

Citizens Advisory Committee (CAC) Meeting

Marion County – Library Headquarters 2720 E. Silver Springs Blvd., Ocala, FL 34470

March 14, 2023 1:00 PM

AGENDA

- 1. CALL TO ORDER AND ROLL CALL
- 2. PROOF OF PUBLICATION
- 3. CONSENT AGENDA
 - A. February 14, 2023 Meeting Minutes
- 4. ACTION ITEMS
 - A. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Amendment #5

Staff will present an amendment to the TIP for approval.

B. Performance Management 2023 Pavement and Bridge (PM2), System Performance (PM3) Targets

Staff is seeking review and approval of Performance Targets

- 5. DISCUSSION ITEMS
 - A. FDOT Strategic Intermodal System (SIS) Letter
 A discussion regarding the TPO Board letter to FDOT
 - B. <u>2023 MPOAC Freight Priorities Program (FPP)</u>
 A discussion regarding the project application process for 2023
- 6. COMMENTS BY FDOT
 - A. Construction Report
- 7. COMMENTS BY TPO STAFF
 - A. TPO 101 Board March Workshop
- 8. COMMENTS BY CAC MEMBERS
- 9. PUBLIC COMMENT (Limited to 2 minutes)
- 10. ADJOURNMENT

All meetings are open to the public, the TPO does not discriminate on the basis of race, color, national origin, sex, age, religion, disability and family status. Anyone requiring special assistance under the Americans with Disabilities Act (ADA), or requiring language assistance (free of charge) should contact Liz Mitchell, Title VI/Nondiscrimination Coordinator at (352) 438-2634 or liz.mitchell@marioncountyfl.org forty-eight (48) hours in advance, so proper accommodations can be made.

Pursuant to Chapter 286.0105, Florida Statutes, please be advised that if any person wishes to appeal any decision made by the Board with respect to any matter considered at the above meeting, they will need a record of the proceedings, and that, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

The next regular meeting of the Citizens Advisory Committee will be held on April 11, 2023

Citizens Advisory Committee (CAC) Meeting

Marion County – Library Headquarters, Meeting Room B 2720 E. Silver Springs Blvd., Ocala, FL 34470 1:00 PM

MINUTES

Members Present:

Matt Fabian (arrived at 1:02pm)
Brandon Cave
Michelle Shearer
Richard Howard
Richard McGinley
Steve Rudnianyn
Travis Magamoll (arrived at 1:13pm)

Members Not Present:

Davis Dinkins Suzanne Mangram

Others Present:

Rob Balmes
Elizabeth Mitchell
Shakayla Irby
Anna Taylor, FDOT
Jonathan (Jon) Scarfe, FDOT
Doug Shearer
Other member of public not signed in.

Item 1. Call to Order and Roll Call

Chairwoman Michelle Shearer called the meeting to order at 1:00pm and Secretary Shakayla Irby called the roll. There was a quorum present.

Item 2. Proof of Publication

Secretary Shakayla Irby stated the meeting had been published online to the TPO's website, as well as the City of Ocala, Belleview, Marion County, and Dunnellon's websites on February 7, 2023. The meeting had also been published to the TPOs Facebook and Twitter pages.

Item 3. Consent Agenda

Mr. McGinley made a motion to approve the Consent Agenda. Mr. Howard seconded, and the motion passed unanimously.

Item 4a. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Amendment #4

Mr. Balmes presented to the committee and said that per the request of the Florida Department of Transportation (FDOT), one project had been proposed to be amended in the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP).

The project (FM#452364-2) would be receiving federal funding to implement the National Electric Vehicle Infrastructure Program (NEVI). The project would consist of deployment of direct current fast charges (DCFCS) along the I-75 corridor in Marion County.

FM# 452364-2: I-75 (SR 93) "GAP" 12 – EV DCFCS (Phase 1)

Funding: \$1,100,000Federal: \$1,100,000

• FY 23 Capital (CAP) phase

• Total TIP Funding: \$1,100,000

Mr. McGinley made a motion to approve the FY 2023 to 2027 TIP Amendment #4. Mr. Cave seconded, and the motion passed unanimously.

Item 4b. Performance Management 2023 Safety Targets

Mr. Balmes presented and said that federal law required State DOTs and TPOs/MPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures. The first of the performance measures that became effective in 2016 was assessing the conditions of roadway safety (PM1). In May 2018, all TPO/MPOs were required to establish safety targets and approve or update on an annual basis.

Specifically, the TPO was required to update and adopt Targets for five required Safety Performance Measures:

- 1. Fatalities- Total number of fatalities involving a motor vehicle crash
- 2. Fatalities (Rate)- Rate of fatalities per 100 Million Vehicle Miles Traveled (VMT)
- 3. Serious Injuries- Total number of serious injuries involving a motor vehicle crash
- 4. Serious Injuries (Rate)- Rate of serious injuries per 100 Million Vehicle Miles Traveled (VMT)
- 5. Non-Motorized Fatalities & Serious Injuries- Number of non-motorized fatalities and number non-motorized serious injuries involving a motor vehicle crash

Annually, the TPO may select one of two options regarding updating and submission of safety targets.

- 1. Adopt the state targets established by the Florida Department of Transportation (FDOT); or
- 2. Develop separate quantifiable safety performance targets.

If the TPO chose to adopt the FDOT safety targets, the requirement would be to annually adopt the same targets until changes were made by the state. Presently, the FDOT has annually adopted 0 for each of the five safety targets.

Mr. Balmes said that there were no direct implications to the TPO for not reaching adopted targets.

In 2018, when the process became a federal requirement, the TPO Board adopted its own safety performance targets to better track progress and reflect more accountability to the public. Over the past five years, the TPO Board has opted to follow the same approach of reviewing prior year target results and adopting revised targets tied to a specific methodology involving five-year rolling averages and projected vehicle miles traveled (VMT).

Safety Performance Measure 2022 Targets and Results

Safety Performance Measure	2022 Results	2022 Targets	Met Target?
#1 - Fatalities	109	98	No
#2 - Fatalities per 100 Million VMT	2.35	2.08	No
#3 - Serious Injuries	491	378	No
#4 - Serious Injuries per 100 Million VMT	10.59	8.02	No
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	56	57	Yes

The proposed targets for 2023 were as follows:

- 1. Fatalities- 101
- 2. Fatalities per 100 Million VMT- 2.14
- 3. Serious Injuries- 417
- 4. Serious Injuries per 100 Million VMT- 8.88
- 5. Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries-

Mr. Balmes provided to options to the committee.

CAC Meeting Minutes – February 14, 2023 Approved –

Option A. Recommend to the TPO Board adoption of specific and measurable safety targets for 2023 based on the five-year rolling average methodology or Option B. Adopt 0 for all five 2023 safety targets.

Mr. Rudnianyn made a motion to accept Option A for the Performance Management 2023 Safety Targets. Mr. McGinley seconded, and the motion passed unanimously.

Mr. Cave said the longer it takes to look at a problem it only compounds the problem even more. He asked if there was a way that the board could look at crashes before annually to look at way to help decrease the number of crashes.

Mr. Balmes said aside from looking at areas that were known to need attention, part of the planning effort on the Commitment to Zero was to have a more of a system wide approach to identify the issues that cause crashes. There were a lot of tools like roadway safety audits to assess corridors to see where improvements needed to be made.

Mr. Balmes also said that the numbers show that over 90% of all crashes were caused by human behavior and decision making. The TPO had been looking into partnering with the community and schools to help improve driving decision making.

Public Comment: Mr. Doug Shearer said unless there was more involvement with enforcement none of the expensive structural changes would make any difference when there is so many aggressive drivers on the roadways.

Chairwoman Shearer said that if places were identified where crashes were happening to map increases it could help.

Mr. Shearer reiterated that it was the public behavior of aggressive driving and if it was not enforced the problem would persist. Even with the shortage in law enforcement staff writing enough tickets would pay for itself. Structural changes were not the answer.

Mr. Balmes said that part of the discussion in Commitment to Zero took a comprehensive approach talking to enforcement with a focus on preventive measure and identifying problem areas currently and ones that could be problem areas in the future. Everyone in the community needed to work together and do their part. The TPO was doing its part by putting a safety action plan in place, providing education, and being a resource. It would be up to the broader community as well to step things up. We were heading in a negative direction of fatalities.

Item 4c. 2022 List of Priority Projects (LOPP) Amendment

Mr. Balmes presented and said that it had been per the request of the TPO Board Chair, Commissioner Craig Curry, the 2022 List of Priority Projects (LOPP) Strategic Intermodal System (SIS) project list was proposed to be amended.

The amendment was proposed to ensure the six I-75 interchanges in Marion County are listed on the current 2022 LOPP SIS list including general project improvement descriptions. The six interchanges are part of the ongoing I-75 Master Plan Study being conducted by the Florida Department of Transportation (FDOT).

CAC Meeting Minutes – February 14, 2023 Approved –

All proposed changes had been reflected in tracked changes mode and red font for ease of review and can be viewed on pages 10-11 of this set of minutes for reference.

The amended 2022 LOPP would support the development of the 2023 LOPP process and lists, which was underway.

Mr. Rudnianyn inquired about #9 on the project priority list I-75 at SW 20th Street- construction of a new interchange at SW 20th. He mentioned we did not know the effects of 44th Ave connecting all the traffic between 326 going south to 95th street traffic. Was there a need for an interchange at SW 20th Street?

Mr. Balmes said that the project #9 was added at the request of the City of Ocala when the 2045 plans were being developed. The project would need to go through project justification by FDOT. The project was part of a long-term planning unfunded needs interchange project.

Public Comment: Mr. Doug Shearer said that 484 was already being done and asked if it would be considered in the new master plan.

Mr. Balmes said that it was an improvement requested by the County and it was only a future next phase.

Mr. McGinley made a motion to approve the 2022 List of Priority Projects (LOPP) Amendment. Mr. Magamoll seconded, and the motion passed with Chairwoman Shearer opposed.

Item 5, 2020 U.S. Census Update

As a follow up to the presentation on the 2020 Census Urban Area populations in Marion County in January Mr. Balmes provided an update.

The urban area map files had been made available by the U.S. Department of Transportation (U.S. DOT) on January 19, 2023.

A presentation of the maps was delivered to the TPO Board at the regularly scheduled January 24, 2023 meeting. Based strictly on the results of the Census, the TPO would not be designated as a TMA in 2023 by the U.S. DOT Secretary. The Ocala Urban Area population (182,657) fell short of the necessary threshold of over 200,000 persons.

In addition to a presentation on the maps, the TPO Board engaged in a general discussion about current and future Transportation Management Area (TMA) designation opportunities. Federal law (49 U.S.C. 5303(k)) permits an MPO/TPO and Governor to request TMA designation to the U.S. DOT Secretary. Therefore, the TPO Board asked for additional background information to be presented at the February 28, 2023 meeting regarding the roles, responsibilities and opportunities associated with TMA status. Action may be considered to pursue this opportunity at the meeting.

The TPO was also awaiting further insights from the Florida Department of Transportation (FDOT) Central Office and the Federal Highway Administration (FHWA), Florida Division that may help support further insights into the implications of the Census Urban areas,

CAC Meeting Minutes – February 14, 2023 Approved –

federal funding and TMA status.

Additionally, over the next two years several Census activities would involve the TPO and FDOT, including Urban Area Boundaries and Functional Classification.

The committee engaged in discussion on the classified urban areas and census results.

Item 6. Comments by FDOT

Ms. Anna Taylor provided a brief presentation on Moving Florida Forward.

Governor Ron DeSantis announced January 30 the *Moving Florida Forward Infrastructure Initiative*. The proposal would invest an additional \$7 billion to prioritize and accelerate the completion of 20 critical transportation infrastructure projects across the state.

The proposal combines \$4 billion of General Revenue funding with innovative transportation project financing strategies that will allow FDOT to leverage an additional \$3 billion over the next four years.

The presentation which includes the Congestion Relief Projects and funding is attached to pages 12-16 for reference.

Ms. Taylor mentioned that Moving Florida Forward was a proposal and still had to be approved by the legislator.

Mr. McGinley asked if U.S. 301 would be four-laned.

Ms. Taylor said that the road would be reconstructed and state increased capacity but did not mention how many lanes.

Public Comment: Mr. Shearer asked if the funds were coming from the feds or would it be state funds.

Ms. Taylor responded that it was all state funds that were being strategized and that there was surplus money and that was being used to address current funding.

Public Comment: Mr. Shearer also asked if the projects listed were funded would there be enough workers for construction with so many companies behind schedule.

Ms. Taylor did not have an answer at the time but said there had been some discussion about the challenges.

Ms. Taylor also provided the committee an updated construction report in the meeting agenda packet.

Item 7. Comments by TPO Staff

Mr. Balmes said the Transportation Plan (LRTP) Cost Feasible Element had been updated to include a clarifying footnote to ensure the six I-75 interchanges in Marion County are identified. The six interchanges are part of the ongoing I-75 PD&E/Master Plan Study being conducted by the Florida Department of Transportation (FDOT) and listed in the Cost Feasible Element.

Based on the status of the PD&E/Master Plan, development of the Strategic Intermodal System (SIS) Plans and Moving Florida Forward, this was the only change necessary at the time. As the plans and proposals progressed in 2023, an amendment to the LRTP would be necessary in the near future.

The footnote had been highlighted for ease of reference. The FDOT District 5 and Federal Highway Administration (FHWA) Florida Division had been consulted on the update.

2022 TPO Annual Report

Mr. Balmes said that the 2022 TPO Annual Report had been published and the Annual Report highlighted the TPO program accomplishments in Ocala/Marion County over the past year. The report had been developed with a new template, which the TPO had plans to use for future versions.

The 2022 Annual Report was included in the committee packet and could also be found on the TPO's website: https://ocalamariontpo.org/about-us/annual-report.

2023 Commitment to Zero Activities

Mr. Balmes said the Board adoption of Commitment to Zero was a major milestone and that long-term success would require ongoing work to keep building momentum in the community. Some of the next steps and activities specific to the TPO in 2023 would involve the following:

- Commitment to Zero fact sheets
- Coordination with local partners for safety projects in the 2023 List of Priority Projects (LOPP)
- Commitment to Zero online public crash dashboard
- Social Media for community safety events, public awareness of safety
- Continued partnering for community safety events
- Exploration of public information and public relations opportunities
- Annual Commitment to Zero Workshop (Fall 2023, date to be determined)

Samples of the Commitment to Zero fact sheets were provided. The TPO had developed an initial listing of fact sheets to be release in 2023.

Mr. Balmes mentioned that the TPO was looking for feedback on topics and opportunities to develop additional fact sheets for relevant topics in the community.

Item 8. Comments by CAC Members

Mr. McGinley made a comment that he liked the safety action plan fact sheets.

Mr. McGinley also asked if the number of people moving to the community was taken into consideration when creating the safety targets.

Mr. Balmes said that the rates try to do that because it was tied to VMT and obviously more people moving to the community and visiting. With more traffic it causes more crashes. The fatalities are the most disturbing because they continue to go up regardless of the amount of people moving to the community.

The committee engaged in discussion on ways more ways to promote safety and awareness in the community. Some of the suggestions included: safety billboards that list crash statistics, crash statistics posted similar to the information Florida Highway Patrol once had posted outside of their building, phone alerts notifying the public of crash statistics, safety campaigns, and running crash statistics counts on social media pages.

Mr. Balmes mentioned to the committees that spreading the safety message through safety campaigns, billboards, text alerts, etc., would require the involvement of local government and partners in the community.

Item 9. Public Comment

Mr. Shearer made a comment on Project: SR 25/U.S. 441/SR 500 from SR 35/SE Baseline Road to SR 200/SW 10th Street- addition of bike lanes and sidewalks to the resurfacing project on US 441/301. He said that a trail was being developed from Belleview to 80th off the road, 12ft wide paved trail. He asked if it would cut over and communicate with the trail or were they going to develop another lane.

Mr. Balmes said that the project was a shared use path west of 441 all the way up and would connect with existing sidewalks in Ocala on to SR 200.

Mr. Shearer asked if funds were received for Moving Florida Forward would FDOT not do the resurfacing projects planned for the interstate.

Ms. Taylor said that the FDOT was good about looking at the overlapping projects and mitigate to the best of their ability.

Item 10. Adjournment

Chairwoman Michelle Shearer adjourned the meeting at 2:15pm.

MOVING FLORIDA FORWARD

For Immediate Release January 30, 2023 CONTACT FDOT: FDOT COMMUNICATIONS OFFICE (850) 414-4590 | FDOTCommunicationsOffice@dot.state.fl.us

ICYMI: Governor Ron DeSantis Announces Moving Florida Forward Infrastructure

Governor proposes a \$4 billion investment, which will be leveraged for a total of \$7 billion, to expedite projects that will alleviate congestion and prioritize safety

AUBURNOALE, Fla. — Today, Governor DeSantis announced the Moving Florida Forward initiative to expedite transportation projects over the next four years; f passed by the legislature, this proposal would invest \$4 billion of general revenue, redirect an average \$131 million annually to the State Transportation Work Program, and leverage additional funding over the next four years for a total of \$7 billion to strengthen Florida's transportation infrastructure to accommodate the growing number of peeple that rely on Florida's roadways. Through this record investment, the Florida Department of Transportation (POST) would expedite 20 priority infrastructure projects into the existing Work Program to combat congestion, improve safety, and ensure a more resilient transportation system to bolster current transportation needs and set the stage for future growth. Projects included as part of the Moving Florida Forward Legislative Proposal are available at EDCI_sex/MovingFloridaForward.

"This proposal will break through bureaucracy that often slows down infrastructure projects and allow FDOT to target projects that will ease congestion across the state," said Governor Ron DeSantis. "Expediting these projects will bring them to completion more than a decade ahead of school-ties."

"Governor DeSantis' Moving Florido Forward proposal is truly historic and the projects included will help relieve congestion while also focusing on safety, resiliency, the supply chain, and economic growth. These are important for Floridians' quality of life and to ensure we maintain a strong transportation system to keep Florida moving forward," said FDOT Secretary Jared W. Perdue, P.E. "The Department has worked closely with communities and our partners through the years to plan and prepare these projects for construction. Receiving this funding will allow the vision of each project to become a reality in the immediate future to better meet the growing demands in communities throughout the state. Our team is prepared and ready to work with the Legislature to deliver these critical projects and strengthen Florida's transportant infrastructure."

Florida is home to over 22 million residents, and in just the first three quarters of 2022, we had nearly 105 million visitors to our state. In 2022, Florida experienced the largest net migration in the country at 1.9%, meaning that Florida's infrastructure must accommodate more people than ever before. The 20 projects included in the proposal will build more resilient transportation infrastructure, which is important to the integrity of roadways and corridors especially during severe weather events such as hurricanes.

FDOT will continue working on projects currently planned in the existing FDOT Five-Year Work Program in addition to projects included in the Moving Florida Forward package.

##

www.fdot.gov | Twitter: @MyFDOT | Facebook: @MyFDO

The Florids Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshime State and its year-round warm dimste provides numerous opportunities to achieve the department's mission through multiple transportation modes including highwaysforeets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of blooke's Sedestarine Rollities.

RE: Amendment #5 of the FY 2023 to 2027

Transportation Improvement Program (TIP)

Summary

Per the request of the Florida Department of Transportation (FDOT), two projects are proposed to be amended in the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP). The projects (FM#443623-1, #443624-1) have received federal highway planning grant funding to support activities of the I-75 Master Plan. Types of work this funding will support include community engagement, alternative concept identification and traffic analysis and modeling. These projects will also assist future project phases as the Master Plan identifies specific projects and segments moving forward into the Project Development and Environment (PD&E) phase.

FM# 443623-1: I-75 (SR 93) from Turnpike (SR 91) to SR 200

• Length: 22.50 miles

• Funding: \$2,500,000 (Federal)

• FY 2023, PLN Phase

• Total TIP Funding: \$2,500,000

FM# 443624-1: I-75 (SR 93) from SR 200 to CR 234

• Length: 25.28 miles

• Funding: \$1,783,543 (Federal)

• FY 2023, PLN Phase

• Total TIP Funding: \$1,783,543

Recommendation(s)

A transportation system that supports growth, mobility, and safety through leadership and planning

RON DESANTIS GOVERNOR 605 Suwannee Street Tallahassee, FL 32399-0450 JARED W. PERDUE, P.E. SECRETARY

March 6, 2023

Mr. Robert Balmes, AICP, CTP, Executive Director Ocala-Marion Transportation Planning Organization (TPO) 2710 E Silver Springs Blvd Ocala, FL 34470

RE: Request to Amend Fiscal Year (FY) 2022/23-2026/27 Transportation Improvement Program (TIP)

Dear Mr. Balmes:

The purpose of this letter is to request Ocala Marion TPO amend the FY 2022/23-2026/27 TIP.

