

#### **TPO Board Meeting**

Marion County Commission Auditorium 601 SE 25th Avenue, Ocala, FL 34471

February 28, 2023 4:00 PM

#### AGENDA

- 1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE
- 2. ROLL CALL
- 3. PROOF OF PUBLICATION

#### 4. CONSENT AGENDA

- A. Meeting Minutes January 24, 2023 (Page 3)
- **B.** Director Travel (Page 32) *Recommended Action: Motion to approve*

#### 5. ACTION ITEMS

- A. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Amendment #4 (Page 62) Recommended Action: Staff is seeking approval of a TIP amendment.
- **B.** <u>Performance Management 2023 Safety Targets</u> (Page 280) *Recommended Action: Staff is seeking approval of Safety Performance Targets for 2023.*
- C. 2022 List of Priority Projects (LOPP) Amendment (Page 317) Recommended Action: Staff is seeking approval of a LOPP amendment.
- **D.** Strategic Intermodal System (SIS) TPO Board Letter (Page 321) *Recommended Action:* Staff is seeking approval of a letter to the Florida Department of Transportation (FDOT) regarding comments on the draft SIS Plans for Marion County.

#### 6. DISCUSSION ITEMS

- **A. <u>2020 U.S. Census Update</u>** (Page 354) *An update by TPO staff on the Census Urban Areas. Information only.*
- **B.** <u>Commitment to Zero Activities</u> (Page 357) An update by TPO staff on 2023 activities in support of Commitment to Zero. Information only.

- C. 2045 Long Range Transportation Plan (LRTP) Update (Page 364)
- D. 2022 TPO Annual Report (Page 366)

#### 7. COMMENTS BY FDOT

- **A. Moving Florida Forward Infrastructure Initiative** (Page 382)
- B. FDOT Construction Report (Page 388)
- 8. COMMENTS BY TPO STAFF A. MPOAC 2023 Policy Positions (Page 391)
- 9. COMMENTS BY TPO MEMBERS

#### **10. PUBLIC COMMENT (Limited to 2 minutes)**

#### **11. ADJOURNMENT**

All meetings are open to the public, the TPO does not discriminate on the basis of race, color, national origin, sex, age, religion, disability and family status. Anyone requiring special assistance under the Americans with Disabilities Act (ADA), or requiring language assistance (free of charge) should contact Liz Mitchell, Title VI/Nondiscrimination Coordinator at (352) 438-2634 or liz.mitchell@marioncountyfl.org forty-eight (48) hours in advance, so proper accommodations can be made.

Pursuant to Chapter 286.0105, Florida Statutes, please be advised that if any person wishes to appeal any decision made by the Board with respect to any matter considered at the above meeting, they will need a record of the proceedings, and that, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

The next regular meeting of the Ocala Marion Transportation Planning Organization will be held on March 28, 2023.

#### **TPO Board Meeting**

Marion County Commission Auditorium 601 SE 25<sup>th</sup> Avenue, Ocala, FL 34471 January 24, 2023 4:00 PM

#### **MINUTES**

#### **Members Present:**

Councilmember Ire Bethea Commissioner Craig Curry Commissioner Ray Dwyer Commissioner Jeff Gold Mayor Kent Guinn Councilmember James Hilty Councilmember Barry Mansfield Commissioner Michelle Stone Vice-Mayor Wally Dunn

#### Members Not Present:

Commissioner Kathy Bryant Councilmember Kristen Dryer Commissioner Carl Zalak

#### **Others Present:**

Rob Balmes, TPO Shakayla Irby, TPO Liz Mitchell, TPO Anna Taylor, FDOT Jonathan (Jon) Scarfe, FDOT Mike McCammon, FDOT Oscar Tovar, City of Ocala Darren Park, City of Ocala Sean Lanier, City of Ocala Sean Lanier, City of Ocala Clayton Murch, Marion Senior Services Elizabeth Alt, Senior Assistant County Attorney Other members of the public not signed in.

#### Item 1. Call to Order and Pledge of Allegiance

Chairman Craig Curry called the meeting to order at 4:00pm.

#### Item 2. Roll Call

Shakayla Irby, Administrative Assistant called the roll and a quorum was present.

#### Item 3. Proof of Publication

Shakayla Irby, Administrative Assistant stated the meeting was published online at the TPO website and the City of Ocala, Belleview, Dunnellon, and Marion County meeting calendars on January 17, 2023. The meeting was also published to the TPO's Facebook and Twitter pages.

#### **Welcomes**

Chairman Curry welcomed to the TPO Board City of Belleview Commissioner Ray Dwyer and City of Dunnellon Vice-Mayor Wally Dunn to the TPO Board.

Chairman Curry also welcomed Hernando/Citrus MPO Executive Director, Bob Esposito to the TPO Board meeting as an attending guest.

#### Item 4. Consent Agenda

Mr. Gold made a motion to approve the Consent Agenda. Mr. Mansfield seconded, and the motion passed unanimously.

#### Item 5a. Title VI/Non-Discrimination Plan Update

Ms. Mitchell presented the Title VI Plan Update and said that the TPO had currently updated the plan to ensure that the TPO complied with the Title VI/ Nondiscrimination 1964 Civil Rights Act.

Ms. Mitchell explained that Title VI of the Civil Rights Act of 1964 was the Federal law that protected individuals and groups from discrimination based on their race, color, sex, age, disability, income and national origin.

All Recipients of federal funding must comply with the requirements of Title VI of the Civil Rights Act of 1964, and the Florida Civil Rights Act of 1992, does not permit discrimination based on religion or family status.

All the nondiscrimination statutes, rules, regulations and authorities were required and had to take place in the TPO's employment, transportation programs, services, events or activities.

Ms. Mitchell highlighted the following updates to the plan:

• Added clarity to the CAC, TAC, and TPO Board membership representation and the guidance they provided.

- Instituted a robust but easy to follow complain procedure, with blank forms attached and various Civil Rights Certifications and Assurances.
- 2045 Long Range Transportation Plan, Assessment of Investments in Environmental Justice Areas
- The plan also provided updated graphs, demographics, and population tables to reflect the new 2020-21 Census data.

The TPO continued to accommodate anyone with disabilities such as, blind and hearing impaired, as well as any language barriers through our Website, Social Media Platforms or as requested.

The TPO Title VI Plan encompasses all the rules and regulations required to ensure that all members of the community are involved and participation was solicited throughout the planning process.

Ms. Mitchell ended her presentation saying, the TPO actively ensured that diversity and equality was at the forefront of all its actions. Completely committed to making sure everyone had an equal footing to the TPO's plans, programs, meetings, activities and events.

*Mr. Bethea made a motion to approve the Title VI/Non-Discrimination Plan Update. Mr. Guinn seconded, and the motion passed unanimously.* 

#### Item 5b. Transportation Disadvantaged Service Area Study Scope of Services

Mr. Balmes presented to the board and said that the TPO serves the Transportation Disadvantaged Local Coordinating Board (TDLCB) in Marion County, and was seeking to work with Marion Transit (MT) to conduct an analysis of transportation disadvantaged and rural public transportation service.

This service analysis was meant to assess modifications to transportation disadvantaged rural services and to meet the growing demand in Marion County. Additionally, results from the 2020 Census were impacting the need for the analysis.

An important aspect of the project would involve identifying areas of the County to maximize the use of existing levels of available transit service funding. The project corresponded directly to the implementation of Goal 1 of the Transportation Disadvantaged Service Plan (TDSP): "*To provide the best possible transportation service to those in the service area*".

As identified in the TDSP managed by the TPO, the Critical Need disadvantaged population in Marion County had been estimated to be 24% or 84,900 residents, including 33,200 non-elderly residents. The Critical Need population included individuals who, due to physical limitations or low income, are unable to transport themselves or purchase transportation and are dependent upon others to obtain access to health care, employment, education, shopping, social activities, and other life-sustaining activities.

Over the next five years, the number of Critical Need trips in Marion County was projected to increase by 9.2%. Additionally, Marion County continued to age with residents over 65 representing about 29% (109,000) the total population.

The TPO Board was asked to review and approve the project as it would be funded through the Unified Planning Work Program (UPWP) using Federal Transit Administration (FTA) 5305d planning funds.

The project would specifically involve a Task Order with the TPO's General Planning Consultant Kimley-Horn and Associates to complete a transportation disadvantaged service analysis on the Census-designated Rural areas of Marion County.

Ms. Stone made a comment that as the Chair of the TDLCB she enjoyed serving and that the members of the board were very engaged and supportive of the project and hoped that the outcome could allow for service expansion.

Chairman Curry inquired about the size of the Marion Transit buses and cost of rides.

Mr. Clayton Murch, Transportation Director/ Community Transportation Coordinator of Marion Senior Services approached the board and said that the buses were equipped to transport 12 people depending on how many wheelchair transports were needed per bus. Normal fares for Marion Transit were \$2 each way. However, step on and step off rides had been free of charge.

Mr. Murch also talked about ways that Marion Transit would get the word out to riders which included informational flyers.

Mr. Gold made a motion to approve the Transportation Disadvantaged Service Area Study Scope of Service. Mr. Bethea seconded, and the motion passed unanimously.

#### Item 5c. Fiscal Years 2022/23 to 2023/24 Unified Planning Work Program (UPWP) Amendment

Mr. Balmes presented and said that TPO staff proposed to amend the Fiscal Years (FY) 2022/2023 to FY 2023/24 Unified Planning Work Program (UPWP) to include an activity related to consultant services support in Task 7 Special Projects.

The activity had derived from the task order scope of services detailed in agenda item 5B.

The proposed UPWP change was as follows:

#### • Task 7: Special Projects

- **Task**: Conduct a Transportation Disadvantaged (TD) Service Area Analysis based on changes to the 2020 US Census Urban Area boundaries. This service analysis is meant to assess modifications to current services and to meet the growing demand in Marion County.
- Funding: Currently \$28,715 in budget for consultant services
  - Add task: TD Service Area Analysis
    - Move \$28,715 from Consultants to TD Service Area Analysis
  - Move \$2,165 in Salaries from Task 1 to Task 7 TD Service Area Analysis
  - Move \$2,000 in Salaries within Task 7 to TD Service Area Analysis
- **Total**: \$32,880
- Funding Source: Federal Transit Administration (FTA) 5305d, G248 Grant

*Mr. Bethea made a motion to approve Fiscal Years 2022/23 to 2023/24Unified Planning Work Program (UPWP) Amendment. Mr. Mansfield seconded, and the motion passed unanimously.* 

#### Item 5d. Fiscal Years 2023 to 2027 Transportation Improvement Program (TIP) Amendment #3

Mr. Balmes presented and said that per the request of the Florida Department of Transportation (FDOT), one project had been proposed to be amended in the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP).

The current I-75 Rest Area project (FM 438562-1) was receiving federal funding from the Carbon Reduction program and additional state funding to ensure completion. The original and proposed project pages were provided in the agenda packet, along with the complete TIP document.

### FM# 438562-1: I-75 (SR 93) Rest Area Marion County, from North of CR 484 to South of SR 200

- Funds to be added: \$12,437,031
  - Federal: \$6,524,619
    - State: \$5,912,412
- FY 23 Construction (CST) phase
- Total TIP Funding: \$42,379,024

#### *Mr. Guinn made a motion to approve Fiscal Years 2023 to 2027 TIP Amendment #3. Mr. Mansfield seconded, a roll-call vote was called and the motion passed unanimously.*

#### <u>Item 6a. Florida Department of Transportation (FDOT) Fiscal Years (FY) 2024 to 2028</u> <u>Tentative Work Program</u>

Ms. Anna Taylor, with FDOT District 5 provided a presentation to the committee covering the Tentative Five-Year Work Program for fiscal years (FY) 2024 through 2028 in Marion County.

The FDOT District 5 Work Program Public Hearing Week took place from December 5 to 9, including a Public Hearing Workshop meeting held both virtually and at the District Headquarters in DeLand on December 6, 2022.

Ms. Taylor talked about some of the project impacts in a review of the year 2022.

- Cost increases; material and labor shortages, premium pricing for certain materials (i.e., electrical, steel) and augmented project unknowns
- Limited competition; single bids at significant high costs, selective pursuits
- Dynamic cost estimation and predictions; forecasting of ongoing/future projects in the pipeline
- ROW Impacts Included: Approximately 15% increase on land prices, and higher severance damage and appraisal costs

The presentation covered how FDOT went about Building and Balancing the Tentative Work Program.

According to the Five-Year Work Program, Marion County was on track to receive \$368,163,260 in funding.

Ms. Taylor highlighted the following Key Projects:

#### FM# 435209-1:

TPO Priority #1, SIS #1 I-75 (S.R. 93) at NW 49th Street, from end of NW 49th Street to end of NW 35th Street New Interchange Construction funded in FY 24/25 Funding in Tentative Work Program: \$33,565,826

#### FM# 238648-1:

TPO Priority #14, Non-SIS #8 S.R. 45 (U.S. 41), from SW 110th Street to north of SR 40 Add lanes and reconstruct Construction funded in FY 27/28 Funding in Tentative Work Program: \$62,027,312

#### FM# 410674-3:

SIS #11 S.R. 40, from east of C.R. 314 to east of C.R. 314A Future Capacity Right of Way funded in FYs 23/24 and 24/25 Funding in Tentative Work Program: \$25,293,495

#### FM# 450637-1:

U.S. 27, from Sumter County Line to U.S. 301 / Abshier (Belleview) Resurfacing Design funded in FY 23/24 and Construction funded in FY 25/26 Funding in Tentative Work Program: \$21,434,383

#### FM# 450948-1:

S.R. 40, from NE 64th Avenue to west of NE 60th Court Resurfacing Design funded in FY 23/24 and Construction funded in FY 25/26 Funding in Tentative Work Program: \$24,831,080

#### FM# 451253-1:

S.R. 200 (SW College Road) at SW 60th Avenue Safety Project Design funded in FY 23/24 and Construction funded in FY 25/26 Funding in Tentative Work Program: \$723,118

#### FM# 451251-1:

S.R. 40 (W. Silver Springs Boulevard) at SW 27th Avenue

Safety Project Design funded in FY 24/25 and Construction funded in FY 26/27 Funding in Tentative Work Program: \$1,595,576

#### FM# 439238-2:

Trail Priority #1, Bike/Ped Priority #3 S.R. 25 (S.R. 500/US 441) from SE 102nd Place to SR 200/SW 10th Street Bike Lane/Sidewalk Construction funded in FY 24/25 Funding in Tentative Work Program: \$3,972,004

The board had some discussion on the different types of improvements and phases of the key projects.

Ms. Taylor provided contact information for Ms. Kathy Alexander-Corbin with FDOT for any questions regarding the Work Program.

Phone: (386) 943-5168 Email: Katherine.Alexander@dot.state.fl.us

#### Item 6b. TPO Financial Report

Ms. Liz Mitchell presented the TPO Financial Report. On a quarterly basis the TPO updated the TPO Board to ensure they were informed of funding status and the financial outlook throughout the year.

The financial snapshot is attached to page 13 of this set of minutes for reference.

#### Item 6c. 2020 U.S. Census Update

Mr. Balmes provided the 2020 U.S. Census Update.

Mr. Balmes shared with the board on December 29, 2022, the U.S. Census Bureau released the finalized listing of 2020 Urban Areas. The listing had been based on the 2020 Final Urban Area Criteria, published in March 2022. As of January 17, 2023, maps were not available. Maps were made available on January 19, 2023.

According to the U.S. Census, the population of the 2020 Ocala Urban Area is 182,647. Additionally, the other U.S. Census-designated Urban Areas in Marion County included: Marion Oaks with a population of 19,077; Rainbow Springs with a population of 4,667; and Lake Bryant with a population of 3,632.

Mr. Balmes presented a slideshow presentation that also provided the maps showing the 2020 designations and also with an overlay of the 2010 designations.

#### The presentation is attached to pages 14-29 of this set of minutes for reference.

In order to be part of a Transportation Management Area (TMA), an Urban Area must have a minimum population of 200,000. A submission to the Census would have to be made to

understand why the Ocala Urban Area was not part of the Villages-Lady Lake Urban Area and/or Marion Oaks Urban Area.

Per 49 U.S. Code Section 5303(k), TMA's may also be designated by the U.S. Transportation Secretary by request of the MPO and Governor.

Chairman Curry inquired if being under the threshold of 200,000 for a TMA status would make the TPO lose funds.

Mr. Balmes responded that TMA status would not affect the overall amount of federal funding coming to Marion County it would strictly be how the funding is allocated and the responsibilities of the TPO. If the TPO was a TMA it would have the responsibility of direct coordination with the federal government and every four years there would be a certification process where all the work the TPO does and documents would be thoroughly reviewed. There would also be the responsibility of having Surface Transportation Block Grant (SU) funds that the TPO board could decided to program to projects.

Ms. Stone asked Mr. Balmes to report back to the board on all the requirements that would come along with having a TMA status and how that would affect the current three TPO staff members.

Mr. Dunn inquired if the TPO could coordinate together with Lake-Sumter to find out the connection issues.

Mr. Balmes said that he would continue dialog with Lake-Sumter MPO Executive Director, Mike Woods.

Ms. Stone said that she was a little leery on the TMA status because Marion County was unique with just one county and she had concerns about joining with another MPO, saying that it may not be beneficial for Marion County.

Mr. Balmes said that when sharing a TMA area it implied that coordination should take place like some other MPOs in Florida have joint board meetings to share in priorities and discussion however, the organizations were still separate and did separate work.

Mr. Dwyer commented that the TPO board would not have any issues with coordinating with other MPOs but without being molded with anyone else it may expedite Marion County's needs.

Ms. Stone commented that her concern was for the possibility of having to fight for project priority status with other counties projects.

There was board consensus for Mr. Balmes to analyze the maps and gather more information to provide at the next TPO board meeting.

#### Item 6d. 2023 Major Activities

On an annual basis the TPO provided the board members with a summary listing of the anticipated program activities to meet organization goals and state and federal requirements.

Mr. Balmes presented the following 2023 upcoming major activities:

#### **Title VI Plan Update** Update to the TPO's Title VI/Non-Discrimination Plan Timeframe: January **TPO Board: Presentation on January 24 for approval Submission: Submit by January 31 to FDOT District 5 for their records**

#### **Safety (PM1) Targets and Federal Performance Reporting** Update and adopt PM1 safety targets to meet federal requirements for performance reporting Timeframe: January to February

#### **TPO Board: Presentation on February 28 for approval Submission: Submission on March 1 to FDOT Central Office**

#### Commission for Transportation Disadvantaged (CTD) Audit and Certification Annual process by TPO staff to perform the CTD Audit and certification of the current Community Transportation Coordinator (CTC), Marion Transit Timeframe: January to March Milestones: Presentation to TDLCB for approval on March 16 TPO Board: Presentation on March 28 for approval Submission: Due March 31 to Commission for Transportation Disadvantaged (CTD)

#### Florida Department of Transportation (FDOT) Joint Certification with the TPO Annual joint certification completed for the prior calendar year (January to December 2022) Timeframe: January to April Milestones: FDOT/TPO Certification Meeting in February/March FDOT Certification Package to TPO by end February TPO Board: Presentation by FDOT on April 25 for approval Submission: FDOT District 5 submits final Certification Package to Central Office

Pavement and Bridge (PM2), System Performance (PM3) Targets
Adopt PM2 and PM3 targets to meet federal requirements for federal performance reporting
Timeframe: March to April
TPO Board: Presentation on April 25 for approval
Submission: Submission on May 1 to FDOT Central Office

Annual List of Priority Projects (LOPP) Process Annual development of the LOPP project lists Timeframe: February to May 2022 Milestones: Draft LOPP Lists (April) Adoption of LOPP (May 23) TPO Board: Presentation of Draft LOPP on April 25 Presentation of Final LOPP on May 23 for adoption Submission: Due June 30 to FDOT District 5

**Fiscal Years (FY) 2024 to 2028 Transportation Improvement Program (TIP)** Annual development of the TIP covering FY 2024 to FY 2028, including Federal Obligations Report

Timeframe: February to June Milestones: Draft TIP and 30-day public comment period (May 16) Adoption of TIP (June 27) **TPO Board: Presentation of Draft TIP on May 23 Presentation of Final TIP and public comments for adoption on June 27 Submission: Due June 30 to FDOT District 5** 

#### **Traffic Counts Report and Online Map**

Annual update to the Traffic Counts Report and Interactive Map for Marion County Timeframe: April to May Milestones: Revised report and interactive map to reflect most current information **TPO Board: Presentation of document and interactive map on May 23** 

#### **Commitment to Zero Safety Dashboard**

Roll-out of the Commitment to Zero Dashboard and Crash Interactive Map Timeframe: February to May Milestones: Dashboard and interactive map to reflect most current five-year period of crashes **TPO Board: Presentation of dashboard and interactive map on May 23** 

#### General Planning Consultant (GPC) Contract(s)

Process to solicit, review and select GPC contract(s) for on-call, task order planning support services Timeframe: March to August Milestones: GPC contract(s) **TPO Board: Presentation of GPC selection(s)/contract(s) on June 27 for approval** 

#### Transportation Disadvantaged Service Plan (TDSP) Update

An annual update to the TDSP in service to the Transportation Disadvantaged Local Coordinating Board (TDLCB) Timeframe: April to June Milestones: TDSP Update **TPO Board: None. Presentation to TDLCB for approval and Commission for Transportation Disadvantaged (CTD)** 

**Congestion Management Plan (CMP) – State of System Report Update** Update to the CMP State of System, including comprehensive Roadway Database Timeframe: May to September Milestones: CMP State of System and Roadway database updates **TPO Board: CMP State of System Update on September 26 for approval** 

2045 Long Range Transportation Plan (LRTP) Amendment #2 (if necessary)
Amendment of the 2045 LRTP to include new projects, funding changes
Timeframe: July to September
Milestones: 30-day Public Notice by August 25
TPO Board: Public Hearing and Presentation on September 26 for approval
Submission: Submit to FDOT District 5 by September 30

#### Roll Forward TIP Amendment for Fiscal Years (FY) 2024 to 2028

Present the Roll Forward TIP Amendment based on FDOT Work Program project changes for FY 2024 to FY 2028 Timeframe: August to September Milestones: Presentation of Roll Forward TIP projects **TPO Board: Presentation of Roll Forward TIP on September 26 for approval Submission: Due September 30 to FDOT District 5** 

#### 2050 Long Range Transportation Plan (LRTP) Request for Qualifications (RFQ)

Process to develop a RFQ with Scope of Work for consultant services in support of the 2050 LRTP

Timeframe: January to November Milestones: Internal partner and board member discussion meetings, January Draft RFQ development and reviews, February to April **TPO Board: RFQ package for approval on May 23 Intended contract award for approval on September 26 Contract selection with scope of services approval on October 24** 

#### Item 7. Comments by FDOT

Ms. Taylor provided the following comments from FDOT:

- The monthly construction report was provided to the committees with a highlight on the CR 484 and I-75 Interchange Roadway Improvements that had been began construction at the beginning of the year. There would be some nightly lane closures and FDOT would keep updated. Also, the Baseline Road Project and the NW 20<sup>th</sup> Street project were wrapping up with some delays due to outside temperatures.
- Mobility Week Bike Lane Design Contest: The TPO staff had been supporting and participating with FDOT. In Marion County, Oakcrest Elementary School had been the selected participating school in the Bike Lane Design Contest. Winners were to be selected soon. Once a design was selected FDOT would work with the school to get the bike lane design installed. Design and installation would begin at the beginning of February and anticipated to be installed before March 20<sup>th</sup>.

