

<u>Joint</u> <u>Citizens Advisory Committee (CAC) and</u> <u>Technical Advisory Committee (TAC) Meeting</u> Marion County – Library Headquarters, Meeting Room C 2720 E. Silver Springs Blvd., Ocala, FL 34470

May 9, 2023 1:00 PM

AGENDA

- 1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE
- 2. CAC ROLL CALL
- 3. TAC ROLL CALL
- 4. PROOF OF PUBLICATION
- 5. CAC CONSENT AGENDA
 - A. February 14, 2023 Meeting Minutes
 - B. April 11, 2023 Meeting Minutes
- 6. TAC CONSENT AGENDA A. <u>April 11, 2023 Meeting Minutes</u>
- 7. CAC AND TAC ACTION ITEMS
 - A. Draft 2023 List of Priority Projects (LOPP) A presentation by staff of the draft project lists
 - **B.** Draft 2023 List of Regional Priorities Staff is requesting discussion and approval of regional trail and roadway priorities.
- 8. PRESENTATION ITEMS
 - A. Draft Fiscal Years (FY) 2024 to 2028 Transportation Improvement Program (TIP) *A presentation by staff on the draft FY 2024 to FY 2028 TIP*
 - **B.** Draft 2050 Long Range Transportation Plan (LRTP) Scope of Work *A discussion by staff on the draft LRTP Scope of Work*
- 9. COMMENTS BY FDOT
 - A. Construction Report

10. COMMENTS BY TPO STAFF

11. COMMENTS BY CAC MEMBERS

12. COMMENTS BY TAC MEMBERS

13. PUBLIC COMMENT (Limited to 2 minutes)

14. ADJOURNMENT

All meetings are open to the public, the TPO does not discriminate on the basis of race, color, national origin, sex, age, religion, disability and family status. Anyone requiring special assistance under the Americans with Disabilities Act (ADA), or requiring language assistance (free of charge) should contact Liz Mitchell, Title VI/Nondiscrimination Coordinator at (352) 438-2634 or liz.mitchell@marioncountyfl.org forty-eight (48) hours in advance, so proper accommodations can be made.

Pursuant to Chapter 286.0105, Florida Statutes, please be advised that if any person wishes to appeal any decision made by the Board with respect to any matter considered at the above meeting, they will need a record of the proceedings, and that, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

The next regular meetings of the Citizens Advisory Committee and Technical Advisory Committee will be held on June 13, 2023

Citizens Advisory Committee (CAC) Meeting

Marion County – Library Headquarters, Meeting Room B 2720 E. Silver Springs Blvd., Ocala, FL 34470 1:00 PM

MINUTES

Members Present:

Matt Fabian (arrived at 1:02pm) Brandon Cave Michelle Shearer Richard Howard Richard McGinley Steve Rudnianyn Travis Magamoll (arrived at 1:13pm)

Members Not Present:

Davis Dinkins Suzanne Mangram

Others Present:

Rob Balmes Elizabeth Mitchell Shakayla Irby Anna Taylor, FDOT Jonathan (Jon) Scarfe, FDOT Doug Shearer Other member of public not signed in.

Item 1. Call to Order and Roll Call

Chairwoman Michelle Shearer called the meeting to order at 1:00pm and Secretary Shakayla Irby called the roll. There was a quorum present.

Item 2. Proof of Publication

Secretary Shakayla Irby stated the meeting had been published online to the TPO's website, as well as the City of Ocala, Belleview, Marion County, and Dunnellon's websites on February 7, 2023. The meeting had also been published to the TPOs Facebook and Twitter pages.

Item 3. Consent Agenda

Mr. McGinley made a motion to approve the Consent Agenda. Mr. Howard seconded, and the motion passed unanimously.

Item 4a. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Amendment #4

Mr. Balmes presented to the committee and said that per the request of the Florida Department of Transportation (FDOT), one project had been proposed to be amended in the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP).

The project (FM#452364-2) would be receiving federal funding to implement the National Electric Vehicle Infrastructure Program (NEVI). The project would consist of deployment of direct current fast charges (DCFCS) along the I-75 corridor in Marion County.

FM# 452364-2: I-75 (SR 93) "GAP" 12 – EV DCFCS (Phase 1)

- Funding: \$1,100,000
- Federal: \$1,100,000
- FY 23 Capital (CAP) phase
- Total TIP Funding: \$1,100,000

Mr. McGinley made a motion to approve the FY 2023 to 2027 TIP Amendment #4. Mr. Cave seconded, and the motion passed unanimously.

Item 4b. Performance Management 2023 Safety Targets

Mr. Balmes presented and said that federal law required State DOTs and TPOs/MPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures. The first of the performance measures that became effective in 2016 was assessing the conditions of roadway safety (PM1). In May 2018, all TPO/MPOs were required to establish safety targets and approve or update on an annual basis.

CAC Meeting Minutes – February 14, 2023 Approved –

Specifically, the TPO was required to update and adopt Targets for five required Safety Performance Measures:

- 1. Fatalities- Total number of fatalities involving a motor vehicle crash
- 2. Fatalities (Rate)- Rate of fatalities per 100 Million Vehicle Miles Traveled (VMT)
- 3. Serious Injuries- Total number of serious injuries involving a motor vehicle crash
- 4. Serious Injuries (Rate)- Rate of serious injuries per 100 Million Vehicle Miles Traveled (VMT)
- 5. Non-Motorized Fatalities & Serious Injuries- Number of non-motorized fatalities and number non-motorized serious injuries involving a motor vehicle crash

Annually, the TPO may select one of two options regarding updating and submission of safety targets.

1. Adopt the state targets established by the Florida Department of Transportation (FDOT); **or**

2. Develop separate quantifiable safety performance targets.

If the TPO chose to adopt the FDOT safety targets, the requirement would be to annually adopt the same targets until changes were made by the state. Presently, the FDOT has annually adopted 0 for each of the five safety targets.

Mr. Balmes said that there were no direct implications to the TPO for not reaching adopted targets.

In 2018, when the process became a federal requirement, the TPO Board adopted its own safety performance targets to better track progress and reflect more accountability to the public. Over the past five years, the TPO Board has opted to follow the same approach of reviewing prior year target results and adopting revised targets tied to a specific methodology involving five-year rolling averages and projected vehicle miles traveled (VMT).

Safety Performance Measure 2022 Targets and Results

Safety Performance Measure	2022 Results	2022 Targets	Met Target?
#1 - Fatalities	109	98	No
#2 - Fatalities per 100 Million VMT	2.35	2.08	No
#3 - Serious Injuries	491	378	No
#4 - Serious Injuries per 100 Million VMT	10.59	8.02	No
#5 - Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries	56	57	Yes

The proposed targets for 2023 were as follows:

- 1. Fatalities- 101
- 2. Fatalities per 100 Million VMT- 2.14
- 3. Serious Injuries- 417
- 4. Serious Injuries per 100 Million VMT- 8.87
- 5. Number of Non-Motorized (bicycle, pedestrian) Fatalities and Serious Injuries- 56

Mr. Balmes provided to options to the committee.

CAC Meeting Minutes – February 14, 2023 Approved –

Option A. Recommend to the TPO Board adoption of specific and measurable safety targets for 2023 based on the five-year rolling average methodology or Option B. Adopt 0 for all five 2023 safety targets.

Mr. Rudnianyn made a motion to accept Option A for the Performance Management 2023 Safety Targets. Mr. McGinley seconded, and the motion passed unanimously.

Mr. Cave said the longer it takes to look at a problem it only compounds the problem even more. He asked if there was a way that the board could look at crashes before annually to look at way to help decrease the number of crashes.

Mr. Balmes said aside from looking at areas that were known to need attention, part of the planning effort on the Commitment to Zero was to have a more of a system wide approach to identify the issues that cause crashes. There were a lot of tools like roadway safety audits to assess corridors to see where improvements needed to be made.

Mr. Balmes also said that the numbers show that over 90% of all crashes were caused by human behavior and decision making. The TPO had been looking into partnering with the community and schools to help improve driving decision making.

Public Comment: Mr. Doug Shearer said unless there was more involvement with enforcement none of the expensive structural changes would make any difference when there is so many aggressive drivers on the roadways.

Chairwoman Shearer said that if places were identified where crashes were happening to map increases it could help.

Mr. Shearer reiterated that it was the public behavior of aggressive driving and if it was not enforced the problem would persist. Even with the shortage in law enforcement staff writing enough tickets would pay for itself. Structural changes were not the answer.

Mr. Balmes said that part of the discussion in Commitment to Zero took a comprehensive approach talking to enforcement with a focus on preventive measure and identifying problem areas currently and ones that could be problem areas in the future. Everyone in the community needed to work together and do their part. The TPO was doing its part by putting a safety action plan in place, providing education, and being a resource. It would be up to the broader community as well to step things up. We were heading in a negative direction of fatalities.

Item 4c. 2022 List of Priority Projects (LOPP) Amendment

Mr. Balmes presented and said that it had been per the request of the TPO Board Chair, Commissioner Craig Curry, the 2022 List of Priority Projects (LOPP) Strategic Intermodal System (SIS) project list was proposed to be amended.

The amendment was proposed to ensure the six I-75 interchanges in Marion County are listed on the current 2022 LOPP SIS list including general project improvement descriptions. The six interchanges are part of the ongoing I-75 Master Plan Study being conducted by the Florida Department of Transportation (FDOT). All proposed changes had been reflected in tracked changes mode and red font for ease of review and can be viewed on pages 10-11 of this set of minutes for reference.

The amended 2022 LOPP would support the development of the 2023 LOPP process and lists, which was underway.

Mr. Rudnianyn inquired about #9 on the project priority list I-75 at SW 20th Street- construction of a new interchange at SW 20th. He mentioned we did not know the effects of 44th Ave connecting all the traffic between 326 going south to 95th street traffic. Was there a need for an interchange at SW 20th Street?

Mr. Balmes said that the project #9 was added at the request of the City of Ocala when the 2045 plans were being developed. The project would need to go through project justification by FDOT. The project was part of a long-term planning unfunded needs interchange project.

Public Comment: Mr. Doug Shearer said that 484 was already being done and asked if it would be considered in the new master plan.

Mr. Balmes said that it was an improvement requested by the County and it was only a future next phase.

Mr. McGinley made a motion to approve the 2022 List of Priority Projects (LOPP) Amendment. Mr. Magamoll seconded, and the motion passed with Chairwoman Shearer opposed.

Item 5. 2020 U.S. Census Update

As a follow up to the presentation on the 2020 Census Urban Area populations in Marion County in January Mr. Balmes provided an update.

The urban area map files had been made available by the U.S. Department of Transportation (U.S. DOT) on January 19, 2023.

A presentation of the maps was delivered to the TPO Board at the regularly scheduled January 24, 2023 meeting. Based strictly on the results of the Census, the TPO would not be designated as a TMA in 2023 by the U.S. DOT Secretary. The Ocala Urban Area population (182,657) fell short of the necessary threshold of over 200,000 persons.

In addition to a presentation on the maps, the TPO Board engaged in a general discussion about current and future Transportation Management Area (TMA) designation opportunities. Federal law (49 U.S.C. 5303(k)) permits an MPO/TPO and Governor to request TMA designation to the U.S. DOT Secretary. Therefore, the TPO Board asked for additional background information to be presented at the February 28, 2023 meeting regarding the roles, responsibilities and opportunities associated with TMA status. Action may be considered to pursue this opportunity at the meeting.

The TPO was also awaiting further insights from the Florida Department of Transportation (FDOT) Central Office and the Federal Highway Administration (FHWA), Florida Division that may help support further insights into the implications of the Census Urban areas,

CAC Meeting Minutes – February 14, 2023 Approved –

federal funding and TMA status.

Additionally, over the next two years several Census activities would involve the TPO and FDOT, including Urban Area Boundaries and Functional Classification.

The committee engaged in discussion on the classified urban areas and census results.

Item 6. Comments by FDOT

Ms. Anna Taylor provided a brief presentation on Moving Florida Forward.

Governor Ron DeSantis announced January 30 the *Moving Florida Forward Infrastructure Initiative*. The proposal would invest an additional \$7 billion to prioritize and accelerate the completion of 20 critical transportation infrastructure projects across the state.

The proposal combines \$4 billion of General Revenue funding with innovative transportation project financing strategies that will allow FDOT to leverage an additional \$3 billion over the next four years.

The presentation which includes the Congestion Relief Projects and funding is attached to pages 12-16 for reference.

Ms. Taylor mentioned that Moving Florida Forward was a proposal and still had to be approved by the legislator.

Mr. McGinley asked if U.S. 301 would be four-laned.

Ms. Taylor said that the road would be reconstructed and state increased capacity but did not mention how many lanes.

Public Comment: Mr. Shearer asked if the funds were coming from the feds or would it be state funds.

Ms. Taylor responded that it was all state funds that were being strategized and that there was surplus money and that was being used to address current funding.

Public Comment: Mr. Shearer also asked if the projects listed were funded would there be enough workers for construction with so many companies behind schedule.

Ms. Taylor did not have an answer at the time but said there had been some discussion about the challenges.

Ms. Taylor also provided the committee an updated construction report in the meeting agenda packet.

Item 7. Comments by TPO Staff

Mr. Balmes said the Transportation Plan (LRTP) Cost Feasible Element had been updated to include a clarifying footnote to ensure the six I-75 interchanges in Marion County are identified. The six interchanges are part of the ongoing I-75 PD&E/Master Plan Study being conducted by the Florida Department of Transportation (FDOT) and listed in the Cost Feasible Element.

Based on the status of the PD&E/Master Plan, development of the Strategic Intermodal System (SIS) Plans and Moving Florida Forward, this was the only change necessary at the time. As the plans and proposals progressed in 2023, an amendment to the LRTP would be necessary in the near future.

The footnote had been highlighted for ease of reference. The FDOT District 5 and Federal Highway Administration (FHWA) Florida Division had been consulted on the update.

2022 TPO Annual Report

Mr. Balmes said that the 2022 TPO Annual Report had been published and the Annual Report highlighted the TPO program accomplishments in Ocala/Marion County over the past year. The report had been developed with a new template, which the TPO had plans to use for future versions.

The 2022 Annual Report was included in the committee packet and could also be found on the TPO's website: https://ocalamariontpo.org/about-us/annual-report.

2023 Commitment to Zero Activities

Mr. Balmes said the Board adoption of Commitment to Zero was a major milestone and that long-term success would require ongoing work to keep building momentum in the community. Some of the next steps and activities specific to the TPO in 2023 would involve the following:

- Commitment to Zero fact sheets
- Coordination with local partners for safety projects in the 2023 List of Priority Projects (LOPP)
- Commitment to Zero online public crash dashboard
- Social Media for community safety events, public awareness of safety
- Continued partnering for community safety events
- Exploration of public information and public relations opportunities
- Annual Commitment to Zero Workshop (Fall 2023, date to be determined)

Samples of the Commitment to Zero fact sheets were provided. The TPO had developed an initial listing of fact sheets to be release in 2023.

Mr. Balmes mentioned that the TPO was looking for feedback on topics and opportunities to develop additional fact sheets for relevant topics in the community.

Item 8. Comments by CAC Members

Mr. McGinley made a comment that he liked the safety action plan fact sheets.

Mr. McGinley also asked if the number of people moving to the community was taken into consideration when creating the safety targets.

Mr. Balmes said that the rates try to do that because it was tied to VMT and obviously more people moving to the community and visiting. With more traffic it causes more crashes. The fatalities are the most disturbing because they continue to go up regardless of the amount of people moving to the community.

The committee engaged in discussion on ways more ways to promote safety and awareness in the community. Some of the suggestions included: safety billboards that list crash statistics, crash statistics posted similar to the information Florida Highway Patrol once had posted outside of their building, phone alerts notifying the public of crash statistics, safety campaigns, and running crash statistics counts on social media pages.

Mr. Balmes mentioned to the committees that spreading the safety message through safety campaigns, billboards, text alerts, etc., would require the involvement of local government and partners in the community.

Item 9. Public Comment

Mr. Shearer made a comment on Project: SR 25/U.S. 441/SR 500 from SR 35/SE Baseline Road to SR 200/SW 10th Street- addition of bike lanes and sidewalks to the resurfacing project on US 441/301. He said that a trail was being developed from Belleview to 80th off the road, 12ft wide paved trail. He asked if it would cut over and communicate with the trail or were they going to develop another lane.

Mr. Balmes said that the project was a shared use path west of 441 all the way up and would connect with existing sidewalks in Ocala on to SR 200.

Mr. Shearer asked if funds were received for Moving Florida Forward would FDOT not do the resurfacing projects planned for the interstate.

Ms. Taylor said that the FDOT was good about looking at the overlapping projects and mitigate to the best of their ability.

Item 10. Adjournment

Chairwoman Michelle Shearer adjourned the meeting at 2:15pm.

MOVING FLORIDA

For Immediate Release January 30, 2023 CONTACT FDOT: FDOT COMMUNICATIONS OFFICE (850) 414-4590 | FDOTCommunicationsOffice@dot.state.fl.us

ICYMI: Governor Ron DeSantis Announces Moving Florida Forward Infrastructure Initiative

Governor proposes a \$4 billion investment, which will be leveraged for a total of \$7 billion, to expedite projects that will alleviate congestion and prioritize safety

AUBURNDALE, Fla. — Today. Governor DeSantis announced the Moving Florida Forward initiative to expedite transportation projects over the next four years. If passed by the legislature, this proposal would invest \$4 billion of general revenue, redirect an average of \$131 million annually to the State Transportation Work Program, and leverage additional funding over the next four years for a total of \$7 billion to strengthen Florida's transportation infrastructure to accommodate the growing number of people that rely on Florida's roadways. Through this record investment, the Florida Department of Transportation (Florida) Yould expedite 20 priority infrastructure projects into the existing Work Program to combat congestion, improve safety, and ensure a more resilient transportation needs and set the stage for future growth. Projects includeed as part of the Moving Florida Forward Legislate Proposal are available at <u>FLOT.exuMovingerRedirateStructure</u>,

"This proposal will break through bureaucracy that often slows down infrastructure projects and allow FDOT to target projects that will ease congestion across the state," said Governor Ron DeSantis. "Expediting these projects will bring them to completion more than a decade ahead of schedule."

