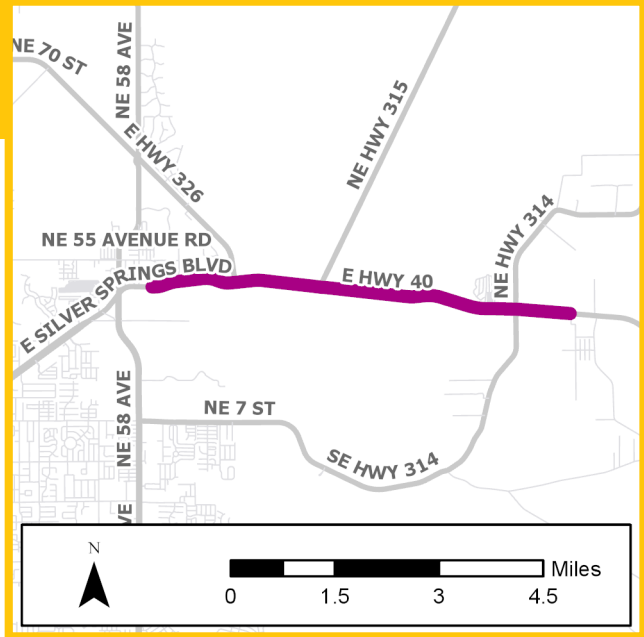

Project Type: Roadway Capacity

FM Number: 4106742

Lead Agency: FDOT

Length: 6.1 miles

L RTP # (pg. #): Goal 2: Objective 2 (2-9)

**Prior Cost
< 2020/21:**

\$12,328,612

**Future Cost
> 2024/25:**

\$160,316,895

**Total
Project Cost**

\$178,232,776

Additional Information:

Widen and reconstruct SR 40, which will include two 12-foot-wide lanes in each direction, separated by a 40-foot-wide grassed median. A 12-foot-wide multi-use trail will run along the north side of SR 40 from NE 60th Court to Ray Wayside Park. The Ocklawaha River Bridge will also be replaced with two low-profile bridges. Wildlife crossings are provided throughout the project. This project is scheduled to begin construction in 2029. (Priority Project #16)

Phase	Fund Source	2020/21	2021/22	2022/23	2023/24	2024/25	Total

APPENDIX E: PUBLIC NOTICE IN OCALA STAR-BANNER

AFFIDAVIT OF PUBLICATION

Star-Banner
Published – Daily
Ocala, Marion County, Florida

STATE OF FLORIDA
COUNTY OF MARION

Before the undersigned, a Notary Public of Said County and State, Michelle Garcia who on oath says that they are an authorized employee of the Star-Banner, a daily newspaper published at Ocala, in Marion County, Florida; that the attached copy of advertisement, being a notice in the matter of

The Ocala Marion TPO Draft Transportation Improvement Program TIP is available for public review and comment. The TIP is a five-year schedule of transportation improvements to be funded throughout the TPOs Metropolitan Planning Area, which includes all

was published in said newspaper in the issues of:

5/19 1x

Affiant further says that the said STAR-BANNER is a daily newspaper published at Ocala, in said Marion County, Florida, and that the said newspaper has heretofore been continuously published in said Marion County, Florida, daily, and has been entered as second class mail matter at the post office in Ocala in said Marion County, Florida, for a period of one year next preceding the first publication of the attached copy of advertisement; and affiant further says that he has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the person of securing this advertisement for publication in the said newspaper.

Sworn to and subscribed before me this 19 day of May, A.D., 2020

The Ocala Marion TPO Draft Transportation Improvement Program (TIP) is available for public review and comment.

The TIP is a five-year schedule of transportation improvements to be funded throughout the TPO's Metropolitan Planning Area, which includes all of Marion County. The TIP documents the anticipated timing and cost of transportation projects funded by federal, state and local sources. Projects in the TIP may include roadway construction, operations and reconstruction; bicycle and pedestrian; transit; aviation; and rail.

The Draft TIP for Fiscal Years 2020/2021 to 2024/2025 is available for public review and comment by accessing the TPO website at:
<https://ocalamariontpo.org/plans-and-programs/transportation-improvement-program-tip/>

Please use the TPO Feedback Form to provide comments by June 23, 2020. Or contact Anton Schauerte at: 352-438-2635 or anton.schauerte@marioncountyfl.org

APPENDIX F: PUBLIC COMMENTS

Comments Received	Ocala Marion TPO Response
City of Ocala - Growth Management Department - Received 5/20/20	
The TPO should correct pages 84 and 90 in the TIP to indicate that this is Block Grant funding and not 5307.	This comment has been incorporated into the Final TIP
Public Comment - Received 5/29/20	
You are already, wisely, putting an overpass on NE 36 Ave over the railroad tracks. But even more of a bottleneck and magnet for crazy, unsafe drivers is where NE 8 Ave crosses 14 St. The main problem is the very short left turn lane on 8th between the tracks and the intersection ... big enough for only 1½ cars. The antics of drivers to push their way to the front of the intersection is legendary. That is where an overpass (car or train) is desperately needed.	Thank you for your comment. This comment has been provided to the City of Ocala Engineering Office.
Federal Highway Administration - Received 6/2/20	
23 CFR 450.316(a)(1)(vi) requires a demonstration of explicit consideration and response to public input. The TIP states that it takes public input into consideration but it is not demonstrated on how this managed or accomplished.	Text informing the reader to this chart has been added to the "Public Involvement" section on page 7.
23 CFR 450.316(d) requires the involvement of Federal Lands since the Ocala National Forest occupies a large portion of the TPO area. There was no evidence that the Federal Public Lands (Ocala Natl.Forest) was included.	The TPO informed the U.S Forest Service that the Draft TIP was available for review on 5/27/20
23 CFR 450.326(g)(2) requires that the estimated total cost for projects which may extend beyond the timeframe of the TIP be included. Future cost estimates were not identified in the review.	The estimate total cost for projects extending beyond the timeframe of the TIP are included on each individual project page.
There should be at least one formal public hearing held during the TIP development. This is part of the TPO's PPP but it was unclear if a hearing had occurred.	The TPO's PPP does not require a formal public hearing to be held during the development of the TIP.
Since the TPO had adopted the TPM Consensus Document in the TIP in 2019 (as an amendment), there are two options. One, the Consensus Document must again be included in the TIP. Or the TPO Board may adopt the Document as a stand-only item.	The TPO will present the TPM Consensus Document to the TPO Board for adoption on 6/23/20 as a stand-only item.
Ocala Marion TPO's Technical Advisory Committee - Received 6/10/20	
Page 35: SR 484 should be CR 484	Project Description must stay consistent with FDOT Work Program
Page 44-45: Interchange and "The Y" should be consistent	Project Description must stay consistent with FDOT Work Program
Page 46: US 441 first in title and correct Abshier Blvd or omit it	Project Description must stay consistent with FDOT Work Program
Page 47: Change or reorder Abshier Blvd to US 441	Project Description must stay consistent with FDOT Work Program
Page 55: SR 500 should be US 441	Project Description must stay consistent with FDOT Work Program
Page 63: Map line goes to Bridges Road. Should stop at the Pruitt Trailhead	Map has been updated
Page 66: Map is incorrect. Reference Project Application Map	Map has been updated
Page 70: Map is incorrect. Check aerial based on road and from/to	Map has been updated

Florida Department of Transportation (FDOT) - Received 6/24/20	
Provide MPO Adoption Date	Text has been included on the cover page
Page 21 states TPO's project selection process is consistent but does not address "how" it is consistent	Comment is not defined by FDOT as "critical" and is not addressed in the final document
FS ([s. 339.175(8)(c)(7) F.S.]) stated on page 21, each project references LRTP. See markups on document for specific corrections	LRTP Page number(s) indicating a project's applicable Goal(s)/ Objective(s) have been included to all projects
Please provide the Certification statement (for FHWA/FTA quadrennial certification)	The Ocala Marion TPO is not a TMA and is therefore not subject to the FHWA/FTA quadrennial certification
Introduced on page 10 (discussion of Transportation Disadvantaged), Figure 2 should be explained/ referenced. Please include a list of improvements funded the TD Funds	Comment is not defined by FDOT as "critical" and is not addressed in the final document
Include project page for FM #4384171 and FM #4466911	Both project pages have been added (p.74 and p.100, respectively)
Numberous pages: Match "Project Descriptions" with FDOT Work Program	The Project Descriptions on the following pages of the final TIP have been corrected: 34-37, 40-47, 50-53, 55, 57, 59-60, 63-64, 67, 69-71, 73, 83-92, 96, 98
Page 3: Include Appendix H in Table of Contents	Text has been included
Explanation of Bridge and Pavement Condition (is stated) on page 14 but no anticipated effect explained. Transit Asset Management figure and explanation of goals is hard to follow and there is no anticipated effect stated from achieving the 0% target goal. Suggest to define a "0%" Target.	Comment is not defined by FDOT as "critical" and is not addressed in the final document
Page 14: List the anticipated effects of achieving performance targets	Comment is not defined by FDOT as "critical" and is not addressed in the final document
Page 17, correct 450.324(a) to 450.326(a), distribution of funds provided on page 19 and 20	Text has been updated on page 17. Funding distribution on page 19 and 20 is not incorrect.
Does the TIP demonstrate that there are sufficient funds (federal, state, local and private) to implement proposed transportation system improvements, identifies any innovative financing techniques through comparison of revenues and costs for each year? It is recommended that the TIP include a table(s) that compares the funding sources and amounts, by year to the total project costs. [23 C.F.R. 450.326(k)]; [23 C.F.R. 450.326(j)]; [s. 339.175(8)(c)(3) F.S].	The following comment was provided by FDOT: "Awaiting word back from Central Office regarding concurrence."
Did the MPO make the draft TIP available to all review agencies and affected parties? Refer distribution list in MPO Handbook, page 5-21 – 5-24	The following comment was provided by FDOT: "Need confirmation from FDOT."
Did the MPO upload the document into the MPO Document Portal for review by District staff, Office of Policy Planning, Florida Commission for the Transportation Disadvantaged, Bureau of Community Planning, FTA, & FHWA?	The following comment was provided by FDOT: "Need concurrence from D5 Liaison"
Page 23: Include List of Priority Projects	List has been included

p.43: Correct total funding amount on line 5 and 6	Text has been updated
p.44: Change "Goal 6, Objective 1" to "Goal 6, Objective 3"	Text has been updated
p.46: Change "Intersection/Turn Lane" to "Traffic Signals"	Project Type is a TPO-developed classification system
p.56: Combine both rows in funding table	Rows have been combined
p.59: Change "Intersection/Turn Lane" to "Traffic Signals"	Project Type is a TPO-developed classification system
p.59: Correct Phase and Funding Source for each row	Text has been updated
p.63: Check line 5 and 6 of funding chart	Funding amounts were correct
p.83: Check Total funding for FY 2020/21	Funding amounts were correct
p.86: Check Total funding for FY 2020/21	Funding amounts were correct

