

TPO Board Meeting

Marion County Commission Auditorium 601 SE 25th Avenue, Ocala, FL 34471

November 29, 2022 4:00 PM (following 2045 LRTP Public Hearing)

AGENDA

- 1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE
- 2. ROLL CALL
- **3. PROOF OF PUBLICATION**

4. CONSENT AGENDA

- A. <u>TPO Meeting Minutes August 23, 2022</u> (Page 3)
- **B. Director Travel** (Page 61)

5. ACTION ITEMS

- **A.** Draft Commitment to Zero Safety Action Plan (Page 121) A presentation by Chris Keller of Benesch of the draft Action Plan.
- **B.** <u>Chair and Vice Chair Election</u> (Page 375) Per bylaws, the TPO Board elects a Chair and Vice Chair at the last meeting of the calendar year.
- C. <u>Appointments to the Florida Metropolitan Planning Organization</u> <u>Advisory Council (MPOAC)</u> (Page 377) *Action is requested to select a member and alternate for 2023.*
- **D.** Appointments to the Central Florida MPO Alliance (Page 379) Action is requested to select three delegates for 2023.
- E. <u>2023 TPO Board Meeting Schedule</u> (Page 381) Action is requested to approve the proposed meeting schedule for 2023.
- **F.** <u>**TPO Disadvantaged Business Enterprise (DBE) Program</u> (Page 383) Staff is requesting approval of the TPO's DBE Program document.</u>**
- G. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Amendment #2 (Page 418) Staff is requesting approval of a TIP amendment to include two additional projects per state fiscal year 2023 appropriation funding.

- H. <u>Continuity of Operations Plan (COOP)</u> (Page 637) Staff is requesting approval of the TPO's COOP document.
- I. <u>Annual Report Document and Template Scope of Services</u> (Page 661) *Staff is requesting approval of a Task Order Scope of Services.*
- J. Fiscal Years 2022/23 to 2023/24 Unified Planning Work Program (UPWP) Amendment (Page 673) Staff is requesting approval of an amendment to the UPWP.
- K. <u>Regional Transportation System Management and Operations</u> (TSM&O) Program (Page 804) *Staff is requesting approval of TPO participation in the regional program.*

6. COMMENTS BY FDOT A. Construction Report (Page 815)

7. COMMENTS BY TPO STAFF A. <u>Central Florida MPO Alliance Regional Project Lists</u> (Page 817)

8. COMMENTS BY TPO MEMBERS

9. PUBLIC COMMENT (Limited to 2 minutes)

10. ADJOURNMENT

All meetings are open to the public, the TPO does not discriminate on the basis of race, color, national origin, sex, age, religion, disability and family status. Anyone requiring special assistance under the Americans with Disabilities Act (ADA), or requiring language assistance (free of charge) should contact Liz Mitchell, Title VI/Nondiscrimination Coordinator at (352) 438-2634 or liz.mitchell@marioncountyfl.org forty-eight (48) hours in advance, so proper accommodations can be made.

Pursuant to Chapter 286.0105, Florida Statutes, please be advised that if any person wishes to appeal any decision made by the Board with respect to any matter considered at the above meeting, they will need a record of the proceedings, and that, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

The next regular meeting of the Ocala Marion Transportation Planning Organization will be held on January 24, 2023.

TPO Board Meeting

Marion County Commission Auditorium 601 SE 25th Avenue, Ocala, FL 34471 August 23, 2022 4:00 PM

MINUTES

Members Present:

Councilman Ire Bethea Commissioner Craig Curry Councilmember Kristen Dryer Councilmember James Hilty Councilmember Barry Mansfield Mayor Bill White

Members Not Present:

Commissioner Kathy Bryant Commissioner Jeff Gold Mayor Kent Guinn Commissioner Ronald Livsey Commissioner Michelle Stone Commissioner Carl Zalak

Others Present:

Rob Balmes, TPO Shakayla Irby, TPO Liz Mitchell, TPO Anna Taylor, FDOT Mike McCammon, FDOT Eric Smith, City of Ocala Clayton Murch, Marion Senior Services Darren Park, City of Ocala Oscar Tovar, City of Ocala Sean Lanier Other members of the public not signed in.

Item 1. Call to Order and Pledge of Allegiance

Chairman Ire Bethea called the meeting to order at 4:00pm and led the board in the Pledge of Allegiance.

Item 2. Roll Call

Shakayla Irby, Administrative Assistant called the roll and a quorum was not present. <u>Mr. Hilty made a motion to move forward with at least five voting members present to constitute</u> <u>a quorum.</u> <u>Mr. Curry seconded, and the motion passed unanimously.</u>

Item 3. Proof of Publication

Shakayla Irby, Administrative Assistant stated the meeting was published online at the TPO website and the City of Ocala, Belleview and Dunnellon and Marion County meeting calendars on August 16, 2022. The meeting was also published to the TPO's Facebook and Twitter pages.

Item 4. Consent Agenda

Mr. Hilty made a motion to approve the Consent Agenda. Ms. Dreyer seconded, and the motion passed unanimously.

Item 5A. Fiscal Years (FY) 2022/23 to 2023/24 Unified Planning Work Program (UPWP) Amendment

Mr. Balmes presented and said that the Unified Planning Work Program (UPWP) is a federally required two-year document that serves as the TPO's working budget. At the regularly scheduled meeting on March 22, the TPO Board approved the de-obligation of \$175,000 in FHWA PL-112 funding from the prior FY 2020/21 to 2021/22 UPWP.

The request was coordinated with the Florida Department of Transportation and approved by the Federal Highway Administration (FHWA). Through the approval process, the TPO was eligible to re-obligate the full \$175,000 of funding to the current UPWP in year one (Fiscal Year 2022/23).

The funding would be available and authorized after October 1, 2022. Pending Board approval, TPO staff proposes to re-obligate the full \$175,000 in funding to Tasks 1, 3 and 7 of Fiscal Year 2022/23.

Mr. Balmes provided a presentation that showed the breakdown of funding according to ask.

Task 1: Administration- \$2,600 \$100 Subscriptions \$2,500 Meeting Audio Equipment

Task 3: Long Range Planning- \$55,000 \$5,000 Salaries/Benefits \$50,000 2050 LRTP Placeholder

Task 7: Special Projects- \$117,400

\$5,000 Salaries/Benefits \$112, 400 Consultants

Mr. Hilty made a motion to approve the FY 2022/23 to 2023/24 UPWP Amendment. Mr. Curry seconded, and the motion passed unanimously.

Item 5B. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Amendment

Mr. Balmes presented and said TPO staff requested that one project be amended in the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) pertaining to the Unified Planning Work Program (UPWP) de-obligation funding.

FM# 439331-4: Ocala/Marion Urban Area FY 2022/2023 to 2023/2024 UPWP

- Current Funding Amount: \$723,984
- Proposed Funding Amount: \$898,984
- Funds to be added to FY 2023: \$175,000
- Addition of Federal Highway Administration (FHWA) PL-112 Planning Funding, de-obligated in prior UPWP

Mr. Curry made a motion to approve the FY 2023 to 2027 TIP Amendment. Mr. Hilty seconded, a roll-call vote was called and the motion passed unanimously.

Item 5C. Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP) Roll Forward Amendment

Mr. Balmes presented and said on an annual basis, the TPO worked in coordination with the Florida Department of Transportation (FDOT) to amend the Transportation Improvement Program, (TIP) through a roll-forward process. The process was undertaken because in some cases project phases that were programmed in the previous fiscal year (FY) of the prior TIP were not authorized and encumbered by June 30. The projects must then roll-forward to the new FY in July of the FDOT Work Program and be included in year one (FY 2023) the TPO's recently adopted TIP. Therefore, a TIP amendment was necessary to ensure full consistency with the FDOT Work Program.

A total of 41 projects (37 prior and 4 current) and \$37,222,430 (\$5,484,923 current) in funding had been proposed to be rolled forward to the FY 2023 to 2027 TIP. Some of the notable active projects include:

- SR 40 from East of CR 314 to East of CR 314A (Preliminary Engineering): \$6,857,570
- CR 484 from SW 20th to CR 475A (Construction, Preliminary Engineering, Right-of-Way): \$78,757 (\$73,757 + \$5,000)
- I-75 (Construction) Resurfacing from Sumter County to SR 200: \$138,300
- I-75 Dynamic Message Signs/ITS (Construction): \$559,945
- SunTran Capital and Operating Fixed Route: \$20,277,171
- SunTran Small Urban Capital: \$2,485,837 (\$1,231,367 + \$470,711 + 783,759)

Mayor White inquired about the difference between resurfacing and repaving.

Mr. Balmes said that resurfacing typically involved mill and fill where you can take off layers and resurface with fresh asphalt and could involve more in-depth work.

Mayor White said in Dunnellon there were several repaying asphalt projects that were expensive. Quotes on resurfacing seemed to be lower that repaying quotes.

Mike McCammon, Operations Engineer for FDOT approached the board and said that he would use the terms interchangeably and believed repaying usually would take off bad asphalt and replace it with good asphalt to a solid layer.

Mayor White asked if I-75 was resurfaced would there be areas that were concrete and if it was a different term to use for concrete.

Mr. McCammon said that concrete would not typically be resurfaced it would be removed and replaced however, there was not a lot of concrete pavement in Marion County.

Mr. Mansfield made a motion to approve the FY 2023 to 2027 TIP Amendment. Mr. Hilty seconded, a roll-call vote was called and the motion passed unanimously.

Item 5D. TPO Staff Position Reclassification

Mr. Balmes said that his focus was to recruit and retain a professional with a skillset requiring the ability to manage the Transportation Improvement Program (TIP), conduct database and Geographic Information Management System (GIS) analysis, coordinate with TPO committees and the Board, and support planning studies. Due to the upcoming 2050 Long Range Transportation Plan (LRTP), Mr. Balmes was seeking a professional with the ability to also manage the major TPO-led project.

The additional responsibility of managing the LRTP had prompted coordination with Marion County Human Resources to reclassify the vacant Senior Transportation Planner position to a Principal Transportation Planner. The reclassification would also help the TPO be competitive with other peer organizations in Florida with similar positions. The salary ranges for the positions were as follows:

(current) Senior Transportation Planner –\$65,126.21 to \$101,001.42 (proposed) Principal Transportation Planner –\$74,630.40 to \$115,668.80

Mr. Balmes sought board approval for the reclassification of the TPO Senior Transportation Planner to TPO Principal Transportation Planner.

Mayor White asked if raising the salary of the listed position would create compensation issues with other staff members.

Mr. Balmes said that Marion County had conducted an extensive compensation study and all staff had received adjustments due to the process.

Mr. Mansfield made a motion to approve the TPO Staff Position Reclassification. Ms. Dreyer seconded, and the motion passed unanimously.

Item 6A. SunTran Draft Transit Development Plan (TDP) Update

Mr. Steven Neal, Transportation Manager with the City of Ocala gave a presentation to the TPO board regarding the SunTran TDP Update.

Mr. Neal provided information to the board that included: Guiding Principles, Goals, Evaluation Criteria, Proposed Alternatives, Future Microtransit, Short-term Service Concept, Long-term Service Concept, Final Alternative Ranking Results, and the Preliminary 2023-2027 Year Implementation Plan.

Mr. Hilty inquired about the Microtransit and if it could accommodate a wheelchair.

Mr. Neal responded yes, and that Microtransit had a capacity of three people that is ambulatory and one passenger that is in a wheelchair.

Mr. Curry inquired if Microtransit could accommodate a bicycle.

Mr. Neal responded no, however, bicycle racks could be placed on the front or the back of the vehicle though they prefer not to place racks on the backs of the vehicles due to safety issues. If there was a passenger with a bicycle and there was no wheelchair passenger the Federal Transit Administration (FTA) said that the bicycle could be transported inside the vehicle.

Mr. Curry also inquired about the cost of the Microtransit.

Mr. Neal said that he had been working on the cost of the Microtransit.

The presentation is attached to pages 9-35 of this set of minutes for reference.

Item 6B. Marion Transit Overview

Mr. Clayton Much, Transportation Director/ Community Transportation Coordinator (CTC) with Marion Senior Services gave a presentation to the TPO board on Marion Transit.

Mr. Murch provided information that included: An explanation of Marion Transit, grant programs that provide funding for Marion Transit, Marion Transit Riders, 2021 trips by funding source, Deviated Fixed Routes, Deviated Route Ridership, and some of the Marion Transit Challenges.

The presentation is attached to pages 36-58 of this set of minutes for reference.

Chairman Bethea inquired about the two-hour window and asked Mr. Murch to expound.

Mr. Murch said that Marion Transit would come back within a two-hour window of when the passenger is ready to be picked up.

Mayor White thanked Mr. Murch for the recent visit to Dunnellon to present on the Marion

Transit service and said he would like to continue to work together to increase the knowledge of Marion Transit in the Dunnellon community and expand the ridership.

Mayor White also mentioned having meetings about the Marion Transit service with some of the major trailer parks and larger areas like Rainbow Springs.

Mr. Murch said that he was not opposed to conducting meetings to raise awareness of Marion Transit and had also been in contact with Citrus County to see how to break down the county barrier to make it accessible especially with the mall in Lecanto being closed because there was a need for shopping and other access.

Item 6C. TPO Finance Report

On a quarterly basis Liz Mitchell, Grants Coordinator for the TPO provided updated to the board to ensure they remained informed of the funding status and the financial outlook throughout the year.

The financial report is attached to pages of this set of minutes for reference. Chairman Bethea inquired about reasons for the total revenue remaining balance of \$455, 700.18 in the budget summary.

Ms. Mitchell said that the remaining balance of funds would be carried forward into the second year of the next two-year contact and the other funds listed would be ongoing.

Mr. Balmes said that the Federal Transit Administration- 5305d balance of \$145,332.50 was incumbered with the Safety Action Plan and the funding would be spent down within the next few months. Also, part of the reason for the extra balance was tied to staff vacancies and a closeout funding balance from several years ago that the FDOT worked with the TPO to close out.

7. Comments by FDOT

Ms. Anna Taylor with the FDOT provided the board with the most current construction report and highlighted two projects:

CR 484 and I-75 Interchange and Roadway Improvements- scheduled to go to construction in September 2022 and preconstruction meeting had taken place in August 2022. However, Mr. McCammon with FDOT said that the project had been delayed for a couple of months.

Resurface US 441 from State Road 35 (SE Baseline Road) to State Road 200- still working on the job and daytime and nighttime lane closures were still in effect. FDOT was actively working to resolve business access issues with some of the stakeholders along the corridor.

Ms. Taylor also informed the board of the public hearing regarding project plans for a new interchange on Interstate 75 (I-75) at NW 49th Street near Ocala that would take place August 25, 2022 at the Southeastern Livestock Pavilion – North Hall, 2232 NE Jacksonville Road, Ocala, FL 34470 between the times of 5:30 p.m. and 7 p.m. The public hearing could be attended in-person, register online at the FDOT website to access virtual or dial in by phone.

8. Discussion Item: Florida Metropolitan Planning Organization Advisory Council (MPOAC) Update

Mr. Balmes opened the discussion with a brief overview of the MPOAC and said that the Florida Metropolitan Planning Organization Advisory Council (MPOAC) was created by state statute to serve and support the 27 metropolitan planning organizations (MPO) of Florida.

The MPOAC consists of a 27-member Governing Board of local elected officials from each of the MPO's in the state, along with a Staff Directors' Advisory Committee. Representatives for the Ocala Marion TPO included Commissioner Craig Curry as the Governing Board Member, Rob Balmes as the Staff Advisory Committee Member, and Councilmember Kristen Dryer as the alternative Governing Board Member.

Mr. Curry gave a brief overview of MPOAC meeting and said that they were able to tour the FDOT material site located in Gainesville, FL. One of the goals Mr. Curry shared was that he wanted to ramp up the knowledge of the MPOAC and enthusiasm of the Ocala Marion TPO Board. He shared with the board that the MPOAC is a seat at the table.

Mr. Curry also informed the board that the MPOAC was in the process of updating its Strategic Directions Plan and all members of the MPOAC had been asked to review the Plan and provide comments to the Executive Director, Mark Reichert, prior to the next meeting on October 27, 2022.

Mr. Curry encouraged the board to review the Strategic Directions Plan and share/discuss comments at the September Board meeting. A set of comments from the TPO would then be shared with Mark Reichert.

Mr. Curry mentioned a teleconference that would take place in October 10, 2022 with the Executive Director, Mark Reichert and asked Ms. Dryer to attend that meeting also as the alternative.

Mr. Balmes said that Executive Director, Mark Reichert did have plans to visit every MPO in the state and at some point, he would come to the Ocala Marion TPO to introduce himself.

Item 9. Comments by TPO Staff

Mr. Balmes gave comments on the following:

- Stop on Red Week Community Safety Event: The event took place successfully on August 11, 2002 and special thanks was given to Chairman Bethea and District 5 Office of Safety. There was great partnership and coordination from TPO Staff and first responders.
- Commitment to Zero Safety Action Plan Update: The consultant team had been finalizing a draft Action Plan for public review. The draft Action Plan was expected to be released in August. A formal presentation would be made at the September 27th Board meeting. An important aspect of this project was public and partner involvement. The TPO had been focused on ensuring a minimum 30-day public and partner review period of the draft Action Plan. As a result, the TPO Board would not be requested to adopt the Action Plan until the November 29, 2022 meeting. TPO Board members would receive a

notification when the draft Action Plan is made available. The Action Plan may also be accessed at the project website: <u>https://ocalamariontpo.org/safety-plan</u>

• Census Urban Boundary and Functional Classification Update: At the TPO committee meetings on August 9, the FDOT District 5 team, led by Alice Giuliani, delivered an overview presentation on the Urban Boundary and Functional Classification process tied to the 2020 Census. Included with this memo is the presentation.

The entire process was anticipated to take place from 2022 to 2025. However, some important upcoming dates for the TPO are as follows:

Winter/End of Calendar 2022: Census Bureau release of 2020 Urbanized Areas Winter/Spring of Calendar 2023: USDOT designation of Transportation Management Areas (TMAs)

The TPO Board would remain fully updated on all activities related to the Census, TMA status and Functional Classification so appropriate actions, as needed, may be taken with the US Department of Transportation and the State of Florida.

• 2045 Long Range Transportation Plan (LRTP) Amendment Update: The TPO conducted a 30-day call for 2045 LRTP Amendments on April 18, 2022. The process involved an email notification to all four jurisdictions and Florida Department of Transportation (FDOT).

A 2045 LRTP Amendment Public Hearing had been planned to take place at the TPO Board meeting on September 27, 2022, to include projects added to the Cost Feasible Element and Unfunded Needs Element. A minimum 30-day public notification would be made in advance of the hearing on August 25, 2022 per the adopted TPO Public Participation Plan (PPP).

Item 10. Comments by TPO Board Members

There were no comments by TPO Board Members.

Item 9. Public Comments

There were no public comments.

Item 10. Adjournment

The meeting was adjourned by Chairman Bethea at 5:26pm.

Respectfully Submitted By:

Shakayla Irby, Administrative Assistant

Ocala Marion County Transportation Planning Organization (TPO) Board Meeting

August 23, 2022

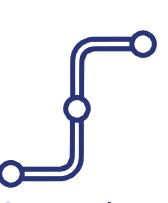

These guiding principles, and the goals on the following slide, were used to create the improvements that will promote an easy to use, rider-oriented service.

Bidirectional service

Strong anchors

Regular frequencies

Goals

| Environment and Equity | Accessibility | Usability | Efficiency | Presence |
|--|--|---|--|--|
| Enhance the integration of transit services to support environmental sustainability and address equity issues within the community. | Expand transit services to maximize access to opportunities. | Make the system more convenient and useful for residents and visitors. | Maximize the productivity and financial efficiency of transit operations. | Engage the community to improve service awareness and public support. |

Evaluation Criteria

Evaluation Criteria

- 1. Meets Goals & Objectives 50%
- 2. Public Engagement 12.5%
- 3. Equity 12.5%
 - Low-income populations
 - Minority populations

4. Markets – 12.5%

- Population & Jobs
- Activity Centers

5. Efficiency – 12.5%

- Route streamlining
- Ridership

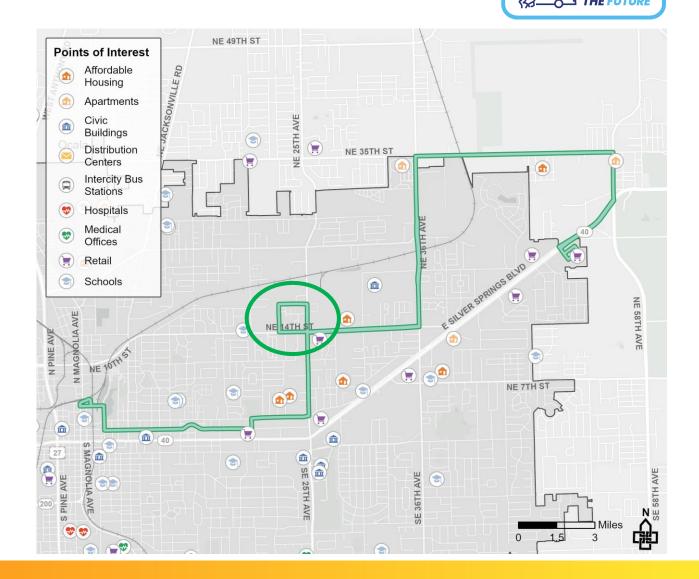

Proposed Alternatives

Blue-Green-Orange-Purple

Proposed Improvement

Serve the Florida Center for the Blind with the Green Route instead of the existing Yellow Route A.

Increase frequency on Blue-Green-Orange-Purple interline

RIDING INTC

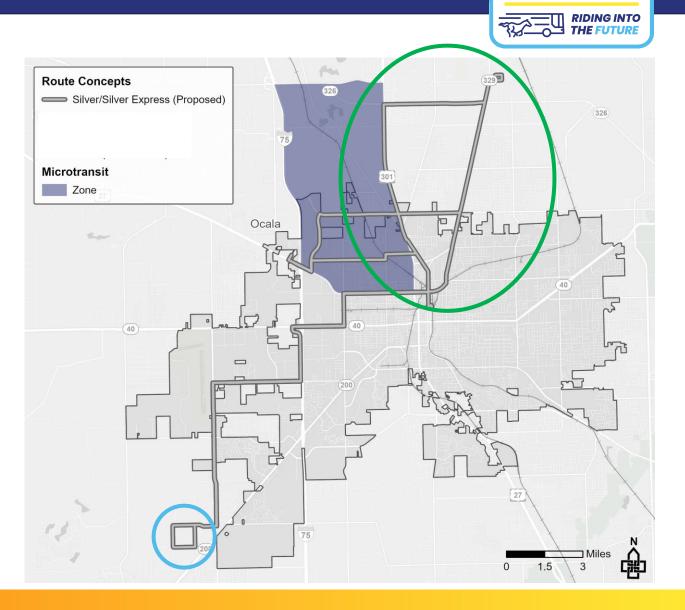

Silver / Silver Express Routes

Proposed Improvement

Change the northernmost stops of the Silver Route to serve the **Compassion Food Bank and Landfair Homes on Old US Highway 301 at NE 77th Street.**

Extend the Silver Express Route to the upcoming planned developments in the area of SR 200 and SW 60th Avenue.

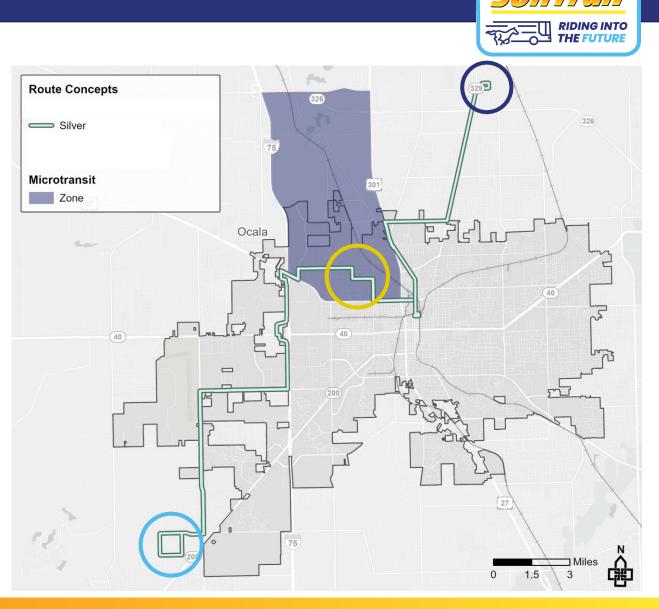

Replace Silver Route service to the Ocala Greyhound Bus Station with the Northwest Ocala **proposed Microtransit zone**.

Silver / Silver Express Routes

Proposed Improvement

In the long-term, update and combine the Silver Express and Silver Routes, to serve the upcoming planned developments in the area of SR 200 and SW 60th Avenue, the Mary Sue Rich **Community Center**, Downtown Transit Center, and the **Compassion Food bank**. This longer-term plan would be based on the success of Microtransit in Northwest Ocala.

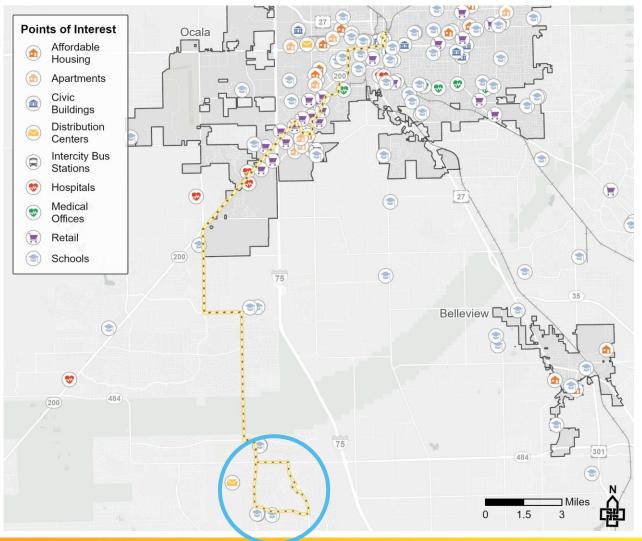

Yellow B / Marion Oaks Route

Proposed Improvement

Extend the Yellow B Route to serve Marion Oaks. This improvement would provide residents of Marion Oaks with a connection to Downtown Ocala.

Streamline the Yellow B route to focus more on SR-200

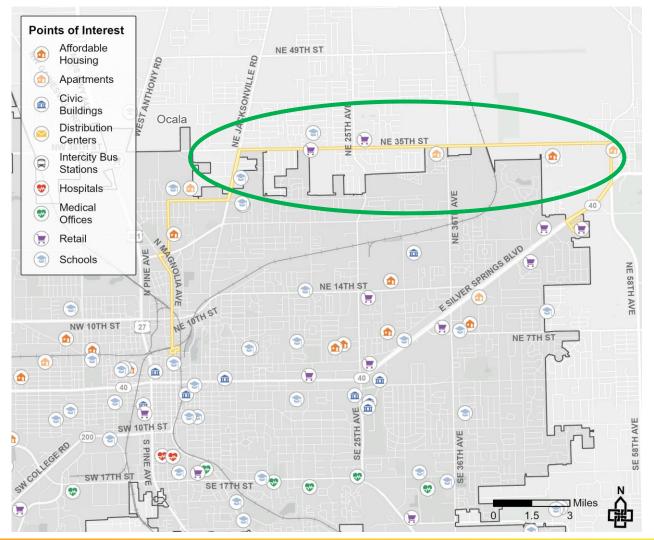

Yellow A Route

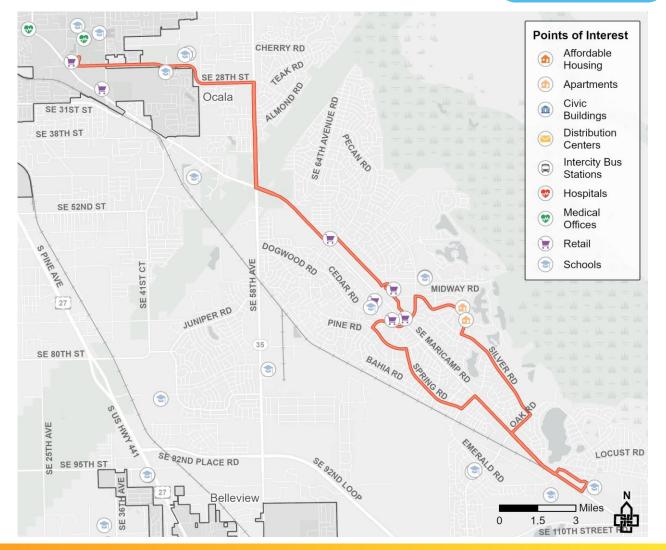

Proposed Improvement

Operate Yellow A Route along **NE 35th Street**. Currently the Yellow A Route overlaps with the Green Route on NE 14th Street and the Blue Route on E Silver Springs Boulevard. This change would focus service on the most popular segments of the Yellow A route.

Increase frequency during peak hour

Update the Red Route by removing service along SE Maricamp Road between Baseline Road and SE 24th Street. This would make service easier to use and more focused on the most popular segments of the route. Service along SE Maricamp Road would be maintained by the Belleview Route.

Red Route

Red Route

Proposed Improvement

End service on the Red Route at the Silver Springs Shores Walmart, while serving the rest of the existing route with microtransit service. This microtransit area would cover Silver Springs Shores from the Walmart to SE 110th Street, providing transit options to an area with limited pedestrian infrastructure.

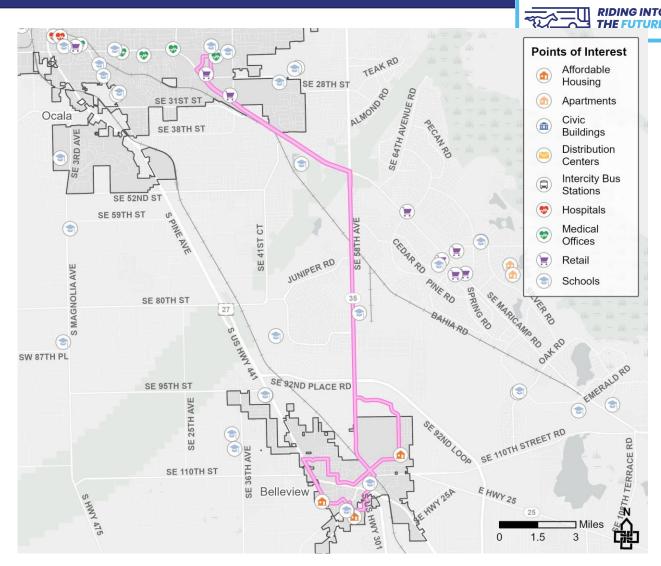

Belleview Route

Proposed Improvement

Provide service to Belleview along SE Maricamp Road and SE 58th Avenue, it would connect with the Blue Route at the Health Department Transfer Station. This provides the fast-developing portion of Marion County with access the City of Ocala via transit.

Microtransit

SUMTROM RIDING INTO THE FUTURE

Microtransit is an on-demand transportation service that can be requested by an app and works like Uber or Lyft. Microtransit would provide an option to residents that need transit, but do not have a transit route/stop nearby and helps bring options to areas that are not easily served by the traditional bus routes for various reasons.

Microtransit

Provides service within defined zones and only to/from nearest transit stop.

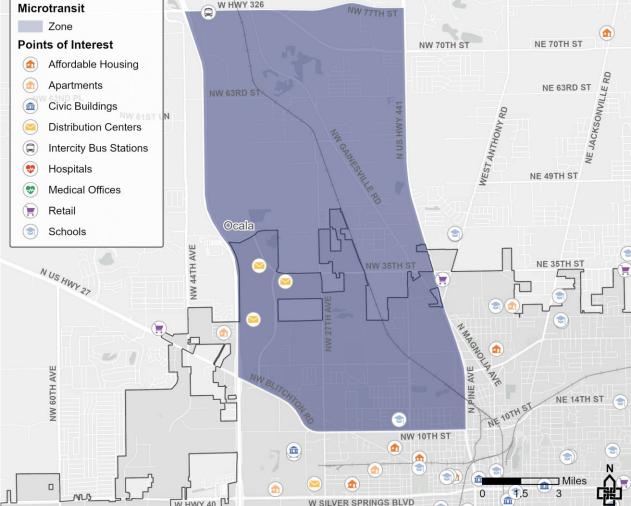

Microtransit vehicle example:

Microtransit

Northwest Ocala Microtransit: Service for area between Highway 326 to the north, I-75 to the west, SR 326 to the south, and US 301/441 to the east. This less-populated microtransit zone would serve to connect residents with jobs at the distribution centers along NW 35th Avenue, as well as with the Ocala Greyhound Bus Station.

W HWY Microtransit Zone Points of Interest Affordable Housing Apartments â **Civic Buildings** Distribution Centers Intercity Bus Stations . Hospitals Medical Offices Retail Ocala Schools

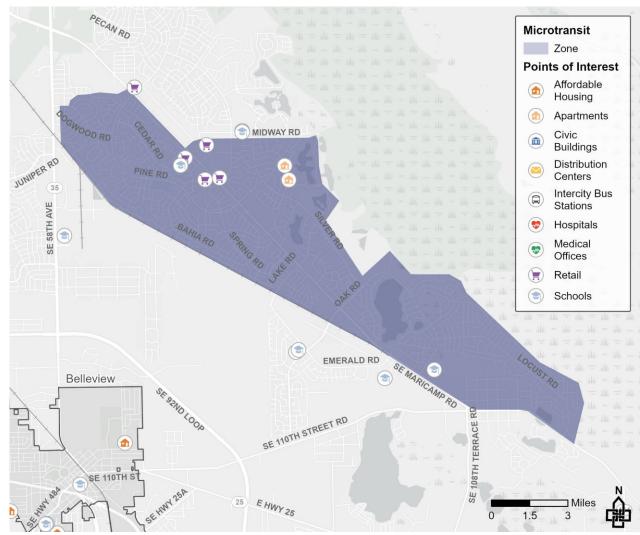

Microtransit

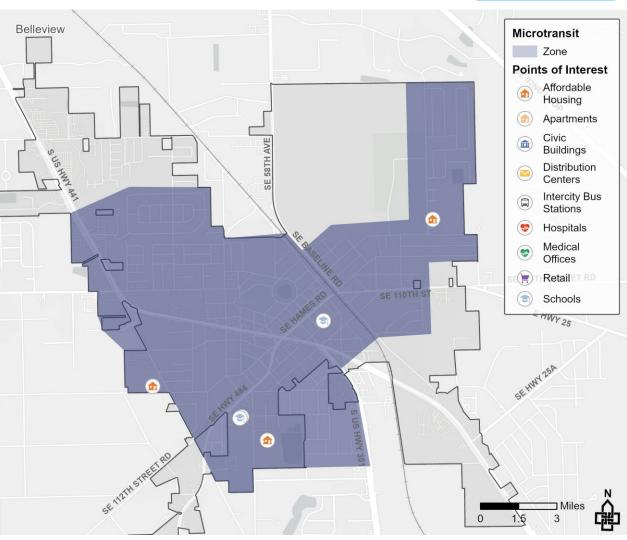

Proposed Improvement

Silver Springs Shores area Microtransit: Service from the Walmart to SE 110th Street, providing transit options to an area with limited pedestrian infrastructure.

Belleview area Microtransit: Service for the City of Belleview, surrounding neighborhoods, and the Belleview Sports Complex.

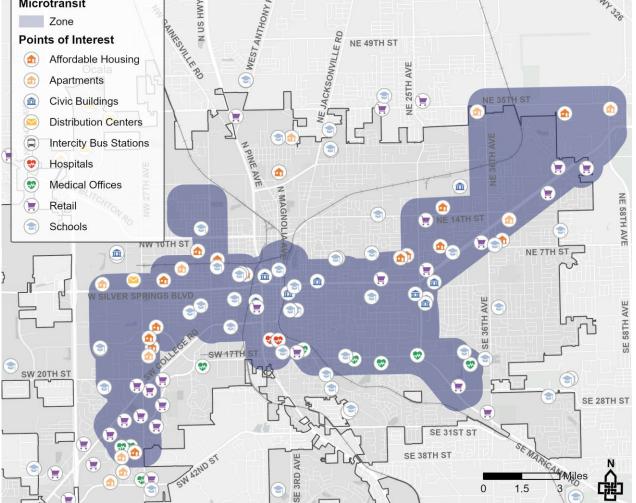

Microtransit

Microtransit

Sunday service Microtransit: Service for the areas served by the Green, Blue, Orange, and Purple routes. This would ensure that SunTran riders along these routes could use transit to meet their transportation needs every day of the week.