Chairman Curry made comments about adding CR 318 in one of the plans if it was not already listed due to FDOT's change in position on the turnpike authority *hopefully* bringing more funds to the area that would have gone to the turnpike.

Mr. Balmes said that he had coordinated with Kellie Smith with FDOT along with Anna Taylor and one of the first steps was to amend the List of Priority Projects process so that by the end of February the information is listed along with a footnote in the Long Range Transportation Plan (LRTP).

Ms. Taylor said District Five was in a "holding pattern" and there was presentation scheduled to come along with public meeting for the I-75 projects but they had since had to stop and take a step back. Within a couple of months FDOT had planned to have a new sorted path with more clarity. FDOT had been working at the District level to see what the broke out projects would look like. There was anticipation of having information by the time adoption of the List of Priority Projects.

#### Item 8. TPO Board Workshop

Chairman Curry scheduled a TPO Board Workshop to be held on March 28, 2023 at the McPherson Governmental Campus Auditorium from 1:30 to 3:30 PM.

The workshop would be open to all TPO Board members and the public. A public notice would be sent seven days prior to the workshop, per the TPO's Public Participation Plan.

The Workshop would include presentations by Mark Reichert, Executive Director, Florida Metropolitan Planning Organization Advisory Council (MPOAC) and TPO staff. An open discussion would also be part of the agenda.

More details would be provided at the TPO Board Meeting and closer to the Workshop event.

#### Item 9. Comments by TPO Staff

Mr. Balmes gave the following comments:

- MPOAC would meet January 31<sup>st</sup> featuring Secretary Jared Purdue with Councilmember Dryer attending on behalf of the TPO board.
- Following the next day would be a Metropolitan Planning Partnership Meeting
- February 10<sup>th</sup> Central Florida MPOA meeting
- Shakayla Irby with TPO staff would be sending a link to the 2022 Annual Report

#### Item 10. Comments by TPO Members

Ms. Stone requested that the page numbers be listed on the board meeting agendas.

Mayor Guinn inquired about Maricamp road in front of the Publix and if there were plans to repave it.

Mr. Mike McCammon with FDOT said that the repaying would start during the summer of 2023 and take about a year to complete.

#### Item 11. Public Comment

There was no public comment.

#### Item 12. Adjournment

Chairman Curry adjourned the meeting at 5:20pm.

Respectfully Submitted By:

Shakayla Irby, Administrative Assistant

TPO FINANCIAL SNAPSHOT FISCAL YEAR 2023 July 1, 2022 to June 30, 2023										
Funds Expended         Percent           from July 1, 2022         Next Quarter         Carryover

Instructions for Completing the Contractor Travel Form

Contractor: Name of the individual who performed travel.

Contract or PO No.: Number of the contract or Purchase Order on which work was performed.

Company: The consultant's company.

Company's Address: City where the consultant's company is located.

Residence (City): City where the consultant resides.

Contact Person: Person to notify for inquiries related to the travel voucher.

Telephone No: The telephone number of the contact person.

E-Mail Address: E-Mail address of the contact person.

Date: (MM/DD/YYYY) Dates of actual travel.

Travel Performed From Point of Origin to Destination: Departing location to the city or town of where business will commence. List each location. NO ABBREVIATIONS.

Purpose or Reason for Travel: Give reason for travel. Specify name of conference, convention, seminar, training, etc. NO ABBREVIATIONS and NO ACRONYMS

Hour of Departure and Return: Actual time of departure and return. Must state A.M or P.M

Class A & B Meal Allowance: Itemize daily using the appropriate meal allowance: \$6 for breakfast, \$11 for lunch, and \$19 dinner per F.S. 112.061. Deduct any meals included in a registration fee paid by DOT.

Per Diem/Actual Lodging: Itemize daily. For per diem use the rate of \$80 per day prorated on a quarterly basis. When calculating per diem Class A travel day starts at midnight and Class B travel day begins at the time of departure. For actual lodging use single occupancy rate including taxes.

Map Mileage: Point to point mileage calculated from the Official Department of Transportation map (in-state) available on the Internet at http://www3.dot.state.fl.us/mileage.

Vicinity Mileage: Mileage other than map mileage incurred within headquarters or destination.

Incidental Expenses: List the amount and the type of charge being charged (do not itemize daily).

Column Total: Total cost for class A & B meal allowance.

Column Total: Total cost for Per Diem/Actual Lodging.

Total Miles: Total of map and vicinity mileage at \$0.445 per mile.

Column Total: Total cost of incidental expenses.

Summary Total: Total cost to the Department of Transportation.

Contractor: Individual who performed the travel.

Date: Date the travel form was prepared.

Job Title: Job title of the traveler.

Contractor's Supervisor: Traveler's supervisor.

Date: Date the authorized official approved/signed the travel form.

Typed or Printed Name: Typed or printed name of the authorized official.

Title: Job title of the authorized official.

Justification/Explanation: Explain any unusual claims for reimbursement.

Other Personnel in Party: List the names of other personnel traveling with you.

#### Meal Allowances and Travel Status are as follows:

Refer to Disbursement Handbook, Section 112.061, F.S. and Chapter 69I-42 F.A.C. and Department of Financial Services for complete instructions.

CLASS A TRAVEL STATUS - Continuous travel of 24 hours or more away from official headquarters. CLASS B TRAVEL STATUS - Continuous travel of less than 24 hours requiring overnight absence from official headquarters.

#### MAXIMUM ALLOWANCES FOR MEALS AS FOLLOWS:

BREAKFAST \$6.00 - When travel begins before 6 a.m. and extends beyond 8 a.m.

LUNCH \$11.00 - When travel begins before 12 noon and extends beyond 2 p.m.

DINNER \$19.00 - When travel begins before 6 p.m. and extends beyond 8 p.m., or when travel occurs during nightime hours due to special assignment.

(NOTE: No allowance shall be made for meals when travel is confined to the city or town of official headquarters or immediate vicinity.)

(NOTE: No allowance shall be made for meals when travel is confined to the city or town of official headquarters or immediate vicinity.)

#### **MEETING NOTICE**

Please be advised that the next Central Florida MPO Alliance meeting will be held on:

Date: Friday, February 10, 2023

Time: 10:00 a.m.

Location: MetroPlan Orlando David L. Grovdahl Board Room 250 S. Orange Avenue, Suite 200 Orlando, Florida 32801 Wireless Networ Passwo

Wireless Access Available Network = MpoGuest Password = mpoaccess

Parking Garage: 25 W. South St.

PUBLIC ACCESS: To join the meeting from your computer, tablet or smartphone, please use this link: https://us02web.zoom.us/j/81412441790?pwd=TIRrbldDU2h0QXQ4bDRCbVJBaExoUT09 Passcode: 632783

To dial in, please see the calendar item for this meeting: https://metroplanorlando.org/meetings/central-florida-mpo-alliance-cfmpoa-02-10-23/

#### AGENDA

Thank you for silencing your cell phones during the meeting.

#### Chairperson Michelle Stone, presiding

- I. Call to Order
- II. Pledge of Allegiance
- III. Introductions (CFMPOA Members and Staff)
- IV. Public Comment on Action Items

People wishing to comment on Action Items must complete a "Speakers Introduction Card" at the reception desk. Each speaker is limited to two minutes.

#### V. Reports

#### a. Delegation Reports (Info only)

- Lake-Sumter MPO Report
- MetroPlan Orlando Report
- Ocala/Marion TPO Report

#### b. FDOT District Reports

- District I
- District V
- Florida's Turnpike Enterprise

#### VI. Action Items

#### a. Election of 2023 Officers

Members of the Central Florida MPO Alliance shall select one of its members as Chairperson, another member as Vice-Chairperson, and a third member as Secretary. These three officers shall serve a term of one year until their successors are selected. The newly elected officers will assume their roles at the conclusion of the February meeting, and will serve through February 2024. A copy of the historical list of Alliance officers is provided for information purposes.

#### b. Approval of Previous Meeting Minutes

Action is requested for approval of the October 7, 2022, Central Florida MPO Alliance meeting minutes.

#### VII. Presentations/Discussion

- a. Kick off of Regional Project Prioritization Process Presenter: Ms. Laura Carter, Space Coast TPO
- b. Transportation Systems Management & Operations List of Priority Projects Presenter: Mr. Eric Hill, MetroPlan Orlando
- c. Status Updates on the CFMPOA LRTP and Tracking the Trends Presenter: Mr. Alex Trauger, MetroPlan Orlando
- d. Active Transportation Plan Updates Presenters: Ms. Taylor Laurent, Ms. Sarah Kraum, Mr. Mike Woods, Ms. Maggie Ardito

Active transportation describes human scaled and often person-powered ways of getting around, such as walking, bicycling or using a wheelchair. An Active Transportation Plan is a comprehensive set of strategies to ensure better

- Polk TPO Report
- Space Coast TPO Report
  - River to Sea TPO Report

**TAB 2** 

TAB 3

options and may be used as a guide for investments in bicycle and pedestrian facilities. MetroPlan Orlando, Space Coast TPO, Lake-Sumter TPO, and the River to Sea Loop Alliance will each share progress being made on Active Transportation Plans currently underway, in their respective areas.

#### VIII. Information Items

TAB 5

a. 2023 Central Florida MPO Alliance Meeting Schedule

#### IX. Member Comments

#### X. Public Comments

People wishing to speak must complete a "Speakers Introduction Card" at the reception desk. Each speaker is limited to two minutes.

# XI. Next meeting – April 14, 2023; 10:00 a.m. at MetroPlan Orlando, 250 S. Orange Avenue, Suite 200, Orlando, FL 32801

#### XII. Adjournment

Public participation is conducted without regard to race, color, national origin, sex, age, disability, religion, or family status. Persons wishing to express concerns, who require special assistance under the Americans with Disabilities Act, or who require language services (free of charge) should contact MetroPlan Orlando by phone at (407) 481-5672 or by email at info@metroplanorlando.org at least three business days prior to the event.

La participación pública se lleva a cabo sin distinción de raza, color, origen nacional, sexo, edad, discapacidad, religión o estado familiar. Las personas que deseen expresar inquietudes, que requieran asistencia especial bajo la Ley de Americanos con Discapacidad (ADA) o que requieran servicios de traducción (sin cargo) deben ponerse en contacto con MetroPlan Orlando por teléfono (407) 481-5672 (marcar 0) o por correo electrónico info@metroplanorlando.org por lo menos tres días antes del evento.

# TO:Board MembersFROM:Rob Balmes, DirectorRE:Amendment #4 of the FY 2023 to 2027<br/>Transportation Improvement Program (TIP)

#### <u>Summary</u>

Per the request of the Florida Department of Transportation (FDOT), one project is proposed to be amended in the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP). The project (FM#452364-2) is receiving federal funding to implement the National Electric Vehicle Infrastructure Program (NEVI). This project will consist of deployment of direct current fast charges (DCFCS) along the I-75 corridor in Marion County.

The original and proposed project pages may be found with this memo, along with the complete TIP document.

#### FM# 452364-2: I-75 (SR 93) "GAP" 12 – EV DCFCS (Phase 1)

- Funding: \$1,100,000
  - Federal: \$1,100,000
- FY 23 Capital (CAP) phase
- Total TIP Funding: \$1,100,000

#### Attachment(s)

- FDOT TIP Amendment Request
- TIP Proposed amended project pages
- FY 2023 to 2027 TIP document

#### Committee Recommendation(s)

• The Citizens Advisory Committee (CAC) and Technical Advisory Committee (TAC) approved the TIP Amendment on February 14, 2023.

#### **Action Requested**

TPO staff is recommending approval of the FY 2023 to 2027 Transportation Improvement Program (TIP) Amendment #4.

If you have any questions about the TIP amendment, please contact me at: 438-2631.

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala

RON DESANTIS GOVERNOR

Tallahassee, FL 32399-0450

JARED W. PERDUE, P.E. SECRETARY

January 6, 2023

Mr. Robert Balmes, AICP, CTP, Executive Director Ocala-Marion Transportation Planning Organization (TPO) 2710 E Silver Springs Blvd Ocala, FL 34470

#### RE: Request to Amend Fiscal Year (FY) 2022/23-2026/27 Transportation Improvement Program (TIP)

Dear Mr. Balmes:

The purpose of this letter is to request Ocala Marion TPO amend the FY 2022/23-2026/27 TIP.

Project #452364-2 received federal grant funding to implement the National Electric Vehicle Infrastructure Program (NEVI). The project will consist of deployment of direct current fast charges (DCFCS) along alternate fuel corridors (AFCS) to serve drivers of electric vehicles by providing charging stations. Phase 1 of this project will include location(s) in Marion County along the I-75 corridor. This project is delivered using a districtwide contract and must be added to the TIP to receive authorization to use federal funding for the project.

Please use the information in the table below to revise the TIP accordingly:

FM#	Project	Project	Length	Phase	Fund	Amount	FY
	Description	Limits			Source		
452364-2	I-75 (SR 93) "GAP" 12 – EV DCFCS	N/A	2.0 miles	CAP	GFEV	\$1,100,000	2023
	(Phase 1)						

As always, feel free to contact the Liaison Group at D5-MPOLiaisons@dot.state.fl.us if you would like to discuss further.

www.fdot.gov

Sincerely,

Anna Taylor

Anna Taylor Government Liaison Administrator FDOT District Five

# Transportation Improvement Program

# Fiscal Years 2023 to 2027

Adopted June 28, 2022

Amendment 1: August 23, 2022Amendment 3: January 24, 2023Amendment 2: November 29, 2022Amendment 4: February 28, 2023

This document was prepared with financial assistance from the Federal Highway Administration and the Federal Transit Administration of the U.S. Department of Transportation through the Florida Department of Transportation.

2710 E. Silver Springs Boulevard • Ocala, FL 34470 • 352-438-2630

#### Resolution No. 23-2

#### **RESOLUTION OF THE OCALA/MARION COUNTY** TRANSPORTATION PLANNING ORGANIZATION (TPO) TRANSPORTATION IMPROVEMENTPROGRAM (TIP) FOR FISCAL YEAR 2023 to 2027

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(j), 23 CFR Section 450.326 and Florida Statute 339.175(8) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as "a staged, multi-year, intermodal program of transportation projects which is consistent with the metropolitan (long-range) transportation plan [23 CFR 450,104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board:
- No revision or amendment performed by the TPO Director shall substantially modify any (ii) plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the amendment of Transportation Improvement Program for FY 2023 to 2027.

#### CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 24th day of January 2023.

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

# **1. INTRODUCTION**

## Purpose

The Ocala/Marion County Transportation Planning Organization (Ocala Marion TPO) is the federally designated Metropolitan Planning Organization (MPO) for Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The Fiscal Years (FY) 2023 to 2027 TIP is a five-year schedule of transportation projects to be implemented by government agencies within the Metropolitan Planning Area (MPA) of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is developed on an annual basis (23 C.F.R. 450.326(a)). The types of projects in the TIP include all modes of transportation, such as roadway construction, operations, maintenance, repaving, bicycle and pedestrian, transit and aviation.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the "3C" planning process, is reflected in the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The 2045 LRTP, which is also developed by the TPO, outlines the Ocala/Marion County transportation vision and goals 20 years into the future. The TIP outlines the short-term "action steps" necessary for achieving the long-term vision by programming specific transportation improvements.

#### **Fiscal Constraint**

Transportation projects contained in the TIP are financially feasible and located within the designated planning area. As a condition of receiving federal project funding, the TIP must list all highway and public transportation projects proposed for funding under Title 23 United States Code (23 U.S.C.) (highways) and 49 U.S.C. (transit). The TIP must also contain state and locally funded regionally significant transportation projects regardless of funding source. For a project to be considered financially feasible, the anticipated cost must not exceed anticipated revenue.

#### Consistency

All projects in the TIP are supported and documented in the 2045 LRTP. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding to Marion County. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments, and must be fully consistent.

A list of the most current Annually Federally Obligated projects is provided in **Appendix B.** The Obligation list is a continuation of projects in the prior TIP, and in some cases started in previous TIPs (23 CFR 450.334). The Obligated list will be updated and amended in September 2022.

# **TPO Planning Area**

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to rapid population growth in the 1980s, the planning boundaries of the entire county were added. Figure 1 illustrates TPO planning area which includes all of Marion County and the cities of Belleview, Dunnellon and Ocala.

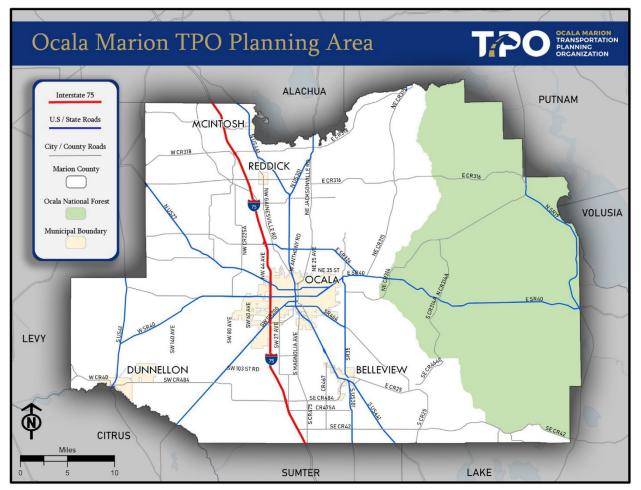

Figure 1: Map of TPO Planning Area

### **Development of the TIP**

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) and the TPO Board. The TPO strives to also engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 Code of Federal Regulation 23 C.F.R. 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents is contained in **Appendix G**.

### **TPO Boards and Committees**

The TPO submits a draft TIP for review and feedback to the TPO's TAC and CAC. These boards/committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Department of Transportation (FDOT); the Florida Department of Environmental Protection; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review and to receive feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is then presented to the TPO Board for adoption in May or June of each year. In 2022, TPO staff presented the draft TIP to the TAC and CAC on May 10th and June 14th, the TPO Board on May 24th and June 28th.

### **Public Involvement**

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public Participation Plan (PPP) (https://ocalamariontpo.org/plans-and-programs/publicparticipation-plan-ppp). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. The TAC and CAC meetings were held virtually and in person and therefore were also accessible to those with internet access. The TPO Board meetings were held both virtually and in-person. Advance public notices were provided for all committee and board meetings per Florida Sunshine Law and the TPO's PPP. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. Beginning on May 4th, a legal notice of the draft version of the TIP was advertised in the Ocala Star Banner. The public comment period for the TIP began on May 3, 2022 and concluded on June 28, 2022. A copy of the public notice can be found in **Appendix E** and a list of public comments, including the TPO's response to each comment, can be found in **Appendix F**. On May 3rd, the TPO sent the Draft TIP for review and comment to the following agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged and the St. Johns River Water Management District.

Formal responses are provided to each citizen comment submitted to the TPO by email, mail or phone. Citizens are provided a formal response by the TPO and made aware how their public comment is documented, and how it may be addressed if related to a specific project(s) in the current TIP. In cases where further follow up is required, such seeking project background information, additional contact is made with the citizen by the TPO. All citizen, TPO committee, TPO Board and partner agency comments and corresponding TPO responses are summarized in **Appendix F**.

### **Joint Certification**

The most recent joint certification between the Ocala Marion TPO and FDOT was completed on March 22, 2022 through action by the TPO Board. FDOT certified the TPO's transportation planning process for Fiscal Year 2022. The next certification review will occur from February to March of 2023.

### **Consistency with Other Plans**

The projects and project phases listed in the FY 2023 to 2027 TIP are consistent with the local public transit development plan (SunTran), aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2045 LRTP, Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Strategic Highway Safety Plan (SHSP), Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), TPO Congestion Management Process (CMP) and SunTran Transportation Development Plan (TDP).