Projects #443623-1 and #443624-1 have received federal highway planning grant funding to support activities of the I-75 Master Plan. Types of work this funding will support include community engagement, alternative concept identification and traffic analysis and modeling. These projects will also assist future project phases as the Master Plan identifies specific projects and segments moving forward into the Project Development and Environment (PD&E) phase. These projects must be added to the TIP to receive authorization to use the federal funding as programmed.

Please use the information in the table below to revise the TIP accordingly:

FM#	Project Description	Project Limits	Length	Phase	Fund Source	Amount	FY
443623-1	I-75 (SR 93)	Turnpike (SR 91) to SR 200	22.496 miles	PLN	HP	\$2,500,000	2023
443624-1	I-75 (SR 93)	SR 200 to CR 234	25.282 miles	PLN	HP	\$1,783,543	2023

As always, feel free to contact the Liaison Group at D5-MPOLiaisons@dot.state.fl.us if you would like to discuss further.

Sincerely,

Anna Taylor

Government Liaison Administrator

FDOT District Five

Anna Taylor

Transportation Improvement Program

Fiscal Years 2023 to 2027

Adopted June 28, 2022

Amendment 1: August 23, 2022 Amendment 2: November 29, 2022 Amendment 4: February 28, 2023

Amendment 5: March 28, 2023

Amendment 3: January 24, 2023

This document was prepared with financial assistance from the Federal Highway Administration and the Federal Transit Administration of the U.S. Department of Transportation through the Florida Department of Transportation.

Resolution No. 23-3

RESOLUTION OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) TRANSPORTATION IMPROVEMENTPROGRAM (TIP) FOR FISCAL YEAR 2023 to 2027

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(j), 23 CFR Section 450.326 and Florida Statute 339.175(8) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as "a staged, multi-year, inter- modal program of transportation projects which is consistent with the metropolitan (long-range) transportation plan" [23 CFR 450.104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board;
- (ii) No revision or amendment performed by the TPO Director shall substantially modify any plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the amendment of Transportation Improvement Program for FY 2023 to 2027.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County
Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a
Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning
Organization held on this 28th day of February 2023.

By:

Craig Curry, Chair

Attest

Commissioner Ronald Livsey, City of Belleview Seat 3
Councilmember Barry Mansfield, City of Ocala District 1
Commissioner Michelle Stone, Marion County District 5
Mayor Bill White, City of Dunnellon
Commissioner Carl Zalak III, Marion County District 4
John E. Tyler, P.E., FDOT District Five Secretary, Non-Voting

Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

Vision

A transportation system that supports growth, mobility and safety through leadership and planning.

www.ocalamariontpo.org

2710 East Silver Springs Boulevard, Ocala, FL 34470 352-438-2630

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

1. INTRODUCTION

Purpose

The Ocala/Marion County Transportation Planning Organization (Ocala Marion TPO) is the federally designated Metropolitan Planning Organization (MPO) for Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The Fiscal Years (FY) 2023 to 2027 TIP is a five-year schedule of transportation projects to be implemented by government agencies within the Metropolitan Planning Area (MPA) of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is developed on an annual basis (23 C.F.R. 450.326(a)). The types of projects in the TIP include all modes of transportation, such as roadway construction, operations, maintenance, repaving, bicycle and pedestrian, transit and aviation.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the "3C" planning process, is reflected in the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The 2045 LRTP, which is also developed by the TPO, outlines the Ocala/Marion County transportation vision and goals 20 years into the future. The TIP outlines the short-term "action steps" necessary for achieving the long-term vision by programming specific transportation improvements.

Fiscal Constraint

Transportation projects contained in the TIP are financially feasible and located within the designated planning area. As a condition of receiving federal project funding, the TIP must list all highway and public transportation projects proposed for funding under Title 23 United States Code (23 U.S.C.) (highways) and 49 U.S.C. (transit). The TIP must also contain state and locally funded regionally significant transportation projects regardless of funding source. For a project to be considered financially feasible, the anticipated cost must not exceed anticipated revenue.

Consistency

All projects in the TIP are supported and documented in the 2045 LRTP. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding to Marion County. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments, and must be fully consistent.

A list of the most current Annually Federally Obligated projects is provided in **Appendix B.** The Obligation list is a continuation of projects in the prior TIP, and in some cases started in previous TIPs (23 CFR 450.334). The Obligated list will be updated and amended in September 2022.

TPO Planning Area

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to rapid population growth in the 1980s, the planning boundaries of the entire county were added. Figure 1 illustrates TPO planning area which includes all of Marion County and the cities of Belleview, Dunnellon and Ocala.

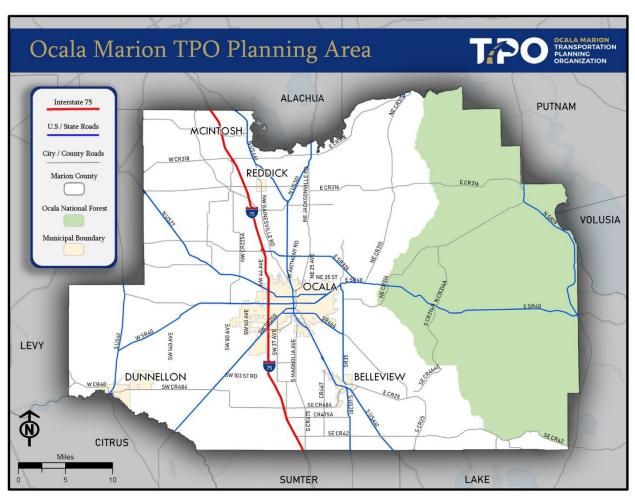

Figure 1: Map of TPO Planning Area

Development of the TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) and the TPO Board. The TPO strives to also engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 Code of Federal Regulation 23 C.F.R. 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents is contained in **Appendix G**.

TPO Boards and Committees

The TPO submits a draft TIP for review and feedback to the TPO's TAC and CAC. These boards/committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Department of Transportation (FDOT); the Florida Department of Environmental Protection; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review and to receive feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is then presented to the TPO Board for adoption in May or June of each year. In 2022, TPO staff presented the draft TIP to the TAC and CAC on May 10th and June 14th, the TPO Board on May 24th and June 28th.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public Participation Plan (PPP) (https://ocalamariontpo.org/plans-and-programs/public-participation-plan-ppp). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. The TAC and CAC meetings were held virtually and in person and therefore were also accessible to those with internet access. The TPO Board meetings were held both virtually and in-person. Advance public notices were provided for all committee and board meetings per Florida Sunshine Law and the TPO's PPP. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. Beginning on May 4th, a legal notice of the draft version of the TIP was advertised in the Ocala Star Banner. The public comment period for the TIP began on May 3, 2022 and concluded on June 28, 2022. A copy of the public notice can be found in **Appendix E** and a list of public comments, including the TPO's response to each

comment, can be found in **Appendix F**. On May 3rd, the TPO sent the Draft TIP for review and comment to the following agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged and the St. Johns River Water Management District.

Formal responses are provided to each citizen comment submitted to the TPO by email, mail or phone. Citizens are provided a formal response by the TPO and made aware how their public comment is documented, and how it may be addressed if related to a specific project(s) in the current TIP. In cases where further follow up is required, such seeking project background information, additional contact is made with the citizen by the TPO. All citizen, TPO committee, TPO Board and partner agency comments and corresponding TPO responses are summarized in **Appendix F**.

Joint Certification

The most recent joint certification between the Ocala Marion TPO and FDOT was completed on March 22, 2022 through action by the TPO Board. FDOT certified the TPO's transportation planning process for Fiscal Year 2022. The next certification review will occur from February to March of 2023.

Consistency with Other Plans

The projects and project phases listed in the FY 2023 to 2027 TIP are consistent with the local public transit development plan (SunTran), aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2045 LRTP, Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Strategic Highway Safety Plan (SHSP), Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), TPO Congestion Management Process (CMP) and SunTran Transportation Development Plan (TDP).

2045 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long- term vision and goals for transportation, the 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020. A list of TIP projects referenced in the 2045 LRTP can be found in **Appendix I**. (https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-Irtp).

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety, provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies. (http://floridatransportationplan.com)

Strategic Intermodal System (SIS) 2022 Policy Plan

The Strategic Intermodal System (SIS) 2022 Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in **Appendix C**. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project).

(https://www.fdot.gov/planning/sis/default.shtm)

Florida's Strategic Highway Safety Plan (SHSP)

The Florida's 2021 to 2025 Strategic Highway Safety Plan (SHSP) was adopted in March 2021. This is an update to the prior plan, and was completed in coordination with all 27 Florida MPO/TPO's. Florida's SHSP outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries. A set of 12 emphasis areas organized into three categories (Roadways, Road Users, User Behavior) provide the foundation for improving safety. (https://www.fdot.gov/safety/shsp/shsp.shtm)

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. FDOT updated the FMTP in spring 2020. (https://www.fdot.gov/rail/plandevel/freight-mobility-and-trade-plan)

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines the process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed information, such as the department's assets, asset management strategies, and long-term expenditure forecasts to inform decision-making at both the State and Local levels.

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute (F.S.) [339.175 (6)(c)1]. Guidance from the Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system".

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP typically support improved travel conditions through the implementation of low cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time- consuming and expensive.

The TPO completed a major update to the CMP in 2021, including policies and procedures and state of system elements. The CMP update serves two purposes: to meet state statutes and help with prioritizing project needs, and to also meet federal requirements if the TPO becomes a Transportation Management Area (TMA) as a result of the 2020 Census. A TPO is considered a TMA when their urbanized area population exceeds 200,000. Completing an update to the CMP will keep the TPO in compliance with both state statute and federal requirements. (https://ocalamariontpo.org/congestion-management-process-cmp)

Transit Development Plan (TDP)

The Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon. A TDP is updated by SunTran every five years to ensure transit services offered meet the mobility needs of local communities. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies in Marion County. SunTran is completing a major TDP update in 2022.

TIP Revisions

Revisions to the TIP may be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added or deleted. TIP Amendments require TPO Board action and opportunity for public comment. TIP modifications to not require TPO Board action or public comment (23 C.F.R. 450.104). As summarized in the FDOT MPO Management Handbook, there are four types of TIP revisions.

TIP Modification

A TIP modification includes minor changes such as to project phase costs, funding sources and project initiation dates. TIP Modifications are less than 20 percent and \$2 million.

TIP Amendment

A TIP amendment involves major changes to project such as a deletion, addition, project cost increase (over 20 percent and \$2 million), design concept or project scope.

Roll Forward Amendment

Projects programmed in the prior TIP that were not authorized by the end of the state fiscal year (June 30) may be authorized between July 1 and September 30, and included in an annual Roll-Forward TIP report to be amended in the new TIP. The Roll Forward amendment process must occur prior to the start of the federal fiscal year, which is October 1. The TPO Board adopts Roll Forward TIP Amendment each year.

Administrative TIP Amendment

Projects that are added to year one of the FDOT Tentative Work Program will not be recognized by FHWA until their fiscal year on October 1. Administrative amendments are permitted between the state fiscal year period of July 1 to September 30 to fill the gap until the federal fiscal year begins on October 1.

Transportation Disadvantaged

The Transportation Disadvantaged (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline or age 60+ or <16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. Therefore, the TIP is developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County.

Efficient Transportation Decision Making

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in the TIP through the ETDM process. Public information for these projects is available at: https://etdmpub.flaetat.org/est.

2. PERFORMANCE MANAGEMENT

Performance Based Planning

In order to develop a standardized process for monitoring the effectiveness of transportation investments across the country, the Federal government passed the Moving Ahead for Progress in the 21st Century Act (MAP-21). MAP-21 was enacted in 2012 by Congress to establish a framework to link performance management and decision-making for federally-funded transportation investments. MAP-21, which was supplemented by the FAST Act in 2015, requires the State Department of Transportations (DOTs) and TPOs/MPOs to conduct performance-based planning. The objective of performance-based planning is to invest resources in projects that help achieve the following seven national goals (23 CFR 490 or [23 USC 150(b)]):

1- Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads

2- Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair

3- Congestion Reduction

To achieve a significant reduction in congestion on the National Highway System

4- System Reliability

To improve the efficiency of the surface transportation system

5- Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development

6- Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment

7- Reduced Project Delivery Delays

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance-based planning utilizes performance measures and performance targets to ensure the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes.

Performance Measures and Targets

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPOs/MPOs and transit operators to establish and report performance targets for each performance measure. Performance measures are quantitative criteria used to evaluate progress of the seven national goals. In order to determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets. Appendix D provides Transportation Performance Management Fact Sheets published by FDOT in April 2022.

Safety

Pavement and Bridge Condition

System Performance

Transit Asset Management and Transit Safety

Safety

In March 2016, the FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rule (PM1), effective April 14, 2016. The Safety PM Final Rule established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP. Additionally, the Safety PM Finals Rule established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether State DOTs have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, FDOT is fully committed to Vision Zero, and has set a statewide target of "0" for all five safety performance measures. Vision Zero is discussed in greater detail in the HSIP, the Florida Highway Safety Plan, and the Florida Transportation Plan. FDOT set its safety performance targets on August 31, 2017. In addition, FDOT completed a HSIP Implementation Plan in August 2020 to outline an approach toward meeting its safety performance targets in future years. In August of each calendar year, FDOT reports the following year's targets in the HSIP. The TPO is then required to either adopt FDOT's targets or set their own.

On February 27, 2018, the Ocala Marion TPO Board adopted its own safety performance targets to better track progress and reflect greater accountability to the public. The TPO is also developing Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion in 2022. Integrating the adopted targets with Commitment to Zero will be a part of the planning process. By adopting its own safety performance targets, the TPO is required to update targets annually. The TPO updated its annual safety targets on February 22, 2022. Figure 2 displays the safety performance targets in 2022 and 2021 from FDOT and the TPO.

The Ocala Marion TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which are addressed in the Commitment to Zero planning project. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST).

Safety Performance Measures	FDOT Targets (2022)	TPO Targets (not to exceed) (2022)	TPO Targets (not to exceed) (2021)	TPO Target Results (2021)
Number of Fatalities	0	98	97	91
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	2.08	1.96	1.98
Number of Serious Injuries	0	378	432	263
Rate of Serious Injuries per 100 Million VMT	0	8.01	8.74	5.71
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	57	61	50

Figure 2: Safety Performance Measure Targets and Results

Pavement and Bridge Condition

In January 2017, the FHWA published the Pavement and Bridge Condition Performance Measures Final Rule (PM2). The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in **Appendix C**.

The pavement condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics: International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

FDOT established its statewide targets for bridge and pavement condition on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets on in 2018. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years, and are displayed in Figure 3.

The bridge condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor

condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

Pavement and Bridge Condition Performance Measures	FDOT/TPO Target (2-Year)	FDOT/TPO Target (4-Year)	TPO Target Results (2021)				
Pavement Measures							
Percent of Interstate pavements in good condition	Not Required	≥ 60%	66.4%				
Percent of Interstate pavements in poor condition	Not Required	≤ 5%	0%				
Percent of non-Interstate NHS pavements in good condition	≥ 40%	≥ 40%	37.8%				
Percent of non-Interstate NHS pavements in poor condition	≤ 5%	≤ 5%	0%				
Bridge Deck	Area Measures						
Percent of NHS bridges by deck area in good condition	≥ 50%	≥ 50%	59.1%				
Percent of NHS bridges by deck area in poor condition	≤ 10%	≤ 10%	0%				

Figure 3: Performance Measure Targets and Results – Pavement and Bridge Condition

System Performance

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule (PM3). The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS.

LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday, and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person- miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non- single occupancy vehicle (SOV) travel, and total on- road mobile source emissions reductions. The Ocala Marion TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established its statewide targets for system performance on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets in October 2018. Figure 4 displays the most current System Performance measure targets and results.

System Performance Measures	FDOT/TPO Target (2-Year)	FDOT/TPO Target (4-Year)	TPO Target Results (2021)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	≥ 75%	≥ 70 %	100%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	Not Required	≥ 50 %	95.9%
Truck Travel Time Reliability (TTTR)	1.75	2.00	1.74

Figure 4: Performance Measure Targets and Results - System Performance

Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish "state of good repair" standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

On July 1, 2019, SunTran, the public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, moved from the oversight by the TPO to the City of Ocala. The SunTran system includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In July 2019, the City of Ocala set the transit asset targets in Figure 5, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets. SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC).

Figure 5 displays the percentage of SunTran's assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2019 and their performance targets for the next four years. FTA defines ULBs as "... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA." The performance targets assume the assets are replaced as they reach their ULB.

Asset Class	2019 Performance	2020 Target	2021 Target	2022 Target	2023 Target	
	Rolling S	tock				
Buses	69%	0%	0%	0%	0%	
Cutaways	0%	0%	0%	0%	100%	
	Equipm	ent				
Non-Revenue Vehicles	80%	0%	0%	0%	20%	
Facilities						
Maintenance Facility	0%	0%	0%	0%	0%	

Figure 5: Performance Measure Targets and Results - Transit Asset Management

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. MPO/TPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

On December 1, 2020, SunTran submitted their PTASP and corresponding safety targets to the TPO, as adopted by City of Ocala City Council on November 30, 2020. On April 27, 2021, the TPO Board adopted the SunTran PTASP safety targets. Figure 6 displays the adopted SunTran PTASP targets.

SunTran Safety Performance Targets Performance Targets based on collected data from the previous three years							
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles) VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles VRM)	Total	Safety Events (per 100k vehicle revenue miles VRM)	(VRM/ failures)
Fixed Route Bus	0	0	1	.20	5	1.03	7,492
ADA Paratransit	0	0	0	0	0	0	0

Figure 6: Performance Measure Targets and Results - Transit Safety Targets

3. FINANCIAL PLAN

The TIP shall include a financial element that demonstrates how the approved projects can be implemented, indicates the sources of funding that are reasonably expected to be made available, and recommends any additional financing strategies for needed projects and programs (23 CFR 350.326).

The FY 2023 to 2027 is financially constrained for each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program. The TIP has been developed in cooperation with Marion County, the Cities of Belleview, Dunnellon, and Ocala, FDOT, SunTran and Marion Transit. A summary of funding categories, distribution of funding by category and funding sources are summarized in Figures 7 to 9.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and all regional transportation projects requiring federal action. Projects in the TIP are also derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program (339.135, Florida Statute, F.S.). Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

Acronym	Funding Category	Funding Source
ACFP	Advanced Construction Freight Program	Federal

4. PROJECT PRIORITIZATION PROCESS

Overview

The project prioritization process of the TPO is undertaken during the development of the LRTP and annual List of Priority Projects (LOPP). During the development of the LRTP, once the identified projects have been determined as "needs", TPO committees, TPO staff and the TPO Board prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The result is the 'Cost Feasible Plan' of the LRTP, which then becomes a prioritized project list. This list becomes part of the TPO's annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, committee input and TPO Board approval. The LOPP is submitted to FDOT annually for projects to be considered in the next Tentative Work Program for funding. FDOT will decide which projects from the LOPP can be reasonably funded with the cost/funding projections. The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding. For further information about the LOPP process, please access the TPO website at: https://ocalamariontpo.org/priority-project-list.

Methodology

In 2022, the TPO modified its annual LOPP prioritization process. The revised process continues to place an emphasis on prioritizing projects based on criteria score. This includes an emphasis on projects closest to receiving construction funding; meet federal performance measures; are multimodal; improve safety and resilience; programmed funding; and/or include local funding and partnerships. A strategic refinement methodology is also applied to include necessary adjustments to address partner feedback. Overall, this approach involves collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop an annual LOPP. The end-results of the process are a set of nine project lists, including an overall Highest Priority Project List.

The TPO's project prioritization process is consistent with state statute (F.S. 339.1758b), federal law (23 C.F.R 450.332b), the 2045 LRTP, and with local aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO planning area, to the maximum extent feasible [339.175(8)(c)(7), F.S.].