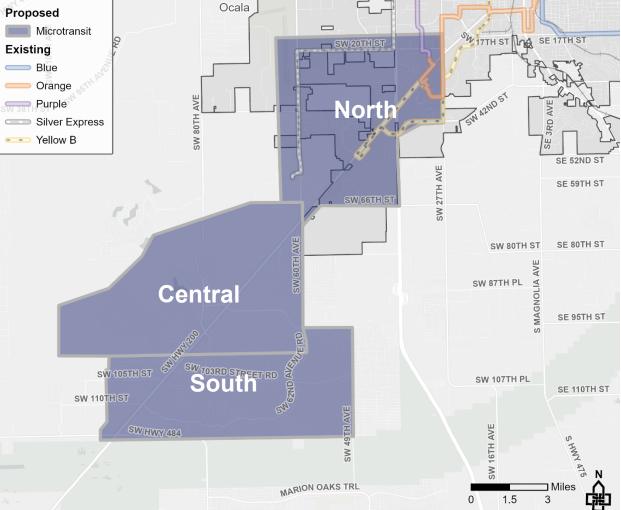

Microtransit Zone Points of Interest Affordable Housing

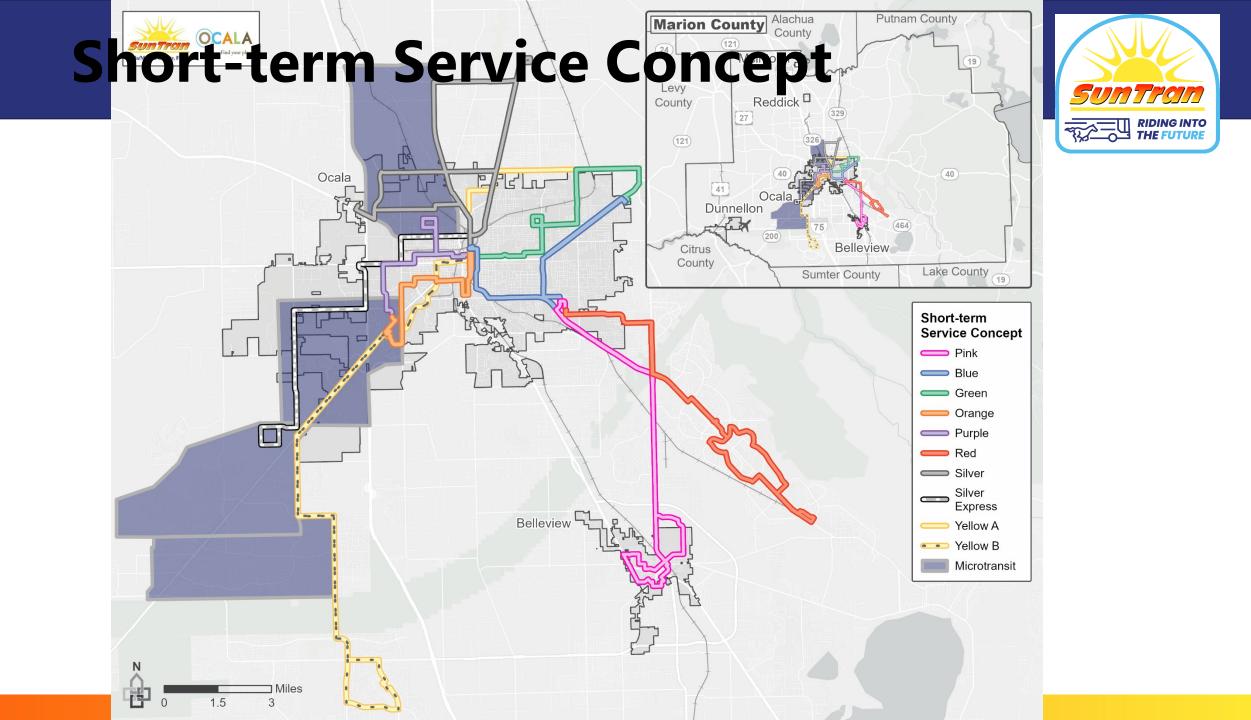

SR-200 Microtransit: Three microtransit services were proposed for areas along the SR 200, namely North, Central, and South. This would ensure that SunTran passengers have access to the larger area along the busiest corridor of Ocala. Also, on top of the world elderly community, which is going to have tremendous developments within the next few years, is served by SR-200 Central Microtransit Area

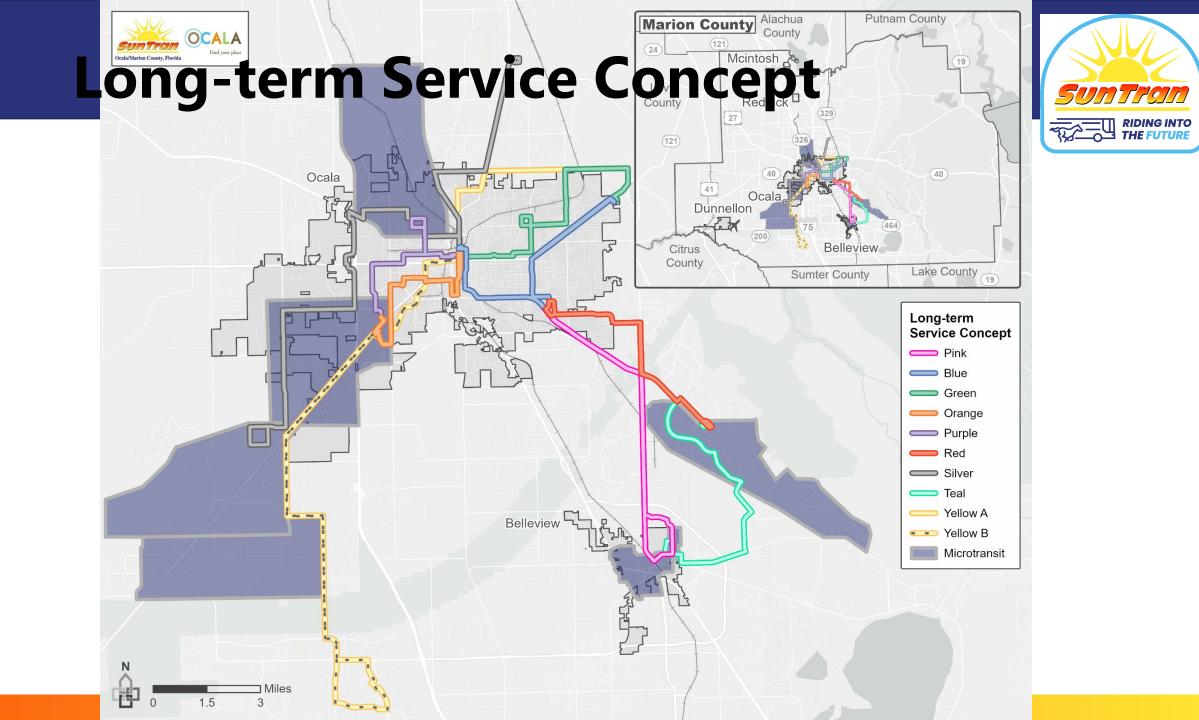

Sit: Three microtransit posed for areas along y North, Central, and ensure that SunTran

Who is Marion Transit?

Marion Transit - Serving Marion County, Florida since 1976

Our not-for-profit, paratransit service provides public transportation to all persons in our service area of Marion County, Florida, however, it is designated to maximize usage by "transportation disadvantaged" persons in general.

Fast Facts:

1982 - Designated as the Marion County Community Transportation Coordinator (CTC) by Florida Commission for the Transportation Disadvantaged. Marion Senior Services, Inc. dba **Marion Transit has been the CTC since the program inception**. In June 2020, we were again designated by the Florida TD Commission to serve as Marion County's CTC for another 5-year term.

Service Area - All of Marion County Florida, 1663 square miles (larger than the state of Rhode Island).

Average number of one-way trips per day: 350-450 (Pre-COVID19)

Number of paratransit buses on the road per day: 25-35

Grant programs that provide funding for MARION TRANSIT

5311 – Rural Transportation (Requires 50% Local Match)

Grant is awarded by FDOT Funds are utilized for operating expenses

5310 – Enhanced Mobility of Seniors & Individuals with Disabilities (Requires 10% Local Match) Capital Funds to purchase buses Grant is awarded by FDOT

Transportation Disadvantaged Trip & Equipment Grant Program (TD Grant – Requires 10% Local Match)

Grant is awarded by CTD TDLCB approves equipment purchases. TRIP Rates are reviewed by board. Funds are "formula" based throughout the 67 Counties.

"Other" Grants are applied for as needed. Shirley Conroy Rural Assistance Grant 5339 for Buses & Bus Facilities, etc.

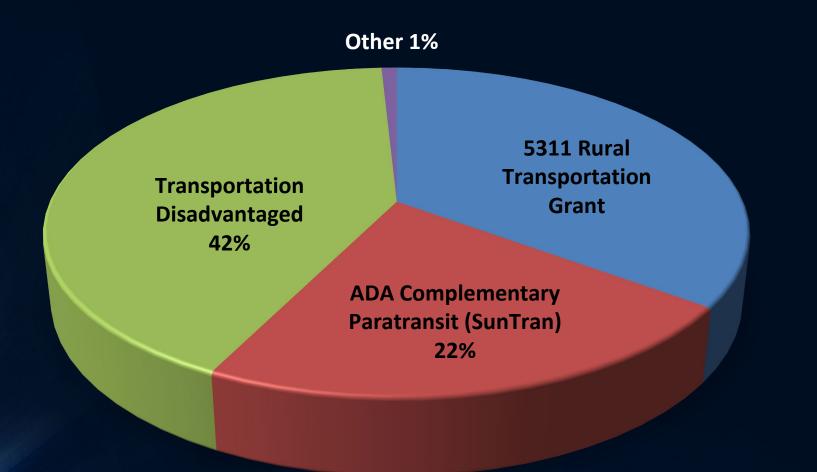

Local match funds required for these grants come primarily via budget requests made to the Marion County Board of County Commissioners, fare revenue & donations.

MARION TRANSIT Riders

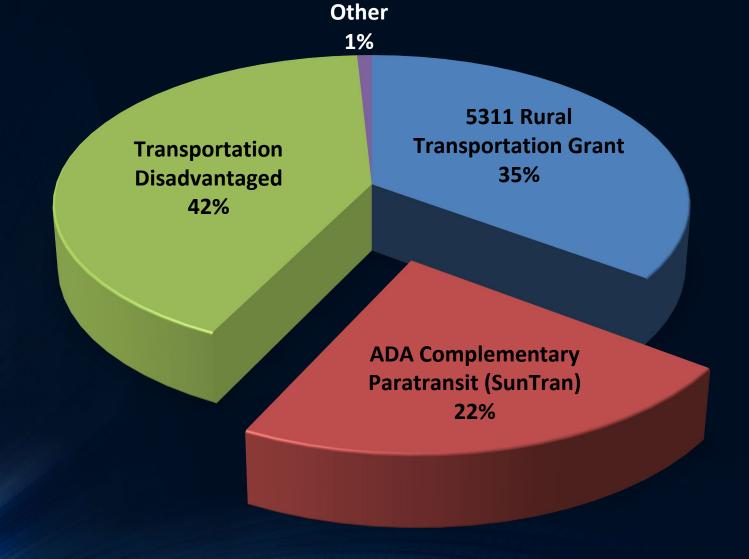

2021 Trips by Funding Source

Americans with Disabilities Act (ADA)

AMERICANS WITH DISABILITIES ACT (ADA) -

The City of Ocala is the administrative agency for SunTran and has contracted with RATP Dev to perform day-to-day operations and management of the fixed route system.

Fixed route systems are required to provide ADA complementary paratransit service to riders who live within ³/₄ of a mile of the fixed route system and cannot walk to a bus stop.

Marion Transit has the agreement with RATP to provide that service for them. Note: *Center for Independent Living is the designated agency who qualifies riders for MT*.

Transportation Disadvantaged (TD)

Other

1%

Transportation Disadvantaged 42% 5311 Rural Transportation Grant 35%

ADA Complementary Paratransit (SunTran) 22%

TRANSPORTATION DISADVANTAGED (TD) -

Rider eligibility is determined locally based upon Chapter 427, Florida Statutes and Commission Guidelines.

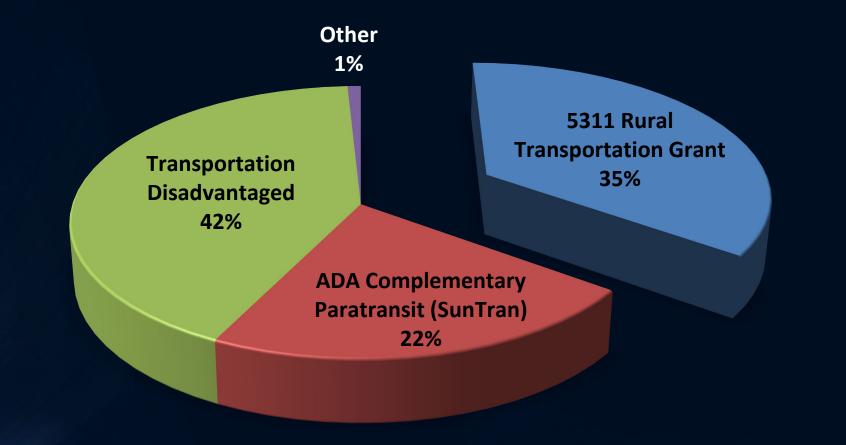

Currently:

No other funding available No other means of transportation is available Cannot utilize public transit Physical or mental disability Age (60+ or under 16) Income status is a specified percent of the poverty level (150% below) No self-declarations allowed (must show proof or provide affidavit) Ability to pay (we offer a fare waiver for fares)

Rural Transportation (5311)

RURAL OPERATING (5311) -

Marion Transit is committed to providing "public transportation" services to all persons in our rural service area.

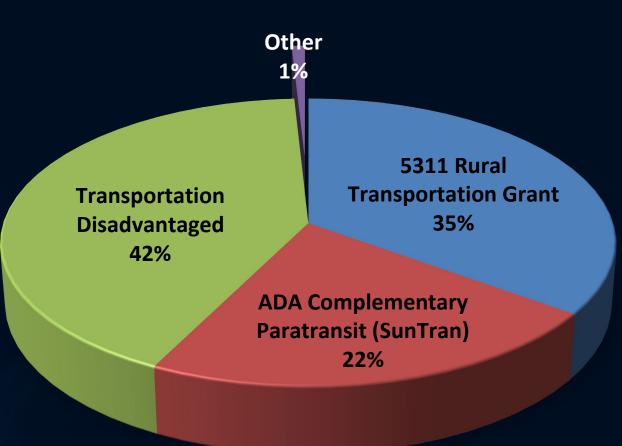

The service is designed to maximize usage by transportation disadvantaged persons, in general, but is open to the public during all operating hours.

Since we are not a fixed route system, rural riders need to call for an appointment following our RSVP guidelines.

Exception – Blue & Gold Lines

Other Riders

OTHER RIDERS -

These are agreements with MT to provide transportation for eligible riders.

In 2020 we signed an agreement with the Marion County School Board to provide homeless children rides to school until they could be scheduled on normal bus routes.

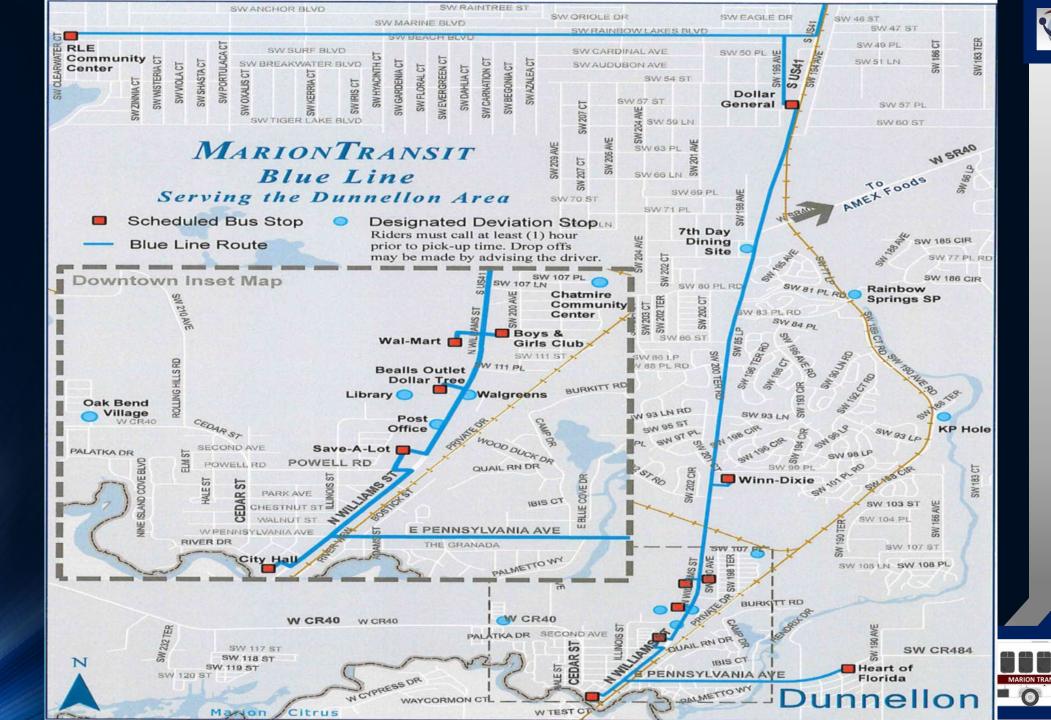

Prior agreements were with Medicaid brokers (i.e., MTM, Access2Care, etc.) providing trips such as pediatric babies to their daycares.

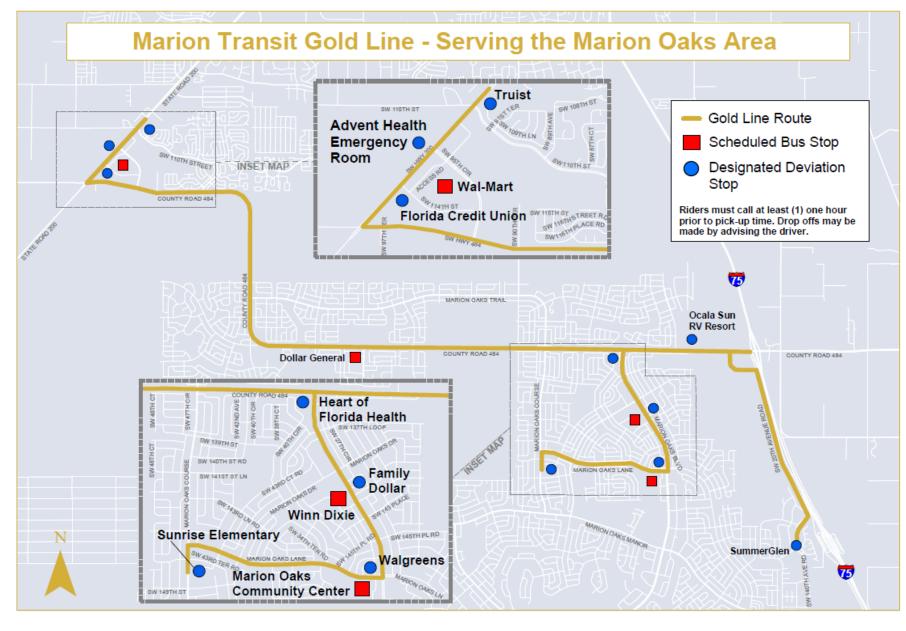

MARION TRANSIT Deviated Fixed Routes

BLUE LINE

GOLD LINE

Our Mission

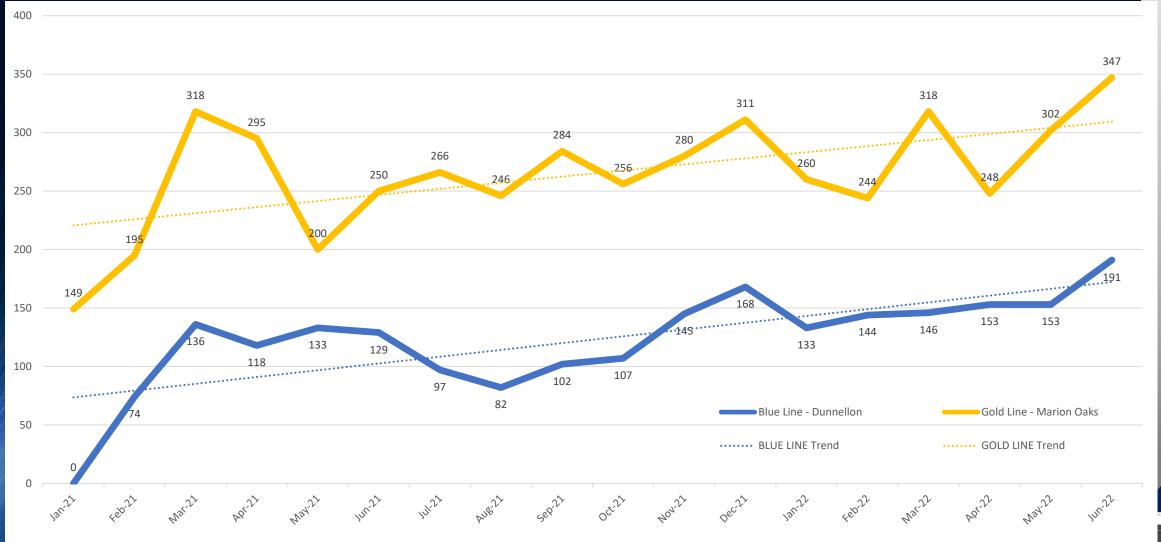

"Is to provide Public Transportation that offers riders a high-quality, safe, reliable, and efficient paratransit experience"

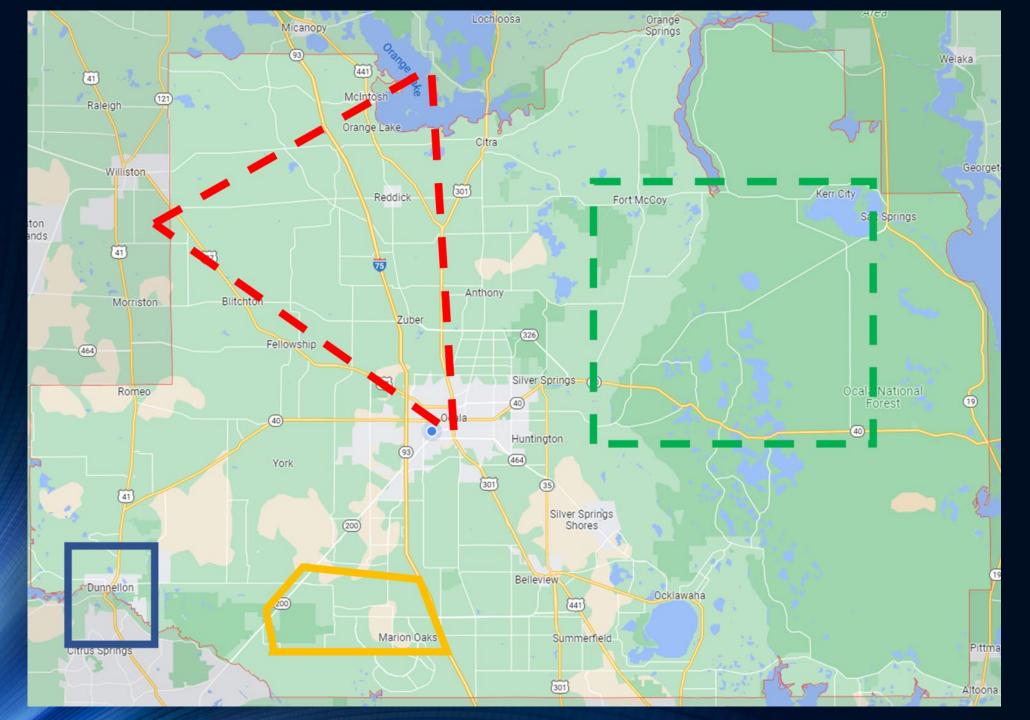

Reservations and Information:

Deviated Route Ridership

MARION TRANSIT Challenges

Biggest Challenges for Marion Transit?

Staffing

- Compensation in a not-for-profit environment
 - Pay has been increased from \$13.00 to \$15.00 per hour as of August 1, 2022
 - Cannot increase at this rate annually given current grant funding methodologies
 - Dependent upon funding that is awarded based on prior year(s) performance (financial & operational)
- Availability of drivers
 - Workforce has historically been comprised of retirees now people are staying in their careers longer
 - Many other jobs available in Ocala & surrounding areas
 - Pay versus other positions in Ocala
 - Drug testing requirements versus other available positions
- Stress of the job
 - Health of clients (advanced ages health issues = fall risks, passing away, etc.)
 - Lack of appropriate staffing levels = longer hours
 - Appointment times (2 hours +/-; 1 hour +/- for ADA)
 - Increased traffic in Ocala
 - Potential increase in exposure to viruses (COVID, Monkeypox, Flu, etc.)
 - Difficult clients
 - Parts availability contributing to assigned buses not being available

Biggest Challenges for Marion Transit?

- Funding current funding for some programs does not fully cover the cost of the programs
 - Transportation Disadvantaged Grant fixed amount allocation based on formula
 - 5% population
 - 5% centerline miles of public roads
 - 30% performance in delivering TD services (last year's performance)
 - 60% of last year's grant allocation
 - Underfunding causes us to prioritize trips which in turn leads to reduced revenue (grants are paid by the trip)
 - 2020 census data is expected to realign some 5311 trips to be TD trips (GOLD line) creating a further drain on the "fixed" TD funding – most likely outcome will be to rationalize trips

Rising costs

- Wages (to remain competitive)
- Fuel
- Buses and bus parts
- Medical & Vehicle Insurance
- Etc.

Biggest Challenges for Marion Transit?

Historical Methodology vs. Current Demands

- Currently utilize a 72-hour in advance appointment requirement society is moving to a more on-demand model.
 - Uber, Lyft, & Microtransit technology (phone apps)
 - Many of our clients are not tech-savvy
 - Many do not have smart phones
 - Need to identify opportunities to decrease the reservation time requirement
 - Phone apps will not provide a complete solution
 - ADA clients currently call the day before
 - The 72-hour notice for other clients does not create a major benefit for MT as we are dependent upon the ADA clients to complete our scheduling anyway

• Currently utilize a 2-hour window for appointment & pickup times (1-hour for ADA)

- Need to identify opportunities to decrease the pickup/drop off time window
 - Phone apps will not provide a complete solution
 - Feasibility of having multiple "wait stations" in strategic areas is being researched
 - Medical facilities do not schedule appointments to support transit capabilities
 - i.e. client lives 1-mile away from a facility in the Shores, but appointment is made for Ocala

ThankYou

TO: TPO Board Members

RE: Director Travel Reimbursement Approval

TPO Director Rob Balmes travel reimbursement request for \$754.00, per TPO Travel Policy and current U.S. General Services Administration (GSA) travel and Internal Revenue Service (IRS) mileage rates.

 <u>August 17, 2022</u>
 Federal Highway Administration (FHWA) Safety Peer Exchange Ocoee, FL (Turnpike Headquarters)
 Travel Reimbursement Requested: \$93.75

<u>August 18, 2022</u>
 FDOT/MPO Florida Partnership Meeting (FMPP)
 Ocoee, FL (Turnpike Headquarters)
 Travel Reimbursement Requested: \$93.75

 <u>August 19, 2022</u>
 FDOT/MPO Florida Partnership Meeting (FMPP) Ocoee, FL (Turnpike Headquarters) Travel Reimbursement Requested: \$93.75

 September 7, 2022
 TPO Director and Chair Meeting with FDOT District 5 Secretary DeLand, FL
 Travel Reimbursement Requested: \$73.75

6. <u>October 7, 2022</u>

Instructions for Completing the Contractor Travel Form

Contractor: Name of the individual who performed travel.

Contract or PO No.: Number of the contract or Purchase Order on which work was performed.

Company: The consultant's company.

Company's Address: City where the consultant's company is located.

Residence (City): City where the consultant resides.

Contact Person: Person to notify for inquiries related to the travel voucher.

Telephone No: The telephone number of the contact person.

E-Mail Address: E-Mail address of the contact person.

Date: (MM/DD/YYYY) Dates of actual travel.

Travel Performed From Point of Origin to Destination: Departing location to the city or town of where business will commence. List each location. NO ABBREVIATIONS.

Purpose or Reason for Travel: Give reason for travel. Specify name of conference, convention, seminar, training, etc. NO ABBREVIATIONS and NO ACRONYMS

Hour of Departure and Return: Actual time of departure and return. Must state A.M or P.M.

Class A & B Meal Allowance: Itemize daily using the appropriate meal allowance: \$6 for breakfast, \$11 for lunch, and \$19 dinner per F.S. 112.061. Deduct any meals included in a registration fee paid by DOT.

Per Diem/Actual Lodging: Itemize daily. For per diem use the rate of \$80 per day prorated on a quarterly basis. When calculating per diem Class A travel day starts at midnight and Class B travel day begins at the time of departure. For actual lodging use single occupancy rate including taxes.

Map Mileage: Point to point mileage calculated from the Official Department of Transportation map (in-state) available on the Internet at http://www3.dot.state.fl.us/mileage.

Vicinity Mileage: Mileage other than map mileage incurred within headquarters or destination.

Incidental Expenses: List the amount and the type of charge being charged (do not itemize daily).

Column Total: Total cost for class A & B meal allowance.

Column Total: Total cost for Per Diem/Actual Lodging.

Total Miles: Total of map and vicinity mileage at \$0.445 per mile.

Column Total: Total cost of incidental expenses.

Summary Total: Total cost to the Department of Transportation.

Contractor: Individual who performed the travel.

Date: Date the travel form was prepared.

Job Title: Job title of the traveler.

Contractor's Supervisor: Traveler's supervisor.

Date: Date the authorized official approved/signed the travel form.

Typed or Printed Name: Typed or printed name of the authorized official.

Title: Job title of the authorized official.

Justification/Explanation: Explain any unusual claims for reimbursement.

Other Personnel in Party: List the names of other personnel traveling with you.

Meal Allowances and Travel Status are as follows:

Refer to Disbursement Handbook, Section 112.061, F.S. and Chapter 69I-42 F.A.C. and Department of Financial Services for complete instructions.

CLASS A TRAVEL STATUS - Continuous travel of 24 hours or more away from official headquarters. CLASS B TRAVEL STATUS - Continuous travel of less than 24 hours requiring overnight absence from official headquarters.

MAXIMUM ALLOWANCES FOR MEALS AS FOLLOWS:

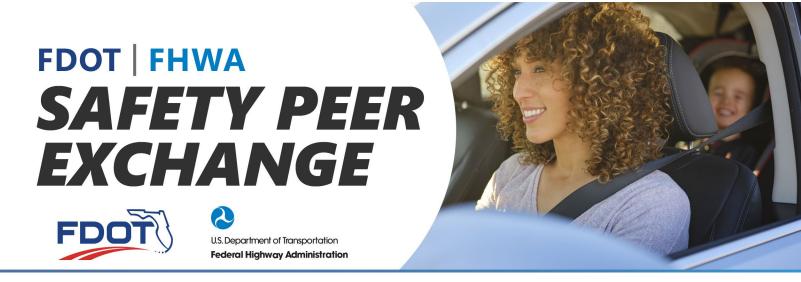

BREAKFAST \$6.00 - When travel begins before 6 a.m. and extends beyond 8 a.m.

LUNCH \$11.00 - When travel begins before 12 noon and extends beyond 2 p.m.

DINNER \$19.00 - When travel begins before 6 p.m. and extends beyond 8 p.m., or when travel occurs during nightime hours due to special assignment.

(NOTE: No allowance shall be made for meals when travel is confined to the city or town of official headquarters or immediate vicinity.)

AGENDA

Objectives

- Share effective practices metropolitan planning organizations (MPO) are using to address safety in project prioritization processes.
- Identify potential activities for implementation by Florida's MPOs and FDOT to enhance consideration of safety in the planning and prioritization process

Schedule

DAY 1: WEDNESDAY, AUGUST 17, 2022

12:30 pm **Registration opens** 1:00 pm Welcome and Introductions FDOT – Alison Stettner Federal Highway Administration – Kevin Burgess Self-introductions 1:20 pm Agenda Review 1:25 pm How MPOs Are Incorporating Safety in Planning and Prioritization Decisions¹ Baltimore Metropolitan Council – Cindy Burch Knoxville Regional TPO - Ellen Zavisca Lexington Area MPO - Chris Evilia 3:00 pm **Break** 3:15 pm How MPOs Are Incorporating Safety in Planning and Prioritization Decisions (continued)¹ Mid-America Regional Council – Ron Achelpohl Roanoke Valley TPO - Cristina Finch 4:15 pm Group Discussion: Strenghtening Our Focus on Safety

¹ Order of presentations to be determined

FDOT | FHWA Safety Peer Exchange

- 4:50 pm Recap of Day 1 and Plan for Day 2
- 5:00 pm Conclude Day 1
- Dinner On your own; restaurant suggestions to be provided

DAY 2: THURSDAY, AUGUST 18, 2022

- 8:00 am Networking and Coffee
- 8:30 am Recap Day 1 and Review of Agenda for Day 2
- 8:40 am Breakout Groups on How MPOs are Incorporating Safety in Planning and Prioritization:
 - Share effective practices
 - Identify potential enhancements
- 9:45 am Report Outs from Breakout Groups
- 10:30 am Break
- 10:45 am Facilitated Roundtable Discussion
 - Potential individual and collective actions for Florida's MPOs
 - Potential activities for FDOT and FHWA
 - Other future collaboration and capacity building opportunities

11:50 am Closing Remarks

- FDOT- Alison Stettner
- FHWA Kevin Burgess
- 12:00 pm Adjourn
- Lunch On your own; restaurant suggestions to be provided

Instructions for Completing the Contractor Travel Form

Contractor: Name of the individual who performed travel.

Contract or PO No.: Number of the contract or Purchase Order on which work was performed.

Company: The consultant's company.

Company's Address: City where the consultant's company is located.

Residence (City): City where the consultant resides.

Contact Person: Person to notify for inquiries related to the travel voucher.

Telephone No: The telephone number of the contact person.

E-Mail Address: E-Mail address of the contact person.

Date: (MM/DD/YYYY) Dates of actual travel.

Travel Performed From Point of Origin to Destination: Departing location to the city or town of where business will commence. List each location. NO ABBREVIATIONS.

Purpose or Reason for Travel: Give reason for travel. Specify name of conference, convention, seminar, training, etc. NO ABBREVIATIONS and NO ACRONYMS

Hour of Departure and Return: Actual time of departure and return. Must state A.M or P.M

Class A & B Meal Allowance: Itemize daily using the appropriate meal allowance: \$6 for breakfast, \$11 for lunch, and \$19 dinner per F.S. 112.061. Deduct any meals included in a registration fee paid by DOT.

Per Diem/Actual Lodging: Itemize daily. For per diem use the rate of \$80 per day prorated on a quarterly basis. When calculating per diem Class A travel day starts at midnight and Class B travel day begins at the time of departure. For actual lodging use single occupancy rate including taxes.

Map Mileage: Point to point mileage calculated from the Official Department of Transportation map (in-state) available on the Internet at http://www3.dot.state.fl.us/mileage.

Vicinity Mileage: Mileage other than map mileage incurred within headquarters or destination.

Incidental Expenses: List the amount and the type of charge being charged (do not itemize daily).

Column Total: Total cost for class A & B meal allowance.

Column Total: Total cost for Per Diem/Actual Lodging.

Total Miles: Total of map and vicinity mileage at \$0.445 per mile.

Column Total: Total cost of incidental expenses.

Summary Total: Total cost to the Department of Transportation.

Contractor: Individual who performed the travel.

Date: Date the travel form was prepared.

Job Title: Job title of the traveler.

Contractor's Supervisor: Traveler's supervisor.

Date: Date the authorized official approved/signed the travel form.

Typed or Printed Name: Typed or printed name of the authorized official.

Title: Job title of the authorized official.

Justification/Explanation: Explain any unusual claims for reimbursement.

Other Personnel in Party: List the names of other personnel traveling with you.

Meal Allowances and Travel Status are as follows:

Refer to Disbursement Handbook, Section 112.061, F.S. and Chapter 69I-42 F.A.C. and Department of Financial Services for complete instructions.

CLASS A TRAVEL STATUS - Continuous travel of 24 hours or more away from official headquarters. CLASS B TRAVEL STATUS - Continuous travel of less than 24 hours requiring overnight absence from official headquarters.

MAXIMUM ALLOWANCES FOR MEALS AS FOLLOWS:

BREAKFAST \$6.00 - When travel begins before 6 a.m. and extends beyond 8 a.m.

LUNCH \$11.00 - When travel begins before 12 noon and extends beyond 2 p.m.

DINNER \$19.00 - When travel begins before 6 p.m. and extends beyond 8 p.m., or when travel occurs during nightime hours due to special assignment.

(NOTE: No allowance shall be made for meals when travel is confined to the city or town of official headquarters or immediate vicinity.)

Instructions for Completing the Contractor Travel Form

Contractor: Name of the individual who performed travel.

Contract or PO No.: Number of the contract or Purchase Order on which work was performed.

Company: The consultant's company.

Company's Address: City where the consultant's company is located.

Residence (City): City where the consultant resides.

Contact Person: Person to notify for inquiries related to the travel voucher.

Telephone No: The telephone number of the contact person.

E-Mail Address: E-Mail address of the contact person.

Date: (MM/DD/YYYY) Dates of actual travel.

Travel Performed From Point of Origin to Destination: Departing location to the city or town of where business will commence. List each location. NO ABBREVIATIONS.

Purpose or Reason for Travel: Give reason for travel. Specify name of conference, convention, seminar, training, etc. NO ABBREVIATIONS and NO ACRONYMS

Hour of Departure and Return: Actual time of departure and return. Must state A.M or P.M

Class A & B Meal Allowance: Itemize daily using the appropriate meal allowance: \$6 for breakfast, \$11 for lunch, and \$19 dinner per F.S. 112.061. Deduct any meals included in a registration fee paid by DOT.

Per Diem/Actual Lodging: Itemize daily. For per diem use the rate of \$80 per day prorated on a quarterly basis. When calculating per diem Class A travel day starts at midnight and Class B travel day begins at the time of departure. For actual lodging use single occupancy rate including taxes.

Map Mileage: Point to point mileage calculated from the Official Department of Transportation map (in-state) available on the Internet at http://www3.dot.state.fl.us/mileage.

Vicinity Mileage: Mileage other than map mileage incurred within headquarters or destination.

Incidental Expenses: List the amount and the type of charge being charged (do not itemize daily).

Column Total: Total cost for class A & B meal allowance.

Column Total: Total cost for Per Diem/Actual Lodging.

Total Miles: Total of map and vicinity mileage at \$0.445 per mile.

Column Total: Total cost of incidental expenses.

Summary Total: Total cost to the Department of Transportation.

Contractor: Individual who performed the travel.

Date: Date the travel form was prepared.

Job Title: Job title of the traveler.

Contractor's Supervisor: Traveler's supervisor.

Date: Date the authorized official approved/signed the travel form.

Typed or Printed Name: Typed or printed name of the authorized official.

Title: Job title of the authorized official.

Justification/Explanation: Explain any unusual claims for reimbursement.

Other Personnel in Party: List the names of other personnel traveling with you.

Meal Allowances and Travel Status are as follows:

Refer to Disbursement Handbook, Section 112.061, F.S. and Chapter 69I-42 F.A.C. and Department of Financial Services for complete instructions.

CLASS A TRAVEL STATUS - Continuous travel of 24 hours or more away from official headquarters. CLASS B TRAVEL STATUS - Continuous travel of less than 24 hours requiring overnight absence from official headquarters.

MAXIMUM ALLOWANCES FOR MEALS AS FOLLOWS:

.

BREAKFAST \$6.00 - When travel begins before 6 a.m. and extends beyond 8 a.m.

LUNCH \$11.00 - When travel begins before 12 noon and extends beyond 2 p.m.

DINNER \$19.00 - When travel begins before 6 p.m. and extends beyond 8 p.m., or when travel occurs during nightime hours due to special assignment.

(NOTE: No allowance shall be made for meals when travel is confined to the city or town of official headquarters or immediate vicinity.)

CAUTION: THIS MESSAGE IS FROM AN EXTERNAL SENDER

This email originated from outside the organization. Do not click links, open attachments, or share any information unless you recognize the sender and know the content is safe. Report suspicious emails using the "Phish Alert" button in Outlook or contact the Helpdesk.

Chair Bethea and Mr. Balmes,

Secretary Tyler and Director Adkins would like to meet with you to discuss your priorities for the Marion County area and how our partnership may be best utilized. Thank-you!

The Florida Department of Transportation looks forward to visiting with you. Before visiting the District Office, please note a few important items:

- Visitors should utilize the dedicated visitor parking area, located in the front of the building. Overflow parking is available in the north parking lot adjacent to the building.
- All visitors must check in at the front desk and receive a visitor badge.
- Please remember to follow current public safety and sanitation guidelines. Persons who are not feeling well should not attend in person.