### 2045 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long- term vision and goals for transportation, the 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020. A list of TIP projects referenced in the 2045 LRTP can be found in **Appendix I**. (https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-Irtp).

### Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety, provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies. (<u>http://floridatransportationplan.com</u>)

### Strategic Intermodal System (SIS) 2022 Policy Plan

The Strategic Intermodal System (SIS) 2022 Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in **Appendix C**. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project).

(https://www.fdot.gov/planning/sis/default.shtm)

### Florida's Strategic Highway Safety Plan (SHSP)

The Florida's 2021 to 2025 Strategic Highway Safety Plan (SHSP) was adopted in March 2021. This is an update to the prior plan, and was completed in coordination with all 27 Florida MPO/TPO's. Florida's SHSP outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries. A set of 12 emphasis areas organized into three categories (Roadways, Road Users, User Behavior) provide the foundation for improving safety. (https://www.fdot.gov/safety/shsp/shsp.shtm)

### Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. FDOT updated the FMTP in spring 2020. (https://www.fdot.gov/rail/plandevel/freight-mobility-and-trade-plan)

### **Transportation Asset Management Plan (TAMP)**

The Transportation Asset Management Plan (TAMP) outlines the process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed information, such as the department's assets, asset management strategies, and long-term expenditure forecasts to inform decision-making at both the State and Local levels.

### **Congestion Management Plan (CMP)**

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute (F.S.) [339.175 (6)(c)1]. Guidance from the Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system".

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP typically support improved travel conditions through the implementation of low cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time- consuming and expensive.

The TPO completed a major update to the CMP in 2021, including policies and procedures and state of system elements. The CMP update serves two purposes: to meet state statutes and help with prioritizing project needs, and to also meet federal requirements if the TPO becomes a Transportation Management Area (TMA) as a result of the 2020 Census. A TPO is considered a TMA when their urbanized area population exceeds 200,000. Completing an update to the CMP will keep the TPO in compliance with both state statute and federal requirements. (https://ocalamariontpo.org/congestion-management-process-cmp)

### **Transit Development Plan (TDP)**

The Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon. A TDP is updated by SunTran every five years to ensure transit services offered meet the mobility needs of local communities. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies in Marion County. SunTran is completing a major TDP update in 2022.

### **TIP Revisions**

Revisions to the TIP may be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added or deleted. TIP Amendments require TPO Board action and opportunity for public comment. TIP modifications to not require TPO Board action or public comment (23 C.F.R. 450.104). As summarized in the FDOT MPO Management Handbook, there are four types of TIP revisions.

### **TIP Modification**

A TIP modification includes minor changes such as to project phase costs, funding sources and project initiation dates. TIP Modifications are less than 20 percent and \$2 million.

### **TIP Amendment**

A TIP amendment involves major changes to project such as a deletion, addition, project cost increase (over 20 percent and \$2 million), design concept or project scope.

### **Roll Forward Amendment**

Projects programmed in the prior TIP that were not authorized by the end of the state fiscal year (June 30) may be authorized between July 1 and September 30, and included in an annual Roll-Forward TIP report to be amended in the new TIP. The Roll Forward amendment process must occur prior to the start of the federal fiscal year, which is October 1. The TPO Board adopts Roll Forward TIP Amendment each year.

### Administrative TIP Amendment

Projects that are added to year one of the FDOT Tentative Work Program will not be recognized by FHWA until their fiscal year on October 1. Administrative amendments are permitted between the state fiscal year period of July 1 to September 30 to fill the gap until the federal fiscal year begins on October 1.

### **Transportation Disadvantaged**

The Transportation Disadvantaged (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline or age 60+ or <16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. Therefore, the TIP is developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County.

### **Efficient Transportation Decision Making**

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in the TIP through the ETDM process. Public information for these projects is available at: <u>https://etdmpub.fla-etat.org/est</u>.

## **2. PERFORMANCE MANAGEMENT**

### **Performance Based Planning**

In order to develop a standardized process for monitoring the effectiveness of transportation investments across the country, the Federal government passed the Moving Ahead for Progress in the 21st Century Act (MAP-21). MAP-21 was enacted in 2012 by Congress to establish a framework to link performance management and decision-making for federally-funded transportation investments. MAP-21, which was supplemented by the FAST Act in 2015, requires the State Department of Transportations (DOTs) and TPOs/MPOs to conduct performance-based planning. The objective of performance-based planning is to invest resources in projects that help achieve the following seven national goals (23 CFR 490 or [23 USC 150(b)]):

#### 1- Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads

#### 2- Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair

#### **3- Congestion Reduction**

To achieve a significant reduction in congestion on the National Highway System

#### 4- System Reliability

To improve the efficiency of the surface transportation system

#### 5- Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development

#### 6- Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment

#### 7- Reduced Project Delivery Delays

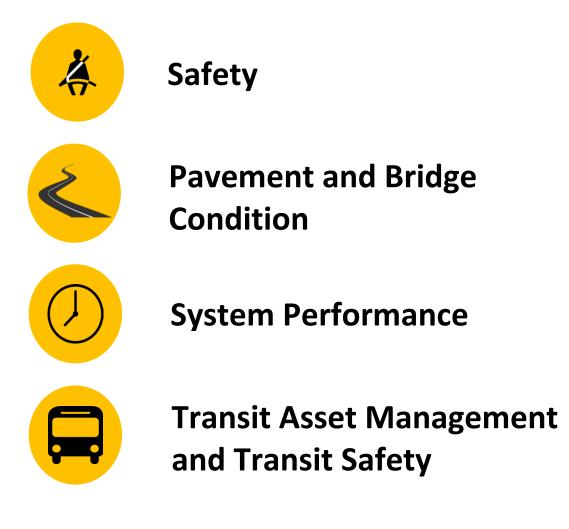

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance-based planning utilizes performance measures and performance targets to ensure the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes.

### **Performance Measures and Targets**

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPOs/MPOs and transit operators to establish and report performance targets for each performance measure. Performance measures are quantitative criteria used to evaluate progress of the seven national goals. In order to determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets. Appendix D provides Transportation Performance Management Fact Sheets published by FDOT in April 2022.

In March 2016, the FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rule (PM1), effective April 14, 2016. The Safety PM Final Rule established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP. Additionally, the Safety PM Finals Rule established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether State DOTs have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, FDOT is fully committed to Vision Zero, and has set a statewide target of "0" for all five safety performance measures. Vision Zero is discussed in greater detail in the HSIP, the Florida Highway Safety Plan, and the Florida Transportation Plan. FDOT set its safety performance targets on August 31, 2017. In addition, FDOT completed a HSIP Implementation Plan in August 2020 to outline an approach toward meeting its safety performance targets in future years. In August of each calendar year, FDOT reports the following year's targets in the HSIP. The TPO is then required to either adopt FDOT's targets or set their own.

On February 27, 2018, the Ocala Marion TPO Board adopted its own safety performance targets to better track progress and reflect greater accountability to the public. The TPO is also developing Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion in 2022. Integrating the adopted targets with Commitment to Zero will be a part of the planning process. By adopting its own safety performance targets, the TPO is required to update targets annually. The TPO updated its annual safety targets on February 22, 2022. Figure 2 displays the safety performance targets in 2022 and 2021 from FDOT and the TPO.

The Ocala Marion TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which are addressed in the Commitment to Zero planning project. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST).

Safety Performance Measures	FDOT Targets (2022)	TPO Targets (not to exceed) (2022)	TPO Targets (not to exceed) (2021)	TPO Target Results (2021)
Number of Fatalities	0	98	97	91
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	2.08	1.96	1.98
Number of Serious Injuries	0	378	432	263
Rate of Serious Injuries per 100 Million VMT	0	8.01	8.74	5.71
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	57	61	50

Figure 2: Safety Performance Measure Targets and Results

## Pavement and Bridge Condition

In January 2017, the FHWA published the Pavement and Bridge Condition Performance Measures Final Rule (PM2). The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in **Appendix C**.

The pavement condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics: International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

FDOT established its statewide targets for bridge and pavement condition on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets on in 2018. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years, and are displayed in Figure 3.

The bridge condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor

condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

Pavement and Bridge Condition Performance Measures	FDOT/TPO Target (2-Year)	FDOT/TPO Target (4-Year)	TPO Target Results (2021)				
Pavement Measures							
Percent of Interstate pavements in good condition	Not Required	≥ 60%	66.4%				
Percent of Interstate pavements in poor condition	Not Required	≤ 5%	0%				
Percent of non-Interstate NHS pavements in good condition	≥ 40%	≥ 40%	37.8%				
Percent of non-Interstate NHS pavements in poor condition	≤ 5%	≤ 5%	0%				
Bridge Deck	Area Measures						
Percent of NHS bridges by deck area in good condition	≥ 50%	≥ 50%	59.1%				
Percent of NHS bridges by deck area in poor condition	≤ 10%	≤ 10%	0%				

Figure 3: Performance Measure Targets and Results – Pavement and Bridge Condition

## **System Performance**

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule (PM3). The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS.

LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday, and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person- miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non- single occupancy vehicle (SOV) travel, and total on- road mobile source emissions reductions. The Ocala Marion TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established its statewide targets for system performance on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets in October 2018. Figure 4 displays the most current System Performance measure targets and results.

System Performance Measures	FDOT/TPO Target (2-Year)	FDOT/TPO Target (4-Year)	TPO Target Results (2021)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	≥ 75%	≥ 70 %	100%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	Not Required	≥ 50 %	95.9%
Truck Travel Time Reliability (TTTR)	1.75	2.00	1.74

# Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish "state of good repair" standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

On July 1, 2019, SunTran, the public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, moved from the oversight by the TPO to the City of Ocala. The SunTran system includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In July 2019, the City of Ocala set the transit asset targets in Figure 5, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets. SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC).

Figure 5 displays the percentage of SunTran's assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2019 and their performance targets for the next four years. FTA defines ULBs as "... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA." The performance targets assume the assets are replaced as they reach their ULB.

Asset Class	2019 Performance	2020 Target	2021 Target	2022 Target	2023 Target	
	Rolling S	tock				
Buses	69%	0%	0%	0%	0%	
Cutaways	0%	0%	0%	0%	100%	
Equipment						
Non-Revenue Vehicles	80%	0%	0%	0%	20%	
Facilities						
Maintenance Facility	0%	0%	0%	0%	0%	

Figure 5: Performance Measure Targets and Results - Transit Asset Management

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. MPO/TPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

On December 1, 2020, SunTran submitted their PTASP and corresponding safety targets to the TPO, as adopted by City of Ocala City Council on November 30, 2020. On April 27, 2021, the TPO Board adopted the SunTran PTASP safety targets. Figure 6 displays the adopted SunTran PTASP targets.

SunTran Safety Performance Targets Performance Targets based on collected data from the previous three years							
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles) VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles VRM)	Safety Events Total	Safety Events (per 100k vehicle revenue miles VRM)	(VRM/ failures)
Fixed Route Bus	0	0	1	.20	5	1.03	7,492
ADA Paratransit	0	0	0	0	0	0	0

Figure 6: Performance Measure Targets and Results - Transit Safety Targets

## **3. FINANCIAL PLAN**

The TIP shall include a financial element that demonstrates how the approved projects can be implemented, indicates the sources of funding that are reasonably expected to be made available, and recommends any additional financing strategies for needed projects and programs (23 CFR 350.326).

The FY 2023 to 2027 is financially constrained for each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program. The TIP has been developed in cooperation with Marion County, the Cities of Belleview, Dunnellon, and Ocala, FDOT, SunTran and Marion Transit. A summary of funding categories, distribution of funding by category and funding sources are summarized in Figures 7 to 9.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and all regional transportation projects requiring federal action. Projects in the TIP are also derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program (339.135, Florida Statute, F.S.). Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

Acronym	Funding Category	Funding Source
ACFP	Advanced Construction Freight Program	Federal
ACNP	Advanced Construction NHPP	Federal

## **4. PROJECT PRIORITIZATION PROCESS**

### **Overview**

The project prioritization process of the TPO is undertaken during the development of the LRTP and annual List of Priority Projects (LOPP). During the development of the LRTP, once the identified projects have been determined as "needs", TPO committees, TPO staff and the TPO Board prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The result is the 'Cost Feasible Plan' of the LRTP, which then becomes a prioritized project list. This list becomes part of the TPO's annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, committee input and TPO Board approval. The LOPP is submitted to FDOT annually for projects to be considered in the next Tentative Work Program for funding. FDOT will decide which projects from the LOPP can be reasonably funded with the cost/funding projections. The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding. For further information about the LOPP process, please access the TPO website at: <a href="https://ocalamariontpo.org/priority-project-list">https://ocalamariontpo.org/priority-project-list</a>.

### Methodology

In 2022, the TPO modified its annual LOPP prioritization process. The revised process continues to place an emphasis on prioritizing projects based on criteria score. This includes an emphasis on projects closest to receiving construction funding; meet federal performance measures; are multimodal; improve safety and resilience; programmed funding; and/or include local funding and partnerships. A strategic refinement methodology is also applied to include necessary adjustments to address partner feedback. Overall, this approach involves collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop an annual LOPP. The end-results of the process are a set of nine project lists, including an overall Highest Priority Project List.

The TPO's project prioritization process is consistent with state statute (F.S. 339.1758b), federal law (23 C.F.R 450.332b), the 2045 LRTP, and with local aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO planning area, to the maximum extent feasible [339.175(8)(c)(7), F.S.].

### **Project Ranking**

The priority projects ranking criteria is tied directly to the adopted 2045 LRTP Goals and Objectives, federally required performance measures and local priorities. The goals from the

2045 LRTP that are used in this prioritization and selection process include:

- Optimization and Preserve Existing Infrastructure
- Focus on Improving Safety and Security of the Transportation System
- Provide Efficient Transportation that Promotes Economic Development
- Promote Travel Choices that are Multimodal and Accessible
- Protect Natural Resources and Create Quality Places
- Ensure the Transportation System Meets the Needs of the Community.

The ranking criteria are grouped into the following ten categories and are summarized as follows:

- 1. **Prior Year Rank**: An emphasis on prior project ranking to help support program stability and advancement toward implementation.
- 2. **Project Cycle:** The status of projects in their development phase with an emphasis on the most weight given to projects that are ready for construction.
- 3. Local Funding Commitment: Projects receive points for including a local match commitment.
- 4. **Regional Connectivity and Partnerships**: Projects that involve a formal partnership between two or more jurisdictions and coordination between two or more jurisdictions.
- 5. **Safety**: Points given for being located on a roadway segment with a five-year history of serious injury and fatality crashes. Additional points for projects located on the Commitment to Zero High Injury Network.
- 6. **Congestion Management**: Points given for being located on the most up to date Congestion Management Plan Congested Corridors.
- 7. **Multimodal**: A sidewalk, trail and/or bicycle facility are given points and also receive additional points for connecting to existing multimodal facilities in Marion County.
- 8. **Transportation Resilience**: Points given for being located on an existing Florida Evacuation Route or connection to an Evacuation Route.
- 9. **Economic Development and Logistics**: Points given for connecting to or serving employment growth areas of Marion County, along with connecting to or being located on a facility that supports freight activity centers.
- 10. **Equity**: Projects that are located in one of three disadvantaged areas of Marion County as identified and mapped in the 2045 LRTP.

A complete summary of the LOPP ranking and scoring methodology and most up to date project lists are available on the TPO website.

The **2022 List of Priority Projects (LOPP), Top Priorities** is provided in Figure 10 on the next page. The remaining six lists may be found on the TPO's website: <u>https://ocalamariontpo.org/priority-project-list/</u>.

Rank	FDOT Project Number	Project List	Project Name/Limits	Description	FY 23 to 27 TIP Programmed Phase(s)	FY 23 to 27 TIP Programmed Funding	Proposed Phase(s)	Funding Requested
1	435209-1	Top Priorities	I-75 at NW 49th Street Interchange	Construction of a new interchange and roadway extension of NW 49th from NW 44th to NW 35th	CST	\$42,379,864		
2	433652-1	Top Priorities	SR 40 Intersections at SW 40th Avenue and SW 27th Avenue	Traffic operations, turn lanes at I-75 interchange and SW 40th and SW 27th intersections	ROW	\$1,399,654	CST	\$5,500,000
3		Top Priorities	NW 44th Avenue, SR 40 to NW 11th St	Construction of four new roadway lanes			CST	\$14,000,000
4		Top Priorities	NW 80th/70th from N/O SR 40 to S/O US 27	Widening to four lanes			CST	\$30,000,000
5		Top Priorities	SW 44th Avenue from SR 200 to SW 20th	Four-Lane roadway construction	*CST	\$9,000,000		
6		Top Priorities	SW 44th Avenue from SW 20th to SR 40	Addition of two lanes to complete four lane roadway			CST	\$5,000,000
7		Top Priorities	CR 484 Penn Avenue Multimodal	Roadway reconstruction, shared use path connection from downtown Dunnellon to Blue Run Park	*CST	\$2,537,000		
8		Top Priorities	US 27/I-75 Interchange Operations, NW 44th to NW 35th	Safety and operational improvements at interchange area			PE, CST	\$29,341,000
9	450340-1	Top Priorities	Emerald Road Extension	92nd Loop to FN Railroad Connection	ROW, CST	\$9,650,000	CST	\$4,700,000
10	237988-1	Top Priorities	SR 40 at SR 35 intersection	Construction of a roundabout at the intersection			PE, ROW, CST	\$6,000,000
11		Top Priorities	SW 49th from Marion Oaks Trail to SW 95th	Construction of a four lane divided roadway			CST	\$18,000,000
12	238651-1	Top Priorities	SR 200 from Citrus County to CR 484	Widening to four lanes and pedestrian/wildlife underpass connecting greenway			CST	\$37,800,000
13	433660-1	Top Priorities	US 441 (Pine Avenue) at SR 464 (SE 17th)	Intersection/Turn lane improvements	PE, CST	\$3,277,299		
14	238648-1	Top Priorities	US 41 from SW 110th to North of SR 40	Widening to four lanes, sidewalks/path, shoulders			CST	\$38,100,000
15	410674-2	Top Priorities	SR 40 from End of four lanes to CR 314	Reconstruction, widening to four lanes, new bridges, medians			CST	\$110,100,000
16		Top Priorities	CR 484 from SW 49th Ave to CR 475A	Widening to six lanes, bridge replacement at I-75			PD&E, DES, ROW, CST	\$55,000,000
17	449443-1	Top Priorities	NE 8th Avenue from SR 40 to SR 492	Construction of roundabouts on NE 8th Avenue	CST	\$4,452,800		
18		Top Priorities	CR 484 from Marion Oaks Pass to SR 200	Widening to six lanes			DES, ROW, CST	\$35,000,000
19		Top Priorities	I-75 at SR 326 Interchange	Interchange operational improvements			PE, DES, ROW, CST	TBD
20		Top Priorities	SW 80th Avenue from north of 38th Street to SR 40	Widening of roadway to four lanes			PE, DES, ROW, CST	\$25,000,000
21		Top Priorities	SR 35 and SR 464 Intersection Flyover	Flyover of SR 35 at SR 464			PE, DES, CST	\$35,000,000

#### Figure 10: 2022 List of Priority Projects (LOPP), Top Priorities

## **5. PROJECTS**

### **Overview**

The FY 2023 to 2027 TIP projects are grouped into seven categories. All projects are also summarized in individual project pages by category to support a more accessible and user-friendly format for the citizens of Marion County.

#### Seven TIP Project Categories:

- Interstate: I-75
- U.S. Routes: US 27, US 41, US 301, US 441
- State and Local Routes: City and County Roads, State Roads (e.g., SR 200)
- **Bicycle and Pedestrian:** Park Trails, Sidewalks and Trails on City, County and State Roads
- Aviation (Airport): Ocala International Airport, Marion County Airport
- Transit, Funding and Grants: Marion Transit, SunTran, TPO, Others
- **ITS and Maintenance:** Operations, Aesthetics, Asset Management (repaving, rehabilitation, shoulders, bridges, lighting), ongoing Maintenance

**Appendix H** contains a summary of changes to major regional transportation projects from the previous Fiscal Years 2022 to 2026 TIP. **Appendix J** contains a companion "snapshot" listing of the TIP projects as submitted to the TPO by FDOT in April 2022.

**Appendix K** contains a summary report and listing of transportation projects included with the annual Roll Forward TIP Amendment process (Amendment #1). The project funding amounts are part of the year one (Fiscal Year 2023) summary totals as displayed in **Figures 8** and **9**.

Figure 11 provides a summary chart of the acronyms used for various project phases/activities and the terms associated with the projects displayed in the TIP summary pages. This chart may be used as a reference when reviewing the project summary pages in this section.

Acronym	Project Phase and Information
ADM	Administration
CST	Construction (includes Construction, Engineering and Inspection)
САР	Capital Grant
CEI	Construction, Engineering and Inspection
DES	Design
ENG	Engineering
ENV CON	Environmental/Conservation
FM	FDOT Financial Management Number
INC	Construction Incentive/Bonus
MNT	Maintenance
MSC	Miscellaneous Construction
OPS	Operations
PD&E	Project Development and Environment Study
PE	Preliminary Engineering
PLEMO	Planning and Environmental Offices Study
PLN	In House Planning
PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Right-of-Way Support & Acquisition
RRU	Railroad and Utilities
RT MNT	Routine Maintenance
SEG	Project Segment Number
UTIL	Utilities Construction

Figure 11: Project Phase/Activity and Information Acronym List

### **TIP Online Interactive Map**

The FY 2023 to 2027 TIP online map provides specific project locations and general information including funding and total project cost. Projects without a specific location (e.g. TPO grants, Marion Transit, SunTran grants) are not included in the interactive map. The map may be accessed through the TPO website or directly at the following link:

https://marioncountyfl.maps.arcgis.com/apps/webappviewer/index.html?i d=81b909295c9447d7adf4b38bc232adcf

### **Performance Management and TIP Projects**

The following provides a summary of the projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: safety; bridge and pavement condition; system performance; and transit asset management and safety. Safety projects include the entire federal aid transportation system. In some cases, a project may support meeting more than one federal performance measure.