Project Ranking

The priority projects ranking criteria is tied directly to the adopted 2045 LRTP Goals and Objectives, federally required performance measures and local priorities. The goals from the

2045 LRTP that are used in this prioritization and selection process include:

- Optimization and Preserve Existing Infrastructure
- Focus on Improving Safety and Security of the Transportation System
- Provide Efficient Transportation that Promotes Economic Development
- Promote Travel Choices that are Multimodal and Accessible
- Protect Natural Resources and Create Quality Places
- Ensure the Transportation System Meets the Needs of the Community.

The ranking criteria are grouped into the following ten categories and are summarized as follows:

- 1. **Prior Year Rank**: An emphasis on prior project ranking to help support program stability and advancement toward implementation.
- 2. **Project Cycle:** The status of projects in their development phase with an emphasis on the most weight given to projects that are ready for construction.
- 3. **Local Funding Commitment**: Projects receive points for including a local match commitment.
- 4. **Regional Connectivity and Partnerships**: Projects that involve a formal partnership between two or more jurisdictions and coordination between two or more jurisdictions.
- 5. **Safety**: Points given for being located on a roadway segment with a five-year history of serious injury and fatality crashes. Additional points for projects located on the Commitment to Zero High Injury Network.
- 6. **Congestion Management**: Points given for being located on the most up to date Congestion Management Plan Congested Corridors.
- 7. **Multimodal**: A sidewalk, trail and/or bicycle facility are given points and also receive additional points for connecting to existing multimodal facilities in Marion County.
- 8. **Transportation Resilience**: Points given for being located on an existing Florida Evacuation Route or connection to an Evacuation Route.
- 9. **Economic Development and Logistics**: Points given for connecting to or serving employment growth areas of Marion County, along with connecting to or being located on a facility that supports freight activity centers.
- 10. **Equity**: Projects that are located in one of three disadvantaged areas of Marion County as identified and mapped in the 2045 LRTP.

A complete summary of the LOPP ranking and scoring methodology and most up to date project lists are available on the TPO website.

The **2022** List of Priority Projects (LOPP), Top Priorities is provided in Figure 10 on the next page. The remaining six lists may be found on the TPO's website: https://ocalamariontpo.org/priority-project-list/.

Figure 10: 2022 List of Priority Projects (LOPP), Top Priorities

Rank	FDOT Project Number	Project List	Project Name/Limits	Description	FY 23 to 27 TIP Programmed Phase(s)	FY 23 to 27 TIP Programmed Funding	Proposed Phase(s)	Funding Requested
1	435209-1	Top Priorities	I-75 at NW 49th Street Interchange	Construction of a new interchange and roadway extension of NW 49th from NW 44th to NW 35th	CST	\$42,379,864		
2	433652-1	Top Priorities	SR 40 Intersections at SW 40th Avenue and SW 27th Avenue	Traffic operations, turn lanes at I-75 interchange and SW 40th and SW 27th intersections	ROW	\$1,399,654	CST	\$5,500,000
3		Top Priorities	NW 44th Avenue, SR 40 to NW 11th St	Construction of four new roadway lanes			CST	\$14,000,000
4		Top Priorities	NW 80th/70th from N/O SR 40 to S/O US 27	Widening to four lanes			CST	\$30,000,000
5		Top Priorities	SW 44th Avenue from SR 200 to SW 20th	Four-Lane roadway construction	*CST	\$9,000,000		
6		Top Priorities	SW 44th Avenue from SW 20th to SR 40	Addition of two lanes to complete four lane roadway			CST	\$5,000,000
7		Top Priorities	CR 484 Penn Avenue Multimodal	Roadway reconstruction, shared use path connection from downtown Dunnellon to Blue Run Park	*CST	\$2,537,000		
8		Top Priorities	US 27/I-75 Interchange Operations, NW 44th to NW 35th	Safety and operational improvements at interchange area			PE, CST	\$29,341,000
9	450340-1	Top Priorities	Emerald Road Extension	92nd Loop to FN Railroad Connection	ROW, CST	\$9,650,000	CST	\$4,700,000
10	237988-1	Top Priorities	SR 40 at SR 35 intersection	Construction of a roundabout at the intersection			PE, ROW, CST	\$6,000,000
11		Top Priorities	SW 49th from Marion Oaks Trail to SW 95th	Construction of a four lane divided roadway			CST	\$18,000,000
12	238651-1	Top Priorities	SR 200 from Citrus County to CR 484	Widening to four lanes and pedestrian/wildlife underpass connecting greenway			CST	\$37,800,000
13	433660-1	Top Priorities	US 441 (Pine Avenue) at SR 464 (SE 17th)	Intersection/Turn lane improvements	PE, CST	\$3,277,299		
14	238648-1	Top Priorities	US 41 from SW 110th to North of SR 40	Widening to four lanes, sidewalks/path, shoulders			CST	\$38,100,000
15	410674-2	Top Priorities	SR 40 from End of four lanes to CR 314	Reconstruction, widening to four lanes, new bridges, medians			CST	\$110,100,000
16		Top Priorities	CR 484 from SW 49th Ave to CR 475A	Widening to six lanes, bridge replacement at I-75			PD&E, DES, ROW, CST	\$55,000,000
17	449443-1	Top Priorities	NE 8th Avenue from SR 40 to SR 492	Construction of roundabouts on NE 8th Avenue	CST	\$4,452,800		
18		Top Priorities	CR 484 from Marion Oaks Pass to SR 200	Widening to six lanes			DES, ROW, CST	\$35,000,000
19		Top Priorities	I-75 at SR 326 Interchange	Interchange operational improvements			PE, DES, ROW, CST	TBD
20		Top Priorities	SW 80th Avenue from north of 38th Street to SR 40	Widening of roadway to four lanes			PE, DES, ROW, CST	\$25,000,000
21		Top Priorities	SR 35 and SR 464 Intersection Flyover	Flyover of SR 35 at SR 464			PE, DES, CST	\$35,000,000

5. PROJECTS

Overview

The FY 2023 to 2027 TIP projects are grouped into seven categories. All projects are also summarized in individual project pages by category to support a more accessible and user-friendly format for the citizens of Marion County.

Seven TIP Project Categories:

- Interstate: I-75
- U.S. Routes: US 27, US 41, US 301, US 441
- State and Local Routes: City and County Roads, State Roads (e.g., SR 200)
- Bicycle and Pedestrian: Park Trails, Sidewalks and Trails on City, County and State Roads
- Aviation (Airport): Ocala International Airport, Marion County Airport
- Transit, Funding and Grants: Marion Transit, SunTran, TPO, Others
- ITS and Maintenance: Operations, Aesthetics, Asset Management (repaying, rehabilitation, shoulders, bridges, lighting), ongoing Maintenance

Appendix H contains a summary of changes to major regional transportation projects from the previous Fiscal Years 2022 to 2026 TIP. **Appendix J** contains a companion "snapshot" listing of the TIP projects as submitted to the TPO by FDOT in April 2022.

Appendix K contains a summary report and listing of transportation projects included with the annual Roll Forward TIP Amendment process (Amendment #1). The project funding amounts are part of the year one (Fiscal Year 2023) summary totals as displayed in **Figures 8** and **9**.

Figure 11 provides a summary chart of the acronyms used for various project phases/activities and the terms associated with the projects displayed in the TIP summary pages. This chart may be used as a reference when reviewing the project summary pages in this section.

Acronym	Project Phase and Information
ADM	Administration
CST	Construction (includes Construction, Engineering and Inspection)
CAP	Capital Grant
CEI	Construction, Engineering and Inspection
DES	Design
ENG	Engineering
ENV CON	Environmental/Conservation
FM	FDOT Financial Management Number
INC	Construction Incentive/Bonus
MNT	Maintenance
MSC	Miscellaneous Construction
OPS	Operations
PD&E	Project Development and Environment Study
PE	Preliminary Engineering
PLEMO	Planning and Environmental Offices Study
PLN	In House Planning
PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Right-of-Way Support & Acquisition
RRU	Railroad and Utilities
RT MNT	Routine Maintenance
SEG	Project Segment Number
UTIL	Utilities Construction

Figure 11: Project Phase/Activity and Information Acronym List

TIP Online Interactive Map

The FY 2023 to 2027 TIP online map provides specific project locations and general information including funding and total project cost. Projects without a specific location (e.g. TPO grants, Marion Transit, SunTran grants) are not included in the interactive map. The map may be accessed through the TPO website or directly at the following link:

https://marioncountyfl.maps.arcgis.com/apps/webappviewer/index.html?id=81b909295c9447d7adf4b38bc232adcf

Performance Management and TIP Projects

The following provides a summary of the projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: safety; bridge and pavement condition; system performance; and transit asset management and safety. Safety projects include the entire federal aid transportation system. In some cases, a project may support meeting more than one federal performance measure.

Safety (PM1) (10 projects)

FM Number	Project	Limits	TIP Funding
4348441	CR 482 at 182nd Avenue (1)	at 182nd Avenue	\$350,000
4348442	CR 482 at 182nd Avenue (2)	at 182nd Avenue	\$67,980
4493171	CR 484 at SW 135th Street	at SW 135th Street	\$458,310
4492771	CR 484 at Marion Oaks Blvd	at Marion Oaks Boulevard	\$536,625
4494431	NE 8th Avenue	SR 40 to SR 492	\$4,452,800
4492611	SW 60th Avenue	SW 54th Street to SECO Energy Driveway	\$247,061
4336601	U.S. 441	at SR 464 (SE 17th Street)	\$3,277,299
4336511	CR 484 (at I-75)	Southwest 20th Avenue to CR 475A	\$47,520
4375962	SR 40/Silver Springs Boulevard	NW 27th Avenue to SW 7th Avenue	\$909,279
4392382	SR 25/U.S. 441/301	SR 25 to SR 200/SW 10th Street	\$2,975,178
	,	Total:	\$13,322,052

Pavement and Bridge Condition (PM2) (7 projects)

FM Number	Project	Limits	TIP Funding
4483761	SR 93 (I-75)	SR 200 to N. of U.S. 27	\$17,416,866
4486351	SR 25 (U.S. 441)	CR 25A to Avenue I	\$7,571,976
4452181	SR 25 (U.S. 441)	Avenue I to Alachua County Line	\$7,095,081
4485261	SR 45 (U.S. 41)	N/O Citrus County Line to SW 110th	\$4,937,992
4452121	SR 200 (U.S. 301)	South of NE 175th to Alachua County	\$4,729,689
4453021	SR 35/U.S. 301	North of CR 42 to North of SE 144th Place	\$3,054,497
4452171	SR 326	NW 12th Avenue to SR 40	\$11,875,930
		Total:	\$56,682,031

System Performance (PM3) (7 projects)

FM Number	Project	Limits	TIP Funding
4352091	I-75 (SR 93) at NW 49th Street	NW 49th Street to end of NW 35th Street	\$42,379,864
4336601	U.S. 441	at SR 464 (SE 17th Street)	\$3,277,299
4336611	U.S. 441	SR 40 to SR 40A (SW Broadway)	\$17,767
4336511	CR 484 (at I-75)	Southwest 20th Avenue to CR 475A	\$47,520
4336521	SR 40 Intersections	at SW 40th Avenue, at SW 27th Avenue	\$1,398,654
4456881	U.S. 27/U.S. 441/Abshiver	at County Road 42	\$1,099,429
4497641	I-75 ITS Communications	I-75 Corridor, 24 miles in Marion County	\$954,356
		Total:	\$49,174,889

Transit Asset Management (TAM) and Transit Safety

FM Number	Grant	TIP Funding
4271882	Small Urban Capital Fixed Route	\$16,075,958
4424551	Block Grant Operating Assistance	\$7,790,583
	Total:	\$23,866,541

TIP Project Summary Pages

Summary pages are provided in the following pages for all programmed projects and are organized by the seven project categories.

Summary Page Definitions

Project: Includes the project name, project limits and location.

Project Type: Identifies the type of project improvement(s).

FM Number: References the financial management number in FDOT's project tracking system.

Lead Agency: Identifies the agency with project management oversight.

LRTP (Page #): References how the project reflects the 2045 LRTP goals and planning consistency.

SIS: Denotes if a project is on the state's Strategic Intermodal System (SIS) network.

Description: Summarizes the project and highlights major improvements to be implemented.

Prior <Year: Identifies the amount of funding programmed in years prior to the current five-year TIP period.

Future >Year: Identifies the amount of funding programmed in years beyond the current five-year TIP period.

Total Project Cost: Lists the total project cost programmed for the project, including prior year, current five-year and future year funding.

Phase: Identifies the stage in project development for which funding is programmed.

Fund Category: Identifies the type of funding programmed by phase for the project.

Funding Source: Identifies the source of funding by phase for the project (Federal, State and/or Local).

Fiscal Year: Identifies the federal fiscal year(s) when funding is programmed for the project.

Interstate 75 (I-75) Projects

Project: I-75 (SR 93) at NW 49th Street from end of NW 49th Street to end of NW 35th Street

Project Type: Interchange

FM Number: 4352091

Lead Agency: FDOT

Length: 0.1 miles

LRTP (Page #): Goal 1, Objective 1.2 (14); Goal 2,

Objective 2.1, 2.2, 2.3 (14); Goal 3,

Objective 3.2 (14)

SIS Project

Description:

Construction of a new I-75 interchange at NW 49th Street to facilitate projected increases in freight traffic and regional economic development. This project also includes extending NW 49th Street from NW 44th Avenue to NW 35th Avenue.

Prior <2023: Future >2027: Total Project Cost:

Project: I-75 (SR 93) "GAP" 12 Electric Vehicle (EV) Direct Current Fast Charges (DCFCS), Phase 1

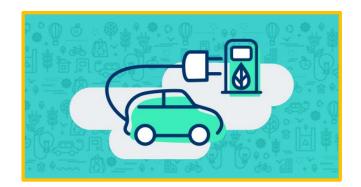

Project Type: Electric Vehicle Charging

FM Number: 4523642

Lead Agency: FDOT

Length: 2.0

LRTP (Page #): Goal 6: Objective 6.4 (page 15)

Description:

Implementation of the National Electric Vehicle Infrastructure Program (NEVI). Deployment of direct current fast charges (DCFCS) along the I-75 corridor in Marion County, Phase 1.

Prior <2023: Future >2027: Total Project Cost:

\$0 \$1,100,000

Phase	Fund Category	Funding Source	2023	2024	2025	2026	2027	Total

(15)

SIS Project

Description:

Addition of turn lanes and turn lane extensions at the CR 484 interchange with I-75 and the CR 484/CR 475A intersection. Reconstruct westbound through lanes and modify the I-75 bridge to accommodate the widening. Bicycle and pedestrian facilities also part of project. Project will improve traffic flow and safety.

Transportation Improvement Program

Fiscal Years 2021/2022 to 2025/2026

Federal Obligations Report

October 1, 2020 to September 30, 2021

Annual Listing of Federally Obligated Projects

Summary

On an annual basis, per Title 23, United States Code (USC) 450.334, the Ocala Marion Transportation Planning Organization (TPO) is required to provide a summary listing of projects for which federal funds have been *obligated in the preceding federal fiscal year (FFY) from October 1 to September 30. The Florida Department of Transportation (FDOT) assists the TPO in complying with this federal requirement by providing a detailed report of federal project obligations for Marion County. The report is included each year as an amendment to the current Transportation Improvement Program (TIP).

A net total of \$26,342,420 of federal funds were obligated in FFY 2021 on 30 transportation projects and programs in Marion County. The following summary report and detailed obligation document provide a listing of the federally obligated projects by phases and funding sources.

*Obligation is the legal commitment by the Federal government to pay or reimburse a State or other entity for the Federal share of a project's eligible cost. Obligated projects have been authorized by the federal government and funds have been approved for reimbursement. Funding for projects can in some cases also be de-obligated. Funding previously obligated is removed from a project due to changes such as cost, delay or cancellation.

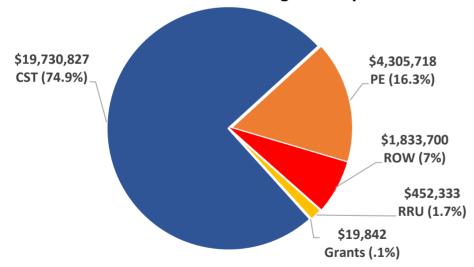

Annual Listing of Federally Obligated Projects - Marion County Federal Fiscal Year (FFY) 2021 October 1, 2020 - September 30, 2021

APPENDIX D: Transportation Performance Management Fact She	eets
023 to 2027 Transportation Improvement Program	D-1

MPORequirements

Florida Department of Transportation Office of Policy Planning

Transportation Performance Management

April 2022

OVERVIEW

This document highlights key provisions of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) performance management requirements for state Departments of Transportation, Metropolitan Planning Organizations, and transit providers, including target setting, performance reporting, and deadlines.

PLANNING RULE FRAMEWORK

FHWA and FTA jointly issued a Planning Rule in 2016 to document changes in the statewide and metropolitan planning processes consistent with the Moving Ahead for Progress in the 21st Century (MAP-21) Act and the Fixing America's Surface Transporta-

PM3

SYSTEM
PERFORMANCE
AND FREIGHT
MOVEMENT

TRANSIT ASSET MANAGEMENT

tion (FAST) Act. Among other changes, this rule specifies the requirements for state DOTs and MPOs to implement a performance-based approach to planning and programming. Under this framework, the three FHWA performance measures (PM) rules and the FTA transit asset management and transit safety rules established various performance measures to assess roadway safety (PM1), pavement and bridge condition (PM2), system performance and freight movement (PM3), transit asset management (TAM), and transit safety. The Planning Rule and the performance measures rules also specify how MPOs should set targets, report performance, and integrate performance management into their Long-Range Transportation Plans (LRTP) and Transportation Improvement Programs (TIP). FHWA and FTA are expected to issue an updated planning rule in 2022 to incorporate changes introduced in the Bipartisan Infrastructure Law passed in November 2021.

Long-Range Transportation Plans

The Planning Rule specifies how performance management is incorporated into the MPO's LRTP. The LRTP must:

- » Describe the federal performance measures and performance targets used in assessing the performance of the transportation system.
- » Include a System Performance Report that:
 - Evaluates the condition and performance of the transportation system with respect to performance targets.
 - Documents the progress achieved by the MPO in meeting the targets in comparison to performance recorded in past reports.
- » Integrate the goals, objectives, performance measures, and targets described in all the plans and processes required as part of a performance-based program.

Transportation Improvement Programs

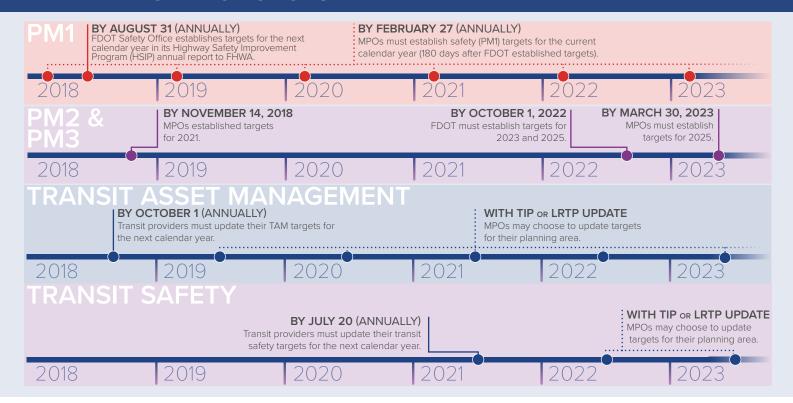

The TIP must:

- » Reflect the investment priorities established in the current long-range transportation plan.
- Be designed such that once implemented, it makes progress toward achieving the performance targets established.
- » Include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the LRTP, linking investment priorities to those performance targets.

FDOT and the
Metropolitan Planning
Organization Advisory
Council (MPOAC) have
developed model
language for inclusion
of performance
measures and targets
in the LRTPs and TIPs

^{*}Please refer to the five accompanying fact sheets to obtain key information for the three FHWA performance measures rules and FTA transit rules.

TIMELINE FOR MPO ACTIONS

TARGET SETTING OPTIONS

The Florida Department of Transportation (FDOT), the MPOs, and providers of public transportation set their respective performance targets in coordination with one another. Each MPO establishes a target for each applicable performance measure. For the **PM1**, **PM2**, and **PM3** measures, each MPO establishes targets by one of two options:

Support the statewide target established by FDOT.