"Governor DeSantis' Moving Florida Forward proposal is truly historic and the projects included will help relive congestion while also focusing on safety, resiliency, the supply chain, and economic growth. These are important for Floridians' quality of life and to ensure we maintain a strong transportation system to keep Florida moving forward', **said FDOT Secretary Jared W. Perdue, P.E.** The Department has worked closely with communities and our partners through the years to plan and prepare these projects for construction. Receiving this funding will allow the vision of each project to become a reality in the immediate future to better meet the growing demands in communities throughout the state. Our team is prepared and ready to work with the Legislature to deliver these critical projects and strengthen Florida's transportation infrastructure."

Florida is home to over 22 million residents, and in just the first three quarters of 2022, we had nearly 105 million visitors to our state. In 2022, Florida experienced the largest net migration in the country at 1.9%, meaning that Florida's infrastructure must accommodate more people than ever before. The 20 projects included in the proposal will build more resilient transportation infrastructure, which is important to the integrity of roadways and corridors especially during severe weather events such as hurricanes.

FDOT will continue working on projects currently planned in the existing FDOT Five-Year Work Program in addition to projects included in the Moving Florida Forward package.

###

www.fdot.gov | Twitter: @MyFDOT | Facebook: @MyFDO

The Florido Department of Transportation's mission is to provide a aife transportation system that ensures the mobility of people and goods, enhances socionaic prosperity and preserves the quality of the state's university of the state to accommod base is commission to builting a transportation system than or convirt for the current needs of Florida's readiests and visitors built also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunthine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highway/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of biolycle & predistring incline. Sovernor Ron DeSantis announced January 30 the *Moving Florida Forward Infrastructure Initiative*.

>> The proposal would invest an additional \$7 billion to prioritize and accelerate the completion of 20 critical transportation infrastructure projects across the state.

>> The proposal combines \$4 billion of General Revenue funding with innovative transportation project financing strategies that will allow FDOT to leverage an additional \$3 billion over the next four years.

Vice-Chairman Richard Howard called the meeting to order at 1:01pm and Secretary Shakayla Irby called the roll. A quorum was present.

Item 2. Proof of Publication

Secretary Shakayla Irby stated the meeting had been published online to the TPO's website, as well as the City of Ocala, Belleview, Marion County, and Dunnellon's websites on April 4, 2023. The meeting had also been published to the TPOs Facebook and Twitter pages.

Item 3. Consent Agenda

Mr. McGinley made a motion to approve the consent agenda. Ms. Mangram seconded, and the motion passed unanimously.

Item 4a. Draft 2023 List of Priority Projects (LOPP)

Mr. Balmes presented the Draft 2023 LOPP. On an annual basis, per State Statute, the TPO worked in collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and the Florida Department of Transportation (FDOT) to develop and submit a 2023 List of Priority Projects (LOPP). The process was undertaken to identify the highest priority projects to receive consideration for federal and state funding through the FDOT Work Program over the next five years.

The LOPP process serves as the key connection between projects identified in the 2045 Long Range Transportation Plan (LRTP) and the Transportation Improvement Program (TIP).

Therefore, for a project to receive federal and state funding, the project would have to be in the LRTP Cost Feasible or Needs Plan and Boxed Funds Lists.

The initial draft 2023 LOPP project lists were provided for the committee to review.

The lists reflected the format and revised procedures adopted by the TPO Board in 2022.

Based upon submissions by local partners along with follow up discussions, the following provided a breakdown of the individual lists and total number of projects.

- Top 20 Priorities 20 of 81 total projects
- Strategic Intermodal System (SIS) 15 projects
- Non-SIS Capacity 39 projects
- Safety and Operations 12 projects
- Trails 10 projects
- Bicycle/Pedestrian 6 projects
- Planning Studies 15 projects

Mr. Balmes opened the discussion up for comments by committee members.

Mr. Dinkins commented that it would be nice if there was a way to correlate all the projects and know which projects were on multiple lists.

Mr. Balmes noted and said that change could be made during the next LOPP process.

Mr. Cave said there should be a line added to the document that shows the date a project was added. Also, conduct research to see exactly how long projects had been on the LOPP.

Mr. Balmes also noted Mr. Cave's comment and said he could add that information to the document and would do some research to see how long the projects that were currently on the LOPP had been there.

Ms. Hinson gave comments using project #15 SR 40 from End of four lanes to CR 314 on the list as an example and said that the likelihood of FDOT being able to fund a project with a price tag of \$103,000,000.00 with the FDOT 2023 funding would be slim to none.

Ms. Hinson also added that she could not advise the MPO how to prioritize their projects however, other projects on the lists could be funded depending on the amount of funding available. FDOT tries to fund projects according to their priorities however, that is not always the case. She also said she was not discrediting the priority lists but ultimately it was up to the money that becomes available to the agency to put towards a project.

Mr. McGinley inquired about project #13 SR 200 from Citrus County to CR 484 and said there had been discussions on the bridge that approached another district and wondered if the bridge would be reconstructed.

Mr. Balmes said that the bridge was in District 7 Citrus County and that he had some discussions with Bob Esposito, MPO Director of Citrus County. The project was also on their project priority list. The bridge was a historic bridge and would require a lot of coordination between District 5 and District 7, therefore it would remain on the list but it was a priority for both MPOs.

Item 5a. Congestion Management Process (CMP), State of the System Update

Mr. Balmes presented and said that in November 2021, the TPO Board adopted a revised Congestion Management Plan (CMP). One major element of the CMP was a State of the System. The element contained information related to level of service and congestion for the major federal-aid roadways in Marion County.

The TPO planned to conduct an update to the State of the System element, including level of service information, a comprehensive database table and associated map series. The update had been requested by local government partner agencies in support of ongoing traffic study and impact analysis work performed in the community. The project also involved the development of context classifications for the non-state roadways in Marion County based on the release of the new Quality/Level of Service Handbook in January 2023.

CAC Meeting Minutes – April 11, 2023 Approved –

The project was anticipated to begin in early May and be completed by August 31, 2023 and would include the following tasks:

Task 1: Project Management and Agency Coordination Task 2: Preliminary Context Classification and Service Volume Update Task 3: CMP Database and Congestion Map Series

Mr. Balmes mentioned there was no meeting scheduled in August and asked if the committee would be willing to meet so that the deliverables could be presented.

Committee members gave consensus to add the August meeting to the schedule.

5b. TPO Safety Tools Project

Mr. Balmes said that as part of the Commitment to Zero Safety Action Plan, the TPO identified the development of a safety dashboard and annual crash reporting, as a future resource to the public and partnering governments. The concept was shared with the TPO Board and Committees in January, as part of a presentation related to upcoming 2023 planning activities.

The purpose of the project involved the development of an online, interactive safety dashboard mapping tool and annual safety report. Both resources would be developed in a format that would be public-friendly for ease of use and navigation. Part of the project was tied to the TPO's past work involving an annual Trends and Conditions report. The timeframe of the project development would be from May to August 2023, with a formal release of both the online dashboard and annual report in late August.

Mr. Balmes provided the committee with some examples of neighboring TPO/MPO peers who had developed similar tools and reports.

Lake~Sumter MPO

https://lsmpo.maps.arcgis.com/apps/dashboards/54e870a958ad4aee84a3d860ffff0f48

MetroPlan Orlando

https://metroplanorlando.org/maps-tools/crashdata/

SpaceCoast TPO

https://sctpo.maps.arcgis.com/apps/dashboards/c15a9dae1fb945adb9e28a71d0b89b98

Mr. McGinley inquired if there was a master plan for all the bicycle paths in Central Florida.

Mr. Balmes said that MetroPlan was in the process of developing an online tool for the whole region that captured all modes of transportation and existing plans for all MPOs including bike/ped. Mr. Balmes said he would share the information with the committee once released.

Ms. Hinson also added that SUN Trails did an update late last year to connect the trails that loop Central Florida. There were only two gaps not connected to SUN Trail, she could not recall where the gaps were located.

5c. Functional Classification Process

Mr. Balmes gave a quick update that based on the Census, every ten years FDOT needed to look at the major roadway network and see if any updates or changes needed to be made. FDOT would be working with local governing partners and had planned to present to the TAC meeting later in the afternoon.

FDOT would come to the committee in June to share the results along with any updates or changes and would also be presenting to the TPO board.

Item 6. Comments by FDOT

Ms. Hinson introduced new FDOT liaison, Yessenia Encarnacion and Professional Engineer (PE) Trainee, Jack MacKenzie.

Ms. Hinson gave a follow-up on two projects from inquires at the March committee meeting:

- 1. I-75 from Sumter County Line to SR 200 Professional Engineering and Construction Costs Updated
- 2. CR 484 from SW 20th Avenue to CR 475A Professional Engineering, Right-of-way, and Construction Costs Updated

Ms. Hinson said she would be sharing that information with Mr. Balmes when she returned to the office.

Ms. Hinson shared an Immediate Release that came out on April 7, 2023: The Governor awarded \$4 Million for the new I-75 Interchange in Ocala and announced the third Buc-ee's location in Florida.

Ms. Hinson also mention that April was Distracted Driving Awareness Month and Work Zone Safety Awareness Week would begin on April 17, 2023.

The construction report was also provided to the committee.

Item 7. Comments by TPO Staff

Mr. Balmes gave the following comments:

- There would be a joint TAC and CAC meeting at 1:00pm in May.
- The TPO would be providing the Draft Transportation Improvement Program (TIP) in May.
- SUN Trail Senate Bill 106 had been placed on Governor DeSantis' desk, it had been passed by Senate. Would be \$50 Million a year over four years for \$200 Million for SUN Trail funding.

Item 8. Comments by CAC Members

There were no comments by CAC members.

CAC Meeting Minutes – April 11, 2023 Approved –

Item 9. Public Comment

There was no public comment.

Item 10. Adjournment

Vice-Chairman Richard Howard adjourned the meeting at 1:55pm.

Respectfully Submitted By:

Shakayla Irby, TPO Administrative Assistant

Technical Advisory Committee (TAC) Meeting

Marion County – Library Headquarters, Meeting Room B 2720 E. Silver Springs Blvd., Ocala, FL 34470 3:30 PM

MINUTES

Members Present:

Ji Li Bob Titterington (arrived at 3:33p) Kenneth Odom Noel Cooper Loretta Shaffer (arrived at 3:34p) Eric Smith (Mr. Steven Neal attended as an alternate) Elton Holland (Mr. Chris Ziegler attended as an alternate) Anna Taylor

Members Not Present:

Dave Herlihy Mickey Thomason

Others Present:

Rob Balmes Shakayla Irby Rakinya Hinson, FDOT Yessenia Encarnacion, FDOT Jack MacKenzie, FDOT Jason Learned, FDOT Alice Giuliani, FDOT Jim Wood, Kimley-Horn

Item 1. Call to Order and Roll Call

Chairman Kenneth Odom called the meeting to order at 3:32pm and Secretary Shakayla Irby called the roll. A quorum was present.

Item 2. Proof of Publication

Secretary Shakayla Irby stated the meeting had been published online to the TPO's website, as well as the City of Ocala, Belleview, Marion County, and Dunnellon's websites on April 4, 2023. The meeting had also been published to the TPOs Facebook and Twitter pages.

Item 3. Consent Agenda

Mr. Neal made a motion to approve the consent agenda. Mr. Titterington seconded, and the motion passed unanimously.

4a. Functional Classification Review Process

Every 10 years, after the U.S. Census is completed, updated population numbers determine changes in Urban Boundaries, which are preliminarily adjusted by the Census Bureau. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) can determine if further refinements should be made for reasons such as consistency with the approach to transportation planning. The Functional Classification of public roadways had been updated during the same timeframe as Urban Boundary updates for efficiency. During the August 9, 2022 TAC/CAC meetings, the FDOT District Five presented an overview presentation regarding Functional Classification and Urban Boundary updates. District Five recently developed a web-based application to receive input regarding proposed Functional Classifications and was ready to coordinate the Functional Classification Review Process with the TPO and local agencies.

Ms. Alice Giuliani, with FDOT began the presentation to the committee and summarize the Functional Classification process to date and discussed the schedule to complete the Review Process by early Summer.

The TPO Board would ultimately need to approve the updated Functional Classification map, so it would be critical that local agencies were fully engaged in the review. The Urban Boundary Review Process would take place after approval of the Functional Classification Map and was expected to begin in late Summer.

Mr. Jason Learned, with FDOT talked to the committee about the new dashboard that showed all the data and changes to the Functional Classification and gave a visual walkthrough of the dashboard and how it operated.

Ms. Hinson inquired about access classification updates and asked when that would happen.

Mr. Learned said that access classification was something separate and was a traffic operations exercise done on state roads only. He was not sure about a set cycle on access classifications.

TAC Meeting Minutes – April 11, 2023 Approved –

Chairman Odom inquired about the City of Ocala 44th Avenue project and said that by the time Federal Highway gave approval the road would have been completed.

Chairman Odom said there were three sets of segments for the continuation of corridors that needed to be identified and that he would send all the information to include to Mr. Learned.

Ms. Giuliani said the TPO and Local Agencies should conduct a review and provided comments; FDOT would be available to provide technical assistance through May 26. FDOT would present the Final Marion County Functional Classification Map to the Ocala Marion TPO Committees on June 13 and the TPO Board for approval on June 27.

Chairman Odom identified Chris Ziegler, Noel Cooper, Eric Schwartz and himself as the Leads for the Functional Classification Review.

Mr. Woods said that he would send out email notifications to all contacts including links to both the dashboard and the application.

Chairman Odom said he would send the email contacts to Mr. Woods for everyone that needed to be included in the distribution list.

Item 4a. Draft 2023 List of Priority Projects (LOPP)

Mr. Balmes presented the Draft 2023 LOPP. On an annual basis, per State Statute, the TPO worked in collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and the Florida Department of Transportation (FDOT) to develop and submit a 2023 List of Priority Projects (LOPP). The process was undertaken to identify the highest priority projects to receive consideration for federal and state funding through the FDOT Work Program over the next five years.

The LOPP process serves as the key connection between projects identified in the 2045 Long Range Transportation Plan (LRTP) and the Transportation Improvement Program (TIP).

Therefore, for a project to receive federal and state funding, the project would have to be in the LRTP Cost Feasible or Needs Plan and Boxed Funds Lists.

The initial draft 2023 LOPP project lists were provided for the committee to review.

The lists reflected the format and revised procedures adopted by the TPO Board in 2022.

Based upon submissions by local partners along with follow up discussions, the following provided a breakdown of the individual lists and total number of projects.

- Top 20 Priorities 20 of 81 total projects
- Strategic Intermodal System (SIS) 15 projects
- Non-SIS Capacity 39 projects
- Safety and Operations 12 projects
- Trails 10 projects
- Bicycle/Pedestrian 6 projects

• Planning Studies – 15 projects

Mr. Balmes mentioned that CAC members had two key comments:

- 1. In addition to the Top 20, identify what other lists projects were included in.
- 2. Review how long projects had been on the LOPP.

Mr. Balmes opened the discussion up for comments by committee members.

The committee engaged in discussion about the project rankings.

Mr. Odom moved to revise the Strategic Intermodal System (SIS) list: move project #4 SR 40 from End of four lanes to CR 314 to #3 on the ranking and move project #3 US 27/I-75 Interchange Operations, NW 44th to NW 35th to #4 on the ranking.

Mr. Balmes mentioned the SUN Trail Senate Bill 106 had been placed on Governor DeSantis' desk, it had been passed by Senate. Would be \$50 Million a year packaged over four years for \$200 Million for SUN Trail funding.

Mr. Odom said with SUN Trail funding it would be a great time to get the last connection in the Baseline Trailhead to Silver Springs.

Mr. Balmes urged the committee to continue to review the LOPP and come back at the May meeting with input on the rankings.

Ms. Shaffer mentioned the 2023 Planning Study Priorities list and inquired about changes with CR 484 associated to the other lists.

Mr. Balmes said that the first step was to get a PER or PD&E and establish the path of the project.

Ms. Shaffer said it had been discussed about a north south artery to relieve congestion.

Mr. Odom said the issue would be the widening of I-75 because the entire interchange would need to be replaced. The only way the project could possibly be a priority would be through a planning study when lanes are added to I-75 especially with the closeness of Marion Oaks and the Villages.

Item 5a. Congestion Management Process (CMP), State of the System Update

Mr. Balmes presented and said that in November 2021, the TPO Board adopted a revised Congestion Management Plan (CMP). One major element of the CMP was a State of the System. The element contained information related to level of service and congestion for the major federal-aid roadways in Marion County.

The TPO planned to conduct an update to the State of the System element, including level of service information, a comprehensive database table and associated map series. The update had been requested by local government partner agencies in support of ongoing traffic study and impact analysis work performed in the community. The project also involved the development of

context classifications for the non-state roadways in Marion County based on the release of the new Quality/Level of Service Handbook in January 2023.

Noel Cooper, City of Ocala and Chris Zeigler, Marion County requested context classification for this update should only apply to the state roads at this time. They would be interested to learn about the differences between the current LOS standards with the new Context Classification on roadways.