FM Number	Project	Limits	TIP Funding
4348441	CR 482 at 182nd Avenue (1)	at 182nd Avenue	\$350,000
4348442	CR 482 at 182nd Avenue (2)	at 182nd Avenue	\$67,980

4497641	I-75 ITS Communications	I-75 Corridor, 24 miles in Marion County	\$954,356
		Total:	\$49,174,889

### Transit Asset Management (TAM) and Transit Safety

FM Number	Grant	TIP Funding
4271882	Small Urban Capital Fixed Route	\$16,075,958
4424551	Block Grant Operating Assistance	\$7,790,583
	Total:	\$23,866,541

### **TIP Project Summary Pages**

Summary pages are provided in the following pages for all programmed projects and are organized by the seven project categories.

#### **Summary Page Definitions**

**Project:** Includes the project name, project limits and location.

**Project Type:** Identifies the type of project improvement(s).

FM Number: References the financial management number in FDOT's project tracking system.

Lead Agency: Identifies the agency with project management oversight.

**LRTP (Page #):** References how the project reflects the 2045 LRTP goals and planning consistency.

**SIS:** Denotes if a project is on the state's Strategic Intermodal System (SIS) network.

**Description:** Summarizes the project and highlights major improvements to be implemented.

**Prior <Year:** Identifies the amount of funding programmed in years prior to the current five-year TIP period.

**Future >Year:** Identifies the amount of funding programmed in years beyond the current fiveyear TIP period.

**Total Project Cost:** Lists the total project cost programmed for the project, including prior year, current five-year and future year funding.

Phase: Identifies the stage in project development for which funding is programmed.

Fund Category: Identifies the type of funding programmed by phase for the project.

**Funding Source:** Identifies the source of funding by phase for the project (Federal, State and/or Local).

Fiscal Year: Identifies the federal fiscal year(s) when funding is programmed for the project.

# Interstate 75 (I-75) Projects

1 (1)

#### **Project:** I-75 (SR 93) at NW 49th Street from end of NW 49th Street to end of NW 35th Street

Project Type:	Interchange
FM Number:	4352091
Lead Agency:	FDOT
Length:	0.1 miles
LRTP (Page #):	Goal 1, Objective 1.2 (14); Goal 2, Objective 2.1, 2.2, 2.3 (14); Goal 3, Objective 3.2 (14)
SIS Project	

#### **Description:**

Construction of a new I-75 interchange at NW 49th Street to facilitate projected increases in freight traffic and regional economic development. This project also includes extending NW 49th Street from NW 44th Avenue to NW 35th Avenue.

Prior <2023:	Future >2027:	Total Project Cost:

#### Project: CR 484 from SW 20th Avenue to CR 475A

Project Type:	Interchange/Intersection
FM Number:	4336511
Lead Agency:	FDOT
Length:	0.7 miles
LRTP (Page #):	Goal 1, Objectives 1.2, 1.4 (14); Goal 2, Objectives 2.1, 2.3 (14); Goal 3, Objectives 3.2, 3.4 (14);
	Goal 6, Objectives 6.1, 6.3, 6.5 (15)

# Description:

Addition of turn lanes and turn lane extensions at the CR 484 interchange with I-75 and the CR 484/CR 475A intersection. Reconstruct westbound through lanes and modify the I-75 bridge to accommodate the widening. Bicycle and pedestrian facilities also part of project. Project will improve traffic flow and safety.

Website: Ocalamariontpo.org

Transportation Improvement Program Fiscal Years 2021/2022 to 2025/2026 Federal Obligations Report October 1, 2020 to September 30, 2021

# **Annual Listing of Federally Obligated Projects**

#### **Summary**

On an annual basis, per Title 23, United States Code (USC) 450.334, the Ocala Marion Transportation Planning Organization (TPO) is required to provide a summary listing of projects for which federal funds have been \*obligated in the preceding federal fiscal year (FFY) from October 1 to September 30. The Florida Department of Transportation (FDOT) assists the TPO in complying with this federal requirement by providing a detailed report of federal project obligations for Marion County. The report is included each year as an amendment to the current Transportation Improvement Program (TIP).

A net total of \$26,342,420 of federal funds were obligated in FFY 2021 on 30 transportation projects and programs in Marion County. The following summary report and detailed obligation document provide a listing of the federally obligated projects by phases and funding sources.

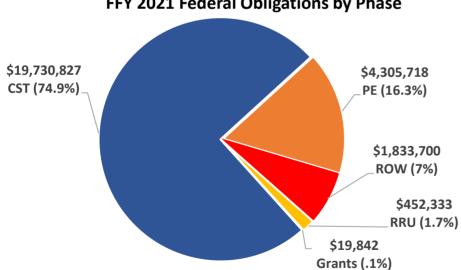

\*Obligation is the legal commitment by the Federal government to pay or reimburse a State or other entity for the Federal share of a project's eligible cost. Obligated projects have been authorized by the federal government and funds have been approved for reimbursement. Funding for projects can in some cases also be de-obligated. Funding previously obligated is removed from a project due to changes such as cost, delay or cancellation.

#### Annual Listing of Federally Obligated Projects - Marion County Federal Fiscal Year (FFY) 2021 October 1, 2020 - September 30, 2021

### **APPENDIX D: Transportation Performance Management Fact Sheets**

# MPO Requirements

Florida Department of Transportation Office of Policy Planning

## **Transportation** Performance Management

April 2022

#### **OVERVIEW**

This document highlights key provisions of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) performance management requirements for state Departments of Transportation, Metropolitan Planning Organizations, and transit providers, including target setting, performance reporting, and deadlines.

#### PLANNING RULE FRAMEWORK

FHWA and FTA jointly issued a Planning Rule in 2016 to document changes in the statewide and metropolitan planning processes consistent with the Moving Ahead for Progress in the 21<sup>st</sup> Century (MAP-21) Act and the Fixing America's Surface Transporta-

tion (FAST) Act. Among other changes, this rule specifies the requirements for state DOTs and MPOs to implement a performance-based approach to planning and programming. Under this framework, the three FHWA performance measures (PM) rules and the FTA transit asset management and transit safety rules established various performance measures to assess roadway safety (PM1), pavement and bridge condition (PM2), system performance and freight movement (PM3), transit asset management (TAM), and transit safety. The Planning Rule and the performance measures rules also specify how MPOs should set targets, report performance, and integrate performance management into their Long-Range Transportation Plans (LRTP) and Transportation Improvement Programs (TIP). FHWA and FTA are expected to issue an updated planning rule in 2022 to incorporate changes introduced in the Bipartisan Infrastructure Law passed in November 2021.

#### Long-Range Transportation Plans

The Planning Rule specifies how performance management is incorporated into the MPO's LRTP. The LRTP must:

- » Describe the federal performance measures and performance targets used in assessing the performance of the transportation system.
- » Include a System Performance Report that:
  - Evaluates the condition and performance of the transportation system with respect to performance targets.
  - Documents the progress achieved by the MPO in meeting the targets in comparison to performance recorded in past reports.
- » Integrate the goals, objectives, performance measures, and targets described in all the plans and processes required as part of a performance-based program.

#### Transportation Improvement Programs

The TIP must:

- Reflect the investment priorities established in the current long-range transportation plan.
- Be designed such that once implemented, it makes progress toward achieving the performance targets established.
- » Include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the LRTP, linking investment priorities to those performance targets.

Metropolitan Planning Organization Advisory Council (MPOAC) have developed model language for inclusion of performance measures and targets in the LRTPs and TIPs

**FDOT** and the

## TIMELINE FOR MPO ACTIONS

## TARGET SETTING OPTIONS

The Florida Department of Transportation (FDOT), the MPOs, and providers of public transportation set their respective performance targets in coordination with one another. Each MPO establishes a target for each applicable performance measure. For the **PM1**, **PM2**, and **PM3** measures, each MPO establishes targets by one of two options:

OR

## Support the statewide target established by FDOT.

If the MPO chooses to support the statewide target, the MPO provides documentation to FDOT stating that the MPO agrees to plan and program projects so that they contribute toward the accomplishment of FDOT's statewide target for that performance measure.

#### Establish own target.

If the MPO chooses to establish its own target, the MPO coordinates with FDOT regarding the approach used to develop the target and the proposed target prior to establishing a final target. The MPO provides documentation to FDOT that includes the final target and the date the MPO established the target.

MPOs must establish their targets no later than 180 days after FDOT sets its target.

For the **transit asset management and safety measures,** MPOs may support the targets established by transit providers or establish their own targets. Initial action by the MPO must take place within 180 days of the transit provider action to establish targets. Subsequent MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current provider targets in the updated TIP.

#### ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

# PM1: Safety

Florida Department of Transportation Office of Policy Planning

## **MAP-21** Performance Management

April 2022

#### **OVERVIEW**

The first of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on April 14, 2016, establishing measures to assess the condition of road safety. This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.\*

#### **PERFORMANCE MEASURES - APPLICABLE TO ALL PUBLIC ROADS**

		The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.	COORDINATION WITH OTHER PLANS
			Updates to FDOT's Florida
	RATE OF FATALITIES	The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year.	Transportation Plan (FTP) and MPO's Long-Range Transporta- tion Plans (LRTP) must include
			most recently reported safety
	NUMBER OF SERIOUS INJURIES	The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.	performance data and targets. Updates to the Statewide Transportation Improvement
			Program (STIP) and Transpor-
	RATE OF SERIOUS INJURIES	The total number of serious injuries per 100 million VMT in a calendar year.	tation Improvement Programs (TIP) must include a description of how the STIP/TIP contributes
E	NUMBER OF NON-MOTORIZED ATALITIES AND NON-MOTORIZED SERIOUS INJURIES	The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year.	to achieving safety performance targets in the FTP/LRTP.

#### TIMELINE

\* Please refer to the fact sheet addressing *MPO Requirements* for information about MPO targets and planning processes.

### **EXISTING STATEWIDE CONDITIONS**

#### **STATEWIDE TARGETS**

- » FDOT annually establishes statewide safety targets for the following calendar year as part of the HSIP Annual Report, which must be submitted by August 31 each year.
- » Targets are applicable to all public roads regardless of functional classification or ownership.

Given FDOT's firm belief that every life counts, **the target set for all safety performance measures is ZERO**.

#### **MPO TARGETS**

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs must annually update their targets by February 27 of each year.

### ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four out of the five safety performance targets are met or the actual outcome for the safety performance target is better than baseline performance.

Based on FHWA's review, Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users. As requested by FHWA, FDOT has developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of these targets.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

# PM2: Bridge and Pavement

Florida Department of Transportation Office of Policy Planning

## MAP-21 Performance Management

April 2022

#### **OVERVIEW**

The second of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess the condition of the pavements and bridges on the National Highway System (NHS). This fact sheet summarizes the requirements of this rule, the targets Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.\*

#### PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in *GOOD* condition.
- » Percentage of pavements on the Interstate System in POOR condition.
- » Percentage of pavements on the non-Interstate NHS in GOOD condition.
- » Percentage of pavements on the non-Interstate NHS in POOR condition.

#### BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) classified as in GOOD condition.
- » Percentage of NHS bridges (by deck area) classified as in POOR condition.

#### **GOOD CONDITION**

Suggests no major investment is needed.

#### POOR CONDITION

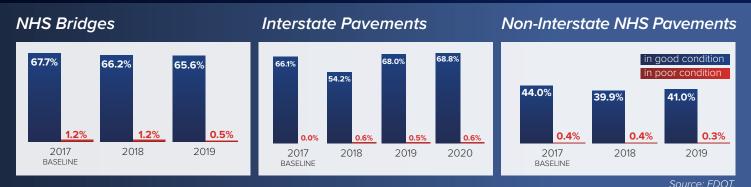

Suggests major investment is needed.

#### TIMELINE

\* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

## **EXISTING STATEWIDE CONDITIONS**

#### **STATEWIDE TARGETS**

FDOT established 2- and 4-year targets on May 18, 2018 for the full extent of the NHS in Florida. Two-year targets reflect the anticipated performance level at the mid point of each performance period, while 4-year targets reflect it for the end of the performance period.

Performance Measure	2-Year Target	4-Year Target
Pavement		
% of Interstate pavements in <i>GOOD</i> condition	Not required	≥ 60%
% of Interstate pavements in <i>POOR</i> condition	Not required	≤ 5%
% of non-Interstate NHS pavements in <i>GOOD</i> condition	≥ 40%	≥ 40%
% of non-Interstate NHS pavements in <i>POOR</i> condition	≤ 5%	≤ 5%
Bridge		
% of NHS bridges (by deck area) classified in <i>GOOD</i> condition	≥ 50%	≥ 50%
% of NHS bridges (by deck area) classified in <i>POOR</i> condition	≤ 10%	≤ 10%

Note: Two-year targets were not required for Interstate pavement condition for the first performance period, but will be required for the second and subsequent performance periods.

### **MPO TARGETS**

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs set pavement and bridge targets for the first performance period by November 14, 2018. FDOT will set the targets for the second 4-year performance period by October 1, 2022, after which the MPOs will have 180 days to set their targets.

#### ASSESSMENT OF SIGNIFICANT PROGRESS

Beginning in 2020 and continuing every two years thereafter, FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year applicable statewide target if either:

- » The actual condition/performance level is better than the baseline condition/performance; or
- » The actual condition/performance level is equal to or better than the established target.

In January 2021, FHWA determined Florida had made significant progress toward the two-year bridge and pavement targets based on reported data for 2018 and 2019. FHWA will not directly assess MPO progress toward meeting their targets. Rather, it will do so through the periodic transportation planning reviews, including the Transportation Management Area (TMA) MPO certification reviews and reviews of adopted/amended LRTPs and TIPs.

#### **MINIMUM CONDITIONS**

Every year, FHWA will assess if FDOT is meeting the statewide minimum condition requirements. If it is not, FDOT must obligate funds to meet minimum requirements.

#### FDOT IS ON TRACK TO MEET MINIMUM CONDITION REQUIREMENTS

- » Pavement: No more than 5 percent of the Interstate System in *Poor* condition for most recent year.
- » Bridge: No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (*Poor* condition) for three consecutive years.

## FOR MORE INFORMATION PLEASE CONTACT

**Erika Thompson, Statewide Metropolitan Planning Coordinator** Florida Department of Transportation erika.thompson@dot.state.fl.us | (850) 414-4807

# **PM3:** System Performance

Florida Department of Transportation Office of Policy Planning

## MAP-21 Performance Management

April 2022

#### **OVERVIEW**

The third of the three performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess the performance of the National Highway System (NHS), freight movement on the Interstate System, and Congestion Mitigation and Air Quality Improvement Program (CMAQ). This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.\*

#### PERFORMANCE MEASURES

Performance Measure	Typically Referred to As	What It Measures	
Percent of person-miles traveled on the Interstate that are reliable	Interstate reliability	Seeks to assess how reliable the NHS network is by creating a ratio (called Level of Travel Time Reliability, or	
Percent of person-miles traveled on the non- Interstate NHS that are reliable	Non-Interstate reliability	LOTTR) that compares the worst travel times on a road against the travel time that is typically experienced. Road miles with a LOTTR less than 1.5 are considered reliable. Traffic volume and an average vehicle occupancy are factored in to determine the person miles that are reliable, and this is converted to a percent of total miles.	
Truck travel time reliability (TTTR) index	Truck reliability	Seeks to assess how reliable the Interstate network is for trucks by creating a ratio (called Truck Travel Time Reliability, or TTTR) that compares the very worst travel times for trucks against the travel time they typically experience.	

This rule also contains measures addressing CMAQ Program. These are applicable only for areas that are designated as nonattainment or maintenance, of which Florida currently has none. Therefore, they are currently not applicable to FDOT or any of Florida's MPOs.

## TIMELINE

\* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

#### **EXISTING STATEWIDE CONDITIONS**

INTERSTATE RELIABILITY	2017	82.2%
Percent of the person-miles	2018	83.5%
traveled on the Interstate	2019	83.4%
that are reliable	2020	92.3%
NON-INTERSTATE NHS RELIABILITY	2017	84.0%
Percent of the person-miles	2018	86.3%
traveled on the non-Interstate	2019	<b>87.0</b> %
NHS that are reliable	2020	93.5%
TRUCK RELIABILITY	2017	1.43
Truck travel time reliability index	2018	1.42
(Interstate)	2019	1.45
	2020	1.34
	Note: A higher Interstate and non-Interstate NHS reliability However, a higher TTTR index means lower reliability.	v percentage means greater reliability.

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS)

#### **STATEWIDE TARGETS**

FDOT established the following 2- and 4-year targets on May 18, 2018. Two-year targets reflect the anticipated performance level at the end of calendar year 2019, while 4-year targets reflect anticipated performance at the end of 2021.

Performance	2-Year	4-Year
Measure	Target	Target
Interstate reliability	≥ 75%	≥ 70%
Non-Interstate NHS reliability	Not required	≥ 50%
Truck reliability	≤ 1.75	≤ 2.00

Note: Two-year targets were not required for non-Interstate reliability for the first performance period, but will be required for the second and subsequent performance periods.

#### **MPO TARGETS**

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs set system performance targets for the first performance period by November 14, 2018. FDOT will set its targets for the second 4-year performance period by October 1, 2022, after which the MPOs will have 180 days to set their targets.

#### ASSESSMENT OF SIGNIFICANT PROGRESS

Beginning in 2020 and continuing every two years thereafter, FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year applicable statewide target if either:

- » The actual condition/performance level is better than the baseline condition/performance; or
- » The actual condition/performance level is equal to or better than the established target.

In January 2021, FHWA determined Florida had made significant progress toward the two-year targets for Interstate and truck reliability based on reported data. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of updated and amended Long-Range Transportation Plans (LRTP), and approval of MPO Transportation Improvement Programs (TIP).

# TRANSIT Asset Management

April 2022

Florida Department of Transportation Office of Policy Planning

## MAP-21 Performance Management

### OVERVIEW

The Transit Asset Management rule from the Federal Transit Administration (FTA) became effective on October 1, 2016. This rule applies to all recipients and subrecipients of federal transit funding that own, operate, or manage public transportation capital assets. The rule introduces requirements for new State of Good Repair (SGR) performance measures and Transit Asset Management (TAM) Plans. This fact sheet describes these requirements and the role of the Metropolitan Planning Organizations (MPO) under this rule.

## STATE OF GOOD REPAIR PERFORMANCE MEASURES

Transit agencies are required to report transit asset performance measures and targets annually to the National Transit Database (NTD). Targets should be supported by the most recent condition data and reasonable financial projections.

FTA Asset Categories	Type of Measure	Performance Measures
<b>EQUIPMENT</b> Non-revenue support-service and maintenance vehicles	Age	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their useful life benchmark (ULB)
ROLLING STOCK Revenue vehicles	Age	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their ULB
INFRASTRUCTURE Rail fixed-guideway track	Performance	Percentage of track segments (by mode) with performance restrictions
FACILITIES Buildings and structures	Condition	Percentage of facilities within an asset class rated below condition 3 on the Transit Economic Requirement Model (TERM) scale

#### Transit Asset Categories and Related Performance Measures

**"State of good repair"** is defined as the condition in which a capital asset is able to operate at a full level of performance. This means the asset:

- 1. Is able to perform its designed function.
- 2. Does not pose a known unacceptable safety risk.
- 3. Lifecycle investments have been met or recovered.

### TIMELINE

Transit providers set targets annually in October, January, or April, depending on the provider's fiscal year.

#### TAM PLAN

By October 1, 2018 (two years from effective date of the Final Rule), Transit Asset Management Plans (TAM Plan) were required for all providers. These plans are either developed by the providers or by a group sponsor on behalf of multiple providers. These plan must be updated every four years. The Group TAM Plan must be updated by October 1, 2022, and individual TAM Plans by Tier I and Tier II providers must be updated by the start of the provider's fiscal year.

#### Tier I versus Tier II Agencies

The rule makes a distinction between Tier I and Tier II transit providers and establishes different requirements for them.

#### TIER II TIER I Owns, operates, or manages Owns, operates, or manages either: either: < = 100 vehicles in revenue > = 101 vehicles in revenue service during peak regular service during peak regular service across ALL non-rail fixed service across ALL fixed route route modes or in ANY one modes or ANY one non-fixed non-rail fixed route mode route mode OR OR Subrecipient under the 5311 program Rail transit OR Native American Tribe

#### TAM Plan Elements

Inventory of Capital Accet

1. Inventory of Capital Assets	ALL
2. Condition Assessment	ROVIDERS
3. Decision Support Tools	(Tiers I and II)
4. Investment Prioritization	
5. TAM and SGR Policy	
6. Implementation Strategy	TIER I ONLY
7. List of Key Annual Activities	UNLI
8. Identification of Resources	
9. Evaluation Plan	

A **TIER I** provider must develop its own TAM Plan. The Tier I provider must make the TAM plan, annual targets, and supporting materials available to the state DOTs and MPOs that provide funding to the provider.