APPENDIX G: GLOSSARY OF TERMS AND ACRONYMS

Glossary of Terms and Acronyms

**OCALA MARION
TRANSPORTATION
PLANNING
ORGANIZATION**

ACRYONYM	NAME	DESCRIPTION
3-C	Continuing, Cooperative, and Comprehensive	A Comprehensive, Cooperative, and Continuing (3-C) process is required for initiatives to be eligible for Federal transportation funding.
AADT	Annual Average Daily Traffic	The average volume of traffic per day on a particular road or section of road.
ACES	Automated, Connected, Electric, Shared Vehicles	Term used to describe vehicles that are self-driving, electronically-connected and powered, and/or used for ridesharing.
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.
ADA	Americans with Disabilities Act	The Americans with Disabilities Act prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.
AER	Actual Expenditure Report	An annual report, completed by the planning agency and the Community Transportation Coordinator (CTC), to inform the Commission for the Transportation Disadvantaged (CTD) of the specific amount of funds the agency expended for transportation disadvantaged services.
AMPO	Association of Metropolitan Planning Organizations	Organization that provides MPOs with technical assistance, transportation research and a variety of other transportation-related services.
AOR	Annual Operating Report	An annual report prepared by the Community Transportation Coordinator (CTC) that provides a summary of performance trends detailing its designated service area and operational statistics.
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. It utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections.
BEBR	Bureau of Economics & Business Research	Research center at the University of Florida that performs economic and demographic research to inform public policy and business decision making (Definition taken from A2RU - https://www.a2ru.org/bebr-bureau-of-economics-business-research/)
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data.
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation-monitoring resources.

CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keep the composition of the CAC diverse in terms of geographic location and professions represented.
CBSA	Core Based Statistical Areas	CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel.
CFMPOA	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law.
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.).
CMP	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.
CTC	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation-disadvantaged/)
CTD	Commission for the Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funds to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities. (Definition taken from NCFRPC - http://www.ncfrpc.org/TD/td.html)
CTPP	Census Transportation Planning Products	The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau.

CTST	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include “Walk Your Child to School Day”, a mock DUI scenario, and a Battle of the Belts competition.
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/programs/dbe/)
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/communitytransystem.htm)
DOT	Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions.
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is being sought.
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify what impacts may occur from planned transportation projects.
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.
FAST Act	Fixing America’s Surface Transportation Act	The Fixing America’s Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation’s surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.

FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida- https://jobs.myflorida.com/go/Department-of-Transportation/2817700/)
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal-aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.
F.S.	Florida Statute	Codified, statutory laws of Florida
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.
FTC	Florida Transportation Commission	An entity that reviews and recommends major transportation policies and serves as an oversight body to monitor the efficiency and productivity of transportation authorities.
FTE	Florida's Turnpike Enterprise	Unit of the Florida Department of Transportation (FDOT) that operates 461 miles of toll highways across the state.
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.
FY	Fiscal Year/Federal Fiscal Year	The TPO's Fiscal Year is from July 1-June 30. The Federal Fiscal Year is from Oct 1-Sept 30.
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.
HIS	Interstate Highway System	The specially designated system of highways, begun in 1956, which connects the principal metropolitan areas, cities, and industrial centers of the United States.
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.
HSIP	Highway Safety Improvement Program	The goal of the program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.

HUD	U.S. Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing used singly or in combination to improve the efficiency or safety of a surface transportation system.
JPA	Joint Planning Agreement	An agreement made between multiple organizations.
LAP	Local Agency Program	A program that establishes the regulations used by the Florida Department of Transportation (FDOT) to authorize federal funding to local agencies.
LOS	Level of Service	Level of Service is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.
LRTP/MTP	Long-Range Transportation Plan (also known as a Metropolitan Transportation Plan)	A document resulting from regional or statewide collaboration and consensus on a region's transportation system. It serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp/
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.
MPA	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.
MPO	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
MPOAC	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.

MSA	Metropolitan Statistical Areas	Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)]
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103b). (23CFR500)
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https://www.fdotd7studies.com/what-is-a-pde-study.html)
PE	Preliminary Engineering	The analysis and design work performed by professionals for transportation projects that leads to the development of construction/roadway plans, specifications and cost estimates.
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.
PIP	Public Involvement Plan	The Public Involvement Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.
PL Funds	Metropolitan Planning Funds	Funds made available to MPOs for transportation planning activities to provide for a continuing, comprehensive and cooperative (3-C) planning process.
ROW	Right of Way	An easement reserved on the land for transportation purposes, such as a highway, bike path, rail line, utility line, etc.

RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.
SHSP	Strategic Highway Safety Plan	This is a statewide-coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads.
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot.gov/planning/sis/default.shtm)
SLRTP	Statewide Long-Range Transportation Plan	The official, statewide, multimodal transportation plan covering no less than 20 years and developed through the statewide transportation planning process.
SOV	Single-Occupancy Vehicle	Any motor vehicle not meeting the established occupancy requirement of a High-Occupancy (HOV) lane.
STBG	Surface Transportation Block Grant Program	The STBG promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and school officials.
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.

TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10-year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.
TDSP	Transportation Disadvantaged Service Plan	A comprehensive analysis of the service area, identifies available transportation services, and provides local service standards. (Definition taken from FDOT - https://ctd.fdot.gov/communitytransystem.htm)
TIGER	Transportation Investment Generating Economic Recovery	The TIGER Discretionary Grant program, provides a unique opportunity for the DOT to invest in road, rail, transit and port projects that promise to achieve national objectives. (Definition taken from USDOT- www.transportation.gov/tiger/about)
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half-mile of quality public transportation. (Definition taken from Reconnecting America- www.reconnectingamerica.org .)
TPM	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.
TPO	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities.

TSM&O	Transportation Systems Management and Operations	Florida Department of transportation (FDOT) program to measuring performance, streamlining and improving the existing system, promoting effective cooperation/collaboration, and delivering positive safety and mobility outcomes to the travelling public. (Definition taken from FDOT - http://www.cflsmartroads.com/tsmo.html)
UA	Urbanized Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.
USC	United States Code	The codification by subject matter of the general and permanent laws of the United States.
V/C	Volume to Capacity	A ratio used to determine whether a particular section of road warrants improvements. V/C compares roadway demand to roadway supply.
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period. (Definition taken from Wikipedia)

APPENDIX H: MAJOR CHANGES FROM 2019/2020-2023/2024 TIP

Project Number / FM Number	Project Description	Change from 19/20-23/24 TIP	Change In Total Funding (If Applicable)
4348441	CR 42 at SE 182nd Ave. Rd	No Change	N/A
4336511	CR 484 from SW 20th Ave. to CR 475A	No Change	N/A
4443821	CR 484 / PENNSYLVANIA AVE @ CROSSING # 622599-D	Fully Funded	N/A
4352091	I-75 at NW 49th St. from end of NW 49th St. to end of NW 35th St.	Funding Increase	\$58,318,200
4436231	I-75 (State Road 93)	No Change	N/A
4436241	I-75 (State Road 93)	No Change	N/A
4409002	I-75 FRAME OFF SYSTEM	Fully Funded	N/A
4385621	I-75 MARION COUNTY REST AREAS	Funding Decrease	\$20,221
4378261	I-75 MARION COUNTY REST AREAS	Funding Decrease	\$88,377
4363611	ITS OPERATIONAL SUPPORT	No Change	N/A
4317983	NE 36TH AVENUE	Fully Funded	N/A
4443831	SE 36 AVE @ CROSSING # 627220-F	Fully Funded	N/A
4432701	SR 25 / 200 TO ALACH BRIDGE 360025 & 360026	Fully Funded	N/A
4356602	SR 326	Fully Funded	N/A
4437031	SR 35 (SE 58TH AVE) FROM CR 464 (SE MARICAMP RD) TO SR 40	No Change	N/A
4112565	SR 35 (US 301) DALLAS POND REDESIGN	Funding Increase	\$236,597
4336521	SR 40 from SW 40th Ave. to SW 27th Ave.	Funding Decrease	\$2,504,748
4413661	SR 40 from SW 27th Ave. to MLK Jr. Ave.	Funding Increase	\$64,400
4106742	SR 40 from end of 4 lanes to east of CR 314	Funding Decrease / Constructed Delayed - Est. to Begin 2029)	\$23,963,634
4431701	I-75 from Sumter County Line to SR 200	Funding Decrease	\$2,375,139
4437301	US 301 / US 441 Split (The Y) from south of Split to north of Split	Funding Increase	\$26,680
2386481	US 41 from SW 110th St. to north of SR 40	Funding Decrease	\$10,469,145
4392381	US 441 from SR 35 to SR 200	Fully Funded	N/A
4336611	US 441/US 27/South Pine Avenue from SW 3rd St. to NW 2nd St.	Funding Decrease	\$107,604
4411361	US 441 from CR 25A (NW Gainesville Rd.) to US 301/441 Interchange	Funding Increase	\$5,606,809
4356861	US 441 at SE 98th Lane	Fully Funded	N/A
4336601	US 441 at SR 464	Funding Decrease	\$90,948
4447671	US 441 SLOPES AT RR OVER PASS B/W SE 3RD AVE & SE 30TH ST	Fully Funded	N/A
4453211	WILDWOOD MAINLINE WEIGH IN MOTION (WIM) SCREENING	Funding Decrease	\$57,711

APPENDIX I: LIST OF PROJECTS IN 2040 LRTP

The chart below shows projects included in both the TIP and the TPO's 2040 Long-Range Transportation Plan (LRTP). Please note that the details of projects, including the project description, may vary slightly to how the project is identified in the 2040 LRTP. Also, projects listed in the LRTP may be listed on other pages, in addition to the pages shown below.