If the MPO chooses to support the statewide target, the MPO provides documentation to FDOT stating that the MPO agrees to plan and program projects so that they contribute toward the accomplishment of FDOT's statewide target for that performance measure.

OR

Establish own target.

If the MPO chooses to establish its own target, the MPO coordinates with FDOT regarding the approach used to develop the target and the proposed target prior to establishing a final target. The MPO provides documentation to FDOT that includes the final target and the date the MPO established the target.

MPOs must establish their targets no later than 180 days after FDOT sets its target.

For the **transit asset management and safety measures**, MPOs may support the targets established by transit providers or establish their own targets. Initial action by the MPO must take place within 180 days of the transit provider action to establish targets. Subsequent MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current provider targets in the updated TIP.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The first of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on April 14, 2016, establishing measures to assess the condition of road safety. This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

PERFORMANCE MEASURES - APPLICABLE TO ALL PUBLIC ROADS

NUMBER OF FATALITIES

The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.

The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year.

The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.

The total number of serious injuries per 100 million VMT in a calendar year.

COORDINATION WITH OTHER PLANS

Updates to FDOT's Florida Transportation Plan (FTP) and MPO's Long-Range Transportation Plans (LRTP) must include most recently reported safety performance data and targets.

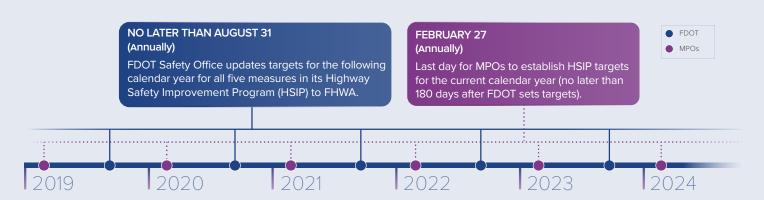

Updates to the Statewide Transportation Improvement Program (STIP) and Transportation Improvement Programs (TIP) must include a description of how the STIP/TIP contributes to achieving safety performance targets in the FTP/LRTP.

TIMELINE

NUMBER OF NON-MOTORIZED

FATALITIES AND NON-MOTORIZED

SERIOUS INJURIES

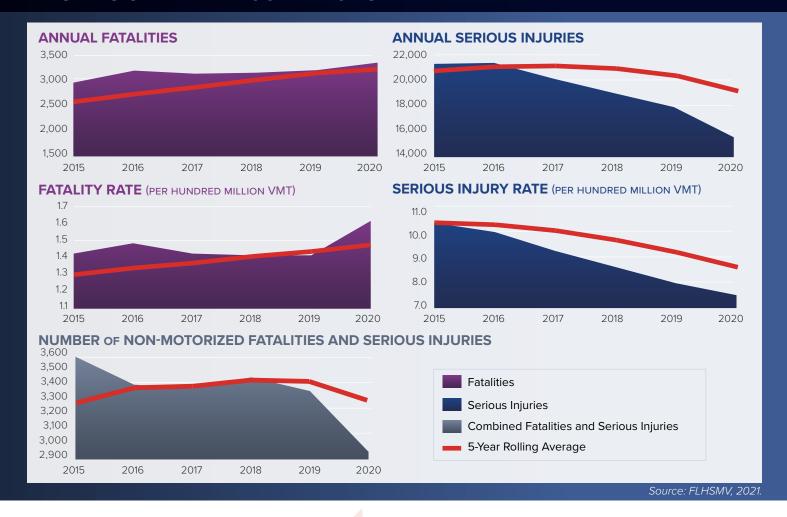

The combined total number of non-motorized

fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year.

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

STATEWIDE TARGETS

- » FDOT annually establishes statewide safety targets for the following calendar year as part of the HSIP Annual Report, which must be submitted by August 31 each year.
- » Targets are applicable to all public roads regardless of functional classification or ownership.

Given FDOT's firm belief that every life counts, the target set for all safety performance measures is ZERO.

MPO TARGETS

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs must annually update their targets by February 27 of each year.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four out of the five safety performance targets are met or the actual outcome for the safety performance target is better than baseline performance.

Based on FHWA's review, Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users. As requested by FHWA, FDOT has developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of these targets.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

PM2: Bridge and Pavement

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The second of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess the condition of the pavements and bridges on the National Highway System (NHS). This fact sheet summarizes the requirements of this rule, the targets Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in GOOD condition.
- » Percentage of pavements on the Interstate System in POOR condition.
- » Percentage of pavements on the non-Interstate NHS in GOOD condition.
- » Percentage of pavements on the non-Interstate NHS in POOR condition.

GOOD CONDITION

Suggests no major investment is needed.

BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) classified as in GOOD condition.
- » Percentage of NHS bridges (by deck area) classified as in POOR condition.

POOR CONDITION

Suggests major investment is needed.

TIMELINE

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

NHS Bridges

2017

BASELINE

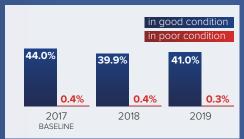

Interstate Pavements 67.7% 66.2% 65.6%

0.5%

2019

66.1% 54.2% 2017 2018 2019 2020 **BASELINE**

Non-Interstate NHS Pavements

STATEWIDE TARGETS

2018

FDOT established 2- and 4-year targets on May 18, 2018 for the full extent of the NHS in Florida. Two-year targets reflect the anticipated performance level at the mid point of each performance period, while 4-year targets reflect it for the end of the performance period.

Performance Measure	2-Year Target	4-Year Target
Pavement		
% of Interstate pavements in GOOD condition	Not required	≥ 60%
% of Interstate pavements in POOR condition	Not required	≤ 5%
% of non-Interstate NHS pavements in <i>GOOD</i> condition	≥ 40%	≥ 40%
% of non-Interstate NHS pavements in <i>POOR</i> condition	≤ 5%	≤ 5%
Bridge		
% of NHS bridges (by deck area) classified in <i>GOOD</i> condition	≥ 50%	≥ 50%
% of NHS bridges (by deck area) classified in <i>POOR</i> condition	≤ 10%	≤ 10%

Note: Two-year targets were not required for Interstate pavement condition for the first performance period, but will be required for the second and subsequent performance periods.

MPO TARGETS

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs set pavement and bridge targets for the first performance period by November 14, 2018. FDOT will set the targets for the second 4-year performance period by October 1, 2022, after which the MPOs will have 180 days to set their targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

Beginning in 2020 and continuing every two years thereafter, FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year applicable statewide target if either:

- » The actual condition/performance level is better than the baseline condition/performance; or
- The actual condition/performance level is equal to or better than the established target.

In January 2021, FHWA determined Florida had made significant progress toward the two-year bridge and pavement targets based on reported data for 2018 and 2019. FHWA will not directly assess MPO progress toward meeting their targets. Rather, it will do so through the periodic transportation planning reviews, including the Transportation Management Area (TMA) MPO certification reviews and reviews of adopted/amended LRTPs and TIPs.

MINIMUM CONDITIONS

Every year, FHWA will assess if FDOT is meeting the statewide minimum condition requirements. If it is not, FDOT must obligate funds to meet minimum requirements.

FDOT IS ON TRACK TO MEET MINIMUM CONDITION REQUIREMENTS

» Pavement: No more than 5 percent of the Interstate System in *Poor* condition for most recent year.

» Bridge: No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (Poor condition) for three consecutive years.

PM3:System Performance

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The third of the three performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess the performance of the National Highway System (NHS), freight movement on the Interstate System, and Congestion Mitigation and Air Quality Improvement Program (CMAQ). This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

PERFORMANCE MEASURES

Performance Measure	Typically Referred to As	What It Measures	
Percent of person-miles traveled on the Interstate that are reliable	Interstate reliability	Seeks to assess how reliable the NHS network is by creating a ratio (called Level of Travel Time Reliability, or	
Percent of person-miles traveled on the non- Interstate NHS that are reliable	Non-Interstate reliability	LOTTR) that compares the worst travel times on a road against the travel time that is typically experienced. Road miles with a LOTTR less than 1.5 are considered reliable. Traffic volume and an average vehicle occupancy are factored in to determine the person miles that are reliable, and this is converted to a percent of total miles.	
Truck travel time reliability (TTTR) index	Truck reliability	Seeks to assess how reliable the Interstate network is for trucks by creating a ratio (called Truck Travel Time Reliability, or TTTR) that compares the very worst travel times for trucks against the travel time they typically experience.	

This rule also contains measures addressing CMAQ Program. These are applicable only for areas that are designated as nonattainment or maintenance, of which Florida currently has none. Therefore, they are currently not applicable to FDOT or any of Florida's MPOs.

TIMELINE

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

INTERSTATE RELIABILITY

Percent of the person-miles traveled on the Interstate that are reliable

NON-INTERSTATE NHS RELIABILITY

Percent of the person-miles traveled on the non-Interstate NHS that are reliable

TRUCK RELIABILITY

Truck travel time reliability index (Interstate)

2017	82.2%
2018	83.5%
2019	83.4%
2020	92.3%
2017	84.0%
2018	86.3%
2019	87.0%
2020	93.5%
2017	1.43
2018	1.42
2019	1.45
2020	1.34
Note: A higher Interstate and non-Intersta	ate NHS reliability percentage means greater reliability.

However, a higher TTTR index means lower reliability.

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS)

STATEWIDE TARGETS

FDOT established the following 2- and 4-year targets on May 18, 2018. Two-year targets reflect the anticipated performance level at the end of calendar year 2019, while 4-year targets reflect anticipated performance at the end of 2021.

Performance	2-Year	4-Year
Measure	Target	Target
Interstate reliability	≥ 75%	≥ 70%
Non-Interstate NHS reliability	Not required	≥ 50%
Truck reliability	≤ 1.75	≤ 2.00

Note: Two-year targets were not required for non-Interstate reliability for the first performance period, but will be required for the second and subsequent performance periods.

MPO TARGETS

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs set system performance targets for the first performance period by November 14, 2018. FDOT will set its targets for the second 4-year performance period by October 1, 2022, after which the MPOs will have 180 days to set their targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

Beginning in 2020 and continuing every two years thereafter, FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year applicable statewide target if either:

- » The actual condition/performance level is better than the baseline condition/performance; or
- » The actual condition/performance level is equal to or better than the established target.

In January 2021, FHWA determined Florida had made significant progress toward the two-year targets for Interstate and truck reliability based on reported data. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of updated and amended Long-Range Transportation Plans (LRTP), and approval of MPO Transportation Improvement Programs (TIP).

TRANSIT Asset Management

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The Transit Asset Management rule from the Federal Transit Administration (FTA) became effective on October 1, 2016. This rule applies to all recipients and subrecipients of federal transit funding that own, operate, or manage public transportation capital assets. The rule introduces requirements for new State of Good Repair (SGR) performance measures and Transit Asset Management (TAM) Plans. This fact sheet describes these requirements and the role of the Metropolitan Planning Organizations (MPO) under this rule.

STATE OF GOOD REPAIR PERFORMANCE MEASURES

Transit agencies are required to report transit asset performance measures and targets annually to the National Transit Database (NTD). Targets should be supported by the most recent condition data and reasonable financial projections.

Transit Asset Categories and Related Performance Measures

FTA Asset Categories	Type of Measure	Performance Measures
EQUIPMENT Non-revenue support-service and maintenance vehicles	A ge	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their useful life benchmark (ULB)
ROLLING STOCK Revenue vehicles	Age	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their ULB
INFRASTRUCTURE Rail fixed-guideway track	Performance	Percentage of track segments (by mode) with performance restrictions
FACILITIES Buildings and structures	Condition	Percentage of facilities within an asset class rated below condition 3 on the Transit Economic Requirement Model (TERM) scale

"State of good repair" is defined as the condition in which a capital asset is able to operate at a full level of performance. This means the asset:

- 1. Is able to perform its designed function.
- 2. Does not pose a known unacceptable safety risk.
- 3. Lifecycle investments have been met or recovered.

TIMELINE

TAM PLAN

By October 1, 2018 (two years from effective date of the Final Rule), Transit Asset Management Plans (TAM Plan) were required for all providers. These plans are either developed by the providers or by a group sponsor on behalf of multiple providers. These plan must be updated every four years. The Group TAM Plan must be updated by October 1, 2022, and individual TAM Plans by Tier I and Tier II providers must be updated by the start of the provider's fiscal year.

Tier I versus Tier II Agencies

The rule makes a distinction between Tier I and Tier II transit providers and establishes different requirements for them.

Owns, operates, or manages either: < = 100 vehicles in revenue service during peak regular service across ALL non-rail fixed route modes or in ANY one non-rail fixed route mode OR Subrecipient under the 5311 program OR Native American Tribe

TAM Plan Elements

Inventory of Capital Assets
 Condition Assessment
 Decision Support Tools
 Investment Prioritization
 TAM and SGR Policy
 Implementation Strategy
 List of Key Annual Activities

TIER I
ONLY

8. Identification of Resources

9. Evaluation Plan

A **TIER I** provider must develop its own TAM Plan. The Tier I provider must make the TAM plan, annual targets, and supporting materials available to the state DOTs and MPOs that provide funding to the provider.

TIER II agencies may develop their own plans or participate in a group TAM plan, which is compiled by a group TAM plan sponsor. State Departments of Transportation (DOT) that pass FTA funds to subrecipients are required to be group TAM plan sponsors. The unified targets and narrative report for group plan participants are submitted on behalf of all participating agencies by the sponsor. Group plan sponsors must make the group plan, targets, and supporting materials available to the state DOTs and MPOs that program projects for any participants of the group plan. The Florida Department of Transportation (FDOT) developed a group plan for all subrecipients in 2018. The plan included collective targets for subrecipients.

MPO COORDINATION

- » Each public transit provider or its sponsors must share its targets with each MPO in which the transit provider operates services.
- » MPOs are required to establish initial transit asset management targets within 180 days of the date that public transportation providers establish initial targets. However, MPOs are not required to establish transit asset management targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. MPOs will reflect current provider TAM targets in the updated TIP.
- When establishing transit asset management targets, the MPO can either agree to program projects that will support the transit provider's targets, or establish its own separate regional targets for the MPO planning area. MPO targets may differ from provider targets, especially if there are multiple transit agencies in the MPO planning area.
- » MPOs are required to coordinate with transit providers and group plan sponsors when selecting targets to ensure alignment of targets.
- » FTA will not assess MPO progress toward achieving transit targets. However, the Federal Highway Administration (FHWA) and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of updated LRTPs, and approval of MPO TIPs.

PUBLIC TRANSIT Safety Performance

MAP-21 Performance Management

April 2022

OVERVIEW

The Federal Transit Administration (FTA) has established requirements through 49 CFR 673 for Public Transportation Agency Safety Plans (PTASP) and related performance measures as authorized by the Moving Ahead for Progress in the 21st Century Act (MAP–21). This rule requires certain operators of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53 to develop and implement PTASP based on a Safety Management Systems (SMS) approach. Development and implementation of agency safety plans will help ensure that public transportation systems are safe nationwide. This fact sheet summarizes the requirements of this rule and the responsibilities of Florida's transit providers and Metropolitan Planning Organizations (MPOs) in implementing the rule.

PUBLIC TRANSPORTATION AGENCY SAFETY PLANS (PTASP)

Federal Rule Applicability

RECIPIENTS AND SUB-RECIPIENTS OF FTA 5307 FUNDS

FTA is deferring applicability for operators that only receive 5310 and/or 5311 funds.

SMALL PUBLIC TRANSPORTATION PROVIDERS (5307S) Agencies: a) without rail; and b) with fewer than 101 revenue vehicles in operation during peak service may complete their own plan or have their plan drafted or certified by their state DOT.

PUBLIC TRANSPORTATION SAFETY PERFORMANCE MEASURES

FATALITIES

Total number of reportable fatalities and rate per total vehicle revenue miles by mode.

INJURIES

Total number of reportable injuries and rate per total vehicle revenue miles by mode.

SAFETY EVENTS

Total number of reportable events and rate per total vehicle revenue miles by mode.

SYSTEM RELIABILITY

Mean distance between major mechanical failures by mode.

TIMELINE

BY JULY 20, 2021

Iransit providers must have in place a Public Transportation Agency Safety Plan that meets federal requirements and must have established transit safety targets. After this date, transit providers must update transit safety targets annually.

AFTER JULY 20, 2021

Update or amendments to the LRTP and TIP after this date must be developed according to the Transit Safety Rule.

WITHIN 180 DAYS AFTER DATE OF TRANSIT PROVIDER ACTION Safety targets must be

Safety targets must be established by MPOs.

WITH TIP OR LRTP UPDATE

MPOs may choose to update targets for their planning area.

Transit Providers

MPOs

2021 2022 2023 2024

PTASP CERTIFICATION AND REVIEW

RELATIONSHIP OF PTASP TO FLORIDA REQUIREMENTS

Florida requires each Section 5307 and/or 5311 transit provider to have an adopted System Safety Program Plan (SSPP) (Chapter 14-90, Florida Administrative Code). The FTA PTASP rule and Florida's SSPP requirements are similar, but have some differences. Because Section 5307 providers in Florida must already have a SSPP, FDOT recommends that transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements.

FDOT has issued guidance to providers to assist them with revising existing SSPPs to be compliant with the FTA requirements.

While the PTASP rule requires transit providers to establish safety performance targets, the SSPP does not.

PTASP RELATIONSHIP TO OTHER FEDERALLY REQUIRED PLANS AND PRODUCTS

REQUIREMENTS

COORDINATION WITH METROPOLITAN, STATEWIDE, AND NON-METROPOLITAN PLANNING PROCESSES

- » Public transit providers will coordinate with FDOT and affected MPOs in the selection of transit safety performance targets.
- » Providers will give written notice to the MPO(s) and FDOT when the provider establishes transit safety targets. This notice will provide the established targets and the date of establishment.
- » MPOs that establish their own transit safety targets will coordinate with the public transit provider(s) and FDOT in the selection of transit safety performance targets. The MPOs will give written notice to the public transit providers and FDOT when the MPO establishes its own transit safety targets.
- » MPOs that agree to support a public transit provider's safety targets will provide FDOT and the public transit providers documentation that the MPO agrees to do so.

- » Public transit providers that annually draft and certify a PTASP must make the PTASP and underlying safety performance data available to FDOT and the MPOs to aid in the planning process.
- » Public transit providers will update the PTASP and establish transit safety targets annually. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. MPOs will reflect current provider PTASP targets in the updated TIP.
- » If two or more providers operate in an MPO planning area and establish different safety targets for a measure, the MPO may establish a single target for the MPO planning area or establish a set of targets for the MPO planning area that reflect the differing transit provider targets.

APPENDIX F: Public and Partner Comments

FY 2023 to 2027 Transportation Improvement Program (TIP)

Public Comments

Summary

The draft Fiscal Years 2023 to 2027 Transportation Improvement Program (TIP) was made available for public and partner agency review on May 3, 2022. The following public comments were received by the TPO.

- **Comment:** "Please expand I-75 and existing roads before destroying farms, nature, and the springs to build new ones. Once these resources are gone they can never be replaced."
 - o **TPO Response**: Noted for public record. The citizen requested to not receive follow up from the TPO. The comment is part of public record and included in the TIP document for future planning considerations.
- Comment: "As a member of the TPO Board who works at Central Florida Community Action Agency and live in Alachua County, one of the things that I've noticed for some of the clients that we serve in Marion County, they have transportation needs to get back and forth to clinical sites that are often located in Belleview, Orlando, etc. I'm not sure if there is some sort of shuttle services that can assist students who are residents and need to travel outside of Marion County for clinicals, work, etc."
 - TPO Response: Noted for public record. The citizen was thanked for the comment and informed it will become part of public record, and included in the TIP document for future planning considerations.
- Comment: "The back and forth regarding opening Ocala Int'l Airport to commercial airlines needs to be resolved in two ways: The designation "International Airport" is misleading. That needs to be changed to something else to reflect the actual air traffic and constituent travel: Regional Airport? Regional Business Airpark? Dump the word "International". Second, a lot of frustration of air travelers having to drive to Orlando or Gainesville could be reduced by a highspeed railway system."
 - o **TPO Response**: Noted for public record. The citizen was thanked for the comment and informed it will become part of public record, and included in the TIP document for future planning considerations.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

Editorial: Comments may be addressed by MPO, but would not affect approval of the document, i.e., grammatical, spelling and other related errors.