**TIER II** agencies may develop their own plans or participate in a group TAM plan, which is compiled by a group TAM plan sponsor. State Departments of Transportation (DOT) that pass FTA funds to subrecipients are required to be group TAM plan sponsors. The unified targets and narrative report for group plan participants are submitted on behalf of all participating agencies by the sponsor. Group plan sponsors must make the group plan, targets, and supporting materials available to the state DOTs and MPOs that program projects for any participants of the group plan. The Florida Department of Transportation (FDOT) developed a group plan for all subrecipients in 2018. The plan included collective targets for subrecipients.

#### **MPO COORDINATION**

- » Each public transit provider or its sponsors must share its targets with each MPO in which the transit provider operates services.
- » MPOs are required to establish initial transit asset management targets within 180 days of the date that public transportation providers establish initial targets. However, MPOs are not required to establish transit asset management targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. MPOs will reflect current provider TAM targets in the updated TIP.
- » When establishing transit asset management targets, the MPO can either agree to program projects that will support the transit provider's targets, or establish its own separate regional targets for the MPO planning area. MPO targets may differ from provider targets, especially if there are multiple transit agencies in the MPO planning area.
- » MPOs are required to coordinate with transit providers and group plan sponsors when selecting targets to ensure alignment of targets.
- » FTA will not assess MPO progress toward achieving transit targets. However, the Federal Highway Administration (FHWA) and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of updated LRTPs, and approval of MPO TIPs.

Florida Department of Transportation erika.thompson@dot.state.fl.us | (850) 414-4807

# **PUBLIC TRANSIT** Safety Performance

## MAP-21 Performance Management

April 2022

#### **OVERVIEW**

The Federal Transit Administration (FTA) has established requirements through 49 CFR 673 for Public Transportation Agency Safety Plans (PTASP) and related performance measures as authorized by the Moving Ahead for Progress in the 21<sup>st</sup> Century Act (MAP–21). This rule requires certain operators of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53 to develop and implement PTASP based on a Safety Management Systems (SMS) approach. Development and implementation of agency safety plans will help ensure that public transportation systems are safe nationwide. This fact sheet summarizes the requirements of this rule and the responsibilities of Florida's transit providers and Metropolitan Planning Organizations (MPOs) in implementing the rule.

### PUBLIC TRANSPORTATION AGENCY SAFETY PLANS (PTASP)

#### Federal Rule Applicability

RECIPIENTS AND SUB-RECIPIENTS OF FTA 5307 FUNDS	FTA is deferring applicability for operators that only receive 5310 and/or 5311 funds.
SMALL PUBLIC TRANSPORTATION PROVIDERS (5307S)	Agencies: a) without rail; and b) with fewer than 101 revenue vehicles in operation during peak service may complete their own plan or have their plan drafted or certified by their state DOT.

#### PUBLIC TRANSPORTATION SAFETY PERFORMANCE MEASURES

#### FATALITIES

Total number of reportable fatalities and rate per total vehicle revenue miles by mode.

#### **INJURIES**

Total number of reportable injuries and rate per total vehicle revenue miles by mode.

#### SAFETY EVENTS

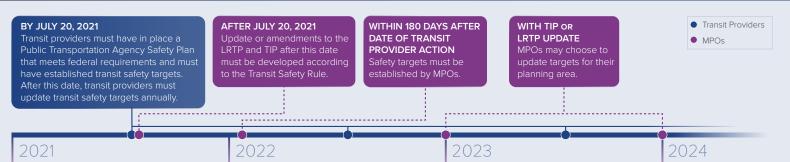

Total number of reportable events and rate per total vehicle revenue miles by mode.

#### SYSTEM RELIABILITY

Mean distance between major mechanical failures by mode.

#### TIMELINE

#### PTASP CERTIFICATION AND REVIEW

### RELATIONSHIP OF PTASP TO FLORIDA REQUIREMENTS

Florida requires each Section 5307 and/or 5311 transit provider to have an adopted System Safety Program Plan (SSPP) (Chapter 14-90, Florida Administrative Code). The FTA PTASP rule and Florida's SSPP requirements are similar, but have some differences. Because Section 5307 providers in Florida must already have a SSPP, FDOT recommends that transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements.

FDOT has issued guidance to providers to assist them with revising existing SSPPs to be compliant with the FTA requirements.

While the PTASP rule requires transit providers to establish safety performance targets, the SSPP does not.

## PTASP RELATIONSHIP TO OTHER FEDERALLY REQUIRED PLANS AND PRODUCTS

#### REQUIREMENTS

## COORDINATION WITH METROPOLITAN, STATEWIDE, AND NON-METROPOLITAN PLANNING PROCESSES

- » Public transit providers will coordinate with FDOT and affected MPOs in the selection of transit safety performance targets.
- » Providers will give written notice to the MPO(s) and FDOT when the provider establishes transit safety targets. This notice will provide the established targets and the date of establishment.
- » MPOs that establish their own transit safety targets will coordinate with the public transit provider(s) and FDOT in the selection of transit safety performance targets. The MPOs will give written notice to the public transit providers and FDOT when the MPO establishes its own transit safety targets.
- » MPOs that agree to support a public transit provider's safety targets will provide FDOT and the public transit providers documentation that the MPO agrees to do so.

- » Public transit providers that annually draft and certify a PTASP must make the PTASP and underlying safety performance data available to FDOT and the MPOs to aid in the planning process.
- » Public transit providers will update the PTASP and establish transit safety targets annually. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. MPOs will reflect current provider PTASP targets in the updated TIP.
- » If two or more providers operate in an MPO planning area and establish different safety targets for a measure, the MPO may establish a single target for the MPO planning area or establish a set of targets for the MPO planning area that reflect the differing transit provider targets.

## **Draft Transportation Improvement Program (TIP)** is available for public review – Transportation Planning Organization

#### The Ocala Marion TPO Draft Transportation Improvement Program (TIP) is available for public review.

The Ocala Marion Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) is a five-year schedule of transportation improvements throughout the Metropolitan Planning Area of Marion County. The TIP documents the anticipated timing and cost of transportation projects funded by federal, state and local sources. Projects in the TIP may include roadway and bridge construction; operations; resurfacing; bicycle and pedestrian; transit, aviation and rail.

The **Draft TIP for Fiscal Years 2023 to 2027** is available for public review by accessing the TPO website at: <u>https://ocalamariontpo.org/plans-and-programs/transportation-improvement-program-tip</u>.

Please use the TPO Feedback Form at <u>https://ocalamariontpo.org/public-involvement/tpo-feedback-form</u> to provide comments by **June 24, 2022;** or contact Rob Balmes, TPO Director. 352-438-2631; <u>rob.balmes@marionfl.org</u>.

#### **APPENDIX F: Public and Partner Comments**

#### FY 2023 to 2027 Transportation Improvement Program (TIP)

#### **Public Comments**

#### Summary

The draft Fiscal Years 2023 to 2027 Transportation Improvement Program (TIP) was made available for public and partner agency review on May 3, 2022. The following public comments were received by the TPO.

- **Comment:** "Please expand I-75 and existing roads before destroying farms, nature, and the springs to build new ones. Once these resources are gone they can never be replaced."
  - **TPO Response**: Noted for public record. The citizen requested to not receive follow up from the TPO. The comment is part of public record and included in the TIP document for future planning considerations.
- **Comment:** "As a member of the TPO Board who works at Central Florida Community Action Agency and live in Alachua County, one of the things that I've noticed for some of the clients that we serve in Marion County, they have transportation needs to get back and forth to clinical sites that are often located in Belleview, Orlando, etc. I'm not sure if there is some sort of shuttle services that can assist students who are residents and need to travel outside of Marion County for clinicals, work, etc."
  - **TPO Response**: Noted for public record. The citizen was thanked for the comment and informed it will become part of public record, and included in the TIP document for future planning considerations.
- **Comment:** "The back and forth regarding opening Ocala Int'l Airport to commercial airlines needs to be resolved in two ways: The designation "International Airport" is misleading. That needs to be changed to something else to reflect the actual air traffic and constituent travel: Regional Airport? Regional Business Airpark? Dump the word "International". Second, a lot of frustration of air travelers having to drive to Orlando or Gainesville could be reduced by a highspeed railway system."
  - **TPO Response**: Noted for public record. The citizen was thanked for the comment and informed it will become part of public record, and included in the TIP document for future planning considerations.

#### TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

*Editorial*: Comments may be addressed by MPO, but would not affect approval of the document, i.e., grammatical, spelling and other related errors.

**Enhancement:** Comments may be addressed by MPO, but would not affect approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

*Critical:* Comment MUST be addressed to meet minimum state and federal requirements to obtain approval. The reviewer must clearly identify the applicable state or federal policies, regulations, guidance, procedures or statutes that the document does not conform with.

If a question is categorized, a comment must be included. In addition, if a question is answered with "no", a comment must also be included. Once the checklist is finalized, please share as a PDF.

## APPENDIX G: Glossary of Terms and Acronyms

# Glossary of Terms and Acronyms

OCALA MARION TRANSPORTATION PLANNING ORGANIZATION

February 2022

ACRYONYM	NAME	DESCRIPTION	
3C	Continuing, Cooperative and Comprehensive	A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding.	
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.	
ADA	Americans with Disabilities Act	The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.	
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.	
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections.	
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data.	
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources.	
CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.	
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented.	
CBSA	Core Based Statistical Areas	CBSAs consist of the county or counties or equivalent entities associated with a least one core (urbanized area or urban cluster) of at least 10,000 population plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel.	
CFMPOA	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.	
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United State Code (USC) or the law.	

ACRYONYM	NAME	DESCRIPTION			
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.			
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.).			
СМР	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.			
стс	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation- disadvantaged/).			
СТД	Commission for Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funs to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc. org/TD/td.html).			
СТРР	Census Transportation Planning Products	The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau.			
СТЅТ	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition.			
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/ programs/dbe/).			
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/ communitytransystem.htm)			
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions			
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project.			

ACRYONYM	NAME	DESCRIPTION		
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.		
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects.		
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.		
FAST Act	Fixing America's Surface Transportation Act	The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.		
FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida-https://jobs.myflorida.com/go/ Department-of- Transportation/2817700/).		
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal- aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.		
FMTP	Freight Mobility and Trade Plan	FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future.		
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.		
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers fede funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commute rail, streetcars, monorail, passenger ferry boats, inclined railways, and peop movers.		
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.		
FY	Fiscal Year/ Federal Fiscal Year	The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30.		

ACRYONYM	NAME	DESCRIPTION		
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.		
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.		
HSIP	Highway Safety Improvement Program	The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.		
HUD	Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.		
AUI	Infrastructure Investment and Jobs Act	Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending.		
IRI	International Roughness Index	International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface.		
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system.		
LOS	Level of Service	Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.		
LOPP	List of Priority Projects	The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding.		
LRTP/MTP	Long-Range Transportation Plan (or Metropolitan Transportation Plan)	A document that serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and- programs/long-range- transportation-plan-Irtp/.		

ACRYONYM	NAME	DESCRIPTION		
LOTTR	Level of Travel Time Reliability	The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS).		
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.		
МРА	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.		
MPO	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.		
ΜΡΟΑϹ	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.		
MSA	Metropolitan Statistical Area	A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.		
NTD	National Transit Database	The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems.		
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requirin federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.		
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.		
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)].		
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500).		

ACRYONYM	NAME	DESCRIPTION		
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https:// www.fdotd7studies.com/what-is-a-pde-study.html).		
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.		
PM	Performance Management	Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals.		
РРР	Public Participation Plan	The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.		
PTASP	Public Transportation Agency Safety Action Plan	A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system.		
RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.		
SHSP	Strategic Highway Safety Plan	This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducir serious injuries on all public roads.		
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot. gov/planning/sis/default.shtm).		
SOV	Single-Occupancy Vehicle	Any motor vehicle operated or driven by a single person.		
STBG	Surface Transportation Block Grant Program	The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.		
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.		
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.		

ACRYONYM	NAME	DESCRIPTION		
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals.		
ТАМР	Transportation Asset Management Plan	The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts).		
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.		
TD	Transportation Disadvantaged	Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues.		
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).		
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.		
TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.		
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.		
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.		
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.		

ACRYONYM	NAME	DESCRIPTION			
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half- mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org).			
ТРМ	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.			
ТРО	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.			
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.			
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities.			
TTTR	Truck Travel Time Reliability Index	The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system.			
UA	Urbanized Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.			
ULB	Useful Life Benchmark	The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration.			
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.			
USC	United States Code	The codification by subject matter of the general and permanent laws of United States.			
USDOT	United States Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.			
YOE	Year of Expenditure	The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed.			
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia).			

## APPENDIX H: Project Changes from Prior TIP

### **Project Changes from Prior Transportation Improvement Program (TIP)**

The following lists (2) summarize major projects that were programmed in the previous FY 2022 to FY 2026 TIP and their respective status toward implementation. This includes projects that were advanced; completed; under construction (2022); or deferred.

Changes to total project funding are also noted for major projects programmed in both the previous FY 2022 to FY 2026 TIP and the current FY 2023 to FY 2027 TIP.

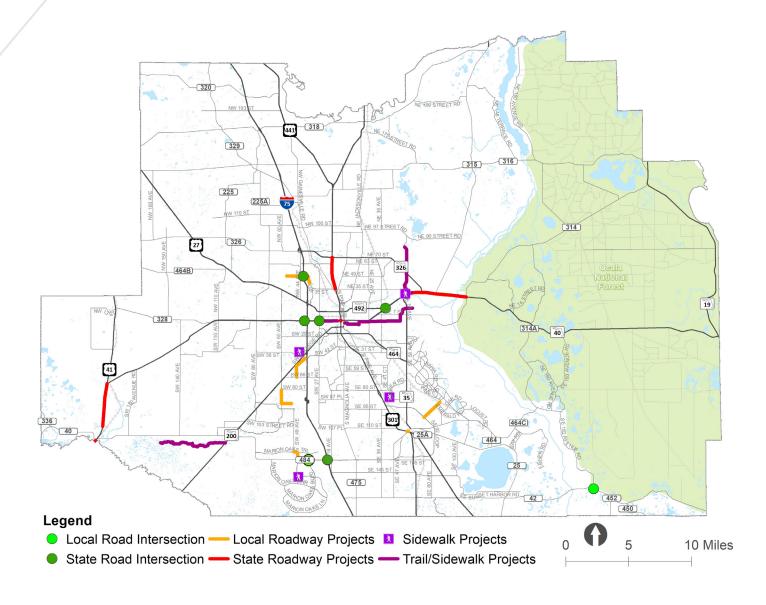

Project Status from Prior TIP: Advanced, Completed, Construction or Deferred				
Project Number/FM	Project Description	Project Status	FY 22-26 TIP Funding	
2386481	SR 45 (US 41) from SW 110th Street to North of SR 40	Deferred Out	\$44,211,268	
4112565	SR 35 (US 301) Dallas Pond Redesign	Constrution 2022	\$537,379	
4336511	CR 484 from SW 20th Avenue to CR 475A	Construction 2022	\$15,302,481	
4336611	U.S. 441 from SR 40 to SR 40A (Broadway)	Construction 2022	\$3,607,422	
4348441	CR 42 at SE 182nd Avenue	Deferred to FY 23	\$407,200	
4354842	Pruitt Trail from SR 200 to Pruitt Trailhead	Deferred to FY 26	\$2,158,000	
4364742	Saddlewood Elementary School Sidewalks	Construction 2022	\$317,096	
4364743	Legacy Elementary School Sidewalks	Construction 2022	\$1,411,659	
4375962	SR 40 from NW 27th Street to SW 7th Street Sidewalks	Completed 2021	\$913,539	
4384271	Marion County Airport Airfield Pavement Improvements	Deferred to FY 25	\$4,833,608	
4384771	Ocala International Airport Taxiway Improvements	Deferred to FY 26	\$6,500,000	
4407801	Ocala International Airport Pavement Rehabilitation	Deferred to FY 24	\$1,978,750	
4408801	Marion Oaks Marion Oaks Manor Sidewalk	Construction 2022	\$36,210	
4431701	SR 93 (I-75) from Sumter County to SR 200	Construction 2022	\$30,271,013	
4437301	U.S. 301/U.S. 441 South of Split to North of Split Landscape	Construction 2022	\$372,839	
4453211	Wildwood Mainline Weigh-In Motion (WIM) Screening	Construction 2022	\$4,621,712	
4456871	U.S. 41/Williams from Brittan Alexander Bridge to River Road	Advanced to FY 22	\$551,496	
4458001	SR 40 at SR 492 (NE 14th Street)	Advanced to FY 22	\$987,415	
4471371	SR 200 Bridges and SR 40 Bridge Deck Rehabilitation	Construction 2022	\$1,010,681	
4483891	NW 9th Street at Railroad Crossing #627174G	Completed 2022	\$207,629	
4485751	Ocala International Airport ARFF Building	Deferred to FY 27	\$1,608,894	

Major Project Total Funding Changes: Prior TIP to Current TIP					
Project Number/FM	Project Description	Project Schedule Changes	Change in Project Funding		
2386481	SR 45 (US 41) from SW 110th St to North of SR 40	Deferred Out	-\$44,211,268		
4336511	CR 484 from SW 20th to CR 475A	None	-\$2,874,947		
4352091	I-75 (SR 93) at NW 49th Street from end of NW 49th to NW 35th I-75 (SR 93) Rest Area Marion County, N/O CR 484 to S/O SR	None	-\$2,922,305		
4385621	200	None	\$8,409,437		
4392341	SR 200 from I-75 to US 301	None	\$5,749,473		
4411411	SR 464 from US 301 to SR 35 (Baseline)	None	\$2,314,249		
4452121	SR 200 (US 301) from S/O NE 175th to Alachua County Line	None	-\$481,617

# **APPENDIX K: Roll Forward TIP Amendment Report**

Website: Ocalamariontpo.org

Transportation Improvement Program Fiscal Years 2023 to 2027 Roll Forward Amendment Pending Approval August 23, 2022

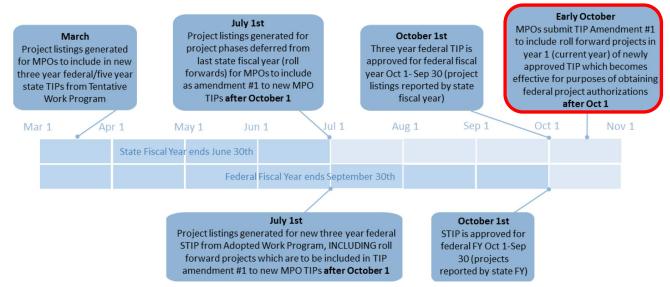

# **Roll Forward TIP Amendment**

# **PURPOSE**

The TPO's FY 2023 to FY 2027 Transportation Improvement Program (TIP) was adopted by the Board on June 28, 2022. The purpose of the TIP Roll Forward Amendment is to ensure full consistency by October 1 each year between the Ocala/Marion County Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) and the Florida Department of Transportation (FDOT) Work Program.

In some cases, project funding programmed in the previous fiscal year of the prior TIP document was not authorized and encumbered prior to June 30. These projects then roll-forward in the FDOT Work Program for year one (FY 2023), but not into the TPO's TIP to meet the timeline for annual adoption. As a result, the TPO's TIP must be amended each year to include roll-forward projects in the current fiscal year to ensure consistency with the FDOT Work Program. Hence, the process is called the Roll Forward TIP Amendment.

Unlike all other projects, Federal Transit Administration (FTA) projects to not automatically roll-forward in the FDOT Work Program. The TPO coordinates with SunTran to verify that project funding is appropriately accounted for in the Roll Forward TIP Amendment. The following graphic displays the Roll Forward process and all key milestones.

Source: Florida Department of Transportation MPO Program Management Handbook, 2021

# **Roll Forward Summary**

The following tables summarize roll forward projects for the FY 2023 to FY 2027 TIP. The table includes current FY 2023 project funding, amount of funding rolled forward, and revised FY 2023 project funding.

Project FM #	Project Name	Work Type	Phase(s)	Current TIP FY 2023	Amount Rolled Forward	Revised TIP FY 2023

July 11, 2022

Ocala Marion TPO ATTN: Rob Balmes, Executive Director 2710 E Silver Springs Blvd Ocala FL 34470

# RE: Request to Amend Fiscal Year (FY) 2022/23-2026/27 Transportation Improvement Program (TIP) – Annual Roll Forward

Dear Mr. Balmes:

The purpose of this letter is to request Ocala Marion TPO amend the FY 2022/23-2026/27 TIP with the Annual Roll-Forward Report. The Roll Forward report reconciles differences between the TIP and Florida Department of Transportation's (FDOT) Adopted Five-Year Work Program. This is annual process is routine and assists the MPO with identifying projects using federal funds that were not committed during the previous state fiscal year (FY 2021/2022). These projects have automatically "rolled forward" in the FDOT Adopted Five-Year Work Program as of July 1, 2022. This amendment ensures that year one of the TIP matches year one of FDOT's Adopted Five-year Work Program.

The reason for this amendment is to ensure projects with federal funding can be authorized prior to the new Federal Fiscal Year (FFY) beginning on October 1 each year. Until then, Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) continue to recognize the FY 2021/22 – 2025/26 TIP as the effective document. Adopting the Roll Forward Report and amending it into the TIP ensure projects will continue to be authorized without interruption.

The affected projects are listed in the attached Roll-Forward Report dated July 5, 2022. The MPO is requested to add this report to the FY 2022/23-2026/27 TIP in its entirety.

Feel free to contact the Liaison Group at <u>D5-MPOLiaisons@dot.state.fl.us</u>.

