## **Item 2. Proof Of Publication**

Secretary Shakayla Jacobs stated that the meeting had been published online on the TPO website and Facebook page and on the city of Ocala, Belleview, and Dunnellon websites.

## **Item 3a. Safety Performance Measures and Targets**

Nationally, state-specific, and locally, transportation plans existed to enhance safety for all users of the transportation system. A coordinated effort to connect all of the safety plans had long been in effect in the transportation realm, but over the last two years, a system of Performance Management had led to a greater push for comprehensive and coordinated transportation and safety planning. Performance Measures for Safety had been developed by the Federal Highway Administration (FHWA), for which targets were being established cooperatively between the Florida Department of Transportation (FDOT) and MPO's within the State of Florida (as well as nationally). Through this coordinated effort, the goals of the Highway Safety Improvement Program (HSIP), Highway Safety Plan (HSP), Strategic Highway Safety Plan (SHSP), and region-specific safety and transportation plans could be shown to guide and support one another. In August of 2017, the FDOT adopted a target of "Zero" for the five (5) safety performance measures adopted by the Federal Highway Administration (FHWA) for all public roads.

*Mr. Kelly made a motion to approve the Safety Performance Measures and Targets. Ms. Blaney seconded, the motion passed unanimously.*