TIP Page Number	FM Number	2040 LRTP Page Number	2040 LRTP Project Name
34	4352091	5-2	I-75 @ NW 49th Street
40	2386481	5-2	US 41 from SW 111th Place Ln to SR 40
46	4456881	3-10, 3-11	US-441/US-27 at CR-42
49	4106742	5-2	SR 40 from NE 60th Ct to CR 314
50	4336511	5-4	I-75 at CR 484
52	4336521	5-2	SR 40 @ I-75 (SW 27th Ave to SW 40th Ave)
67	4367551	3-23	Indian Lake Trail: Silver Springs State Park to Indian Lake Trailhead
68	4367561	5-2	Downtown Ocala Trail: Ocala City Hall to Silver Springs State Park

RE: Draft FY 2021/22 to 2025/26 Transportation Improvement Program (TIP)

The draft Fiscal Years 2021/2022 to 2025/2026 Transportation Improvement Program is available for public review and comment. The draft TIP public involvement process is from May 4, 2021 to June 22, 2021. A formal presentation of the draft TIP will be provided to the TAC at the May 11, 2021 meeting. The draft will be presented again at the June 8 TAC meeting to include a discussion regarding feedback and public comment. Included with this memo is the full draft TIP document for your review.

The following provides some of the major highlights of the FY 2021/22 to 2025/26 TIP.

- **Performance-based Planning:** Updates are provided on pages 2-2 to 2-8 on performance measure targets for the four core measures, including Safety; Bridge and Pavement Condition; System Performance; and Transit Asset Management and Transit Safety.
- **Performance Targets and Projects:** A new summary is provided on pages 5-2 to 5-4 highlighting the TIP project investments and how they support meeting federally required performance targets on the National Highway System (NHS) and local transit programs.
- **TIP Interactive Map:** A new online interactive TIP map is available to view projects with specific locations. The map may be found at: <https://marioncountyfl.maps.arcgis.com/apps/webappviewer/index.html?id=e2c53a700817427f82b12b9833800168>
- **TIP Projects and Funding:** A total of 71 projects with \$335,167,710 of funding are programmed in the draft TIP. This includes \$147,649,148 Federal; \$153,742,613 State; and \$33,775,949 Local funding investments.
- **TIP Document Organization:** To continue our progress toward making the TIP document a more public-friendly resource while not compromising the importance of meeting federal and state requirements, the document this year once again contains summary pages for each of the 71 projects. These projects may be found on pages 5-

Cooperative and comprehensive planning for our transportation needs
Marion County • City of Belleview • City of Dunnellon • City of Ocala

5 to 5-82. Projects continue to be organized by the following major categories for ease of reference by the general public.

- Interstate (I-75) (6 projects)
- U.S. Routes (9 projects)
- State and Local Routes (13 projects)
- Bicycle and Pedestrian (11 projects)
- Aviation (Airport) (8 projects)
- Transit, Funding, Grants (10 projects)
- ITS and Maintenance (14 projects)

If you have any questions regarding the draft FY 2021/22 to 2025/26 TIP and public process, please contact me at 438-2631.

The Ocala Marion Transportation Planning Organization (TPO) complies with nondiscrimination laws and regulations, including Title VI of the Civil Rights Act of 1964 and the Americans with Disabilities Act (ADA). Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons wishing to express their concerns relative to the Ocala Marion TPO compliance with Title VI may do so by contacting the TPO at: (352) 438-2630 or 2710 East Silver Springs Blvd, Ocala, FL 34470.

The preparation of this report has been financed in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation. The contents of this report do not necessarily reflect the official views or policies of the U.S. Department of Transportation.

1. INTRODUCTION

PURPOSE

The Ocala Marion Transportation Planning Organization (TPO) is the federally designated Metropolitan Planning Organization (MPO) for Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The Fiscal Years 2021/22 to 2025/26 TIP is a five-year schedule of transportation projects proposed by government agencies and other stakeholders within the TPO's Metropolitan Planning Area (MPA), which includes all of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is updated on an annual basis. The types of projects in the TIP include all modes of transportation, such as roadway construction, operations and reconstruction, bicycle and pedestrian, transit and aviation.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the 3-C planning process, is reflected in the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The 2045 LRTP, which is also developed by the TPO, outlines Marion County's transportation vision and goals 20 years into the future. The TIP outlines the short-term "action steps" necessary for achieving Marion County's long-term transportation vision by programming specific improvements. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding to Marion County.

The TIP was developed under the federal guidance and requirements contained in the Fixing America's Surface Transportation (FAST) Act, the current federal transportation law. Transportation projects contained in the TIP are financially feasible, located within the designated MPA and supported in part by 23 United States Code (U.S.C.) and 49 U.S.C. Chapter 53 funding. For a project to be considered financially feasible, the anticipated cost must not exceed the anticipated revenue.

A list of Obligated projects is provided in Appendix B. The Obligation list is a continuation of projects in the Fiscal Years 2020/21 to 2024/25 TIP (prior TIP), and in some cases started in previous TIPs [23 CFT 450.334].

TPO PLANNING AREA

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and

implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to rapid population growth in the 1980s, the planning boundaries of the entire county were added. Figure 1 illustrates TPO planning area which includes all of Marion County and the cities of Belleview, Dunnellon and Ocala.

Figure 1: Map of TPO Planning Area

DEVELOPMENT OF THE TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO’s Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) and the TPO Board. The TPO strives to also engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 Code of Federal Regulation (C.F.R.) 450.316 and 23 C.F.R. 450.326(b). A Glossary of Terms and

Acronyms used in the TIP and other TPO documents are contained in Appendix G.

TPO Boards and Committees

The TPO submits a draft TIP for review and feedback to the TPO's TAC and CAC. These boards/committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Greenways and Trails Association; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review and to receive feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is presented to the TPO Board for adoption in May or June of each year. In 2021, TPO staff presented the draft TIP to the TAC and CAC on May 11th and June 8th, the TPO Board on May 25th and June 22nd.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public Participation Plan (PPP) (<https://ocalamariontpo.org/plans-and-programs/public-participation-plan-ppp>). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. The TAC and CAC meetings were held virtually and in person and therefore were also accessible to those with internet access. The TPO Board meetings were held both virtually and in-person. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. Beginning on May 4th, a legal notice of the draft version of the TIP was advertised in the Ocala Star Banner. The public comment period for the TIP began on May 4th and concluded on June 22nd. A copy of the public notice can be found in Appendix E and a list of public comments, including the TPO's response to each comment, can be found in Appendix F. On May 4th, the TPO sent the Draft TIP for review and comment to the following agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged and the St. Johns River Water Management District.

JOINT CERTIFICATION

The most recent joint certification between the Ocala Marion TPO and FDOT was conducted by on February 23, 2021. FDOT certified the TPO's transportation planning process for Fiscal Year 2020/2021. The next certification review will occur in February 2022.

CONSISTENCY WITH OTHER PLANS

The projects and project phases listed in the FY 2021/22 to 2025/26 TIP are consistent with the local public transit development plan (SunTran), aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2045 LRTP, Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Strategic Highway Safety Plan (SHSP), Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), TPO Congestion Management Process (CMP) and SunTran Transportation Development Plan (TDP).

2045 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long-term vision and goals for transportation, the 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020. A list of TIP projects referenced in the 2045 LRTP can be found in Appendix I. (<https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp>)

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety, provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies. (<http://floridatransportationplan.com>)

Strategic Intermodal System (SIS) Policy Plan

The Strategic Intermodal System (SIS) Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in Appendix D. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project). (<https://www.fdot.gov/planning/sis/default.shtm>)

Florida's Strategic Highway Safety Plan (SHSP)

The Florida's 2021 to 2025 Strategic Highway Safety Plan (SHSP) was adopted in March 2021. This

is an update to the prior plan, and was completed in coordination with all 27 Florida MPO/TPO's. Florida's SHSP outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries. A set of 12 emphasis areas organized into three categories (Roadways, Road Users, User Behavior) provide the foundation for improving safety. (<https://www.fdot.gov/safety/shsp/shsp.shtm>)

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. In February 2018, FHWA approved the FMTP as FDOT's State Freight Plan. (<https://www.fdot.gov/planning/plans/default.shtm>)

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines the process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed information, such as the department's assets, asset management strategies, and long-term expenditure forecasts, in order to help inform decision-making at both the State and Local levels.

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute (F.S.) [339.175 (6)(c)1]. Guidance from the Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system".

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP typically support improved travel conditions through the implementation of low cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time- consuming and expensive.