Sincerely,

—DocuSigned by:

Rakinya Hinson

**RE:** Performance Management 2023 Safety Targets (PM1)

## <u>Summary</u>

Federal law requires State DOTs and TPOs/MPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures. The first of the performance measures that became effective in 2016 was assessing the conditions of roadway safety (PM1). In May 2018, all TPO/MPO's were required to establish safety targets and approve or update on an annual basis.

Specifically, the TPO is required to update and adopt **Targets** for **five** required **Safety Performance Measures**. The TPO must submit our Safety targets to the Florida Department of Transportation (FDOT) Central Office. Please refer to the following table for a summary of the five required safety performance measures.

Safety Performance Measures	<b>Description</b> (per calendar year)
1. Fatalities	Total number of fatalities involving a motor vehicle crash
2. Fatalities (Rate)	Rate of fatalities per 100 Million Vehicle Miles Traveled (VMT)
3. Serious Injuries	Total number of serious injuries involving a motor vehicle crash
4. Serious Injuries (Rate)	Rate of serious injuries per 100 Million Vehicle Miles Traveled (VMT)
5. Non-Motorized Fatalities & Serious Injuries	Number of non-motorized fatalities and number non-motorized serious injuries involving a motor vehicle crash

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala Annually, the TPO may select one of two options regarding updating and submission of safety targets.

1. Adopt the state targets established by the Florida Department of Transportation (FDOT); <u>or</u>

2. Develop separate quantifiable safety performance targets.

If the TPO adopts FDOT safety targets, the requirement is to annually adopt the same targets until changes are made by the state. Presently, the FDOT has annually adopted 0 for each of the five safety targets. There are no direct implications to the TPO for not reaching adopted targets.

In 2018, when this process became a federal requirement, the TPO Board adopted specific, measurable safety performance targets to better track progress and reflect more accountability to the public. The targets reflect specific crash data for Marion County. Over the past five years, the TPO Board has opted to follow the same approach of reviewing prior year target results and adopting revised targets tied to a specific methodology involving five-year rolling averages and projected vehicle miles traveled (VMT). The methodology is explained in more detail in this memo packet.

Safety Performance Measure	2022 Targets
#1 - Fatalities	98
#2 - Fatalities per 100 Million VMT	2.08
#3 - Serious Injuries	378
#4 - Serious Injuries per 100 Million VMT	8.02
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	57

For reference, on February 22, 2022, the TPO Board adopted the following safety targets:

Based on crash data collected by the TPO using Signal Four Analytics (University of Florida), the following summarizes the 2022 crash results in Marion County and a comparison with the adopted targets. As shown, 4 of the 5 targets were not met in 2022.

Safety Performance Measure	2022 Results	2022 Targets	Met Target?
#1 - Fatalities	109	98	No
#2 - Fatalities per 100 Million VMT	2.35	2.08	No
#3 - Serious Injuries	492	378	No
#4 - Serious Injuries per 100 Million VMT	10.59	8.02	No
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	56	57	Yes

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala Following the rolling-average methodology used by the TPO, an analysis of the five safety targets for 2023 was conducted using information provided by FDOT and the University of Florida Signal Four Analytics online public dashboard. Included with this memo is documentation of the specific methodology. Based upon this analysis, the proposed 2023 safety targets are as follows.

Safety Performance Measure	Proposed 2023 Targets (not to exceed)	Adopted 2022 Targets	Change +/-
#1 - Fatalities	101	98	3
#2 - Fatalities per 100 Million VMT	2.14	2.08	0.06
#3 - Serious Injuries	417	378	39
#4 - Serious Injuries per 100 Million VMT	8.88	8.02	0.86
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	56	57	-1

**Proposed 2023 Safety Targets** 

## Attachment(s)

- 2023 Safety Target Methodology
- Presentation
- FDOT PM1 Safety Fact Sheet

# **Board Options**

**Option A.** Adoption of specific and measurable safety targets for 2023 based on the fiveyear rolling average methodology.

**Option B.** Adoption of 0 for all five 2023 safety targets.

# **TPO Staff Recommendation(s)**

TPO staff recommends **Option A**.

# **Committee Recommendation(s)**

The Citizens Advisory Committee (CAC) and Technical Advisory Committee (TAC) voted to recommend **Option A** on February 14, 2023.

FHWA's vision of performance-based planning is predicated on the approach that it is critical to annually analyze crash numbers of our community. By tracking results each year measured against realistic adopted targets, the TPO can assess progress being made toward the ultimate goal of Commitment to Zero – Zero Fatalities and Zero Serious Injuries in

Ocala/Marion County. Analyzing the crash statistics in comparison to targets also promotes a level of accountability for everyone in the community.

As we review the crash statistics in 2023, we should always remember that each number is a human life with profound impacts felt throughout the entire community.

If you have any questions, please contact me at: 438-2631.

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala

## OCALA MARION TPO PERFORMANCE MANAGEMENT SAFETY TARGET (PM1) METHODOLOGY

The TPO developed federally required safety targets (PM1) for 2023 using the following methodology. This methodology has been used for setting targets in 2021 and 2022.

(1.) **Collect the Safety Data** [Performance Measures #1, #3 and #5, as shown in *Table 1*]. The sources are the Federal Highway Administration (FHWA) safety data provided by the Florida Department of Transportation (FDOT) (historic) and University of Florida Signal Four public dashboard (2022 data).

(2.) **Project the estimated Vehicle Miles Traveled (VMT) in Millions** [Used to calculate (1.) above and Performance Measures #2 and #4, as shown in *Table 1*]. VMT growth was tied to the average annual change from years 2016 to 2021. The TPO excluded analyzing the annual average percent change in 2020 due to the pandemic and unusual traffic counts. Future analysis of VMT growth will require adjustments when including any traffic count information in 2020. Table 2 shows the VMT trends based on information provided by the Florida Department of Transportation and from projections of VMT in 2022 and 2023 tied to historic growth (average annual growth rate) (Table 2).

Safety Performance Measure	<b>Description</b> (per calendar year)
1. Fatalities	Total number of fatalities involving a motor vehicle
	crash
2. Fatalities (Rate)	Rate of fatalities per 100 Million Vehicle Miles
	Traveled (VMT)
3. Serious Injuries	Total number of serious injuries involving a motor
	vehicle crash
4. Serious Injuries (Rate)	Rate of serious injuries per 100 Million Vehicle
	Miles Traveled (VMT)
5. Non-Motorized Fatalities	Number of non-motorized fatalities and number
and Serious Injuries	non-motorized serious injuries involving a motor
	vehicle crash

 Table 1: Safety Performance Measures

## Table 2: Vehicle Miles Traveled (VMT), Marion County

	100 Millio	n Vehicle I	Viles Trave	eled (MVM	T) annually				CTIONS
2015	2016	2017	2018	2019	*2020	2021	2015 to 2021 Average Annual % Change	2022	ARS 2023
42.5	44.7	45.1	45.9	47.0	44.9	45.7	1.4%	46.3	47.0

(3.) To determine the proposed Safety Targets in 2023, TPO staff calculated 5-year rolling averages based on the historic crash data provided by FDOT and current year (2022) available at the Signal Four website. Using rolling averages is standard practice and helps account for the possibility of drastic changes in the number of fatalities and serious injuries from year to year.

Specifically, the TPO utilized the three (3) most recent 5-year rolling averages. The 2023 Safety Targets were determined by using the same approach as the (2) VMT methodology, but instead applying the "Percent Change of Three, Three-Year Rolling Averages (2016-2022)" to the most recent 5-year rolling average (2018-2022). For example, the 2018 to 2022 Rolling Average of Fatalities was 96. Applying the percent change of the three, three-year rolling averages (4.7%), results in the Proposed 2023 Fatality Target as 101. This methodology was used for #1, #3, #5 targets, respectfully. Targets "#2 Fatalities per 100 Million VMT" and "#4 Serious Injuries per 100 Million VMT" were then determined by dividing the proposed 2023 Targets for "#1 Fatalities", "#3 Serious Injuries" by the projected 2023 VMT as determined by the referenced methodology for VMT (Table 3).

							20	022	#1	#2	#2	2023 Method	2023
Performance Measure	2016	2017	2018	2019	2020	2021	*Total Results	Targets (Set Feb. 2022)	2016-2020 Rolling Average	2017-2021 Rolling Average	2018-2022 Rolling Average	Percent Change of Three Rolling Averages	Proposed 2023 Targets
#1 - Fatalities	70	90	84	90	105	93	109	98	88	92	96	4.7%	101
#2 - Fatalities per 100 Million VMT	1.57	1.99	1.83	1.92	2.34	2.04	2.35	2.08					2.14
#3 - Serious Injuries	372	364	584	435	302	261	491	378	411	389	415	0.6%	417
#4 - Serious Injuries per 100 Million VMT	8.33	8.07	12.73	9.26	6.72	5.72	10.59	8.02					8.87
#5 - Number of non-motorized (bicycle & pedestrian) fatalities and serious injuries	52	54	57	62	54	51	56	57	56	56	56	0.2%	56

\*2022 Crash Statistics from University of Florida Signal Four Analytics Database (collected on January 27, 2023)

(next page)

Safety Performance Measure	Proposed 2023 Targets (not to exceed)
#1 - Fatalities	101
#2 - Fatalities per 100 Million VMT	2.14
#3 - Serious Injuries	417
#4 - Serious Injuries per 100 Million VMT	8.88
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	56

# **2023 Safety Targets**

- Annual Federal Requirement
- Safety Performance Measures (PM1)
- Integration into TPO's LRTP and TIP

 Tracking results against realistic adopted targets supports an annual review of progress being made toward the ultimate goal of Commitment to Zero – Zero **Fatalities and Zero Serious Injuries in Ocala/Marion County.** 

 Analyzing the crash statistics in comparison to adopted targets also promotes a level of accountability for everyone in our community.

### As the Board reviews the crash statistics in 2023, we should always remember that each number is a human life with profound impacts felt throughout the entire Ocala/ Marion community.

- TAC and CAC review and action, February 14
- Board review and action, February 28
- Submission of Safety Targets to FDOT March 1, 2023

### Five Safety (PM 1) Performance Measures

Safety Performance Measures	Description
1. Fatalities	Total number of fatalities
2. Fatalities (Rate)	Rate of fatalities per 100 Million Vehicle Miles
	Traveled (VMT)
3. Serious Injuries	Total number of serious injuries
4. Serious Injuries (Rate)	Rate of serious injuries per 100 Million Vehicle
	Miles Traveled (VMT)
5. Non-Motorized Fatalities &	Number of non-motorized fatalities and number
Serious Injuries	non-motorized serious injuries

### 2022 Targets & Results

Safety Performance Measure	2022 Targets	2022 Results	Met Target?
#1 - Fatalities	98	109	No
#2 - Fatalities per 100 Million VMT	2.08	2.35	No
#3 - Serious Injuries	378	492	No
#4 - Serious Injuries per 100 Million VMT	8.02	10.62	No
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	57	56	Yes

### **2021 Reference**

Safety Performance Measure	2021 Targets	2021 Results	Met Target?
#1 - Fatalities	97	93	Yes
#2 - Fatalities per 100 Million VMT	1.96	2.04	No
#3 - Serious Injuries	432	261	Yes
#4 - Serious Injuries per 100 Million VMT	8.74	5.72	Yes
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	61	51	Yes

8.02	0.86
57	-1

### **Option A**

- Adopt 2023 Targets based on rolling-average methodology.
  - TPO Staff Recommendation
  - CAC and TAC Recommendation

### 2022 Recommendations

### **Option B**

### Adopt <u>0</u> for all five targets to reflect State Targets set by FDOT

Note: When an MPO/TPO adopts State Targets, no changes can be made unless FDOT changes the State Targets.

### **PM1:** Safety

Florida Department of Transportation Office of Policy Planning

### MAP-21 Performance Management

March 2021

#### **OVERVIEW**

The first of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on April 14, 2016, establishing measures to assess the condition of road safety. This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.\*

#### **PERFORMANCE MEASURES - APPLICABLE TO ALL PUBLIC ROADS**

	The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.	COORDINATION WITH OTHER PLANS
		Updates to FDOT's Florida
	The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year.	Transportation Plan (FTP) and MPO's Long-Range Transporta- tion Plans (LRTP) must include
		most recently reported safety
	The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.	performance data and targets. Updates to the Statewide Transportation Improvement
		Program (STIP) and Transpor-
RATE OF SERIOUS INJURIES	The total number of serious injuries per 100 million VMT in a calendar year.	tation Improvement Programs (TIP) must include a description of how the STIP/TIP contributes
		to achieving safety performance
NUMBER OF NON-MOTORIZED FATALITIES AND NON-MOTORIZED SERIOUS INJURIES	The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year.	targets in the FTP/LRTP.

#### TIMELINE

\* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

#### **EXISTING STATEWIDE CONDITIONS**

#### **STATEWIDE TARGETS**

- » FDOT annually establishes statewide safety targets for the following calendar year as part of the HSIP Annual Report, which must be submitted by August 31 each year.
- » Targets are applicable to all public roads regardless of functional classification or ownership.

Given FDOT's firm belief that every life counts, **the target set for all safety performance measures is ZERO**.

#### **MPO TARGETS**

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs must annually update their targets by February 27 of each year.

#### ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four out of the five safety performance targets are met or the actual outcome for the safety performance target is better than baseline performance.

Based on FHWA's review, Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users. As requested by FHWA, FDOT has developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of these targets.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

#### RE: Amendment of the 2022 List of Priority Projects (LOPP), Strategic Intermodal System (SIS) List

#### <u>Summary</u>

Per the request of the TPO Board Chair, Commissioner Craig Curry, the 2022 List of Priority Projects (LOPP) Strategic Intermodal System (SIS) project list is proposed to be amended. The amendment is proposed to ensure the I-75 interchanges in Marion County are listed on the current 2022 LOPP SIS list including general project improvement descriptions. The current six interchanges are part of the ongoing I-75 Master Plan Study being conducted by the Florida Department of Transportation (FDOT). All proposed changes are reflected in tracked changes mode and red font for ease of review.

Upon approval, the amended 2022 LOPP will support the development of the 2023 LOPP process and lists, which is now underway.

#### Attachment(s)

• Proposed Amended List of Priority Projects (LOPP), SIS List

#### **Committee Recommendation(s)**

• The Citizens Advisory Committee (CAC) and Technical Advisory Committee (TAC) approved the 2022 LOPP Amendment on February 14, 2023.

#### Action Requested

TPO staff is requesting your review and approval. If you have any questions regarding the proposed LOPP amendment, please contact me at 438-2631.

RE:	Strategic Intermodal System (SIS) Board Comment Letter

#### <u>Summary</u>

Every five years, the Florida Department of Transportation (FDOT) District 5 coordinates with Central Office to complete a series of Strategic Intermodal System (SIS) planning documents which include three tiers or lists of future capacity improvement projects. The SIS lists contain projects currently programmed (FY 2024-2028), planned to be funded (FY 2029-2033), and considered financially feasible based on projected State revenues (FY 2033-2050).

On January 27, the FDOT District 5 submitted a set of draft SIS project lists to the TPO and requested comments as soon as possible. A follow-up virtual overview meeting was requested with the TPO Director and TPO Chair on February 8. FDOT District 5 staff explained they are required to submit comments to Central Office no later than February 28.

Based on the timeframe for reviewing and submitting comments to District 5, TPO Chairman Curry requested a meeting with staff representatives of the Cities of Belleview, Dunnellon, Ocala and Marion County to coordinate and submit one set of comments. A coordination meeting was held on February 15, 2023 at the Marion County Office of County Engineer and included: Rob Balmes, TPO; Elton Holland, Marion County; Sean Lanier, City of Ocala; Bob Titterington, City of Belleview; Troy Slattery, City of Dunnellon; Chad Ward, City of Dunnellon.

Attached to this memo is a letter on behalf of the TPO from Chairman Curry to FDOT District 5 Secretary John Tyler. The content of the letter was developed at the February 15 local coordination meeting, and outlines specific comments from the TPO and local government partners regarding the SIS projects lists.

Also attached is an overview presentation of SIS projects in Marion County shared by FDOT staff at the February 8 virtual meeting.

- SIS draft Project List Presentation, Marion County

#### **Action Requested**

Approval of the TPO SIS project comment letter from Chairman Curry.

If you have any questions, please contact me at: 438-2631.

February 28, 2023

Secretary John E. Tyler, P.E. Florida Department of Transportation 719 South Woodland Boulevard DeLand, FL 32720

RE: Strategic Intermodal System (SIS) Plan Comments

Secretary Tyler,

On behalf of the Ocala/Marion County Transportation Planning Organization (TPO), thank you for the opportunity to offer comments regarding the Draft Strategic Intermodal System (SIS) Plans in Marion County. We recognize the vitally important need to plan for improvements to our transportation system to meet the growing opportunities and challenges in the State of Florida.

We offer the following comments to the draft First Five (2024-2028), draft Second Five (2029-2033) and draft Long Range (2033-2050) plans. These comments are reflective of the priorities most important to the TPO and our local government partners.

Like many areas of Central Florida, the Ocala/Marion County community is experiencing significant growth and development. As part of our approach to proactively plan for the future, we have made substantial investments in building a local transportation network that provides for parallel relief to the I-75 corridor and better connects our citizens throughout the community. For example, roadway capacity and extension projects are completed or underway to improve north-south connectivity to the SW 49th Avenue, SW/NW 43rd and 44th Avenue and NW/SW 80th Avenue corridors. Additionally, major development activities in the County are providing new jobs, housing and unique one-of-a-kind travel destinations. People are moving to Marion County every day, and visitors are coming from around the world.

#### **SIS First Five (2024-2028)**

The new I-75 interchange project at NW 49th Street is the top priority of the TPO and exemplifies a great partnership between the District and Marion County. The TPO requests this project stays on schedule and fully funded for construction in Fiscal Year 2025.

The existing interchanges at CR 484, SR 200, SR 40, U.S. 27, SR 326 and CR 318 are vitally important access points and gateways to our community. As part of the ongoing I-75 PD&E/Master Planning and Moving Florida Forward Legislation, we recommend the Department review the interchanges to ensure they are modernized and support the current and future growth of our community.

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala For example, operational improvements at the SR 40 interchange are partly funded in the Work Program. Completing this project will support access to communities and destinations both east and west of I-75. Interchanges such as CR 318 are antiquated and in need of safety and operational improvements.

#### **SIS Second Five (2029-2033)**

The investment in right-of-way and community outreach for the SR 40 projects in the First Five is a positive step towards advancing the future widening of all three segments of the corridor in Marion County. The SR 40 segment from the end of four lanes to CR 314 has been deferred multiple times in the past. The TPO requests this project remains on schedule for construction by 2030. The TPO appreciates an emphasis on design work for the interchanges at SR 326 and SR 200 as part of future I-75 ultimate build-out planning. As mentioned, the existing interchanges at CR 484, SR 40, U.S. 27 and CR 318 also require design work to support the projected growth of our community. This includes future six-lane widening plans of CR 484, east and west of the interchange.

#### SIS Long Range Cost Feasible (2033-2050)

The TPO is supportive of a comprehensive approach for the build-out of I-75 beyond the Moving Florida Forward Plan. I-75 is one of the most critical transportation corridors in Florida. The projects currently identified in this time-band address long-term needs, including the addition of a future interchange at SW 20th Street. As our community grows, this interchange will serve as an important access point to major employment areas and the Ocala International Airport. The TPO will continue working closely with the District, offering feedback and insights regarding project needs in Marion County.

We recommend the Department moves the two remaining segments of the SR 40 projects forward to the SIS Second Five to coincide with the end of four lanes segment. Modernizing and widening the entire SR 40 corridor in Marion County will greatly support east-west mobility and improve safety for both motorists and pedestrians.

The TPO highly values the great working relationship with the Florida Department of Transportation. We appreciate the opportunity to offer feedback on the Strategic Intermodal System planning process, and look forward to working with the leadership and staff of the Department for many years to come.

Sincerely,

Commissioner Waig Curry, Chair Ocala/Marion County Transportation Planning Organization

cc: Rob Balmes, TPO Shakayla Irby, TPO Kellie Smith, FDOT Anna Taylor, FDOT Alice Giuliani, FDOT

## Off SIS

# **Capacity Needs Are Changing**

# **Project Types**

Eligible projects include any projects **supporting SIS facilities** that involve at least two of the following elements and meet evaluation criteria requirements.

### **ELIGIBLE PROJECTS**

- Highway widening
- Fixed guideway transit
- TSMO/ITS
- ACES
- Bicycle/pedestrian facility
- Intersection improvements
- Freight (e.g., truck parking)
- Safety improvements
- Resilience improvements

### **INELIGIBLE PROJECTS**

• Standalone modal projects (examples include aviation, seaports, spaceports, freight rail, etc.)

Additional ineligible projects—see <u>SIS Funding</u> <u>Eligibility Guidance</u>

# **Off-SIS Highway**

SIS will only fund the **construction** phase of off-SIS projects.

### **Eligible Facilities**

Projects must be on an eligible facility. The selected eligibility criteria align with SIS Corridor designation.

- Arterial or higher functional class, and
- Existing minimum 6,000 AADT or minimum 1,000 AADTT

### **Evaluation Criteria**

Projects must demonstrate moving people and goods and a benefit to the SIS:

- Increase person or truck throughput on the off-SIS facility by a minimum of 6%, and
- Reduce trips on at least one adjacent SIS facility by a minimum of 5% or 5,000 vehicular trips

# Thanks!

RE: 2020 U.S. Census Update

#### <u>Summary</u>

As requested by the TPO Board at the January 24, 2023 meeting, further research was conducted regarding the Census Urban Areas and whether the TPO could qualify for TMA designation and future funding opportunities. The following summary provides insights and information shared with the TPO from the Florida Department of Transportation (FDOT) and U.S. Census Bureau.