Enhancement: Comments may be addressed by MPO, but would not affect approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: Comment MUST be addressed to meet minimum state and federal requirements to obtain approval. The reviewer must clearly identify the applicable state or federal policies, regulations, guidance, procedures or statutes that the document does not conform with.

If a question is categorized, a comment must be included. In addition, if a question is answered with "no", a comment must also be included. Once the checklist is finalized, please share as a PDF.

MPO:	Ocala Marion TF	0	Fiscal Years included: FY 2023	-2027
Review #:	1 (Draft)	Date of Review: 5/10/22	Reviewed by: LLH	
TIP Format	t & Content			
Does the covadoption?	er page include the N	MPO name, address correct fiscal years, and	provide a location to add the date of	Yes ⊠ No □
No comment	Click here to	enter comments		Page Numbers: 1
	Page numbers	referenced are page numbers of pdf		
Does the Tab	ole of Contents show	the title of each section with correct page n	umber?	Yes ⊠ No □
No comment	Click here to	enter comments		Page Numbers: 4
	Click here to	enter notes		
		that it was developed following state and fould be an MPO resolution or signed signatu	·	Yes ⊠ No □

APPENDIX G: Glossary of Terms and Acronyms			

Glossary of Terms and Acronyms

ACRYONYM	NAME	DESCRIPTION
3C	Continuing, Cooperative and Comprehensive	A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding.
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.
ADA	Americans with Disabilities Act	The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections.
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data.
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources.
CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented.
CBSA	Core Based Statistical Areas	CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel.
СЕМРОА	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law.

ACRYONYM	NAME	DESCRIPTION
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.).
СМР	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.
СТС	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation- disadvantaged/).
CTD	Commission for Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funs to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc. org/TD/td.html).
СТРР	Census Transportation Planning Products	The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau.
СТЅТ	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition.
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/ programs/dbe/).
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/ communitytransystem.htm)
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project.

ACRYONYM	NAME	DESCRIPTION
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects.
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.
FAST Act	Fixing America's Surface Transportation Act	The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.
FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida-https://jobs.myflorida.com/go/ Department-of-Transportation/2817700/).
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal- aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.
FMTP	Freight Mobility and Trade Plan	FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future.
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.
FY	Fiscal Year/ Federal Fiscal Year	The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30.

ACRYONYM	NAME	DESCRIPTION
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.
HSIP	Highway Safety Improvement Program	The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.
HUD	Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.
IIJA	Infrastructure Investment and Jobs Act	Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending.
IRI	International Roughness Index	International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface.
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system.
LOS	Level of Service	Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.
LOPP	List of Priority Projects	The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding.
LRTP/MTP	Long-Range Transportation Plan (or Metropolitan Transportation Plan)	A document that serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and-programs/long-range- transportation-plan-Irtp/.

ACRYONYM	NAME	DESCRIPTION
LOTTR	Level of Travel Time Reliability	The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS).
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.
МРА	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.
МРО	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
MPOAC	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.
MSA	Metropolitan Statistical Area	A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.
NTD	National Transit Database	The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems.
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)].
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500).

ACRYONYM	NAME	DESCRIPTION
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https://www.fdotd7studies.com/what-is-a-pde-study.html).
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.
PM	Performance Management	Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals.
РРР	Public Participation Plan	The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.
PTASP	Public Transportation Agency Safety Action Plan	A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system.
RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.
SHSP	Strategic Highway Safety Plan	This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads.
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot.gov/planning/sis/default.shtm).
SOV	Single-Occupancy Vehicle	Any motor vehicle operated or driven by a single person.
STBG	Surface Transportation Block Grant Program	The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.

ACRYONYM	NAME	DESCRIPTION
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals.
ТАМР	Transportation Asset Management Plan	The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts).
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.
TD	Transportation Disadvantaged	Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues.
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.
TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.

ACRYONYM	NAME	DESCRIPTION
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half-mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org).
ТРМ	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.
ТРО	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities.
TTTR	Truck Travel Time Reliability Index	The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system.
UA	Urbanized Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.
ULB	Useful Life Benchmark	The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration.
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.
USC	United States Code	The codification by subject matter of the general and permanent laws of United States.
USDOT	United States Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.
YOE	Year of Expenditure	The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed.
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia).

APPENDIX H: Project Changes from Prior TIP

Project Changes from Prior Transportation Improvement Program (TIP)

The following lists (2) summarize major projects that were programmed in the previous FY 2022 to FY 2026 TIP and their respective status toward implementation. This includes projects that were advanced; completed; under construction (2022); or deferred.

Changes to total project funding are also noted for major projects programmed in both the previous FY 2022 to FY 2026 TIP and the current FY 2023 to FY 2027 TIP.

	Project Status from Prior TIP: Advanced, Completed, Cor	nstruction or Deferred	
Project			FY 22-26 TIP
Number/FM	Project Description	Project Status	Funding
2386481	SR 45 (US 41) from SW 110th Street to North of SR 40	Deferred Out	\$44,211,268
4112565	SR 35 (US 301) Dallas Pond Redesign	Constrution 2022	\$537,379
4336511	CR 484 from SW 20th Avenue to CR 475A	Construction 2022	\$15,302,481
4336611	U.S. 441 from SR 40 to SR 40A (Broadway)	Construction 2022	\$3,607,422
4348441	CR 42 at SE 182nd Avenue	Deferred to FY 23	\$407,200
4354842	Pruitt Trail from SR 200 to Pruitt Trailhead	Deferred to FY 26	\$2,158,000
4364742	Saddlewood Elementary School Sidewalks	Construction 2022	\$317,096
4364743	Legacy Elementary School Sidewalks	Construction 2022	\$1,411,659
4375962	SR 40 from NW 27th Street to SW 7th Street Sidewalks	Completed 2021	\$913,539
4384271	Marion County Airport Airfield Pavement Improvements	Deferred to FY 25	\$4,833,608
4384771	Ocala International Airport Taxiway Improvements	Deferred to FY 26	\$6,500,000
4407801	Ocala International Airport Pavement Rehabilitation	Deferred to FY 24	\$1,978,750
4408801	Marion Oaks Marion Oaks Manor Sidewalk	Construction 2022	\$36,210
4431701	SR 93 (I-75) from Sumter County to SR 200	Construction 2022	\$30,271,013
4437301	U.S. 301/U.S. 441 South of Split to North of Split Landscape	Construction 2022	\$372,839
4453211	Wildwood Mainline Weigh-In Motion (WIM) Screening	Construction 2022	\$4,621,712
4456871	U.S. 41/Williams from Brittan Alexander Bridge to River Road	Advanced to FY 22	\$551,496
4458001	SR 40 at SR 492 (NE 14th Street)	Advanced to FY 22	\$987,415
4471371	SR 200 Bridges and SR 40 Bridge Deck Rehabilitation	Construction 2022	\$1,010,681
4483891	NW 9th Street at Railroad Crossing #627174G	Completed 2022	\$207,629
4485751	Ocala International Airport ARFF Building	Deferred to FY 27	\$1,608,894

	Major Project Total Funding Changes: Prior TIP to Current TIP							
Project		Project Schedule	Change in					
Number/FM	Project Description	Changes	Project Funding					
2386481	SR 45 (US 41) from SW 110th St to North of SR 40	Deferred Out	-\$44,211,268					
4336511	CR 484 from SW 20th to CR 475A	None	-\$2,874,947					
	I-75 (SR 93) at NW 49th Street from end of NW 49th to NW

Transportation Improvement Program

Fiscal Years 2023 to 2027

Roll Forward Amendment

Pending Approval August 23, 2022

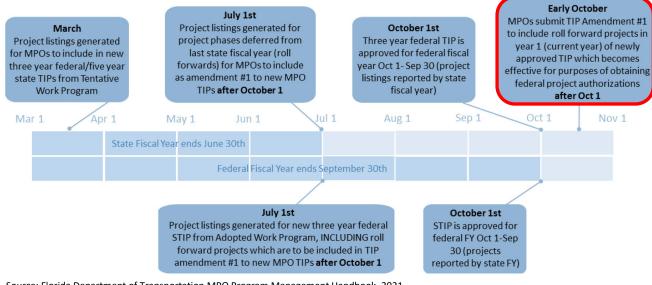

Roll Forward TIP Amendment

PURPOSE

The TPO's FY 2023 to FY 2027 Transportation Improvement Program (TIP) was adopted by the Board on June 28, 2022. The purpose of the TIP Roll Forward Amendment is to ensure full consistency by October 1 each year between the Ocala/Marion County Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) and the Florida Department of Transportation (FDOT) Work Program.

In some cases, project funding programmed in the previous fiscal year of the prior TIP document was not authorized and encumbered prior to June 30. These projects then roll-forward in the FDOT Work Program for year one (FY 2023), but not into the TPO's TIP to meet the timeline for annual adoption. As a result, the TPO's TIP must be amended each year to include roll-forward projects in the current fiscal year to ensure consistency with the FDOT Work Program. Hence, the process is called the Roll Forward TIP Amendment.

Unlike all other projects, Federal Transit Administration (FTA) projects to not automatically roll-forward in the FDOT Work Program. The TPO coordinates with SunTran to verify that project funding is appropriately accounted for in the Roll Forward TIP Amendment. The following graphic displays the Roll Forward process and all key milestones.

July 11, 2022

Ocala Marion TPO ATTN: Rob Balmes, Executive Director 2710 E Silver Springs Blvd Ocala FL 34470

RE: Request to Amend Fiscal Year (FY) 2022/23-2026/27 Transportation Improvement Program (TIP) – Annual Roll Forward

Dear Mr. Balmes:

The purpose of this letter is to request Ocala Marion TPO amend the FY 2022/23-2026/27 TIP with the Annual Roll-Forward Report. The Roll Forward report reconciles differences between the TIP and Florida Department of Transportation's (FDOT) Adopted Five-Year Work Program. This is annual process is routine and assists the MPO with identifying projects using federal funds that were not committed during the previous state fiscal year (FY 2021/2022). These projects have automatically "rolled forward" in the FDOT Adopted Five-Year Work Program as of July 1, 2022. This amendment ensures that year one of the TIP matches year one of FDOT's Adopted Five-year Work Program.

The reason for this amendment is to ensure projects with federal funding can be authorized prior to the new Federal Fiscal Year (FFY) beginning on October 1 each year. Until then, Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) continue to recognize the FY 2021/22 – 2025/26 TIP as the effective document. Adopting the Roll Forward Report and amending it into the TIP ensure projects will continue to be authorized without interruption.

The affected projects are listed in the attached Roll-Forward Report dated July 5, 2022. The MPO is requested to add this report to the FY 2022/23-2026/27 TIP in its entirety.

Feel free to contact the Liaison Group at D5-MPOLiaisons@dot.state.fl.us.

Sincerely,

DocuSigned by:

Rakinya Hinson

RE: Performance Management Pavement and Bridge (PM2) and

System Performance (PM3) Targets

Summary

Federal law requires State DOTs and TPOs/MPOs to conduct performance-based planning by setting data-driven targets linked to specific measures. In 2017, the Federal Highway Administration (FHWA) published the Pavement and Bridge Condition Performance Measures (PM2) and the System Performance Measures (PM3) Final Rules. These rules established performance measures to assess conditions and reliability for the National Highway System (NHS). Maps of the NHS in Marion County are attached to this memo for reference.

On December 16, 2022, the Florida Department of Transportation (FDOT) established new statewide two and four-year targets for Pavement and Bridge condition and System Performance. As a result, all MPO/TPO's in Florida must also set targets, with the option to support the FDOT statewide targets or establish specific targets for their planning areas. Targets must be adopted by the TPO Board no later than June 14, 2023. The TPO must include the respective targets and annual results in the Transportation Improvement Program (TIP) and Long-Range Transportation Plan (LRTP).

Pavement and Bridge (PM2)

The PM2 measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS pavement and bridges (by deck area) that are in good or poor condition. FHWA set a threshold for each metric to establish good, fair, or poor condition. Pavement sections that are not good or poor are classified as fair. Bridges are classified as either good or poor.

The following charts display the new Pavement and Bridge performance measures and respective targets set by FDOT on December 16, 2022.

PM2: State Pavement and Bridge Performance Measures and Targets

Pavement Condition	2023 Target	2025 Target
Percent of Interstate pavements in Good condition	60.0%	60.0%
Percent of Interstate pavements in Poor condition	5.0%	5.0%
Percent of Non-interstate NHS pavements in Good condition	40.0%	40.0%
Percent of Non-interstate NHS pavements in Poor condition	5.0%	5.0%

Bridge Condition	2023 Target	2025 Target
Percent of National Highway System (NHS) bridges classified as in Good condition by deck area	50.0%	50.0%
Percent of National Highway System (NHS) bridges classified as in Poor condition by deck area	10.0%	10.0%

System Performance (PM3)

The PM3 measures represent the percentage of miles traveled on the Interstate and non-Interstate NHS that are reliable for all vehicles, and a specific measure for truck reliability. Travel time reliability compares the worst travel times on a road against the travel time that is typically experienced. In general, road miles with a ratio of less than 1.5 are considered reliable.

The following charts display the new System Performance measures and respective targets set by FDOT on December 16, 2022.

PM3: System Performance Measures and Targets

System Performance	2023 Target	2025 Target
Percent of Person-Miles Traveled on the Interstate that are Reliable	75.0%	70.0%
Percent of Person-Miles Traveled on the Non- Interstate National Highway System (NHS) that are Reliable	50.0%	50.0%
Truck Travel Time Reliability (TTTR) Index	1.75	2.0

Recommendations

The TPO Board may adopt one of two options:

A. Support the FDOT statewide two and four-year targets for Pavement and Bridge and System Performance

or

B. Establish two and four-year targets specific to the TPO Planning area for Pavement and Bridge and System Performance

At the last cycle when targets were required to be set by FDOT in 2018, all MPO/TPOs in Florida agreed to support the statewide targets.

TPO Staff Recommendation

TPO staff recommends **Option A** – the adoption of statewide targets set by FDOT, including specific results for the TPO Planning area in 2021 (most current data available).

FHWA's vision of performance-based planning is predicated on the approach that it is critical to incorporate a system-level, data driven process to support investments in transportation infrastructure. The data for PM2 performance measures used to set targets is derived from reliable statewide sources, including the FDOT State Materials Office, Office of Maintenance, Transportation Data and Analytics Office. PM3 data is derived from the National Performance Management Research Data Set (NPMRDS), Highway Performance Management System (HPMS) and FHWA.

PM2: State Pavement and Bridge Performance Measures, Targets and TPO Results

Pavement Condition	2023 Target	2025 Target	TPO Target Results (2021)
Percent of Interstate pavements in Good condition	60.0%	60.0%	64.0%
Percent of Interstate pavements in Poor condition	5.0%	5.0%	0.0%
Percent of Non-interstate NHS pavements in Good condition	40.0%	40.0%	51.5%
Percent of Non-interstate NHS pavements in Poor condition	5.0%	5.0%	0.3%

Bridge Condition	2023 Target	2025 Target	TPO Target Results (2021)
Percent of National Highway System (NHS) bridges classified as in Good condition by deck area	50.0%	50.0%	59.2%
Percent of National Highway System (NHS) bridges classified as in Poor condition by deck area	10.0%	10.0%	0.0%

A transportation system that supports growth, mobility, and safety through leadership and planning

Marion County • City of Belleview • City of Dunnellon • City of Ocala

PM3: System Performance Measures, Targets and TPO Results

System Performance	2023 Target	2025 Target	TPO Target Results (2021)
Percent of Person-Miles Traveled on the Interstate that are Reliable	75.0%	70.0%	100%
Percent of Person-Miles Traveled on the Non- Interstate National Highway System (NHS) that are Reliable	50.0%	50.0%	95.9%
Truck Travel Time Reliability (TTTR) Index	1.75	2.0	1.74

Pavement/Bridge (PM2)

System Performance (PM3)

Two and Four Year Targets

Background

- Annual Federal Requirement
- Pavement and Bridge Condition (PM2)
- System Performance (PM3)

Committee & Board Action

- TAC and CAC review and action March 14
- Board review and action, March 28
- Submission of PM2, PM3 Targets to FDOT by June 14, 2023

Pavement and Bridge (PM2)

Pavement Condition Performance Measures

Percent of Interstate pavements in Good condition

Percent of Interstate pavements in **Poor** condition

Percent of Non-interstate NHS pavements in **Good** condition

Percent of Non-interstate NHS pavements in **Poor** condition

Ratings = Good, Fair, Poor

Pavement and Bridge (PM2)

Bridge Condition Performance Measures

Percent of National Highway System (NHS) bridges classified as in **Good** condition by deck area

Percent of National Highway System (NHS) bridges classified as in **Poor** condition by deck area

Ratings = Good, Fair, Poor

Pavement and Bridge (PM2)

Pavement Condition

 Evaluated for ride quality (IRI), crack extent and severity, and average depth of wheel-path ruts per FDOT's Pavement Condition Survey.

Bridge Condition

Based on a 0 to 9 scale (0-4 Poor; 5-6 Fair; 7-9 Good).

System Performance (PM3)

System Performance Measures

Percent of Person-Miles Traveled on the **Interstate** that are Reliable

Percent of Person-Miles Traveled on the Non-Interstate National Highway System (NHS) that are Reliable

Truck Travel Time Reliability (TTTR) Index

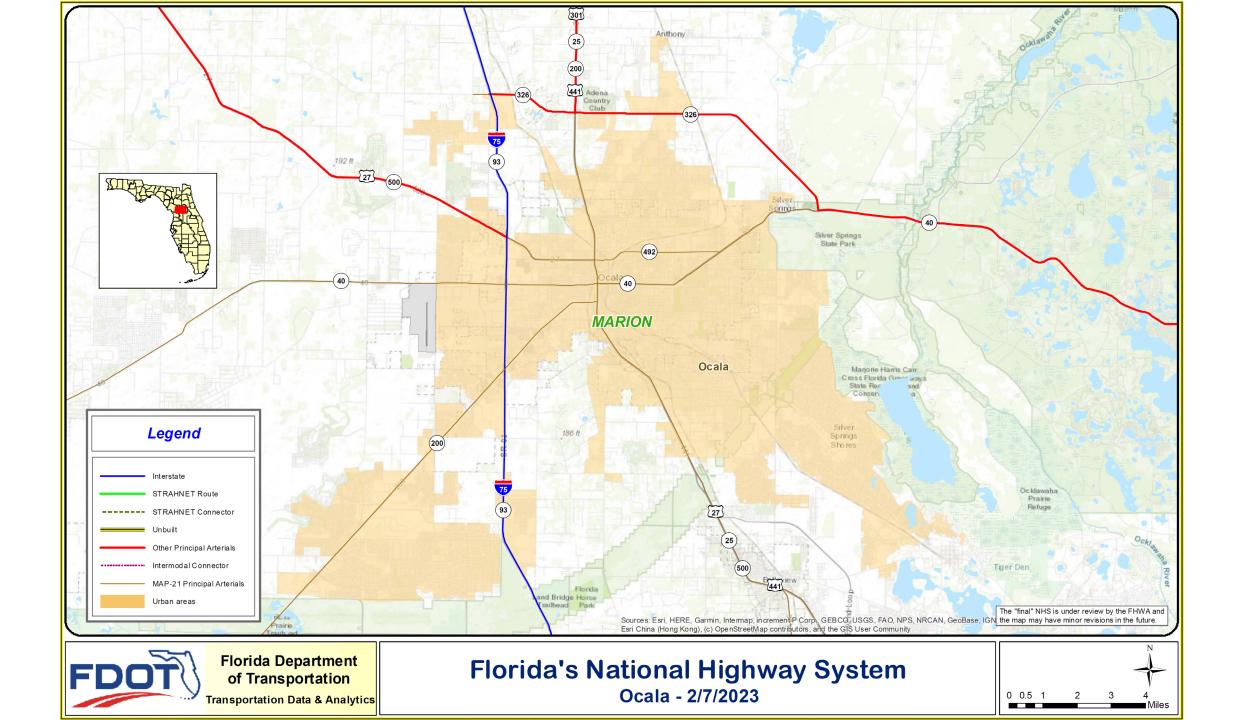

System Performance (PM3)

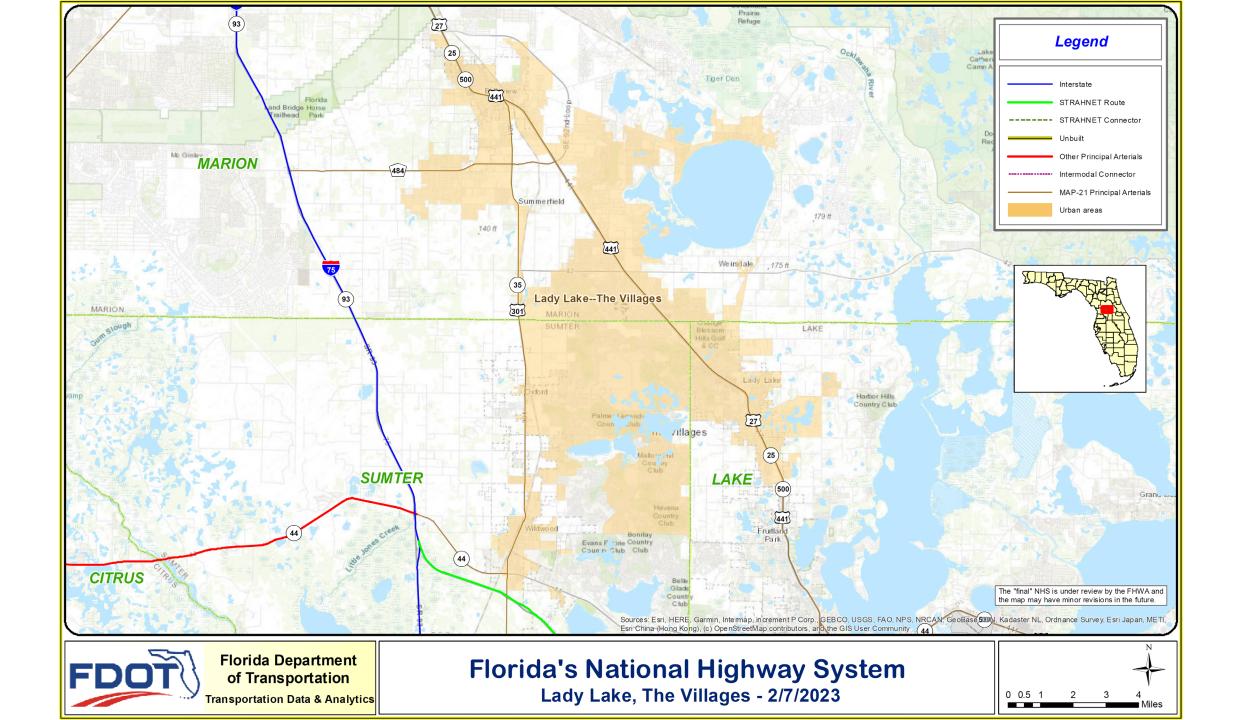

Travel Time Reliability

 Compares longer travel times (80th percentile) to a normal travel time (50th percentile).