The project was anticipated to begin in early May and be completed by August 31, 2023 and would include the following tasks:

Task 1: Project Management and Agency Coordination Task 2: Preliminary Context Classification and Service Volume Update Task 3: CMP Database and Congestion Map Series

Mr. Ziegler said the CMP was supposed to be consistent with the local agencies Comprehensive Plans. The County and City would need a chance to look at the new level of service tables.

The committee decided on proceeding with a regular update of the State of the System element and receiving information on the Comprehensive database table to compare and contrast the FDOT Context Classification with the existing level of service standards.

Mr. Balmes mentioned there was no meeting scheduled in August and asked if the committee would be willing to meet so that the deliverables could be presented.

Committee members gave consensus to add the August meeting to the schedule.

<u>5b. TPO Safety Tools Project</u>

Mr. Balmes said that as part of the Commitment to Zero Safety Action Plan, the TPO identified the development of a safety dashboard and annual crash reporting, as a future resource to the public and partnering governments. The concept was shared with the TPO Board and Committees in January, as part of a presentation related to upcoming 2023 planning activities.

The purpose of the project involved the development of an online, interactive safety dashboard mapping tool and annual safety report. Both resources would be developed in a format that would be public-friendly for ease of use and navigation. Part of the project was tied to the TPO's past work involving an annual Trends and Conditions report. The timeframe of the project development would be from May to August 2023, with a formal release of both the online dashboard and annual report in late August.

Mr. Balmes provided the committee with some examples of neighboring TPO/MPO peers who had developed similar tools and reports.

Lake~Sumter MPO https://lsmpo.maps.arcgis.com/apps/dashboards/54e870a958ad4aee84a3d860ffff0f48

MetroPlan Orlando

https://metroplanorlando.org/maps-tools/crashdata/

TAC Meeting Minutes – April 11, 2023 Approved –

SpaceCoast TPO

https://sctpo.maps.arcgis.com/apps/dashboards/c15a9dae1fb945adb9e28a71d0b89b98

Mr. Ziegler said the Safety Tool appeared to be a duplication of the Signal 4 Database.

Mr. Balmes said that Signal 4 had been more oriented toward professionals, however the TPO Safety Tool would be more public friendly and easier to retrieve information. It would also allow information on individual crashes like what you would receive in a crash report.

Item 6. Comments by FDOT

Ms. Hinson introduced new FDOT liaison, Yessenia Encarnacion and Professional Engineer (PE) Trainee, Jack MacKenzie.

The construction report was also provided to the committee.

Ms. Hinson mentioned that April was Distracted Driving Awareness Month and Work Zone Safety Awareness Week would begin on April 17, 2023.

Ms. Hinson also shared an Immediate Release that came out on April 7, 2023: The Governor awarded \$4 Million for the new I-75 Interchange in Ocala and announced the third Buc-ee's location in Florida.

Item 7. Comments by TPO Staff

Mr. Balmes gave the following comments:

- There would be a joint TAC and CAC meeting at 1:00pm in May.
- The TPO would be providing the Draft Transportation Improvement Program (TIP) in May.
- There had been a notice of funding opportunity through July 10 for Safe Streets and Roads for All Grant.
- The TPO would be keeping an eye on Senate Bill 106 for the Governors Signature and follow-up meetings to come depending on the sign-off of the bill.

Item 8. Comments by TAC Members

Mr. Neal said the City of Ocala would be asking to add to the Long Range Plan a Training Facility on the SunTran property for electric trainings for the Region with CNG. Also, the SunTran had submitted a grant for \$16.7 million for electrification vehicles, 5 electric buses, and 26 electric small vehicles to help support with the Transit Development Plan (TDP).

Mr. Neal also gave thanks to Mr. Li for all his hard work with the grant application.

Mr. Cooper said the City of Ocala was looking to expand the current golf cart friendly roads to include downtown pending City approval at the next council meeting.

Mr. Cooper also said the City of Ocala began construction of a east bound left turn lane on SR 40

at NE 1st Avenue downtown.

Mr. Titterington said that two midblock crossings had been constructed under the US 441 resurfacing project and lights would not be put at the crossings due to the speed limit of the road. Mr. Titterington said the local FDOT would be conducting a midblock study to see if lights at the crossings were warranted. Belleview had concerns about the lighting at the crossings and concerns about the midblock crossings being a safety hazard.

Ms. Shaffer said the bid had been rewarded with an RFP to accompany for gateway and pillars on the north and southern entry points into the county. For the entry points south going north on I-75 there had been some discussions with key bridge construction builders. Also working with FDOT on the northern diamond near Buc-ee's so that there would be a beautiful esthetic entry point as well.

Mr. Ziegler said the County was planning on submitting a Safe Streets and Roads For All grant for CR 42.

Item 9. Public Comment

There was no public comment.

Item 10. Adjournment

Chairman Odom adjourned the meeting at 5:00pm.

Respectfully Submitted By:

Shakayla Irby, TPO Administrative Assistant

TO: Committee Members

FROM: Rob Balmes, Director

RE: Draft 2023 List of Priority Projects (LOPP)

On April 11, 2023, the Citizens Advisory Committee (CAC) and Technical Advisory Committee (TAC) reviewed a draft of the 2023 List of Priority Projects (LOPP). The following initial comments from the CAC and TAC were incorporated into a revised LOPP version.

- Revise the Project List header to include projects in multiple lists (e.g., I-75 interchange at NW 49th Street on Top Priorities and SIS lists)
- Move the SR 40 from end of 4 lanes to CR 314 project up in the rankings, above the I-75 interchange at U.S. 27

The CAC also recommended adding a column depicting the length of time a project has been on the LOPP and unfunded. This request will take some additional time, and will be added to the 2024 LOPP.

At the April 25, 2023 TPO Board meeting, a presentation and discussion took place involving the LOPP. At the meeting, Vice-Chair Dreyer asked all board members to submit any comments on projects and rankings to their respective staff members so they may be addressed at the TAC and CAC meeting on May 9.

TAC members are asked to share comments, project modifications and project ranking change requests at the meeting on May 9. This process will ensure a final set of LOPP lists are provided to the TPO Board for their final review and approval on May 23.

TO: Committee Members

FROM: Rob Balmes, Director

RE: Draft 2023 List of Regional Priority Projects

In collaboration with the Central Florida MPO Alliance (CFMPOA), the TPO develops annually a list of regionally significant transportation priority projects. The following list summarizes the regional lists that require TPO committee action and recommendations. Included with this memo are the current and proposed regional priority lists.

TPO Transportation Regional Incentive Program (TRIP) List

The purpose of TRIP is to encourage partnerships for transportation projects that are regionally significant. TRIP funds are awarded by the Florida Department of Transportation (FDOT) and are used to match local or regional funds up to 50% of the total project costs. To be eligible, there must be a 50% local match commitment and endorsement of the project by three contiguous counties to receive consideration (2 in addition to Marion).

The current (2022) TPO TRIP projects:

- Marion Oaks Manor Extension Marion Oaks Manor to CR 42 Flyover at I-75
- County Road 484 SW 49th Avenue to CR 475A, Widening to Six Lanes
- NW/SW 44th Avenue SR 200 to U.S. 27, Four Lane Roadway

Action Required: The TPO is seeking Committee member input and recommendations on updating, replacing or adding projects to the regional 2023 TRIP list.

Strategic Intermodal System (SIS) Needs

The current SIS Needs list, as follows, is based on unfunded needs in Marion County.

- I-75 Interchange from SW 40th to SW 27th
- I-75 from Turnpike to SR 200
- I-75 from SR 200 to CR 234
- I-75 at US 27 from NW 44th to SW 35th
- I-75 Interchange at 326
- SR 40 from end of Four Lanes to CR 314
- SR 40 from CR 314 to CR 314A
- SR 40 from CR 314A to Levy Hammock Road

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala Action Required: The TPO is recommending to maintain consistency with the LOPP SIS project list and the Regional SIS Needs list, in addition to the feedback provided to District 5 this year regarding projects. The draft 2023 SIS Priorities list of the current draft LOPP contains the following projects:

- I-75 at NW 49th Street Interchange
- I-75 at US 27 Interchange
- I-75 Interchange from SW 40th to SW 27th
- I-75 from SR 200 to CR 234 Alachua County
- I-75 from SR 91 (Turnpike) to SR 200
- I-75 at SR 326 Interchange Operations
- I-75 at SW 20th Street Interchange
- I-75 at CR 484 Interchange (add)
- I-75 at SR 200 Interchange (add)
- I-75 at CR 318 Interchange (add)
- SR 40 from end of Four Lanes to CR 314
- SR 40 from CR 314 to CR 314A
- SR 40 from CR 314A to Levy Hammock Road
- SR 326 from US 301 to old US 301 (add)
- SR 326 from CR 200A to NE 36th (add)

Tier 3 SunTrail Projects

The current Tier 3 SunTrail regional projects list contains four projects in Marion County.

- Santos to Baseline Trail Santos to Baseline Trailhead Part of Heart of Florida Trail
- Pruitt Trail Pruitt Trailhead to Bridges Road Trailhead Part of Heart of Florida Trail
- Silver Springs to Mount Dora Part of Heart of Florida Trail
- Nature Coast Connector Dunnellon to Chiefland Part of the Nature Coast Trail

Action Required: The TPO is seeking input and recommendations on updating, replacing or adding projects to the regional 2023 TRIP list.

RE: Draft FY 2024 to 2028 Transportation Improvement Program (TIP)

<u>Summary</u>

The draft Fiscal Years (FY) 2024 to 2028 Transportation Improvement Program (TIP) was made available for public review and comment on May 2, 2023. The draft TIP public involvement process is from May 2 to June 16. A formal presentation of the draft TIP will be provided at the committee meetings on May 9. The draft TIP will be presented again at the June 13 meeting to include a summary of public and partner feedback on the projects and document. Included with this memo is the full draft FY 2024 to 2028 TIP document for your review.

The following provides key highlights of the FY 2024 to 2028 draft TIP.

- **Public and Partner Review Period:** The review period is from May 2 to June 16, 2023. TPO Board adoption scheduled for June 27.
- **TIP Projects and Funding:** The draft contains 63 projects, grant programs and ongoing maintenance activities, totaling \$373.5 million of funding. The breakdown by source is:
 - \$209.2 million State (56%);
 - \$148.6 million Federal (39.8%); and
 - \$4.2 million Local (4.2%).
- **TIP Interactive Map:** The TIP online interactive map for the public to view projects with specific locations may be found at the TPO TIP project page.
- **TIP Document Organization:** To TPO continues to publish a TIP document that is a public-friendly resource while not compromising the importance of meeting federal and state requirements. The TIP contains summary pages for each programmed project. Projects continue to be organized by the following major categories for ease of reference by the general public.

o Interstate (I-75)

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala

- U.S. Routes
- State and Local Routes
- Bicycle and Pedestrian
- Aviation (Airport)
- Transit, Funding, Grants
- ITS and Maintenance

The TIP document and interactive map may be found on the TPO website page at:

https://ocalamariontpo.org/plans-and-programs/transportation-improvement-program-tip/

Attachment(s)

- FY 2024 to 2028 TIP presentation
- Draft FY 2024 to FY 2028 TIP document

If you have any questions about the Draft TIP or the current public review process, please contact me at: 438-2631.

Transportation Improvement **Program (TIP) Fiscal Years (FY)** 2024 to 2028 DRAFT 470 (t)

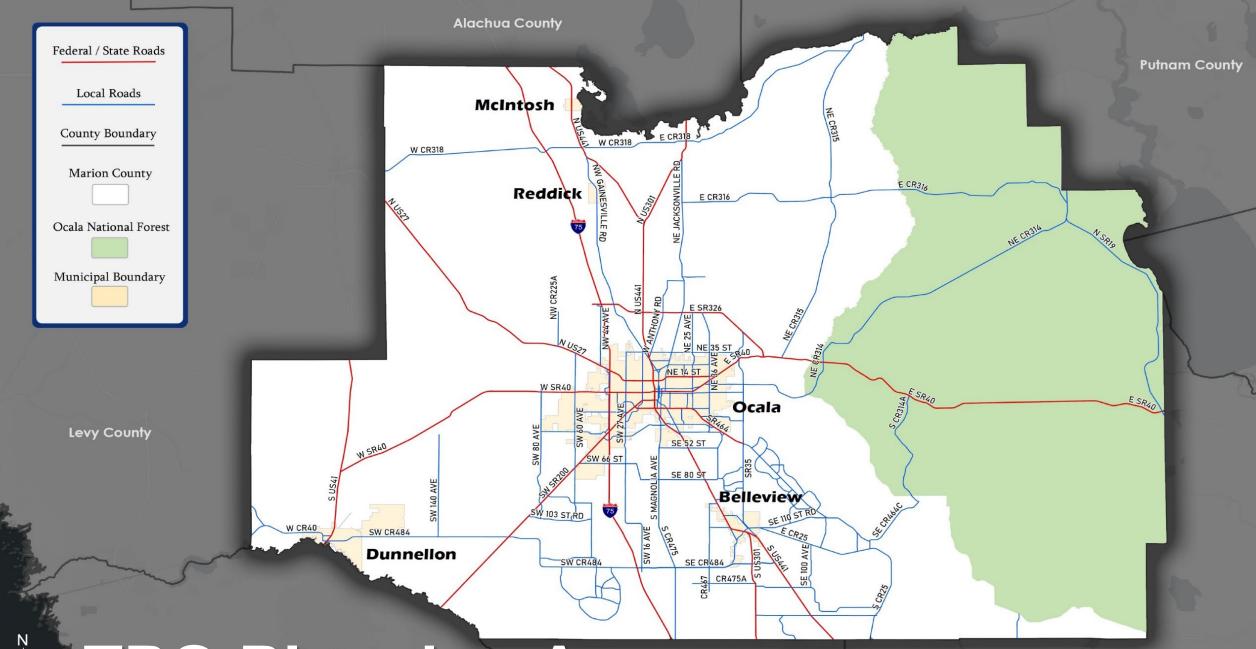

Joint CAC-TAC Meeting May 9, 2023

OCALA MARION TRANSPORTATION PLANNING ORGANIZATION

Transportation Improvement Program (TIP) Fiscal Years 2024 to 2028 DRAFT for Public Review

Pending Board Adoption on June 27, 2023

This document was prepared in cooperation with the Cities of Belleview, Dunnellon, Ocala and Marion County. Financial assistance is from the Federal Highway Administration and the Federal Transit Administration of the U.S. Department of Transportation through the Florida Department of Transportation.

Website: Ocalamariontpo.org

Ocala Marion Transportation Planning Organization 2710 East Silver Springs Boulevard • Ocala, FL 34470 • 352-438-2630

Pending Board Adoption

RESOLUTION OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) TRANSPORTATION IMPROVEMENTPROGRAM (TIP) FOR FISCAL YEARS (FY) 2024 to 2028

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(j), 23 CFR Section 450.326 and Florida Statute 339.175(8) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as "a staged, multi-year, intermodal program of transportation projects which is consistent with the metropolitan (long-range) transportation plan [23 CFR 450.104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board;
- (ii) No revision or amendment performed by the TPO Director shall substantially modify any plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the Transportation Improvement Program for FY 2024 to FY 2028.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 27th day of June 2023.

Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

Vision

A transportation system that supports growth, mobility and safety through leadership and planning.

www.ocalamariontpo.org

2710 East Silver Springs Boulevard, Ocala, FL 34470 352-438-2630

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

1. INTRODUCTION

Purpose

The Ocala/Marion County Transportation Planning Organization (Ocala Marion TPO) is the designated Metropolitan Planning Organization (MPO) in Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The **draft** Fiscal Years (FY) 2024 to 2028 TIP is a five-year schedule of transportation projects to be implemented by government agencies within the Metropolitan Planning Area (MPA) of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is developed on an annual basis [23 C.F.R. 450.326(a)]. The types of projects in the TIP include all modes of transportation, such as roadway construction, operations, maintenance, repaving, bicycle and pedestrian, transit and aviation.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the "3C" planning process, is reflected in the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The 2045 LRTP, which is also managed by the TPO, outlines the Ocala/Marion County transportation vision and goals 20 years into the future. The TIP outlines the short-term "action steps" necessary for achieving the long-term vision by programming specific transportation improvements.

Fiscal Constraint

Transportation projects contained in the TIP are financially feasible and located within the designated planning area. As a condition of receiving federal project funding, the TIP must list all highway and public transportation projects proposed for funding under Title 23 United States Code (23 U.S.C.) (highways) and 49 U.S.C. (transit). The TIP must also contain state and locally funded regionally significant transportation projects regardless of funding source. For a project to be considered financially feasible, the anticipated cost must not exceed anticipated revenue.

Consistency

All projects in the TIP are supported and documented in the 2045 LRTP. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding to Marion County. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments, and must be fully consistent.

A list of the most current Federally Obligated projects is provided in **Appendix B.** The Obligation list is a continuation of projects in the prior TIP, and in some cases started in previous TIPs (23 CFR 450.334).

TPO Planning Area

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to rapid population growth in the 1980s, the planning boundaries of the entire county were added. Figure 1 illustrates TPO planning area which includes all of Marion County and the cities of Belleview, Dunnellon and Ocala.