#### **Information from FDOT**

The FDOT Central Office and Federal Highway Administration (FHWA) have been coordinating the results of the 2020 Census Urban Areas in Florida, including the geographic boundaries and upcoming TMA designations. Some insights have been shared with the TPO, including answers to two key questions.

1. Since the Ocala Urban Area remains separated from the Villages-Lady Lake Urban Area, would a TMA-designated MPO/TPO under 200,000 in population be eligible to select and fund projects from the sub-allocation of Surface Transportation Block Grant and Transportation Alternatives funding?

No. Per 23 USC 133: Surface Transportation Block Grant Program, the population of a contiguous Urban Area must be over 200,000 to receive a sub-allocation of funding for project and MPO/TPO programs. On February 13, 2013, the FDOT Central Office shared with the TPO a confirmation from the Federal Highway Administration (FHWA) pertaining to the current population requirement as cited in federal law.

2. Are the Ocala-Villages-Lady Lake separate and distinct Urban Areas or could adjustments be made to include them as one contiguous Urban Area?

On February 13, 2013, the FDOT Central Office shared with the TPO information received from the Federal Highway Administration (FHWA) regarding the process to

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala designate TMA's. FHWA confirmed the process will strictly be based on the results of the U.S. Census and will not involve any adjustments or modifications to Urban Areas. If there are discrepancies that require corrective action, the TPO was advised to directly contact the U.S. Census Bureau.

#### Information from U.S. Census Bureau

On February 13, the TPO contacted the U.S. Census Bureau requesting an opportunity to discuss and/or receive clarification regarding the connection between the Ocala Urban Area and the Villages-Lady Lake Urban Area at SE 108th Terrace Road. Correspondence also involved a request for explanation regarding the separation of the Ocala Urban Area from the Marion Oaks Urban Area by the Cross Florida Greenway. The following includes a formal response from the Census Bureau.

#### Ocala-The Villages-Lady Lake Urban Areas

The Census Bureau defines urban areas to represent densely developed territory, and encompass residential, commercial, and other nonresidential urban land uses. The 2020 Census urban areas are defined based on aggregations of census blocks and are not required to respect place, county, state, or other boundaries such as military installations. This recognizes that development is not necessarily constrained or directly influenced by other types of geographic areas or boundaries.

In your specific case, Ocala and The Villages-Lady Lake were connected during the Urban Areas delineation. This is a normal part of the delineation process, where urban areas start as cores which expand out via hops and jumps, low density fill, and other steps in the delineation. In many cases such as yours, these areas form large Urban Area Agglomerations (UAAs) that encompass territory defined as separate urban areas for the 2010 Census. Where such results occurred, the Census Bureau applied split criteria. The full criteria is available here:

https://www.federalregister.gov/documents/2022/03/24/2022-06180/urban-area-criteria-for-the-2020-census-final-criteria

In both the 2000 and 2010 urban area delineations, Ocala and The Villages- Lady Lake were physically separate Urban Areas. During the 2020 Urban Areas delineation, Ocala and The Villages- Lady Lake merged together as parts of a single large Urban Area Agglomeration, this agglomeration was split using commuter data to form the final 2020 Urban Areas. For 2020, Ocala and The Villages- Lady Lake remain separate Urban Areas. This splitting of large agglomerations occurred nationwide.

#### **Ocala-Marion Oaks Urban Areas**

During the hops phase of the urban area delineation, the gap between the Ocala area and the Marion Oaks area was too large for a hop connection. The area to the southeast of Ocala (which includes The Villages- Lady Lake UA as well as the Leesburg-Eustis-Tavares UA) combined via hops into a single large agglomeration. Because of these

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala combined areas, that agglomeration had a higher Housing Unit (HU) count during the jump phase of the delineation than the Ocala area.

The jump phase begins with the highest HU count agglomeration, executes one set of jumps, and then moves on to the next highest HU count agglomeration. Lower HU count agglomerations cannot jump back into higher HU count agglomerations. The larger The Villages-Lady Lake and Leesburg-Eustis-Tavares agglomeration jumped into the Ocala area, adding it to the agglomeration. Since there is only one cycle of jumps, Marion Oaks could not be jumped to from that larger agglomeration (which now included Ocala) nor could it make a jump back into the larger agglomeration. In the end, the gap between Ocala and Marion Oaks could not be connected via jumps, and the areas remained separate UAs in 2020 (as they were in the 2000 and 2010 urban areas).

Please note that in delineating urban areas and rural area, the Census Bureau does not take into account or attempt to meet the requirements of any particular programmatic uses of these areas or their associated data. **The Census Bureau does not have an appeals process for the urban areas.** Nonetheless, we will work with tribal, federal, state, or local agencies as well as other stakeholders, as appropriate, to ensure understanding of our classification.

Please do not hesitate to contact us with any additional questions or concerns.

Urban Area Team Geography Division U.S. Census Bureau <u>census.gov</u> | <u>@uscensusbureau</u>

#### **Recommendation**

TPO staff recommends a letter from the Board Chair is transmitted to the U.S. Census Bureau. The letter would include a request for a formal explanation of the Urban Areas and delineations in Marion County, including the separation of the Ocala Urban Area from the Villages-Lady Lake Urban Area and the Marion Oaks Urban Area.

If you have any questions, or concerns please contact me at: 438-2631.

#### **TO:** Board Members

#### FROM: Rob Balmes, Director

**RE: 2023 Commitment to Zero Activities and Committee Feedback** 

#### <u>Summary</u>

The Board adoption of Commitment to Zero was a major milestone. Long-term success will require ongoing work to keep building momentum in the community. Some of the next steps and activities specific to the TPO in 2023 will involve the following:

- Commitment to Zero fact sheets
- Coordination with local partners for safety projects in the 2023 List of Priority Projects (LOPP)
- Commitment to Zero online public crash dashboard
- Social Media for community safety events, public awareness of safety
- Continued partnering for community safety events
- Exploration of public information and public relations opportunities
- Annual Commitment to Zero Workshop (Fall 2023, date to be determined)

Attached with this memo are samples of Commitment to Zero fact sheets. The TPO has developed an initial listing of fact sheets to release in 2023. We are looking for feedback on topics and opportunities to develop additional fact sheets for relevant topics in the community. Additionally, at the February 14 Citizens Advisory Committee and Technical Advisory Committee meetings, members shared feedback and recommendations for activities to improve safety in the community.

#### Attachment(s)

- Feedback Summary, CAC and TAC meetings
- Commitment to Zero Fact Sheets (4) samples
- Preliminary Fact Sheet Topic List

If you have any questions, please contact me at 438-2631.

#### Feedback Summary, CAC and TAC Meetings (February 14, 2023)

A summary of feedback and recommended activities to explore and implement in 2023.

#### Enforcement

- Conduct research to determine correlation between traffic citation/tickets with a reduction in crashes. Find out if research has been conducted and examples to review.
- Increase enforcement in our community to improve safety. Issue more tickets for violations to improve safety, prevent severe crashes and aggressive driver behavior.

#### System Wide – Proactive Safety Planning

- How to be more proactive in preventing crashes in the community. Rather than reacting to crashes and hot spot locations, there needs to be a shift towards prevention. Look at our system and apply more systemic improvements that will prevent crashes.
- Consider conducting predictive safety analysis work in the community.

#### Messaging

- In the past, the Florida Highway Patrol had a large sign that displayed current traffic crash statistics. Explore how to work with state, local partners to get dynamic messaging in the community (e.g. billboards, video display signs)
- Display current or yearly total of fatalities, serious injuries in county; how many crashes to date, last 30 days, etc.
- o Drivers need daily, weekly reminders of incidents and importance of driving safely
- Greater need to get information to people throughout the community as they access and use transportation. Education and information sharing helps, but does not reach the entire community and all drivers

### **Dedication**

Commitment to Zero is dedicated to the people and families of those who lost their lives while traveling the roadways of Ocala/Marion County. Their loss reminds us that every life is precious and inspires us to all continue our commitment toward zero traffic-related deaths and serious injuries.

### **Call to Action**

The road ahead is not easy, but in the hands of those who care, we believe that we will see this commitment through. The Ocala Marion TPO has made a Commitment to Zero, will you do the same?

### The Pledge

I recognize that crashes are preventable, and my choices matter to my life and the lives of others.

I pledge to make safety a priority, to focus on driving, to slow down, be aware of my surroundings, walk, ride, or roll in a safe and predictable manner, and to set an example for those around me.

Traffic crashes are the result of preventable human error and systemic design. They are fixable problems. Each traffic-related death and serious injury are more than a number with profound impacts felt throughout the entire community.

In 2022, the Ocala/Marion Community experienced:

Marion County's \*fatality rate is much higher than state and national rates (40 to 70%).

Traffic fatalities in Marion County are growing by an average of 4.7% a year.

\*fatalities per 100 million vehicle miles traveled

### **Top Three Fatal Crash Types**

#### 2023 Commitment to Zero Fact Sheets – Draft Topics

Each Fact Sheet will be focused on one topic, one message with concise text, graphics, photos.

- Commitment to Zero Pledge
- Connections Safety is a Communitywide Issue Everyone is Accountable
- Crashes are Not Accidents (current crash statistics, major types, causes)
- Vulnerable Road Users (bike/ped, seniors, motorcycles, wheelchairs)
- Rules of the Road (laws, general tips)
- School Safety 101 (coordinate with School District)
- Our First Responders (safety roles and service to our community)
- National (Safe System) and state (Target Zero) initiatives
- Speed and factors in safety
- Safety Design 101 (best practices)
- ... Others to be determined

RE:	2045 Long Range Transportation Plan (LRTP) Update

#### <u>Summary</u>

Per the request of the TPO Board Chair, Commissioner Craig Curry, the 2045 Long Range Transportation Plan (LRTP) Cost Feasible Element was updated to include a clarifying footnote to ensure the six I-75 interchanges in Marion County are identified. The six interchanges are part of the ongoing I-75 PD&E/Master Plan Study being conducted by the Florida Department of Transportation (FDOT) and listed in the Cost Feasible Element.

Based on the status of the PD&E/Master Plan, development of the Strategic Intermodal System (SIS) Plans and Moving Florida Forward, this is the only change necessary at this time. As these plans and proposals progress in 2023, an amendment to the LRTP will be necessary in the near future. Attached to this memo is the footnote highlighted for ease of reference. The FDOT District 5 and Federal Highway Administration (FHWA) Florida Division were consulted on this update.

#### RE: 2022 TPO Annual Report

#### <u>Summary</u>

The 2022 TPO Annual Report has been published. The Annual Report highlights TPO program accomplishments in Ocala/Marion County over the past year. The report was developed with a new template, which the TPO plans to use for future versions.

The 2022 Annual Report is included with the meeting memo and may also be found on the TPO's website.

https://ocalamariontpo.org/about-us/annual-report

If you have any questions, please contact me at: 438-2631.

# ANNUAL REPORT

# Message from the Chair

As a leader and elected official of Ocala, it was my honor in 2022 to serve as Chair of the Ocala/Marion County Transportation Planning Organization (TPO). The Ocala/Marion community is blessed with many amazing people and our lifestyle is one of the best in the entire country. I know with all these gifts also come many challenges that remind us of the hard work that lies ahead. The TPO serves as the lead agency to bring the community together to meet these challenges and plan for our transportation future.

In 2022, the TPO worked with our federal, state and local partners to complete several transportation initiatives on behalf of the Ocala/Marion community. These accomplishments deal with some of the most important issues such as safety, mobility, the transportation disadvantaged, funding and resilience. The TPO also further connected with the community through our public participation process, social media platform and by attending events.

As I think about the future of our community, it's going to take all of us as elected leaders, citizens and partners to work together. We must continue to build on our partnerships through the TPO to accomplish our vision – "A transportation system that supports growth, mobility and safety through leadership and planning." When we come together and collaborate, I believe we will be highly successful for years to come.

Sincerely,

Ire Bethea, Sr. President, Ocala City Council 2022 TPO Board Chair

# **Boards and Committees**

# **Our Governing Board**

The TPO Board is the governing body responsible for the overall guidance of the transportation planning process in Marion County. This includes providing leadership and oversight for the development of transportation policies, plans, programs and strategies. The Board is comprised of 12 voting members including the City of Ocala Mayor and four members of the City Council; all five Marion County Commissioners; and one representative each from the Belleview City Commission and the Dunnellon City Council. The Florida **Department of Transportation** District V Secretary serves as a nonvoting member.

Our 2022 Board members included Chair and City of Ocala Council President Ire Bethea, Sr.; Vice-Chair and Marion County Board of County Commissioners Craig Curry.

Ire Bethea, Sr., Chair City of Ocala

Craig Curry, Vice-Chair Marion County

Kathy Bryant Marion County

Jeff Gold Marion County

**Kent Guinn** City of Ocala

James Hilty City of Ocala

Bill White City of Dunnellon

Barry Mansfield City of Ocala

Michelle Stone Marion County

Kristen Dreyer City of Ocala

Ronald Livsey City of Belleview

**Carl Zalak, III** Marion County

# **Our Transportation Disadvantaged** Local Coordinating Board

The Transportation Disadvantaged Local Coordinating Board (TDLCB) coordinates transportation needs of the disadvantaged in Marion County, including individuals with physical and economic challenges and senior citizens facing mobility issues. Members in 2022 included:

- Commissioner Michelle Stone, Chair
- Andrea Melvin, Vice-Chair

Jeff	Abou	Imrad

Tracey Alesiani

Jeffrey Askew

Carlos Colon

Lauren Debick

Keith Fair **Ronald Graham** Susan Hanley Carissa Hutchinson Steven Neal

**Glorybee Perez** Anissa Pieriboni Iris Pozo **Tracey Sapp** 

# **Regional and State Leadership**

The TPO participates in regional and statewide transportation planning and policy organizations. Representatives from Ocala/Marion County in 2022 included:

## **Central Florida MPO Alliance**

**Marion County** Commissioner Michelle Stone, Ch

City of Ocala Council President Ire Bethea, Sr.

Advisory Council (MPOAC)

Marion County Commissioner Craig Curry, Member

City of Ocala Councilmember Kristen Dreyer, Alternate

าล	ir	
	••	

Marion County Commissioner Craig Curry

Director **Rob Balmes** Staff

# Metropolitan Planning Organization

Staff Director, Freight and Rail Advisory Committees Rob Balmes, *Director* 

# **Our Committees**

## **Citizens Advisory Committee**

The Citizens Advisory Committee (CAC) is comprised of citizens that reside in Marion County and the three municipalities. CAC members advise the TPO Board on transportation programs and projects as part of the TPO planning process. All recommendations by the CAC are presented to the TPO Board. Members of the CAC in 2022 included:

Richard McGinley, <i>Chair</i>
Michelle Shearer, <i>Vice-Chair</i>
Chris Arroyo
Brandon Cave, Sr.
Davis Dinkins

Matt Fabian Richard Howard Travis Magamoll Suzanne Mangram Steve Rudnianyn

## **Technical Advisory Committee**

The Technical Advisory Committee (TAC) is comprised of professional staff members from local and state agencies. The TAC advises the TPO Board on transportation programs and projects from a technical and subject matter expert perspective. Recommendations by the TAC are also presented to the TPO Board. Members of the TAC in 2022 included:

Mickey Thomason, *Chair* Florida Park Service

Elton Holland, *Vice-Chair* Marion County

Noel Cooper City of Ocala

David Herlihy Marion County School Board

Rakinya Hinson Florida Department of Transportation (non-voting)

Ji Li SunTran, City of Ocala Ken Odom Marion County

Loretta Shaffer Marion County Tourism Development

Troy Slattery City of Dunnellon

Eric Smith City of Ocala

Bob Titterington City of Belleview

# **TPO Adopts Commitment to Zero**

# Commitment to Zero

On November 29, 2022, the TPO Board adopted Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion. This milestone marked a year-long process of partner agency and community engagement to develop the TPO's first Vision Zero safety plan. The goal of Commitment to Zero is the elimination of fatalities and serious injuries on the roadways throughout Marion County.

The kick-off of Commitment to Zero was held on January 12 and led by Marion County Commissioner and Immediate Past TPO Chair, Michelle Stone. The event brought together citizens and partner agencies from elected officials, law enforcement, fire rescue, local governments, the Florida Department of Transportation, the School Board and members of the Community Traffic Safety Team (CTST). Local and regional media coverage captured the focus of the meeting, which was to shine the spotlight on traffic safety in our community.

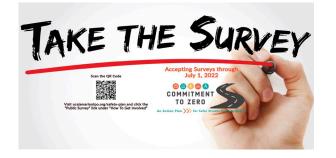

# Community Workshop

A series of outreach efforts were conducted throughout the development of Commitment to Zero. This process was highlighted by a Community Workshop on April 14 held at the College of Central Florida. The TPO formed a Working Group of local and state safety experts through the CTST. The Working Group met three times to review safety statistics, discuss opportunities and challenges, and identify strategies for the reduction of fatalities and serious injuries. Key stakeholder events included workshops with partner agencies and the Transportation **Disadvantaged Local** Coordinating Board (TDLCB) on May 12 and June 16.

# Survey

The TPO also engaged with the public through an online survey and interactive comment map. Both tools helped generate important feedback regarding key safety issues and specific locations with safety concerns. This information helped guide the TPO in the development of the Action Plan strategies in addition to support future safety planning.

# Commitment to Zero Safety Action Plan

The project culminated with a release of the Commitment to Zero Safety Action Plan on September 20. The Action Plan provides an indepth assessment of the safety challenges and opportunities in Marion County, with an emphasis on recent crash trends. A major focal point of the Plan is a set of specific strategies based on the Federal Highway Administration (FHWA) Safe System Approach:

Moving forward, five major Emphasis Areas were outlined in the Action Plan for citizens and partner agencies to work together on over the next five years to make a significant impact on improving safety in our community.

Developing a Culture of Safety

**Run-Off Road Crashes** 

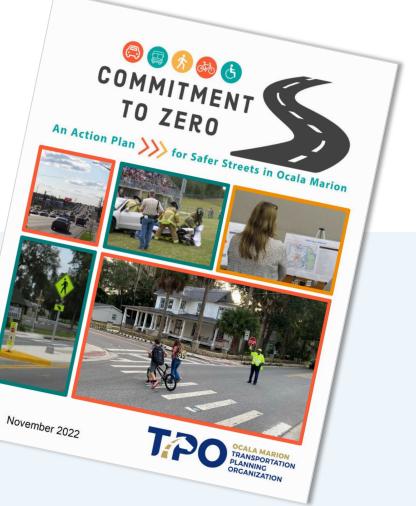

Intersection Operations

Non-Motorized Users

Speed Management

The Commitment to Zero Safety Action Plan can be accessed at: https://ocalamariontpo.org/safety-plan

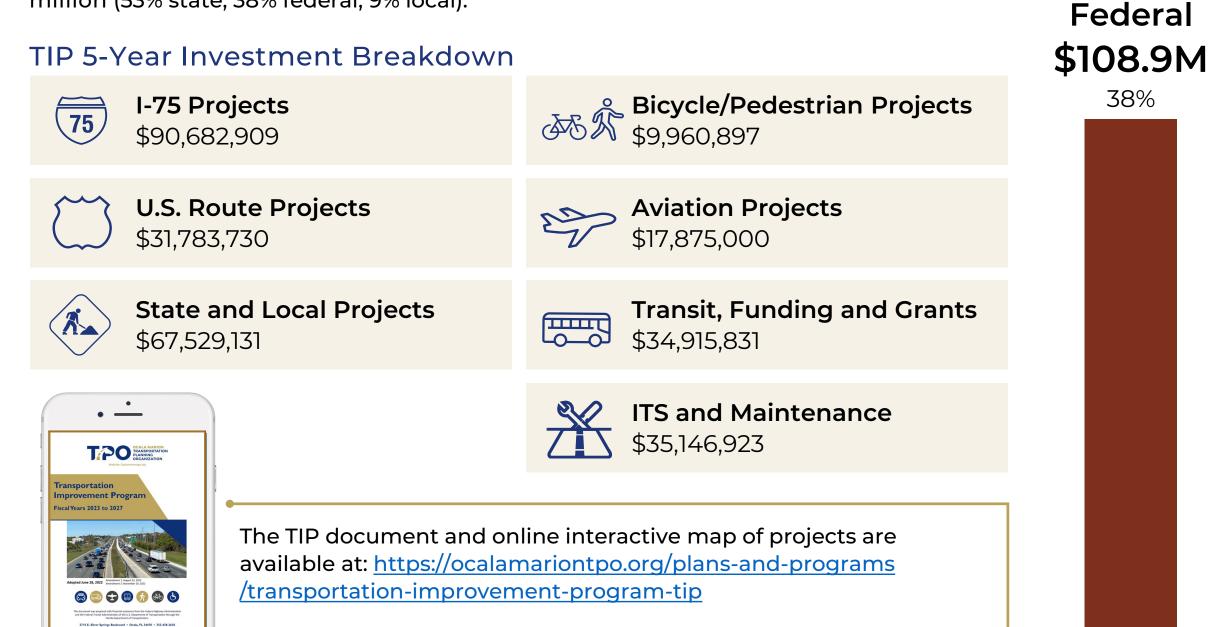

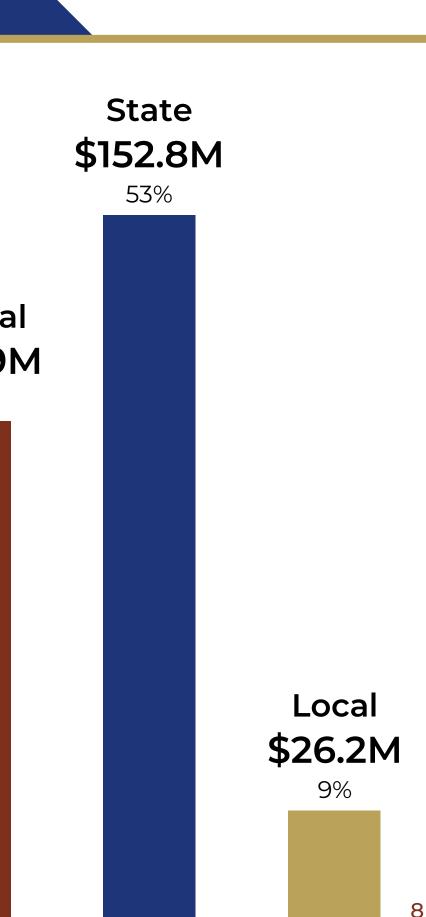

# **Transportation Improvement Program**

# Fiscal Years 2023 to 2027

The Transportation Improvement Program (TIP) is the TPO's annually adopted short-term funding plan for transportation projects that receive federal and state and local match funding in Marion County. The TIP consists of projects programmed for funding over five years. This TIP cycle included fiscal years (FY) 2023 to 2027.