Truck Travel Time Reliability

• Compares longer travel times (95th percentile) to the normal travel time (50th percentile) for trucks.

State Targets 2-Year, 4-Year

Pavement Condition	2023 Target	2025 Target
Percent of Interstate pavements in Good condition	60.0%	60.0%
Percent of Interstate pavements in Poor condition	5.0%	5.0%
Percent of Non-interstate NHS pavements in Good condition	40.0%	40.0%
Percent of Non-interstate NHS pavements in Poor condition	5.0%	5.0%

State Targets 2-Year, 4-Year

Bridge Condition	2023 Target	2025 Target
Percent of National Highway System (NHS) bridges classified as in Good condition by deck area	50.0%	50.0%
Percent of National Highway System (NHS) bridges classified as in Poor condition by deck area	10.0%	10.0%

State Targets 2-Year, 4-Year

System Performance	2023 Target	2025 Target
Percent of Person-Miles Traveled on the Interstate that are Reliable	75.0%	70.0%
Percent of Person-Miles Traveled on the Non- Interstate National Highway System (NHS) that are Reliable	50.0%	50.0%
Truck Travel Time Reliability (TTTR) Index	1.75	2.0

Reliable all Vehicles < 1.50

State Target TPO Results

System Performance	2023 Target	2025 Target	TPO Target Results (2021)
Percent of Person-Miles Traveled on the Interstate that are Reliable	75.0%	70.0%	100%
Percent of Person-Miles Traveled on the Non- Interstate National Highway System (NHS) that are Reliable	50.0%	50.0%	95.9%
Truck Travel Time Reliability (TTTR) Index	1.75	2.0	1.74

2023 Recommendations

Option A – TPO Recommendation

 Support the FDOT statewide two and fouryear targets

All MPO/TPO's in Florida adopted state targets in 2018

Note: When an MPO/TPO adopts State Targets, no changes can be made unless FDOT changes the State Targets.

2023 Recommendations

Option A

- PM2 performance measures used to set targets is from statewide sources, including the FDOT State Materials Office, Office of Maintenance, Transportation Data and Analytics Office – Statewide Asset Management
- PM3 data is from the National Performance Management Research Data Set (NPMRDS), Highway Performance Management System (HPMS) and FHWA.

2023 Recommendations

Option B

 Adopt specific Targets for our TPO Planning Area

Note:

- 1 For calculating % of Interstate pavements in Good/Fair/Poor Condition, sections with bridges, unpaved surfaces, "other" surface types and missing data (any of IRI, Cracking %, Rutting or Faulting) are excluded.
- 2 A section can have missing, invalid or unresolved data (any of IRI, Cracking %, Rutting or Faulting) due to roadway under construction, data not collected, etc.
- 3 A section is considered to have MISSING data if any of the IRI, Cracking %, Rutting or Faulting values are missing.
- 4 A section is considered to have INVALID data if the distress data is collected in 2017 or earlier (for Interstates) and 2016 or earlier (for non-Interstate NHS).

Beginning in 2017, the data source was changed from HERE to INRIX, causing significant shifts in results.

Please see page 4 for details on the PM3 measure methodologies and sources.

PM3 Methodologies and Data Sources

Methodology

Percent of Person Miles Traveled on the Interstate that are Reliable and Percent of Person Miles Traveled on the non-Interstate NHS that are Reliable

These measures are calculated by determining the Level of Travel Time Reliability (LOTTR) for each reporting segment, rounded to the nearest hundredth. LOTTR is defined as the ratio of the 80th percentile travel time to the 50th percentile travel time using travel time data in 15-minute intervals from the National Performance Monitoring Research Dataset (NPMRDS). The LOTTR metric is calculated for the following time periods:

- AM Peak 6:00am 10:00am on Monday Friday
- Mid-day 10:00am 4:00pm on Monday Friday
- PM Peak 4:00pm 8:00pm on Monday Friday
- Weekends 6:00am 8:00pm on Saturday and Sunday

Segments with LOTTR greater than or equal 1.50 during any of the above time periods are considered unreliable.

To obtain person miles traveled, vehicle miles traveled (VMT) for each segment are multiplied by the average vehicle occupancy for each type of vehicle on the roadway. For PM3 measures, all segments in Florida use the national average occupancy of 1.7 published by FHWA.

To calculate the percent of person miles traveled that are reliable on the Interstate, sum the number of person miles traveled on reliable segments and divide by the sum of total person miles traveled.

Truck Travel Time Reliability Index on the Interstate

The Truck Travel Time Reliability Index is also calculated using travel time data in 15-minute intervals from the National Performance Monitoring Research Dataset (NPMRDS). Average travel times are ranked for each segment of the Interstate for each of the following five time periods:

- AM Peak 6:00am 10:00am on Monday Friday
- Mid-day 10:00am 4:00pm on Monday Friday
- PM Peak 4:00pm 8:00pm on Monday Friday
- Weekend 6:00am 8:00pm on Saturday Sunday
- Overnight 8:00pm 6:00am on all days of the week

The Truck Travel Time Ratio (TTTR) is calculated for each segment of the Interstate during the time periods by dividing the 95th percentile truck travel time by the 50th percentile truck travel time. The maximum highest TTTR for each segment is then weighted by segment length. The sum of the weighted values are divided by the total Interstate length to calculate the Truck Travel Time Reliability Index.

NPMRDS – National Performance Management Research Data Set

AADT – Average Annual Daily Traffic

HPMS – Highway Performance Monitoring System

National Performance Management Research Data Set (NPMRDS)

NPMRDS is a national data set of average travel times on the National Highway System provided by FHWA for use in its performance measures and management activities. This data set is also available to DOTs and MPOs to use for their performance management activities.

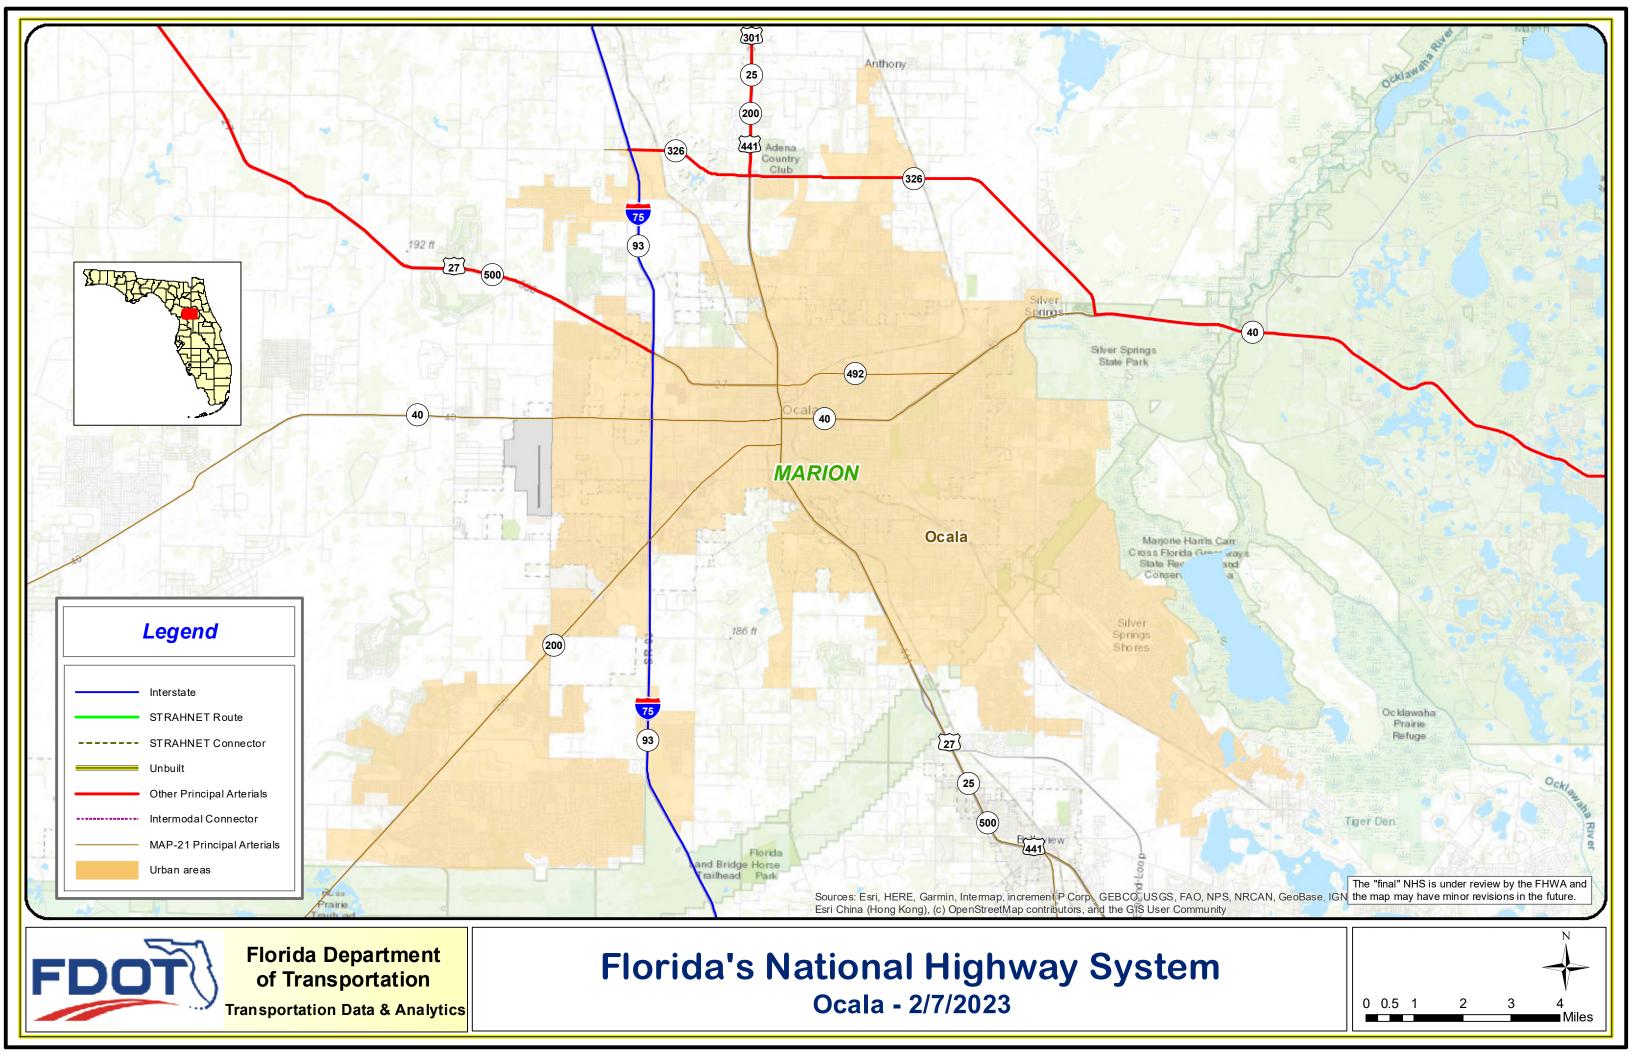

The first version (v1) of the NPMRDS data set was acquired by FHWA for 2014, 2015 and 2016 using travel time data from the private vendor HERE Technologies. The second version (v2) of the NPMRDS