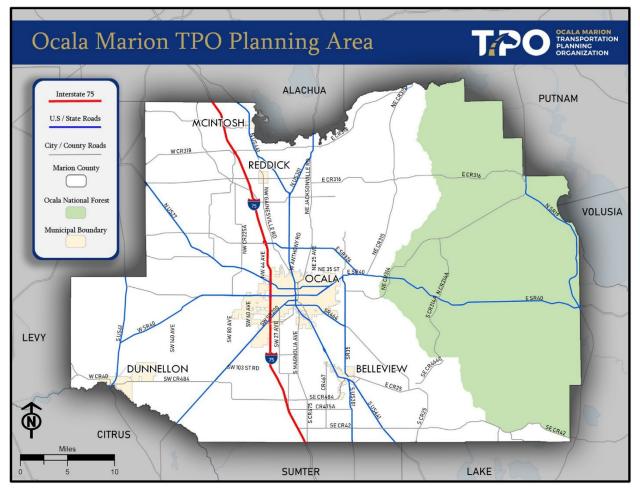

Figure 1: Map of TPO Planning Area

Development of the TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) and the TPO Governing Board. The TPO strives to also engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 Code of Federal Regulation 23 C.F.R. 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents is contained in **Appendix G**.

TPO Boards and Committees

The TPO submits a draft TIP for review and feedback to the TPO's TAC and CAC. These boards/committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Department of Transportation (FDOT); the Florida Department of Environmental Protection; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review and to receive feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is then presented to the TPO Board for adoption in June of each year. In 2023, TPO staff presented the draft TIP to the TAC and CAC on May 9th and June 13th, the TPO Board on May 23rd and June 27th.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public Participation Plan (PPP) (https://ocalamariontpo.org/plans-and-programs/publicparticipation-plan-ppp). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. Advance public notices were provided for all committee and board meetings per Florida Sunshine Law and the TPO's PPP. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. Beginning on May 2nd, a legal notice of the draft version of the TIP was advertised in the Ocala Star Banner. The public comment period for the TIP began on May 2, 2023 and concluded on June 16, 2023. A copy of the public notice can be found in **Appendix F**. On May 2nd, the TPO sent the Draft TIP for review and comment to the following partner agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged, East Central Florida Regional Planning Council, Marion Transit and the St. Johns River Water Management District.

Formal responses are provided to each citizen comment submitted to the TPO by email, mail or phone. Citizens are provided a formal response by the TPO and made aware how their public comment is documented, and how it may be addressed if related to a specific project(s) in the current TIP. In cases where further follow up is required, such seeking project background information, additional contact is made with the citizen by TPO staff. All citizen, TPO committee, TPO Board and partner agency comments and corresponding TPO responses are summarized in **Appendix F**.

Joint Certification

The most recent joint certification between the Ocala Marion TPO and FDOT was completed on March 28, 2023 through action by the TPO Board. FDOT certified the TPO's transportation planning process for Fiscal Year 2023. The next certification review will occur from February to March of 2024.

Consistency with Other Plans

The projects and project phases listed in the FY 2024 to 2028 TIP are consistent with the local public transit development plan (SunTran), aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2045 LRTP, Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Strategic Highway Safety Plan (SHSP), Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), TPO Congestion Management Process (CMP) and SunTran Transportation Development Plan (TDP).

2045 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long- term vision and goals for transportation, the 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020, and amended on November 29, 2022. A list of TIP projects referenced in the 2045 LRTP is found in **Appendix I**. (https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp).

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety, provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies. (http://floridatransportationplan.com)

Strategic Intermodal System (SIS) 2022 Policy Plan

The Strategic Intermodal System (SIS) 2022 Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in **Appendix C**. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project).

(https://www.fdot.gov/planning/sis/default.shtm)

Florida's Strategic Highway Safety Plan (SHSP)

The Florida's 2021 to 2025 Strategic Highway Safety Plan (SHSP) was adopted in March 2021. This was an update to the prior plan, and completed in coordination with all 27 Florida MPO/TPO's. Florida's SHSP outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries. A set of 12 emphasis areas organized into three categories (Roadways, Road Users, User Behavior) provide the foundation for improving safety. (https://www.fdot.gov/safety/shsp/shsp.shtm)

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. FDOT updated the FMTP in spring 2020. (https://www.fdot.gov/rail/plandevel/freight-mobility-and-trade-plan)

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines a process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed information, such as the department's assets, asset management strategies, and long-term expenditure forecasts to inform decision-making at both the State and Local levels.

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute (F.S.) [339.175 (6)(c)1]. Guidance from the Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system".

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP typically support improved travel conditions through the implementation of lower-cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time-consuming and expensive.

The TPO completed a major update to the CMP in 2021, including policies and procedures and state of system elements. The CMP update was completed to meet state statutes and support with prioritizing project needs, and to also serve as a resource to local government partners. The CMP State of the System section is being updated in 2023 (https://ocalamariontpo.org/congestion-management-process-cmp).

Transit Development Plan (TDP)

The Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon. The TDP was updated by SunTran in 2022 to ensure transit services offered meet the mobility needs of local communities. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies in Marion County

(https://www.ocalafl.org/government/city-departments-i-z/suntran).

TIP Revisions

Revisions to the TIP may be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added or deleted. TIP Amendments require TPO Board action and opportunity for public comment. TIP modifications to not require TPO Board action or public comment (23 C.F.R. 450.104). As summarized in the FDOT MPO Management Handbook, there are four types of TIP revisions.

TIP Modification

A TIP modification includes minor changes such as to project phase costs, funding sources and project initiation dates. TIP Modifications are less than 20 percent and \$2 million.

TIP Amendment

A TIP amendment involves major changes to project such as a deletion, addition, project cost increase (over 20 percent and \$2 million), design concept or project scope.

Roll Forward Amendment

Projects programmed in the prior TIP that were not authorized by the end of the state fiscal year (June 30) may be authorized between July 1 and September 30, and included in an annual Roll-Forward TIP report to be amended in the new TIP. The Roll Forward amendment process must occur prior to the start of the federal fiscal year, which is October 1. The TPO Board adopts Roll Forward TIP Amendment each year.

Administrative TIP Amendment

Projects that are added to year one of the FDOT Tentative Work Program will not be recognized by FHWA until their fiscal year on October 1. Administrative amendments are permitted between the state fiscal year period of July 1 to September 30 to fill the gap until the federal fiscal year begins on October 1.

Transportation Disadvantaged

The Transportation Disadvantaged (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline; age 60 and older; or under 16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. Therefore, the TIP is developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County. (https://www.mariontransit.org).

Efficient Transportation Decision Making

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in the TIP through the ETDM process. Public information for these projects is available at: https://etdmpub.fla-etat.org/est.

2. PERFORMANCE MANAGEMENT

Performance Based Planning

Federal transportation law requires state departments of transportation (DOT), TPO/MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance measures are the quantitative expressions used to evaluate progress toward the goals. Performance targets are quantifiable levels of performance to be achieved within a specified time period. Overall, performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by Congress [23 CFR 490 or [23 USC 150(b)]:

1. Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.

2. Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair.

3. Congestion Reduction

To achieve a significant reduction in congestion on the National Highway System (NHS).

4. System Reliability

To improve the efficiency of the surface transportation system.

5. Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.

6. Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment.

7. Reduced Project Delivery Delays

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance Measures and Targets

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPO/MPOs and transit operators to establish and report performance targets for each performance measure. In order to determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals; and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets. Appendix D contains Transportation Performance Management Fact Sheets published by FDOT in February 2023.

Pavement and Bridge

System Performance

Transit Asset Management and Transit Safety

Safety (PM1)

In March 2016, FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rule (PM1), effective April 14, 2016. The Safety PM Final Rule established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP. Additionally, the Safety PM Finals Rule established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether they have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, the TPO and FDOT are fully committed to Vision Zero. FDOT has set a statewide target of "0" for all five safety performance measures. Vision Zero and Target Zero are discussed in greater detail in the Strategic Highway Safety Plan and the Florida Transportation Plan. FDOT set safety performance targets on August 27, 2022. The TPO was then required within 180 days to either adopt FDOT's targets or set their own targets.

On February 27, 2018, the Ocala Marion TPO Board first adopted safety performance targets to better track progress and reflect greater accountability to the public. In November 2022, the TPO Board adopted Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion. Integrating the adopted targets with Commitment to Zero will be a part of the planning process. By adopting its own safety performance targets, the TPO is required to annually update targets. On February 28, 2023, the TPO Board again adopted its own quantifiable safety targets. Figure 2 displays the safety performance targets in 2023 and also 2022 from FDOT and the TPO.

The TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which are addressed in the Commitment to Zero planning project. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST).

Safety Performance Measures	FDOT Targets (2023)	TPO 2022 Targets (not to exceed)	TPO 2022 Results	TPO 2023 Targets (not to exceed)
Number of Fatalities	0	98	109	101
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	2.08	2.35	2.14
Number of Serious Injuries	0	378	492	417
Rate of Serious Injuries per 100 Million VMT	0	8.02	10.62	8.88
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	57	56	56

Figure 2: Safety Performance Measure Targets and Results

Pavement and Bridge Condition (PM2)

In January 2017, the FHWA published the Pavement and Bridge Condition Performance Measures Final Rule (PM2). The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in **Appendix C**.

The **Pavement** condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics: International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

The **Bridge** condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

FDOT established two-year and four-year statewide targets for bridge and pavement condition

on December 16, 2022. The TPO was required to adopt the state targets, or set their own no later than June 14, 2023. On March 28, 2023, the TPO Board agreed to adopt the two- and four-year state targets for pavement and bridge condition. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years.

Figure 3 displays the adopted two- and four-year pavement and bridge targets, with 2021 results only as a frame of reference. The TPO will monitor and report on the 2023 and 2025 results in future reporting to the TPO Board, Committees and public.

Pavement and Bridge Condition Performance Measures (PM2)	FDOT/TPO 2023 Target (2-Year)	FDOT/TPO 2025 Target (4-Year)	TPO Target Results (2021)
Pavement Condition	(2 / cur)	(+ ical)	(2022)
Percent of Interstate pavements in Good condition	60%	60%	64.0%
Percent of Interstate pavements in Poor condition	5.0%	5.0%	0.0%
Percent of non-Interstate NHS pavements in Good condition	40%	40%	51.5%
Percent of non-Interstate NHS pavements in Poor condition	5.0%	5.0%	0.3%
Bridge Condition			
Percent of NHS bridges by deck area in Good condition	50%	50%	59.2%
Percent of NHS bridges by deck area in Poor condition	10%	10%	0.0%

Figure 3: Performance Measure Targets and Results – Pavement and Bridge Condition

System Performance (PM3)

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule (PM3). The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS. LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday,

and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person- miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non- single occupancy vehicle (SOV) travel, and total on- road mobile source emissions reductions. The TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established two-year and four-year statewide targets for **System Performance** on December 16, 2022. The TPO is required to adopt the state targets, or set their own no later than June 14, 2023. On March 28, 2023, the TPO Board agreed to adopt the two- and four-year state targets. The targets represent system performance at the end of both target years. Results from 2021 are provided as information. The TPO will monitor and report on the 2023 and 2025 results in future reporting to the TPO Board, Committees and public. Figure 4 displays the most current System Performance measure targets and results.

System Performance Measures (PM3)	FDOT/TPO 2023 Target (2-Year)	FDOT/TPO 2025 Target (4-Year)	TPO Target Results (2021)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	75%	70%	100%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	50%	50%	95.9%
Truck Travel Time Reliability (TTTR)	1.75	2.00	1.74

Figure 4: Performance Measure Targets and Results - System Performance

Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish "state of good repair" standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

SunTran, the local public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In January 2023, the City of Ocala set transit asset management targets, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets (Figure 5). SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC).

Figure 5 displays the percentage of SunTran's assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2023 and their performance targets for the next four years. FTA defines ULBs as "... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA." The performance targets assume the assets are replaced as they reach their ULB.

Transit Asset Class	2023 Performance	2024 Target	2025 Target	2026 Target	2027 Target	
Rolling Stock						
Buses	0%	0%	0%	0%	0%	
Cutaways	0%	0%	0%	0%	0%	
	Equipmer	nt				
Non-Revenue Vehicles	50%	25%	0%	0%	0%	
Facilities						
Administrative and Maintenance Facility	0%	0%	0%	0%	0%	

Figure 5: Performance Measure Targets and Results - Transit Asset Management

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. TPO/MPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

In November 2020, SunTran updated a PTASP, and then approved an update in January 2023. The update included reaffirmed safety targets as displayed in Figure 6.

	SunTran Safety Performance Targets Performance Targets based on collected data from the previous three years						
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles VRM)	Total	Safety Events (per 100k vehicle revenue miles VRM)	System Reliability (VRM/ failures)
Fixed Route Bus	0	0	1	.20	5	1.03	7,492
ADA Paratransit	0	0	0	0	0	0	0

Figure 6: Performance Measure Targets and Results - Transit Safety Targets

3. FINANCIAL PLAN

The FY 2024 to 2028 TIP includes a financial element that demonstrates how the approved projects can be implemented, indicates the sources of funding that are reasonably expected to be made available, and recommends any additional financing strategies for needed projects and programs (23 CFR 350.326).

The FY 2024 to 2028 TIP is financially constrained each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and regional transportation projects requiring federal action. Projects in the TIP are also derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program (339.135, Florida Statute, F.S.). Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

Figures 7 to 10 display TIP financial summary information as follows.

Funding Categories and Associated Funding Sources (Figure 7)

A listing of the types of funding categories for projects in the TIP, including the sources of funding (Federal, State, Local).

Total Funding by Category and Fiscal Year (Figure 8)

A summary of funding by category and fiscal year, including the TIP five-year total.

Funding Summary by Source (Figures 9, 10)

A summary of funding by source (Federal, State, Local) and by fiscal year, including the TIP fiveyear total.

A summary of funding by mode/type, including Aviation, Bicycle/Pedestrian, Highway/Roadway, Ongoing Maintenance, Transit and Other funding sources.

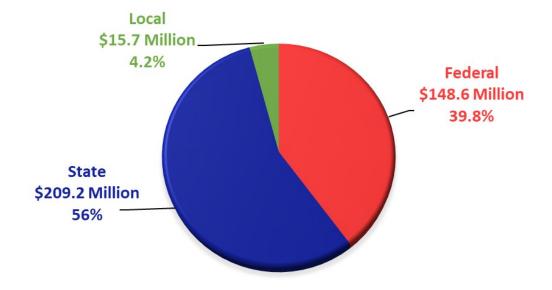

Acronym	Funding Category	Funding Source
ACFP	Advanced Construction Freight Program	Federal
ACNP	Advanced Construction NHPP	Federal
ACNR	Advanced Construction National Highway Resurfacing	Federal
ACSL	Advanced Construction, Urban Areas under 200,000	Federal
ACSM	Advanced Construction, Population 5,000 to 49,999	Federal
ACSS	Advanced Construction (SS)	Federal
ART	Arterial Highways Program	State
BRRP	Bridge Repair/Rehabilitation	State
CARM	Carbon Reduction, Population 5,000 to 49,999	Federal
CARN	Carbon Reduction, Urban Areas under 5,000	Federal
CIGP	County Incentive Grant Program	State
D	Unrestricted State Primary	State
DDR	District Dedicated Revenue	State

4. PROJECT PRIORITIZATION PROCESS

Overview

The project prioritization process of the TPO is undertaken during the development of the LRTP and annual List of Priority Projects (LOPP). During the development of the LRTP, once the identified projects have been determined as "needs", TPO committees, TPO staff and the TPO Board prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The result is the 'Cost Feasible Plan' of the LRTP, which then becomes a prioritized project list. This list becomes part of the TPO's annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, committee input and TPO Board approval. The LOPP is submitted to FDOT annually for projects to be considered in the next Tentative Work Program for funding. FDOT will decide which projects from the LOPP can be reasonably funded with the cost/funding projections. The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding. For further information about the LOPP process, please access the TPO website at: https://ocalamariontpo.org/priority-project-list.

Methodology

In 2022, the TPO modified its annual LOPP prioritization process. The revised process continues to place an emphasis on prioritizing projects based on criteria score. This includes projects closest to receiving construction funding; meet federal performance measures; are multimodal; improve safety and resilience; programmed funding; and/or include local funding and partnerships. A strategic refinement methodology is also applied to include necessary adjustments to address partner feedback. Overall, this approach involves collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop an annual LOPP. The end-results of the process are a set of nine project lists, including an overall Highest Priority Project List.

The TPO's project prioritization process is consistent with state statute (F.S. 339.1758b), federal law (23 C.F.R 450.332b), the 2045 LRTP, and with local aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO planning area, to the maximum extent feasible [339.175(8)(c)(7), F.S.].

Project Ranking

The priority projects ranking criteria is tied directly to the adopted 2045 LRTP Goals and Objectives, federally required performance measures and local priorities. The goals from the 2045 LRTP that are used in this prioritization and selection process include:

- Optimization and Preserve Existing Infrastructure;
- Focus on Improving Safety and Security of the Transportation System;
- Provide Efficient Transportation that Promotes Economic Development;
- Promote Travel Choices that are Multimodal and Accessible;
- Protect Natural Resources and Create Quality Places; and
- Ensure the Transportation System Meets the Needs of the Community.