TO:Board MembersFROM:Rob Balmes, DirectorRE:Approval of Director Attendance at AMPO National
Conference

Summary

Each year, the Association of Metropolitan Planning Organizations (AMPO) conducts a national conference. In 2022, the conference will be held in Minneapolis, MN from October 25 to 28.

The purpose of attending the AMPO conference this year is to gain ongoing education and training related to metropolitan planning practices, and to serve on a conference panel. I've been selected to serve with fellow Florida peer MPO Directors on a panel titled: MPO Form and Function, The Evolution of MPO's as Independent and Hosted Agencies.

The estimated cost of attending the conference is:

- \$600 Registration Fee (\$25 discount as a speaker)
- \$850 estimated Hotel/Lodging Fee
- \$500 Airfare
- \$200 Per Diem
- \$50 Transportation
- \$2,200 Total estimate

The TPO maintains a budget devoted to staff and board member training and travel to cover all costs associated with this request.

Instructions for Completing the Contractor Travel Form

Contractor: Name of the individual who performed travel.

Contract or PO No.: Number of the contract or Purchase Order on which work was performed.

Company: The consultant's company.

Company's Address: City where the consultant's company is located.

Residence (City): City where the consultant resides.

Contact Person: Person to notify for inquiries related to the travel voucher.

Telephone No: The telephone number of the contact person.

E-Mail Address: E-Mail address of the contact person.

Date: (MM/DD/YYYY) Dates of actual travel.

Travel Performed From Point of Origin to Destination: Departing location to the city or town of where business will commence. List each location. NO ABBREVIATIONS.

Purpose or Reason for Travel: Give reason for travel. Specify name of conference, convention, seminar, training, etc. NO ABBREVIATIONS and NO ACRONYMS

Hour of Departure and Return: Actual time of departure and return. Must state A.M or P.M

Class A & B Meal Allowance: Itemize daily using the appropriate meal allowance: \$6 for breakfast, \$11 for lunch, and \$19 dinner per F.S. 112.061. Deduct any meals included in a registration fee paid by DOT.

Per Diem/Actual Lodging: Itemize daily. For per diem use the rate of \$80 per day prorated on a quarterly basis. When calculating per diem Class A travel day starts at midnight and Class B travel day begins at the time of departure. For actual lodging use single occupancy rate including taxes.

Map Mileage: Point to point mileage calculated from the Official Department of Transportation map (in-state) available on the Internet at http://www3.dot.state.fl.us/mileage.

Vicinity Mileage: Mileage other than map mileage incurred within headquarters or destination.

Incidental Expenses: List the amount and the type of charge being charged (do not itemize daily).

Column Total: Total cost for class A & B meal allowance.

Column Total: Total cost for Per Diem/Actual Lodging.

Total Miles: Total of map and vicinity mileage at \$0.445 per mile.

Column Total: Total cost of incidental expenses.

Summary Total: Total cost to the Department of Transportation.

Contractor: Individual who performed the travel.

Date: Date the travel form was prepared.

Job Title: Job title of the traveler.

Contractor's Supervisor: Traveler's supervisor.

Date: Date the authorized official approved/signed the travel form.

Typed or Printed Name: Typed or printed name of the authorized official.

Title: Job title of the authorized official.

Justification/Explanation: Explain any unusual claims for reimbursement.

Other Personnel in Party: List the names of other personnel traveling with you.

Meal Allowances and Travel Status are as follows:

Refer to Disbursement Handbook, Section 112.061, F.S. and Chapter 69I-42 F.A.C. and Department of Financial Services for complete instructions.

CLASS A TRAVEL STATUS - Continuous travel of 24 hours or more away from official headquarters. CLASS B TRAVEL STATUS - Continuous travel of less than 24 hours requiring overnight absence from official headquarters.

MAXIMUM ALLOWANCES FOR MEALS AS FOLLOWS:

BREAKFAST \$6.00 - When travel begins before 6 a.m. and extends beyond 8 a.m.

LUNCH \$11.00 - When travel begins before 12 noon and extends beyond 2 p.m.

DINNER \$19.00 - When travel begins before 6 p.m. and extends beyond 8 p.m., or when travel occurs during nightime hours due to special assignment.

(NOTE: No allowance shall be made for meals when travel is confined to the city or town of official headquarters or immediate vicinity.)

2022 AMPO Annual Conference

October 24 - 28, 2022 | Minneapolis, MN

| MONDAY, OCTOBE | 8.27 | | |
|--------------------|--|---|--|
| TIME | | | |
| inde | Session 1 | Session 2 | Session 3 |
| | Pre-Conference Mobile Tour METRO Orange Line BRT Hotel Lobby (Registration Required | | |
| 2:00 pm - 4:00 pm | The METRO Orange Line is a 17-mile highway Bus Rapid Transit (BRT) line connecting the communities of Minneapolis, Richfield, Bloomington, and Burnsville along 1-35W; Minnesota's busiest commuter corridor. The Orange Line provides fast, reliable, all-day service in both directions, seven days a week. Learn how the regional came together to support this critical transit investment that also includes street and highway improvements, upgraded transit stations, specialized vehicles and improved connection bus routes. | | |

Maximum dimensions: 62 inches or 158 centimeters calculated as (length + width + height) Maximum weight: 50 pounds or 23 kilograms

Bag fees apply at each Check-in location. Additional allowances and/or discounts may apply. Bag and optional fees

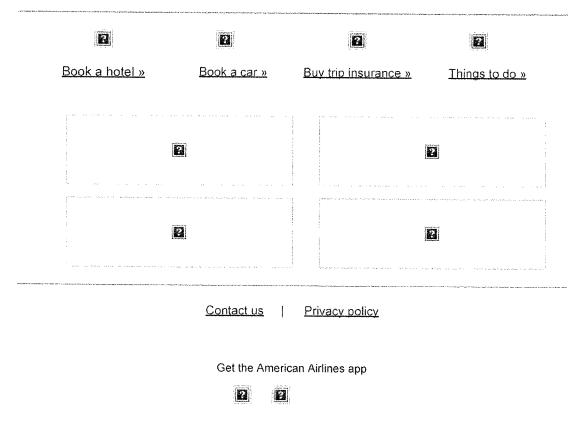

If your flight is operated by a partner airline, see the <u>other airline's</u> website for carry-on and checked bag policies.

*Online payment available beginning 24 hours (and up to 4 hours) before departure.

Carry-on bags

1st carry-on: Includes purse, briefcase, laptop bag, or similar item that must fit under the seat in front of you.

 2^{nd} carry-on: Maximum dimensions not to exceed: 22" long x 14" wide x 9" tall (56 x 35 x 23 cm).

Additional Services are subject to credit card approval at time of ticketing. Additional Services may appear on multiple accompanied documents as a matter of reference.

If you have purchased a NON-REFUNDABLE fare, the itinerary must be canceled before the ticketed departure time of the first unused coupon or the ticket has NO VALUE. If the fare allows

changes, a fee may be assessed for changes and restrictions may apply.

You have up to 24 hours from the time of ticket purchase to receive a full refund if you booked at least 2 days before departure. You must <u>log in</u> on aa.com or <u>Contact Reservations</u> to cancel. Once cancelled, your refund will be processed automatically.<u>Refunds</u>.

Some American Airlines check-in counters do not accept cash as a form of payment. For more information, visit our <u>Airport Information</u> page.

The policy for traveling with Emotional Support and Service animals has changed. Visit <u>Traveling</u> with <u>Service Animals</u> for more information.

Some everyday products, like e-cigarettes and aerosol spray starch, can be dangerous when transported on the aircraft in carry-on and/or checked baggage. Changes in temperature or pressure can cause some items to leak, generate toxic fumes or start a fire. Carriage of prohibited items may result in fines or in certain cases imprisonment. Please ensure there are no forbidden hazardous materials in your baggage like:

Some Lithium batteries (e.g. spares in checked baggage, batteries over a certain size), Explosives / Fireworks, Strike anywhere matches/ Lighter fluid, Compressed gases / Aerosols Oxygen bottles/ Liquid oxygen, Flammable liquids, Pesticides/ Poison, Corrosive material.

There are special exceptions for small quantities (up to 70 ounces total) of medicinal and toilet articles carried in your luggage, spare lithium batteries for most consumer electronic devices in carry-on baggage, and certain smoking materials carried on your person.

Certain items are required to be carried with you onboard the aircraft. For example, spare lithium batteries for portable electronic devices, cigarette lighters and e-cigarettes must be removed from checked or gate-checked baggage and carried onboard the aircraft. However, e-cigarettes may not be used on-board the aircraft.

Traveling with medical oxygen, liquid oxygen, mobility aids and other assistive devices may require airline pre-approval or be restricted from carriage entirely. Passengers requiring these items should contact the airline operator for information on use of such devices.

To change your reservation, please call 1-800-433-7300 and refer to your record locator.

NOTICE OF INCORPORATED TERMS OF CONTRACT

Air Transportation, whether it is domestic or international (including domestic portions of international journeys), is subject to the individual terms of the transporting air carriers, which are herein incorporated by reference and made part of the contract of carriage. Other carriers on which you may be ticketed may have different conditions of carriage. International air transportation, including the carrier's liability, may also be governed by applicable tariffs on file with the U.S. and other governments and by the Warsaw Convention, as amended, or by the Montreal Convention. Incorporated terms may include, but are not restricted to: 1. Rules and limits on liability for personal injury or death, 2. Rules and limits on liability for baggage, including fragile or perishable goods, and availability of excess valuation charges, 3. Claim restrictions, including time periods in which passengers must file a claim or bring an action against the air carrier, 4. Rights on the air carrier to change terms of the contract, 5. Rules on reconfirmation of reservations, check-in times and refusal to carry, 6. Rights of the air carrier and limits on liability for delay or failure to perform service, including schedule changes, substitution of alternate air carriers or aircraft and rerouting.

You can obtain additional information on items 1 through 6 above at any U.S. location where the

transporting air carrier's tickets are sold. You have the right to inspect the full text of each transporting air carrier's terms at its airport and city ticket offices. You also have the right, upon request, to receive (free of charge) the full text of the applicable terms incorporated by reference from each of the transporting air carriers. Information on ordering the full text of each air carrier's terms is available at any U.S. location where the air carrier's tickets are sold or you can click on the Conditions of Carriage link below.

.

Air transportation on American Airlines and the American Eagle carriers® is subject to American's conditions of carriage.

IRS increases mileage rate for remainder of 2022

IR-2022-124, June 9, 2022

WASHINGTON — The Internal Revenue Service today announced an increase in the optional standard mileage rate for the final 6 months of 2022. Taxpayers may use the optional standard mileage rates to calculate the deductible costs of operating an automobile for business and certain other purposes.

For the final 6 months of 2022, the standard mileage rate for business travel will be 62.5 cents per mile, up 4 cents from the rate effective at the start of the year. The new rate for deductible medical or moving expenses (available for active-duty members of the military) will be 22 cents for the remainder of 2022, up 4 cents from the rate effective at the start of 2022. These new rates become effective July 1, 2022. The IRS provided legal guidance on the new rates in Announcement 2022-13 [PDF], issued today.

In recognition of recent gasoline price increases, the IRS made this special adjustment for the final months of 2022. The IRS normally updates the mileage rates once a year in the fall for the next calendar year. For travel from January 1 through June 30, 2022, taxpayers should use the rates set forth in Notice 2022-03 PDF.

"The IRS is adjusting the standard mileage rates to better reflect the recent increase in fuel prices," said IRS Commissioner Chuck Rettig. "We are aware a number of unusual factors have come into play involving fuel costs, and we are taking this special step to help taxpayers, businesses and others who use this rate."

While fuel costs are a significant factor in the mileage figure, other items enter into the calculation of mileage rates, such as depreciation and insurance and other fixed and variable costs.

The optional business standard mileage rate is used to compute the deductible costs of operating an automobile for business use in lieu of tracking actual costs. This rate is also used as a benchmark by the federal government and many businesses to reimburse their employees for mileage.

Taxpayers always have the option of calculating the actual costs of using their vehicle rather than using the standard mileage rates.

The 14 cents per mile rate for charitable organizations remains unchanged as it is set by statute.

Midyear increases in the optional mileage rates are rare, the last time the IRS made such an increase was in 2011.

Mileage Rate Changes

| Purpose | Rates 1/1 through 6/30/2022 | Rates 7/1 through 12/31/2022 | | | | |
|----------------|-----------------------------|------------------------------|--|--|--|--|
| Business | 58.5 | 62.5 | | | | |
| Medical/Moving | 18 | 22 | | | | |
| Charitable | 14 | 14 | | | | |

RE: Draft Commitment to Zero Safety Action Plan

<u>Summary</u>

On September 20, 2022, the TPO made available to the public a draft of the Commitment to Zero Safety Action Plan. The draft Action Plan was available for a 30-day public review period through October 20, 2022.

At the Board meeting, a presentation will be delivered by the TPO's consultant, Mr. Chris Keller of Benesch. Chris will share a high-level overview of the draft Action Plan, plan development process and strategies for implementation.

The draft Action Plan and appendices are included with this memo in the meeting packet. The Action Plan documents may also be accessed at the TPO's project website: <u>https://ocalamariontpo.org/safety-plan</u>

Long-term success of Commitment to Zero must include ongoing work to keep building momentum in the community. Some of the next steps and activities the TPO will focus on in 2023 involve the following:

- Commitment to Zero online public crash dashboard
- Commitment to Zero fact sheets for public education
- Coordination with local partners for safety projects in List of Priority Projects (LOPP) process
- Social Media for community safety events, public awareness of safety
- Continued partnering for community safety events
- Exploration of public information and public relations opportunities

Safety Action Plan

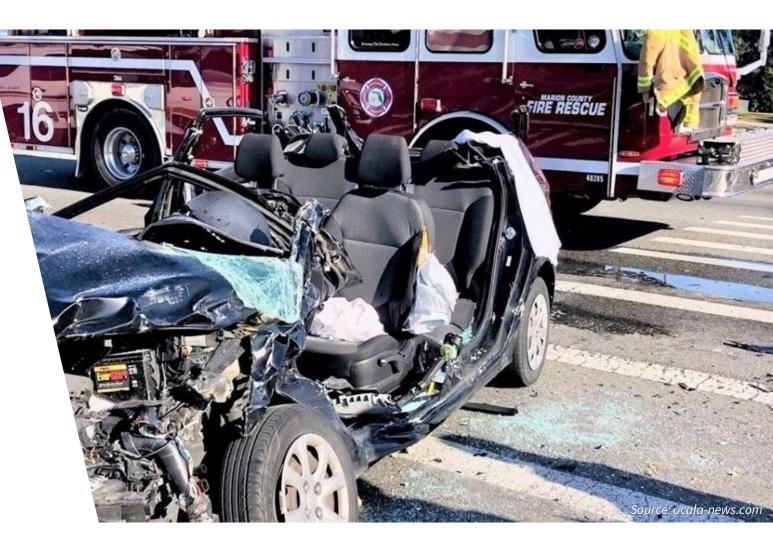

TPO Board Meeting November 29, 2022

Commitment to Zero

- Commitment to Zero is the TPO's call to action to eliminate traffic-related fatalities and serious injuries.
- It is a community-wide shift in how the region talks about, approaches, and addresses traffic safety.

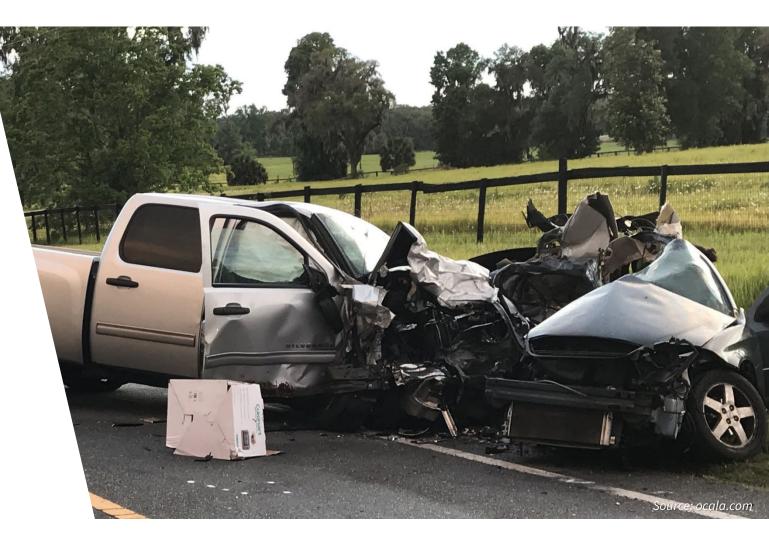

Our Current Reality

Every year, residents of Ocala/Marion are subject to approximately 9,500 traffic crashes that result in loss of life to about 85 people and seriously injuring 400 more.

KSI Crash Trends

Traffic Deaths are Becoming More Common

The traffic fatality rate in Marion County is rising faster than Florida and the Nation.

2021

- 93 Fatalities
- 262 Serious Injuries

2022 (as of 11/13)

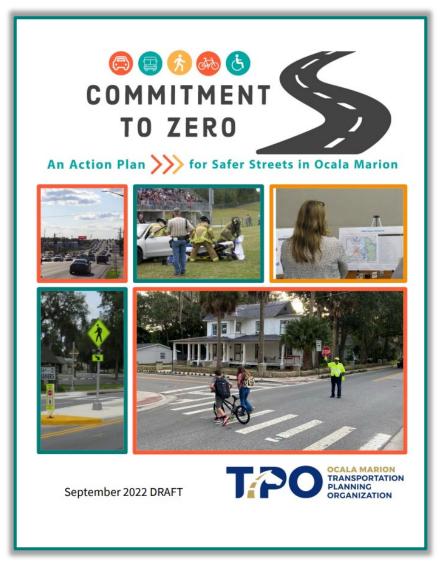

- 82 Fatalities
- 407 Serious Injuries

Safety Action Plan

Kick-Start Commitment to Zero

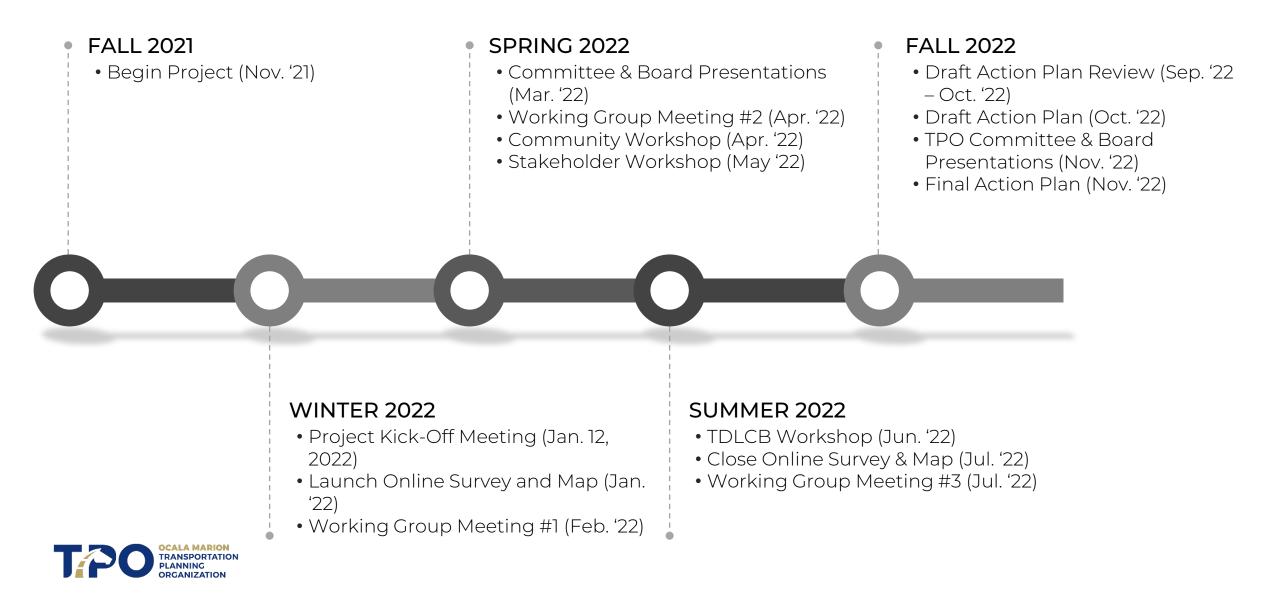

- Guide to addressing fatal and serious injury crashes.
 - Focus efforts on proven mitigation strategies and performance measures to monitor progress.
- Establish a framework for coordination, education, and engagement.
- Align the TPO's safety vision with Federal and State initiatives, vision, and goals.

Action Plan Development

Plan Outreach & Input

- Kick-Off (Jan)
- Online Survey (Jan-Jul) 197 Responses
- Online Map (Jan-Jul)
- Working Group Meetings (Feb, Apr, Jul)
- Public Workshop (Apr)
- Stakeholder Workshop (May)
- TDLCB Workshop (June)
- TPO Committees (Mar & Nov)
- 30-Day SAP Comment Period (Sep-Oct)

Plan Outreach & Input

My idea for making our streets safe is... - More sidewalks, bicycle lanes, pedestrian crossings, signage, lighting, and mass transit options besides driving.

- Traffic alerts. - Improved roadways. TO ZERO - Disability awateness: while cane, deaf. "Zero accidents in a manufacturing environment has been proven doable. It requires consistent leadership and accountability, and cultural and behavioral change." – Online Survey Comment

> "Greater public awareness of Commitment to Zero." – *Citizen's Advisory Committee*

"More partnering on projects, events, community activities." – *Technical Advisory Committee* "Improve School Zone safety through education and information sharing in the community."– *Marion County School District*

Strategies for Getting to Zero

The identified strategies and actions have been organized based on the five Safe System approach elements.

Galactic Safe Vehicles

Safe Roads

Pre-/Post-Crash Care and Data

Safe Road Users

All people who use the road network in the region should be safe, no matter which travel mode they choose.

Advocacy

Encourage partner agencies (county, cities, state, etc.) to fully embrace the goal of Commitment to Zero.

Engagement

Sustain Commitment to Zero leadership, collaboration, and accountability through regular meetings with a Commitment to Zero working group or another formalized committee.

Education

Identify opportunities to provide transportation safety education to prehigh school students through school lesson plans, focus on age-appropriate topics such as seatbelt use, safe walking and biking, etc.

Safe Vehicles

Vehicle design and technology has a direct impact on the safety of all road users.

Advocacy

Advocate for the advancement of vehicle design features, such as automatic braking and pedestrian protection regulations.

Education

Introduce and review regular mandatory driving safety course for all county/municipal employees, with regular refresher courses required for those employees who have access to a fleet vehicle.

Safe Speeds

Speed is a key predictor of crash severity; applying appropriate speeds to a roadway based on the context of the roadway is one of the simplest ways to reduce the severity of crashes.

실 Advocacy

Advocate for establishing target (survivable) speeds for all roads and promote the decoupling of speed zones from the 85th percentile speed.

Engineering/Planning

Assess and evaluate posted speed limits countywide and work with partner agencies to develop a speed management program to address speeding concerns based on applicable data.

Enforcement/Emergency Response Program, fund, and conduct more high visibility enforcement campaigns aimed at increasing awareness and compliance of safe speeds.

Safe Roads

Roadway design plays a primary role in reducing speed and conflict while improving safety for all road users. Creating a transportation system that encourages safe behaviors, proactively addresses safety concerns, and quickly responds to new issues is essential to achieving the goal of Commitment to Zero.

Advocacy

Support legislation to increase safety funding and efforts to establish a dedicated funding source aimed at eliminating KSI crashes.

Education

Organize pop-up safety demonstrations that can show how strategies can be implemented, e.g., curb extensions with paint/planters.

Engagement

Organize events that focus on the livability aspects of the community's streets, e.g., Open Streets events.

Engineering/Planning

Track the effectiveness and success of safety-focused projects through before and after studies.

Pre-/Post-Crash Care & Data

Understanding why serious injuries and fatal crashes occurred historically is the first step towards eliminating them altogether. When crashes do happen, the ability of first responders to quickly reach and treat the injured person is critical.

Engagement

Convene a Commitment to Zero leadership panel consisting of elected officials from various partner agencies to discuss safety efforts, promote safety initiatives, and establish local safety priorities.

Annually report on Commitment to Zero progress, including crash statistics, safety-focused projects, and performance measures.

Enforcement/Emergency Response Expand the role of the CTST and include their input on safety-focused projects aimed at eliminating KSI crashes.

Emphasis Areas

Actions and Topics identified as priorities for implementing the Commitment to Zero Safety Action Plan.

Speed Management Developing a system designed for reasonable and survivable speeds.

Developing a Culture of Safety

Commitment to Zero is a shift in culture and thinking, from an agency and organization standpoint, as well as within the community.

Emphasis Areas

Run-Off-Road Crashes

Implementing more forgiving roadway designs, enhanced visual and audible cues, vehicle technology, lighting, and speed management.

Intersection Operations

Evaluating how intersections operate and opportunities for geometric improvements and innovative designs.

Non-Motorized Users Designing streets to meet the needs of the most vulnerable users.

Measuring Progress

Performance Measures:

- Total traffic-related deaths and serious injures.
- Incorporation of equity measures in crash data analysis and transportation project decisionmaking.
- Average crash response and clearance times.
- Percentage of traffic stops based on contributing crash factors, i.e., speed, aggressive behavior, distracted driving, impaired driving, seatbelt, etc.

- Number of community members reached by Commitment to Zero engagement activities.
- Activity related to online and social medial posts about Commitment to Zero.
- Number of schools visited or spoken to about Commitment to Zero.

- Number of safety-focused projects implemented, miles of streets and intersections receiving safety treatments.
- Number of completed RSAs and safety assessments.
- Number of roadway miles and intersections where lighting was enhanced.
- Number of local governments that adopt Commitment to Zero or a similar Vision Zero approach.

Working Together

Stay Involved

An Action Plan >>>> for Safer Streets in Ocala Marion

November 2022

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity.

The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities.

The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status.

The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts.

Persons wishing to express their input may do so by contacting the TPO.

RESOLUTION OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) ADOPTING THE COMMITMENT TO ZERO SAFETY ACTION PLAN – *PENDING BOARD ADOPTION*

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the Metropolitan Planning Organization (MPO) and body responsible for the urban transportation planning process for the Ocala/Marion County area;

WHEREAS, traffic crashes are a serious threat the health and safety of the residents and visitors to Ocala/Marion County;

WHEREAS, the Commitment to Zero Safety Action Plan is a call to action to eliminate trafficrelated fatalities and serious injuries in Ocala/Marion County;

WHEREAS, the Commitment to Zero Safety Action Plan is founded on the four principles of Education and Awareness, Public and Partner Engagement, Safety Analysis and Action Planning; and

WHEREAS, The Commitment to Zero Safety Action Plan was approved by the Ocala/Marion County Transportation Planning Organization on November 29, 2022.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization adopts the Commitment to Zero Safety Action Plan to guide future transportation planning efforts to eliminate fatal and serious injury crashes on the transportation system of Ocala/Marion County.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 29th day of November 2022.

Commitment to Zero Pledge Ocala Marion Transportation Planning Organization (TPO)

We recognize that crashes are preventable, and our choices matter to our lives and the lives of others.

We pledge to make safety a priority, to focus on driving, to slow down, be aware of our surroundings, walk, ride, or roll in a safe and predictable manner, and to set an example for those around us.

A Message from the TPO Board Chair

The Ocala/Marion County Transportation Planning Organization (TPO) has adopted the Commitment to Zero Action Plan to eliminate serious traffic injuries and fatalities on the transportation system of Marion County. To achieve this vision, it will take all of us working together as one community.

Every person lost or injured in a traffic crash is a family member, teacher, neighbor, colleague, someone we worship with, or say a friendly hello to at the grocery store. We are all connected and greatly impacted by these tragedies. As a community, we can make a profound impact on improving the safety of our roadways. Commitment to Zero is based on a collaborative approach tied to the four cornerstones of:

- 1. Education and Awareness
- 2. Public and Partner Engagement
- 3. Safety Analysis
- 4. Action Planning

Specific strategies in the Plan identify actions to improve safety and achieve the vision of zero fatalities and serious injuries. As a life-long resident of Ocala, I am confident we can significantly reduce deaths and injuries on the roads of our wonderful community. I am asking everyone to review the Plan, do your part by traveling safe every day, and get involved with the TPO and our safety partners.

Sincerely,

On Bethen Sk.

Ire Bethea, Sr. Ocala City Council President TPO Board Chair

Dear Residents and Visitors of Marion County

In January 2022, it was my honor to lead the kick-off of Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion. At the meeting, I heard many inspirational messages from dedicated professionals and residents, especially our First Responders. So many great men and women in our community devote themselves every day to saving lives and improving the safety of our roadways.

Throughout the development of the Action Plan, I shared Commitment to Zero safety messages at our Board of County Commission meetings. I have also listened to residents tell their stories at community events such as the Commitment to Zero Public Workshop. It is distinctly clear to me that we can do more to impact the reduction of deaths and serious injuries on our roadways. The implementation of Commitment to Zero will serve as a catalyst to a safer future in Marion County.

To reach our ultimate vision of zero, it's going to take a commitment from everyone in Marion County. This includes having shared responsibility and being respectful toward all users of our transportation system, including the transportation disadvantaged. I am confident we can be successful. It has been my pleasure to serve as a leader of Commitment to Zero. I look forward to working with the residents and professionals of Marion County to make our transportation system safer for everyone.

Sincerely,

Michelle Stone Marion County Board of County Commissioners TPO Board Member and Commitment to Zero Champion

Dedication

The Commitment to Zero Safety Action Plan is dedicated to the people and families of those who lost their lives while traveling on our streets. Their loss reminds us that every life is precious and inspires us all to continue our commitment towards zero traffic-related deaths and serious injuries.

Call to Action

The road ahead is not easy, but in the hands of those who care, we believe that we will see this commitment through. The Ocala Marion TPO has made a Commitment to Zero, will you do the same?

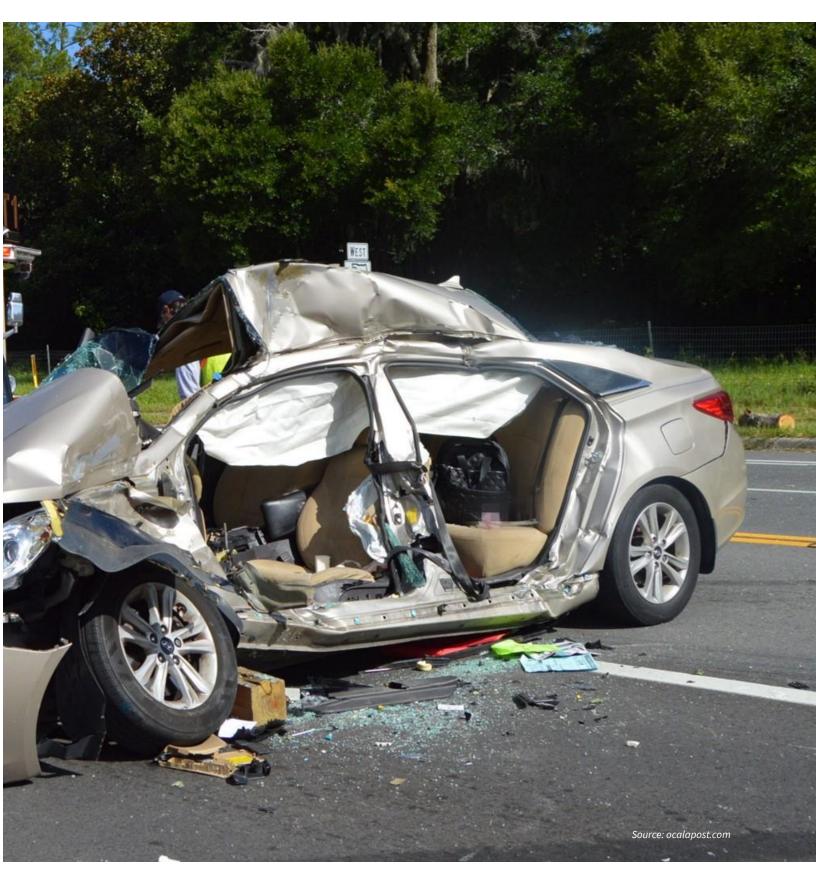

Commitment to Zero Pledge

I recognize that crashes are preventable, and my choices matter to my life and the lives of others.

I pledge to make safety a priority, to focus on driving, to slow down, be aware of my surroundings, walk, ride, or roll in a safe and predictable manner, and to set an example for those around me.

Prepared By

Alfred Benesch & Company 1000 N Ashley Drive, Suite 400 Tampa, FL 33602

Key Terms

All Ages and Abilities – All ages and abilities mean that streets, intersections, and sidewalks are designed to be safe and comfortable for children, older adults, people with disabilities, and other vulnerable road users. Street design should prioritize children, who are smaller and less visible; older adults, who may have lower visual acuity and slower walking/biking/rolling speeds; and people with disabilities who may use a wheelchair or experience loss of vision or hearing. Streets that are safe for people of all ages and abilities are safe for everyone.

Commitment – The state or quality of being dedicated to a cause or activity. Also defined as an agreement or pledge to do something in the future.

Data-Driven – An approach that utilizes available data to inform decisions, rather than just intuition or personal experience.

Distracted Driving – Anything that takes a driver's attention away from the vital task of driving. There are three types of distraction; manual, which is taking hands off the wheel; visual, or taking eyes off the road; and cognitive, which involves taking one's mind off driving. Distracted driving often centers on cell phone use and texting but also includes other activities such as eating, talking to passengers, reading, adjusting the radio or climate controls, dealing with children or pets, and being fatigued or drowsy.

Equity – Equity in the context of safety and Commitment to Zero includes addressing social and spatial disparities in transportation systems. Social factors, including race and income, and spatial components, such as land use and how much street space is dedicated to vulnerable road users, are priorities for ensuring equitable approaches and outcomes on our streets, sidewalks, and bikeways.

KSI Crash – A collision or crash that results in someone being killed or seriously injured (KSI). Based on definitions provided by the Federal Highway Administration (FHWA), a crash is classified as fatal if an injury sustained during the crash results in death within a 30-day period after the crash occurred. Serious/incapacitating injuries resulting from a traffic crash have catastrophic impacts such as permanent disability, lost productivity and wages, and ongoing healthcare costs. A serious injury includes the following: broken or fractured bones; dislocated or distorted limbs; severe lacerations resulting in exposure of organs or tissue or resulting in significant loss of blood; severe burns (second- or third-degree over 10 percent or more of the body); skull, spinal, chest, or abdominal injuries; and unconsciousness at or when taken from the crash scene.

Partner Agencies – These are the jurisdictions and agencies that the Ocala/Marion TPO represents and partners with on a regular basis.

Safe System Approach – A traffic safety approach that acknowledges that traffic-related deaths and serious injuries are preventable and that system designers and operators (including transportation planners, engineers, and policy makers) have a responsibility to put safety first in the design and operations of a road system.

Speed Management – The use of various speed control devices and designs with the goal of reducing and/or eliminating speed-related problems.

Traffic Crash (Not Accident) – The term "accident" implies that nothing could have been done to prevent the "crash" event from occurring. Traffic deaths and serious injuries are preventable incidents for which proven solutions exist and, thus, are crashes, not accidents.

Vulnerable Road Users – Vulnerable road users are those must at risk in traffic, mainly those unprotected by an outside shield and those who are more susceptible to be seriously injured or killed in a traffic crash, including older adults, children, people walking or using a wheelchair, people on bikes, and motorcyclists.

Introduction

Every year, residents of Marion County are subject to approximately 9,500 traffic crashes that result in loss of life to about 85 people and seriously injuring 400 more. While members of the community acknowledge these deaths and serious injuries as tragic and devastating, they have also become accustomed to them and have often times accepted them as an unaviodable occurrence. The Ocala Marion Transportation Planning Organization (TPO) and its partners recognize that these deaths and serious injuries are not unavoidable and that together they can work towards eliminating them from the Ocala Marion region.

The TPO and its partners have a long history of working together to advance safety throughout the region. Safety, access, and livability have been forefront in many of the TPO's planning efforts, including the 2045 Long Range Transportation Plan (LRTP), but the time for making a commitment to eliminate traffic-related deaths and serious injuries has come and Commitment to Zero is the effort that will lead that charge.

Our Current Reality

Every year, residents of Ocala/Marion County are subject to approximately **9,500 traffic crashes** that result in **loss of life** to about **85 people** and **seriously injuring 400** more.

What is Commitment to Zero?

Commitment to Zero is the Ocala Marion TPO's call to action to eliminate traffic-related fatalities and serious injuries. It is not just a slogan, plan, or effort isolated to the TPO. Commitment to Zero is a community-wide shift in how the region talks about, approaches, and addresses traffic safety.

Commitment to Zero is founded on four principles: **Education and Awarness**, **Public and Partner Engagement**, **Safety Analysis**, and **Action Planning**. Together, these form the foundation of a lasting effort to foster change and action.

Not Just a Number...

Each crash and trafficrelated death and serious injury are more than just a number in a table or chart, every death and serious injury has an impact beyond the initial collision, the lives lost and impacted by crashes are felt throughout the community.

Why Commitment to Zero?

Traffic crashes are a serious threat to the health and safety of the residents and visitors to Marion County. The nearly 500 injuries and losses of life each year in Marion County are unnecessary and have impacts that reach far beyond those involved in the crash. A commitment to ending death and serious injury on the streets of Marion County should be our top priority.

Safety has long been a priority of the Ocala Marion TPO and its partners. Despite everyday efforts to create safer streets that work well for all users and investments in infrastructure and advances in technology, the county is still experiencing an unacceptable number of trafficrelated deaths and serious injuries. Now is the time for change, and Commitment to Zero is the catalyst for effectively reducing the number of death and serious injuries.

"Safety is the most important component of a community's transportation system. Commitment to Zero focuses on shared responsibility, collaboration and applying a Safe Systems approach to move our community toward zero deaths and serious injuries. We owe it to our citizens to be stewards of transportation safety for everyone in the Ocala/Marion County community.

Rob Balmes, TPO Director

Understanding the Crash Problem

Understanding safety issues is more than numbers in a table, colorful charts, and dots on a map. Each crash that results in a death or serious injury is a life-altering event that has impacts beyond that moment in time. Lives lost and serious injuries are unnecessary traumas for those involved and their families and friends, and they can be prevented.

Traffic-related deaths and serious injuries involve a variety of contributing factors and occur in areas throughout the Ocala/Marion County community. Factors such as vehicle speed, lighting conditions, and dangerous driving behaviors such as distracted driving, impaired driving, and seatbelt use play a large role in the severity of crashes. However, these behaviors go beyond the decisions of transportation system users, and many can be attributed to the built environment. By committing to zero traffic-related deaths and serious injuries the Ocala Marion region is making a long-term commitment to prioritize safe streets and adopt policies that value human life more than any other measure. Ending traffic-related deaths and serious injuries is as much about saving lives as it is about creating safe, accessible streets where people feel they belong.