The TPO is developing a major update to the CMP in 2021. The CMP update serves two purposes: to meet state statutes and help with prioritizing project needs, and to also meet federal requirements if the TPO becomes a Transportation Management Area (TMA) as a result of the 2020 Census. A TPO is considered a TMA when their urbanized area population exceeds 200,000. Completing an update to the CMP in 2021 will keep the TPO in compliance with both state statute and federal requirements, if necessary. (<https://ocalamariontpo.org/congestion-management-process-cmp>)

Transit Development Plan (TDP)

The Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon. A TDP is updated by SunTran every five years to ensure transit services offered meet the mobility needs of the local communities, the TDP provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran’s transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.

TIP REVISIONS

When the TIP and the FDOT Work Program become adopted, there will be cases in which some projects are not yet authorized. These projects, in addition to funding changes within other projects, “roll forward” automatically into the Work Program, and will be amended into this TIP.

Revisions to the TIP may also be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added, or deleted. There are three types of revisions to the TIP; a major amendment, a minor amendment, and an administrative modification. Major amendments require adoption by the TPO Board and public comment, while a minor amendment and administrative modification do not. [23 C.F.R. 450.104].

Administrative Modifications

An administrative modification include minor changes to project/project phase costs, funding sources of previously included projects, and project/ project phase initiation dates is needed if there are changes in project timing within the five years of the program, changes in non-discretionary funding sources, and changes that cost less than \$200,000. An administrative modification does not require public comment.

Minor Amendments

A minor amendment is required to the TIP if a project is added or deleted that is either less than \$3 million in construction costs or a non-capacity expansion project. Changes to a project that cost up to \$3 million also require a minor amendment. Minor amendments do not require a formal public comment period.

Major Amendments

Major amendments to the TIP are required if a project that is over \$3 million in construction costs is added or deleted, if a capacity expansion project is added or deleted, or there is a significant change in cost (\$3 million or more).

TRANSPORTATION DISADVANTAGED

The Transportation Disadvantaged (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline or age 60+ or <16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. Therefore, the TIP is developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County.

EFFICIENT TRANSPORTATION DECISION MAKING

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in the TIP through the ETDM process. Public information for these projects is available at: <https://etdmpub.fl-etat.org/est>.

2. PERFORMANCE MANAGEMENT

PERFORMANCE-BASED PLANNING

In order to develop a standardized process for monitoring the effectiveness of transportation investments across the country, the Federal government passed the Moving Ahead for Progress in the 21st Century Act (MAP-21). MAP- 21 was enacted in 2012 by Congress to establish a framework to link performance management and decision-making for federally-funded transportation investments. MAP-21, which was supplemented by the FAST Act in 2015, requires the State Department of Transportations (DOTs) and TPOs/MPOs to conduct performance-based planning. The objective of performance-based planning is to invest resources in projects that help achieve the following seven national goals (23 CFR 490 or [23 USC 150(b)]):

#1- Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads

#2- Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair

#3- Congestion Reduction

To achieve a significant reduction in congestion on the National Highway System

#4- System Reliability

To improve the efficiency of the surface transportation system

#5- Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development

#6- Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment

#7- Reduced Project Delivery Delays

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance-based planning utilizes performance measures and performance targets to ensure

the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes.

PERFORMANCE MEASURES & TARGETS

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPOs/MPOs and transit operators to establish and report performance targets for each performance measure. Performance measures are quantitative criteria used to evaluate progress of the seven national goals. In order to determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets.

Safety

Bridge and Pavement Condition

System Performance

Transit Asset Management and Transit Safety

Safety

In March 2016, the FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rules, effective April 14, 2016. The Safety PM Final Rules established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP. Additionally, the Safety PM Final Rules established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether State DOTs have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, FDOT is fully committed to Vision Zero, and has set a statewide target of “0” for all five safety performance measures. Vision Zero is discussed in greater detail in the HSIP, the Florida Highway Safety Plan, and the Florida Transportation Plan. FDOT set its safety performance targets on August 31, 2017. In addition, FDOT completed a HSIP Implementation Plan in August 2020 to outline an approach toward meeting its safety performance targets in future years. In August of each calendar year, FDOT reports the following year’s targets in the HSIP. The TPO is then required to either adopt FDOT’s targets or set their own.

On February 27, 2018, the Ocala Marion TPO Board adopted its own safety performance targets to better track progress and reflect greater accountability to the public. The TPO plans to develop a Safety Action Plan in 2021 and applying the adopted targets will serve a key role in this planning effort. By adopting its own safety performance targets, the TPO is required to update the targets annually. The TPO most recently updated its safety targets on February 23, 2021. Figure 2 shows the safety performance targets set by both FDOT and the TPO for each of the five safety performance measures.

The Ocala Marion TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which will be published in a Safety Trends Manual in 2021. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST).

Safety Performance Measures	FDOT Target (2021)	TPO Target (2021)	TPO Target Results (2020)
Number of Fatalities	0	97	108
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	1.96	2.24
Number of Serious Injuries	0	432	304
Rate of Serious Injuries per 100 Million VMT	0	8.74	6.31
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	61	54

Figure 2: Performance Measure Targets and Results - Safety

Bridge and Pavement Condition

In January 2017, the FHWA published the Bridge and Pavement Condition Performance Measures Final Rule. The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in Appendix C.

The pavement condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics: International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

FDOT established its statewide targets for bridge and pavement condition on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets on in 2018. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years, and are displayed in Figure 3.

The bridge condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure

is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

Bridge and Pavement Condition Performance Measures	FDOT/TPO Target (2-Year)	FDOT/TPO Target (4-Year)	TPO Target Results (2019)
Pavement Measures			
Percent of Interstate pavements in good condition	Not Required	≥ 60%	66.4%
Percent of Interstate pavements in poor condition	Not Required	≤ 5%	0%
Percent of non-Interstate NHS pavements in good condition	≥ 40%	≥ 40%	37.8%
Percent of non-Interstate NHS pavements in poor condition	≤ 5%	≤ 5%	0%
Bridge Deck Area Measures			
Percent of NHS bridges by deck area in good condition	≥ 50%	≥ 50%	59.1%
Percent of NHS bridges by deck area in poor condition	≤ 10%	≤ 10%	0%

Figure 3: Performance Measure Targets and Results - Bridge and Pavement Condition

System Performance

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule. The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS. LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th

percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday, and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person- miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non- single occupancy vehicle (SOV) travel, and total on- road mobile source emissions reductions. The Ocala Marion TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established its statewide targets for system performance on May 18, 2018. The Ocala Marion TPO and all MPO/TPO’s in Florida agreed to support the FDOT statewide targets in October 2018. Figure 4 displays the most current System Performance measure targets and results.

System Performance Measures	FDOT/TPO Target (2-Year)	FDOT/TPO Target (4-Year)	TPO Target Results (2020)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	≥ 75%	≥ 70 %	100%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	Not Required	≥ 50 %	97%
Truck Travel Time Reliability (TTTR)	1.75	2.00	1.13

Figure 4: Performance Measure Targets and Results - System Performance

Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish “state of good repair” standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

On July 1, 2019, SunTran, the public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, moved from the oversight by the TPO to the City of Ocala. The SunTran system includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In July 2019, the City of Ocala set the transit asset targets in Figure 5, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets. SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC).

Figure 5 displays the percentage of SunTran’s assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2019 and their performance targets for the next four years. FTA defines ULBs as “... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA.” The performance targets assume the assets are replaced as they reach their ULB.

Asset Class	2019 Performance	2020 Target	2021 Target	2022 Target	2023 Target
Rolling Stock					
Buses	69%	0%	0%	0%	0%
Cutaways	0%	0%	0%	0%	100%
Equipment					
Non-Revenue Vehicles	80%	0%	0%	0%	20%
Facilities					
Maintenance Facility	0%	0%	0%	0%	0%

Figure 5: Performance Measure Targets and Results - Transit Asset Management

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. MPO/TPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

On December 1, 2020, SunTran submitted their PTASP and corresponding safety targets to the TPO, as adopted by City of Ocala City Council on November 30, 2020. On April 27, 2021, the TPO Board adopted the SunTran PTASP safety targets. Figure 6 displays the adopted SunTran PTASP targets.

SunTran Safety Performance Targets							
Performance Targets based on collected data from the previous three years							
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles) VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles VRM)	Safety Events Total	Safety Events (per 100k vehicle revenue miles VRM)	System Reliability (VRM/failures)
Fixed Route Bus	0	0	1	.20	5	1.03	7,492
ADA Paratransit	0	0	0	0	0	0	0

Figure 6: Performance Measure Targets and Results - Transit Safety Targets

3. FINANCIAL PLAN

Overview

The financial planning process of the TPO is undertaken during the development of the LRTP, as part of the Cost Feasible Plan. Once all projects have been determined as “needs”, TPO committees, TPO staff and the TPO Board prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The Cost Feasible Plan in the LRTP then becomes a prioritized project list. This list becomes part of the TPO’s annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, committee input and TPO Board approval. The annual revised LOPP is submitted to FDOT annually for projects to be considered in the next Tentative Work Program for funding. FDOT will decide which projects from the LOPP that can be reasonably funded with its cost/funding projections. The LOPP can be found in Figure 10 on page 4-3. For further information about the LOPP process, please access the TPO website at:

<https://ocalamariontpo.org/priority-project-list>.

The FY 2021/22 to 2025/26 TIP is financially constrained for each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program. The TIP has been developed in cooperation with Marion County, the Cities of Belleview, Dunnellon, and Ocala, FDOT, SunTran and Marion Transit. A summary of funding categories, distribution of funding by category and funding sources are summarized in Figures 7 to 9.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and all regional transportation projects requiring federal action. Projects in the TIP are also derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program [339.135, Florida Statute, F.S.]. Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

Acronym	Funding Category	Funding Source
ACFP	Advanced Construction Freight Program	Federal
ACNP	Advanced Construction NHPP	Federal
ACSA	Advanced Construction (SA)	Federal
ACSL	Advanced Construction (SL)	Federal
ACSN	Advanced Construction (SN)	Federal

4. PROJECT PRIORITIZATION PROCESS

Methodology

In 2019, the TPO modified its project prioritization process. The process involves an emphasis on prioritizing projects that are closest to receiving construction funding, meet federal performance measures, are multimodal, have available funding and/or include local funding sources and local partnerships. As stated in Section 3, the TPO works collaboratively each year with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop a List of Priority Projects. The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding.