The ranking criteria are grouped into the following ten categories and are summarized as follows:

- 1. **Prior Year Rank**: An emphasis on prior project ranking to help support program stability and advancement toward implementation.
- 2. **Project Cycle:** The status of projects in their development phase with an emphasis on the most weight given to projects that are ready for construction.
- 3. Local Funding Commitment: Projects receive points for including a local match commitment.
- 4. **Regional Connectivity and Partnerships**: Projects that involve a formal partnership between two or more jurisdictions and coordination between two or more jurisdictions.
- 5. **Safety**: Points given for being located on a roadway segment with a five-year history of serious injury and fatality crashes. Additional points for projects located on the Commitment to Zero High Injury Network.
- 6. **Congestion Management**: Points given for being located on the most up to date Congestion Management Plan Congested Corridors.
- 7. **Multimodal**: A sidewalk, trail and/or bicycle facility are given points and also receive additional points for connecting to existing multimodal facilities in Marion County.
- 8. **Transportation Resilience**: Points given for being located on an existing Florida Evacuation Route or connection to an Evacuation Route.
- 9. Economic Development and Logistics: Points given for connecting to or serving employment growth areas of Marion County, along with connecting to or being located on a facility that supports freight activity centers.
- 10. **Equity**: Projects that are located in one of three disadvantaged areas of Marion County as identified and mapped in the 2045 LRTP.

A complete summary of the LOPP ranking and scoring methodology and most up to date project lists are available on the TPO website.

The **2023 List of Priority Projects (LOPP), Top 20 Priorities** is provided in Figure 12 on the next page. The remaining lists may be found on the TPO's website: https://ocalamariontpo.org/priority-project-list/.

[Draft 2023 List Pending Board Approval, May 23, 2023]

5. PROJECTS

Overview

The FY 2024 to 2028 TIP projects are grouped into seven categories. All projects are also summarized in individual project pages by category to support an accessible and user-friendly format for the citizens of Marion County.

Seven TIP Project Categories:

- Interstate: I-75
- U.S. Routes: US 27, US 41, US 301, US 441
- State and Local Routes: City and County Roads, State Roads (e.g., SR 200)
- **Bicycle and Pedestrian:** Park Trails, Sidewalks and Trails on City, County and State Roads
- Aviation (Airport): Ocala International Airport, Marion County Airport
- Transit, Funding and Grants: Marion Transit, SunTran, TPO, Other
- **ITS and Maintenance:** Operations, Aesthetics, Asset Management (repaving, rehabilitation, shoulders, bridges, lighting), ongoing Maintenance

Appendix H contains a summary of changes to major regional transportation projects from the previous Fiscal Years 2023 to 2027 TIP. **Appendix J** contains a companion "snapshot" listing of the TIP projects as submitted by FDOT to the TPO in April 2023.

Figure 13 on the next page displays a summary chart of the acronyms used for various project phases/activities and the terms associated with the projects displayed in the TIP summary pages. This chart may be used as a reference when reviewing the project summary pages in this section.

Acronym	Project Phase and Information
ADM	Administration
CST	Construction (includes Construction, Engineering, Inspection)
САР	Capital Grant
CEI	Construction, Engineering and Inspection
DES	Design
ENG	Engineering
ENV CON	Environmental/Conservation
FM	FDOT Financial Management Number
INC	Construction Incentive/Bonus
MNT	Maintenance
MSC	Miscellaneous Construction
OPS	Operations
PD&E	Project Development and Environment Study
PE	Preliminary Engineering
PLEMO	Planning and Environmental Offices Study
PLN	In-House Planning
PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Right-of-Way Support & Acquisition
RRU	Railroad and Utilities
RT MNT	Routine Maintenance
SEG	Project Segment Number
UTIL	Utilities Construction

Figure 13: Project Phase/Activity and Information Acronym List

TIP Online Interactive Map

The FY 2024 to 2028 TIP online map provides specific project locations and general information including funding and total project cost. Projects without a specific location (e.g., ongoing maintenance, TPO, Marion Transit, SunTran grants) are not included in the interactive map. The map may be accessed through the TPO website or directly at the following link:

https://marioncountyfl.maps.arcgis.com/apps/webappviewer/index.html?i d=a1591413f8aa4cc7b2d78110c9b4e1a3

Performance Management and TIP Projects

The following provides a summary of the projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: safety; bridge and pavement condition; system performance; and transit asset management and safety. Safety projects include the entire federal aid transportation system. In some cases, a project may support meeting more than one federal performance measure.

Transit Asset Management (TAM) and Transit Safety

TIP Project Summary Pages

Summary pages are provided for all programmed projects and are organized by project category.

Summary Page Definitions

Project: Includes the project name, project limits and location.

Project Type: Identifies the type of project improvement(s).

FM Number: References the financial management number in FDOT's project tracking system.

Lead Agency: Identifies the agency with project management oversight.

LRTP (Page #): References how the project reflects the 2045 LRTP goals and planning consistency.

SIS: Denotes if a project is on the state's Strategic Intermodal System (SIS) network.

Description: Summarizes the project and highlights major improvements to be implemented.

Prior <Year: Identifies the amount of funding programmed in years prior to the current five-year TIP period.

Future >Year: Identifies the amount of funding programmed in years beyond the current five-year TIP period.

Total Project Cost: Lists the total project cost programmed for the project, including prior year, current five-year and future year funding.

Phase: Identifies the stage in project development for which funding is programmed.

Fund Category: Identifies the type of funding programmed by phase for the project.

Funding Source: Identifies the source of funding by phase for the project (Federal, State and/or Local).

Fiscal Year: Identifies the federal fiscal year(s) when funding is programmed for the project.

Interstate 75 (I-75) Projects

Project: I-75 (SR 93) at NW 49th Street from end of NW 49th Street to end of NW 35th Street

Project Type:	Interchange
FM Number:	4352091
Lead Agency:	FDOT
Length:	0.1 miles
LRTP (Page #):	Goal 1, Objective 1.2 (14); Goal 2, Objective 2.1, 2.2, 2.3 (14); Goal 3, Objective 3.2 (14)
SIS Project	

Description:

Construction of a new I-75 interchange at NW 49th Street to facilitate projected increases in freight traffic and regional economic development. This project also includes extending NW 49th Street from NW 44th Avenue to NW 35th Avenue.

APPENDIX B: List of Federally Obligagted Projects

Summary

On an annual basis, per Title 23, United States Code (USC) 450.334, the Ocala Marion Transportation Planning Organization (TPO) is required to provide a summary listing of projects for which federal funds have been *obligated in the preceding federal fiscal year (FFY) from October 1 to September 30. The Florida Department of Transportation (FDOT) assists the TPO in complying with this requirement by providing a detailed report of federal obligations for Marion County. The report is included each year as an amendment to the current Transportation Improvement Program (TIP).

A net total of \$21,876,693 of federal funds were obligated in FFY 2022 for 39 transportation projects and programs in Marion County. Projects or programs for which federal funds have been obligated are not necessarily initiated or completed in the FFY, and the amount of the obligation in a fiscal year will typically not equal the total cost of the entire project. The following summary and companion FDOT report provide a listing of the federally obligated projects by phases and funding sources. In some cases, the FFY totals are negative, which reflect a de-obligation of project or program funding.

*Obligation is the legal commitment by the Federal government to pay or reimburse a State or other entity for the Federal share of a project's eligible cost. Obligated projects have been authorized by the federal government and funds have been approved for reimbursement. Funding for projects can in some cases also be de-obligated. Funding previously obligated is removed from a project due to changes such as cost, delay or cancellation.

APPENDIX D: Transportation Performance Management Fact Sheets

MPO Requirements

Florida Department of Transportation Office of Policy Planning

Transportation Performance Management

February 2023

OVERVIEW

This document highlights key target setting provisions of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) performance management requirements for state Departments of Transportation (DOT), Metropolitan Planning Organizations (MPO), and public transportation providers.*

TRANSPORTATION PERFORMANCE MANAGEMENT FRAMEWORK

Federal transportation law requires state DOTs and MPOs to implement Transportation Performance Management (TPM), a strategic approach to making investment and policy decisions to achieve performance goals. TPM uses past performance levels and

forecasted conditions to measure progress toward strategic goals as a means to guide investments.

Three FHWA Performance Measures (PM) rules and two FTA transit rules establish various performance measures to assess highway safety (PM1), bridge and pavement condition (PM2), system performance and freight movement (PM3), transit asset management (TAM), and transit safety. The FHWA and FTA Planning Rule and the performance measures rules also specify how MPOs should set targets, report performance, and integrate performance management into their Long Range Transportation Plans (LRTP) and Transportation Improvement Programs (TIP).*

Long Range Transportation Plans

The LRTP must:

- » Describe performance measures and targets used in assessing the performance of the transportation system.
- » Include a System Performance Report that:
 - Evaluates the performance of the transportation system with respect to performance targets.
 - Documents the progress achieved by the MPO in meeting the targets.
- » Integrate the goals, objectives, performance measures, and targets described in other plans and processes required as part of a performance-based program.

Transportation Improvement Programs

The TIP must:

- Reflect the investment priorities established in the LRTP.
- Be designed such that once implemented, it makes progress toward achieving the performance targets.
- Include a description of the anticipated effect of the TIP toward achieving

FDOT and the Metropolitan Planning Organization Advisory Council (MPOAC) have developed model language for inclusion of performance measures and targets in LRTPs and TIPs

the performance targets, linking investment priorities to performance targets.

^{*}Please refer to the five accompanying fact sheets to obtain key information for the three FHWA performance measures rules and two FTA transit rules.

TIMELINE FOR MPO ACTIONS

TRANSIT ASSET MANAGEMENT AND TRANSIT SAFETY

PUBLIC TRANSPORTATION PROVIDERS						
ТАМ	Transit Safety					
 Update TAM Plan/Group TAM Plan every 4 years 	 Update safety targets annually 					
 Update TAM targets annually 						

MPOs

• Update MPO transit targets with every LRTP update

Reflect MPO targets and public transportation
 provider(s) current targets in each updated TIP

TARGET SETTING OPTIONS

The Florida Department of Transportation (FDOT), the MPOs, and public transportation providers set their respective performance targets in coordination with one another. All MPOs establish a target for each applicable performance measure by one of two options:

Support the target established by FDOT or the public transportation provider(s).

The MPO agrees to plan and program projects so that they contribute toward the accomplishment of the state or public transportation provider(s) target.

Establish own target.

The MPO coordinates with FDOT or the public transportation provider(s) regarding the methodology used to develop the target and the proposed target prior to establishing a final target.

For the **PM1, PM2, and PM3 measures**, MPOs must establish their targets no later than 180 days after FDOT sets its targets. For the **transit asset management and safety measures**, MPOs are not required to establish transit targets annually each time the public transportation provider(s) establishes targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) targets in the updated TIP.

OR

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

** FHWA changed the due date from October 1, 2022 due to a technical issue with the reporting system.

FOR MORE INFORMATION PLEASE CONTACT

Mike Neidhart, PhD, AICP, Metropolitan Planning AdministratorFlorida Department of TransportationMike.Neidhart@dot.state.fl.us(850) 414-4905

PM1: Safety (All Public Roads)

Florida Department of Transportation Office of Policy Planning

Performance Management

February 2023

OVERVIEW

<u>The first of Federal Highway Administration's (FHWA) performance management rules</u> establishes measures to assess safety on all public roads and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their safety targets.*

PERFORMANCE MEASURES – APPLICABLE TO ALL PUBLIC ROADS

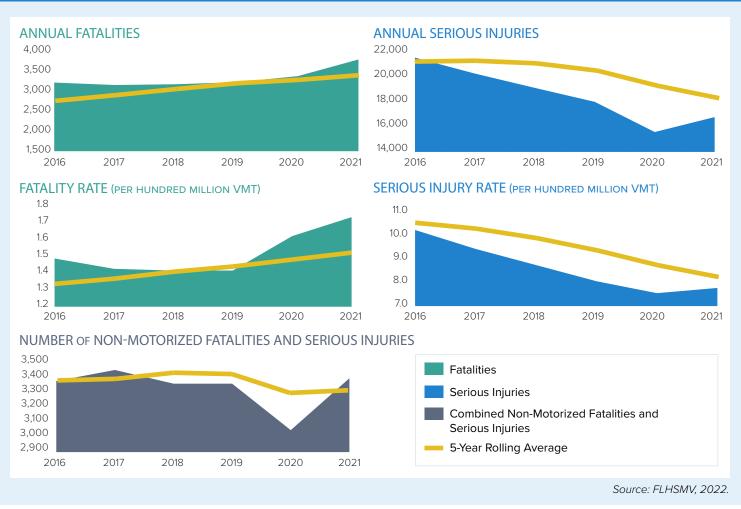

NUMBER OF FATALITIES	The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.	RATE o⊧ SERIOUS INJURIES	The total number of serious injuries per 100 million VMT in a calendar year.
RATE OF FATALITIES	The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year.	NUMBER OF NON-MOTORIZED FATALITIES AND	The combined total number of non-motorized fatalities and
NUMBER of SERIOUS INJURIES	The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.	FATALITIES AND NON-MOTORIZED SERIOUS INJURIES	non-motorized serious injuries involving a motor vehicle during a calendar year.

TIMELINE

* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

STATEWIDE TARGETS

FDOT establishes statewide safety targets for the following calendar year as part of the <u>HSIP Annual Report</u>, which must be submitted by August 31 each year.

Given FDOT's firm belief that every life counts, the target set for all safety performance measures is ZERO.

MPO TARGETS

MPOs must set targets by February 27 of each year (within 180 days after FDOT sets targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

MPOs must include the most recent reported performance and targets with each TIP update. The TIP must describe how the investments contribute to achieving the performance targets. The LRTP must include a System Performance Report that discusses the performance of the transportation system and progress achieved in meeting the targets over time.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four of the five safety targets are met or the actual outcome is better than baseline performance. Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users.

As requested by FHWA, FDOT annually develops an <u>HSIP</u> <u>Implementation Plan</u> to highlight strategies it will undertake in support of these targets. MPOs are encouraged to review this Plan each year to identify strategies appropriate for their planning area.

FHWA will not assess MPO target achievement. However, FHWA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

PM2: Bridge and Pavement

Florida Department of Transportation Office of Policy Planning

Performance Management

February 2023

OVERVIEW

<u>The second Federal Highway Administration (FHWA) performance management rule</u> establishes measures to assess the condition of bridges and pavement on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report targets.*

PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in *GOOD* condition.
- » Percentage of pavements on the Interstate System in *POOR* condition.
- » Percentage of pavements on the non-Interstate NHS in GOOD condition.
- » Percentage of pavements on the non-Interstate NHS in POOR condition.

GOOD CONDITION

Suggests no major investment is needed.

BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) in GOOD condition.
- » Percentage of NHS bridges (by deck area) in *POOR* condition.

POOR CONDITION

Suggests major investment is needed.

TIMELINE

* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

** FHWA changed the due date from October 1, 2022 due to a technical issue with the reporting system.

EXISTING STATEWIDE CONDITIONS

NHS Bridges

Year	in Good Condition	in Poor Condition
2017	67.7%	1.2%
2018	66.6%	1.2%
2019	66.2%	1.2%
2020	65.5%	0.5%
2021 (Baseline)	61.3%	0.5%

Interstate Pavements

Year	in Good Condition	in Poor Condition
2017	66.1%	0.0%
2018	54.2%	0.6%
2019	68.0%	0.5%
2020	68.8%	0.6%
2021 (Baseline)	70.5%	0.7%

Non-Interstate NHS Pavements

Year	in Good Condition	in Poor Condition
2017	44.0%	0.4%
2018	39.9%	0.4%
2019	41.0%	0.3%
2020	41.0%	0.3%
2021 (Baseline)	47.5%	1.1%

Source: FDOT and FHWA.

STATEWIDE TARGETS

FDOT established 2023 and 2025 targets for NHS bridge and pavement on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

Performance Measure	2023 Target	2025 Target
Bridge		
% of NHS bridges (by deck area) in <i>GOOD</i> condition	50.0%	50.0%
% of NHS bridges (by deck area) in <i>POOR</i> condition	10.0%	10.0%
Pavement		
% of Interstate pavements in <i>GOOD</i> condition	60.0%	60.0%
% of Interstate pavements in <i>POOR</i> condition	5.0%	5.0%
% of non-Interstate NHS pavements in <i>GOOD</i> condition	40.0%	40.0%
% of non-Interstate NHS pavements in <i>POOR</i> condition	5.0%	5.0%

MPO TARGETS

MPOs must set 2025 targets by June 14, 2023 (within 180 days after FDOT set the statewide targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- » The actual condition/performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA's determination of significant progress toward the 2021 bridge and pavement targets is anticipated in March 2023.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

MINIMUM CONDITIONS

Every year, FHWA will assess if FDOT is meeting federal minimum condition standards for NHS bridges and Interstate pavements. If it is not, FDOT must obligate a specified percentage of available funds for maintenance of these facilities.

FDOT IS ON TRACK TO MEET MINIMUM CONDITION STANDARDS

- » Bridge: No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (*Poor* condition) for three consecutive years.
- » **Pavement:** No more than 5 percent of the Interstate System in *Poor* condition for most recent year.

PM3: System Performance

Florida Department of Transportation Office of Policy Planning

Performance Management

February 2023

OVERVIEW

<u>The third Federal Highway Administration (FHWA) performance management rule</u> establishes measures to assess the reliability of passenger and truck freight travel on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their targets.*

PERFORMANCE MEASURES

PERFORMANCE MEASURE	REFERRED TO AS	WHAT IT MEASURES
Percent of person-miles traveled on the Interstate that are reliable	Interstate reliability	Compares longer travel times (80 th percentile) to a normal travel time (50 th percentile). Vehicle occupancy is factored in to determine the person-miles traveled on
Percent of person-miles traveled on the non-Interstate NHS that are reliable	Non-Interstate NHS reliability	segments considered reliable, and this is converted to a percent of total miles.
Truck travel time reliability index (Interstate)	Truck reliability	Compares longer travel times (95 th percentile) to the normal travel time for trucks. This is expressed as a ratio called the Truck Travel Time Reliability Index, or TTTR.