Fatal and Serious Injury Crash Evaluation

An evaluation of crash data, including contributing factors and trends, was conducted to gain a better understanding of the factors influencing the occurance of **KSI (Killed or Seriously Injured)** crashes. Understanding the actions, behaviors, factors, and trends of crashes that result in death and serious injuries provides critical insight that helps identify the strategies aimed at eliminating these events. The following are some highlights from the crash evaluation. Appendix A of the Action Plan contains a detailed review and summary of the crash data.

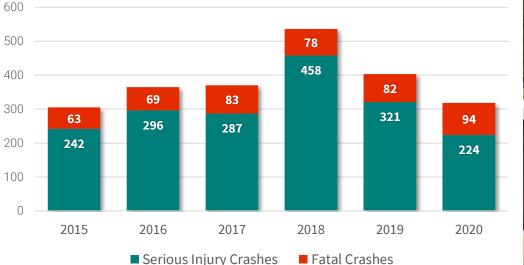

NOT ACCIDENT

Traffic crashes are not accidents. They are the result of preventable human error and systemic design decisions. They are fixable problems, and we should expect answers and solutions.

KSI Crash Trends

In the 6-year period between 2015 and 2020, approximately 1 in every 25 crashes resulted in either a death or serious injury in Marion County. This time period witnessed 469 fatal crashes that resulted in 509 deaths and 1,828 serious injury crashes resulting in serious injuries to 2,371 people.

Looking at fatal crash rates normalized by vehicle miles traveled (VMT), it is possible to observe the relationship between how much people are driving and the frequency of fatalities. Marion County's fatality rate in 2020 was 46% higher than the state's rate and 70% higher than the U.S. rate; just bringing Marion County's fatality rate to that of the U.S. could save over 40 lives per year.

While there has been some progress made, the Ocala Marion region is continuing a trend of rising crash numbers and crash rates. Commitment to Zero is a call to reverse this trend. The continuous evaluation of verified crash data provides the insight needed to address safety issues and track progress towards the goal of zero deaths and serious injuries.

12 3m . 1

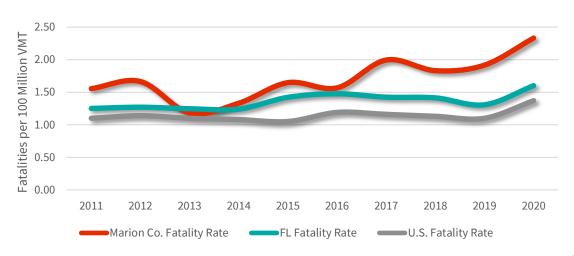

1 in every 25 crashes resulted in death or serious injury between 2015 and 2020.

Traffic Deaths are Becoming More Common

The traffic fatality rate in Marion County is rising faster than Florida and the Nation.

Source: ocala.co

Crash Types

KSI crashes were grouped into 11 crash types. Of the crash types, angle and left turn crashes accounted for the highest percentage of KSI crashes (25%) and serious injury crashes (27%). Run-off-road crashes accounted for the largest share of fatal crashes (23%).

| Crash Type | Fatal Crashes | Serious Injury Crashes | KSI Crashes |
|--------------------|------------------|------------------------------|----------------|
| Angle/Left Turn | 80 | 497 | 577 |
| Rear End | 37 | 401 | 438 |
| Run-Off-Road | 110 | 277 | 387 |
| Pedestrian/Bicycle | 94 | 162 | 256 |
| Other | 38 | 195 | 233 |
| Rollover | 46 | 119 | 165 |
| Head On | 41 | 77 | 118 |
| Unknown | 10 | 46 | 56 |
| Sideswipe | 9 | 41 | 50 |
| Right Turn | 4 | 9 | 13 |
| Animal | 0 | 4 | 4 |

Crashes by Type

Top Three Fatal Crash Types

Three crash types, run-off-road, pedestrian and bicycle, and angle and left turn crashes accounted for 53% of the KSI crashes and 61% of the fatal crashes.

Run-Off-Road

110 Fatal Crashes 277 Serious Injury Crashes

Pedestrian and Bicycle Crashes

94 Fatal Crashes 162 Serious Injury Crashes

Angle/Left Turn Crashes

80 Fatal Crashes 497 Serious Injury Crashes

Crash Factors

The type and size of a roadway, the speed in which vehicles are traveling, and lighting conditions are factors that are often associated with KSI crashes.

Roadway Type

46% of the fatal crashes and 55% of the KSI crashes occurred on Arterial roadways.

Arterial roadways, which are typically the biggest and busiest roadways, other than the interstate, carry about 37% of the traffic in Marion County, these roadways are also where 55% of the KSI crashes and 46% of the Fatal crashes occurred.

Source: clickorlando.com

Speed

81% of the fatal crashes occurred on roadways with a posted speed limit of 45 mph or higher.

Vehicular speed and speed differential is a well-documented factor in the survivability of a crash. Higher speeds are associated with more severe injuries and death. In Marion County, 74% of the KSI crashes and 81% of the fatal crashes occurred on roadways with a posted speed limit of 45 mph or higher.

Lighting Conditions

51% of the fatal crashes occurred in dark lighting conditions.

Time of day and lighting conditions, particularly nighttime and dark conditions, have long been associated with higher frequencies of KSI crashes. In Marion County 35% of the KSI crashes occurred in dark lighting conditions, 24% in dark conditions without street lighting, 51% of the fatal crashes occurred during dark conditions with 42% of the fatal crashes occurring in dark conditions without street lighting.

Behavioral Factors

Behavior factors and choices by individuals play a significant role in the outcome of a crash. The simple act of buckling a seatbelt, not driving while impaired, and avoiding looking at that text can be the difference between life and death.

TELLIESS CENTER

Passenger Restraint

Nearly 40% of the fatal crashes involved people not wearing a seat belt or being properly restrained.

Seat belts are viewed as the single most effective safety technology in the history of the automobile. While there has been enormous progress in increased seat belt use, there are still too many people dying because they are not properly restrained.

Source: wftv.com

Impairment

Confirmed impairment was reported in 51% of the fatal crashes.

Alcohol and other drugs alter the normal function of the brain and body and interfere with a driver's ability to safely operate a motor vehicle. Alcohol use was confirmed in 35% of the fatal crashes and 13% of the KSI crashes. Drug use was confirmed in 38% of the fatal crashes and 10% of the KSI crashes. Combined, alcohol and/or drug use was confirmed in 51% of the fatal crashes and 17% of the KSI crashes.

Distracted Driving

Due to crash reporting requirements the number of reported cases of distracted driving are most likely underreported.

For behavior like distracted driving to be reported as a crash factor the reporting officer must be able to confirm that behavior contributed to the crash. The reliability of existing distracted driving crashes is understood to be limited and that the actual occurrences of distracted driving may be higher than what is available in the data. According to the crash data confirmed distracted driving was a factor in 12% of the fatal crashes and 10% of the KSI crashes.

Crash Locations

Although often unrecognizable to the average citizen, the streets within Marion County are maintained and operated by different agencies, namely FDOT, Marion County, the cities, and private entities such as homeowners' associations and other development interests. While crashes may occur in specific geographic locations, the ownership and maintenance of a roadway may vary. Approximately 65% of the KSI crashes occurred on roadways within unincorporated Marion County. Roadways within the City of Ocala accounted for approximately 32% of the KSI crashes. Evaluating the location of crashes by maintaining jurisdiction of the roadway shows that nearly half of the KSI crashes occurred along State (FDOT) maintained roadways. These statistics stress the importance of collaboration to address KSI crashes throughout the region.

Crashes by Geographic Location

| Geographic Jurisdiction | Fatal Crashes | Serious Injury Crashes | KSI Crashes |
|----------------------------|------------------|------------------------------|----------------|
| Unincorporated | 381 | 1,112 | 1,493 |
| Ocala | 78 | 665 | 743 |
| Belleview | 7 | 25 | 32 |
| Dunnellon | 2 | 18 | 20 |
| McIntosh | 0 | 2 | 2 |
| Unknown | 0 | 1 | 1 |

Crashes by Maintaining Jurisdiction

| Maintaining Jurisdiction | Fatal Crashes | Serious Injury Crashes | KSI Crashes |
|-----------------------------|------------------|------------------------------|----------------|
| State | 232 | 910 | 1,142 |
| County | 205 | 637 | 842 |
| Ocala | 15 | 185 | 200 |
| Private | 2 | 49 | 51 |
| Unknown | 8 | 33 | 41 |
| Belleview | 3 | 5 | 8 |
| Forestry | 3 | 4 | 7 |

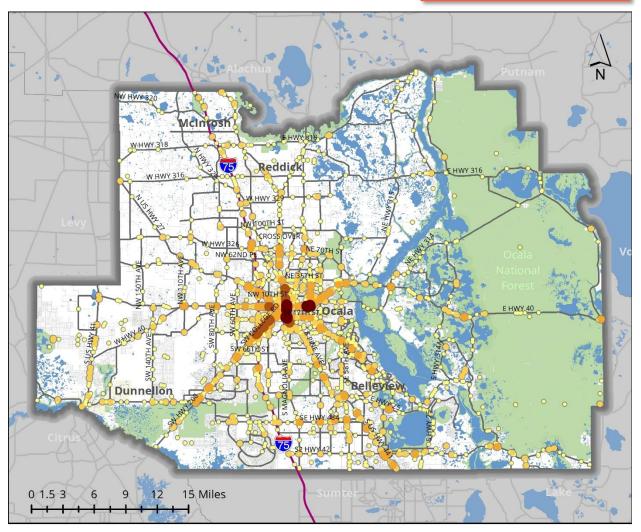

Half of the KSI crashes occurred along State (FDOT) maintained roadways.

Like many areas, the Ocala/Marion community is a mix of urban and rural areas and uses. The urban areas often have the highest density of population, employment, and traffic. Therefore, it isn't a surprise to see that the highest concentration of KSI crashes is within the urban

areas; over 73% of the KSI crashes occurred within the county's urban areas, although when examining just fatal crashes that ratio is much more balanced with 59% of the fatal crashes occurring in the urban areas and 41% in the rural areas.

73% of the KSI crashes occurred within the county's urban areas.

Killed and Seriously Injuried Crashes (2015-2020)

High Injury Network

The Commitment to Zero High Injury Network (HIN) is comprised of streets where KSI crashes have frequently occurred. The identified HIN represents 2.9% of the county's centerline roadway miles but had 41% of the total KSI crashes and 33% of the fatal crashes.

As discussed later in this Plan, Commitment to Zero is modeled on a system-wide approach that seeks to implement systemic improvements but recognizes the importance of addressing site-specific issues and addressing the unique and complex safety needs of these locations.

High Injury Network

2.9% of the county'sroadways account for41% of the KSI and 33%of the fatal crashes.

High Injury Network Overview:

Crash Types

- 30.3% of the HIN KSI crashes were Angle/Left Turn crashes
- 12.5% of the HIN KSI crashes were pedestrian/bicycle crashes (9.9% pedestrian crashes)
- 7.6% of the HIN KSI crashes were run-off-road crashes

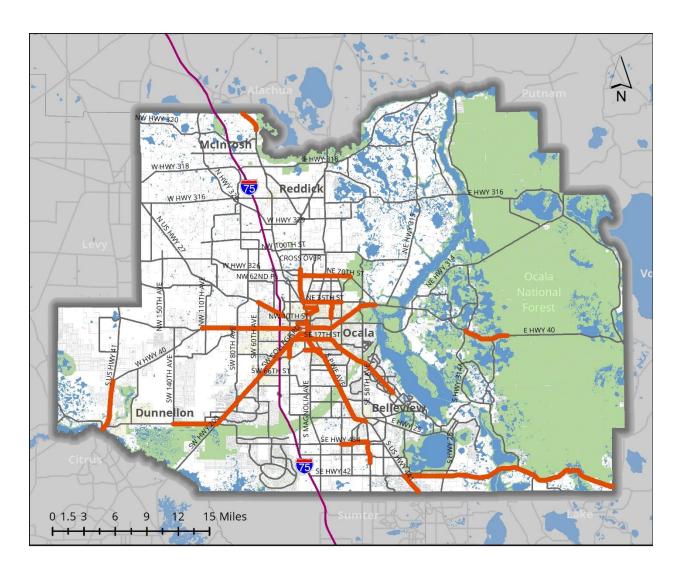

Roadway Factors

- 25 (65.8%) of the HIN segments are in the Urban portions of the county
- 26 (68.4%) of the HIN segments have four or more travel lanes
- 32 (84.2%) of the HIN segments are classified as Arterial roadways
- 31 (81.6%) of the HIN segments have posted speeds of 45 mph or greater, with 17 (44.7%) having posted speeds of 55 mph
- 25 (65.8%) of the HIN segments don't have roadway lighting and 4 segments have lighting with significant lighting gaps
- 27 (71.1%) of the HIN segments are streets that are maintained by FDOT

Multimodal Factors

- 12 (31.6%) of the HIN segments have complete sidewalks along both sides of the street
- 7 (18.4%) of the HIN segments have a dedicated bicycle facility, i.e., bike lane or path
- 20 (52.6%) of the HIN segments are located near a school or park

Commitment to Zero High Injury Network (HIN)

High Injury Network Municipalities Environmental Land

Public and Partner Engagement

A commitment to zero traffic-related deaths and serious injuries requires a cultural shift in everyone's use of the transportation system. A critical component for successful implementation of this Plan is community participation, engagement, and input. The Action Plan identifies several engagement strategies that provide people with knowledge and opportunities to participate in getting the community to its desired goal.

Engagement during the development of the Action Plan primarily focused on engaging community members to establish relationships, educate them on safety initiatives, and listen to input to ensure that the Plan appropriately responds to the needs and concerns of Ocala Marion's residents, workers, and visitors. Engagement and input were sought through public meetings like the project Kick-Off meeting and Public Workshop, an online survey and comment map, targeted stakeholder workshops, and the formation of a Working Group. A summary of the engagement activities and input responses is provided in Appendix C of the Action Plan.

Kick-Off Meeting and Public Workshop

While there were opportunities to engage with the project team throughout the development of the Action Plan, two specific events provided direct opportunities for in-person engagement. These events were the Kick-Off Meeting held on January 12, 2022, and a Public Workshop held on April 14, 2022.

The Kick-Off meeting included a series of presentations and speakers from varied backgrounds including elected officials, members of the community, county staff, law enforcement, fire rescue, FDOT safety office staff, and TPO staff and consultants. The Kick-Off meeting focused on defining the need for a Safety Action Plan and outlining the steps towards Commitment to Zero's goal of zero traffic-related deaths and serious injuries. Additionally, participants could speak with the project team to share concerns, ask questions, and provide input.

A Public Workshop was held to provide people an opportunity to learn about Commitment to Zero, the development of the Action Plan, and provide input on potential strategies to eliminate KSI crashes. The Workshop began with a brief presentation about the need for Commitment to Zero and the approach for the Action Plan. Following the presentation attendees could view information boards, speak to project team members, share ideas, and provide input.

Working Group and Stakeholder Meetings

A Commitment to Zero Work Group was assembled to provide input and guide the development of the Action Plan. The Working Group utilized the existing Community Traffic Safety Team (CTST) meetings and included regular CTST members along with additional agency staff. This diverse group included county and municipal planning and engineering staff, law enforcement from multiple jurisdictions, first responders, FDOT staff, school district staff, and more. Three Working Group meetings were conducted and covered topics such as crash history and factors, known safety issues and locations, potential solutions, and potential challenges in implementing the Action Plan.

On May 12, 2022, a Stakeholder Workshop was held to inform various members of government and public agencies and institutions on the TPO's Commitment to Zero effort, the development of the Action Plan, and to discuss their role in the implementation of Commitment to Zero. The Workshop was structured to be informational but also encouraged an open dialog on how the Action Plan could support on-going safety initiatives and the development of strategies to eliminate traffic-related deaths and serious injuries.

A Workshop was also held following the Transportation Disadvantaged Local Coordinating Board (TDLCB) meeting on June 16, 2022. While general strategies and safety efforts were discussed, many of the discussions with the TDLCB board focused on how Commitment to Zero could help to ensure access and equity to the traveling public.

Online Survey and Comment Map

An online survey and comment map were created to reach a wider audience and make it easier for people to provide input without attending in-person meetings.

The online survey focused on gaining insight into people's opinions on various traffic safety issues and strategies to address fatal and serious injury crashes. The survey was open from January 12, 2022, through July 1, 2022, and was completed by 196 participants. In addition to the structured survey questions, participants were encouraged to provide

comments and share ideas on how to improve safety along Ocala/Marion's roadways.

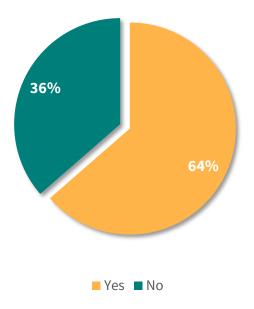

To help identify site specific safety concerns an online comment map was developed. The map allowed people to identify and provide comments on safety concerns at specific

locations. In addition to identifying locations and providing comments, people were able to review previously located pins and comments and could choose to like or dislike the comment and provide additional input. The 33 comments submitted on the online comment map helped in confirming locations with known safety issues while also helping to identify issues at locations not typically known for safety concerns.

Many of the comments from the survey and comment map fell into one of three categories: Roadway Design, Education, and Enforcement. Appendix C includes all the submitted responses and comments from the survey and map. Generally, when asked about their thoughts on factors that contribute to KSI crashes people mentioned factors like distracted driving, speeding and aggressive driving, impairment, and a general feeling of people not following the laws. When asked about potential solutions people frequently mentioned roadway design improvements, more sidewalks and separated bicycle facilities, and increased and targeted enforcement.

64% of the 196 respondents indicated that they've known someone who was killed or serious injured in a traffic crash.

Respondents were asked to rank the following statements from 1 to 10; a rank of 1 was considered strong disagreement and 10 was considered strong agreement. The following shows the weighted average of responses to each statement. All statements received a positive response with strong agreement.

| Deaths and serious injuries while traveling in our community are preventable. | 9.0 |
|---|-----|
| Human life should always take priority over moving motor vehicles faster. | 8.8 |
| It is unacceptable for anyone to be killed or seriously injured while traveling on streets in our community. | 8.6 |
| Streets should be designed to be safe for all people of all ages and abilities, regardless of chosen transportation mode. | 8.2 |

Safety Initiatives

The Ocala Marion TPO is not the first organization to do something to address fatal and serious injury crashes. Many communities throughout the state and country have adopted and implemented similar plans and share a goal of zero deaths and serious injuries. Working together and sharing the successes and challenges associated with implementing an action plan strengthens the ability to make lasting change.

National Initiatives

Federal Highway Administration (FHWA)

Through the years traffic-related fatalities have been trending downward. However, the past several years have witnessed an alarming trend with both the number of traffic-related deaths and the rate at which they are occurring, increasing to their highest levels since the pre-recession levels of the mid-2000s.

Of additional concern is the disproportionate levels of traffic-related deaths for people walking and riding bicycles (non-motorized users). 2019, the latest year with national pedestrian and bicycle fatality data, had 7,051 people die while walking or riding a bike along the nation's roadways, which accounted for 19.5% of the overall traffic-related deaths.

To combat the rising number and rate of traffic-related deaths and serious injuries, FHWA has established a goal to significantly reduce transportation related fatalities and serious injuries across the transportation system, and fully supports the vision of zero deaths and serious injuries on the Nation's roads. Additionally, FHWA has partnered with other U.S. Department of Transportation Administrations and external organizations to support a series of national efforts including the Road to Zero, Toward Zero Deaths, Vision Zero, and ITE's Vision Zero.

Bi-Partisan Infrastructure Law

The Bi-Partisan Infrastructure Law (BIL) was signed in November of 2021 as a once in a generation investment in the nation's infrastructure, competitiveness, and communities. While the BIL has a diverse set of objectives, one of the major focus areas is on the safety of all road users, including pedestrians and bicyclists. It is anticipated that over five years, Florida will receive approximately \$100 million in formula funding for highway safety traffic programs to help improve driver behavior and reduce deaths and injuries from traffic crashes; on an annual basis, this represents about a 29% increase over FAST Act funding levels.

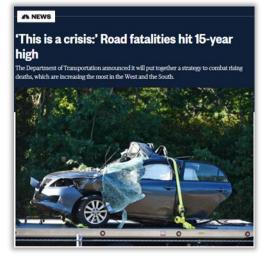

Safe Streets and Roads for All Users Discretionary Grant Program

As part of the BIL, local governments (MPOs/TPOs, counties, cities, transit agencies, and other special districts) in Florida will be eligible to complete for approximately \$6 billion in funding for a new Safe Streets for All (SS4A) program that will provide funding directly to local governments to support their efforts to advance vision zero plans and other improvements to reduce crashes and fatalities, especially for pedestrians and bicyclists. The following are activities that are eligible for SS4A program funding:

- Develop or update a comprehensive safety action plan.
- Conduct planning, design, and development activities in support of an action plan.
- Carry out projects and strategies identified in an action plan.

S | S 4 | A

State Initiatives

Strategic Highway Safety Plan (SHSP)

The SHSP is the statewide safety plan that serves as a framework for eliminating fatalities and serious injuries on all public roads. The Plan is a guide for how Florida's traffic safety partners will move towards the vision of a fatality-free transportation system during the next five years. The SHSP introduces Florida to the Safe System approach to address all elements of a safe transportation system in an integrated manner. In addition to new priorities and strategies, this approach is a commitment of

time, skill, and resources and will deepen the State's resolve to aggressively reduce fatal and serious injury crashes in Florida.

The SHSP concludes with a call to action which states that Florida's safety vision begins and ends with a single word – ZERO. Achieving zero takes everyone working together; the State's goal cannot be achieved without help, and everyone will play a role in achieving the goal.

FDOT Highway Safety Plan (HSP)

The FDOT HSP is designed to guide the implementation of projects and programs that seek to lower the number of fatalities and serious injuries on the State's transportation system with an ultimate target of zero fatalities. The HSP echos the goals of the SHSP and cites a goal of reducing traffic crashes, fatalities, and serious injuries, with a target of zero fatalities and serious injuries.

FDOT District 5 Office of Safety

Established on June 1, 2021, the FDOT District 5 Office of Safety's mission is to continually improve the safety of

Florida's traveling public. The Safety Office works with communities to identify and help resolve traffic safety issues; gather, analyze, and report data on traffic crashes, injuries, and fatalities; distribute federal traffic safety funds; and conduct traffic safety public education campaigns.

Local Initiatives

2045 Long Range Transportation Plan (LRTP)

The Ocala Marion TPO 2045 LRTP identifies specific strategies to improve safety performance focused on prioritized safety projects, pedestrian and bicycle safety enhancements, and traffic operation improvements to address the goal of reducing fatal and serious injuries.

The LRTP identifies safety needs within the metropolitan planning area and provides funding for targeted safety improvements. Goal Three in the LRTP is to Focus on Improving the Safety and Security of the Transportation System, with Objective 3.4 being *Reduce the number of fatal and severe injury crashes for all users.*

List of Priority Projects (LOPP)

In 2022, the TPO also began integrating safety into its annual List of Priority Projects (LOPP) process with emphasis on the Commitment to Zero High Injury Network (HIN) and fatal and serious injury crashes.

Community Traffic Safety Team (CTST)

The goal of the CTST is to reduce the number of traffic crashes, the number of traffic-related fatalities, and the number and severity of injuries that result from traffic crashes. The CTST utilizes a mulidisciplanary approach with members representing law enforcement, emergency services, education specialists, engineers, and traffic safety advocates from both public and private sectors.

Commitment to Zero Approach

The Commitment to Zero Action Plan strategies were developed and modeled on the FHWA Safe System approach, which acknowledges that traffic-related deaths and serious injuries are preventable and that system designers and operators (including transportation planners, engineers, and policymakers) have a responsibility to put safety first.

Safe System Approach Principles

No Death or Serious Injury is Acceptable

Traffic deaths and serious injuries are preventable. Although no crashes are desirable, the Safe System approach prioritizes eliminating crashes that result in death and serious injury, as no one should experience either while using the transportation system.

Humans Make Mistakes

It is recognized that humans will inevitably make mistakes that can lead to crashes. The transportation system should be designed and operated to accommodate these mistakes and avoid death and serious injuries.

Humans are Vulnerable to Injury

People have limits for tolerating crash forces before death or serious injury occurs; therefore, it is critical to design and operate a transportation system that is human-centric and accommodates human vulnerabilities.

Responsibility is Shared

Lifesaving changes happen when we elevate the collective, or societal, responsibility for safe mobility. Safe Systems acknowledges the responsibility that rests with system designers transportation planners and engineers - as well as policymakers in designing and maintaining a safe system within which people can travel. The concept holds that individuals share the responsibility to abide by the systems, laws, and policies set. If safety problems persist, the responsibility comes back to the system designers and policymakers to develop further measures to ensure that crashes do not lead to death or serious injury.

Safety is Proactive

Proactive tools should be used to identify and mitigate latent risks in the transportation system, rather than waiting for crashes to occur and reacting afterward.

Redundancy is Critical

Reducing risks requires that all parts of the transportation system are strengthened, so if one part fails, the other parts still protect people.

Elements of the Safe System Approach

The Safe System approach reflects a shared responsibility to promote a holistic approach to safety across the entire transportation system. The key focus of the Safe System approach is to reduce death and serious injuries through design that accommodates human mistakes and injury tolerances. Committing to reducing traffic deaths and serious injuries means addressing every aspect of crash risk through the following five elements:

Safe Road Users

The Safe System approach addresses the safety of all road users, including those who walk, bike, drive, ride transit, and travel by other mode.

Safe Vehicles

Vehicles are designed and regulated to minimize the occurrence and severity of collisions using safety measures that incorporate the latest technology.

Safe Speeds

Humans are unlikely to survive high-speed crashes. Reducing speeds can accommodate human injury tolerances in three ways: reducing impact forces, providing additional time for drivers to stop, and improving visibility.

Safe Roads

Designing to accommodate human mistakes and injury tolerances can greatly reduce the severity of crashes that do occur. Examples include physically separating people traveling at different speeds, providing dedicated times for different users to move through a space (e.g., left turn signals), and alerting users to hazards and other road users.

Post-Crash Care

When a person is injured in a collision, they rely on emergency first responders to quickly locate them, stabilize their injury, and transport them to medical facilities. Post-crash care also includes forensic analysis at the crash site, traffic management, and other activities.

Safe System Approach vs. Traditional Road Safety Practices

Whereas traditional road safety strives to modify human behavior and prevent all crashes, the Safe System approach refocuses transportation system design and operation on anticipated human mistakes and lessening impact forces to reduce crash severity and save lives.

Traditional Approach

Safe System

- React Based on Crash History ------> Proactively Identify and Address Risks

Strategies for Getting to Zero

The Commitment to Zero Action Plan and its identified actions to eliminate KSI crashes reflect the data driven process, research on best practices and successes from other jurisdictions, and outreach to community members and local agency partners. The identified actions and strategies have been categorized according to the five Safe System approach elements. It is important to recognize that successful implementation of this Action Plan and achieving the goal of zero traffic-related deaths and serious injuries will be reliant on equal implementation across the five elements. Additionally, the success of this Plan is dependent upon everyone working together as one community through ongoing coordination, communication and collaboration.

> The actions and strategies outlined in this Plan reflect a commitment by all partners in the Ocala/Marion community to implement and carry-forward over the next five years.

Safe Road Users

All people who use the road network in the region should be safe, no matter which travel mode they choose.

Advocacy

- Empower the community's youth to serve as safety ambassadors that promote a culture of safe mobility.
- Encourage partner agencies to fully embrace the goal of Commitment to Zero.
- Identify, foster, and promote safety champions throughout the community.
- Partner with local agencies to identify solutions to the safety needs of the transportation disadvantaged.
- Work together to establish a culture of safety, where residents and practitioners in the Ocala Marion area consider safety in all aspects of their lives.
- Work with local/state partners on improving senior mobility and the transportation disadvantaged through education and collaboration.

Education

- Develop staff training materials and programs to increase knowledge in the Safe Systems approach and strategies to eliminate traffic-related deaths and serious injuries.
- Encourage the maintenance and expansion of free Driver's Education at area high schools.
- Identify opportunities to provide transportation safety education to pre-high school students through school lesson plans, focus on age-appropriate topics such as seatbelt use, safe walking and biking, etc.
- Partner with state, regional and local agencies to share and promote educational resources and ideas, e.g., coordinate Commitment to Zero efforts with FDOT's Target Zero efforts, Stop on Red annual events.
- Provide regular training opportunities for aging drivers, such as the Florida Department of Highway Safety and Motor Vehicles' (FLHSMV) CarFit for Older Drivers program.
- Work with local/regional insurers to spotlight safe driving programs that may result in a premium decrease for drivers.
- Work with state and local officials to improve driver training and education on safety and safe driving for all drivers.
- Improve awareness of School Zone safety through education and information sharing in the community.

Engagement

- Develop a coordinated communications strategy on how to notify the public about upcoming Commitment to Zero events, campaigns, projects, and safety concerns.
- Educate the public about the First Responders in the community and their vital roles and responsibilities for safety.
- Ensure enforcement, education, and outreach are equitable across the County's diverse populations.
- Expand opportunities and build more participation and collaboration in events such as School Safety Week, Safe Walk to School Week, Walk Your Child to School Day, Drive for Life, and potential Commitment to Zero events at schools and in the community.
- Collaboration to initiate a new Mock DUI event in community, prior to prom week.
- Develop an annual School Bus Safety Week education and awareness campaign
- Systematically reach out to the community through engagement and educational activities to encourage and build a culture of safety and safe road users.
- Convene an annual Commitment to Zero community workshop.
- Develop a Commitment to Zero public information online dashboard to support education, awareness and reporting of crash statistics.
- Develop a series of how-to videos and social media posts that describe and demonstrate safety initiatives and appropriate/expected road behavior.
- Emphasize the use of technology, including social media and advances in targeted advertising.
- Increase collaboration for targeted law enforcement events.
- Launch a county-wide Commitment to Zero public campaign to build greater awareness around traffic-safety.
- Sustain Commitment to Zero leadership, collaboration, and accountability through regular meetings with a Commitment to Zero working group or another formalized committee.
- Work with community members to hold informational meetings in neighborhoods and community centers rather than at government offices; utilize technology and virtual meeting platforms to reach a wider and more diverse audience.
- Annually recognize safety weeks and/or months for various members of the community (First Responders, Pedestrians, Schools, etc.)

Safe Vehicles

Vehicle design and technology has a direct impact on the safety of all road users.

Advocacy

- Advocate for the advancement of vehicle design features, such as automatic braking and pedestrian protection regulations.
- Stay apprised of emerging advanced crash avoidance technologies (autonomous braking, pedestrian avoidance systems, speed monitoring, etc.) and their impacts on crash severity.
- Advocate for the inclusion of advanced crash avoidance technologies and the advancement of autonomous vehicle driving technology.
- Coordinate with FDOT's Florida Moves Connected and Automated Vehicle (CAV) Initiative to achieve reductions in fatal crashes.
- Advocate for and assist in the training and education of drivers who utilize government fleet vehicles.
- Work with county and municipal partners to improve the safety of and availability of safety features in government fleet vehicles.
- Work with SunTran and Marion Transit to encourage the use of the existing transit system as an opportunity to reduce vehicle miles traveled and crash exposure.

Education

- Introduce and review regular mandatory driving safety course for all county/municipal employees, with regular refresher courses required for those employees who have access to a fleet vehicle.
- Review existing transit driver training programs and incorporate changes to emphasize safety as needed.
- Review the history of crashes involving government fleet vehicles and provide training and counseling, as needed.
- Utilize public fleet vehicles to advertise Commitment to Zero messaging, as appropriate.
- Work with local universities, including Florida Polytechnic, University of Florida, University of South Florida, University of Central Florida, and Florida Institute of Technology, to research the impacts of emerging vehicle technologies on safety.

Safe Speeds

Speed is a key predictor of crash severity; applying appropriate speeds to a roadway based on the context of the roadway is one of the simplest ways to reduce the severity of crashes.

Advocacy

- Advocate for establishing target (survivable) speeds for all roads and promote the decoupling of speed zones from the 85th percentile speed.
- Advocate for the use of automatic speed enforcement (ASE) at the state level, consider support for use within school zones, work zones, and identified high-crash areas.

Education

• Educate people on the relationship between speed and safety and work to change drivers' perception of speed related risk.

Engineering/Planning

- Assess and evaluate posted speed limits countywide and work with partner agencies to develop a speed management program to address speeding concerns based on applicable data.
- Design or redesign streets and intersections to manage speeds as appropriate for the intended use and context of the roadway.
- Develop and implement strategies that help achieve desired target speeds and help improve crash survivability (evaluate survivability rates).
- Create and promote neighborhood-based programs that aim to lower traffic speeds.
- Explore the expanded use of speed feedback signs that also collect speed data to monitor speeds and evaluate effectiveness of strategies.

Enforcement/Emergency Response

- Program, fund, and conduct more high visibility enforcement campaigns aimed at increasing awareness and compliance of safe speeds.
- Coordinate with emergency response on balancing traffic calming and speed management measures with response times.

Safe Roads

Roadway design plays a primary role in reducing speed and conflict while improving safety for all road users. Creating a transportation system that encourages safe behaviors, proactively addresses safety concerns, and quickly responds to new issues is essential to achieving the goal of Commitment to Zero.

Advocacy

- Advocate for improved roadway design guidelines at the national, state, and local level; urge that safety be the primary decision point in future transportation projects.
- Support legislation to increase funding available for safety projects aimed at eliminating KSI crashes and efforts to establish a reliable, dedicated funding source that allows funds to be directly received by local governments.
- Work with partner and peer agencies to convene a legislative platform to advocate for legislative changes that promote and support Commitment to Zero efforts to eliminate KSI crashes.
- Leverage funding sources, new and existing, to increase the number of safety projects throughout the county.
- Prioritize safety improvements on roadways for all people in historically undersevered communities.
- Identify potential legislative barriers to achieving better safety outcomes and identify steps to work through those barriers.
- Continue to participate and contribute to regional, state, and national conversations related to eliminating traffic-related deaths and serious injuries.
- Focus on school-specific safety studies and improvements and Safe Routes to Schools grants.
- Pursue additional resources through outside funding to implement Commitment to Zero projects and programs. Convene a team to identify and pursue funding opportunities.
- Provide grant-writing support to partner agencies for transportation safety-related project funding.

- Develop and organize pop-up safety demonstrations that can be used to show how Commitment to Zero focused strategies and improvements can be implemented, e.g., curb extensions with planters and/or paint, separated bike lanes with temporary flex posts, etc.
- Implement tactical urbanism techniques to enhance safety and increase awareness of Commitment to Zero; engage with local arts and cultural departments and groups and local artists on efforts.

Engagement

- Organize events (e.g., Open Streets) that focus on the livability aspect of the community's streets.
- Participate in state and regional Safe Street Summits and events that focus on transportation safety and on the successful implementation of safety projects.

Engineering/Planning

- Apply a proactive, systems-based approach to identify and address top crash factors and mitigate potential crashes and crash severity.
- Provide feedback on FDOT and local agency partners' roadway design manual updates and other roadway design strategies and guidance.
- Evaluate resurfacing and pavement maintenance programs and projects for opportunities to expand safety enhancements.
- Implement countermeasure projects to improve safety along the High Injury Network (HIN) corridors. Complete Road Safety Audits (RSAs) to identify short to long range improvements along HIN corridors.
- Implement projects that make it safer to walk, bicycle, and take transit, and work to make these modes of travel more accessible and comfortable.
- Continue to expand and enhance existing sidewalk and bicycle facility networks and create public spaces that are safe and attractive for people to walk and ride a bicycle.
- Incorporate complete streets principles where roadway design reflects the context of the surrounding area.
- Encourage the strengthening of development review standards and traffic study guidelines to incentivize traffic safety enhancements.
- Incentivize enhanced scoring based on positive safety aspects for projects seeking funding through the TPO.

- Encourage updates to local land development codes and comprehensive plans to reflect and support Commitment to Zero goal and principles.
- Establish a systematic lighting enhancement program to evaluate, identify, and improve lighting along roadways.
- Plan and implement safety countermeasure projects to improve transportation safety.
- Encourage the collaboration with utility and stormwater/drainage projects to incorporate safety improvements, especially if significant roadway or curb work is involved.
- Support the initiation of a quick-build program (e.g., design-build push button) to support quick implementation of safety enhancements.
- Work with partner agencies to evaluate existing maintenance of traffic (MOT) processes and requirements to ensure that all roadway users are prioritized and protected, with an emphasis on ensuring walking and bicycling mobility and access.
- Perform systematic reviews of existing conditions through Road Safety Audits (RSA) and safety assessments.
- Conduct regular and expedient reviews of KSI crashes to identify if there are immediate actions that can take place to mitigate future crashes.
- Work with local transit partners to conduct a detailed safety analysis of transit stop locations; focus on higher ridership stops located in locations with higher frequency of KSI crashes.
- Provide technical assistance at the county and municipal level, including incentivizing these jurisdictions to launch their own programs aimed at improving roadway design guidelines.
- Pursue the design of larger street signs and fonts with greater reflectivity in support of visibility and the growing aging driver population.
- Consider the implementation of red-light cameras at targeted high crash intersection locations.
- Track the effectiveness and success of safety-focused projects through before and after studies.
- Incorporate crash reduction factors into the annual TPO Performance Management Safety Target reporting.
- Review and update safety projects annually for the TPO's List of Priority Projects (LOPP) process. Reference LOPP safety projects to the Commitment to Zero Safety Action Plan.

Pre- and Post-Crash Care & Data Management

Understanding why serious injuries and fatal crashes occurred historically is the first step towards eliminating them altogether. When crashes do happen, the ability of first responders to quickly reach and treat the injured person is critical.

Advocacy

- Advocate for full staffing of law enforcement traffic control groups, fire rescue, emergency medical service (EMS), and other crash response personnel.
- Work with partner agencies to ensure that first responders are appropriately equipped to respond to crash scenes safely and quickly.

Education

- Organize training for partner agency staff on how to speak to the public and media about KSI crashes and efforts to eliminate them.
- Provide training opportunities for crash scene management with an emphasis placed towards preventing secondary crashes.

Engagement

• Convene a Commitment to Zero leadership panel consisting of elected officials from various partner agencies to discuss safety efforts, promote safety initiatives, and establish local safety priorities.

Enforcement/Emergency Response

- Monitor and report crash response times, work to identify opportunities to reduce response times.
- Collaborate with emergency responders to identify priority routes and to ensure rapid response to known frequent KSI crash locations.
- Utilize Transportation Management Centers (TMCs) to enhance response times, including expanding these services from the Interstate Highway System to the arterial and major collector roadway network.