The TPO's project prioritization process is consistent with 23 C.F.R 450.332(b), the 2045 LRTP, and with local aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO MPA, to the maximum extent feasible [339.175(8)(c)(7), F.S.].

Project Ranking Criteria

The priority projects ranking criteria is tied directly to the adopted 2045 LRTP Goals and Objectives and to federally required performance measures. The goals from the 2045 LRTP that are used in this prioritization and selection process include:

- Optimization and Preserve Existing Infrastructure
- Focus on Improving Safety and Security of the Transportation System
- Provide Efficient Transportation that Promotes Economic Development
- Promote Travel Choices that are Multimodal and Accessible
- Protect Natural Resources and Create Quality Places
- Ensure the Transportation System Meets the Needs of the Community.

The ranking criteria are grouped into the following six categories:

1. **Multimodal:** The ranking criteria looks at whether a project incorporates different modes of transportation or is multimodal. If a project incorporates bike lanes, sidewalks, transit options, or offers a new alternative such as a trail, it receives one (1) point for being multimodal.
2. **Performance Measure(s):** Based on federal requirements, MPO/TPOs must measure the performance of projects. This is done by measuring projects based on safety, pavement/bridge condition, system performance, transit asset management and transit safety. Therefore, one (1) point is awarded to any project that meets one of the

performance measures, and an additional one (1) point if the project meets two. Please note: most off-system local projects can only obtain up to one point, as most performance measures require a project to either be on or demonstrates improvements to the National Highway System (NHS).

3. **Project Development:** This ranking criteria looks at the status of projects in their development phase. For example, if a project is in the Project Development & Environmental (PD&E) or Planning phase it receives one (1) point. Projects then receive an additional point for each phase it advances up to construction, which receives four (4) points. Please note: projects can only qualify for one of the phases at a time, with one to four points possible (PD&E/Planning 1 point; Design 2 points; ROW 3 points; Construction 4 points).
4. **Funding Availability:** Federal and state transportation is highly competitive and limited. Therefore, if a project has funding already programmed and/or a lower overall cost (e.g. operations, system preservation) or a lower cost is needed to complete the project or specific phase, one (1) point may be awarded.
5. **Local Revenue/Funding Source:** If a project has local revenue being invested, it receives one (1) point.
6. **Local Partnership:** The ranking criteria considers whether a project has a formal partnership between two or more agencies. For example, a project could be a Local Agency Program (LAP) project, or a project that FDOT manages or helps manage for another jurisdiction. In this case, the project would receive an additional point.

Based on the development of a revised CMP and anticipated Safety Action Plan in 2021 and 2022, the TPO expects to revise this ranking methodology in 2022 to ensure a greater emphasis is placed on improving both congestion and safety. Any modifications to the methodology will be reviewed by all partners, committees and the TPO Board.

The Top 20 List of Priority Projects (LOPP) for 2021 is provided in Figure 10. The following projects are identified in both the LOPP and Draft TIP document:

[Under Development]

Figure 10: 2021 List of Top 20 Priority Projects

5. PROJECTS

Summary

For the draft FY 2021/22 to 2025/26 TIP, there are a total of 71 programmed projects. For ease of reference by the public, the projects were grouped into seven major categories. A summary of changes to major regional transportation projects from the previous Fiscal Years 2020/21 to 2024/25 TIP is available in Appendix H. Appendix I contains a listing of the TIP projects (TIP Download) as submitted to the TPO by FDOT in April 2021. Figure 11 provides a breakdown of the number of projects and funding by category. All projects in the TIP are included in a summary page format by category in the following pages of this section. Projects are also referenced how they meet the specific goals and objectives in the 2045 LRTP.

- Interstate (I-75)
- U.S. Routes
- State and Local Routes
- Bicycle and Pedestrian
- Aviation (Airport)
- Transit, Funding, Grants
- ITS and Maintenance

	Interstate (I-75)	U.S. Routes	State and Local Routes	Bicycle and Pedestrian	Aviation (Airport)	Transit, Funding/Grants	ITS and Maintenance
Funding	\$115,495,548	\$62,767,203	\$56,796,506	\$13,551,008	\$19,452,936	\$34,340,099	\$32,764,410
Projects	6	9	13	11	8	10	14

Figure 11: 5-Year Summary of Projects by Funding Source

Figure 12 provides a summary chart of the acronyms used for various project phases and the terms associated with the projects displayed in the TIP summary pages. This chart may be used as a reference when reviewing the project pages.

Acronym	Project Phase and Information
ADM	Administration
CRT MTN	Contract Routine Maintenance
CST	Construction

PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Rights-of-Way Support & Acquisition
RRU	Railroad & Utilities
RT MNT	Routine Maintenance
SEG	Project Segment Number
UTIL	Utilities Construction

Figure 12: Project Phase and Information Acronym List

Performance Management and TIP Projects

The following provides a summary of the projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: safety; bridge and pavement condition; system performance; and

transit asset management and safety. In some cases, a project may support meeting more than one federal performance measure.

Safety (8 projects)

**OCALA MARION TRANSPORTATION
 PLANNING ORGANIZATION**

The Ocala Marion TPO Draft Transportation Improvement Program (TIP) is available for public review and comment.

The Ocala Marion Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) is a five-year schedule of transportation improvements to be funded throughout the Metropolitan Planning Area, which includes all of Marion County. The TIP documents the anticipated timing and cost of transportation projects funded by federal, state and local sources. Projects in the TIP may include roadway construction, operations and reconstruction; bicycle and pedestrian; transit; aviation; and rail.

The **Draft TIP for Fiscal Years 2021/2022 to 2025/2026** is available for public review and comment by accessing the TPO website at: <https://ocalamariontpo.org/plans-and-programs/transportation-improvement-program-tip/>

Please use the TPO Feedback Form at <https://ocalamariontpo.org/public-involvement/tpo-feedback-form/> to provide comments by **June 22, 2021**. Or contact Rob Balmes, TPO Director at: 352-438-2631; rob.balmes@marionfl.org.

APPENDIX F: PUBLIC COMMENTS

APPENDIX G: GLOSSARY OF TERMS AND ACRONYMS

Glossary of Terms and Acronyms

TPO **OCALA MARION**
TRANSPORTATION
PLANNING
ORGANIZATION

May 2021

ACRYONYM	NAME	DESCRIPTION
3-C	Comprehensive, Continuing and Cooperative	A Comprehensive, Continuing and Cooperative (3C) process is required for all Metropolitan Planning Organizations to be eligible for Federal transportation funding.
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.
ADA	Americans with Disabilities Act	The Americans with Disabilities Act prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. It utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation-monitoring resources.
CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented. (reworded)
CBSA	Core Based Statistical Areas	CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel. (reworded)
CFMPOA	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law.

ACRYONYM	NAME	DESCRIPTION
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.)
CMP	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.
CTC	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation-disadvantaged/)
CTD	Commission for the Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funds to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities. (Definition taken from NCFRPC - http://www.ncfrpc.org/TD/td.html)
CTPP	Census Transportation Planning Products	The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau.
CTST	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition.
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/programs/dbe/)
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/communitytransystem.htm)
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions

ACRYONYM	NAME	DESCRIPTION
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is being sought.
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify what impacts may occur from planned transportation projects.
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.
FAST Act	Fixing America's Surface Transportation Act	The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.
FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida- https://jobs.myflorida.com/go/Department-of-Transportation/2817700/)
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal-aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.
FMTP	Freight Mobility and Trade Plan	FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future.
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.

ACRYONYM	NAME	DESCRIPTION
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.
FY	Fiscal Year/Federal Fiscal Year	The TPO's Fiscal Year is from July 1-June 30. The Federal Fiscal Year is from Oct 1-Sept 30. (Confirming that these are our TPO's fiscal year dates too?)
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.
HIS	Interstate Highway System	The specially designated system of highways, begun in 1956, which connects the principal metropolitan areas, cities, and industrial centers of the United States.
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.
HSIP	Highway Safety Improvement Program	The goal of the program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.
HUD	Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.
IRI	International Roughness Index	International Roughness Index is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface.
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing used singly or in combination to improve the efficiency or safety of a surface transportation system.
LOS	Level of Service	Level of Service is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.
LOPP	List of Priority Projects	The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding.

ACRYONYM	NAME	DESCRIPTION
LRTP/MTP	Long-Range Transportation Plan (also known as a Metropolitan Transportation Plan)	A document resulting from regional or statewide collaboration and consensus on a region's transportation system. It serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp/
LOTTR	Level of Travel Time Reliability	The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS).
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.
MPA	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.
MPO	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
MPOAC	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.
MSA	Metropolitan Statistical Areas	Are (?) Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.
NTD	National Transit Database	The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems.
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.

ACRYONYM	NAME	DESCRIPTION
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)]
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103b). (23CFR500)
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https://www.fdotd7studies.com/what-is-a-pde-study.html)
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.
PM	Performance Management	Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals.
PPP	Public Participation Plan	The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.
PTASP	Public Transportation Agency Safety Action Plan	A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system.
RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.
SHSP	Strategic Highway Safety Plan	This is a statewide-coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads.
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot.gov/planning/sis/default.shtm)
SOV	Single-Occupancy Vehicle	Any motor vehicle operated or driven by a single person.