The PM3 rule also defines measures for assessing the CMAQ Program that apply only to states and MPOs that are in a designated air quality non attainment areas or maintenance areas. Florida does not have any applicable areas, therefore the CMAQ measures are not addressed in this fact sheet.

TIMELINE

* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

^{**} FHWA changed the due date from October 1, 2022 due to a technical issue with the reporting system.

EXISTING STATEWIDE CONDITIONS

Percent of person-miles traveled on the Interstate that are reliable

WORSE	BETTER
2017	82.2%
2018	83.5%
2019	83.4%
2020	92.3%
2021	87.5%

NON-INTERSTATE NHS RELIABILITY

Percent of person-miles traveled on the non-Interstate NHS that are reliable

Truck travel time reliability index

TRUCK RELIABILITY

(Interstate)

2017	84.0%
2018	86.3%
2019	87.0%
2020	93.5%
2021	92.9%
BETTER	WORSE
2017	1.43
2018	1.42
2019	1.45
2020	1.34

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS).

STATEWIDE TARGETS

FDOT established the following 2023 and 2025 targets on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

	2023	2025
PERFORMANCE MEASURE	TARGET	TARGET
INTERSTATE RELIABILITY	75.0%	70.0%
NON-INTERSTATE NHS RELIABILITY	50.0%	50.0%
TRUCK RELIABILITY	1.75	2.00

MPO TARGETS

MPOs must set 2025 targets by June 14, 2023 (within 180 days after FDOT set the statewide targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

1.38

- » The actual performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA's determination of significant progress toward the 2021 interstate reliability and truck reliability targets is anticipated in March 2023. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight congestion analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

ASSET MANAGEMENT Public Transit

Florida Department of Transportation Office of Policy Planning

Performance Management

February 2023

OVERVIEW

<u>The Federal Transit Administration (FTA) Transit Asset Management rule</u> applies to all recipients and subrecipients of federal transit funding that own, operate, or manage public transportation capital assets. The rule defines State of Good Repair (SGR) performance measures and establishes requirements for Transit Asset Management (TAM) Plans and performance targets. This fact sheet describes these requirements and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

STATE OF GOOD REPAIR PERFORMANCE MEASURES

Transit Asset Categories and TAM Performance Measures

FTA ASSET CATEGORIES	PERFORMANCE MEASURES
EQUIPMENT Non-revenue support-service and maintenance vehicles	Percentage of non-revenue vehicles that have met or exceeded their useful life benchmark (ULB)
ROLLING STOCK Revenue vehicles	Percentage of revenue vehicles that have met or exceeded their ULB
INFRASTRUCTURE Rail fixed-guideway track	Percentage of track segments (by mode) with performance restrictions
FACILITIES Buildings and structures	Percentage of facilities rated below condition 3 on the Transit Economic Requirement Model (TERM) scale

"State of good

repair" is defined as the condition in which a capital asset is able to operate at a full level of performance. This means the asset:

- 1. Is able to perform its designed function.
- 2. Does not pose a known unacceptable safety risk.
- 3. Lifecycle investment needs have been met or recovered.

Public transportation providers are required to report transit asset performance measures and targets annually to the National Transit Database (NTD).

TIMEFRAME

PUBLIC TRANSPORTATION PROVIDERS

- Update TAM Plan/Group TAM Plan every 4 years
- Update TAM targets annually

MPOs

- Update MPO TAM targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current TAM targets in each updated TIP

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

TAM PLAN

Tier I versus Tier II Agencies

The rule makes a distinction between Tier I and Tier II public transportation providers and establishes different requirements for them.

TIER I	TIER II
Operates rail OR	Subrecipient of 5311 funds OR
 ≥ 101 vehicles across all fixed route modes OR ≥ 101 vehicles in one non-fixed route mode 	American Indian Tribe OR ≤ 100 vehicles across all fixed route modes OR ≤ 100 vehicles in one non-fixed route mode

Required Elements of Provider TAM Plans

 Inventory of Capital Assets Condition Assessment Decision Support Tools Investment Prioritization 	TIERS I AND II
 TAM and SGR Policy Implementation Strategy List of Key Annual Activities Identification of Resources Evaluation Plan 	TIER I ONLY

A **TIER I** public transportation provider must develop its own TAM Plan. The Tier I public transportation provider must make the TAM plan, annual targets, and supporting materials available to the state DOTs and MPOs that provide funding to the provider.

A **TIER II** public transportation provider may develop its own plan or participate in a group TAM plan, which is compiled by a group TAM plan sponsor. Group plan sponsors must make the group plan, targets, and supporting materials available to the state DOTs and MPOs that program projects for any participants of the group plan.

The Florida Department of Transportation (FDOT) developed a group plan for all subrecipients in 2022 that includes collective TAM targets for the participating providers. Participants in FDOT's Group TAM Plan primarily operate in areas of the state that are not served by an MPO.

MPO AND PUBLIC TRANSPORTATION PROVIDER COORDINATION

- » Each public transportation provider or its sponsor must share its targets with each MPO in which the public transportation provider operates services.
- » MPOs are not required to establish transit asset management targets each time the public transportation provider(s) establishes annual targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) TAM targets in the updated TIP.
- When establishing transit asset management targets, the MPO can either agree to program projects that will support the public transportation provider(s) targets, or establish its own separate regional targets for the MPO planning area. MPO targets may differ from the public transportation provider(s) targets, especially if there are multiple public transportation providers in the MPO planning area.
- » MPOs are required to coordinate with the public transportation provider(s) and group plan sponsors when selecting targets.
- » FTA will not assess MPO progress toward achieving transit targets. However, Federal Highway Administration (FHWA) and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

Mike Neidhart, PhD, AICP, Metropolitan Planning Administrator Florida Department of Transportation | Mike.Neidhart@dot.state.fl.us | (850) 414-4905

SAFETY Public Transit

Performance Management

February 2023

OVERVIEW

<u>The Federal Transit Administration (FTA) Public Transportation Agency Safety Plan (PTASP) rule</u> established transit safety performance management requirements for certain providers of public transportation that receive federal financial assistance. This fact sheet describes these requirements and the role of Metropolitan Planning Organizations (MPO) under this rule.*

PUBLIC TRANSPORTATION AGENCY SAFETY PLANS (PTASP)

Federal Rule Applicability

Recipients and Sub-recipients of FTA 5307 funds

The rule applies to recipients and sub-recipients of FTA 5307 funds that operate a public transportation system and to operators of rail transit systems subject to FTA's State Safety Oversight Program.

The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the U.S. Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

Small public transportation providers without rail and with fewer than 101 revenue vehicles in operation during peak service may complete their own plan or have their plan drafted or certified by their state DOT.

PUBLIC TRANSPORTATION SAFETY PERFORMANCE MEASURES

FATALITIES	Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
INJURIES	Total number of reportable injuries and rate per total vehicle revenue miles by mode.
SAFETY EVENTS	Total number of reportable events and rate per total vehicle revenue miles by mode.
SYSTEM RELIABILITY	Mean distance between major mechanical failures by mode.

TIMEFRAME

PUBLIC TRANSPORTATION PROVIDERS

• Update safety targets annually

MPOs

- Update MPO safety targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current safety targets in each updated TIP

^{*} Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

RELATIONSHIP OF PTASP TO FLORIDA REQUIREMENTS

Florida requires each Section 5307 and/or 5311 public transportation provider to have an adopted System Safety Program Plan (SSPP) (Chapter 14-90, Florida Administrative Code). Because Section 5307 public transportation providers in Florida must already have a SSPP, FDOT recommends that public transportation providers revise their existing SSPPs to be compliant with the FTA PTASP requirements.

FDOT has issued guidance to public transportation providers to assist them with revising existing SSPPs to be compliant with the FTA PTASP requirements.

While the PTASP rule requires public transportation providers to establish safety performance targets, the SSPP does not.

REQUIREMENTS

TRANSIT SAFETY TARGET COORDINATION BETWEEN FDOT, MPOS, AND PUBLIC TRANSPORTATION PROVIDERS

- » Public transportation providers that annually draft and certify a PTASP and transit safety targets must make the PTASP and underlying safety performance data available to FDOT and the MPOs to aid in the planning process.
- » MPOs are not required to establish transit safety targets annually each time the public transportation provider(s) establishes targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) PTASP targets in the updated TIP.
- » Public transportation providers will coordinate with FDOT and affected MPOs in the selection of transit safety performance targets.
- » Public transportation providers will give written notice to the MPO(s) and FDOT when the public transportation provider establishes transit safety targets.

- » When establishing transit safety targets, the MPO can either agree to program projects that will support the public transportation provider targets, or establish its own separate targets for the MPO planning area.
- » MPOs that establish their own transit safety targets will coordinate with the public transportation provider(s) and FDOT in the selection of transit safety performance targets, and will give written notice to the public transportation provider(s) and FDOT when the MPO establishes its own transit safety targets.
- » MPOs that agree to support the public transportation provider(s) safety targets will provide FDOT and the public transportation providers documentation that the MPO agrees to do so.
- If two or more public transportation providers operate in an MPO planning area and establish different safety targets for a measure, the MPO may establish a single target for the MPO planning area or establish a set of targets that reflect the differing public transportation provider targets.

FOR MORE INFORMATION PLEASE CONTACT

APPENDIX E: Public Notice Records

APPENDIX F: Public and Partner Comments

APPENDIX G: Glossary of Terms and Acronyms

Glossary of Terms and Acronyms

OCALA MARION TRANSPORTATION PLANNING ORGANIZATION

February 2022

ACRYONYM	NAME	DESCRIPTION
3C	Continuing, Cooperative and Comprehensive	A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding.
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.
ADA	Americans with Disabilities Act	The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections.
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data.
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources.
CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented.
CBSA	Core Based Statistical Areas	CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel.
CFMPOA	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law.

ACRYONYM	NAME	DESCRIPTION
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.).
СМР	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.
СТС	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation- disadvantaged/).
СТД	Commission for Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funs to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc. org/TD/td.html).
СТРР	Census Transportation Planning Products	The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau.
СТЅТ	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition.
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/ programs/dbe/).
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/ communitytransystem.htm)
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project.

ACRYONYM	NAME	DESCRIPTION
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects.
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.
FAST Act	Fixing America's Surface Transportation Act	The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.
FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida-https://jobs.myflorida.com/go/ Department-of- Transportation/2817700/).
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal- aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.
FMTP	Freight Mobility and Trade Plan	FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future.
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.
FY	Fiscal Year/ Federal Fiscal Year	The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30.

ACRYONYM	NAME	DESCRIPTION
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.
HSIP	Highway Safety Improvement Program	The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.
HUD	Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.
AUI	Infrastructure Investment and Jobs Act	Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending.
IRI	International Roughness Index	International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface.
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system.
LOS	Level of Service	Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.
LOPP	List of Priority Projects	The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding.
LRTP/MTP	Long-Range Transportation Plan (or Metropolitan Transportation Plan)	A document that serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and- programs/long-range- transportation-plan-Irtp/.

ACRYONYM	NAME	DESCRIPTION
LOTTR	Level of Travel Time Reliability	The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS).
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.
МРА	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.
MPO	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
MPOAC	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.
MSA	Metropolitan Statistical Area	A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.
NTD	National Transit Database	The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems.
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)].
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500).

ACRYONYM	NAME	DESCRIPTION
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https:// www.fdotd7studies.com/what-is-a-pde-study.html).
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.
PM	Performance Management	Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals.
РРР	Public Participation Plan	The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.
PTASP	Public Transportation Agency Safety Action Plan	A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system.
RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.
SHSP	Strategic Highway Safety Plan	This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads.
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot. gov/planning/sis/default.shtm).
SOV	Single-Occupancy Vehicle	Any motor vehicle operated or driven by a single person.
STBG	Surface Transportation Block Grant Program	The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.

ACRYONYM	NAME	DESCRIPTION
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals.
ТАМР	Transportation Asset Management Plan	The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts).
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.
TD	Transportation Disadvantaged	Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues.
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.
TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.

ACRYONYM	NAME	DESCRIPTION
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half- mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org).
ТРМ	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.
ТРО	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities.
TTTR	Truck Travel Time Reliability Index	The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system.
UA	Urbanized Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.
ULB	Useful Life Benchmark	The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration.
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.
USC	United States Code	The codification by subject matter of the general and permanent laws of United States.
USDOT	United States Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.
YOE	Year of Expenditure	The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed.
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia).

APPENDIX H: Project Changes from Prior TIP

Project Changes from Prior Transportation Improvement Program (TIP)

The following list summarizes major projects that were programmed in the previous Fiscal Years (FY) 2023 to 2027 TIP and their respective status toward implementation. This includes projects advanced; completed; construction (2023/2024); or deferred. The project status denoted references the general fiscal year time frame.

	Status of Projects from Prior TIP Advanced, Completed, Construction or Deferred							
Project Number/FM	Project Description	Project Status	FY 2023-2027 TIP Funding					
4336511	CR 484 from SW 20th Avenue to CR 475A	Construction 2023/2024	\$47,520					
4336514	CR 484 from SW 20th Avenue to CR 475A	Construction 2023/2024	\$184,725					
4336611	U.S. 441 from SR 40 to SR 40A (Broadway)	Construction 2023/2024	\$17,767					
4348441	CR 42 at SE 182nd Avenue Road	Construction 2023/2024	\$350,000					
4348442	CR 42 at SE 182nd Avenue Road	Construction 2023/2024	\$67,980					
4355473	NW 44th Street from SR 40 to NW 11th Street	Construction 2023/2024	\$14,269,963					
4375962	SR 40/Silver Springs Blvd from NW 27th Ave to SW 7th Ave	Construction 2023/2024	\$909,279					
4384171	Marion County Airport Runway Improvements	Deferred FY 24 to FY 26	\$437,500					
4385621	I-75 (SR 93) Rest Area from North of CR 484 to South of SR 200	Construction 2023/2024	\$42,379,924					
4392341	SR 200 from I-75 to U.S. 301	Deferred FY 23 to FY 24	\$13,344,987					
4407801	Ocala International Airport Pavement Rehabilitation	Deferred FY 24 to FY 25	\$1,500,000					
4411411	SR 464 from U.S. 441/U.S. 301 to SR 35 (Baseline Road)	Construction 2023/2024	\$21,644,972					
4448771	Ocala International Airport Hangar	Advanced FY 25 to FY 24	\$1,250,000					
4452121	U.S. 301 from S of NE 175th St to Alachua County Line	Advanced FY 24 to FY 23	\$4,729,689					
4452171	SR 326 from NW 12th to SR 40	Construction 2023/2024	\$11,875,930					
4456881	U.S. 27/U.S. 441/Abshiver Boulevard at CR 42	Construction 2023/2024	\$1,099,429					
4457011	SE Abshier Blvd from SW Hames Rd to North of SE Agnew Rd	Construction 2023/2024	\$2,062,140					
4489241	SR 492 over CSX Railroad Line	Construction 2023/2024	\$391,249					
4503401	Emerald Road Extension from 92nd Loop to CR 424	Construction 2023/2024	\$9,650,000					
4509181	Dunnellon Trail from River View to Rainbow River Bridge	Construction 2023/2024	\$2,537,000					

TIP Funding and schedule changes are summarized in the following table for major projects programmed in both the previous FY 2023 to FY 2027 TIP and the current draft FY 2024 to FY 2028 TIP. Also summarized are projects previously deferred in a prior TIP, and are now programmed in the current FY 2024 to FY 2028 TIP.

	Major Project Funding Changes Prior TIP (2023 to 2027) Years to Current TIP Years (2024 to 2028)						
Project Number/FM	Project Schedule Changes	Change in TIP Project Funding					
*2386481	SR 45 (US 41) from SW 110th St to North of SR 40	Programmed FY 2028	\$62,027,312				
4336601	U.S. 441 at SR 464	None	\$111,255				
4352091	I-75 (SR 93) at NW 49th St from end of NW 49th to NW 35th	None	(\$9,010,692)				
4392341	SR 200 from I-75 to U.S. 301	Deferred FY 23 to FY 24	\$2,141,011				
4392382	U.S. 441 from SE 102nd Place to SW 10th/SR 200	None	\$943,991				
4452181	U.S. 441 from Avenue I to Alachua County Line	None	(\$541,692)				
4453021	U.S. 301 from N of CR 42 to SE 114th Place Road	None	\$2,293,462				
4483761	I-75 (SR 93) from SR 200 to North of U.S. 27	None	(\$1,930,868)				
4485261	U.S. 41/Williams from N of Citrus County to SW 110th St	None	(\$526,554)				
4486351	U.S. 441 from County Road 25A to Avenue I	None	\$454,932				

*Project deferred in a prior TIP years, programmed in current FY 2024 to FY 2028 TIP

RE: Draft 2050 Long Range Transportation Plan (LRTP) Scope

<u>Summary</u>

The Long-Range Transportation Plan (LRTP) is one of the TPO's core federally required planning documents. The TPO is required every five years to update and adopt the LRTP and include a new horizon year (2050). The adoption date of the revised 2050 LRTP is by November 24, 2025.

The TPO will be soliciting professional services to support the development of the 2050 LRTP. The current estimated timeframe for the 2050 LRTP development process will be from end of calendar year 2023 to 2025. Included with this memo is a draft Scope of Work, outlining the tasks and activities associated with the LRTP update.

The TPO is seeking feedback and comments on the draft Scope of Work. Comments may be shared at the Committee meetings on May 9, or transmitted by email by May 31. TPO staff will seek Board approval of the Scope of Work at the June 27 meeting. A team is being formed to serve on a selection panel for a Request for Qualifications (RFQ) process, which is currently anticipated to take place from July to September.

Attachment(s)

• Draft 2050 LRTP Scope

If you have any questions about the Draft LRTP Scope, please contact me at: 438-2631.

OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) 2050 LONG RANGE TRANSPORTATION PLAN (LRTP) DRAFT SCOPE OF WORK

INTRODUCTION

ABOUT THE TPO

Established in 1981, the Ocala/Marion County Transportation Planning Organization (TPO) is a federally-mandated agency responsible for allocating state and federal funds to roadway, freight, transit, bicycle and pedestrian and aviation projects within Marion County. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County, and works to ensure improvements to the transportation system reflect the needs of both stakeholders and the public.

The TPO is governed by a 12-member Board of locally elected officials. The expertise of the staff and leadership of the TPO Board are supplemented by the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and the Transportation Disadvantaged Local Coordinating Board (TDLCB). Collectively, these boards and committees provide guidance and policymaking decisions for the organization. The work of the TPO is guided by federal and state legislation, including U.S. Code Title 23 and 49 and Florida Statute 339 and 427.

The Ocala Marion TPO's MISSION STATEMENT is to plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

The Ocala Marion TPO's VISION STATEMENT is a transportation system that supports growth, mobility, and safety through leadership and planning.

2050 LRTP SCOPE OVERVIEW

The TPO is seeking to work with a Consultant to prepare the 2050 Long Range Transportation Plan (LRTP) in accordance with 23 Code of Federal Regulations (CFR) Part 450 and 49 CFR Part 613; the Infrastructure Investment and Jobs Act (IIJA), Public Law 117-58; and the requirements outlined in section 339.175 of the Florida Statutes. The 2050 LRTP must be adopted by the TPO Board on October 28, 2025. All final work will be completed by the TPO and Consultant no later than December 31, 2025 to ensure the supporting federally required documentation is transmitted to the Florida Department of Transportation (FDOT).

This Scope of Services outlines the tasks that will be issued whole or in part by the TPO to the Consultant. When contract negotiations take place, tasks may be modified at the discretion of the TPO. The end result will be a final negotiated Scope and Budget presented to the TPO Board for final approval. The TPO retains all rights and ownership to the data, reports, presentations, maps, video and documents delivered by the Consultant pertaining to the tasks in this Scope of Services.

This update to the LRTP will reflect the horizon year of 2050. The 2045 LRTP will be used as a foundation to build upon the 2050 LRTP. The Consultant will be required to integrate the new funding and planning requirements of the IIJA, which includes the major emphasis areas of safety, equity, resilience, carbon reduction, housing, technology and emerging mobility. The Consultant will fully integrate the ten (10) Federal Planning Factors and apply a Performance-based planning process. Also, the Consultant will integrate the additional state (Florida Department of Transportation) and federal (U.S. Department of Transportation) major emphasis areas as published in December 2021. These emphasis areas are outlined in the TPO's Fiscal Years 2022/2023 to 2023/2024 Unified Planning Work Program (UPWP) budgetary document.

Due to the projected growth and development of Ocala/Marion County, the TPO is also seeking to integrate Scenario Planning in the 2050 LRTP. Scenario Planning will be used to consider plausible build-out alternatives and their potential future impacts to the transportation system of the TPO Planning Area, which includes the entirety of Marion County. Further information is outlined in Task 11.

A comprehensive and inclusive public participation process will be essential to the 2050 LRTP. This process will include development of a LRTP Public Participation Plan. Further information is outlined in Task 3.

2050 LRTP PROJECT TASKS

The TPO and Consultant will be responsible for completing and/or supporting the following task activities. Each task is organized by work area and includes a summary of responsibilities and deliverables.

TASK 1: PROJECT MANAGEMENT

The TPO Project Manager (TPM) will lead this task with a Consultant Project Manager (CPM). The CPM will be the primary point of contact to the TPM and responsible for the overall project management of the Consultant and Sub-Consultant team members. The CPM will be responsible for ensuring the following activities are completed, in close coordination with the TPM:

Consultant Responsibilities

- Development of a detailed project schedule, and public-friendly schedule. The project schedule will guide the entire plan development process. All work identified in the schedule must be completed on time. Any changes to the schedule will require coordination with the TPM.
- Management of tasks, budget, deliverables and invoices. All work performed by the Consultant must be on-time and on-budget.
- Management, coordination and delivery of presentations at meetings, open houses and hearings.

- Coordination between the CPM and TPM to maintain the project schedule, deliverables and participation in regularly scheduled project status meetings.
- Submission of draft and final deliverables based on specific deadlines outlined in the project schedule.
- Designation of a Quality Assurance and Quality Control (QA/QC) Task Manager to oversee the review of all draft and final project deliverables.

Consultant Deliverables

- 2050 LRTP Project Schedules
- Monthly invoices for work performed through the end of each month
- Monthly Progress Report (included with monthly invoice)
- Monthly project coordination meetings between the CPM and TPM
- In-person attendance at public meetings, TPO Board, Committee and LRTP Steering Committee meetings
- Delivery of presentations and associated electronic files
- Delivery of meeting files

Each task activity involving the TPM or TPO staff, either providing support, leading or reviewing, will be completed in a timely manner according to the agreed-upon project schedule.

TPO Responsibilities

- Review and approval of draft and final project schedules
- Review of all draft and final project deliverables by Consultant based on the project schedule and deadlines
- Submission of comments to the CPM
- Attend monthly coordination meetings
- Process invoices for prompt payment to Consultant
- Secure facility locations for public meetings, TPO Board and Committee meetings, and LRTP Steering Committee meetings

TASK 2: 2050 LRTP DOCUMENTATION

The Consultant will be responsible for preparing documentation for the draft and final 2050 LRTP, executive summary, companion appendices, maps and electronic files. The format of the 2050 LRTP documents will reflect a uniform, consistent theme and color scheme. The LRTP draft, final, executive summary and appendix documents will be developed in Microsoft Word and Adobe Acrobat (PDF) for efficiency and ease of future modifications and/or amendments. All project tables (Cost Feasible, Needs) and other files involving data analysis will be completed in Microsoft Excel. All maps will be developed and completed in ArcGIS Pro. The presentation of information in the main and executive summary documents will be in a format that is public-friendly and concise. The appendices will contain all of the in-depth, technical information. The following outlines specific LRTP documentation deliverables.

Consultant Deliverables

- 2050 LRTP Executive Summary
- 2050 LRTP Document
- 2050 LRTP Appendices
 - Federal and State LRTP Guidance
 - Public Participation Plan
 - Vision, Goals, Objectives, Measures of Effectiveness
 - System Performance Summary
 - Data Collection and Plan Synthesis Summary
 - o Travel Demand Model Summary
 - o Financial Revenues
 - Needs Assessment, Prioritization, Cost Feasible Summary
 - Scenario Planning Summary
 - Public Participation Summary (public process and survey summaries)
 - Equity Assessment Summary
- 2050 LRTP Cost Feasible, Boxed Funds, Needs Project Lists (Excel, PDF)
- 2050 LRTP maps (GIS Files)
 - Electronic GIS files for all maps produced in the draft, final LRTP and appendices

TPO Responsibilities

• Review of draft and final deliverables for all documents, maps, tables

TASK 3: PUBLIC PARTICIPATION

Engagement with the public will be a continuous process in the development of the 2050 LRTP. A major emphasis will be placed on ensuring the underserved and disadvantaged members of the community are engaged in the entire process. To guide public participation at the onset of the project, the Consultant will be responsible for developing a 2050 LRTP Public Participation Plan (PPP). The PPP will guide both the TPO and Consultant throughout the project, including a schedule of milestones, participation methods, meetings, public review periods and other activities as identified. The PPP will contain a summary of performance metrics and corresponding results for each of the methods conducted over the course of the project. The LRTP document will contain a chapter highlighting the entire public process.

The following provides a summary of the public participation activities planned for the 2050 LRTP.

2050 LRTP Project Website

A 2050 LRTP project page will be located on the TPO's website. The project page will be customized by the TPO and its website vendor to include all content and announcements. The TPM will be responsible for working directly with the CPM to maintain files and information on the project page.

2050 LRTP Project Video

The Consultant will develop a video introducing the 2050 LRTP to the Ocala/Marion community. The video will highlight the LRTP purpose, plan development process, and the role of citizens and partner agencies. The video should be no more than 2 minutes in length.

2050 LRTP Social Media

The TPO's current social media platforms (Facebook, Twitter) will serve as a public forum for this project. The pages will also be closely linked to the activities posted on the LRTP project website page, and be focused on interaction and support for generating public participation. The Consultant will provide support with background content based on the specific phase of the project.

Communication

The TPM will coordinate closely with the CPM throughout the project to collaborate with local media, public information officers and partner organizations. An emphasis will be placed on key milestones involving public input through surveys, an online comment map and public meetings.

Public Outreach Educational Materials

The development of educational information and materials will support informing the public throughout the LRTP project. This may include LRTP overview fact sheets, a public-friendly schedule, visual aids, public outreach resources, etc. The Consultant and TPO will closely coordinate on appropriate educational materials, items and content.

Public Surveys

Two public surveys will be conducted to receive input from the public. The surveys will be developed by the Consultant with input and coordination from the TPO and LRTP Steering Committee. It is envisioned an initial survey (Public Survey 1) will be conducted to coincide with the formal LRTP public kick-off and extend through a specific period of time tied to the project schedule. Survey 1 will place an emphasis on concisely capturing public opinion related to the state of transportation in Marion County, including areas of emphasis, and input on the development of the vision, goals and objectives. The second survey (Public Survey 2) will be conducted to concisely capture public opinion related to prioritizing project needs and improvements, and scenario/build-out planning. Final results of both surveys will be included in the Public Participation Summary. Task work associated with Survey 1 is further explained in Task 4. Task work associated with Survey 2 is further explained in Task 10. Both surveys will be developed in formats administered online and hardcopy to ensure all members of the community, especially the underserved and disadvantaged have opportunities for sharing input.

Public Comment Map

An online, interactive public comment map will be developed and hosted by the Consultant. The public comment map will provide ongoing opportunities for the public to share feedback on specific locations in Marion County related to transportation opportunities, challenges and concerns. Comments will support the identification of project needs and priorities. The online

public comment map will be made available at public meetings for members of the community without access to the internet. Supplemental hardcopy maps and display boards will also be made available at meetings to ensure all members of the community, especially the underserved or disadvantaged have opportunities to share input. The online public comment map will be released to coincide with the LRTP public kick-off meeting and be extended through the Needs Assessment phase. Final results will be included in the Public Participation Summary.

Steering Committee Meetings

A 2050 LRTP Steering Committee will be formed to serve as the technical oversight body. The Steering Committee will be comprised of TPO Technical Advisory Committee (TAC) members and other identified federal, state and local partner agency staff members. Steering Committee members will be asked to convene in person, review information and draft deliverables, share local data and information, and provide feedback at key milestones. It is envisioned the Steering Committee will convene a total of up to five in-person meetings. Virtual meetings may be convened to supplement, but not replace in-person meetings. The Consultant will be required to lead and attend three in-person meetings.

Coordination will also take place with neighboring MPO's, including the Lake~Sumter MPO. This may include sharing the project schedule, public meeting notices, and project needs assessments.

Public Meetings

A formal, public kick-off meeting will be held to provide an opportunity for the 2050 LRTP to be introduced to the public. The Consultant will provide support to the TPO through the delivery of a formal presentation, sharing the 2050 LRTP project video and general presentation displays. The kick-off meeting will be held at a public venue, accessible by auto, non-motorized, bus and paratransit modes of transportation.

A community (Open House Meeting I) open house meeting will be conducted at an early stage of the project when a draft vision statement, goals, objectives and measures of effectiveness and other transportation and community features background information are available based on the project schedule. The purpose of this Open House will be to further introduce the 2050 LRTP, solicit feedback through in-person activities, comment mapping, survey completion, and other methods identified by the Consultant and TPO. The Open House Meeting I will be held at a public venue, accessible by auto, non-motorized, bus and paratransit modes of transportation with an emphasis placed on being located in an underserved area of the community.

A second community open house meeting (Open House Meeting II) will be conducted to provide an opportunity for citizens and interested parties to review information related to project needs and scenario/build-out options based on the project schedule. Feedback will be solicited through in-person activities, comment mapping, in-person survey completion, and other methods identified by the Consultant and TPO. Open House Meeting II will be held at a public venue, accessible by auto, non-motorized, bus and paratransit modes of transportation with an emphasis placed on being located in an underserved area of the community.

Stakeholder and Partner Meetings

The LRTP outreach process will also include two extensive stakeholder and partner outreach meeting periods. The first period of meetings will be conducted during the initial/early stage of the project, following the Community Open House Meeting I, based on the project schedule. The second period of stakeholder and partner meetings will be conducted following the Community Open House Meeting II, based on the project schedule. Both periods of outreach will be limited to up 20 meetings in total.

The format will involve the TPM and TPO staff delivering presentations and soliciting feedback. The meetings will be held by the request of stakeholder organizations and local government partners. The TPO will publicize the meeting opportunities in the community, and coordinate scheduling. The overall intent of this format is to engage in community outreach that involves more direct, in-person interaction at the respective stakeholder and jurisdiction facilities.

The Consultant will support the TPO by providing appropriate background information based on the phase of the plan development process, including presentations and display materials. The Consultant will not attend any of the stakeholder and partner meetings.

Community Events and Public Locations

The TPM and TPO staff will attend accessible community events at specific periods of the plan development process, based on the project schedule. The TPM and TPO staff may also set up display tables at community facilities. The Consultant will support the TPO by providing appropriate background information based on the phase of the plan development process, including handouts and display materials. The Consultant will not be asked to attend any of these community events. These types of events will be selected based on location and staff availability, and are meant to supplement the public, stakeholder and partner meetings.

Board and Committee Meetings

The Consultant will attend and present at a total of two regularly scheduled TPO Board meetings, two Technical Advisory Committee and two Citizen Advisory Committee meetings. Presentations will made at the respective board/committee meetings based on the project schedule, and on the two rounds of public open house meetings.

Consultant Deliverables

- 2050 LRTP Public Participation Plan (PPP) (Word, PDF)
- Two public surveys and summary documents (see Tasks 4 and 10)
- Development of a 2045 LRTP project video
- Online public comment map
- Participation at the 2050 LRTP Kick-off Meeting
- Project educational fact sheets
- Co-lead and provide support at the Community Open House Meetings (2)

- Facilitate LRTP Steering Committee Meetings (3)
- TPO Board and Committee Meetings (4)
- Public Participation Summary

TPO Responsibilities

- Review of draft and final PPP document
- Host and manage the 2050 LRTP project page on The TPO website
- Coordinate social media with Consultant
- Review of draft and final 2050 LRTP project video
- Review of project educational information
- Review of draft and final Public Participation Summary document
- Facilitate LRTP Steering Committee Meetings (2)
- Organize and attend Stakeholder and Partner outreach meetings
- Organize and attend Community Events and Public Location activities

TASK 4: DATA COLLECTION AND PLAN SYNTHESIS

The Consultant will responsible for compiling and reviewing planning documents, GIS files, data and information related to existing and future development of the TPO Planning area. Conducting a review of the documents will be essential to understanding the historic, existing and future trends in Marion County.

The TPM will provide support to secure TPO-specific planning documents and associated files, and make requests to local partner agencies. The CPM will be responsible for ensuring the following list of information is collected and reviewed. This includes necessary electronic files, databases and GIS files. Some of this information will also be used to develop an LRTP chapter devoted to the State of Transportation Marion County.

- Socioeconomic Data, Profile (population, household, employment, schools, etc.)
- Comprehensive, Master Plans
- Government Strategic Plans
- Redevelopment Plans
- Local Development Inventories
- Economic Development Plans/Strategies
- Tourism Plans/Strategies
- SunTran Transit Development Plan (TDP)
- SunTran and Marion Transit Planning Studies
- School Board Studies/Plans
- Bicycle/Pedestrian/Trail Plans, Studies
- Local Freight/Trail Studies, Plans
- Airport Master Plans
- State Trail Plans

- Federal, State, Local Land Management and Environmental Resources, Inventories, Plans
- TPO Planning Documents
 - 2045 Long Range Transportation Plan (LRTP)
 - Transportation Improvement Programs (TIP)
 - Public Participation Plan (PPP)
 - Congestion Management Plan (CMP)
 - Commitment to Zero Safety Action Plan
 - TPO Annual Safety Report
 - Transportation Resilience Guidance
 - Regional Trails Facilities Plan
 - o Intelligent Transportation System (ITS) Strategic Plan
- FDOT Documents
 - Florida Transportation Plan
 - FDOT SIS Plans, District 5, Marion County
 - Florida Strategic Highway Safety Plan (SHSP)
 - o Florida Freight and Mobility Trade Plan
 - Other FDOT Statewide Plans
- Regional Documents
 - Central Florida Metropolitan Planning Organization Alliance plans, regional priority lists, maps, etc.

The Consultant will also collect and summarize socioeconomic data derived from the Central Florida Regional Planning Model (CFRPM) (see Task 9) and other sources including the University of Florida Bureau of Economic and Business Research (BEBR).

Consultant Deliverables

- 2050 LRTP Data Collection and Plan Synthesis Summary
- Electronic files for data tables, GIS maps collected and produced
- Incorporation of summary information, maps, tables in the 2050 LRTP draft, final, executive summary documents, State of Transportation in Marion County LRTP chapter

TPO Responsibilities

- Provide pertinent TPO files and information
- Support CPM with federal, state, local contacts for information collection
- Review of draft and final documents.