- Expand the role of the Community Traffic Safety Team (CTST) and include their input on safety-focused projects aimed at eliminating KSI crashes.
- Partner with local law enforcement agencies and healthcare providers to provide crash reporting and crash-related injury coding best practices to improve the accuracy and value of crash data analysis. Emphasize the importance of data related to speed, impairment, and distractions.
- Re-focus an emphasis on coordination between first responders, including law enforcement and EMS professionals.
- Coordinate with law enforcement and legal systems (prosecutors and defense attorneys) to review and analyze traffic citations and court convictions. Use findings to inform enhanced penalties for driving offenses that lead to loss of life and repeat offenders.

- Annually report on Commitment to Zero progress, including crash statistics, safetyfocused projects, and performance measures.
- Continue to work with safety partners to develop a more comprehensive crash and traffic safety database and utilize data to inform evidence-based strategies and interventions.
- The performance and implementation of all safety actions are routinely evaluated, made public, and shared with decision-makers to inform priorities, budgets, and updates to the Action Plan.
- Track KSI crashes on a regular basis, making redacted crash report information available through a Commitment to Zero public-facing crash dashboard.
- Establish regular pedestrian and bicycle counts and traffic speed data at consistent locations.
- Leverage new and emerging technologies for collecting traffic safety data, e.g., Bluetooth data.
- Encourage media partners to become better educated on how to talk about roadway safety and crashes, e.g., eliminating the term accident and replacing it with crash.
- Coordinate with media partners to ensure the timing of social media and reporting is respectful of a crash incident, the victims, and their families.
- Coordinate with navigation routing services (e.g., Waze, Google, etc.) to provide government data for safe re-routing in response to major crash events.
- Utilize Variable Message Signs to alert drivers of potential routing changes to avoid secondary crash events.

- Ensure that informational materials and resources are available in multiple languages and formats.
- Streamline roadway safety concern submissions through a centralized database that can respond to community traffic safety concerns in a timely manner.

Action Plan Emphasis Areas

The following are topics and actions that have been identified as priorities for implementing the Commitment to Zero Action Plan.

all Salt

Developing a Culture of Safety

A commitment to zero deaths and serious injuries requires a change and shift in culture, both within transportation agencies and other organizations as well as within communities. Everyone must accept that deaths are unacceptable and preventable.

Achieving the goal of zero deaths and serious injuries requires a major commitment from not just the TPO, but from all its partner agencies. Actions identified in this Plan that demonstrate institutional change will help the region achieve its goal of eliminating KSI crashes. These institutional commitments can influence support of the Commitment to Zero effort and actions to eliminate traffic-related deaths and serious injuries. Public support and buy-in will be necessary to implement many of the actions listed in this Plan, but working together, the TPO and its partners can be confident that significant changes can and will take place.

Speed Management

Speed is a fundamental predictor of crash survival. Without protection of an automobile, the human body has limited tolerance for speeds higher than 20 mph. Speed is an even bigger factor for non-motorized users. To preserve human life, the transportation system should be designed for reasonable and survivable speeds. Speed directly contributes to crash severity in four primary ways:

- Drivers traveling at higher speeds have a narrower field of vision.
- Drivers traveling at higher speeds travel further before they can react.
- Vehicles traveling at higher speeds have longer braking distances.
- Crashes at higher speeds are more forceful and more likely to cause death or serious injury.

As earlier noted, 81% of traffic-related deaths in Marion County occurred on roadways with a posted speed limit of 45 mph or higher. The Action Plan recognizes that speed is a fundamental predictor of crash survival, no matter how one chooses to travel. Crashes may be the result of mistakes or other outside factors, but deaths and serious injuries can be prevented if driving speeds are managed.

Non-Motorized Users

If streets are designed to meet the needs of the most vulnerable users (people walking and riding bicycles), they will be safer for everyone. It has been well-documented that people walking and riding a bicycle, especially those who are young or old, are more likely to be seriously injuried or killed in a crash. Although people walking and biking are involved in a small percentage of total crashes, they represent a disproportionately large percentage of those killed in crashes.

Run-Off-Road Crashes

There are many factors that contribute to a vehicle leaving a roadway, speed, distraction, impairment, lighting conditions, roadway surface conditions, and roadway edge or shoulder conditions that don't allow for driver error are all factors that contribute to run-off-road crashes. 23% of the traffic-related deaths in Marion County were the result of a vehicle leaving the roadway. Working together to advance roadway designs that are more forgiving to driver error or provide visual and audible cues to the driver either through the physical environment (e.g., rumble strips) or through vehicle technology have potential to help mitigate run off road crashes, especially when combined with other strategies like lighting enhancements and speed management.

ONE WAY

Intersection Operations

Intersections, by design, have higher opportunities for conflict and collisions with the number of vehicles and other users crossing paths and making complex manuvers. Identifying opportunities that limit conflicts between vehicles and vehicles and other users can help reduce the severity and overall number of crashes at intersection locations. Exploring opportunities for geometric improvements and innovative intersection designs should become part of the regular project review process.

Performance Measures

Evaluating and measuring progress over time is critical to understanding if the Ocala Marion region is moving towards its goal of zero traffic-related deaths and serious injuries. Tracking progress also provides insight into what is working well and what could be done better in the future. As with the strategies, performance measures should evolve to reflect successes and highlight continued and new needs. While the goal is zero deaths and serious injuries, the following measures serve as key indicators of progress towards implementation of the Action Plan and achieving the goal.

Data

- Total traffic-related deaths and serious injuries.
- The number of traffic-related deaths and serious injuries by crash type.
- The number of traffic-related deaths and serious injuries by crash factors, e.g., roadway type, posted speed limit, lighting condition, impairment, distraction, etc.
- Incorporation of equity measures in crash data analysis and transportation project decision-making.
- Progress towards coordination with public health officials on obtaining data to enhance crash and crash severity reporting.
- Average crash response and clearance times.
- Percentage of traffic stops based on contributing crash factors, i.e., speed, aggressive behavior, distracted driving, impaired driving, seatbelt, etc.

Engagement

- Level of participation in engagement activities in historically underserved communities.
- The number of community members reached by Commitment to Zero engagement activities.
- Number of neighborhoods/communities visited.
- Activity related to online and social media posts about Commitment to Zero.
- The number of Commitment to Zero and safety-focused events held.
- The number of safety demonstrations and pop-up events provided.
- The number of schools visited or spoken to about Commitment to Zero.
- Progress on developing and implementing a public awareness campaign.
- The number and type of agency and community members represented in Commitment to Zero working groups or similar activities.

Engineering/Planning

- The number of safety improvements completed in communities identified as environmental justice areas.
- The number of Commitment to Zero training sessions held with local agency staff.
- The number of safety-focused projects implemented, miles of streets and intersections receiving safety treatments.
- Total number and percentage of street reconstruction projects with multimodal safety needs and improvements made to address those needs.
- The number of completed RSAs and safety assessments.
- The number of roadway miles and intersections where lighting was enhanced.
- The number of speed management studies completed.
- The number of roadway miles where posted speed limits were reduced.
- The number of new/enhanced sidewalk miles installed/completed.
- The number of dedicated bicycle facility miles installed.
- Local policy changes to support and advance Commitment to Zero.
- The number of local governments that adopt Commitment to Zero or a similar Vision Zero approach.
- The number of law enforcement training sessions conducted.
- The number/percentage of intersections enhanced to include priority pre-emption signal technology.
- Progress towards advancing identified legislative priorities.

Conclusion – Working Together

Commitment to Zero requires a comprehensive and collaborative approach to succeed. Solutions to the fatal and serious injury crashes in Ocala/Marion County will not be achieved overnight and will require steadfast determination and perseverance.

The Commitment to Zero Safety Action Plan is intended to be a living document that will grow and change as initiatives and projects are completed, new types of interventions are explored, and objectives are refined to reflect outcomes and data. The Ocala/Marion community must remain fully engaged with policies and procedures that reflect a Commitment to Zero. As the the community moves forward, we will see the components of the Action Plan lead to the further development of a transportation system that reflects and prioritizes the well-being, health, and lives of the citizens and visitors to the region.

To stay engaged with the Commitment to Zero Action Plan and ongoing community activities, please visit the TPO's Safety Action Plan webpage and follow the TPO on social media.

Crash Assessment Overview

The Commitment to Zero crash assessment reviewed fatal and serious (incapacitating) injury (KSI) crashes that occurred on the streets of Marion County during the 2015 to 2020 timeframe. The following are highlights from the assessment. Additional information and details on fatal and serious injury crashes are included in this document.

- During the 6-year assessment period from 2015 to 2020 there were 469 fatal crashes and 1,828 serious injury crashes, totaling 509 deaths and 2,371 serious injuries.
- While annual KSI crashes have decreased since peaking in 2018, the number of KSI crashes has been trending upward during the assessment period.
 - The number of fatal crashes has continued to increase throughout the assessment period.
- Approximately 59% of the KSI crashes occurred during daylight conditions, with 35% occurring during dark (with and without street lighting) conditions, and 7% during dawn/dusk conditions.
 - Approximately 51% of the Fatal crashes occurred during Dark conditions, with 9% of fatal crashes occurring in dark conditions with street lighting and 42% of fatal crashes occurring in dark with no street lighting conditions.
- The crash data shows that 13% of the KSI crashes involved confirmed alcohol use; 35% of the fatal crashes involved confirmed alcohol use.
- The crash data shows the 10% of the KSI crashes involved confirmed drug use; 38% of the fatal crashes involved confirmed drug use.
- 55% of the KSI crashes and 46% of the fatal crashes occurred on Arterial roadways; by comparison, arterial roadways are approximately 8% of the transportation system's centerline miles and carry approximately 37% of the traffic volumes.
- Speed is a well-documented factor in the severity of crashes, 74% of KSI crashes occurred on roadways with a posted speed limit of 45 mph or greater, 81% of fatal crashes occurred on roadways with a posted speed limit of 45 mph or greater.
- 50% of the KSI crashes occurred on state-maintained roadways.
- The crash types associated with the most KSI crashes include Angle/Left Turn crashes (25%), Rear End crashes (19%), Run Off Road crashes (17%), and Bike/Pedestrian crashes (11%).
 - The crash types associated with the most fatal crashes include Run Off Road crashes (23%), Bike/Pedestrian crashes (20%), and Angle/Left Turn crashes (17%).

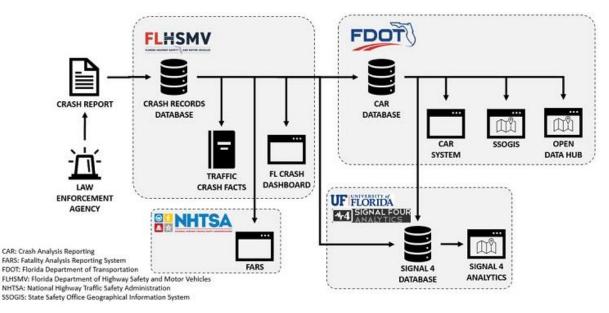

Introduction

Commitment to Zero is built around a Safe Systems framework. In Safe Systems, a "safety culture" is adopted, whereby the goal of any roadway initiative, whether education, engineering, or any other intervention, is to eliminate the possibility of death. Under Safe Systems, the entirety of the transportation network is designed and studied in a way that inevitable mistakes by roadway users – motorists, walkers, bicyclists, and motorcyclists – do not result in death.

Data Source

Crash data were retrieved from Signal Four Analytics, a collaborative statewide crash analytical tool developed by the University of Florida Geoplan Center, for the period between 2015 and 2020. Signal Four receives its crash data via the Florida Department of Highway Safety and Motor Vehicles (FHSMV) and enhances this data using citation data retrieved from the Florida Court Clerks & Comptrollers (FCCC). After retrieving these data, Signal Four then performs quality control as needed.

Crash Trends

To better understand which interventions will have the highest safety benefit, an analysis of fiveyear crash data was undertaken to identify crash trends within Ocala / Marion County. An additional sixth year, 2015, was included to account for the unusual circumstances in 2020 stemming from the initial onset of the Covid-19 pandemic. Because Commitment to Zero focuses on eliminating deaths and serious injuries, only crashes where someone was killed or severely injured (KSI) were reviewed. Certain trends were further identified for KSI crashes involving people riding bikes or walking, who make up a disproportionate share of total KSI crashes.

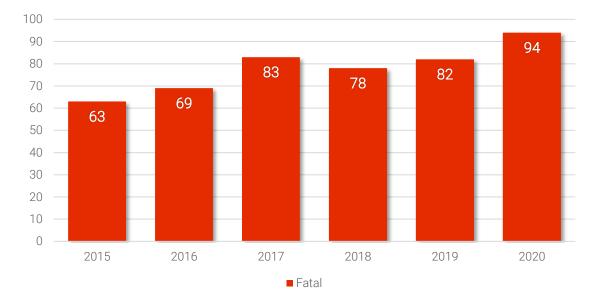

Seasonality

Crashes were reviewed by year, month, day of the week, and hour of the day.

Annual Crashes

On an annual basis, KSI crashes have been progressively increasing. In 2018 there was a noted spike in serious injury crashes. Although total KSI crashes were lower in 2020, the proportion of fatal crashes to serious injury crashes was higher than in any other reviewed year. Fatal crashes have increased throughout the 6-year assessment period, with 2020 having approximately 49% more fatal crashes compared to 2015.

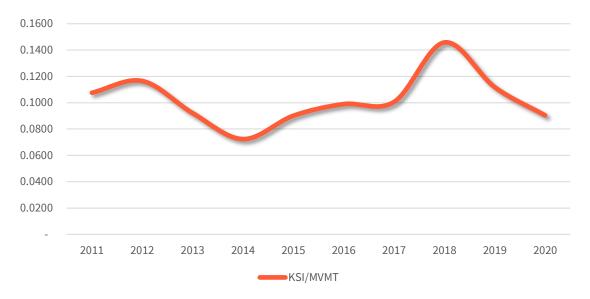

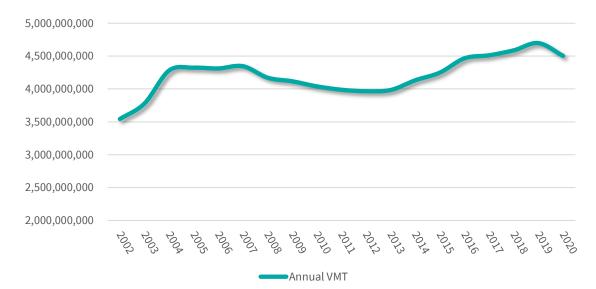

Annual Crash Rates

How does vehicle miles travel (VMT) impact KSI crash statistics? Looking at crash rates normalized by VMT, it is possible to observe the relationship between increased and decreased driving impact KSI crashes. Evaluating the number of fatalities and serious injuries against the amount of traffic provides a baseline for how traffic might impact KSI crashes. The figure below shows the rate of KSIs per million VMT from 2011 through 2020. While the KSI rate decreased in 2020, the 10-year trend has been increasing.

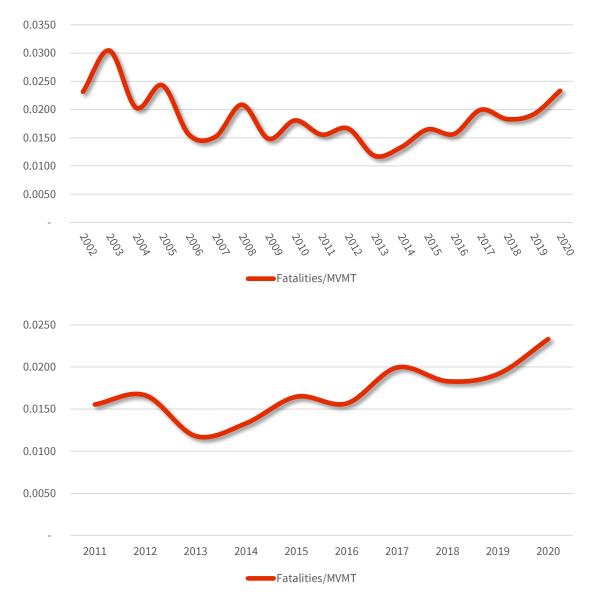

The following figure shows annual VMTs for Marion County for the years 2002 through 2020. As shown VMTs were relatively stable through the mid-2000s, began to decrease during the recession beginning in 2008, and then started rising again starting in 2014.

The rate of fatalities per million VMT is shown in the following figures. The first figure shows the fatality rate from 2002 through 2020, as shown the fatality rate has decreased during the 19-year period but starting in 2014 the fatal crash rate has increased. The next figure shows the fatality rate for the years 2011 through 2020, and how that rate has continued to increase during the past decade.

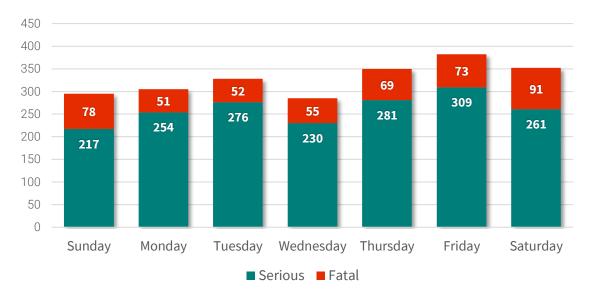

Monthly Crashes

On a monthly basis, total KSI crashes are generally stable month over month. The highest period is between September and December, with September having the highest number of deadly crashes and October having the highest number of crashes resulting in serious injuries.

Daily Crashes

By day of the week, Thursdays and Fridays had the highest frequency of KSI crashes. Saturdays had the highest number of crashes resulting in death with 91; combined the two weekend days (Saturday and Sunday) had approximately 36% of the fatal crashes.

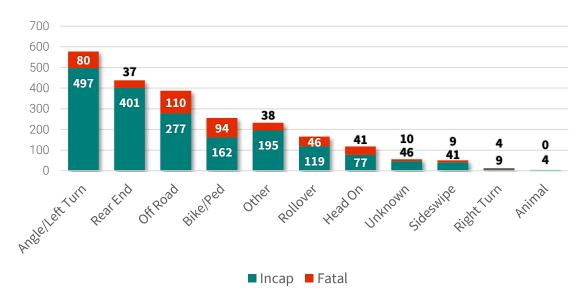

Hourly

Examining KSI crashes by time of day shows a distinct peak in crash frequency through the afternoon and early evening hours between 1 pm and 6 pm. The highest number of crashes resulting in serious injuries occurred during the 4 pm hour, with 129 severe injury crashes. The 7 pm hour had the highest frequency of fatal crashes with 33. Approximately 32% of the KSI crashes occurred during the 5-hour period between 1 pm and 6 pm.

Crash Types

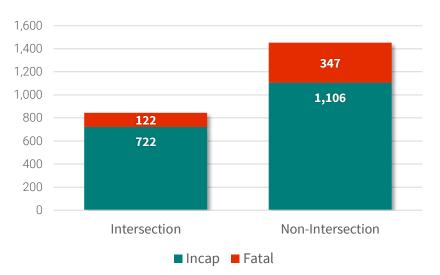

Crashes were placed into 11 crash type categories, shown as the figure below. Angle and Left Turn crashes made up the largest share of total KSI crashes (25%) and serious injury crashes (27%). Run Off Road accounted for the largest share (23%) of crashes that resulted in a death.

Relation to Intersection

Crashes were categorized based on the crash locations relationship to an intersection. 63.3% of KSI crashes occurred at non-intersection locations, these locations include driveways, side street locations, and the areas between formal intersections. The proportion of fatal crashes at non-intersection locations was higher compared to intersection crashes, with 23.9% of the non-intersection KSI crashes resulting in a death compared to 14.5% of the intersection related crashes.

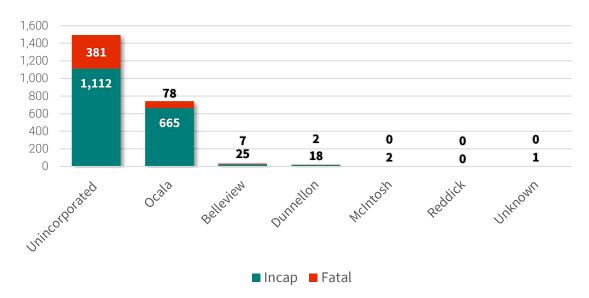

Roadway and Locational Trends

A review of roadway data was completed to better understand the types of roads where KSI crashes are occurring with the highest frequency.

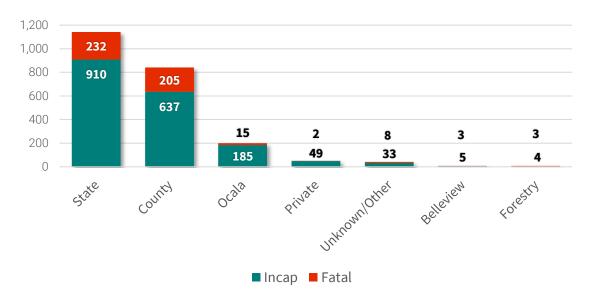

Most crashes are documented as occurring within unincorporated Marion County and the City of Ocala. Together, the lane miles of roads within these areas make up for about 98% of total miles, matching their total share of about 98% of KSI crashes.

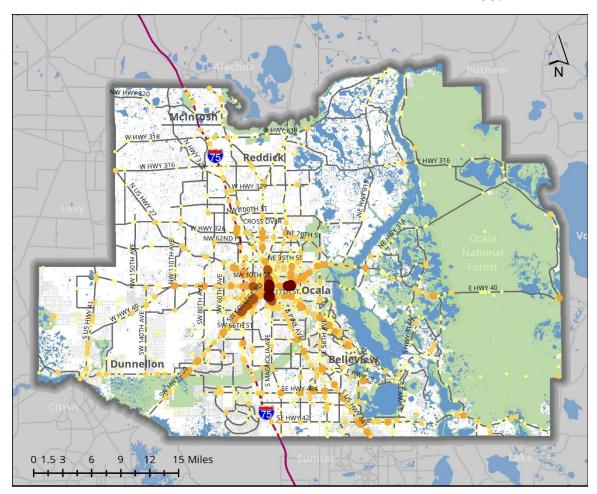

Most crashes occur on State and County maintained roads. These roads carry the highest volume of traffic at the highest speeds, two factors that contribute significantly to the probability and severity of a crash.

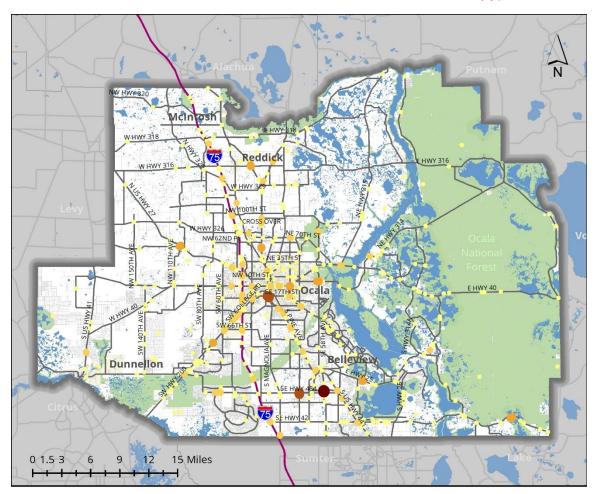

The following maps show the location and frequencies of KSI and Fatal crashes. As shown, the highest concentration of KSI crashes is in the most urban areas of the county, specifically within and near the City of Ocala. Fatal crashes are a little more dispersed throughout the county.

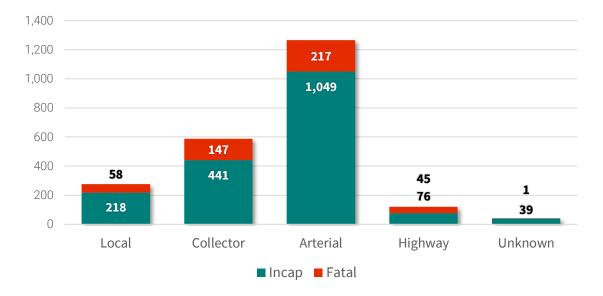

Arterial roadways make up about 8% of total centerline miles in Marion County, carry approximately 37% of the traffic, yet have 55% of total KSI crashes and 46% of total fatal crashes. Collector streets, which make up about 15% of total centerline miles and carry about 20% of the traffic, have about 26% of the total KSI crashes. Conversely, local streets, which make up 77% of total centerline miles and 20% of the traffic, have 12% of total KSI crashes – including 12% of serious injury crashes and 12% of fatal crashes. This is due in part to the much lower volume and speed encountered on local roads compared to their arterial and collector counterparts.

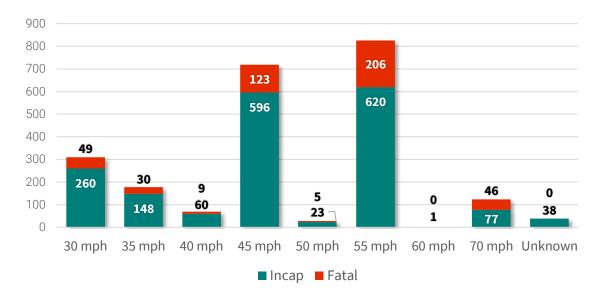

Most KSI crashes occurred on 2-lane roadways, with 48% of the KSI crashes. 4-lane roadways had 37% of the KSI crashes and 31% of the fatal crashes.

Roads with a posted speed limit of 45 MPH or 55 MPH made up about two-thirds of total KSI crashes. Additionally, roads with a posted speed limit of 55 MPH made up 44% of fatal crashes, despite only making up 36% of total KSI crashes.

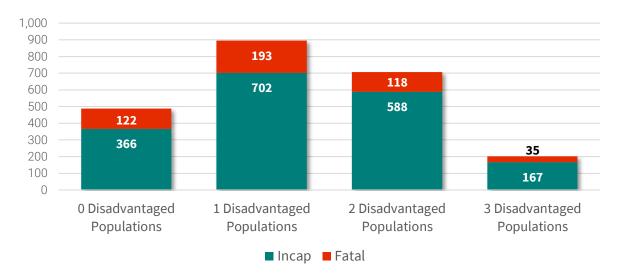

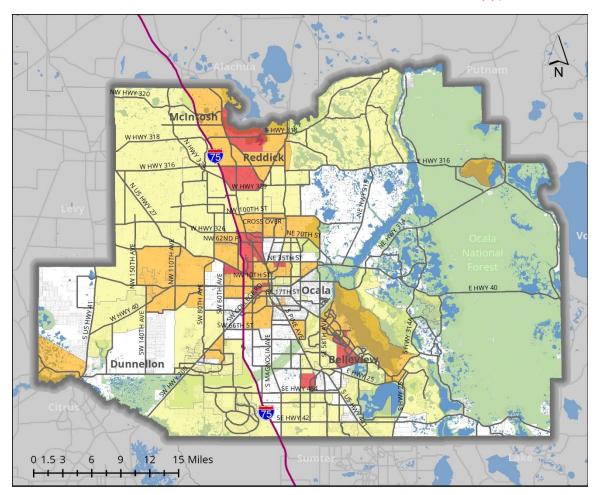

Equity Assessment

Demographic and socioeconomic factors including age, race/ethnicity, household poverty, and zero-vehicle households were obtained and analyzed at the Census block group level. The composite equity score identifies concentrations of these factors relative to the County as a whole. Block groups with one or more demographic/socioeconomic indicators were identified; crashes that occurred within these areas were also identified.

A low equity score has a lower concentration of demographic/socioeconomic indicators that are often associated with increased barriers to mobility. Locations with a High and Very High equity score represent locations that have higher percentages indicators. Approximately 65.3% of the KSI crashes occurred in medium equity indicator locations, 16.5% in high equity indicatory locations, and 18.2% in very high equity indicator locations.

 Equity Areas
 1 Disadvantaged Populations
 3 Disadvantaged Populations

 2 Disadvantaged Populations
 3 Disadvantaged Populations

Environmental Trends

Lighting

Dark lighting conditions were a significant indicator that a crash would result in death when compared to total KSI and serious injury crashes.

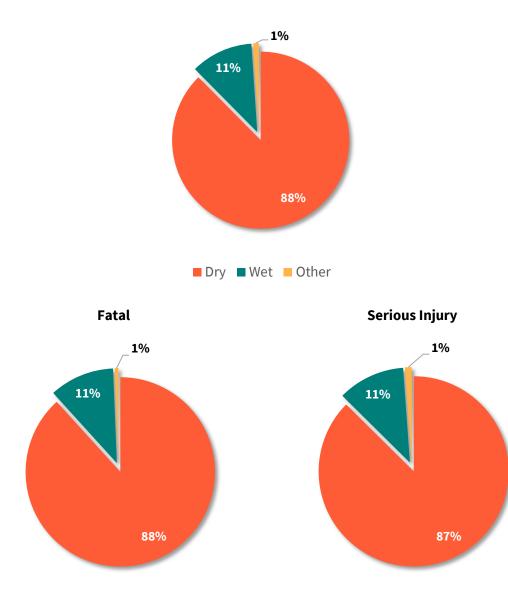

15

Road Surface Condition

Most KSI crashes occurred during dry road surface conditions. There was no distinct trend to indicate that road surface conditions are a contributing factor between crash severities.

■ Dry ■ Wet ■ Other

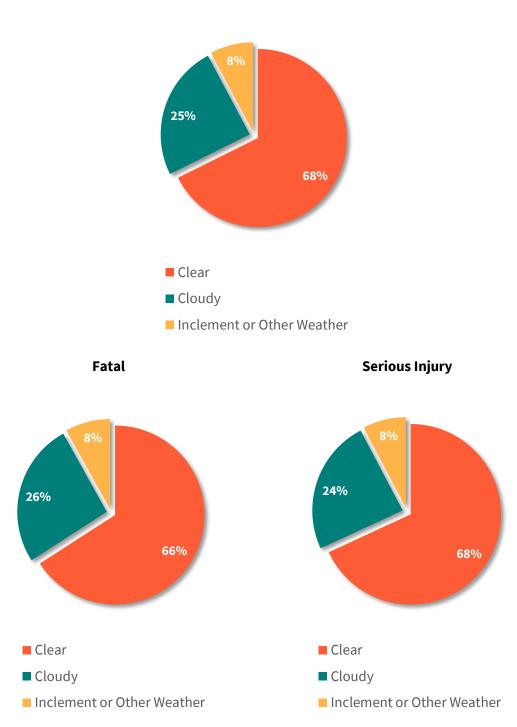

Total KSI

Dry Wet Other

Weather Condition

Most KSI crashes occurred during clear weather conditions. There was no distinct trend to indicate that weather conditions are a contributing factor between crash severities.

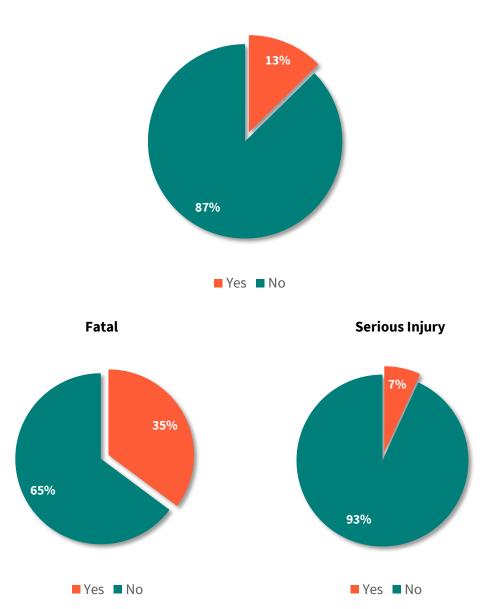

Behavioral Trends

Studying contributing behavior is another way to better understand how crashes occurred, and thus how they can be prevented from reoccurring. The reliability of behavioral trend data is limited to cases where the behavior could be confirmed by a reporting officer. Actual occurrences of these behavioral attributes may be higher, but unable to be confirmed at the time of the crash.

Confirmed Alcohol Use

Crashes that resulted in a death were more likely to involve alcohol use when compared to total KSI crashes and serious injury crashes.

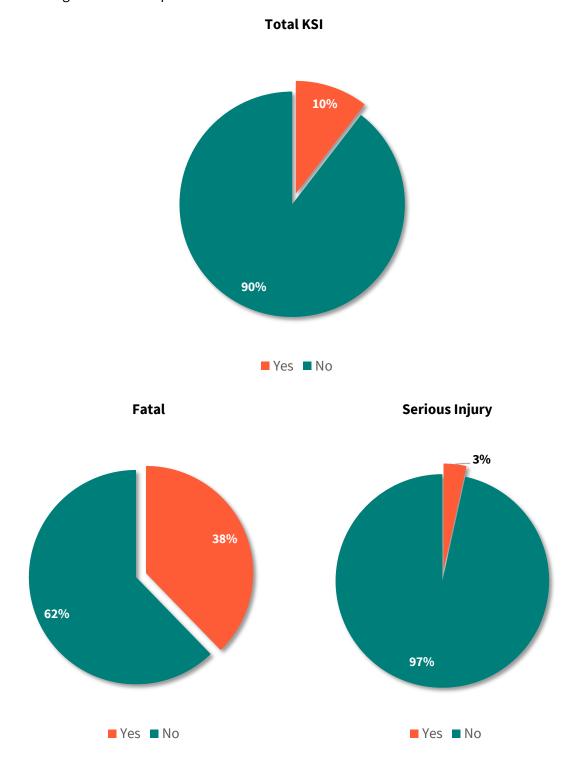

Total KSI

Confirmed Drug Use

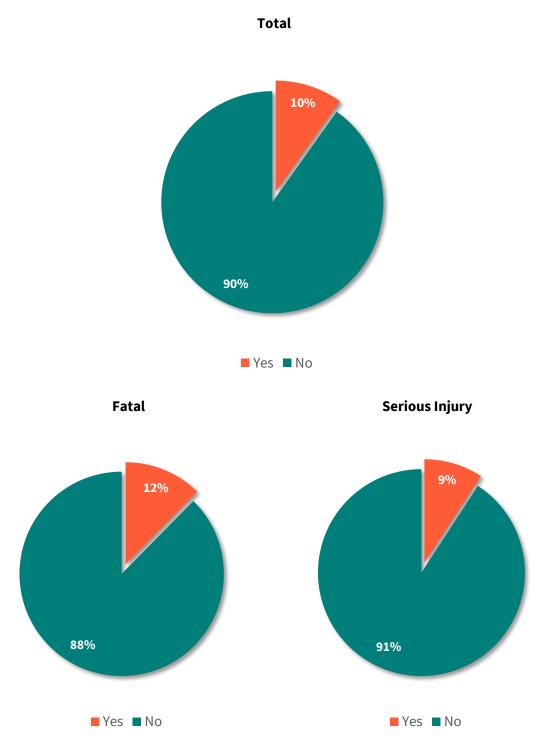

Crashes that resulted in a death were more likely, and serious injury crashes were less likely, to involve drug use when compared to total KSI crashes.

Confirmed Distraction

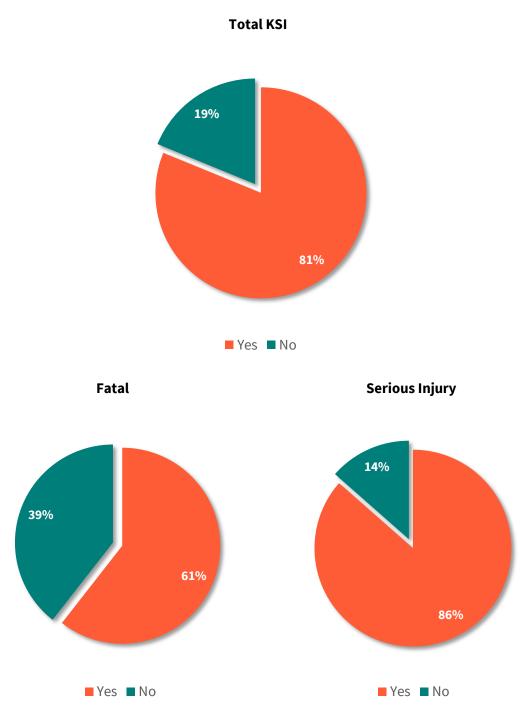

According to the crash report data, distraction isn't a significant indicator in the severity of a KSI crash.

Passenger Restraints

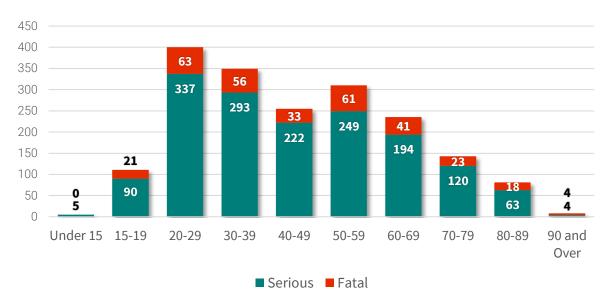

The lack of a passenger restraint, or seatbelt, is a significant indicator that a crash results in a death.

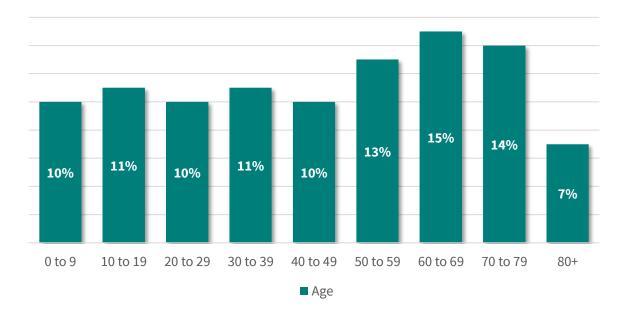

Age of Involved Parties

A review of the age of involved parties was completed, showing that people between the age of 20 and 39 are more likely than others to be involved in a KSI crash. Two cases were excluded where the age of the involved party was unknown.

Upon a review of ACS 2019 data, seen in figure below, the disproportionate share of total crashes compared to total population for the 20 to 29 and 30 to 39 age groups becomes more apparent.

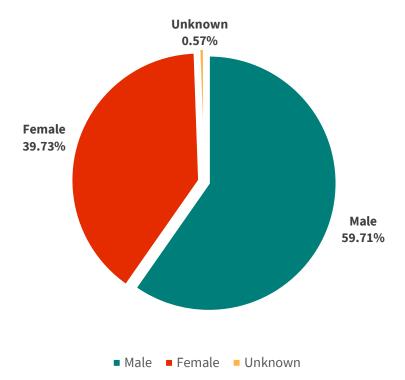

Source: ACS 2019

Gender of Involved Parties

A review of the gender of involved parties was completed, showing that approximately 60% of the fatal and serious injuries were to males; nearly 68% of the fatalities were males. According to the U.S. Census Bureau 2019 American Community Survey (ACS) data, approximately 48% of Marion County's population is male, this highlights a disproportionate involvement of males in KSI crashes.