When adopted on June 28, the FY 2023 to 2027 TIP included a total investment of \$287.9 million (53% state; 38% federal; 9% local).

# **Transportation Disadvantaged Focus Safety First**

A major focus for the TPO in 2022 was to include safety to the Transportation Disadvantaged (TD) community. The Transportation Disadvantaged Local Coordinating Board (TDLCB) held a workshop on June 16 dedicated entirely to brainstorming, strategizing, collaborating and partnering for better, safer streets and roads in our county with an emphasis on our TD community. On behalf of our TD community the TPO will remain vigilant and assist in improving the streets and roads wherever possible.

## Transportation Disadvantaged Service Plan (TDSP) – Annual Update

Annually the TDLCB ensures that the availability of efficient, costeffective and quality transportation services is provided for the transportation disadvantaged population. The TD program concept is to offer a level of service comparable to that provided to persons without disabilities. To incorporate the use of a specialized service that will provide door-to-door transportation assistance for disabled or economically disadvantaged persons is key. The TPO and the TDLCB's involvement help guide and support the CTC in implementing service standards that are consistent with the needs of the TD community. The TPO updated the TDSP in 2022 to incorporate the new census data and statistics along with addressing basic mobility needs to maintain and surpass the required standards in accordance with the community's needs.

# **Community Transportation Coordinator (CTC)** - Annual Evaluation

The CTC is responsible for coordinating and providing services to individuals who are transportation disadvantaged within the county. In 2022, the TPO conducted an annual review of the CTC (Marion Transit) in all areas of operation. This was accomplished through interviews, audits, quality checks, rider surveys, and ride-along on the buses for observation.

As a means to improving service, Marion Transit (MT) placed a sealed drop box for comments on every bus. This will allow for input from the riders on an ongoing basis. MT regularly makes the necessary changes to maintain happy riders. Additionally, MT continually trains their drivers and staff to uphold quality standards.

# **Social Media Highlights**

# National Stop on Red Week

#### August 7 through August 13

National Stop on Red Week serves as an important reminder of the dangers in transportation and the responsibility we hold as drivers to #StopOnRed. The goal during National Stop on Red Week was to educate the public on the dangers of red-light running by reviewing historic red-light running data trends and working with passionate advocates such as President of the National Coalition for Safer Roads (NCSR), Melissa Wandall. On August 11, 2022 the Ocala Marion TPO along with the NCSR and the Florida Department of Transportation (FDOT) held a "Stop on Red Pop-Up Event". The event was held at the intersection of Silver Springs Boulevard (State Road 40) and Pine Avenue (U.S. 441) to raise awareness about the dangers of red-lighting running to reduce the number of severities in crashes. Numerous First Responders, Local and State Government staff and elected officials, including TPO Chair Ire Bethea, Sr. attended the Stop on Red event.

## Mobility Week October 21 through October 28

Mobility Week is a statewide initiative led by the FDOT that began on October the 21st and ended on October 28th, 2022. Mobility Week is a way of bringing communities together to highlight different modes of transportation and ways of aetting around. On the Ocala Marion TPO Facebook and Twitter pages we highlighted TPO Director, Rob Balmes as he participated in Mobility Week by Biking and Riding into work using our local transit, SunTran. We also highlighted City of Ocala Senior Transit Planner, Ji Li as he participated by Parking his vehicle and riding into work also utilizing the SunTran.

# Social Media Strategies Summit

#### May and December

Our Social Media Coordinator, Shakayla Irby was able to attend two Social Media Strategies Summits. Both Summits were held virtually and included keynote speakers from a mix of industries who shared social media strategies used to grow brands and community engagement. A wide range of topics were covered and some of them included:

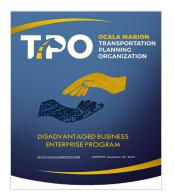

- Keys to Conquering Your Twitter Presence
- Growing and Engaging Facebook Community
- Leveraging Social Media Metrics & Data to Track Social Media Success
- How to Operate Social Media at Maximum Output with a Small Team
- A Collaborative Approach to Managing Social Media
- How to Stay Consistently Creative with Your Content
- Inspiring Action from the Community Using Social Media
- Getting Important News and Services in Front of Your Residents

# **New Planning Documents**

# As part of its ongoing service to the community and partner agencies, the TPO developed four new planning documents in 2022.

## Disadvantaged Business Enterprise (DBE) Program

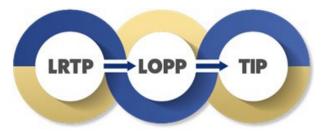

This federally required program was established to ensure that firms owned by minorities, women and other socially and economically disadvantaged person(s) have an equal opportunity to compete and participate in United States Department of Transportation (U.S. DOT)-assisted contracts and subcontracts through the TPO. In 2022, the TPO Board adopted a DBE program to document how the TPO's procurement and contracting process is in accordance with the federal and state regulations of the U.S. DOT and Florida Department of Transportation.

## Continuity of Operations Plan (COOP)

A Continuity of Operations Plan (COOP) is formal guidance outlining necessary actions to ensure essential organizational functions continue despite an extended interruption caused by a declared emergency or disaster event. In 2022, the TPO Board adopted a COOP as part of ongoing process documentation and proactive planning procedures.

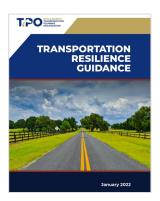

https://ocalamariontpo.org/continuityof-operations-plan-coop/

## List of Priority Projects (LOPP) Policies and Procedures

Annually, the TPO adopts a List of Priority Projects (LOPP) to identify projects for future federal and state funding opportunities. In 2022, the TPO published a Policies and Procedures guidance document to ensure a more predictable and consistent process is followed year-to-year.

https://ocalamariontpo.org/priorityproject-list/

### Transportation Resilience Guidance

Resiliency is the ability to anticipate, prepare for, and adapt to changing conditions and withstand, respond to, and recover rapidly from disruptions to the transportation system. The TPO published in 2022 a technical white paper that outlines a concise overview of resilience, federal policy, state initiatives, funding opportunities and a cursory level vulnerability assessment of the transportation system in Marion County. A companion online interactive map of potential hazards is also available on the TPO's website.

https://ocalamariontpo.org/transportatio n-resilience

# **Public Outreach and Events**

Throughout the year, the TPO was engaged in public outreach involving key areas of responsibility ranging from the Long-Range Transportation Plan (LRTP) to the Transportation Improvement Program (TIP) to major planning projects like Commitment to Zero.

The TPO also participated in a number of national, state and local events. Some of these major events included:

- 2022 Annual Marion County Day
- City of Belleview Youth Commission
- Transportation Disadvantaged Annual Workshop, Orlando
- FDOT/National Coalition for Safer Roads Stop on Red Event, Ocala
- Marion County Public Schools Walk Your Child to School Day
- Florida Mobility Week 2022
- Association of Metropolitan Planning Organizations (AMPO) National Conference, Minneapolis, MN
- Social Media Training Workshops ٠
- Bring the Harvest Home, Marion County

From January to July, the TPO hosted a Commitment to Zero Public Survey and online Comment Map. A Commitment to Zero project page on the TPO website was also created to serve as a public platform for transportation safety in our community.

#### ICYMI: Governor Ron DeSantis Announces Moving Florida Forward Infrastructure Initiative

Governor proposes a \$4 billion investment, which will be leveraged for a total of \$7 billion, to expedite projects that will alleviate congestion and prioritize safety

AUBURNDALE, Fla. — Today. Governor DeSantis announced the Moving Florida Forward initiative to expedite transportation projects over the next four years. If passed by the legislature, this proposal would invest \$4 billion of general revenue, redirect an average of \$131 million annually to the State Transportation Work Program, and leverage additional funding over the next four years for a total of \$7 billion to strengthen Florida's transportation infrastructure to accommodate the growing number of people that rely on Florida's roadways. Through this record investment, the Florida Department of Transportation (Florida) Yould expedite 20 priority infrastructure projects into the existing Work Program to combat congestion, improve safety, and ensure a more resilient transportation needs and set the stage for future growth. Projects includeed as part of the Moving Florida Forward Legislate Proposal are available at <u>FLOT.exuMovingerRedirateStructure</u>,

"This proposal will break through bureaucracy that often slows down infrastructure projects and allow FDOT to target projects that will ease congestion across the state," said Governor Ron DeSantis. "Expediting these projects will bring them to completion more than a decade ahead of schedule."

"Governor DeSantis' Moving Florida Forward proposal is truly historic and the projects included will help relive congestion while also focusing on safety, resiliency, the supply chain, and economic growth. These are important for Floridians' quality of life and to ensure we maintain a strong transportation system to keep Florida moving forward', **said FDOT Secretary Jared W. Perdue, P.E.** The Department has worked closely with communities and our partners through the years to plan and prepare these projects for construction. Receiving this funding will allow the vision of each project to become a reality in the immediate future to better meet the growing demands in communities throughout the state. Our team is prepared and ready to work with the Legislature to deliver these critical projects and strengthen Florida's transportation infrastructure."

Florida is home to over 22 million residents, and in just the first three quarters of 2022, we had nearly 105 million visitors to our state. In 2022, Florida experienced the largest net migration in the country at 1.9%, meaning that Florida's infrastructure must accommodate more people than ever before. The 20 projects included in the proposal will build more resilient transportation infrastructure, which is important to the integrity of roadways and corridors especially during severe weather events such as hurricanes.

FDOT will continue working on projects currently planned in the existing FDOT Five-Year Work Program in addition to projects included in the Moving Florida Forward package.

The Florido Department of Transportation's mission is to provide a aife transportation system that ensures the mobility of people and goods, enhances socionaic prosperity and preserves the quality of the state's universities of the state is constructed to builting a transportation system than cen oright the durrent needs of Florida's readiests and visitors built also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunthine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highway/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of biolycle & predistring inclines. Sovernor Ron DeSantis announced January 30 the *Moving Florida Forward Infrastructure Initiative*.

>> The proposal would invest an additional \$7 billion to prioritize and accelerate the completion of 20 critical transportation infrastructure projects across the state.

>> The proposal combines \$4 billion of General Revenue funding with innovative transportation project financing strategies that will allow FDOT to leverage an additional \$3 billion over the next four years.

#### Ocala/Marion County Project Status Update as of January 31, 2023

The following is a brief status update on major FDOT road construction projects in Marion County as of the January cutoff. The next cutoff date is February 28, 2023. Information is also available on <u>www.cflroads.com</u>. For questions, please contact Marquise McMiller at 386-943-5150 or via email at <u>marquise.mcmiller@dot.state.fl.us</u>.

#### MARION COUNTY

#### Upcoming Projects:

U.S. 441 and S.R. 40 Intersection Improvements (FDOT Financial Information Numbers 433661-1)

- Contract: T5747
- Contractor: CW Roberts Contracting Inc.
- Estimated Start: Early 2023
- Estimated Completion: Late 2023
- Description: The project includes milling and resurfacing, median modifications, turn lane modifications, curb & gutter, drainage improvements, sidewalk, ADA improvements, traffic signal upgrades, signing and pavement markings, and utility relocations.

# S.R.40 and S.R. 492 Intersection Improvements (FDOT Financial Information Number 445800-1)

- Contract: T5747
- Contractor CW Roberts Contracting Inc.
- Estimated Start: Early 2023
- Estimated Completion: Late 2023
- Construction Cost: \$6.7 million
- Description: This project includes replacing the existing two free flow right turn lanes with a single right turn lane, milling and resurfacing, upgrade the existing signals, adding a new 7-ft buffered bicycle lane, crosswalks, utility relocations, and lighting.

Improve Safety, Enhance Mobility, Inspire Innovation www.fdot.gov

# S.R. 40/Silver Spring Blvd. from N.W. 27<sup>™</sup> Ave. TO S.W. 7<sup>th</sup> Ave. Sidewalk Improvements (FDOT Financial Information Number 437596-2)

- Contract: T5765
- Contractor: Mejia International Group
- Construction Cost: \$780 thousand
- Estimated Start: Early 2023
- Estimated Completion: Fall 2024
- Description: The intent of this project is to remove the existing 4.5-foot concrete path on the north side of the road and replace it with an 8- foot concrete sidewalk. The new 8-foot sidewalk will meet FDOT and ADA requirements.

#### S.E. Abshier Blvd from S.E. Haines Rd (FDOT Financial Information Number 445701-1)

- Contract: T5768
- Contractor: CW Roberts
- Construction Cost: \$1.8 million
- Estimated Start: Early 2023
- Estimated Completion: Fall 2023
- Description: This project will construct improvements at the intersection of SE Abshier Boulevard (U.S. 27/U.S. 301/U.S. 441) and SE Hames Road to enhance safety and operations for drivers, pedestrians, and bicyclists. The project proposes to create left turn lanes in each direction on SE Abshier Boulevard west of Hames Road with a raised concrete traffic separator in the middle.

#### **Current Projects:**

# C.R. 484 and I-75 Interchange Roadway Improvements (FDOT Financial Information Numbers 443170-1 & 433651-1)

- Contract: T5597
- Contractor: Anderson Columbia Co., Inc.
- Estimated Start: Early 2023
- Estimated Completion: Summer 2024
- The Florida Department of Transportation (FDOT) will be improving safety and traffic flow on County Road (C.R.) 484 from west of S.W. 20th Avenue to east of County Road (C.R.) 475A and will also be resurfacing I-75 from the Sumter County line to State Road (S.R.) 200 in Marion County.

## Mill and resurface U.S. 441 from County Road 25A in Ocala north 8.8 miles to the U.S. 441/301 split. (FDOT Financial Information Number 441136-1)

- Contract: T5705
- Contractor: Anderson Columbia Inc.
- Construction cost: \$15.4 million
- Start: Fall 2021
- Estimated Completion: Spring 2023
- Update: Controlling items of work for this project include widening, signalization, and pavement friction operations. Contractor has completed mainline resurfacing from SR-326 to the North end (US-301/US-441). Contractors are working on median turn lanes, drainage improvements, and curb & gutter operations.

• Structural asphalt work has been completed. Subsoil excavation areas are almost complete. Friction is on hold due to low temperature.

# Resurface U.S. 441 from State Road 35 (SE Baseline Road) to State Road 200 (FDOT Financial Information Number 439238-1)

- Contract: T5675
- Contractor: C.W. Roberts Contracting, Inc.
- Construction cost: \$15.7 million
- Start: Late 2021
- Estimated Completion: Spring 2023
- Update: Contractor has been working on paving, signalization, and signage operations. JKI will continue to perform lighting and signal operations and motorists should expect nighttime lane closures within the project limits.

#### Bridge Rehabilitation SR 200 and SR 40 (FDOT Financial Information Number 447137-1)

- Contract: E58A8
- Contractor: M&J Construction Company
- Start: Summer 2022
- Estimated Completion: Early 2023
- Update: This is a maintenance project that includes bridge epoxy overlay and joint rehabilitation for SR 200, Bridges 360059 & 360044 and SR 40, Bridge 360055. There are currently eastbound and westbound intermittent lane closures on SR 40 Bridge over the Ocklawaha River for bridge deck repairs with flagger operations.

## S.R 93 (I-75) Mainline Wildwood Weigh Station Improvements (FDOT Financial Information Number 445321-1)

- Contract: T9028
- Contractor: Traffic Management Solutions
- Construction Cost: \$4.5 million
- Start: Fall 2022
- Estimated Completion: Fall 2023
- Contractors are installing pull boxes and conduit

RE:	2023 MPOAC Policy Positions

#### Summary

On an annual basis, the Metropolitan Planning Organization Advisory Council (MPOAC) adopts transportation policy positions. These respective positions are reflective of the MPOAC as a collective body of all 27 MPO's in the state. The state-level policies are shared with members of the State Legislature, Governor's Office and other interested parties. The 2023 Policy Positions were adopted by the MPOAC Governing Board on January 31, 2023.

#### Attachment(s)

• 2023 MPOAC Policy Positions

If you have any questions, please contact me at: 438-2631.

#### FLORIDA METROPOLITAN PLANNING ORGANIZATION ADVISORY COUNCIL

#### **2023 POLICY POSITIONS**

#### **2023 Policy Position:**

1. Support an increase in transportation investments through dedicated and sustainable funding, including innovative financing options; encourage partnerships between public and private entities; and facilitate the expedited delivery of projects.

#### Key Recommendations:

- Expand the Charter County and Regional Transportation System Surtax to allow municipalities over 150,000 in population (or the largest municipality in a county) and all counties located in MPO areas to enact up to a one cent local option surtax by referendum.
- Charge alternatively fueled vehicles a fee equal to the fuel tax paid by gasoline or diesel fueled vehicles, such as an electric vehicle registration fee.
- No reduction in local option transportation revenue sources.
- Use the existing MPO and local planning processes to select individual transportation projects rather than legislative appropriations (commonly referred to as earmarks). Ensure that all legislative appropriations that are passed come from non-transportation funding sources (i.e. general revenue funds).
- Fund the Transportation Regional Incentive Program (TRIP) at a predictable level of a minimum of \$250 Million per year.
- Establish flexible and predictable funding for transit projects (capital and operating) identified through the metropolitan transportation planning process by removing various funding limitations for the State Transportation Trust Fund (STTF).
- Make FDOT and Transportation Disadvantaged Trust Fund (TDTF) grants more flexible:
  - Extend TDTF grants for each county to the next year,
  - Allow TDTF funds to be used for meal, grocery, and prescription deliveries, and
  - Allow other FDOT grants to be used on transit improvement and operating funds.

#### **2023 Policy Position:**

2. Regulate distracted driving by prohibiting the handheld use of electronic wireless communication devices and other similar distracting devices while operating a motor vehicle on any roadway.

The 2018 Florida legislature enacted the "Wireless Communications While Driving" law that makes texting while driving a primary offense. One of the expressed concerns of opponents of this law is the potential for racial profiling during enforcement. This legislative proposal would increase roadway safety by prohibiting the handheld use of electronic wireless devices for any purpose, making enforcement easier and reducing the potential for racial profiling.

#### **2023 Policy Position:**

3. Add provision to Florida's Sunshine Law to allow all government entities to hold virtual meetings during a declared emergency plus a period of 90 days past the declared emergency dates.

The ability to hold virtual meetings during the COVID-19 pandemic, resulting from Executive Orders issued by the Governor, <u>was</u> a significant benefit to government agencies and the people of Florida. This proposal would permit units of government to meet virtually, so long as there is an opportunity for the public to participate, upon the declaration of an emergency by the Governor of Florida or the federal government. Recognizing that some declared emergencies can take extended periods of time to recover, this legislative proposal would also include an additional 90 days for governments to repair damaged facilities used to hold meetings or to hold meetings that have already been advertised as being virtual.

In addition, the MPOAC supports the American Planning Association of Florida proposed language to allow virtual meetings in all cases.

APA Florida strongly supports citizen access and public input to the planning process and is committed to improving citizen involvement. APA Florida supports an open and collaborative planning process that encourages meaningful citizen participation and environmental justice through reasonable notice, open public records and accessibility to all stages of the planning process, as well as promoting the use of citizen participation best practices at the local level.

- APA Florida supports legislation that will clarify the use of technology, i.e., virtual meetings to expand access to information and participation in public hearings and meetings.
- APA Florida supports legislation that would permit governmental boards or agencies to conduct meetings using communication technology in lieu of a quorum being physically present.

#### **2023 Policy Position:**

## 4. Recognize that federal metropolitan transportation planning funds shall not be regarded as state funds for purposes of expenditure.

The United States Department of Transportation (USDOT) provides funding to Metropolitan Planning Organizations (MPOs) to carry out their federally required duties. Those federal funds are given to states who in turn distribute them to MPOs based upon a formula agreed upon by the Florida Department of Transportation (FDOT) and the Florida MPOs and then approved by the Federal Highway Administration (FHWA). The Florida Department of Financial Services (DFS) has determined that the expenditure of federal funds by MPOs shall be subject to all state requirements, laws and regulations even where such laws conflict with federal laws, regulations and requirements. This limits the ability of the Florida MPOs to use federal funds for their intended purpose and impinges on their ability to carry out their responsibilities as outlined in federal rule. This proposal would clarify that federal monies passed through the State of Florida to MPOs and the Florida MPO Advisory Council (MPOAC) shall not be regarded as state funds for purposes of expenditure.