TASK 5: VISION, GOALS, OBJECTIVES AND MEASURES OF EFFECTIVNESS

Plan visioning will set forth the desired direction for transportation over the next 25 years in Marion County. The development by the Consultant a 2050 vison statement, goals, objectives and measures of effectiveness will be undertaken in the initial phase of the project, and become an LRTP chapter. The prior 2045 vision, goals, and objectives will be used as the baseline.

However, this task will result in a revised framework tied to 2050 and a collaborative process with community leadership and partners, including the LRTP Steering Committee, TPO Board, TPO committees, stakeholders, citizens and other elected officials.

As part of this task, the Consultant will also conduct a review of current federal, state and local goals and emphasis areas, along with the integration of priorities of the IIJA and other pertinent recent transportation laws. This includes federally required planning factors and performance measures. A review will be conducted of current national transportation goals, state-level planning documents, and local transportation priorities. The TPO currently uses a List of Priority Projects (LOPP) Policies and Procedures guidance document to prioritize and rank projects. This document will also be reviewed in support of developing the goals, objectives and measures of effectiveness.

A component of this task will involve a 2050 LRTP Public Opinion Survey (Public Survey 1) as outlined in Task 3. The Consultant will be responsible for developing and implementing a public survey after the formal Kick-Off of the project. The survey will be hosted by the Consultant or third party, with a link to the survey provided on the TPO's 2050 LRTP website page and social media platforms. The survey questions will be formatted to concisely capture public opinion and insights related to the state of transportation in Marion County, including current priorities, areas of concern and input on the development of vision, goals and objectives.

Key summary findings of the survey will be used in the development of a draft Vison Statement, goals, objectives and measures of effectiveness at a LRTP Steering Committee meeting. This draft framework will also be presented at TPO Board and Committee meetings to receive feedback, resulting in a completed draft package for moving forward to plan development.

Consultant Deliverables

- 2050 LRTP Public Opinion Survey Instrument (Survey 1)
- 2050 LRTP Public Opinion Survey Summary
- Co-facilitate a LRTP Steering Committee Visioning Workshop
- Vision, Goals, Objectives and Measures of Effectiveness Summary and LRTP chapter

TPO Responsibilities

- Review of draft and final Public Opinion Survey Instrument (Survey 1)
- Review of draft and final Public Opinion Survey Summary
- Co-facilitate a LRTP Steering Committee Visioning Workshop
- Review of draft and final documents
- 2050 LRTP website Public Opinion Survey support
- Support with contact distribution lists, advertisements, social media and other communication channels

TASK 6: TRANSPORTATION AND COMMUNITY FEATURES

The Consultant will work in close coordination with the TPM and Steering Committee to identify, map and summarize transportation and community features in Marion County. This information will serve to inform and solicit feedback, and to support the prioritization of projects in the Cost Feasible and Unfunded Needs elements. This information will also be used to develop an LRTP chapter devoted to the State of Transportation Marion County. Some of the major community features may include, but not limited to:

- Horse farm preservation areas
- Ocala National Forest, other conservation lands
- Environmental sensitive resources
- Downtowns
- Community gateways
- Historic districts
- Tourism destination areas
- Freight activity centers, corridors
- Employment centers
- Schools
- Federal-aid roadway network and interstate interchanges
- Federal functional classification network
- Trails and Trailheads
- On-Road bicycle lanes and sidewalks
- SunTran Fixed transit routes
- Marion Transit Deviated/Zone routes
- Airports
- Railroad lines and crossings
- Commitment to Zero High Injury Network
- Census commuting/travel patterns
- Congestion Management Process, Congested Corridors
- Others as identified by the LRTP Steering Committee and Consultant

Consultant Deliverables

- Transportation Community Feature set of maps
- Electronic files GIS maps collected and developed
- State of Transportation in Marion County LRTP chapter

TPO Responsibilities

- Provide and support in collection of data, GIS files and information
- Review of draft and final maps and documents
- Coordination with LRTP Stakeholder Committee and local partners for to conduct timely reviews

TASK 7: PERFORMANCE MEASURES AND TARGETS

The TPO is required to incorporate performance-based planning in the LRTP. A System Performance Measures Report will be developed by the Consultant for the 2050 LRTP summarizing the federally required target setting for:

- Safety (PM1)
- Pavement and Bridge Condition (PM2)
- System Performance (PM3)
- Transit Asset Management
- Transit Safety

The Report will include an evaluation of system performance with respect to the federally required targets and must be consistent with the template developed by the Florida Department of Transportation (FDOT) for use by MPO's in Florida. The report will also include an overview of how performance-based planning is integrated into the LRTP, including national goals, the ten planning factors, and specific performance measures. Progress and/or actions toward achieving the targets by the TPO should also be highlighted. The System Performance Report will be a separate chapter in the LRTP document in a summary format, with more detailed information contained in the appendix (System Performance Summary). Completion of this task will be tied to the adoption of PM1, PM2, PM3 targets by the TPO Board in early 2025.

Consultant Deliverables

- System Performance Report Summary
- System Performance Report Summary content integrated into a chapter in the draft and final LRTP documents

TPO Responsibilities

- Provide support in the collection of data and information
- Review draft and final documents

TASK 8: FEDERAL AND STATE EMERGING ISSUES

The rapid pace of change in the nation and state of Florida has resulted many impacts to MPO/TPO's. This task will involve a summary of several key federal and state emerging issues to ensure they are better understood, and how they must be integrated into the transportation planning process. Each emerging issue will be summarized in a condensed format meant for general public understanding, including specific implications for future transportation planning in Ocala/Marion County. Any past or ongoing work by the TPO involving these emerging areas will be referenced and included in the documentation. The following emerging issues will be part of this task:

- Carbon Reduction
- Emerging Mobility
 - Automated, Connected, Electric, Shared (ACES) Vehicles
 - Micromobility

- o Others, as recommended by Consultant
- Housing and Transportation
- Transportation Resiliency

Consultant Deliverables

• Summary LRTP chapter on Federal and State Emerging Issues

TPO Responsibilities

• Review of draft and final LRTP chapter document

TASK 9: TRAVEL DEMAND MODEL REVIEW AND COORDINATION

The Consultant will utilize the Central Florida Regional Planning Model (CFRPM) managed by the Florida Department of Transportation (FDOT) District Five. The CFRPM is the regional travel demand model and includes the nine counties of Central Florida, including Marion County.

A critical component of this task will involve future 2050 land use data collected for supporting the model. This may include, but is not limited to large development data, future land use and zoning data; GIS and files that include property parcels and appraiser data, along with other collected information, as deemed necessary. The Consultant will review the model validation results and coordinate with the FDOT Model Consultant to provide comments and information on the socioeconomic development data from Marion County. As part of this task, the CPM will closely coordinate with the TPM, LRTP Steering Committee and local governments to ensure the most up to date and accurate information is collected and transmitted to the FDOT Model Consultant.

The local government partners will be involved in this task. They include: Marion County, City of Ocala, City of Belleview, City of Dunnellon, Town of Reddick and Town of McIntosh. The TPM will support the CPM to coordinate and make requests to the local governments to ensure all appropriate data is collected according to the project schedule. This task will support the development of FDOT's CFRPM 2050 Socio-economic and Development Data summary report. The files and information from the model will also be packaged for use by the TPO and local government partner agencies.

Consultant Deliverables

- Travel Demand Model Coordination and Review Summary Report
- All model files and information used for the 2050 LRTP process

TPO Responsibilities

• Review of draft and final Travel Demand Model Summary Report

TASK 10: NEEDS ASSESSMENT

The Needs Assessment will be a major component for the development of the 2050 LRTP. The 2045 LRTP Needs, Cost Feasible and Boxed Funds project lists will be used as a foundation, but require an updated analysis including the revised 2050 Existing plus Committed (E+C) horizon year network. The Consultant will lead this task to analyze and evaluate a revised E+C transportation network with the 2050 socioeconomic data and information from the CFPRM, as outlined in Task 7. The most current Transportation Improvement Program (TIP) will be used as the committed (C) improvements timeframe.

As outlined, the identification and evaluation of needs based on deficiencies and/or constraints by transportation mode will be one of the sources of identifying projects. However, projects based on input received from local partner government agencies, Board and committee members, public participation, stakeholder meetings and the LRTP Steering Committee will also be part of the Needs Assessment.

Based on the schedule developed by the Consultant, a "Request for LRTP projects" from local government partners will take place to ensure the opportunity for feedback is formally established. The identification of project needs will also be tied to local government transportation capital project lists, the SunTran Transit Development Plan, and others such as the TPO Lists of Priority Projects (LOPP), Congestion Management Plan and the Commitment to Zero Safety Action Plan. Additionally, state and regional project lists will be incorporated, including the most current FDOT Strategic Intermodal System (SIS) Cost Feasible Plan and the Central Florida MPO Alliance regional lists. The LRTP Steering Committee will be engaged to review and coordinate on the Needs Assessment project lists development.

A component of this task will also involve a 2050 LRTP Public Opinion Survey (Public Survey 2). The Consultant will be responsible for developing and implementing a public survey to coincide with Open House II. The survey will be hosted by the Consultant or third party, with a link to the survey provided on the TPO's 2050 LRTP website page and social media platforms. The survey questions will be formatted to concisely capture public opinion and insights related to the identification of project needs, areas of concern, and feedback on improvement priorities. Questions will also be developed related to Scenario Planning and seeking input on build-out options in Marion County (see Task 11).

A 2050 LRTP Needs Lists by mode will be developed and include cost estimates (capital, construction, right-of-way, PE, operating and maintenance costs), and identify any uncertainty, where applicable. The cost estimates should be calculated at a planning level and utilize a consistent methodology agreed upon by the TPO and FDOT District 5.

Consultant Deliverables

- Needs Assessment draft and final Summary, LRTP chapter
- Needs Assessment draft and final maps
- Needs Project draft and final lists in table format

• Electronic GIS files for all maps produced in the draft, final versions

TPO Responsibilities

- Review of draft and final summary documents, LRTP chapter
- Support CPM with local government coordination to collect project lists
- Support CPM with 2045 data and information collection

TASK 11: SCENARIO/BUILD-OUT PLANNING

The 2050 LRTP will involve the use of Scenario Planning. The Consultant will be tasked with assessing what the future of transportation in Marion County could look like tied to baseline and alternative scenarios. The primary goal of this task will be to analyze how different land use, demographic, or other types of changes could impact the transportation network, and what the preferred future direction is for Marion County. The focus will be on exploring possible outcomes tied to the build-out of the community, and strategies that will guide the TPO and local government partners toward achieving the future direction.

Up to three types of growth scenarios (low, medium, high) will be selected based on the data and information available through the plan development process, data collection, travel demand model and input/information from local government partners. As outlined in Tasks 3 (Public Participation) and 10 (Needs Assessment), Survey 2 and Open House II will engage the public and stakeholders to identify project needs and areas of concern. Feedback will also be collected on build-out options in Marion County to support the Scenario Planning task work.

Based on the Scenario Planning activities, a Summary Report will be developed in addition to an LRTP Chapter highlighting the process and outcomes.

Consultant Deliverables

- Scenario Planning Summary Report
- Scenario Planning draft and final LRTP chapter
- Scenario Planning draft and final maps
- Electronic GIS files for all maps produced in the draft, final versions

TPO Responsibilities

• Review of draft and final documents, maps

TASK 12: FINANCIAL REVENUES

This task will be instrumental to outlining the financial outlook for the investment of federal and state funding to transportation projects in the 2050 LRTP. The Consultant will prepare a Financial Revenue Summary report that describes the revenue projections through 2050, which includes a 27-year period (fiscal years 2024 to 2050). The information will be derived primarily from the 2050 Statewide Revenue Forecast for the Ocala/Marion TPO, released by FDOT Central Office. This information reflects current policy and is based on State Revenue Estimating Conference (REC) and FDOT Federal Aid Forecasts. The FDOT 2050 Revenue Forecast Handbook should be

used as a primary reference and guide. Local revenue sources will also be projected based on the most current information available. All funding revenue projections will be presented in a Financial Revenue Summary report. Other sources of potential funding, such as discretionary grants should be summarized for only illustrative purposes. The Financial Revenue Report will be a separate chapter in the LRTP document in a summary format, with more detailed information contained in an appendix.

Consultant Deliverables

- Financial Revenue draft and final Report Summary
- Financial Revenue Summary integrated into a LRTP chapter

TPO Responsibilities

- Review of draft and final documents
- Support CPM with local financial information collection

TASK 13: PROJECT PRIORITIZATION PROCESS

The identification of transportation projects which best address the vision, goals, objectives and community needs, while staying fiscally balanced, requires a prioritization process. The Consultant will work in coordination with the TPO and LRTP Steering Committee to develop a prioritization process using evaluation criteria. The evaluation criteria will be based primarily on the TPO's current List of Priority Projects (LOPP) Policies and Procedures Criteria Scoring methodology. Refinements may be made to incorporate additional criteria or changes as deemed necessary. The evaluation and prioritization of projects will also include a strategic refinement process based on input provided by the LRTP Steering Committee, TPO Board and Committees, the public and stakeholders.

Consultant Deliverables

- Project Prioritization draft and final Summary
- Project Prioritization Summary integrated into a LRTP chapter

TPO Responsibilities

- Review of draft and final documents
- Support CPM with TPO data and information collection

TASK 14: COST FEASIBLE ELEMENT

The 2050 LRTP Cost Feasible Element will be developed by the Consultant based on the formalized evaluation criteria task outlined in Task 13, and in close collaboration with the TPO, LRTP Steering Committee, TPO Board and Committees, and input from the public and stakeholders. This task will include reviewing all the identified needs by mode of transportation in Task 10 against the projected available federal and state revenues outlined in Task 12. The 2045 LRTP Cost Feasible project lists will serve as a baseline.

The process of developing the Cost Feasible project lists must include fiscal year one (2024 to 2025); the first five programmed years (TIP fiscal years 2026 to 2030); the first ten years (fiscal years 2031-2040); and then the second ten years (fiscal years 2041-2050). The first ten years will also be further broken down in two five-year periods. Project costs must include all phases and by year-of-expenditure (YOE), based on FDOT inflation factors applied to both revenues and costs, as outlined in the FDOT 2050 Revenue Forecast Handbook. The Cost Feasible Element must demonstrate fiscal constraint per the FDOT Office of Policy Planning Technical Memorandum (21-02).

The TPO's 2045 LRTP Cost Feasible Element contained Boxed Fund projects for Corridor Studies, Intelligent Transportation System and Multimodal (sidewalk, bicycle, trail). The TPO's preference is to maintain the same approach for the 2050 LRTP involving these specific types and modes and project improvement types. The 2045 Boxed funds project lists will be used as a baseline.

Consultant Deliverables

- Cost Feasible draft and final Summary
- Cost Feasible Summary integrated into a LRTP chapter
- Cost Feasible project draft and final maps
- Cost Feasible draft and final project Lists in table format
- Electronic GIS files for all maps produced in the draft, final versions

TPO Responsibilities

- Review of draft and final documents
- Support CPM with project, data and information collection

TASK 15: UNFUNDED NEEDS

The 2050 Unfunded Needs Element will contain projects that did not make the Cost Feasible Element due to federal/state revenue limitations and the collaborative decision-making process outlined in Task 13. These projects will be listed and mapped in an Unfunded Needs section of the Cost Feasible Element chapter and include planning level cost estimates.

Local jurisdiction roadway projects will also be included in the Cost Feasible Element for informational purposes in a separated list(s) from the federal/state funded projects. These projects demonstrate additional needs of the transportation system, and are funded through local government revenue sources identified in Task 12.

Consultant Deliverables

- Unfunded Needs draft and final Project Lists
- Unfunded Needs Project draft and final lists integrated into a LRTP chapter
- Unfunded Needs project maps
- Unfunded Needs project Lists in table format
- Electronic GIS files for all maps produced in the draft, final versions

TPO Responsibilities

• Review of draft and final documents

TASK 16: EQUITY ASSESSMENT

The 2050 LRTP must be developed to ensure the process is consistent with the requirements of Environmental Justice (EJ), including the provisions of Title VI of the Civil Rights Act of 1964. These requirements will be included in the 2050 LRTP and be reflected throughout the entire public participation process. The Consultant will apply EJ analysis through the completion of an Equity Assessment to identify areas of Marion County that are underserved by transportation investments. The 2045 LRTP Equity Areas will be used as the foundation for conducting a new analysis for 2050. These Equity Areas by Census Block included: Poverty, Minority, No Vehicle, Seniors (over 65) and Youth (under 16). Other factors will be considered and potentially integrated by the Consultant in coordination with the TPO. This includes reviewing the United States Department of Transportation (USDOT) Equity Action Plan and Justice 40 Initiative, the TPO PPP and Title VI Plan documents, and the County's Disabled and Limited English (LEP) populations.

The Equity Assessment will involve analyzing the impacts of the draft Cost Feasible projects (all modes) on the under-served areas. Based on the Assessment, a Summary Report will be developed that identifies any disproportionate or adverse impacts, and recommendations to the LRTP Cost Feasible project investments in Marion County. This report will also be incorporated into an LRTP Chapter on Equity Assessment that includes an overview of the topic, methodology and results. Background information on EJ and federal initiatives such as Justice 40 will also be highlighted.

Consultant Deliverables

- Equity Assessment Summary Report
- Equity Assessment draft and final LRTP chapter
- Equity Assessment draft and final maps
- Electronic GIS files for all maps produced in the draft, final versions

TPO Responsibilities

• Review of draft and final documents, maps

TASK 17: PLAN IMPLEMENTATION

This task will involve developing a brief chapter in the 2050 LRTP devoted to adoption and implementation, including the amendment and modification process.

Consultant Deliverables

• Plan Implementation draft and final LRTP chapter

TPO Responsibilities

• Review of draft and final documents