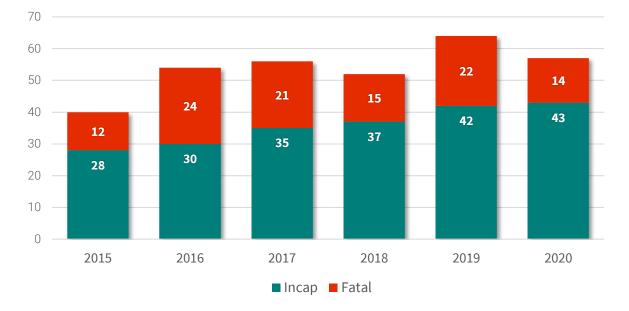

Vulnerable Road Users

People walking or riding a bike, collectively referred to as vulnerable road users, are at unique risk for death or serious injury when compared to people driving. In Marion County, vulnerable road users made up a disproportionate 11% of total KSI crashes, 20% of total crashes resulting in death, and 9% of serious injury crashes, despite making up a comparatively small number of total road users. For this reason, KSI crashes involving vulnerable users are further broken down to identify trends that may be unique from overall KSI crashes.

Seasonality

Annual Crashes

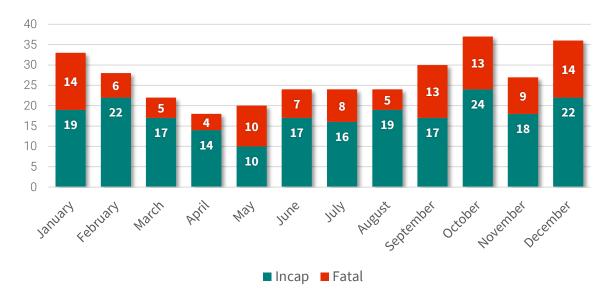

KSI crashes have been steadily increasing since 2015, with 2016 serving as the year with the highest number of crashes causing death and 2020 as the year with the highest number of serious injury crashes.

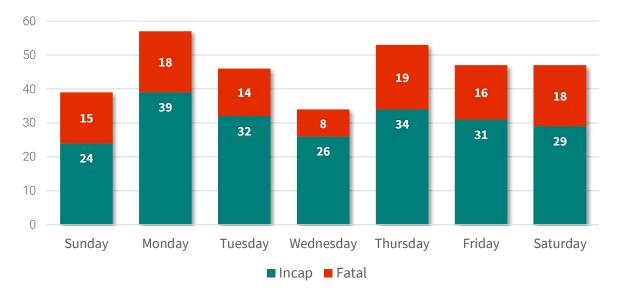

Monthly Crashes

Crashes involving vulnerable road users tend to peak in the Fall and Winter months, with October having the highest number of serious injury crashes and December and January having the highest number of fatal crashes.

Daily Crashes

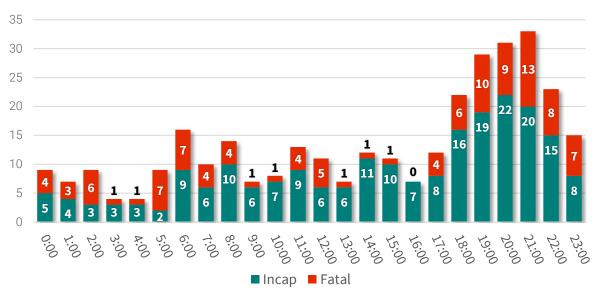

KSI crashes involving vulnerable road users are, on average, highest on Monday and Thursday. Monday was the day with the highest average number of serious injury crashes, and Thursday with the highest number of fatal crashes.

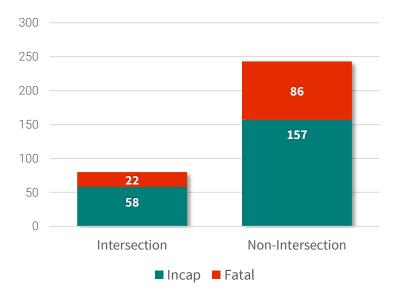

Crashes By Hour

Crashes involving vulnerable road users are low all morning and most of the afternoon, sharply peaking between 4:00 p.m. and beginning to drop off around 10:00 p.m., closely correlating with lighting conditions. This pattern is distinct from total KSI crashes involving all road users, which do not peak as sharply or as late in the day.

Relation to Intersection

Similar to total KSI crashes involving all road users, most crashes involving vulnerable road users occur outside of intersections. However, vulnerable user crashes were more likely to result in death in non-intersection crashes than total KSI non-intersection crashes.

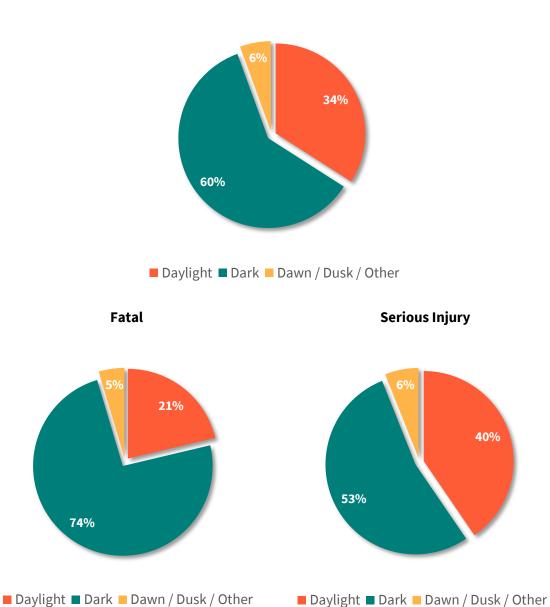

Environmental Trends

Lighting

Compared to total KSI crashes involving vulnerable road users, crashes occurring during dark lighting conditions were more likely to result in a death. Serious injury crashes followed a similar trend to total KSI crashes.

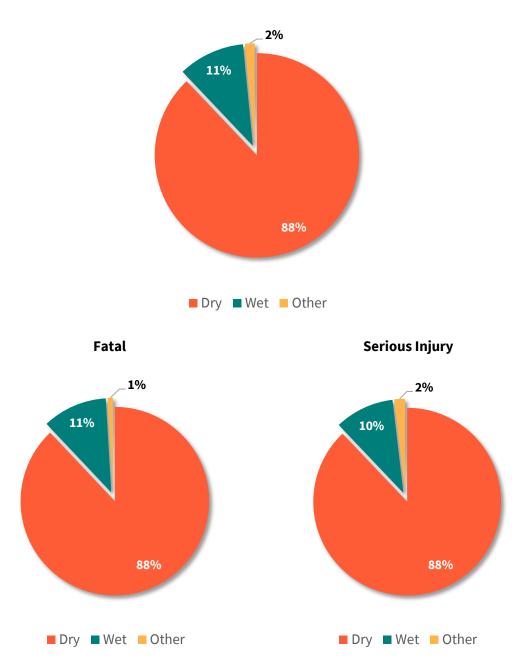

Total Vulnerable KSI

Road Surface Condition

Most KSI crashes involving vulnerable road users occurred under dry road surface conditions. There was no distinct trend to indicate that road surface condition is a contributing factor between crash severities.

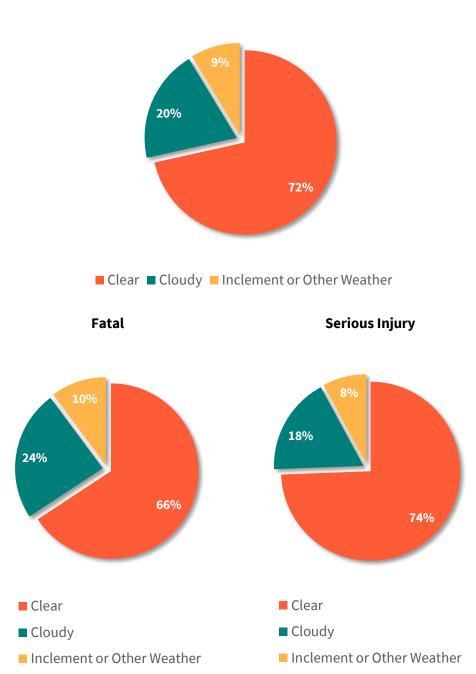

Total Vulnerable User KSI

Weather Condition

Most KSI crashes involving vulnerable road users occurred during clear weather conditions. There was no distinct trend to indicate that weather conditions are a contributing factor between crash severities.

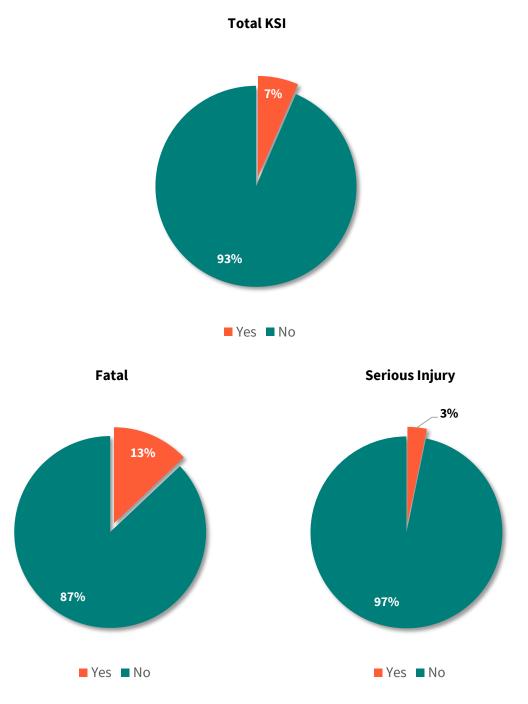

Total Vulnerable User KSI

Behavior

Confirmed Alcohol Use

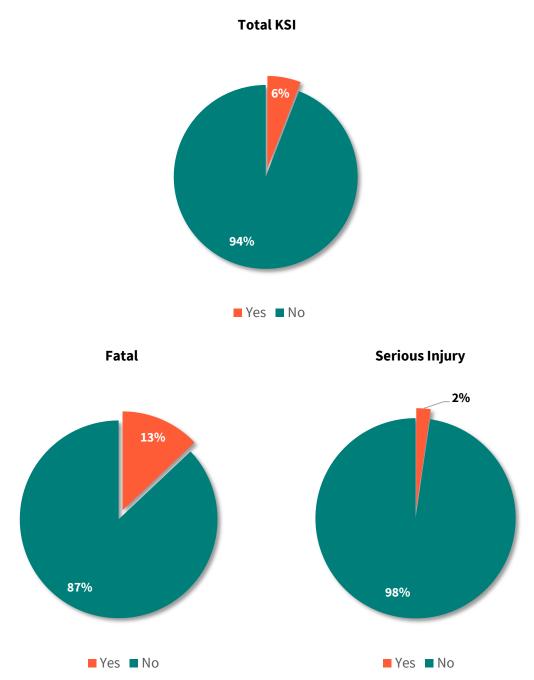

Similar to total KSI crashes involving all road users, confirmed alcohol use was a definitive indicator that a crash would result in a death.

Confirmed Drug Use

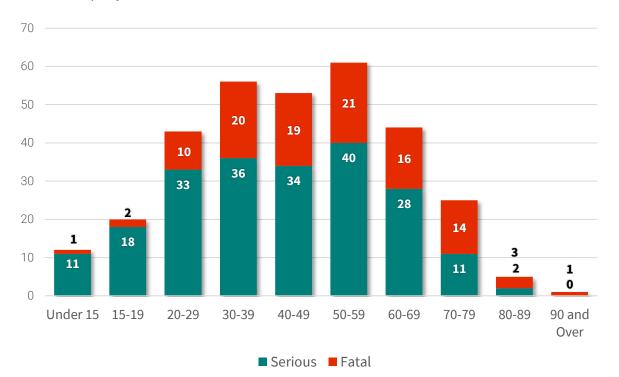

Similar to total KSI crashes involving all road users, confirmed drug use was a definitive indicator that a crash would result in a death.

Age of Involved Parties

A review of the age of involved parties was undertaken, showing that people between the age of 30 and 59 are more likely to be involved in a nonmotorized KSI crash, which is comparatively older than those involved in total KSI crashes of any mode. Two cases were excluded where the age of the involved party was unknown.

Appendix B High Injury Network

September 2022

High Injury Network

While Commitment to Zero follows the Safe System approach that focuses on system-wide improvements and the notion that KSI crashes can occur anywhere and we should work to eliminate KSI crashes everywhere, it recognizes that there are streets where KSI crashes are more prevalent. As part of Commitment to Zero's data-driven approach, the streets with some of the highest frequencies of KSI crashes have been identified to create the High Injury Network (HIN). One purpose of the HIN is to help understand where KSI crashes are occurring by identifying high-risk street segments, but the HIN can also be used to gain a better understanding of characteristics that contribute to KSI crashes, and it can be used to help focus safety efforts and prioritize improvements on the streets that historically have the highest frequencies of KSI crashes.

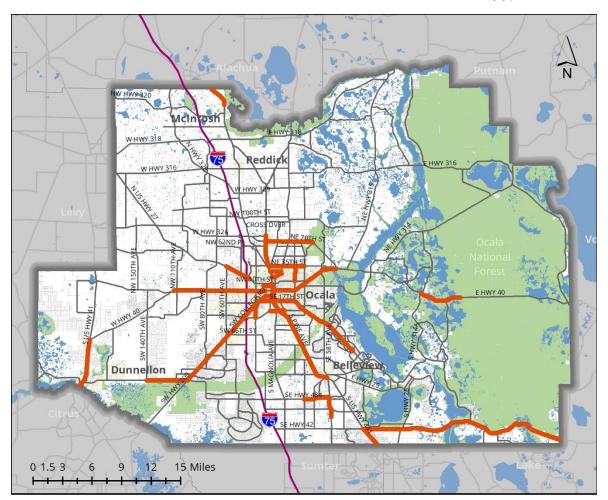

Development of the HIN focused on identifying street segments that support multiple modes, users, and engage with the community; I-75 was not included in the HIN development process since it only accommodates vehicular traffic through limited points of access. Using 2015 – 2020 crash data, the street segments with the highest frequencies of KSI crashes were identified and added to the HIN. The result of the HIN identification process was 38 street segments, these segments, which make-up approximately 2.9% of the total (centerline) street network, accounted for 40.7% of the total KSI crashes (32.4% of fatal crashes and 42.9% of serious injury crashes). The following are some additional observations of the HIN:

- 25 (65.8%) of the 38 segments are in the Urban portions of the county.
- 31 (81.6%) segments have posted speeds of 45 mph or greater, with 17 (44.7%) have posted speeds of 55 mph.
- 26 (68.4%) segments have four or more travel lanes,
- 32 (84.2%) segments are classified as Arterial roadways
- 25 (65.8%) segments don't have roadway lighting and 4 segments have significant lighting gaps
- 12 (31.6%) segments have complete sidewalks along both sides of the street
- 7 (18.4%) segments have a dedicated bicycle facility (i.e., bike lane or path)
- 20 (52.6%) segments are located near a school or park
- 27 (71.1%) segments are streets that are maintained by FDOT
- 30.3% of the HIN KSI crashes were Angle/Left Turn crashes
- 12.5% of the HIN KSI crashes were pedestrian/bicycle crashes (9.9% pedestrian crashes)
- 7.6% of the HIN KSI crashes were run-off-road crashes

The figure and table on the following pages show and list the HIN segments. Additional information on each of the HIN segments is provided on the pages following the figure and table.

Crash rates are represented at the number of crashes per 1,000,000 vehicle miles traveled (VMT); VMT was calculated using the segment length and AADTs.

Appendix C -Engagement Summary

September 2022

Introduction

A series of public involvement activities were established to better gauge the opinions of residents, practitioners, and other stakeholders and guide the development of Commitment to Zero. These activities were generally placed into in-person meetings targeting the public and those who specialize in an aspect of transportation safety, and in the form of online public engagement. This document describes these activities in detail.

Public Kick-Off Meeting

A public kick-off event was held on January 12, 2022, to observe the start of the Commitment to Zero effort and generate enthusiasm and knowledge amongst members of the public. Approximately 40 attendees were welcomed by Commissioner Michelle Stone and then provided a broad overview of Commitment to Zero and current safety-focused efforts from County staff, law enforcement, fire rescue, and the Florida Department of Transportation (FDOT).

The Kick-Off Meeting focused on what makes the Commitment to Zero and the Safe System approach framework different from past traffic safety approaches and punctuated the unnecessary loss of life to traffic deaths in the region. Attendees were provided a fact sheet explaining the project and had the opportunity to browse meeting boards that explained the project timeline and the principles of the Safe System approach.

Working Group Meetings

A series of three Commitment to Zero Working Group meetings were facilitated throughout the development of the Action Plan. The Working Group was hosted be the Marion County Community Traffic Safety Team (CTST). The CTST is made up of a group of interdisciplinary individuals who are focused on discussing issues related to crashes and potential solutions to mitigate those crashes. The Working Group was provided with background information on the goals and principles of Commitment to Zero, including an overview of the Safe Systems approach, participated in a brainstorming session on potential strategies and actions, and provided general input and guidance towards developing the Action Plan and future implementation of the Plan. As mentioned, the Working Group met three times, a summary of those meetings is provided below:

- Working Group Meeting #1, February 10, 2022: The first Working Group meeting provided an overview of the TPO's Commitment to Zero effort and the development of an Action Plan to support Commitment to Zero. A review of the Safe Systems approach to transportation safety was provided, an overview of crash data and crash factors was provided, and a discussion on observed issues and behaviors and discussions on what the Action Plan is looking to specifically address were held.
- Working Group Meeting #2, April 14, 2022: The second Working Group meeting looked at the crash history data in greater detail and included a more in-depth discussion on factors and behavioral trends that may influence the occurrence and severity of crashes. An introduction to the High Injury Network (HIN) was provided and a discussion ensued on how the HIN could be used to focus efforts and prioritize future projects. The meeting concluded with a group brainstorming session to discuss and identify potential actions and strategies that could be developed into the Action Plan to address fatal and serious injury crashes.

COMMITMENT TO ZERO

An Action Plan >>>> for Safer Streets in Ocala Marion

• Working Group Meeting #3, July 14, 2022: The third and final meeting included a review of the public engagement and summary of received input. A large portion of the meeting was dedicated to reviewing the proposed strategies and actions and on identifying potential emphasis areas that should be highlighted in the Action Plan. Finally, the meeting concluded with a discussion on performance measures and how the success of the Commitment to Zero effort should be measured.

Public Workshop

A public workshop was help on the evening of April 14, 2022, at the College of Central Florida's Klein Center. The workshop was opened by the TPO Board Chair, Councilmember Ire Bethea. Following Councilmember Bethea's opening statements, Commissioner Michelle Stone spoke to the audience about the importance of Commitment to Zero and the TPO's commitment to eliminating traffic-related deaths and serious injuries. TPO Director Rob Balmes introduced the consultant

team which provided an overview of the Commitment to Zero and Action Plan process and background information. Following the brief presentation, the meeting shifted to an open house style event where participants could engage with TPO, agency, and consultant staff to express their thoughts and ideas on areas, both traffic-related and geographical, that should be reviewed as part of the Action Plan development. Participants were also encouraged to complete the online survey, comment on the online map, and were provided with information that they could share with others.

Stakeholder Meeting

On May 12, 2022, a Stakeholder Group Meeting was held to inform a mix of government agency staff, law enforcement, fire rescue, and public participants on the status of Commitment to Zero and to solicit input on the formation to actionable strategies. The meeting covered the Safe System approach and how it differs from the traditional transportation safety approach, a summary of the crash evaluation and key take-aways related to crash types and factors, and a discussion on potential strategies for the Action Plan.

Transportation Disadvantage Local Coordinating Board Workshop

On June 16, 2022, following the Transportation Disadvantaged Local Coordinating Board (TDLCB) meeting a workshop was held to inform the TDLCB members about the efforts related to Commitment to Zero and the development of the Action Plan. Input and feedback were solicited through discussions focused on how Commitment to Zero could benefit transportation disadvantaged persons and the community in general.

Online Survey

An online survey was developed and hosted on the TPO's Safety Action Plan webpage. Open from January 12, 2022, through July 1, 2022, the survey was used to solicit feedback from the public on issues associated with crashes and traffic safety concerns in the community. 196 participants completed the survey by answering questions and providing comments. The following provides a summary of the results of the survey by question.

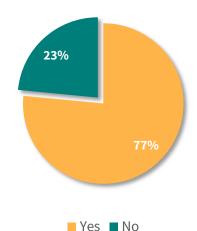

Relationship to Crashes

Respondents were asked a pair of questions to understand how traffic crashes have impacted them personally.

Have you ever been involved in a traffic

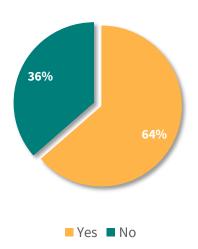

crash?

Of 196 total responses, a wide 77% of respondents indicated that they had been involved in a traffic crash.

Has someone you know been seriously injured or killed in a traffic crash?

Of 195 total responses, 64% indicated that someone they know had been killed or seriously injured in a traffic crash, demonstrating a clear personal connection between most respondents and the core concept of Commitment to Zero.

Crash Factors

Respondents were asked a series of questions about their sentiments towards the contributing factors to crashes, and how to best counteract these factors.

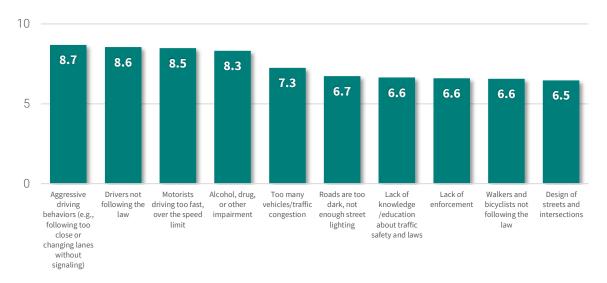

How much do you think the following factors contribute to fatal and serious injury traffic crashes in our community?

For this question, respondents were asked to rank the following items from 1 to 10, with items ranked 1 as not contributing at all, and items ranked 10 as contributing very much. All 197 respondents chose to answer this question. The following choices were provided:

- Aggressive driving behaviors (e.g., following too close or changing lanes without signaling)
- Alcohol, drug, or other impairment
- Design of streets and intersections
- Distraction/inattention while driving (e.g., texting and driving)
- Drivers not following the law
- Lack of enforcement

- Lack of knowledge/education about traffic safety and laws
- Motorists driving too fast, over the speed limit
- Roads are too dark, not enough street lighting
- Too many vehicles/traffic congestion
- Walkers and bicyclists not following the law

Next, a weighted average was applied to the results, yielding that most respondents felt that crashes were caused by aggressive driving, drivers disobeying the law generally, drivers exceeding the speed limit, and road users acting under the influence of drugs or alcohol. The fewest respondents ranked the design of roads as a contributing factor.

Respondents were also given the opportunity to specify their own cause with an "Other, please specify" choice. Those who did so generally described options offered above or suggested location-based design interventions. The full free responses can be found in the full survey detail section.

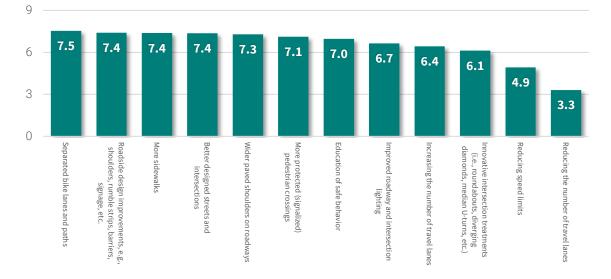

What do you think would be most effective in reducing fatal and serious injury traffic crashes in our community?

Similar to the previous question, respondents were asked to rank the following items from 1 to 10, with items ranked 1 as not contributing at all, and items ranked 10 as contributing very much. All 197 respondents chose to answer this question. The following choices were provided:

- Better designed streets and intersections
- Education of safe behavior
- Enforcement of unsafe behavior (i.e., speeding tickets)
- Improved roadway and intersection lighting
- Increasing the number of travel lanes
- Innovative intersection treatments (i.e., roundabouts, diverging diamonds, median U-turns, etc.)

- More protected (signalized) pedestrian crossings
- More sidewalks
- Reducing speed limits
- Reducing the number of travel lanes
- Roadside design improvements, e.g., shoulders, rumble strips, barriers, signage, etc.
- Separated bike lanes and paths
- Wider paved shoulders on roadways
- Other (please specify)

Using a weighted average, respondents rated separated bike lanes, roadway design improvements, more sidewalks, and better designed streets and intersections as the most effective ways to reduce fatal and serious injury crashes. The design approach of reducing the total number of travel lanes was ranked as the most ineffective, followed by reducing speed limits.

Respondents were also given the opportunity to specify their own cause with an "Other, please specify" choice. The perception that the rapid growth of Marion County is outpacing the capacity of its roads was a major theme of these comments. The other free response comments generally described options offered above or suggested location-based design interventions. The full free responses can be found in the full survey detail section.

Sentiments on Achieving Zero

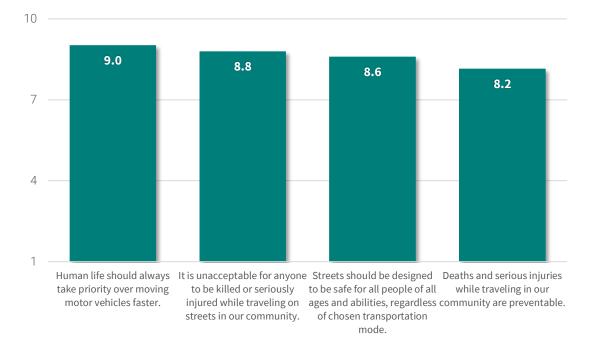

Respondents were asked a pair of questions to better understand their feelings on the need and probability of the goal to achieve zero traffic-related serious injuries and deaths.

How much do you agree or disagree with the following statements?

To gauge their sentiments towards whether serious injuries and deaths on Ocala / Marion roads are preventable, respondents were asked to rank the following statements from 1 to 10. Items ranked 1 were considered strong disagreements, and items ranked 10 were considered strong agreement. All 197 respondents chose to answer this question.

- Deaths and serious injuries while traveling in our community are preventable.
- Human life should always take priority over moving motor vehicles faster.
- It is unacceptable for anyone to be killed or seriously injured while traveling on streets in our community.
- Streets should be designed to be safe for all people of all ages and abilities, regardless of chosen transportation mode.

Based on the weighted average of responses, most respondents agreed with all statements, with the statement that human life should always take priority over moving cars quickly having the strongest support.

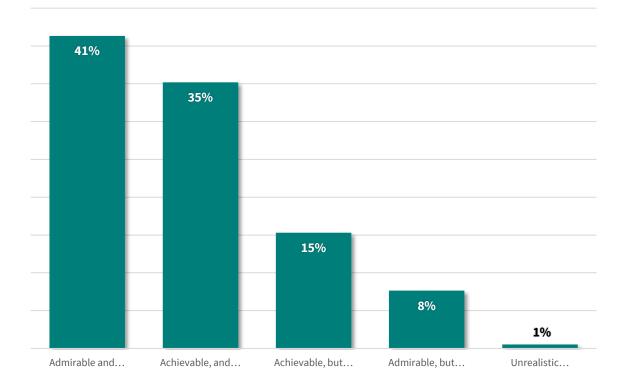

The primary goal of the Commitment to Zero Safety Action Plan is to eliminate all traffic-related deaths and serious injuries countywide. Which of the following statements best describes your perspective of this goal?

To understand to what degree respondents, support the concept of Commitment to Zero, they were asked to select which of the following statements most closely represented their view:

- The goal is achievable, and we should do everything we can now to realize it.
- The goal is achievable, but it should be pursued over time.
- The goal is admirable and should be pursued through a determined effort, but it is unlikely to be achieved.
- The goal is admirable, but it is unachievable.
- The goal is unrealistic, unachievable, and should not be pursued.

Based on these responses, most respondents (76%) feel that the goal is achievable and should be pursued either immediately (41%) or over time (35%). A smaller share of respondents (15%) feel that the goal is admirable, and just one respondent of 196 total respondents felt that the goal is unrealistic, unachievable, and should not be pursued.

COMMITMENT TO ZERO

Free Response

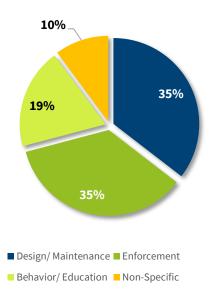

Respondents were asked: *Do you have any further comments on how to improve transportation safety and reduce the number of traffic-related deaths and serious injuries in Marion County?*

Of the 79 responses, several dominant themes arose including Design and Maintenance, Enforcement, Behavior and Education, and Non-Specific comments. The following are examples representative of each category:

- Design and Maintenance: "We need a crosswalk in Ocala on SR 40 between 27th Ave and MLK."
- Enforcement: "More enforcement and increased citation penalties for driving infractions directly related to dangerous driving"
- Behavior and Education: "Educate drivers on how to safely pass cyclists and pedestrians."
- Non-Specific: "I thought I was going to be able to comment on a specific intersection issue."

35% of the total comments received related to Behavior and Education or Design and Maintenance, while 19% of responses were related to Behavior and Education, and 10% were considered non-specific.

The full free responses can be found at the end of this document.

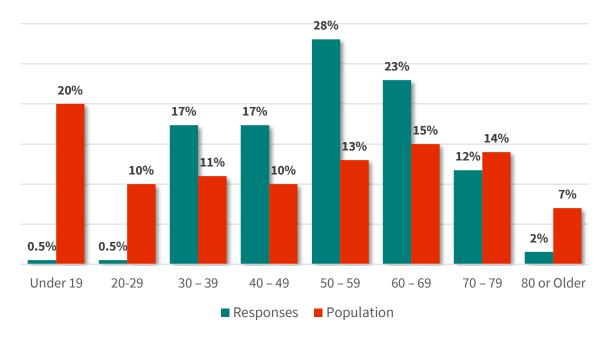

Demographics

Age

Respondents were asked to share their age, with 196 responses received. Most of the respondents, 64%, reported being above the age of 50, with 50-59 being the largest age group, at 28% of respondents.

The reported age of respondents was then compared to US Census data related to the age of residents of Marion County. As shown in the chart below, younger people, those under 29 years old, were significantly underrepresented, while the views of people in their middle age, between 400 and 69, were overrepresented.

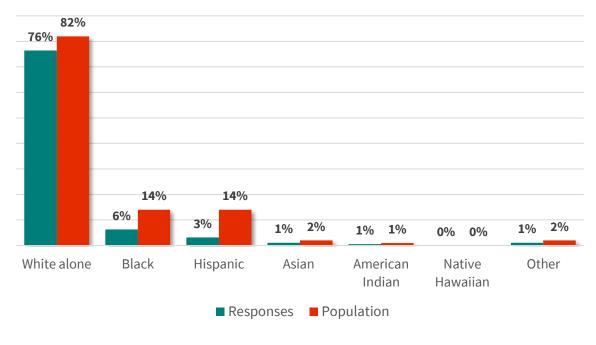

Source: ACS 2019

Full survey results, including the complete responses to the free response prompts, are available at the end of this document.

Race & Ethnicity

To understand how the reported race and ethnicity of respondents matches the demographics of the county, US Census data were reviewed. 169 total respondents chose to answer this question while 28 chose to skip this question, including 22 who elected "I prefer not to answer." When compared to the total population, those who identify as Black or Hispanic were underrepresented, while people who identified as White Alone were slightly overrepresented.

E COMMITMENT TO ZERO

Home Zip Code

Respondents were asked to share their home zip code to better understand how that may shape their view of transportation safety. 193 total respondents submitted a response. The zip codes comprising the City of Ocala and its immediate vicinity made up most responses. A small number of responses were also received from each county adjacent to Marion County. The results of this question are shown in the map below.

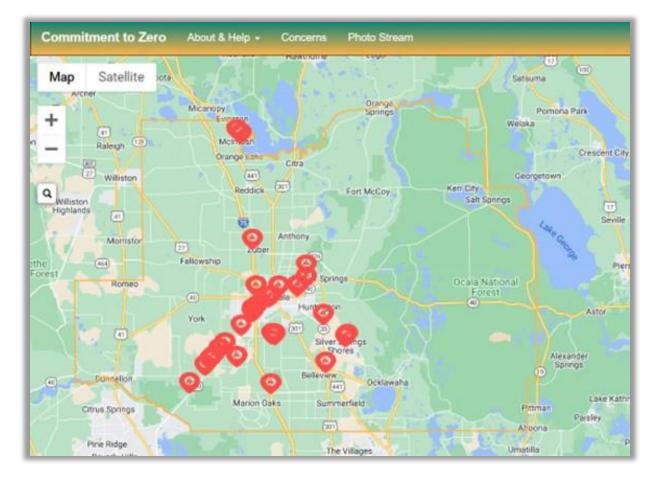

Interactive Comment Map

At the same time as the online survey, an interactive map was made available for residents and visitors to comment on. The map provides users with the ability to comment on any road anywhere in the county, offering concerns about existing designs. It also allows other users to comment on and to "like" or "dislike" existing comments. 33 initial comments were received, with 9 of those comments being responses, likes, or dislikes.

Other Responses

Tailgating, racing

Safe bike ing and walking sidewalks and paved paths would reduce traffic congestion. I would ride my bike to work, but there is no safe route.

For impairment, age of drivers needs to have its own category, not bulked in with booze and drugs.

Intentional run downs

Hello, cyclist here 🖗 drivers in Ocala are the worst.

Sidewalks, sidewalks... so needed everywhere

Need to lower speed limit on 441 from 326 to split at 329. 65 is too fast

2 lane roads should be designed with wider shoulders for safety or maybe bike lanes if feasible.

Poor design/implementation of traffic control devices

Officers staking out low speed areas in retirement communities. Get out on the public road ways with lots more cars.

For goodness sake, PLEASE enforce the speed limits

Motorists fall sleep because long wait time before traffic move. Construction workers and equipment roads work doesn't have safety measures in place and clearly marked or far enough warning for drivers. Police officers do an excellent in keeping unsafe areas safe.

lack of safe areas for people to walk or use bicycle

People are selfish and do not consider others.

I just moved to Ocala and the police 📓 can't be everywhere, install cameras, start giving out fines. There is no walkways or bike 👞 line's.

Not clear intersection or road signage

Reactionary planning lacks vision and follows poor choices. We are always fixing, not anticipating. There is little room for all these drivers who can't maintain a lane, point and drive as if wearing blinders. A media campaign filming bad drivers and blasted might help. More traffic cops, as well.

Poor road conditions causing the need to try to avoid potholes resulting in bad driving by people (on the wrong side of the road often) NE 42nd Place

To much growth to fast. Road system not able to handle growth. Stop approving growth until road system is brought up tp a reasonable standard to handle traffic. Really simple fix. Safety before dollars.

poor signal timings contribute to impatience by drivers and need to be addressed and pick better company to do studies and recommendations that just big national company that has a poor reputation.

Intersection at SW 66th St and SW 27th Ave. SW 27th Ave is way to congested year around. The back up on SW 27th Ave is getting longer and longer. SW 27th Ave needs expanded from SW 42nd Street to SW Co Hwy 484. Keep in mind that this gets even worse during times when 75 Hwy is backed up, which is happening more and more.

484 and 75 NEEDS TO BE REWORKED! 484 is a disaster and too many people crashing or like the 17 year old girl, killed. Thanks to Dollar Tree, WAY TO MUCH traffic now.

Other Responses

We need to start addressing traffic congestion aggressive driving and other fatality contributions

Obstruction of view at enter sections.

There is a dire need to educate drivers of Marion County. Notifications about litter on tv etc. are telling the public information they already know but proper lane usage on multi lane highways is something that many don't know. It is frustrating for people that have places to go only to be held up by people that impede the traffic flow.

Too many 18 wheelers in left lanes. RV drivers and pulling trailers , should be more in slow lanes . People who drive under speed limit in left lane impeding flow of traffic.

Double lefts at an intersection should be designed as a round about. Let go of the stigma and imbrace new design standards

People on the roadways not paying attention, being distracted, not being stopped and punished for lack of driving atte speeders, and traffic-law breakersntion on the road. Uninsured motorist

More roads could eliminate congestion when drivers have greater choices with alternative routes

Unclear traffic patterns

Our leadership in this county has done a very poor job of managing infrastructure. There are way too many projects being approved without prior traffic studies. We have a huge influx of people to this area but improvements have not been made fast enough to accomodate the growth. Traffic has become an absolute nightmare. No wonder there are so many accidents. Older people going 30 mph in the left and middle lane on hwy 200. Causing bottle necks and cars having to pass on the right. I see this every day! Ticket the people sitting in the left lane going below the speed limit

Drivers fail to realize key features (turn signals, headlights, ect) are on the vehicle as a form of communication. Failure to communicate with turn signals is the biggest issue I see. Secondly, there are drivers that drive the speed limit but aggressive drivers are tailgating and flashing lights for the lawful driver to move out of the way or drive faster. Every driver should have to go through refresher (non-fee) course. Finally, with the increase of drivers on the streets, I'm surprised adequate sidewalks, lighting, bicycle lanes are not available. Time to keep up with infrastructure - you can't want a community to grow (jobs and people) but ignore the infrastructure needs that should come with growth. Planners needs to know how to design and elected officials need to listen to the needs. This meeting is overdue but, nevertheless, I commend Commissioner Stone and others for this call of action. Moving forward a proactive SMART approach is needed.

SPEED AND HEAVILY CONGESTED ROADWAYS EQUAL ACCIDENTS.

COMMITMENT TO ZERO

An Action Plan >>>> for Safer Streets in Ocala Marion

4. What do you think would be most effective in reducing fatal and serious injury traffic crashes in our community? (Where 1 is "Least Effective" and 10 is "Most Effective")

Answered: 197; Skipped: 0

| Answer Choices | Weighted Average | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
|---|---------------------|----|----|----|----|----|----|----|----|----|----|
| Improved roadway and intersection lighting | 6.7 | 6 | 12 | 8 | 13 | 28 | 16 | 29 | 25 | 14 | 40 |
| Reducing speed limits | 4.9 | 23 | 7 | 26 | 27 | 45 | 17 | 18 | 12 | 6 | 13 |
| Separated bike lanes and paths | 7.5 | 5 | 6 | 4 | 6 | 28 | 13 | 20 | 26 | 21 | 67 |
| More sidewalks | 7.4 | 4 | 7 | 2 | 9 | 28 | 18 | 18 | 29 | 24 | 55 |
| More protected (signalized) pedestrian crossings | 7.1 | 5 | 10 | 4 | 10 | 27 | 22 | 18 | 30 | 14 | 55 |
| Education of safe behavior | 7.0 | 7 | 11 | 11 | 15 | 22 | 13 | 15 | 23 | 19 | 59 |
| Enforcement of unsafe behavior (i.e., speeding tickets) | 8.0 | 6 | 3 | 5 | 4 | 18 | 9 | 21 | 22 | 20 | 87 |
| Better designed streets and intersections | 7.4 | 5 | 4 | 7 | 7 | 32 | 21 | 16 | 16 | 24 | 64 |
| Wider paved shoulders on roadways | 7.3 | 6 | 5 | 5 | 8 | 26 | 23 | 26 | 17 | 22 | 59 |
| Roadside design improvements, e.g., shoulders, rumble strips, barriers, signage, etc. | 7.4 | 3 | 5 | 3 | 11 | 22 | 22 | 28 | 26 | 25 | 52 |
| Reducing the number of travel lanes | 3.3 | 62 | 19 | 29 | 16 | 39 | 13 | 13 | 1 | 1 | 1 |
| Increasing the number of travel lanes | 6.4 | 13 | 12 | 6 | 9 | 27 | 20 | 33 | 27 | 15 | 32 |
| Innovative intersection treatments (i.e., roundabouts, diverging diamonds, median U- turns, etc.) | 6.1 | 21 | 11 | 16 | 9 | 21 | 19 | 27 | 18 | 12 | 40 |
| Other, see 28 responses below. | | | | | | | | | | | |

Other Responses

Roundabouts work great to slow traffic down and keep traffic flowing smoothly through intersections

Incorporate bike lanes & sidewalks countywide not just city limits.