ACRYONYM	NAME	DESCRIPTION
STBG	Surface Transportation Block Grant Program	The STBG promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and school officials.
TAMP	Transportation Asset Management Plan	The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts).
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.
TD	Transportation Disadvantaged	Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues.
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.

ACRYONYM	NAME	DESCRIPTION
TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10-year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.
TIGER	Transportation Investment Generating Economic Recovery	The TIGER Discretionary Grant program, provides a unique opportunity for the DOT to invest in road, rail, transit and port projects that promise to achieve national objectives. (Definition taken from USDOT- www.transportation.gov/tiger/about)
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half-mile of quality public transportation. (Definition taken from Reconnecting America- www.reconnectingamerica.org .)
TPM	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.
TPO	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities
TTTR	Truck Travel Time Reliability Index	The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system.
UA	Urbanized Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.

ACRYONYM	NAME	DESCRIPTION
ULB	Useful Life Benchmark	The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration.
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.
USC	United States Code	The codification by subject matter of the general and permanent laws of the United States.
USDOT	United States Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.
YOE	Year of Expenditure	The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed.
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period. (Definition taken from Wikipedia)

APPENDIX H: MAJOR PROJECT CHANGES FROM PRIOR TIP

Major Project Changes

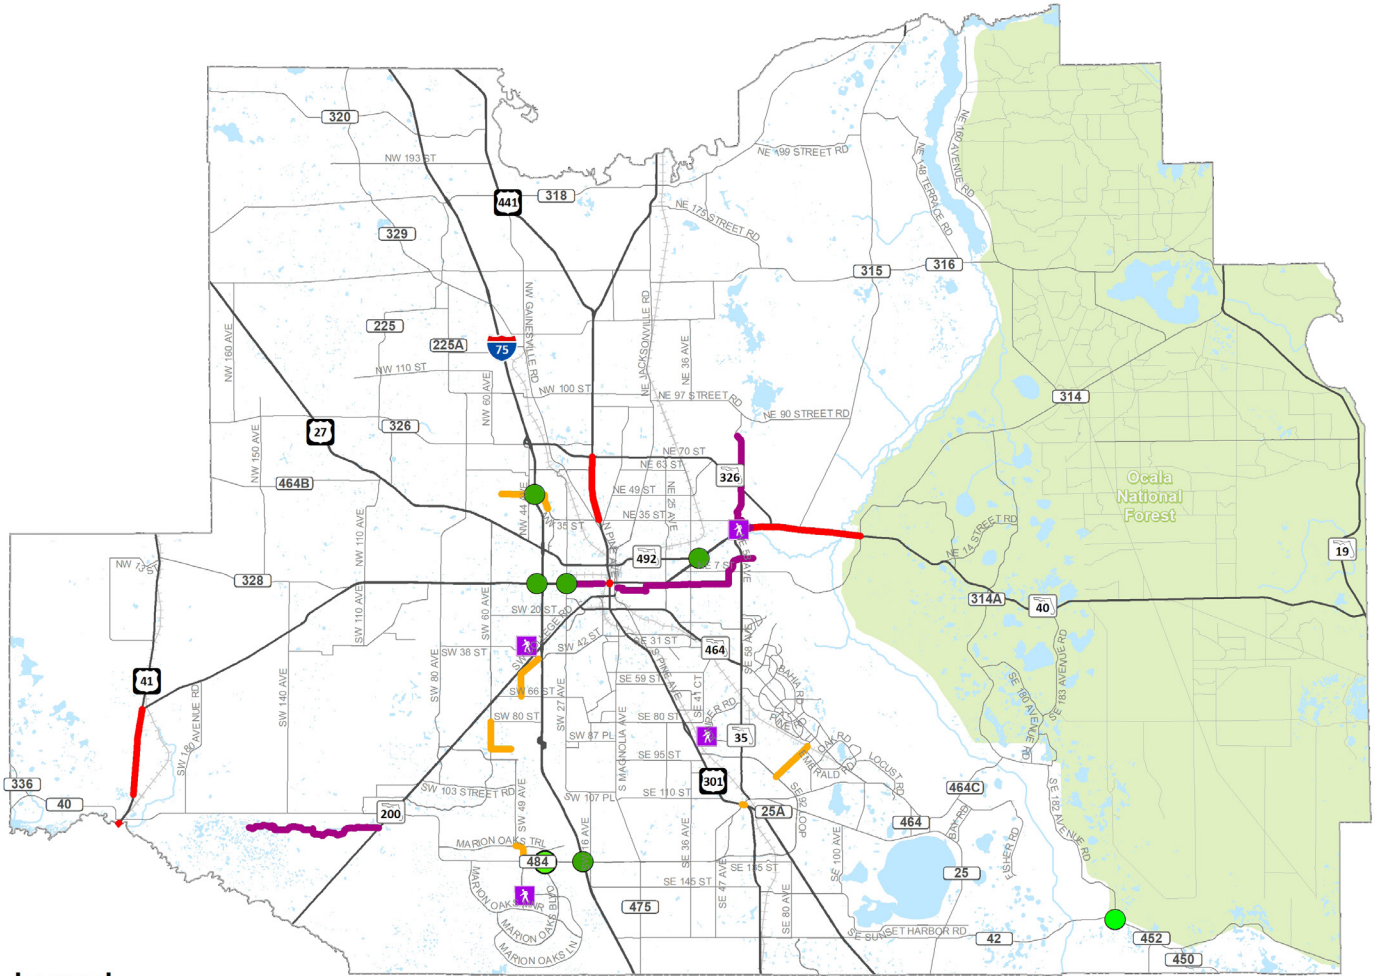

Major projects include improvements to transportation facilities in Marion County that serve regional needs. The following lists summarize major projects that were listed in the previous FY 2020/2021 to FY 2024/2025 TIP, and their respective status toward implementation. The status of these projects are identified as either in progress or completed. Changes to funding are also noted for major projects funded in both the previous TIP and the new FY 2021/2022 to FY 2025/2026 TIP.

Major Projects in Progress	
Project Number/FM	Project Description
4453211	Wildwood Mainline Weigh In Motion (WIM)
4411361	US 301 from CR 25A to US 301/US 441 Resurfacing
4458021	US 301 Median Access from NW 35th to SR 326
4413661	SR 40 from SW 27th to MLK Jr. Median Access
4336511	CR 484 from SW 20th to CR 475A

Major Projects - Funding Changes			
Project Number/FM	Project Description	Changes from 20/21 to 24/25 TIP	Change in Funding
4453211	Wildwood Mainline Weigh In Motion (WIM)	Funding Increase	\$2,091,373
4336601	US 441 at SR 464	Funding Increase	\$3,199,243
4336611	US 441 from SR 40 to SR 40A	Funding Decrease	-\$1,603,444
4106742	SR 40 from End of Four Lanes to East of CR 314A	Funding Decrease	-\$5,181,957
4336511	CR 484 from SW 20th to CR 475A	Funding Increase	\$4,078,864
4392341	SR 200 from I-75 to US 301	Funding Decrease	-\$1,254,072
4411411	SR 464 from US 301 to SR 35	Funding Decrease	-\$1,514,432

RE: Draft 2021 List of Priority Projects (LOPP)

On an annual basis, the TPO works in close collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and the Florida Department of Transportation (FDOT) to develop and submit a **List of Priority Projects (LOPP)**. This process is undertaken to identify the highest priority projects to receive consideration for federal and state funding through the FDOT Work Program. To further explain this process, please find attached a one page fact sheet on the LOPP and a three page LOPP summary document.

The LOPP process serves as the key connection between projects identified in the 2045 Long Range Transportation Plan (LRTP) Cost Feasible Plan and the Transportation Improvement Program (TIP). Therefore, in order for a project to receive federal and state funding, it must be in the LRTP Cost Feasible Plan or Boxed Funds List and TIP.

The initial **draft 2021 LOPP** is included with this memo. TPO staff are proposing to once again adopt a Top 20 List. Additionally, a second tier of projects 21 to 41 is also proposed, along with other high priorities (Future Consideration) currently listed in the 2045 LRTP Needs Plan (unfunded needs). As you may recall, in 2019 FDOT requested the TPO consolidate three separate priority lists (On-System, Off-System, Trails) into one comprehensive list.

Please plan to attend the TAC meeting and come ready to discuss the proposed 2021 LOPP and express any insights, concerns or requests for modifications. Your input and direction will be pivotal to finalizing the 2021 LOPP by June.

If you have any questions regarding the draft FY 2021/22 to 2025/26 TIP and public process, please contact me at 438-2631.

What is the List of Priority Projects (LOPP)?

The Ocala Marion Transportation Planning Organization's (TPO) **List of Priority Projects (LOPP)** is a prioritized list of projects that are identified and selected from the TPO's **Long-Range Transportation Plan (LRTP)**. The LRTP process identifies needed improvements, which are then prioritized and evaluated against anticipated revenues. The project list that comes out of the LRTP process is also known as the **Cost Feasible Plan**.

The LOPP is taken from the projects listed in the Cost Feasible Plan section of the LRTP and is evaluated on an annual basis. This process is first done by TPO staff consulting with planners and engineers from both Marion County and the Cities of Belleview, Dunnellon and Ocala. After direct consultation with technical staffs at the local jurisdictions, the LOPP is then discussed with the TPO's Technical Advisory

Committee (TAC) and Citizen Advisory Committee (CAC) before being submitted to the TPO Board for final approval. TPO staff submits a **Top 20 project list** from the LOPP and presents to the TPO Board for discussion before being voted on and submitted to the Florida Department of Transportation (FDOT) for their funding and programming process.

The goal of the LOPP is to obtain funding towards implementing the projects. When any of the projects are funded through FDOT each year, they will make their way into the TPO's **Transportation Improvement Program (TIP)** – the five-year schedule of programmed transportation projects. For more information on the LRTP and TIP, please review the TPO's Fact Sheets on these specific plans and processes at: www.OcalaMarionTPO.org.