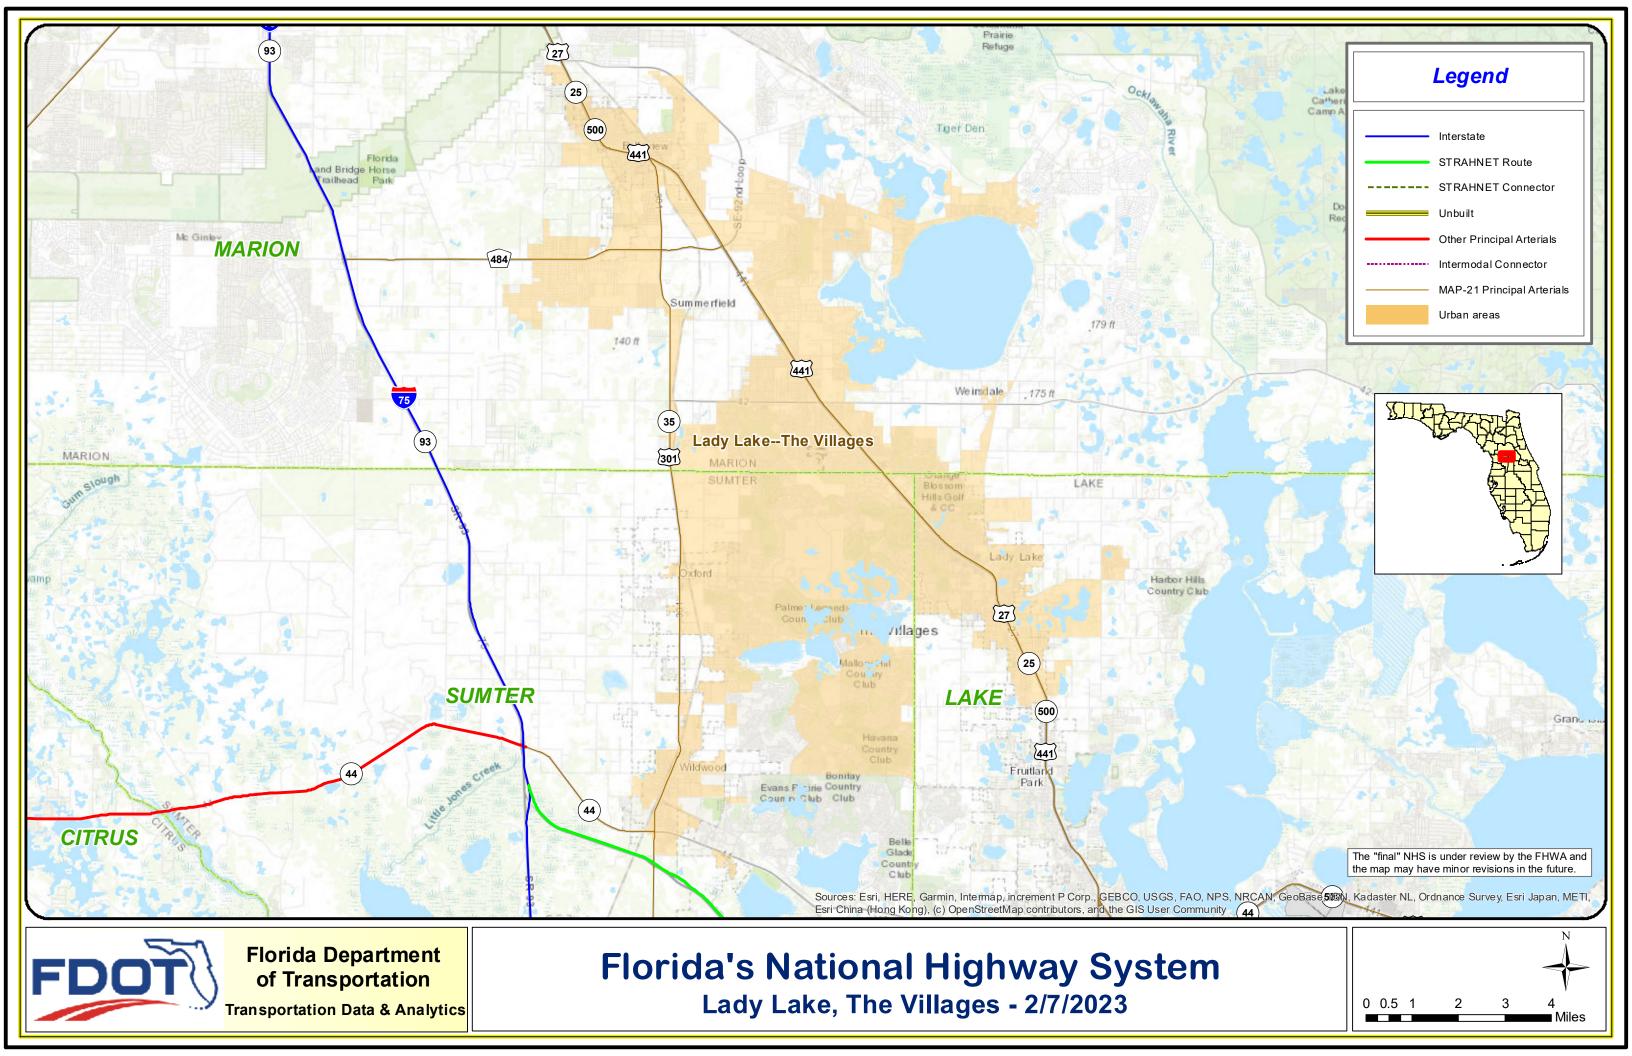

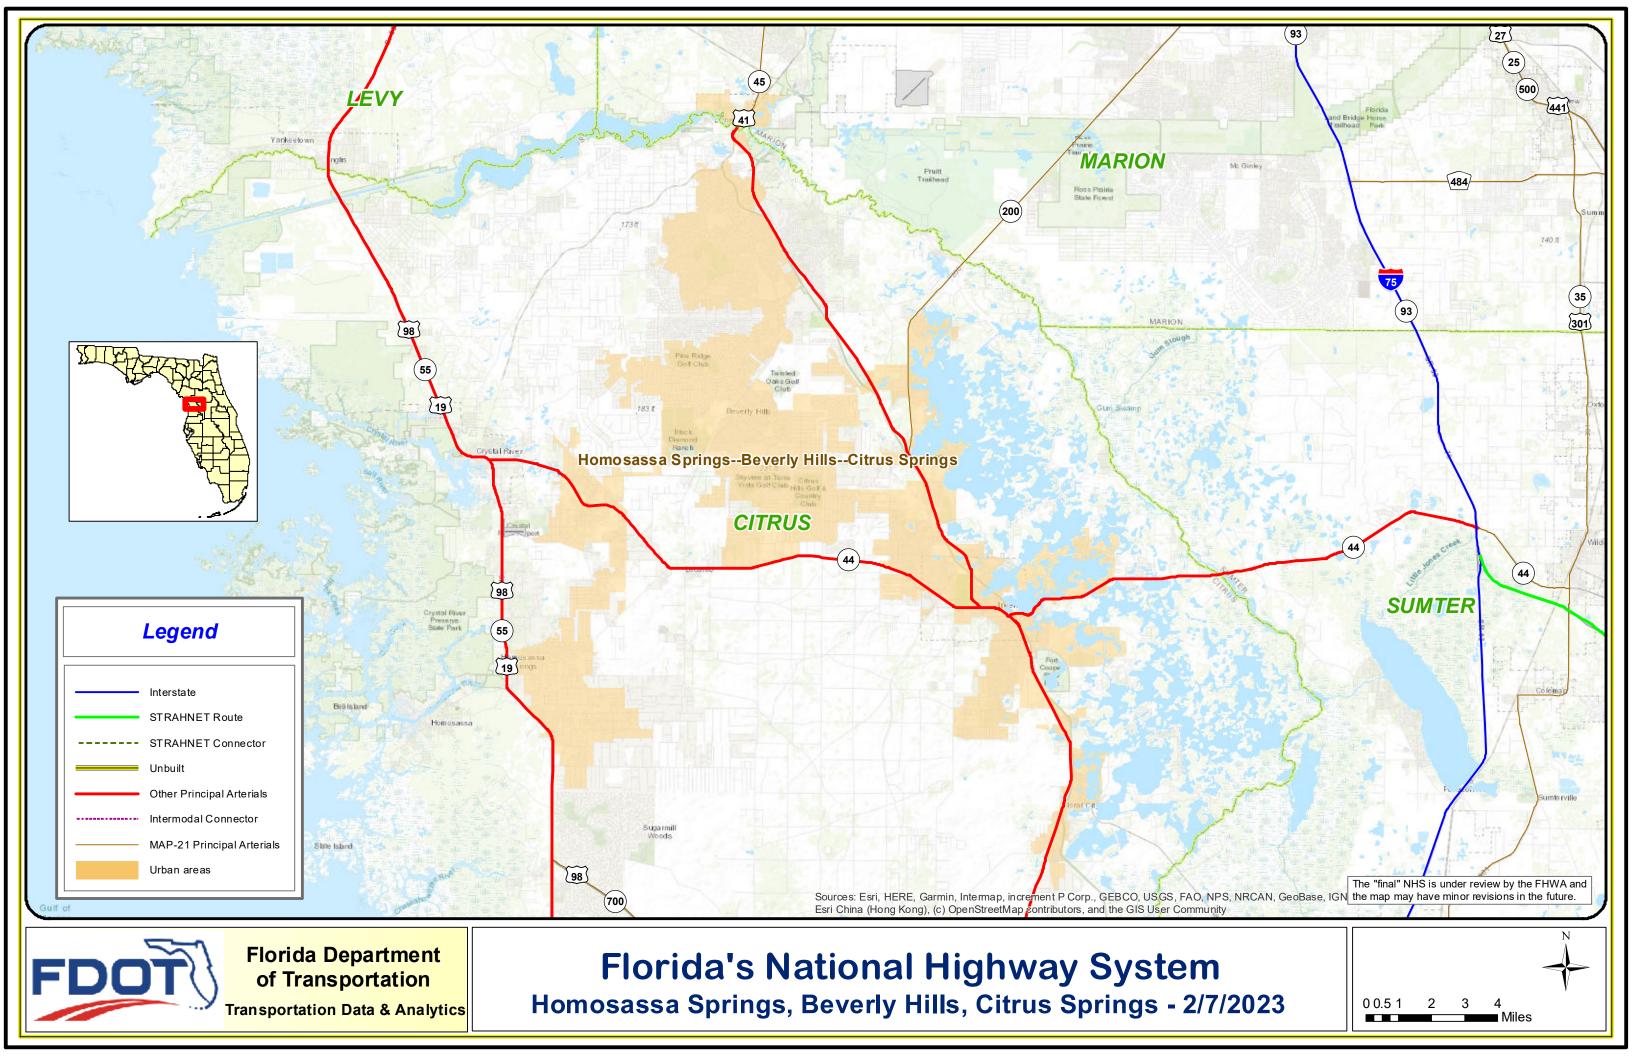

data set was acquired for 2017 onwards using travel time data from the private vendor INRIX, Inc. This change in vendors for acquiring the NPMRDS data set in 2017 directly impacts the results for performance measures.

In addition to the travel time data, the segment lengths for each roadway segment are also provided by NPMRDS.

Starting in 2017, FHWA includes the AADT reported in HPMS as part of the NPMRDS data sets. However, it should be noted that this causes a temporal mismatch as data submitted through HPMS in one year reflects data collected in the previous year (i.e. traffic counts submitted in 2016 are reflective of 2015 conditions).

PM2: Bridge and Pavement

Florida Department of Transportation Office of Policy Planning

Performance Management

February 2023

OVERVIEW

<u>The second Federal Highway Administration (FHWA) performance management rule</u> establishes measures to assess the condition of bridges and pavement on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report targets.*

PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in GOOD condition.
- » Percentage of pavements on the Interstate System in POOR condition.
- » Percentage of pavements on the non-Interstate NHS in GOOD condition.
- » Percentage of pavements on the non-Interstate NHS in POOR condition.

GOOD CONDITION

Suggests no major investment is needed.

BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) in GOOD condition.
- » Percentage of NHS bridges (by deck area) in POOR condition.

POOR CONDITION

Suggests major investment is needed.

TIMELINE

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

^{**} FHWA changed the due date from October 1, 2022 due to a technical issue with the reporting system.

EXISTING STATEWIDE CONDITIONS

NHS Bridges

Year	in Good Condition	in Poor Condition
2017	67.7%	1.2%
2018	66.6%	1.2%
2019	66.2%	1.2%
2020	65.5%	0.5%
2021 (Baseline)	61.3%	0.5%

Interstate Pavements

Year	in Good Condition	in Poor Condition			
2017	66.1%	0.0%			
2018	54.2%	0.6%			
2019	68.0%	0.5%			
2020	68.8%	0.6%			
2021 (Baseline)	70.5%	0.7%			

Non-Interstate NHS Pavements

Year	in Good Condition	in Poor Condition		
2017	44.0%	0.4%		
2018	39.9%	0.4%		
2019	41.0%	0.3%		
2020	41.0%	0.3%		
2021 (Baseline)	47.5%	1.1%		

Source: FDOT and FHWA.

STATEWIDE TARGETS

FDOT established 2023 and 2025 targets for NHS bridge and pavement on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

Performance Measure	2023 Target	2025 Target
Bridge		
% of NHS bridges (by deck area) in GOOD condition	50.0%	50.0%
% of NHS bridges (by deck area) in <i>POOR</i> condition	10.0%	10.0%
Pavement		
% of Interstate pavements in GOOD condition	60.0%	60.0%
% of Interstate pavements in POOR condition	5.0%	5.0%
% of non-Interstate NHS pavements in GOOD condition	40.0%	40.0%
% of non-Interstate NHS pavements in <i>POOR</i> condition	5.0%	5.0%

MPO TARGETS

MPOs must set 2025 targets by June 14, 2023 (within 180 days after FDOT set the statewide targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- » The actual condition/performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA's determination of significant progress toward the 2021 bridge and pavement targets is anticipated in March 2023.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

MINIMUM CONDITIONS

Every year, FHWA will assess if FDOT is meeting federal minimum condition standards for NHS bridges and Interstate pavements. If it is not, FDOT must obligate a specified percentage of available funds for maintenance of these facilities.

FDOT IS ON TRACK TO MEET MINIMUM CONDITION STANDARDS

- » Bridge: No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (Poor condition) for three consecutive years.
- » **Pavement:** No more than 5 percent of the Interstate System in *Poor* condition for most recent year.

FOR MORE INFORMATION PLEASE CONTACT

PM3: System Performance

Florida Department of Transportation Office of Policy Planning

Performance Management

February 2023

OVERVIEW

<u>The third Federal Highway Administration (FHWA) performance management rule</u> establishes measures to assess the reliability of passenger and truck freight travel on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their targets.*

PERFORMANCE MEASURES

PERFORMANCE MEASURE	REFERRED TO AS	WHAT IT MEASURES
Percent of person-miles traveled on the Interstate that are reliable	Interstate reliability	Compares longer travel times (80 th percentile) to a normal travel time (50 th percentile). Vehicle occupancy is factored in to determine the person-miles traveled on
Percent of person-miles traveled on the non-Interstate NHS that are reliable	Non-Interstate NHS reliability	segments considered reliable, and this is converted to a percent of total miles.
Truck travel time reliability index (Interstate)	Truck reliability	Compares longer travel times (95 th percentile) to the normal travel time for trucks. This is expressed as a ratio called the Truck Travel Time Reliability Index, or TTTR.

The PM3 rule also defines measures for assessing the CMAQ Program that apply only to states and MPOs that are in a designated air quality non attainment areas or maintenance areas. Florida does not have any applicable areas, therefore the CMAQ measures are not addressed in this fact sheet.

TIMELINE

SECOND Performance Period (January 1, 2022 to December 31, 2025) FDOT BY DECEMBER 16, 2022** BY JUNE 14, 2023 BY OCTOBER 1, 2024 MPOs FDOT establishes statewide targets MPOs establish 2025 targets FDOT reports statewide for 2023 and 2025 and reports (no later than 180 days after performance and performance and targets to FHWA. FDOT establishes targets). progress toward targets. 2022 2024 2025

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

^{**} FHWA changed the due date from October 1, 2022 due to a technical issue with the reporting system.

EXISTING STATEWIDE CONDITIONS

INTERSTATE RELIABILITY

Percent of person-miles traveled on the Interstate that are reliable

NON-INTERSTATE NHS RELIABILITY

Percent of person-miles traveled on the non-Interstate NHS that are reliable

TRUCK RELIABILITY

Truck travel time reliability index (Interstate)

WORSE	BETTER
2017	82.2%
2018	83.5%
2019	83.4%
2020	92.3%
2021	87.5 %
2017	84.0%
2018	86.3%
2019	87.0%
2020	93.5%
2021	92.9%
BETTER	WORSE
2017	1.43
2018	1.42
2019	1.45
2020	1.34
2021	1.38

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS).

STATEWIDE TARGETS

FDOT established the following 2023 and 2025 targets on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

	2023	2025
PERFORMANCE MEASURE	TARGET	TARGET
INTERSTATE RELIABILITY	75.0%	70.0%
NON-INTERSTATE NHS RELIABILITY	50.0%	50.0%
TRUCK RELIABILITY	1.75	2.00

MPO TARGETS

MPOs must set 2025 targets by June 14, 2023 (within 180 days after FDOT set the statewide targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- The actual performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA's determination of significant progress toward the 2021 interstate reliability and truck reliability targets is anticipated in March 2023. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight congestion analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

RE: Strategic Intermodal System (SIS) Board Comment Letter

Summary

Every five years, the Florida Department of Transportation (FDOT) District 5 coordinates with Central Office to complete a series of Strategic Intermodal System (SIS) planning documents which include three tiers or lists of future capacity improvement projects. The SIS lists contain projects currently programmed (FY 2024-2028), planned to be funded (FY 2029-2033), and considered financially feasible based on projected State revenues (FY 2033-2050).

On January 27, the FDOT District 5 submitted a set of draft SIS project lists to the TPO and requested comments as soon as possible. A follow-up virtual overview meeting was requested with the TPO Director and TPO Chair on February 8. FDOT District 5 staff explained they required to submit comments to Central Office no later than February 28.

Based on the limited timeframe for reviewing and submitting comments to District 5, TPO Chairman Curry requested a meeting with staff representatives of the Cities of Belleview, Dunnellon, Ocala and Marion County to coordinate and submit one set of comments. A coordination meeting was held on February 15, 2023 at the Marion County Office of County Engineer and included: Rob Balmes, TPO; Elton Holland, Marion County; Sean Lanier, City of Ocala; Bob Titterington, City of Belleview; Troy Slattery, City of Dunnellon; Chad Ward, City of Dunnellon.

Attached to this memo is a letter on behalf of the TPO from Chairman Curry to FDOT District 5 Secretary John Tyler. The content of the letter was developed at the February 15 local coordination meeting, and outlines specific comments from the TPO and local government partners regarding the SIS projects lists. The TPO Board ratified the letter at the TPO Board meeting on February 28, 2023.

Also attached is an overview presentation of SIS projects in Marion County shared by FDOT staff at the February 8 virtual meeting.

Attachment(s)

- TPO SIS Comment Letter to FDOT
- SIS draft Project List Presentation, Marion County

If you have any questions, please contact me at: 438-2631.

February 28, 2023

Secretary John E. Tyler, P.E. Florida Department of Transportation 719 South Woodland Boulevard DeLand, FL 32720

RE: Strategic Intermodal System (SIS) Plan Comments

Secretary Tyler,

On behalf of the Ocala/Marion County Transportation Planning Organization (TPO), thank you for the opportunity to offer comments regarding the Draft Strategic Intermodal System (SIS) Plans in Marion County. We recognize the vitally important need to plan for improvements to our transportation system to meet the growing opportunities and challenges in the State of Florida.

We offer the following comments to the draft First Five (2024-2028), draft Second Five (2029-2033) and draft Long Range (2033-2050) plans. These comments are reflective of the priorities most important to the TPO and our local government partners.

Like many areas of Central Florida, the Ocala/Marion County community is experiencing significant growth and development. As part of our approach to proactively plan for the future, we have made substantial investments in building a local transportation network that provides for parallel relief to the I-75 corridor and better connects our citizens throughout the community. For example, roadway capacity and extension projects are completed or underway to improve north-south connectivity to the SW 49th Avenue, SW/NW 43rd and 44th Avenue and NW/SW 80th Avenue corridors. Additionally, major development activities in the County are providing new jobs, housing and unique one-of-a-kind travel destinations. People are moving to Marion County every day, and visitors are coming from around the world.

SIS First Five (2024-2028)

The new I-75 interchange project at NW 49th Street is the top priority of the TPO and exemplifies a great partnership between the District and Marion County. The TPO requests this project stays on schedule and fully funded for construction in Fiscal Year 2025.

The existing interchanges at CR 484, SR 200, SR 40, U.S. 27, SR 326 and CR 318 are vitally important access points and gateways to our community. As part of the ongoing I-75 PD&E/Master Planning and Moving Florida Forward Legislation, we recommend the Department review the interchanges to ensure they are modernized and support the current and future growth of our community.

For example, operational improvements at the SR 40 interchange are partly funded in the Work Program. Completing this project will support access to communities and destinations both east and west of I-75. Interchanges such as CR 318 are antiquated and in need of safety and operational improvements.

SIS Second Five (2029-2033)

The investment in right-of-way and community outreach for the SR 40 projects in the First Five is a positive step towards advancing the future widening of all three segments of the corridor in Marion County. The SR 40 segment from the end of four lanes to CR 314 has been deferred multiple times in the past. The TPO requests this project remains on schedule for construction by 2030. The TPO appreciates an emphasis on design work for the interchanges at SR 326 and SR 200 as part of future I-75 ultimate build-out planning. As mentioned, the existing interchanges at CR 484, SR 40, U.S. 27 and CR 318 also require design work to support the projected growth of our community. This includes future six-lane widening plans of CR 484, east and west of the interchange.

SIS Long Range Cost Feasible (2033-2050)

The TPO is supportive of a comprehensive approach for the build-out of I-75 beyond the Moving Florida Forward Plan. I-75 is one of the most critical transportation corridors in Florida. The projects currently identified in this time-band address long-term needs, including the addition of a future interchange at SW 20th Street. As our community grows, this interchange will serve as an important access point to major employment areas and the Ocala International Airport. The TPO will continue working closely with the District, offering feedback and insights regarding project needs in Marion County.

We recommend the Department moves the two remaining segments of the SR 40 projects forward to the SIS Second Five to coincide with the end of four lanes segment. Modernizing and widening the entire SR 40 corridor in Marion County will greatly support east-west mobility and improve safety for both motorists and pedestrians.

The TPO highly values the great working relationship with the Florida Department of Transportation. We appreciate the opportunity to offer feedback on the Strategic Intermodal System planning process, and look forward to working with the leadership and staff of the Department for many years to come.

Sincerely,

Commissioner Vaig Curry, Chair

Ocala/Marion County Transportation Planning Organization

CONSTRUCTION YEAR

2025

PROJECT DESCRIPTION

This project involves adding auxiliary lanes to I-75 in each direction between S.R. 44 and S.R. 326. It will include interchange modifications and right-of-way acquisition for future widening.

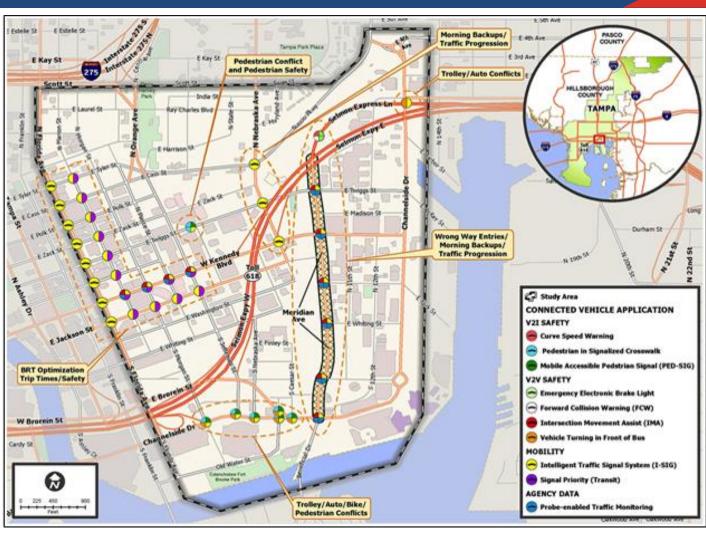

01/31/2023
Subject to change.
Listed alphabetically by county.

Off SIS

Capacity Needs Are Changing

Project Types

Eligible projects include any projects **supporting SIS facilities** that involve at least two of the following elements and meet evaluation criteria requirements.

ELIGIBLE PROJECTS

- Highway widening
- Fixed guideway transit
- TSMO/ITS
- ACES
- Bicycle/pedestrian facility
- Intersection improvements
- Freight (e.g., truck parking)
- Safety improvements
- Resilience improvements

INELIGIBLE PROJECTS

• Standalone modal projects (examples include aviation, seaports, spaceports, freight rail, etc.)

Additional ineligible projects—see <u>SIS Funding</u> <u>Eligibility Guidance</u>

Off-SIS Highway

SIS will only fund the construction phase of off-SIS projects.

Eligible Facilities

Projects must be on an eligible facility.
The selected eligibility criteria align with
SIS Corridor designation.

- Arterial or higher functional class, and
- Existing minimum 6,000 AADT or minimum 1,000 AADTT

Evaluation Criteria

Projects must demonstrate moving people and goods and a benefit to the SIS:

- Increase person or truck throughput on the off-SIS facility by a minimum of 6%, and
- Reduce trips on at least one adjacent
 SIS facility by a minimum of 5% or
 5,000 vehicular trips

Thanks!

Alice Giuliani

RE: MPOAC Freight Priorities, 2023 Update and Discussion

Summary

The Florida Metropolitan Planning Organization Advisory Council (MPOAC) Freight and Rail Committee works annually with the TPO/MPO's to develop a freight priority project list. In the past, this process has focused exclusively on submission of projects by TPO/MPO's for projects located on the National Highway Freight Network (NHFN). For Marion County, this includes: I-75 (and interchanges); US 27 from I-75 to US 301; and US 301 from SR 200 to Alachua County.