We need more bike lanes and separate bike paths. Crazy that we live in this climate and there isn't better infrastructure for cycling

With the growth in Marion County we will see many more deaths without major changes.

No one knows how to use the current roundabouts correctly as it is.

City and county out grew the current traffic's laws

create more public transport options such as busses, walkable areas, safe places to ride bikes, passenger trains to reduce traffic

No round about, they are confusing. Install turning lanes. More traffic police 📓 officers.

The shared middle turn-lanes on our major highways is a major hazard. When you have cars coming from opposite directions that have to turn at the same place using the same lane while merging out of the flow of traffic is dangerous.

Run a looper trolley on 200 from 484 to the Downtown Square and back with stops at major shopping centers. Reduce traffic.

Law enforcement needs to enforce lane changes without signaling; every 5 years after the age of 70 drivers be tested on driving skills and roadway courtesy!

better signal timings, especially for main heavily traveled state and County roadways as many intersections you have it backwards and let side ride have too much time and then traffic backs up on main roads making drivers impatient and thus be more aggressive in their driving. Motorcycle helmet law for everyone.

Head lights required at all times on all vehicles.

NO ROUNDABOUTS! What is a diverging diamond?

I am not a supportive of round abouts.

Education

Innovative intersection treatments only if education is provided on how to use them. The new roundabout at the SW Ocala Veterans Hospital is a perfect concept for the area, but many drivers currently do not use it properly.

traffic calming through measures other than speed limit reductions and enforcement (i.e. visual or physical roadway treatments to encourage slower speeds)

embrace new designs

speed tables are effective in decreasing speeding

Speed radars to keep a closer eye on traffic and those not abiding by the speed limits would help officers stop unruly trafficker's.

More specific traffic Violation tickets.

Designated trucking routes (except local delivery), more overpasses and service roads

Other Responses

I'm not so sure that more crosswalks would be helpful without education and enforcement. You can see people on a daily basis walk a few feet past a crosswalk signal and walk out into traffic. SW 27th Ave & SW 10th St can be one of the worst with the apartment complexes being right there.

Ticketing slow driving people

I think the biggest thing to help is enforcement of speed laws! Motorists drive too fast in many areas of the county and they do so because they know they will not be caught.

Speed traps are not problem solvers to this issue. Giving more tickets that most citizens cannot afford should be the final item to address. However, giving out warning tickets should be enforced.

ROAD DESIGNE AND TECHNOLOGY CAN IMPROVE SAFETY.

5. How much do you agree or disagree with the following statements? (Where 1 is "Strongly Disagree" and 10 is "Strongly Agree")

Answered: 197; Skipped: 0

| Answer Choices | Weighted Average | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |

| It is unacceptable for anyone to be killed or seriously injured while traveling on streets in our community. | 8.8 | 4 | 4 | 3 | 0 | 12 | 4 | 10 | 12 | 15 | 131 |
| Deaths and serious injuries while traveling in our community are preventable. | 8.2 | 4 | 2 | 1 | 6 | 19 | 6 | 26 | 25 | 21 | 86 |
| Human life should always take priority over moving motor vehicles faster. | 9.0 | 3 | 2 | 2 | 1 | 7 | 3 | 9 | 18 | 19 | 131 |

6. The primary goal of the Commitment to Zero Safety Action Plan is to eliminate all traffic-related deaths and serious injuries countywide. Which of the following statements best describes your perspective of this goal?

Answered: 196; Skipped: 1

| Answer Choices | % | Number of Responses |
|---|-----|------------------------|
| The goal is achievable, and we should do everything we can now to realize it. | 35% | 69 |
| The goal is achievable, but it should be pursued over time. | 15% | 30 |
| The goal is admirable and should be pursued through a determined effort, but it is unlikely to be achieved. | 41% | 81 |
| The goal is admirable, but it is unachievable. | 8% | 15 |

7. Do you have any further comments on how to improve transportation safety and reduce the number of traffic-related deaths and serious injuries in Marion County?

Answered: 79; Skipped: 118

| Тад | Count |
|------------------------|-------|
| Design/ Maintenance | 28 |
| Enforcement | 27 |
| Behavior/ Education | 16 |
| Irrelevant | 8 |

Other Responses

Vehicle inspection. Too many vehicles on the road with lights that don't work, no tags, pulling trailers with no fenders that throw debris from the road into others. Trailers with broken lights and on and on

Clear road debris from bike lanes on a schedule. Baseline road bike lanes are FULL of dangerous goass, car parts, random car parts, metals...

Design of complete streets aids in all the goals stated.

As long as people drive distracted, use their phones while driving and make aggressive and dangerous maneuvers to save seconds of their time, deaths and serious injuries will occur.

Right around 2020 se 17 street. There is an accident almost monthly. Surely something could be done

Reflectors on the shoulders/bike lanes to keep drivers aware that they are "off" the travel lanes. I see many drivers that hug or drive across the bike lane/shoulders.

Seriously, sometimes Darwin wins.

Make the community aware that bicyclists are allowed 3 ft and that needs to be inforced. I'm a road cyclist. I ride on roads in Marion county 2-6 times a week. Bike lanes are very limited in Marion county requiring me to ride on the road with drivers often not giving me 3 feet of clearance when passing and often times not passing in proper areas (not following road markings for allowed passing areas) and bike lanes are always very littered and dangerous to cyclists. Cyclists have to avoid debris on right side of bike lanes and attempt to not swerve into the road way in front of traffic. The road debris can cause a flat tire and hurt someone and the car driving up from behind us can hurt someone. It's very scary.

Put in left turn lights at several intersections that need them. Push for the extension of the Greenway Trail going west to connect with the Dunnellon Trail.

In this day and age I regrettable don't have any suggestions. I can only say good luck and thank you for caring.

Make Marion county a cycling Mecca

Other Responses

Safer methods of travel for bicycles. More bike lanes, wider bike lanes, and cross walks in the county.

The relief on some of our major road ways that are only 2 lanes and need to be 4 ie. 66th ave. and those that are 2 and need to be 4 (ie. 484, especially from coming from the west to the east all the way up to 75. This gets backed up for over an hour in the mornings and is only a 2.5 mile stretch. Having a southern route down through Marion Oaks to highway 44 will allow better traffic flow and will also allow our first responders to move from exit 341 to exit 329 much faster and will allow that congestion to release.

More tickets for aggressive driving, road rage, and excessive speeding

Educate drivers on how to safely pass cyclists and pedestrians

Marketing our community as bicycle friendly as we move closer and closer to becoming bicycle friendly. This will keep our focus on the strategy and start to effect the way the average local responds to cyclists and pedestrians etc.

75 is death trap. Idk solution. More education. Dont pass on right laws?

Improve roadways lane counts (new or wider roadways) to meet volume demands, stop adding inadequate roundabouts... should be at least 100 ft between adjoining road exit/entry points. Jug-handle type intersections to deal with left/u-turn traffic more safely.

I thought I was going to be able to comment on a specific intersection issue.

Work to make streets go where people need to go! Example: how can you go N-S west of I-75 without using I-75 and contributing to that mess?

Have better "Pedestrian Crossings" with blinking lights. Look at what other communities and college campus are doing.

enforcement of existing laws would go a long way to improvement.

Enforce the traffic laws

Everyone being held accountable.

I feel that most of the traffic problems can be prevented starting with more enforcement of the present road signals and signs.

Add more police 📓 officers back on the streets

Get rid of stroads (high speed streets with multiple entrances/exits - the cause of many fatal crashes). High speed streets should be only used to get from one place to another, and only low speed roads should be used to enter and exit businesses and houses. Increase the availability and convenience of public transport, walking, and safe bicycle lanes to reduce traffic on the roads. Use more mixed use development to create smaller walkable communities that you don't need to drive to get to. To reduce car fatalities we need to get away from car dependency (which will not be easy since America was designed around cars but it IS achievable).

Enforce the current laws regarding cellular devices and speed limits. Perhaps it is also time for red light cameras. Bars must stop serving alcohol beyond two drinks unless you can prove a dd or Uber. Pedestrians and cyclists must also be taught to obey traffic laws.

Other Responses

We need a crosswalk in Ocala on SR 40 between 27th Ave and MLK. Pedestrians need a safe way to cross. It's a mile between those two intersections. It is not okay to expect the residents on foot to travel farther in such an extreme way compared to go to travel by car.

To many aggressive drivers, to many semi's trucks on the main roads. You have a nightmare to address.

Slow the traffic down and pick them up! Give speeding tickets out!

Remove trees, signs, shrubs that hinder the visibility when pulling out of driveways and intersections. I appreciate all law enforcement does for the community. I don't know if they are allowed but put up cameras that give out the speeding tickets, Cedar Rapids Iowa has them as you go through there city, seems that most people realize it and do go the speed limit. We have experienced people driving 70 and above on hey 200 and 60th. It's ridiculous. Majority of drivers do not stop at stop signs.

I think they should remove or properly trim all bushes and trees that are within 100 yards of stop signs and traffic light. There are several areas that this needs to be done

Setting up speed-traps on 4-lane roads that have a speed limit of 35 is not the answer. Making speed limits more appropriate for the number of lanes and amount of traffic would improve the traffic flow. Speeding enforcement should be targeted to areas that have a higher speed limit (50 or higher) as the crashes of speeds higher than that are more serious. Someone going 40 in a 30 zone isn't the problem. We also need better pedestrian crossing points on our busier highways (441, 301, 200 and 40)

Talk to the County Commissioners about proper traffic planning when approving development, and make them drive to work on 2-lane SW 20th St behind CF, or 2-lane SW 66th St, where they opened 49th Ave w/o ensuring the the electric poles were reset and a traffic light installed. Developments just beginning and bottlenecks already. Ray Charles could have seen this. Good luck.

Stop approving multiple subdivisions and putting more vehicles on the roads. If you don't have the infrastructure, don't build!!!

Have retesting for ALL ages of drivers every 10 years

Make the current road system better, repairs the roads. More traffic lights and enforcement of laws.

Until we remove the human factor (fully autonomous vehicles), Vision Zero is likely unattainable, but we should do all we can to move in that direction. Serious injuries and fatalities on our roadways devastate tens of thousands of families every year. It's

unacceptable. The safety of our emergency response partners who respond to traffic incidents should also be a top priority.

Drivers need to be held accountable for reckless driving; i.e. not using signals, swerving in and out of traffic, passing in non-passing lanes etc.

Devote more funding towards safety-related improvements. This includes redesign of roadways with more ped/bike users, such as Maricamp Rd in Silver Springs Shores.

Aggressive enforcement of driving laws; auto inspections; driver re-testing and re-education in courtesy at age 70.

Other Responses

More policing of the roadways. Every single day we see speeding, improper lane change, aggressive driving, Driving used to be a pleasure, but those who do not obey the law and only think of self have ruined it.

more cops writing tickets for running red lights and speeding well over the posted limit, not stopping at redlights while making turns, more right turn lanes as aggressive drives almost run up your rear end if you turn off a major road when no turn lane, more directional left median openings as people don't know how to navigate a full median opening, address really poor signal timings throughout the County.

Create passing lanes on CR 314 & CR 316

More engagement from the public. I personally contacted FDOT because i was fed up with an intersection that my family and friends use daily. This intersection was deemed unsafe after FDOT did a study and will be putting in a traffic light.

Too many businesses on 200 causing delays, accidents etc. needs to be widened and business need to be built off 200 back from the main roadway. Example, Chick Fil A. Major traffic jams daily because of one business....unacceptable.

Push alcohol/drug influence automated testing to start vehicles.

More accessible community workshops via local libraries, schools, community centers, parks, churches, and media outlets.

More lighting on all roads.

More enforcement and increased citation penalties for driving infractions directly related to dangerous driving including speeding, improper lane changes, texting while driving, running/pushing lights, etc.

Traffic lights at known accident sites regardless of interfering with traffic flow. Safety first. Education of lane usage. Ticket drivers driving slow and impeding traffic in the far left lane or lanes

More consideration should be taken when approving new businesses. Example: Liberty Middle School and the intersections around it are a real mess during school drop off and pickup. I fear everyday that a child will be hit by a vehicle. The amount of walkers if very high. The new 7-Eleven coming to that corner is going to make matters worse.

Enforce speeding to the actual speed limit and penalize DUI's much more severely

A thorough study of crash reports to determine the issues causing the accidents to better know how to fix the problem. Example, if speed is a major factor, posting lower speed limits won't fix the problem, but more funding to hire more law enforcement would. Many of the problems we see are human error problems not necessarily the roadway in my opinion.

Appropriate design and construction is extremely important - but many of the serious crashes are due to inappropriate driving. Education, awareness, and enforcement are also important.

I don't know how reduce transportation safety and traffic because most accidents or near misses I have seen are from distracted driving. Enforcement of the laws when an accident happens is important. I have watched officers witness at best "reckless driving" but they drove by offenders.

Yes, Get Officers out of their honey holes and be more visable on long stretches through the county. Teenagers need more mandatory classes and stop giving 16 year olds a license . Get

Other Responses

Judges to stop letting DUI's and people texting go. Use heavier fines the first time and no less than 30 days the first time and lose license for a year the first time. Take a minor's license away until 25 years old. Police Officers are out there doing their job and Judges are letting offenders go to keep their docket cleaned up. Put out more effective materials about death statistics and overall effects of the community, show real pictures while not showing faces or names of those who caused a death or died. Don't be so optimistic and nice with materials, show the reality, talk the reality.

install better lighting - do the hard work of right of way acquisition and update to round abouts at several intersections

Enforcement of existing laws is critical. If there are no consequences, the behaviors will be repeated.

A person should have to retake the driver's test and questionnaire test every 5 years. Since we have so many people moving to Marion County, they should also be required to take the driver & questionnaire test prior to receiving a Florida DL. If they dont pass, they should have their driving privileges revoke while in Florida.

Most stop lines are accurate with the road visibility

Do not lead this effort into mandating autonomous vehicles or mandating pedestrian beacons.

Emphasize more on education at the middle school and high school levels about safety. More lighting at major intersections, especially downtown areas and other busy areas with people and bicycles and cars all interacting.

Lobby Tallahassee and the Governor to better fund police and fire. They are way underfunded and not appreciated.

As long as drivers are paying attention to the road at all time while driving, it can be realized that no one be killed on the roads. However, as I have noticed, not being able ti drive myself, there are many people on the road too busy looking at their phone, texting or calling through Bluetooth/smart devices and speeding drivers. It is, unfortunately, a long way away for SOME drivers.

I live on 14th/Bonnie Heath and 24 hours a day people are driving like maniacs on this road and I've never seen any of them pulled over. My daughter was about killed the other day by someone going at least 80 then skidded into a big circle at the light were she was sitting, 36th and Bonnie Heath. I have had my mailbox taken out at 5 a.m. by someone flying down the road. I feel like law enforcement is never on this road!

stop loading fl road with illegals and unassured motorists and texting and driving and drunk driving Nd drugs on old or Is medically handicapped people drive to streets.

Better lighting. Seems a great majority of accidents happen on poorly lit roads and intersections. Fining drivers is a definite deterrent but equally necessary is fining pedestrians and cyclists who's action including no signal ineffective lighting on bikes and clothing and pedestrians sense of right of way entitlement often cause catastrophic and fatal accidents.

The education of traffic safety should begin at early ages, certainly age & content appropriate. Until major changes happen with the way leadership handles growth in this area, traffic accidents and deaths are not likely to significantly decrease. I am third generation Marion County. I have definitely seen some changes.

Other Responses

Local and state government MUST invest more in law enforcement. Our law enforcement agencies are understaffed and justifiably must focus on more critical crimes. Additional staffing would enable more enforcement which could change behaviors. Education is not going to change behaviors. Our citizens fully understand they are not making good choices. I'm happy to hear that there is this committee. I believe the main problem is distracted driving. we've all seen the cars next to us looking on their cellphones and driving. That will never stop. I've read a lot about pedestrian being struck and killed and it seem like the excuse was it was dark and they were wearing dark clothing. If it's dark than the car must of had their lights on. If you are actually paying attention and going with the speed limit you most likely won't hit anybody.

Do something about the light timings being off and the slow drivers blocking the left 2 lanes on w hwy 200. Below the speed limit is just as deadly

The motorists who need to adhere to this message will fall through the cracks. This information needs to be shared in a variety of ways including school aged who ride with adults who drive too fast, impaired, etc. They can impact change similar to how seat belt awareness was rolled out. My sister who was a toddler at the time had learned about seatbelts in daycare and would refuse to ride or make a lot of noise until she saw and heard your seatbelt click in place. This is serious and if we don't address it to the entire community, more fatalities will occur.

This is a lofty goal to achieve.

Zero accidents in a manufacturing environment has been proven doable. It requires consistent leadership and accountability, and cultural and behavioral change.

To me, it really boils down to enforcement. We see people running red lights (blatantly), stop signs and ignoring the stop bar at intersections and plowing through crosswalks without thinking "there could be a pedestrian crossing." How many of us see LEOs staring at their laptops while driving down the road or parked in a median. They are just as distracted from doing their job as people are texting and driving. LEOs should be setting the example instead of being so egotistical.

Lighting needs to be looked into for sure in the County. A lot of dark roadways. Reducing speed limits does no good it will not stop people from speeding at all. More lanes are needed as the community continues to grow rapidly!

8. What is your age?

| Speed | 0 | 0 |
| The left hand turn lanes to turn SW on SR200 are too short and insufficient. | | |
| These should be isolated to only be turn lanes all the way back to the | 0 | 1 |
| shopping center entrance. Barriers should be placed to disallow any | 0 | Ŧ |
| vehicles from SR200 to turn left into the bank. | | |
| Highway 200 should be no more than 45 mph. | 4 | 1 |
| l Agree | - | - |
| I Disagree | - | - |
| The speed limit should not be any slower than 55 mph. | - | - |
| This intersection needs safety for pedestrians crossing. Focal point of | 1 | 0 |
| downtown but not very accessible to people. | 1 | 0 |
| The part of this roadway in McIntosh needs slower speed limit. Cars blast | 0 | 0 |
| through downtown at high speeds. | 0 | 0 |
| This intersection has a high number of accidents. Even though this is a | | |
| "newer" intersection, it should have been designed as a round about. There | | |
| is enough right of way and the high incident rate at this location would | 1 | 2 |
| warrant this intersection being redesigned. Additionally, it would move | - | 2 |
| traffic throught the intersection faster which would help rush hour | | |
| commutes for residents. | | |
| I Disagree, as most people still do not yield in traffic circles and traffic | | |
| circles themselves are annoying. They also make it very difficult to see | - | - |
| traffic when landscaping is added. | | |
| The entire sections from Baseline to Water road needs redone. It is unsafe | | |
| and cannot accomodate the new and proposed growth in this area safely. | 1 | 0 |
| The suicide lane needs removed!! I live in this area and see cars using it as a | 1 | 0 |
| passing lane! It is an inforcment issue, however the police have bigger fish to fry. Directionalize the area. Lighting is necessary as well as sidewalks. | | |
| Numberous children are forced to walk in the streets to access the | | |
| Community Center. Put in sidewalks. I know your thinking about | | |
| government housing in the area. The infastructure is not currently here to | 0 | 1 |
| accomodate that type of developement. | | |
| The Sams Club gas station area backs up on to SR 200. I have witnessed this | | |
| on multiple locations. People stop on the side street or at the entrance | | |
| which prevents cars from behind from entering the parking lot. Make | | 0 |
| pumps pump faster to move more vehicles and have the employee that | 1 | 0 |
| stands at the pumps move people away from the entrance. This was a | | |
| horrible design and should NEVER have been approved. | | |
| Finish this extension | 2 | 0 |

| If you are from out of state, this area is a night mare. A round about needs installed at this location. It is very unsafe for individuals coming off SE Babb Rd trying to get on S 441. I accidently went the wrong way on 301!!!! Please redo this intersection. | 2 | 0 |
| I Disagree, traffic circles are completely unnecessary and very annoying. Only stop signs and traffic lights should be used at an intersection. | - | - |
| Remove drop curb at this location. It should not have been installed according to design standards. It caused cars to almost stop and I have witnessed 2 fender benders due to the valley gutter. One at the Home Depot entrance and the other at the Lowes entrance. | 0 | 1 |
| Complete SW 43rd St Road and then provide access to sams from either SW 40th or the side parcel | 0 | 0 |
| I-75 NB EXIT 358 HWY 326 WEST TURN GREEN LIGHT IS EXCESSIVELY LONG FOR THE LACK OF VEHICLES EXITING. THIS IS CAUSING WEST BOUND HWY 326 TO QUICKLY BACK UP. PLEASE SHORTEN THIS GREEN LIGHT!!! | 2 | 0 |
| I Agree. WESTBOUND TRAFFIC ON HWY 326 RESULTS IN EXCESSIVE TRAFFIC BACK UP THROUGHOUT MANY HOURS OF THE DAY. | - | - |
| My aunt had 2 cars totaled at this intersection by people going above the speed limit who ran red lights. | 1 | 0 |
| Many accidents at the intersection of SR200 & CR484. How many people have to die before something is done? | 1 | 0 |
| People drive WAY TO FAST on SR200 between CR484 and the Citrus County line. The existing lanes are too narrow. | 2 | 0 |
| I Agree | - | - |
| Easy Street speed limit is too high. It is 40 mph. Curves and high speeds not safe. | 0 | 2 |
| The speed limit should be increased to 45 mph. | - | - |
| The west side of this intersection could use a right turn lane to alleviate traffic back ups in the morning. | 1 | 0 |
| The left turn lanes on 40 to turn onto the I-75 entrance ramps are too short. Only 5 or 6 cars can fit in them and then the remaining vehicles stack up in the through lanes causing congestion. | 2 | 0 |
| I Agree | - | - |
| SW 66th Street at SR 200 needs a right turn lane installed. As soon as a vehicle is stopped at the light that wants to turn left or go straight when the light turns green all the other vehicles stack up behind it. There is no room to make a right turn on red and this creates a lot of back up especially during rush hour. | 1 | 0 |
| 2/18/22 took out my fencing hit and run not the first time has happened 10 times since 2016. Have replaced mail box 4 times as well. Very dangerous intersection. Marion County will not do anything until 11 people dieyup that your county working hard to protect | 1 | 0 |

Engagement Summary

An Action Plan >>>> for Safer Streets in Ocala Marion

| All Action Plan Process in c | | |
|---|------------------|---------------------|
| Map Comments | Comment Likes | Comment Dislikes |
| Huge dip in the road at the stop sign needs repaired causes accidents 2/18/22 and beyond. | 0 | 0 |
| Marion County needs to trim the trees so people can see the stop signs too many wrecks into homeowners yards. | 1 | 0 |
| Major speeding on this road and nobody cares. | 0 | 0 |
| Narrow roadway, no sidewalks or designated waiting area for bus users. No crosswalk at bus stops. People get off the bus and walk behind and out into traffic to cross the street and oncoming traffic cannot see them. | 0 | 1 |
| No sidewalks. No crosswalks. Heavily used cyclist and pedestrian area. | 1 | 0 |
| This intersection needs a traffic light bad. There is too much confusion with the left turn lane at a 4 way stop. | 0 | 0 |
| This overpass is overwhelmed with the amount of traffic flowing from all directions. Traffic seems to be backed up most of the time. | 0 | 0 |
| Palm Cay 800 residences have only one access. Entering westbound from Ocala requires making a left turn across three lanes of traffic on FL 200. Egress from Palm Cay is only eastbound, complicated by westbound traffic making a U-turn in the same area, confusing Palm Cay egress traffic on who has right-of-way. Egress from Palm Cay to go westbound requires right turn onto FL 200 eastbound and then immediately crossing three lanes of traffic to access left-turn lane at traffic light at Pine Run entrance to make a U-turn to go westbound on FL 200. This entire situation creates conditions for a serious accident just waiting to happen. | 0 | 0 |
| SW 17 is like a landing strip, wide open, high speeds, no shoulders for bicycling or sidewalks. | 0 | 0 |

Appendix D Best Practice Review

September 2022

Introduction

The purpose of this best practice review is to evaluate the approaches that selected advocacy groups and agencies across all levels of government are taking to attain safe streets for all roadway users. Lessons learned from real-world national, statewide, and local examples can be applied to Commitment to Zero, ensuring that the TPO's program is on the forefront of safety planning.

National Best Practices

Highway Safety Improvement Program

According to the Federal Highway Administration (FHWA), the Highway Safety Improvement Program (HSIP) is a core Federal-aid program with the purpose to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned roads and roads on tribal land. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads with a focus on safety performance.

SHSP

HRRR

HSIP

RHCP

The program consists of four main components:

- Strategic Highway Safety Plan (SHSP)
- 2. Railway-Highway Crossing Program
- 3. High-Risk Rural Roads Program (HRRR)
- 4. Highway Safety Improvement Program (HSIP)

The SHSP is a statewidecoordinated safety plan that provides a comprehensive framework for reducing highway fatalities and serious injuries on all public roads. Click here to learn how to develop, implement, evaluate and promote your SHSP.

RAILROAD-HIGHWAY CROSSINGS PROGRAM

The RHCP provides funds for the elimination of hazards at railway-highway crossings under 23 U.S.C. 130. Click here for more information to support RHCP efforts.

Source: Federal Highway Administration

HIGHWAY SAFETY

The HSIP is the projects, activities, plans, and reports carried out under 23 U.S.C. 148. Click here for resources to support State HSIP planning, implementation, evaluation and reporting efforts.

HIGH RISK RURAL ROADS

If the fatality rate on rural roads increase in a State, they are required to spend a portion of their HSIP funds on rural roads. Click here for more information to support HRRR efforts.

Strategic Highway Safety Plan Program

The SHSP was originally created under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) which helped establish HSIP as a core federal program. This has since evolved into the Fixing America's Surface Transportation (FAST) Act which sustains the HSIP as a core federal-aid program. The SHSP is developed and maintained by each state department of transportation and is intended to create data-driven, coordinated plans that provide the framework for the reduction of traffic-related fatalities on all public roadways in the state.

The SHSP (the Plan) serves as the building blocks to state, local, and tribal safety plans. Conversely, the Plan must also look to the results from municipalities, tribal, and state governments' safety planning outcomes. The Plan itself consists of data-driven problem identification. All data are included to identify highway safety problems and potential areas for safety improvement on all public roads.

According to the FHWA, states shall develop the SHSP in consultation with the following stakeholders identified in 23 U.S.C. 148(a)(11)(A):

- A highway safety representative of the Governor of the state;
- Regional transportation planning organizations and metropolitan planning organizations;
- Representatives of major modes of transportation;
- State and local traffic enforcement officials;
- A highway-rail grade crossing safety representative of the Governor of the State;
- Representatives conducting a motor carrier safety program under certain sections of Title 49;
- Motor vehicle administration agencies;
- County transportation officials;
- State representatives of nonmotorized users; and
- Other major Federal, State, tribal, and local safety stakeholders

The Federal Highway Administration provides a guidebook to the states that highlights best practices for the development, implementation, and evaluation of their SHSPs. Included in the book is a checklist for the development and implementation of:

- ✓ Identify one or more SHSP Champion.
- ✓ Keep SHSP leaders engaged and actively involved.
- ✓ Establish an organizational structure to oversee the SHSP process.
- ✓ Involve organizations representing engineering, education, enforcement, and EMS in developing the SHSP.
- ✓ Identify both traditional and nontraditional safety partners and enlist their support in the SHSP effort.
- ✓ Establish strategies to support ongoing collaborative efforts.
- ✓ Establish regular communication with safety partners.

The guide suggests that states partner with data improvement programs such as the Crash and Roadway Data Improvement Program, the Roadway Data Improvement Program, and the National Highway Transportation Safety Administration's traffic records assessments. These programs ensure the accuracy and timeliness of transportation data and are designed to assess the strengths and weaknesses of State safety data systems.

Additionally, the guidebook highlights the need for emphasis areas and developing goals and objectives for these focuses. The State of Texas applied these emphasis areas in this way based on prevalent traffic safety issues. An example of a goal and objective for an emphasis area is:

- **Emphasis Area:** Lane and Roadway Departure
 - **Goal:** Reduce the occurrence and consequence of leaving the lane/roadway.
 - **Objective:** By 2025, reduce the number of fatalities attributed to vehicles leaving the roadway by 15 percent from their 2020 level.

Source: Texas A&M Transportation Institute

Railway-Highway Grade Crossing Program

Another component of the HSIP is the Railway-Highway Grade Crossing Program. This program has the goal of reducing the number of fatalities and injuries surrounding railway grade crossings by eliminating hazards that may be present in these areas (e.g., lack of protective devices or improper markings).

All public crossings including roadways, bike trails, and pedestrian paths are eligible under this program. To prevent deaths, this program targets the installation of safety improvements such as flashing lights, audible warnings, passive treatments (signage, pavement markings, etc.), flashing signal improvements, and channelization.

High-Risk Rural Roads

The HRRR was established to aside funds for construction on various other operational improvements to any roadway functionally classified as a rural major collector, rural minor collector, or rural local road with significant safety risks, as identified by the State Strategic Highway Safety Plan. The FAST Act and Bipartisan Infrastructure Law (BIL) requires a state to obligate a defined share of funds to the HRRR should the statewide fatality rate increase during a two-year period.

FHWA has identified key practices for implementing the HRRR program. These practices broadly address crash data collection/analysis/ use, project selection, local agency coordination, and HRRRP administration and policies. Regarding crash data, FHWA has recognized several states for using effective alternatives to data collection in the absence of a comprehensive statewide crash and roadway data system. These approaches include estimating exposure data using:

- Lane miles of roadway.
- Per capita data, including registered vehicles and/or licensed drivers.
- National data systems such as the Highway Performance Monitoring System and the FHWA's Highway Statistics.
- Alternate analyses, including basic comparisons of State vs. local fatalities and incapacitating injuries.
- Projected growth patterns identified by Metropolitan Planning Organizations, city/county planning organizations, and growth management organizations. This can help identify roads likely to have an increase in fatalities and incapacitating injuries.

Source: FHWA Implementing the High Risk Rural Roads Program

Project selection was also highlighted by FHWA as being an area to apply innovative processes. States have aligned project selection to match existing SHSP strategies and traffic safety

emphasis areas, which provides synergy for both initiatives. Moreover, in some states, the DOT has provided data to local agencies and given locals the authority to select projects based on their own priorities, thus providing local government partners a significant incentive to become involved. Additionally, states have given priority to local-level HRRRP projects that show a tie to other State safety programs.

The third and fourth emphasis areas for best practices were local agency coordination and HRRP administration and policies. State practice related to coordination with local agencies has taken the form of providing support to local government agencies' staffs as well as HRRP-specific training and technical workshops on low-cost safety improvements and Highway Safety Improvement Program (HSIP) processes. On the administration and policy side, the use of public forces for labor and bulk materials purchases has allowed States to effectively "multiply" the HRRRP funds and on-call contracts have decreased the amount of time that elapses between project selection and completion. Moreover, some states have augmented DOT staffing with outside resources for HRRRP data analysis, problem identification, project selection, and administration.

ITE Vision Zero

The Institute of Transportation Engineers (ITE) is dedicated to eliminating traffic-related deaths and injuries through its Vision Zero program. ITE's Vision Zero is framed around rethinking roadway design and target speed, human behavior, existing and advanced technology, among other factors, can achieve zero traffic-related deaths.

According to ITE, Vision Zero is different from traditional safety planning approaches for two primary reasons. The first is that Vision Zero acknowledges that deaths on our roadways are preventable, not inevitable, and that the only acceptable target within this way of thinking is zero deaths. The second difference is that Vision Zero is multidisciplinary. Although cross-discipline cooperation is precedented, it was not considered the normal way to approach traffic safety. Under Vision Zero, traffic engineers, planners, law enforcement, policymakers, and public health professionals work together to address the factors that contribute to safe mobility.

Vision Zero Toolbox

ITE also maintains the Vision Zero Toolbox, an encyclopedia for information and data on studies and resources to help aid in planning and mitigating traffic-related injuries and deaths. The toolbox is an interactive collection of practice-ready resources from across disciplines. Users of this powerful tool can tailor their search by type of resource, mode of travel, safety pillar, world region, and topic.

Safe Systems

ITE identifies Safe Systems, which approaches traffic safety differently than the traditional approach by focusing on human-centric solutions. Safe Systems accomplishes this by recognizing that human error will occur and that the human body is not tolerant of crash forces. In this recognition, Safe Systems puts into place a human-centered safety net, meaning that inevitable

mistakes will not lead to the sorts of crash forces that result in death or serious injury. By adopting this policy, practitioners are able to rethink the way transportation systems are designed to the benefit of the end user: vulnerable human beings.

Speed Management

Another ITE focus area is on Speed Management. According to ITE, one third of all roadway deaths each year are at least partially related to excess speed. One particular focus of ITE related to speed management is setting target speeds appropriate to the roadway context, which is set by the publication Noteworthy Speed Management Practices. This guide is based around eight target areas:

- 1. Strategic Speed Management
- 2. Self-Enforcing Roadways
- 3. Setting Credible Speed Limits
- 4. High Visibility Enforcement
- 5. Safety Cameras

Urban and Suburban Street Safety

- 6. Targeted Reporting
- 7. Consistent Speed Limits for Vulnerable Users
- 8. Network Approach to Setting Speed Limits

ITE has established separate focus areas for specific contexts, such as the unique difficulty of managing speed on urban and suburban streets due in part to the relatively high number of distractions and the confluence of modes sharing limited right-of-way. Additionally, there is a focus area addressing the tendency of suburban roadways to be pedestrian-hostile, with wide lanes and high posted speed limits. Safety approaches are distilled into individual emphasis areas, including:

- Unsignalized Intersection Improvement Guide
- School Site planning and Design
- Complete Streets Council

- Railroad Grade Crossing Safety
- Traffic Calming
- Roundabout Standing Committee

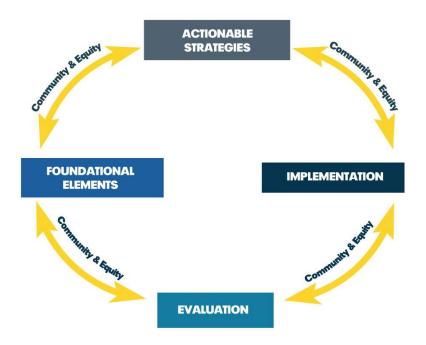

Vision Zero Network

The Vision Zero Network is a nonprofit aimed at helping communities reach their goals of zero traffic deaths. Among other services, the Network provides the guiding document *Vision, Strategies, Action: Planning an Effective Road Map for Action.*

Vision, Strategies, Action: Planning an Effective Road Map for Action

The Vision Zero Network, together with the Livable Streets Alliance and the Massachusetts Vision Zero Coalition, produced this guidebook aimed at aiding the development of action driven, contextual, and community-serving Action Plans. This document distills the process into three interlinked topic areas: Actionable Strategies, Evaluation, and Foundational Elements; the sum of these categories is successful implementation. Each of the four topic areas are linked to one another by Community and Equity.

Foundational Elements

Vision, Strategies, and Action sets four foundational elements as crucial to any Action Plan:

- 1. **Build a Robust Data Framework.** Answer questions about crashes, like where, when, and who is most likely to be involved in a crash?
- 2. Set Measurable Goals with a Clear Timeline for Implementation. Define what success looks like: What is the timeline? Who is responsible for achieving the timeline? What are the potential limitations to success? How are you addressing disparities between communities?

- 3. **Be Accountable.** Is the strategy achievable with available funding? Will you need additional resources, like training or staff? Who else outside of your organization will need to be involved?
- 4. **Ensure Transparency.** Provide regular updates on the progress on a publicly accessible website. Seek opportunities for third-party assessment, such as through partnerships with universities. Continue dialogue with residents on how they perceive the progress, and what they'd like to see done differently.

Actionable Strategies

Four broad categories of actionable strategies are addressed by the document:

- 1. **Prioritize Roadway Design.** Roadway design is a primary crash factor, particularly in encouraging slower speeds. The High Injury Network should be used to target capital projects, with other areas proactively identified based on apparent trends. Rapid response should be enabled, and solutions should put transit and Complete Streets first.
- 2. **Focus on Speed Management.** Slower speeds mean fewer deaths and serious injuries. Starting with the High Injury Network, and moving towards other streets, slower target speeds should be identified and achieved. Automated speed enforcement is an effective and equitable way to promote safer speeds, along with neighborhood traffic calming.
- 3. Utilize Impactful Education Strategies. Select strategies based on best practices from comparable areas. Look towards establishing Safe Routes programs for schoolchildren, seniors, and people with disabilities. Establish Vision Zero training programs for frequent drivers, like those who utilize government fleet vehicles.
- 4. **Ensure Enforcement is Equitable.** Focus on the most dangerous behaviors, such as speeding and failing to yield to people walking, instead of vehicle tint or broken taillights. Be transparent with speed enforcement, reporting where and how many stops were initiated. Support community policing techniques to build the trust of residents and provide opportunities to participate in diversion programs.

Evaluation

Evaluation is an important component of an Action Plan as it allows practitioners to understand whether their efforts are successful and inform changes to achieve future successes.

- 1. **Highlight and Celebrate Accomplishments, But Be Real About Challenges.** If you don't achieve an established goal, be transparent and seek to understand why and recommend changes to meet success.
- 2. **Revisit the Foundational Elements Every Time You Modify a Goal or Strategy.** Any Action Plan should be a "living document" with changes made as needed in response to real data, but in line with the established foundational elements.
- 3. Utilize the Community Engagement and Equity Strategies. Get feedback throughout the entire process, as people living within your community are those impacted most by the success of Vision Zero.