Prioritization Process

TPO List of Priority Projects (LOPP)

On an annual basis, the TPO works collaboratively with the cities of Belleview, Dunnellon, Ocala, Marion County and the Florida Department of Transportation to develop a List of Priority Projects (LOPP). The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding through the Florida Department of Transportation (FDOT) Work Program.

As outlined in the LOPP Fact Sheet (<https://ocalamariontpo.org/wp-content/uploads/2020/09/LOPP-Infographic.pdf>), this process serves as the connection or bridge between the 2045 Long Range Transportation Plan (LRTP) and the Transportation Improvement Program (TIP). The primary goal of the LOPP is to finalize a **Top 20 List** of projects eligible to receive funding.

LOPP Process

The LOPP is an ongoing, dynamic process. TPO staff serve as the manager and facilitator. The following summary provides an overview of the LOPP process currently followed by the TPO. The LOPP development is conducted from March to June.

The development of the annual LOPP involves twelve (12) key steps.

1. Review the current TIP and FDOT Tentative Work Program to determine eligible projects, including project phases
2. Identify in the Cost Feasible Plan of the 2045 LRTP all roadway and intersection/interchange projects eligible for consideration
3. Review the Multimodal and ITS Boxed Fund projects lists in the 2045 LRTP for eligibility
4. TPO requests individual meetings with staff members of the four jurisdictions to discuss projects and respective priorities (March, April)
5. Development of an initial list of all eligible priority projects based on input from jurisdictions
6. Analyze and score all eligible projects through the adopted LOPP ranking process
7. Present initial draft LOPP list to the Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) (May)

8. Present initial draft LOPP list to the TPO Board with CAC and TAC comments (May)
9. Based on feedback and direction from the committees and TPO Board, development of a proposed Top 20 LOPP
10. Present the Top 20 LOPP to the TAC, CAC and TPO Board (June)
11. TPO Board adoption of the final Top 20 LOPP (June)
12. TPO submits Top 20 LOPP to FDOT no later than June 30

LOPP Ranking Methodology

In May 2019, the TPO Board approved a revised process to annually rank transportation projects in Marion County to support the development of one comprehensive prioritized list for submission to FDOT. The ranking criteria developed is grouped by the following six categories. A project may receive a maximum of **10** possible points.

1. **Multimodal:** The ranking criteria looks at whether a project incorporates different modes of transportation or is multimodal. If a project incorporates bike lanes, sidewalks, transit options, or offers a new alternative such as a trail, it receives one (1) point for being multimodal.
1 Point.
2. **Performance Measure(s):** Based on federal requirements, MPO/TPOs must measure the performance of projects. This is done by measuring projects based on safety, pavement/bridge condition, system performance, transit asset management and transit safety. Therefore, one (1) point is awarded to any project that meets one of the performance measures, and an additional one (1) point if the project meets two. Please note: most off-system local projects can only obtain up to one point, as most performance measures require a project to either be on or demonstrates improvements to the National Highway System (NHS). **1 Point or 2 Points.**
3. **Project Development:** This ranking criteria looks at the status of projects in their development phase. For example, if a project is in the Project Development & Environmental (PD&E) or Planning phase it receives one (1) point. Projects then receive an additional point for each phase it advances up to construction, which receives four (4) points. Please note: projects can only qualify for one of the phases at a time, with one to four points possible. **1 to 4 Points** (PD&E/Planning 1 pt; Design 2 pts; ROW 3 pts; Construction 4 pts).
4. **Funding Availability:** Federal and state transportation is highly competitive and limited. Therefore, if a project has funding already programmed and/or a lower overall cost (e.g. operations, system preservation) or a lower cost is needed to complete the project or specific phase, one (1) point may be awarded. **1 Point.**
5. **Local Revenue/Funding Source:** If a project has local revenue being invested, it receives one (1) point. **1 Point.**
6. **Local Partnership:** The ranking criteria considers whether a project has a formal partnership between two or more agencies. For example, a project could be a Local Agency Program (LAP) project, or a project that FDOT manages or helps manage for another jurisdiction. In this case, the project would receive an additional point. **1 Point.**

The ranking criteria developed by TPO staff was based on several discussions with various staff from local municipalities, FDOT and internally at the TPO staff level. In addition, the ranking criteria is integrated with the 2040 and 2045 LRTP and how the Cost Feasible and Boxed Funds projects were developed and adopted. The 2045 LRTP goals as weighted in order of significance are as follows:

1. Optimization and Preserve Existing Infrastructure
2. Focus on Improving Safety and Security of the Transportation System
3. Provide Efficient Transportation that Promotes Economic Development
4. Promote Travel Choices that are Multimodal and Accessible
5. Protect Natural Resources and Create Quality Places
6. Ensure the Transportation System Meets the Needs of the Community.

Based on the development of a revised Congestion Management Plan (CMP) and anticipated Safety Action Plan in 2021 and 2022, the TPO expects to revise this ranking methodology in 2022 for the next LOPP process to ensure a greater emphasis is placed on improving both congestion and safety. Any modifications to the methodology will be reviewed by all partners, committees and the TPO Board.

Draft 2021 List of Priority Projects (LOPP)

Technical Advisory Committee (TAC) Meeting

Marion County Library Headquarters – Meeting Room C

2710 E. Silver Springs Blvd., Ocala, FL 34470

10:30 AM

MINUTES

Members Present:

Steven Neal

Dave Herlihy (*arrived at 10:38a*)

Anna Taylor (*Rakinya Hinson attended on Anna's behalf via WebEx*)

Nany Smith

Mickey Thomason (*arrived at 10:36a*)

Eric Smith (*via WebEx*)

Elton Holland

Members Not Present:

Bruce Phillips

Kenneth Odom

Loretta Shaffer

Others Present:

Rob Balmes

Liz Mitchell

Shakayla Irby

Jessica Heller

Amber Gartner

William Roll (*virtually*)

Item 1. Call to Order and Roll Call

Chairman Elton Holland called the meeting to order at 10:34am and called the roll, there was no quorum present. Quorum was met at 10:38am with the virtual of attendance of Mr. Eric Smith.

Item 2. Proof of Publication

Secretary Shakayla Irby stated the meeting had been published online to the TPO's website, as well as the City of Ocala, Belleview, Marion County, and Dunnellon's websites on April 6, 2021. The meeting had also been published to the Star Banner news calendar, and the TPOs Facebook and Twitter pages.

Item 3A. Fiscal Years (FY) 20/21 to 24/25 Transportation Improvement Program (TIP) Amendment 1

Mr. Eric Smith attended the meeting virtually via WebEx. The committee members were in consensus to allow Mr. Smith to vote virtually which resorted in a met quorum and the committee was able to move forward in taking action on the action items.

Per the request of the Florida Department of Transportation (FDOT), two projects were proposed to be amended to the Fiscal Years (FY) 2020/2021 to 2024/2025 Transportation Improvement Program (TIP).

FM# 448816-1: Capital ARC Marion – Small Urban

- New project that will be added to the FY 2020/21 to - 2024/25 TIP
- \$6,200 added to FY 2021
- New capital project awarded from Section 5310 grant
- Support for Advocacy Resource Center (ARC) transportation services – preventative maintenance for vehicles (Marion Transit)

FM# 448854-1: NE 40th Railroad Crossing (#627890)

- New project that will be added to the FY 2020/21 to - 2024/25 TIP
- \$3,588 added to FY 2021
- This project will include funding to replace incandescent bulbs and lenses with LED bulbs and lenses at the railroad crossing

Ms. Smith made a motion to approve the Fiscal Years (FY) 20/21 to 24/25 Transportation Improvement Program (TIP) Amendment 1. Mr. Neal seconded, and the motion passed unanimously.

Item 3B. Fiscal Years (FY) 20/21 to 24/25 Transportation Improvement Program (TIP) Amendment 2

The Moving Ahead for Progress in the 21st Century Act (MAP-21) required State DOTs and MPO/TPO's to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures.

Approved –

On July 19, 2018, the Federal Transit Administration (FTA) issued a requirement to all transit agencies to publish a Public Transportation Agency Safety Plan (PTASP) and corresponding safety targets. The effective date of the regulation was July 19, 2020, but was later extended to December 31, 2020 due to the global pandemic. On November 30, 2020, SunTran through the City of Ocala City Council adopted a PTASP and corresponding safety targets (captured below).

SunTran Safety Performance Targets							
Performance Targets based on collected data from the previous three years							
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles) VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles) VRM)	Safety Events Total	Safety Events (per 100k vehicle revenue miles) VRM)	System Reliability (VRM/ failures)
Fixed Route Bus	0	0	1	.20	5	1.03	7,492
ADA Paratransit	0	0	0	0	0	0	0

Upon adoption, MPO/TPO’s are then required by law within 180 days to either adopt the local transit agency (SunTran) safety targets into their respective planning processes and performance management, or develop their own independent targets.

Based on a review of the PTASP and corresponding safety targets, TPO staff recommended adoption of SunTran’s safety targets and to amend the FY 2020/21 to 2024/25 TIP as proposed.

Mr. Thomason made a motion to approve the Fiscal Years (FY) 20/21 to 24/25 Transportation Improvement Program (TIP) Amendment 2. Mr. Herlihy seconded, and the motion passed unanimously.

Item 4A. Congestion Management Plan

The TPO was in the process of conducting a major update to the Congestion Management Process (CMP) with its consultant team Kimley-Horn. The last significant development of the CMP was in 2011, which included CMP Policy and Procedures and State of the System reports.