In 2022, the MPOAC Freight and Rail Committee expanded the process to include projects that support freight mobility on the State Highway System (On-System) and Off-System (Local). An emphasis was also placed on truck parking projects. Overall, projects must already be programmed or underway through at least PD&E and are ready to receive federal National Highway Freight Program funding for construction. Attached is the FDOT two-page Call for Projects to further explain the program. The call for projects expansion has taken place with an assumption the freight network in Florida will be extended in the future to potentially include other corridors on the state and local networks. Discussions are taking place at the national state levels tied to the Bipartisan Infrastructure Law (BIL), calling for a modest increase to the NHFN.

However, as the National Highway Freight Program stands today, funding to projects by FDOT have been invested only on the NHFN. Attached to this memo is a screenshot of the projects funded in 2022 and 2021.

Attachment(s)

- FDOT National Highway Freight Program Call for Projects Summary
- Freight Priorities Program Funded Projects in 2022, 2021
- MPOAC Freight Priorities Program Instructions Overview

Discussion at the TAC will be requested to explore any project opportunities for 2023. Last year, the TPO submitted one project: I-75@SR 40 from SW 40th Avenue to SW 27th Avenue (FDOT FM: 433652-1). The project did not receive NHFP funding. However, the intersection of SR 40 at SW 27th Avenue was funded separately by FDOT in the new Tentative Work Program.

Submission of new applications must be completed by March 31 through the MPOAC Freight Priorities Program (FPP) portal.

If you have any questions, please contact me at: 438-2631.

REQUIREMENTS FOR PROJECT SUBMITTAL

The FHWA requirement is that the project must be on the NHFN, however, the NHFN is in the process of being updated, so feel free to propose meritorious freight projects not currently on the NHFN, that influence the PHFS, for consideration to be included on the network.

The project must be an eligible project type.

NHFP funds through FY2026 have been allocated. The primary funding year for this Call for Projects is FY2027.

Click here for the network map!

── PREFERENCES FOR PROJECT SUBMITTAL

The funding request

DOES NOT EXCEED

\$20 million

The project should be

READY FOR IMPLEMENTATION

in the fiscal year for which funding was received

When proposing solutions, the project

SHOULD CONSIDER

safety & mobility issues

NATIONAL HIGHWAY FREIGHT PROGRAM

- ELIGIBLE PROJECT TYPES

All project types below are eligible.

FMO Priorities.

These projects will likely receive higher scores on the qualitative side of the updated FMTP prioritization process based on the latest FMTP objectives.

Development phase and preconstruction activities.

Construction, reconstruction, rehabilitation, and operational improvements directly relating to improving system performance.

Intelligent transportation systems and other technology to improve the flow of freight.

- Efforts to reduce the environmental impacts of freight movement.
- Environmental and community 5. mitigation for freight movement.

Railway-highway grade separation.

Geometric improvements to interchanges and ramps.

Truck-only lanes.

- Climbing and runaway truck lanes.
- **10.** Adding or widening of shoulders.

Truck parking facilities eligible for 11. funding under section 1401 (Jason's Law) of MAP-21.

Real-time traffic, truck parking, **12.** roadway condition, and multimodal transportation information systems.

- Electronic screening and 13. credentialing systems for vehicles.
- Traffic signal optimization, including synchronized and adaptive signals.
- Work zone management and 15. information systems.
- **16.** Highway ramp metering.
- Electronic cargo and border security **17.** technologies that improve truck freight movement.

Intelligent transportation systems that would increase truck freight efficiencies inside the boundaries of intermodal facilities.

Additional road capacity to address highway freight bottlenecks.

- Physical separation of passenger 20. vehicles from commercial motor freight.
- Enhancement of the resiliency of **21.** critical highway infrastructure to improve the flow of freight.

A highway or bridge project to **22.** improve the flow of freight on the NHFN.

Any other surface transportation project to improve the flow of freight into and out of an eligible intermodal freight facility.

- Diesel retrofit or alternative fuel projects.
- Conducting analyses and data collection related to the NHFP, and 25. developing and updating freight performance targets.

*Newly fi	inded for 2022 with NHEP fun	ıds			Total:	\$59.844.752	\$58.376.859

^{*}Newly funded for 2022 with NHFP funds

- One additional FPP project funded with NHFP funding, for total of 7 projects from the Project List
- Similar overall funding amount to 2021
- Majority of available NHFP funding going towards FPP projects

	2021	2022
Florida NHFP Apportionment:	\$70,949,854	\$65,707,643
Less 2% Planning Set-Aside:	\$1,418,997	\$1,314,153
NHFP Funding Available:	\$69,530,857	\$64,393,490
Percentage Towards FPP Projects:	86%	91%

2023 Freight Priorities Program (FPP) Overview

1. Changes to the 2023 Freight Priorities Program.

- No significant changes to the 2023 FPP cycle from last year.
- > The expanded project eligibility implemented in 2022 will remain in place for the 2023 cycle.
- MPOs will be able to submit up to six total projects to the FPP. These will be limited to three State Highway System (SHS) roadway projects and three non-SHS roadway projects.

2. Identity up to three SHS roadway projects that meet the defined criteria.

- Roadway projects should fall on the State Highway System.
- Projects must be post-PD&E or have a PD&E funded or underway.
- > Projects should be unfunded, partially funded, or able to accept accelerated funding.

3. Identify up to three non-SHS roadway projects that meet the defined criteria.

- Projects should be a non-SHS roadway, Intermodal Logistical Center (ILC) access, truck parking, or rail project.
- Projects must be post-PD&E or have a PD&E funded or underway if a PD&E is required for the project.
- Projects should be able to pass the project readiness screening questions and identify funding programs they are eligible for.

4. Complete the online project application starting on March 2nd.

- ➤ Two 120-minute Zoom training webinars will be held on February 22nd (10:00 a.m. to 12:00 p.m.) and March 1st (2:00 p.m. to 4:00 p.m.). Both sessions will cover the same material, and participants will have the option to attend whichever session is more convenient.
- ➤ On March 2nd, each planning agency will be given login information so they can access their accounts and begin to submit project applications at www.my-fpp-portal.org.
- > The Committee's consultant team will then review submissions and reach out if additional information or clarifications are needed.
- The consultant team will be available for support and to answer any questions. You can contact Tom Brandenstein at tbrandenstein@whitehousegroup.com or 754-701-1608 and Erin Lasala at elasala@camsys.com or 561-302-4822.

5. Collaborate with your partner District Freight Coordinators to complete the project application.

MPO staff should work with their District Freight Coordinators (DFC) to know which projects they are planning on selecting as a District Priority Project and to ensure FDOT is aware of any additional projects the MPO may want them to support.

- Your DFC will likely know which projects within your region align well with FDOT's Work Program scoring criteria, the Freight Mobility and Trade Plan <u>prioritization</u> <u>process</u>, and the criteria of other funding programs (e.g., NHFP, SIS).
- It benefits each MPO to know what projects their DFC has in mind for their District Priority Project list, because you may have a mutual project that allows you to work together to complete the project application.
- o If your DFC does not have your desired project(s) on their District Priority Project list, fill out a project application anyways and work with your DFC to get project-specific information for your submissions. Additionally, provide them with the necessary information (e.g., the project is new and has been identified in a new regional freight plan) to advocate for your projects when going after this and other funding opportunities (e.g., INFRA, RAISE, NHFP, SIS, district discretionary funds).
- A workflow checklist to help work with your DFCs will be provided to you during/after training sessions.
- 6. Submit the completed online applications by March 31st and respond to any follow-up questions from the consultant team and your DFC.
 - ➤ The completed online applications should be submitted by March 31st.
 - Follow-up questions may be necessary after projects are submitted. Questions will focus on confirming eligibility, details from your project application, and documenting that the project(s) is an MPO freight priority.

7. The finalized list will be prepared and presented to the MPOAC for approval:

- All vetted projects will be summarized into a final project list. The lists will feature MPO freight priority projects, presented with available backup, for discussion and approval. The discussion will focus on alignment with key partnerships throughout the project selection process and whether the projects benefit goods movement in Florida.
 - MPOAC Freight Committee (April 27th)
 - MPOAC Staff Directors (April 27th)
 - MPOAC Governing Board (April 27th)

8. The approved list will be transmitted to FDOT for consideration.

- ➤ The approved FPP Project List will be transmitted to: the FDOT Secretary, FDOT Office of Freight Logistics and Passenger Operations, FDOT Office of Policy Planning, FDOT Systems Planning Office, FHWA, and the DFCs.
- Projects will be identified by network designation (e.g., NHFN, SIS, Regional Freight Network) and FDOT districts to facilitate eligibility for available funding programs.
- 9. The approved lists should be used to promote MPO freight priorities nationwide.
 - Each MPO should use the completed list to advocate for their submitted (and unsubmitted) projects.
 - > Share the completed list with your regional, state, and national partners and collaborate with them to promote freight in Florida.

Instructions: Completing the Online Project Application

All Projects	SHS Only
Questions in boxes shaded blue will apply to all project submissions.	Questions in boxes shaded green will only apply to SHS roadway project submissions.

General Information		
Question	Desired Response	
1a. Project Name:	Enter the project name as it appears in your approved plans (TIP, Work Program).	
2a. Facility Name:	Enter the roadway/facility name (identify the state route if applicable).	
3a. Project Category:	Select the appropriate project category from the dropdown list. • State Highway System Roadway • Non-SHS Roadway • Intermodal Logistics Center Access • Truck Parking • SIS Rail • Non-SIS Rail This choice will direct you to the correct project information questions depending on your selection.	
4a. Are any other MPOs involved in the project?	Select Yes/No. If Yes, select the other participating agencies.	
5a. Which counties are involved in the project?	Enter all counties that are involved in the project.	
6a. Are there any private partners involved in the project?	Select Yes/No. If Yes, enter all private partners that are involved in the project.	
7a. Is this a District Freight Coordinator Priority Project?	Select Yes/No.	
Click Continue to move to the next set of questions.		

Project Information		
Question	Desired Response	
1s/1n. Project Type:	Select the project type that best describes the project. Capacity Expansion (e.g., add lanes) New Connection (e.g., create new roadway) Reconstruction (e.g., rebuild or replace existing infrastructure) Management and Operation (e.g., ITS installments, upgrade signals, TSMO treatments) Maintenance (e.g., resurface roadways, repair facilities) Other (Select if any other type may better define the project and specify the type)	
2s/2n. Provide a brief description of the project:	Provide a short description of the project that clearly indicates the primary purpose of the project (e.g., widening roadway from 4 to 6 lanes).	
3s/3n. Describe the project rationale:	Provide a detailed statement that explains how the project advances goods movement in Florida (e.g., Additional road capacity to address highway freight bottlenecks). Ask your District Freight Coordinator what details would be most helpful and see National Highway Freight Program eligible activities and BIL updates. Also, SIS funding eligibility requirements (pg 15) for more guidance.	
4s. What is the FM Number(s)?	If applicable, enter the project's Financial Management number from FDOT's Work Program. If the project is associated with more than one FM number, provide all relevant FM numbers.	
5s. What is the FDOT Roadway ID(s)?	Enter facility Roadway ID(s) from FDOT's GIS database.	
6s. What is the direction of the project?	Indicate the roadway direction impacted by the project (i.e., eastbound, southbound, northbound, westbound, or both directions).	
7s/4n. What is the extent of the project? (Milepost, grade crossing or area)	Enter the facility's distance values of the project starting (From) and ending (To) points. If the project is an area give a brief location description.	

8s. What is the extent of the project? (Intersected Roadway)	Enter the names of the intersected roadways at the project starting (From) and ending (To) points. Skip "To" if the project is an interchange/intersection.	
9s/5n. What is the existing activity at the project location? (e.g truck traffic, number of trains, truck parking capacity, site acreage)	Provide truck AADT and truck traffic percentage on project roadways. Provide other related activity measures for the other project types.	
6n. What are the costs of the project? (\$Millions)	Enter the total project cost and the unfunded project costs in the full dollar amount.	
10s/7n. Define the requested action:	Define the requested action (e.g., allocate new funding to an unfunded project or partially funded project; advance funding to an earlier year in the work program). Note, the project must be able to be funded and/or advanced in the requested year. This text should clearly indicate the dollar amount and the year of your funding request .	
11s/8n. What funding programs is the project eligible for?	List all of the funding programs that the project is eligible for.	
12s/9n. Upload a map showing the location of the project:	Upload any type of map file or image showing the exact location (i.e., coordinates) and geographic extent of the project. If you cannot upload, please contact Tom Brandenstein at thorse-group.com .	
13s/10n. Select PD&E status and please provide reference documentation and accompanying information:	Select the status of the PD&E. Non-SHS roadway projects will first need to indicate if the project requires a PD&E. please identify the Work Program version (e.g., a previous 5-year work program) that contains the PD&E phase, provide the year it began, funding amount, and status/date completed. Please include the URL, page number, and project reference number.	
14s. Project Schedule and Funding Status in the FDOT 5-Year Work Program:	Work with your District Freight Coordinator to get the latest information from the <u>FDOT Work Program</u> (e.g., funding by year for PD&E, PE, ROW, Construction, CEI, Environmental). Please indicate the status (completed, ongoing, funded, unfunded, or N/A) and reference(s).	
Click Continue to move to the next set of questions.		

Screening Questions		
Question	Desired Response	
1c. Is the project identified as a freight priority by the MPO and its partners (e.g., municipalities, seaports, airports, railroads)?	Select Yes/No. If yes, provide how this project was identified to be a priority and which entity made the determination.	
2c. Identify the plan(s) (e.g., freight plan, LRTP, TIP, CIP, master plan) documenting the project and provide specific reference(s):	Identify the plan(s) documenting the project and provide the related link(s), page number(s), and project reference number(s).	
3c. Identify project matching fund(s) sources (e.g., local)	Identify related funding source(s) and indicate the amount(s).	
4c. Is the project on a priority freight network?	Select Yes/No. If yes, identify the network(s) and provide documentation of the designation (e.g., URLs, maps, tables).	
5c. Please identify the Florida Transportation Plan (FTP) goals supported by the project:	Check all <u>goals addressed</u> by the project and provide a brief statement explaining how the project supports the FTP.	
6c. Provide a brief statement explaining how the project supports the FTP:	Briefly address how the project will fulfill each of the FTP goals selected in question 5c.	
Click Submit to finish the project application.

JARED W. PERDUE, P.E. SECRETARY

Ocala/Marion County Project Status Update as of February 28, 2023

The following is a brief status update on major FDOT road construction projects in Marion County as of the February cutoff. The next cutoff date is March 31, 2023. Information is also available on www.cflroads.com. For questions, please contact Anna Taylor at 386-943-5499 or via email at anna.taylor@dot.state.fl.us.

MARION COUNTY

Upcoming Projects:

U.S. 441 and S.R. 40 Intersection Improvements (FDOT Financial Information Numbers 433661-1)

• Contract: T5747

Contractor: CW Roberts Contracting Inc.

• Estimated Start: Early 2023

• Estimated Completion: Late 2023

• Description: The project includes milling and resurfacing, median modifications, turn lane modifications, curb & gutter, drainage improvements, sidewalk, ADA improvements, traffic signal upgrades, signing and pavement markings, and utility relocations.

S.R.40 and S.R. 492 Intersection Improvements (FDOT Financial Information Number 445800-1)

• Contract: T5747

Contractor CW Roberts Contracting Inc.

• Estimated Start: Early 2023

Estimated Completion: Late 2023

Construction Cost: \$6.7 million

 Description: This project includes replacing the existing two free flow right turn lanes with a single right turn lane, milling and resurfacing, upgrade the existing signals, adding a new 7-ft buffered bicycle lane, crosswalks, utility relocations, and lighting.

S.E. Abshier Blvd from S.E. Haines Rd (FDOT Financial Information Number 445701-1)

Contract: T5768

Contractor: CW Roberts

Construction Cost: \$1.8 million
Estimated Start: Spring 2023
Estimated Completion: Fall 2023

Improve Safety, Enhance Mobility, Inspire Innovation www.fdot.gov

 Description: This project will construct improvements at the intersection of SE Abshier Boulevard (U.S. 27/U.S. 301/U.S. 441) and SE Hames Road to enhance safety and operations for drivers, pedestrians and bicyclists. The project proposes to create left turn lanes in each direction on SE Abshier Boulevard west of Hames Road with a raised concrete traffic separator in the middle.

U.S. 41 N S Williams St. from Brittan Alexander Bridge to River Rd. (FDOT Financial Information Number 445687-1)

• Contract: T5755

Contractor: Ranger Construction
Construction Cost: \$1.1 Million
Estimated Start: March 6, 2023
Estimated Completion: Fall 2023

Description: The purpose of the project is to signalize the pedestrian crossing on U.S. 41
(S. Williams Street) between Brittan Alexander Bridge and River Road, near Dunnellon
City Hall. This will enhance pedestrian safety by installing a Midblock Pedestrian Signal
(MPS) to replace the existing pedestrian crossing at this location.

Current Projects:

S.R. 40/Silver Spring Blvd. from N.W. 27TH Ave. TO S.W. 7th Ave. Sidewalk Improvements (FDOT Financial Information Number 437596-2)

• Contract: T5765

Contractor: Mejia International GroupConstruction Cost: \$780 thousand

• Estimated Start: Early 2023

• Estimated Completion: Fall 2024

- Description: The intent of this project is to remove the existing 4.5-foot concrete path on the north side of the road and replace it with an 8- foot concrete sidewalk. The new 8foot sidewalk will meet FDOT and ADA requirements.
- Update: Contractor started work on February 13. Temporary pedestrian crossings and temporary signals were installed. Motorists should expect nighttime lane closures within the project limits.

C.R. 484 and I-75 Interchange Roadway Improvements (FDOT Financial Information Numbers 443170-1 & 433651-1)

• Contract: T5597

• Contractor: Anderson Columbia Co., Inc.

• Estimated Start: Early 2023

Estimated Completion: Summer 2024

- The Florida Department of Transportation (FDOT) will be improving safety and traffic flow on County Road (C.R.) 484 from west of S.W. 20th Avenue to east of County Road (C.R.) 475A and will also be resurfacing I-75 from the Sumter County line to State Road (S.R.) 200 in Marion County.
- Update: Paving and signage operations are underway. Motorists should continue to expect lane closures and traffic shifts as needed within the project limits.
- There was an accident involving a semi-truck that crashed into the I-75 overpass. No one was hurt.

Mill and resurface U.S. 441 from County Road 25A in Ocala north 8.8 miles to the U.S. 441/301 split. (FDOT Financial Information Number 441136-1)

• Contract: T5705

• Contractor: Anderson Columbia Inc.

• Construction cost: \$15.4 million

Start: Fall 2021

Estimated Completion: Spring 2023

- Update: Controlling items of work for this project include widening, signalization, and pavement friction operations. Contractor has completed mainline resurfacing from SR-326 to the North end (US-301/US-441). Contractors are working on median turn lanes, drainage improvements, and curb & gutter operations.
- Structural asphalt work has been completed. Subsoil excavation areas are almost complete.

Resurface U.S. 441 from State Road 35 (SE Baseline Road) to State Road 200 (FDOT Financial Information Number 439238-1)

Contract: T5675

• Contractor: C.W. Roberts Contracting, Inc.

• Construction cost: \$15.7 million

Start: Late 2021

• Estimated Completion: Spring 2023

• Update: Contractor has been working on paving, signalization, and signage operations. Motorists should expect nighttime lane closures within the project limits.

S.R 93 (I-75) Mainline Wildwood Weigh Station Improvements (FDOT Financial Information Number 445321-1)

Contract: T9028

Contractor: Traffic Management Solutions

Construction Cost: \$4.5 million

• Start: Fall 2022

• Estimated Completion: Fall 2023

Contractors are installing pull boxes and conduit

TO: Committee Members

RE: TPO 101 Board Workshop

Summary

TPO Board Chair, Commissioner Craig Curry, has led the organization of a TPO 101 Workshop. The Workshop will be held on March 28 at 1:30 pm, prior to the regularly scheduled TPO Board Meeting at 4:00 pm. The Workshop will be open to the public and held at the Marion County Commission Auditorium on the McPherson Government Campus.

The focus of the workshop will be on the form and function of Metropolitan Planning Organizations, including core work products and responsibilities. A featured presenter at the workshop will be Mark Reichert, Executive Director of the Metropolitan Planning Organization Advisory Council (MPOAC). TPO staff will share summary presentations related to governance, committees, core documents and public participation.

All TAC and CAC members are welcome to attend. An agenda will be published seven (7) days in advance of the meeting to the TPO website on March 21.

If you have any questions, please contact me at: 438-2631.