In 2021, the TPO had plans to develop one revised comprehensive Congestion Management Plan (CMP). The TPO was seeking your review and feedback at the April 13 meeting for three key elements of the CMP:

- 1. Draft CMP Goals**
- 2. Performance Measures**
- 3. Proposed CMP Network**

Mr. William Roll with the Kimley-Horn team provided an overview presentation and facilitated discussion to obtain the committee feedback and guidance. Presentation provided in meeting packet. Reference page 209 of the meeting packet April 13, 2021.

It was added by Mr. Balmes, that the results of the 30-day **Public Survey** conducted in March were provided to the committee. Reference page 252 of the meeting packet April 13, 2021.

The process for developing the CMP would be a collaborative effort with the TAC throughout the year at upcoming meetings in May, June, August, September and October.

Mr. Roll opened the floor for committee engagement and discussion.

Item 5A. List of Priority Projects (LOPP) and Fiscal Years (FY) 21/22 to 25/26 TIP

Schedule

Mr. Balmes presented and said that on an annual basis, the TPO developed an update to the Transportation Improvement Program (TIP) and List of Priority Projects (LOPP). The TPO was required to submit both an adopted TIP and LOPP to the Florida Department of Transportation (FDOT) by June 30, 2020.

A summary was provided that outlined the upcoming schedule for both the TIP and LOPP as a general reminder.

2021 List of Priority Projects (LOPP) Schedule

- March 17: LOPP notice sent to partner agencies
- March and April: Meetings with partner agencies to discuss priorities
- April: TPO staff score and rank priorities
- May 11: TAC and CAC review of draft LOPP
- May 25: TPO Board review of draft LOPP
- June 8: TAC and CAC final review
- June 22: TPO Board final review and adoption
- June 30: TPO staff submission of adopted 2021 LOPP to FDOT

Fiscal Years 2021/22 to 2025/26 TIP Schedule

- May 11: Minimum 30-day public notice of draft TIP
- May 11: TAC and CAC presentations of draft TIP
- May 25: TPO Board presentation of draft TIP and public comment
- June 8: TAC and CAC final review
- June 22: TPO Board final review and adoption; close of public comment period
- June 30: TPO staff submission of adopted TIP to FDOT

Item 5B. National Bike Month

Shakayla Irby, Admin Specialist/ Social Media Coordinator presented and said that as part of celebrating National Bike Month, the TPO would be celebrating a Bike Week with a focus on bicycle safety. Whether riding for fun, fitness or with family, or taking essential trips to work or shop, it was urged to take part in the movement for safer biking.

The week of May 17 to 23, it was encouraged that everyone Bike Safe wherever that may be. During the week the TO had plans to host a virtual Bicycle Safety Course taught by ReThink Your Commute, highlight some beautiful trails in Marion County, and share lots of bike safety information via the TPO social media platforms.

Approved –

Ms. Irby said to follow the TPO for upcoming dates and more information @Ocalamariontpo on both Facebook and Twitter. Emails would also be sent out to the committees.

The hashtag #BikeSafeOcalaMarion would be used for participants to share photos of their solo or family rides on social media using the hashtag.

Mr. Neal mentioned reaching out to Mr. Herlihy to coordinate with the School Board and also to reach out to ReThink Your Commute for incentive gifts.

Item 6. Consent Agenda

Mr. Neal made a motion to approve the Consent Agenda. Mr. Herlihy seconded, and the motion passed unanimously.

Item 7. Comments by FDOT

Ms. Rakinya Hinson with FDOT stated the Construction Report was included in the meeting packet for the committee. There were no further comments.

Item 8. Comments by TPO Staff

Mr. Balmes presented the committee with a revised 2021 meeting schedule for the future committee meetings.

Mr. Balmes also shared with the committee a Florida Transportation MPO Newsletter.

Item 9. Comments by TAC Members

There were no comments by TAC Members.

Item 10. Public Comment

There was no public comments.

Item 11. Adjournment

The meeting was adjourned by Chairman Holland at 12:04pm.

Respectfully Submitted By:

TAC Meeting Minutes – April 13, 2021

Approved –

Shakayla Irby, TPO Administrative Assistant

Ocala/Marion County Project Status Update as of May 1, 2021

The following is a brief status update on major FDOT road construction projects in Marion County. Information is also available on www.cflroads.com. For questions, please contact Anna Taylor at 386-943-5499 or via email at Anna.Taylor@dot.state.fl.us.

Current Projects:

Resurface U.S. 441 from State Road 35 (SE Baseline Road) to State Road 200 (FDOT Financial Information Number 439238-1)

The purpose of this project is to resurface U.S. 301/441 from State Road 35 (Baseline Road) in Belleview to State Road 200 in Ocala. Additional improvements include modifications to extend left and right turn lanes at various locations, removal of some of the existing on street parking in the downtown area, addition of bicycle lanes within the right of way where possible, updating and providing pedestrian features to meet current standards, and making other drainage and safety improvements as needed.

- Contract: T5675
- Contractor: D.A.B. Constructors, Inc.
- Estimated Start: January 2021
- Estimated Completion: Fall 2021
- Cost: \$15.7 million
- Update: The contractor has been working mostly along the shoulders of U.S. 441 and in the right of way to prepare the roadway for paving work in the coming weeks. There have been some lane closures in the Santos area north of Belleview for work to lengthen and widen turning lanes. Work is also occurring in the median at the CSX Railroad overpass south of Southeast 3rd Avenue. The inside travel lanes are closed for the next few weeks while this work is ongoing.

ITS Florida Regional Advanced Mobility Elements (FRAME) (FDOT Financial Information Number 440900-1)

- Contract: T5662
- Contractor: Contract Network LLC
- Estimated Start: Summer 2019
- Estimated Completion: Spring 2021
- Cost: \$5.5 million
- Update: The contractor has been working along U.S. 441 and along a number of streets in the City of Ocala to install vehicle detection loops in the roadway approaching various intersections. These loops provide instantaneous feedback to Traffic Centers about the

volume and flow of traffic. These installations have necessitated brief nighttime lane closures in various locations in the city.

Widen Northeast 36th Avenue to four lanes and construction of bridges over CSX rail line (FDOT Financial Information Number 431798-3)

- Contract: E5Z71
- Contractor: SEMA Construction, Inc.
- Estimated Start: Summer 2019
- Estimated Completion: Summer 2021
- Cost: \$16.4 million
- Update: The four-lane bridge over the CSX rail line is being constructed in two phases. The eastern two lanes is open to traffic, while the western two lanes are under construction. There are currently detours on Northeast 21st and Northeast 24th streets.

This is an access management project along West Silver Springs Boulevard, between SW 27th Avenue and Martin Luther King Jr. Boulevard in the City of Ocala. Work includes converting full median openings to directional medians, closing three of the existing full median openings, and extending some of the turn lanes. (FDOT Financial Information Number 441366-1)

- Contract: T5710
- Contractor: CW Roberts Contracting
- Estimated Start: Spring, 2021
- Estimated Completion: Summer, 2021
- Cost: \$627,000
- Update: This project began in the third week of April with preparation work.

Upcoming Projects:

Mill and resurface U.S. 441 from County Road 25A in Ocala north 8.8 miles to the U.S. 441/301 split (FDOT Financial Information Number 441136-1)

- Contractor: TBD
- Estimated Start: Summer, 2021
- Estimated Completion: Spring, 2022
- Cost: \$17.8 million
- Update: The contract for this project is expected to be executed in late May and construction is tentatively scheduled to begin in July.

Florida Transportation Legislative Newsletter

05/02/2021

Overview

Here is the last newsletter of the session! Maybe we could have said it went fast, but it didn't. There were a lot of painful bills, some we defeated and some that have passed by our legislature. It was a session unlike any other and not just because of COVID, although that was a big factor. Certainly, COVID changed the dynamics of the session and that was the predominate factor that allowed many controversial pieces of legislation to pass this year. The session was different overall but one tradition that carried over from previous years was the dropping of the hankie to ceremonially close the session.

Most news stories covering the capitol are saying the governor had a great session. All of his legislative priorities were passed and sent, or will be sent, to his desk for signature. Sadly, the same cannot be said for the voters of Key West. They were sure they had defeated the ports pre-emption bill and that defeat would have allowed the voter referendum to stand. Instead the language of the bill they opposed, and had stopped, was amended onto another bill and passed in the crazy last days of the session. Yogi Berra says it best: "It ain't over till it's over." Sorry Key West.

For the MPO world, the mid-block crossing bills that we feared did not pass. They will be back next year. These are HB 1113 and SB 1492. It was close and could have easily gone the other way, they will be back again in some form or fashion. There were other bills that concerned us such as the RPC bill which happily did not reappear in the last days of the session. For the MPO world it was a good year, more money for transportation and nothing passed that hurt us. I know it sounds like this is a pessimist view, but we have to be thankful for the little things. A \$1B increase in funding is actually a big thing, but keep in mind that was the funding level last year.

As for the one thing that the legislature must do, they passed a budget with total funding at \$101.5B. That is a 9% increase over the current year budget and considering how dire the predictions were at the beginning of the session for the state finances, Florida came out really well.

We could talk about various bills, instead let's look at the results of what passed and what did not. The scorecard can tell the story. This newsletter is quite different from the others this session. Out of habit we still use **RED** to show which bills passed (or a companion bill). Bills that did not pass are shown in strikethrough. As for the newsletter, maybe we will see you next year, time and events will tell. If not, it has been fun to be with you on Saturday mornings over a cup of coffee. Happy Trails! 😊

Grab a cup of coffee and enjoy the end of session edition of the Florida MPOs Legislative Update.

Important Dates for the 2021 Legislative Session

- August 1, 2020 - Deadline for filing claim bills (Rule 4.81(2))
- January 29, 2021 5:00 p.m. - Deadline for submitting requests for drafts of general bills and joint resolutions, including requests for companion bills.
- February 26, 2021 5:00 p.m. - Deadline for approving final drafts of general bills and joint resolutions, including companion bills.