Statewide Best Practices

Florida Transportation Plan (FTP)

According to FDOT, the Florida Transportation Plan (FTP) is the single overarching plan guiding Florida's transportation future. Updated every five years, the FTP is a collaborative effort of state, regional, and local transportation partners in the public and private sectors. The vision for the state set by the Florida Transportation Plan (FTP) is broken down into seven primary goals:

- 1. Safety and security for residents, visitors, and businesses;
- 2. Agile, resilient, and quality transportation infrastructure;
- 3. Connected, efficient, and reliable mobility for people and freight;
- 4. Transportation choices that improve accessibility and equity;
- 5. Solutions that strengthen Florida's economy;
- 6. Transportation systems that enhance Florida's communities; and
- 7. Transportation solutions that enhance Florida's environment.

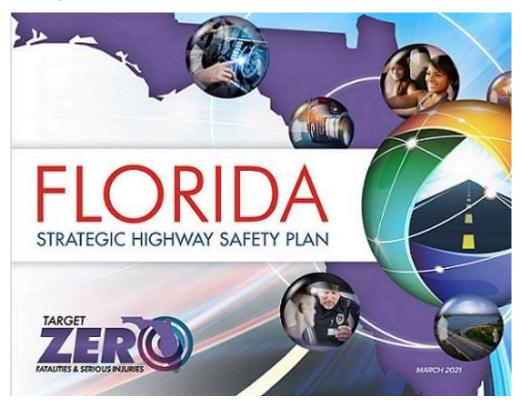

The FTP expresses a direct commitment to Vision Zero at the state level, with a focus on "4Es": Engineering, Education, Enforcement, and Emergency Response. To achieve this, FDOT will:

- **Create safer communities** through coordinated land use, urban design, and traffic operations to create safer modes for all forms of traffic
- **Reduce disparities** among socioeconomic groups
- **Expand vision zero** fatalities to include all modes of transportation such as rail, transit, shared mobility, and micro-mobility
- **Engage** with a broad range of partners on Vision Zero goals and plans
- Design infrastructure to consider access needs for first responders
- **Strategically allocate and align resources** to advance Florida's vision for zero fatalities through higher funding priority for projects with safety benefits

Strategic Highway Safety Plan (SHSP) & Target Zero

In committing to Vision Zero, the FTP set the tone of the 2025 Strategic Highway Safety Plan's approach to safety. The Strategic Highway Safety Plan (SHSP) expands this through Target to Zero. This program is built on a commitment to the Safe Systems Approach. Target Zero seeks to categorize crashes into roadway, road user, and road user behavior. Importantly, the SHSP also expands implementation strategies beyond the 4Es to include Information, Intelligence, Innovation, Insight into Communities, and Investments and Policies.

Key Strategies:

In line with the Florida Transportation Plan, the SHSP expands upon the 4Es:

- **Engineering.** The engineering topic area focuses on the built environment and direct interaction with infrastructure. This includes identifying, developing, and deploying best practices aimed at reducing deaths and strengthening FDOT's collaboration with MPOs and local governments.
- **Education.** Recognizing the importance of road users having the knowledge to interact safely with new and existing infrastructure, the SHSP seeks to develop and implement targeted outreach to raise awareness of safety topics, to educate and train new road users, and to educate new safety professionals.
- **Enforcement.** To mitigate those who are educated by choose to take risks, the SHSP envisions enforcement as providing law enforcement with the training and tools necessary to carry out their jobs, to conduct focused enforcement to target individual

Best Practice Review

An Action Plan >>>> for Safer Streets in Ocala Marion

behaviors, and to coordinate with the courts system to prosecute and adjudicate traffic safety cases.

• **Emergency Response.** Quick emergency response is an important tool to prevent serious injuries from progressing to deaths. The SHSP seeks to accelerate the implementation of existing and emerging best practices to enhance response times for particular crash types, keep emergency response professionals safe en route to a crash, and implement measures to more quickly clear vehicles, preventing additional crashes and mitigating traffic.

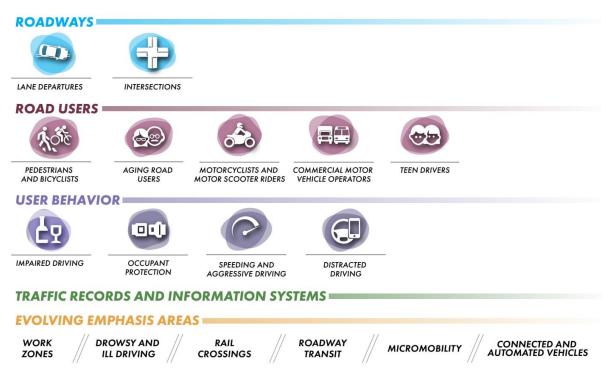

To think more broadly towards the goal of zero deaths, the SHSP also introduces the concept of the 4Is.

- Information Intelligence. Information intelligence involves the collection and analysis of data. The SHSP promotes the collection, analysis, and distribution of crash data to stakeholders as a means of identifying crash trends, like high-risk locations, in real-time and expanding this collection to respond to new trends like micromobility.
- Innovation. The SHSP seeks to engage and deploy advancements in transportation safety as they occur. This is achieved through the rapid implementation of these new technologies, the acceleration of new countermeasures, and the analysis of the safety potential for autonomous vehicle technology.
- **Insight into communities.** The SHSP recognizes that community-wide changes are needed rather than just the employment of individual countermeasures. In recognizing this, the SHSP calls for creating safer communities through enhanced public input, promoting a broader range of modal choices, and reducing risk disparities among socioeconomic groups.
- **Investments and Policies.** Investment is needed to implement change. To accomplish this, the SHSP seeks to employ flexible funding strategies, prioritize projects that demonstrate a real impact on safety, integrate safety into all levels of decision-making, pursue legislation and policies proven to reduce death and serious injury, and enhance the expertise of staff involved in safety.

Emphasis Areas

To aid in effective implementation and provide focus, the SHSP categorizes crashes into the primary emphasis areas of Roadway, Road Users, and User Behavior. Each emphasis area is complete with sub-areas which, along with the emphasis areas themselves, were selected based on a review of crash data based on which crash types make up a disproportionate share of fatal and serious injury crashes. For example, a review of crash data revealed that intersection crashes make up a large share of total fatal and serious injury crashes, justifying its inclusion as an emphasis area sub-area.

Within each emphasis area, the SHSP addresses how each of the 4Es and 4Is work to reduce roadway deaths to zero.

Local Best Practices

City of Orlando

The City of Orlando finalized its Vision Zero Action Plan in 2021. Orlando's plan has a timeline of 2040 to achieve zero deaths and is contemplated as being a "first edition," leaving flexibility for future endeavors.

To guide the plan's development, the Vision Zero Orlando Task Force was convened. The Task Force was multidisciplinary, with members representing planning, engineering, transit, public safety, higher education, the public school system, healthcare, and advocacy groups like the AARP and Bike/Walk Central Florida. The Task Force helped guide the development of the Action Plan and meets to discuss the progress and challenges of the adopted plan.

Vision Zero Core Principles and Goals

Similar to the SHSP, Orlando expanded upon the core 4Es – Engineering, Education, Evaluation, Enforcement – to a total of 6Es. The fifth and sixth Es added under Orlando's framework are Equity, which engages historically underrepresented groups in the process, and Economics, which

examines the economic detriment to communities of fatal and serious injury crashes and the significant economic benefits that come with eliminating those types of crashes.

Orlando's High Injury Network, which was created utilizing fatal and serious injury crash data for roadways within the city limits and excluding limited access highways, reviewed modes as an aggregate and individually. Separate maps were made demonstrating focus areas for crashes involving people walking, biking, riding motorcycles, and driving cars. Further, a Risk-Based Analysis was created to identify the root causes of crashes by mode.

Based on the findings of the data analysis, the Vision Zero Task Force helped to shape the development of six primary goals to guide the implementation of the plan:

- 1. Adopt a Safe Systems approach in roadway design, operation, and maintenance.
- 2. Increase everyone's understanding of the leading causes of crashes resulting in fatalities or serious injuries.
- 3. Support law enforcement efforts to eliminate behaviors leading to fatal or serious injury crashes.
- 4. Demonstrate continuous progress toward Vision Zero.
- 5. Improve access to travel time to Level 1 Trauma Center and other hospitals.
- 6. Prioritize investments and programs in communities of concern.

Toolbox of Countermeasure

To streamline implementation of countermeasures, a Toolbox of Countermeasures was created:

| ×. | Toolbox of Co | untermeasures |
|----|---|---|
| | Engineering Countermeasures | Education Campaigns |
| • | Lighting Pedestrian Priority Traffic Signals Crosswalk Enhancements | Crosswalk UseWrong-Way Cycling |
| • | | Enforcement Concentrations |
| | | Yielding on High Injury NetworkSpeeding on High Injury Network |

Space Coast TPO

The Space Coast Transportation Planning Organization's (TPO) action plan for achieving zero traffic deaths aligns with the Vision Zero Network's goals and recommendations for action plans. To guide the development of the plan, the TPO created a high injury network broken down by mode, location, and the behaviors of those involved in the crash. Using these results, the TPO developed their action plan broken down into four areas, which are highlighted below.

Action Plan:

- Leadership. A steering committee consisting of parties from different departments and jurisdictions charged with implementing Vision Zero was initiated. The TPO also welcomed community involvement by maintaining a list of partner safety collations in the community, sharing updates and initiatives on their website, to community traffic safety teams, and at outreach meetings.
- **Safer Speeds, Engineering, and Enforcement.** Working with FDOT and cities within the TPO's jurisdiction, this goal focuses on implementing best practices such as setting target speeds, zoning, parking, and retrofitting roadways for ADA compliance, especially at transit stops. By investing in public transportation, the TPO hopes to achieve safer roadways with less injury and zero deaths.
- Education. A large emphasis was placed on the education of the community on proactive safety habits to prevent serious injury and death, as education solutions are significantly less expensive than engineering solutions. The TPO utilized a messaging campaign to foster a community that has a culture around safety, being sure to target more at-risk populations in particular. These efforts also included targeting partners like the school system, broadening the campaign's reach. Examples of the campaign are shown below.

• **Data-Driven Approach.** Using a data-driven approach, the TPO was able to maintain transparency and accountability throughout the implementation of their Action Plan. To achieve this, the TPO maintained a safety dashboard and webpage. These resources allowed for informed decision making, evaluation of methods, and resource allocation. To further this commitment to data-driven transparency, an annual Vision Zero Report created by TPO tracks progress annually, monitoring crash trends and the progress towards implementing the Action Plan's goals and policies.

RE: TPO Board Election of Officers

<u>Summary</u>

Per Board Bylaws, members must elect a Chair and Vice-Chair to serve one-year terms at the last board meeting of the calendar year. In 2022, the current officers are:

- Chair, City of Ocala President Ire Bethea, Sr.
- Vice-Chair, Marion County Commissioner Craig Curry

Action Requested

Elect a Board Chair and Vice-Chair for 2023. The officers will begin their terms as Chair and Vice-Chair on January 1, 2023.

If you have any questions, please contact me at 438-2631.

RE: Appointments to the Florida Metropolitan Planning Organization Advisory Council (MPOAC)

<u>Summary</u>

On an annual basis, the Board selects two representatives to serve the Florida MPOAC. The MPOAC is a statewide transportation planning and policy organization devoted to serving the 27 MPO/TPO's in Florida. The MPOAC consists of a Governing Board, with one representative and one alternate from all MPO/TPO's. The MPOAC has a Staff Directors Advisory Committee, which is represented by the TPO Director. In 2023, the MPOAC Governing Board will meet quarterly in Orlando.

The TPO's current 2022 Governing Board member and alternate member are as follows.

<u>MPOAC</u> (1 member, 1 alternate)

Governing Board Member: Marion County Commissioner Craig Curry Alternate Member: City of Ocala Councilmember Kristen Dreyer

RE: DBE Program 2022 Update

Summary

The TPO has developed a Disadvantaged Business Enterprise (DBE) program document to ensure a continuing, cooperative and comprehensive process that is in alignment with FDOT's Plan Program. As a sub-recipient of federal transportation funding, the TPO has developed this document in accordance with the regulations of the U.S. Department of Transportation (49 CFR part 26). The purpose of this document is to ensure a formally established document is in place that obtains the TPO's policy to ensure all DBE contractors have an equal opportunity to participate in U.S. Department of Transportation assisted contracts through the TPO.

Attachment(s)

- DBE Program 2022 update
- A Power Point Presentation of the DBE Plan will be provided at the meeting.

RESOLUTION

RESOLUTION OF THE OCALA MARION TRANSPORTATION PLANNING ORGANIZATION (TPO) UPDATING AND APPROVING THE DISADVANTAGED BUSINESS ENTERPRISE PROGRAM.

WHEREAS, the Ocala Marion Transportation Planning Organization (TPO) has been designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for Marion County; and

WHEREAS, the TPO has developed a program to assure that Disadvantaged Business Enterprises (hereinafter called "DBE"), shall have the maximum practicable opportunity to participate in the performance of contracts financed in whole or in part with funds derived from the U.S. Department of Transportation for the TPO; and

WHEREAS, Florida Statutes 49 CFR Part 26 requires as a condition of the receipt of federal capital or operating assistance, have a continuing, cooperative, and comprehensive DBE process that results in plans and programs taking all necessary and reasonable steps to ensure that all DBE's have an opportunity to compete for and perform the contract work of the TPO in a non-discriminatory manner: and

WHEREAS, engaging the public in the decision-making process is important to the success of all of the TPO's transportation planning programs and activities; and

WHEREAS, the purpose of public engagement is to provide goals and guidelines to ensure that public participation and access to information regarding transportation decision making is facilitated and tracked for the general public and disadvantaged or traditionally underserved populations; and

WHEREAS, the Disadvantaged Business Enterprise Program has been amended to include clear objectives, and specific strategies to comply with federal and state guidelines; and

NOW, THEREFORE BE IT RESOLVED that the Ocala Marion Transportation Planning Organization Disadvantaged Business Enterprise Program for the Marion County area is adopted and approved.

Passed and adopted this 29th day of November, 2022

Ocala Marion Transportation Planning Organization

Ire Bethea, Sr., Chair

ATTEST:

Signature

Rob Balmes, TPO Director

POLICY STATEMENT

The Ocala Marion Transportation Planning Organization (TPO) has established a Disadvantaged Business Enterprise (DBE) program in accordance with rules and regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. As a condition of receiving federal financial assistance from DOT, the TPO has signed an assurance that it will comply with 49 CFR Part 26. As a recipient of federal aid funding through the Florida Department of Transportation (FDOT), the TPO must comply with FDOT's DBE Program Plan. The DBE Program Plan may be found at: <u>https://www.fdot.gov/equalopportunity/dbe-plan</u>.

It is the policy of the TPO to ensure that DBE's, as defined in 49 CFR part 26, have an equal opportunity to receive and participate in DOT-assisted contracts without discrimination. It is also the TPO's policy:

- 1. To ensure nondiscrimination in the award and administration of DOT-assisted contracts.
- 2. To create a level playing field on which DBE's can compete fairly for DOT-assisted contracts.
- 3. To ensure that the DBE program is narrowly tailored in accordance with applicable law.
- 4. To ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBE's.
- 5. To help remove barriers to the participation of DBE's in DOT-assisted contracts.
- 6. To promote the use of DBE's in all types of federally-assisted contracts and procurement activities.
- 7. To assist the development of firms that can compete successfully in the marketplace outside the DBE program.
- 8. To provide appropriate flexibility in establishing and providing opportunities for DBE's.

The TPO, and its consultants, shall take all necessary and reasonable steps to ensure that all DBE's have an opportunity to compete for and perform the contract work of the TPO in a non-discriminatory manner.

The TPO shall require its consultants to not discriminate on the basis of race, color, national origin, sex, age, disability, religion, income or familial status in the award and performance of its contracts. The TPO does not tolerate discrimination in any of its programs, services, or activities. This is in accordance with applicable federal regulations and statutory references contained in the Disadvantaged Business Enterprise Program, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code.

Ire Bethea, Sr. Chair Date

Robert Balmes TPO Director Date

OVERVIEW

What is a Disadvantaged Business Enterprise (DBE)? A DBE is a for-profit small business that is at least 51% owned, controlled and managed by individuals who are socially and economically disadvantaged such as women, minorities or any other group classified as disadvantaged by the US Small Business Administration (SBA). For more information on DBE's go to the U.S. Department of Transportation's Office of Civil Rights website: <u>https://www.civilrights.dot.gov/disadvantaged-business-enterprise/do-you-qualify-dbe</u>.

In 1983, Congress enacted the first DBE statutory provision. This provision required that at least 10% of the funds authorized for the highway and transit financial assistance programs be expended with DBE's. Several years later Congress re-authorized and amended the statutory DBE program to include women to the groups presumed to be disadvantaged along with minorities and other changes.

There are three major Department of Transportation (DOT) administrations involved in the DBE program; the Federal Highway Administration (FHWA), the Federal Aviation Administration (FAA), and the Federal Transit Administration (FTA). The DOT DBE program is carried out by the state and local transportation agencies under the rules and guidelines in the Code of Federal Regulations, (49 CFR Part 26). A link to the 49 CFR Part 26 Code of Federal Regulations is provided in Appendix 6.

The DBE program was established to ensure that firms owned by minorities, women and other socially and economically disadvantaged persons have an equal opportunity to participate in U.S.DOT-assisted projects. The goal of the program is to level the playing field on which DBE's may compete for contracts and subcontracts in the transportation industry. As a sub-recipient of FHWA and FTA funding through the Florida Department of Transportation (FDOT), the Ocala Marion TPO operates under FDOT's DBE approved program plan.

GENERAL REQUIREMENTS

Objective

Objectives are found in the policy statement on the first page of this program.

DBE Participation Goal

The TPO's current DBE annual participation goal is 10.65% of federal funds available for contracting to be expended with DBE's.

Applicability

The Ocala Marion Transportation Planning Organization (hereinafter "TPO") is the recipient of federal-aid highway funds authorized under Titles I and V of the Intermodal Surface Transportation Efficiency Act of

1991 (ISTEA), Pub. L. 102-240, 105 Stat. 1914, Titles I, III, and V of the Transportation Equity Act for the 21st Century (TEA-21, Pub. L. 10-178, 112 Stat. 107 and Transportation Equity Act (SAFETEA-LU, Pub. L. 109-59, August 10, 2005), The Moving Ahead for Progress in the 21st Century Act (MAP-21, Pub. L. 112-141, July 6, 2012) and Fixing America's Surface Transportation Act (FAST, Pub. L. 114-94, Dec. 4, 2015); and the Infrastructure Investment and Jobs Act (IIJA, 117-58).

Non-discrimination

The TPO will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR Part 26 on the basis of race, color, sex, national origin, age, disability, religion, income or familial status.

The TPO will not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE program with respect to individuals of a particular race, color, sex, national origin, age, disability, religion, income or familial status.

Record Keeping Requirements

In order to monitor and evaluate the progress of the TPO and its third-party contractors towards meeting the participation goals of the DBE Program, TPO shall develop and maintain a record keeping system as follows:

TPO will report DBE participation to FDOT on a semi-annual basis. This report will reflect payments made to DBE's on DOT-assisted contracts. A copy of this form can be found in Appendix 5 of this Program.

The TPO will also maintain regular tracking of DBE actions in the FDOT Equal Opportunity Compliance (EOC) system.

DBE Checklists

The TPO will also adhere to the checklist provided by FDOT in reference to contracting and administration. Appendix 3 contains the FDOT checklist used for all TPO contracting, including request for proposals (RFP's) pre-award and post-award execution of contracts.

Contract Goals

In accordance with 49 CFR Part 26.21, and the FDOT DBE Program Plan, DBE participation on FHWAassisted contracts must be achieved through race-neutral methods. 'Race neutral' means that the TPO can likely achieve the overall DBE goal of 10.65% through ordinary procurement methods. Therefore, no specific DBE contract goal may be applied to this project. Nevertheless, the TPO is committed to supporting the identification and use of DBEs and other small businesses and encourages all reasonable efforts to do so. Furthermore, the TPO recommends the use of certified DBE's listed in the Florida Unified Certification Program (UCP) DBE Directory, who by reason of their certification are ready, willing, and able to provide and assist with the services identified in the scope of work. Assistance with locating DBEs and other special services are available at no cost through FDOT's Equal Opportunity Office DBE Supportive Services suppliers.

DBE Directory

The TPO references certified DBE's listed in the Florida Unified Certification Program (UCP) Directory.

The Directory is available at:

https://fdotxwp02.dot.state.fl.us/EqualOpportunityOfficeBusinessDirectory/Home.aspx.

Federal Financial Assistance Assurance

The TPO has signed the following assurances, applicable to all DOT-assisted contracts (FHWA or FTA) and their administration.

Assurance:

It is the policy of the Ocala Marion TPO that disadvantaged businesses, as defined by 49 Code of Federal Regulations, part 26, shall have an opportunity to participate in the performance of MPO contract in a nondiscriminatory environment. The objectives of the Disadvantaged Business Enterprise Program are to ensure non-discrimination in the award and administration of contracts, ensure firms fully meet eligibility standards, help remove barriers to participation, create a level playing field, assist in development of a firm so it can compete successfully outside of the program, provide flexibility, and ensure narrow tailoring of the program.

The Ocala Marion TPO, and its consultants shall take all necessary and reasonable steps to ensure that disadvantaged businesses have an opportunity to compete for and perform the contract work of the Ocala Marion TPO, in a non-discriminatory environment.

The Ocala Marion TPO shall require its consultants to not discriminate on the basis of race, color, national origin and sex in the award and performance of its contracts. This policy covers in part the applicable federal regulations and the applicable statutory references contained therein for the Disadvantaged Business Enterprise Program Plan, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code.

This language will appear in all contracts and requests for qualifications/proposals.

Contract Assurance

The TPO will provide the following statement in every DOT assisted contract and subcontract:

The contractor, sub-recipient or subcontractor shall not discriminate on the basis of race, color, national origin, sex, age, disability, income, religion, or familial status in the performance of this contract or in the administration of its DBE Program or requirements of 49 CFR 26.13(b). The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT assisted contracts. Implementation of this program is a legal obligation and failure by the contractor to carry out these requirements shall be treated as a violation of this agreement. This violation may result in the termination of this contract or such other remedy as deemed necessary, which may include, but not limited to:

Withholding monthly progress payments Assessing sanctions Liquidated damages and/or Disqualifying the contractor from future bidding as a non-responsible

A copy of the assurances is provided in Appendix 4 of this Program.

ADMINISTRATIVE REQUIREMENTS

Program Updates

The TPO will provide FDOT with updates representing significant changes in the program.

Policy Statement

The Policy Statement is elaborated on the first page of this Program or it can be found in Appendix 1.

Liaison Officer

The TPO has appointed a DBE Liaison Officer (herein after called "DBELO") to develop and maintain this DBE Program in accordance with the requirements of Rule Chapter 14-78, F.A.C.

The delegated DBE Liaison Officer is:

Robert Balmes TPO Director 2710 E. Silver Springs Blvd. Ocala, Florida 34470 352-438-2631 The DBELO is responsible for implementing all aspects of the DBE program and ensuring that the TPO complies with all provisions of 49 CFR Part 26. The DBELO has access to Services, Grants and Contracts concerning DBE program matters. An organizational chart displaying the DBELO's position in the organization is found in Appendix 2 to this program.

The DBELO is responsible for developing, implementing and monitoring the DBE program, in coordination with the Florida Department of Transportation DBE Program Management. The DBELO may assign additional staff to assist in the administration of the program, if necessary.

The duties and responsibilities are as follows:

Develops, gathers and reports statistical data, policies, procedures and other information. Ensures that bid notices and requests for proposals are available to DBE's in a timely manner. Advises the TPO Board on DBE matters and achievement. Identifies contracts and procurements so that DBE goals are included in solicitations. Provides outreach to DBE's and community organizations to advise them of opportunities. Analyzes the TPO's progress toward attainment and identifies ways to improve progress.

PUBLIC PARTICIPATION

Prior to establishing an overall goal, the TPO will consult with the general public, and local businesses, to obtain information concerning the availability of disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and the efforts of the TPO to establish a level playing field for the participation of DBEs.

APPENDIX 1: DBE POLICY STATEMENT

The Ocala Marion Transportation Planning Organization (TPO) has established a Disadvantaged Business Enterprise (DBE) program in accordance with rules and regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. As a condition of receiving federal financial assistance from DOT, the TPO has signed an assurance that it will comply with 49 CFR Part 26. As a recipient of federal aid funding through the Florida Department of Transportation (FDOT), the TPO must comply with FDOT's DBE Program Plan. The FDOT DBE Program Plan may be found at: https://www.fdot.gov/equalopportunity/dbe-plan.

It is the policy of the TPO to ensure that DBE's, as defined in 49 CFR part 26, have an equal opportunity to receive and participate in DOT-assisted contracts without discrimination. It is also the TPO's policy:

- 1. To ensure nondiscrimination in the award and administration of DOT-assisted contracts.
- 2. To create a level playing field on which DBE's can compete fairly for DOT-assisted contracts.
- 3. To ensure that the DBE program is narrowly tailored in accordance with applicable law.
- 4. To ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBE's.
- 5. To help remove barriers to the participation of DBE's in DOT-assisted contracts.
- 6. To promote the use of DBE's in all types of federally-assisted contracts and procurement activities.
- 7. To assist the development of firms that can compete successfully in the marketplace outside the DBE program.
- 8. To provide appropriate flexibility in establishing and providing opportunities for DBE's.

The TPO, and its consultants, shall take all necessary and reasonable steps to ensure that all DBE's have an opportunity to compete for and perform the contract work of the TPO in a non-discriminatory manner.

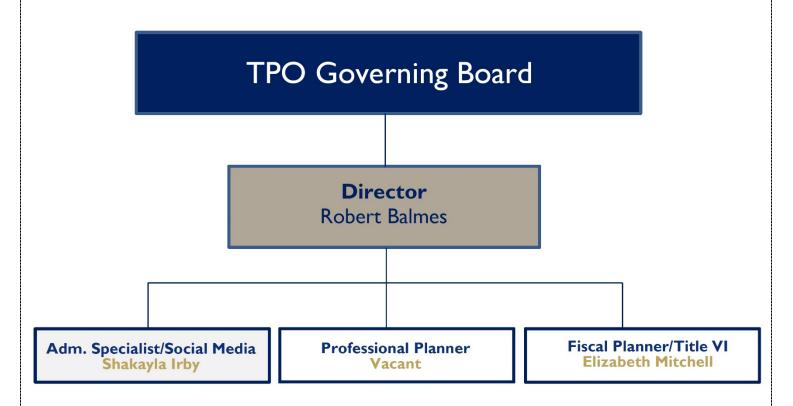

The TPO shall require its consultants to not discriminate on the basis of race, color, national origin, sex, age, disability, religion, income or familial status in the award and performance of its contracts. The TPO does not tolerate discrimination in any of its programs, services, or activities. This is in accordance with applicable federal regulations and statutory references contained in the Disadvantaged Business Enterprise Program, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code.

APPENDIX 4: ASSURANCES

The TPO has signed the following assurances, applicable to all DOT-assisted contracts (FHWA or FTA) and their administration.

Assurance:

It is the policy of the Ocala Marion TPO that disadvantaged businesses, as defined by 49 Code of Federal Regulations, Part 26, shall have an opportunity to participate in the performance of MPO contract in a nondiscriminatory environment. The objectives of the Disadvantaged Business Enterprise Program are to ensure non-discrimination in the award and administration of contracts, ensure firms fully meet eligibility standards, help remove barriers to participation, create a level playing field, assist in development of a firm so it can compete successfully outside of the program, provide flexibility, and ensure narrow tailoring of the program.

The Ocala Marion TPO, and its consultants shall take all necessary and reasonable steps to ensure that disadvantaged businesses have an opportunity to compete for and perform the contract work of the Ocala Marion TPO, in a non-discriminatory environment.

The Ocala Marion TPO shall require its consultants to not discriminate on the basis of race, color, national origin and sex in the award and performance of its contracts. This policy covers in part the applicable federal regulations and the applicable statutory references contained therein for the Disadvantaged Business Enterprise Program Plan, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code.

This language will appear in all contracts and requests for qualifications/proposals.

The TPO will ensure all professional services procurement and contracts will also be in accordance with Chapter 287, Florida Statutes, Chapter 60A, Florida Administrative Code, and the FTA Best Practices Procurement Manual. The TPO has developed a policy in reference to all FTA clauses included in this Appendix.

Contract Assurance:

The TPO will provide the following statement in every DOT assisted contracts and subcontracts:

The contractor, sub-recipient or subcontractor shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion, income, or familial status in the performance of this contract or in the administration of its DBE Program or requirements of 49 CFR 26.13(b). The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT assisted contracts. Implementation of this program is a legal obligation and failure by the contractor to carry out these requirements shall be treated as a violation of this agreement. This violation may result in the termination of this contract or such other remedy as deemed necessary, which may include, but not limited to:

Withholding monthly progress payments Assessing sanctions Liquidated damages and/or Disqualifying the contractor from future bidding as a non-responsible

Resolution No. 22-9

POLICY OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) ACQUISITION OF PROFESSIONAL SERVICES

The Ocala/Marion County Transportation Planning Organization (TPO) is designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County planning area.

This policy ensures the TPO follows the Federal Transit Administration (FTA) and Florida Department of Transportation (FDOT) in the procurement of Professional Services. As a subrecipient of FTA funding, the TPO has developed this policy to be applicable to all TPO Professional Services/Architectural Engineering Services procurements and contracts. This will ensure TPO procurements and contracts shall be in accordance with Chapter 287, Florida Statutes, Chapter 60A, Florida Administrative Code, and the FTA Best Practices Procurement Manual. Additionally, geographic preferences are prohibited when procurements involve Federal funds [49.CFR 18.36 (c)(1)(2) and FTA C4220. 1F, Chapter VI, Section 2a(4)(g)].

This policy includes specific Federal clauses involving methods of procurement for Micro Purchases (less than \$2,500), Small Purchases (greater than \$2,500 but less than \$35,000) and Competitive Proposals (greater than \$35,000). Attachment 1 includes a summary of all applicable FTA clauses and mandatory language included with TPO Professional Services/Architectural Engineering Services procurements and contracts. This policy should be deemed to amend and become part of all future procurements and contracts, initiated by the TPO and communicated as to those needs with the Marion County Board of County Commissioners Procurement Services Department both at the time a solicitation begins and when the contract is written. The TPO will be responsible for clearly communicating these needs with the Marion County Board of County Commissioners Procurement Services Department.

DEBARMENT and SUSPENSION CERTIFICATION

As required by the USDOT regulation on Governmentwide Debarment and Suspension at 49 CFR 29.510

- (1) The Ocala/Marion County TPO hereby certifies to the best of its knowledge and belief, that it and its principals:
 - (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;
 - (b) Have not, within a three-year period preceding this proposal, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under a public transaction, violation of federal or state antitrust statutes; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of the offenses listed in paragraph (b) of this certification; and
 - (d) Have not, within a three-year period preceding this certification, had one or more public transactions (federal, state or local) terminated for cause or default.
- (2) The Ocala/Marion County TPO also hereby certifies that if, later, it becomes aware of any information contradicting the statements of paragraphs (a) through (d) above, it will promptly provide that information to the U.S.D.O.T.

LOBBYING CERTIFICATION for GRANTS, LOANS and COOPERATIVE AGREEMENTS

In accordance with Section 1352 of Title 31, United States Code, it is the policy of the Ocala/Marion County TPO that:

- (1) No Federal or state appropriated funds have been paid or will be paid by or on behalf of the Ocala/Marion County TPO, to any person for influencing or attempting to influence an officer or employee of any Federal or state agency, or a member of Congress or the state legislature in connection with the awarding of any Federal or state contract, the making of any Federal or state grant, the making of any Federal or state loan, extension, continuation, renewal, amendment, or modification of any Federal or state contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- (3) The Ocala/Marion County TPO shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants and contracts and subcontracts under grants, subgrants, loans, and cooperative agreement), which exceeds \$100,000, and that all such subrecipients shall certify and disclose accordingly.
- (4) This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each failure.

FLORIDA DEPARTMENT OF TRANSPORTATION UNIFIED PLANNING WORK PROGRAM (UPWP) STATEMENTS AND ASSURANCES

TITLE VI/ NONDISCRIMINATION ASSURANCE

Pursuant to Section 9 of US DOT Order 1050.2A, the Ocala/Marion County TPO assures the Florida Department of Transportation (FDOT) that no person shall on the basis of race, color, national origin, sex, age, disability, family or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, the Florida Civil Rights Act of 1992 and other nondiscrimination authorities be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity.

The Ocala/Marion County TPO further assures FDOT that it will undertake the following with respect to its programs and activities:

- 1. Designate a Title VI Liaison that has a responsible position within the organization and access to the Recipient's Chief Executive Officer.
- 2. Issue a policy statement signed by the Chief Executive Officer, which expresses its commitment to the nondiscrimination provisions of Title VI. The policy statement shall be circulated throughout the Recipient's organization and to the general public. Such information shall be published where appropriate in languages other than English.
- 3. Insert the clauses of *Appendices A and E* of this agreement in every contract subject to the Acts and the Regulations
- 4. Develop a complaint process and attempt to resolve complaints of discrimination against sub-recipients. Complaints against the Recipient shall immediately be forwarded to the FDOT District Title VI Coordinator.
- 5. Participate in training offered on Title VI and other nondiscrimination requirements.
- 6. If reviewed by FDOT or USDOT, take affirmative action to correct any deficiencies found within a reasonable time period, not to exceed ninety (90) calendar days.
- 7. Have a process to collect racial and ethnic data on persons impacted by your agency's programs.

THIS ASSURANCE is given in consideration of and for the purpose of obtaining any and all federal funds, grants, loans, contracts, properties, discounts or other federal financial assistance under all programs and activities and is binding. The person whose signature appears below is authorized to sign this assurance on behalf of the Recipient.

APPENDICES A and E

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "Contractor") agrees as follows:

- (1) **Compliance with Regulations:** The Contractor shall comply with the Regulations relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation (hereinafter, "USDOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.
- (2) **Nondiscrimination:** The Contractor, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.
- (3) Solicitations for Subcontractors, including Procurements of Materials and Equipment: In all solicitations made by the Contractor, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials or leases of equipment; each potential subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.
- (4) Information and Reports: The Contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the *Florida Department of Transportation*, the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the *Florida Department of Transportation, the Federal Motor Carrier Safety Administration, Federal Transit Administration, Federal Aviation Administration the florida Department of Transportation*, the *Federal Highway Administration, Federal Transit Administration, Federal Aviation* the Societies and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the *Florida Department of Transportation*, the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.*
- (5) **Sanctions for Noncompliance:** In the event of the Contractor's noncompliance with the nondiscrimination provisions of this contract, the *Florida Department of Transportation* shall impose such contract sanctions as it or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* may determine to be appropriate, including, but not limited to:
 - a. Withholding of payments to the Contractor under the contract until the Contractor complies, and/or
 - b. Cancellation, termination or suspension of the contract, in whole or in part.

FLORIDA DEPARTMENT OF TRANSPORTATION UNIFIED PLANNING WORK PROGRAM (UPWP) STATEMENTS AND ASSURANCES

- (6) **Incorporation of Provisions:** The Contractor shall include the provisions of paragraphs (1) through (7) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to any subcontract or procurement as the Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. In the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the Contractor may request the Florida Department of Transportation, and, in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.
- **Compliance with Nondiscrimination Statutes and Authorities:** Title VI of the (7) Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 -- 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures nondiscrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq)

DISADVANTAGE BUSINESS ENTERPRISE PROGRAM (DBE)

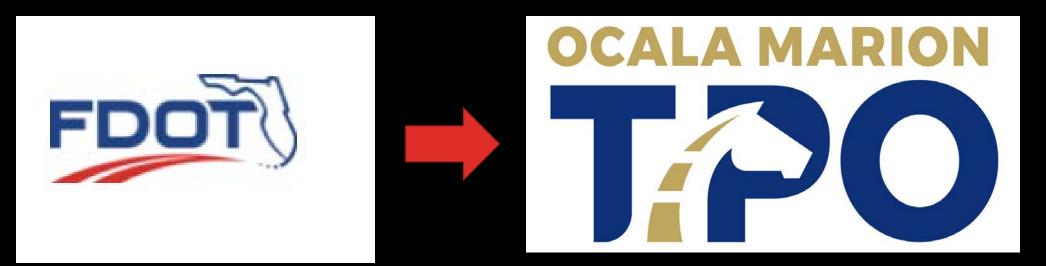

DISADVANTAGED BUSINESS ENTERPRISE PROGRAM

WWW.OCALAMARIONTPO.ORG ADOPTED: November 29, 2022

The TPO is updating their DBE plan to have a continuing, cooperative and comprehensive DBE process that is in alignment with FDOT's DBE Program Plan.

As recipients of federal funds through FDOT we must follow their process.

What is a DBE?

A for-profit small business that is at least 51% owned, controlled and managed by person(s) who are socially and economically disadvantaged, such as women, minorities or any other group classified by the US Small Business Administration (SBA).

For transportation purposes there are three major administrations involved in the DBE program:

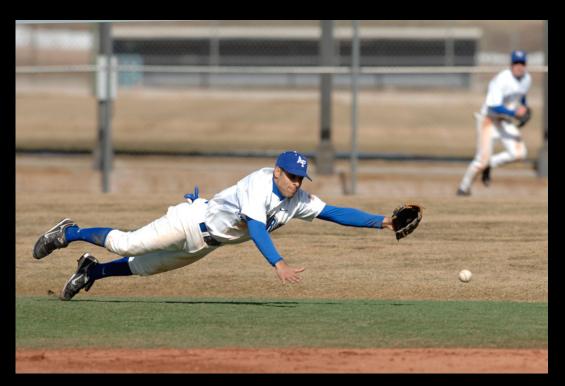

- 1. Federal Highway Administration (FHWA)
- 2. Federal Aviation Administration (FAA)
- 3. Federal Transit Administration (FTA)

The program is carried out by the state and local transportation agencies under the rules and guidelines in the Code of Federal Regulations, (49 CFR Part 26). Congress enacted the first DBE statutory provision requiring at least 10% of the funds authorized for the highway and transit financial assistance program be expended with DBE's.

The TPO is committed to the FDOT goal of expending **10.65%** of contracting funds on DBE's.

The goal of the program is to level the playing field on which DBE's may compete for contracts and subcontracts in the transportation industry.

The DBE program was established to ensure that firms owned by minorities, women and other socially and economically disadvantaged person(s) have an equal opportunity to participate in U.S.DOT-assisted projects.

A quick synopsis of the DBE program entails:

- 1. Non-discrimination policy and practices
 - a. Ensuring that through contractual or other arrangements, we do not use criteria or methods of administration that have the effect of defeating or impairing the objectives of the DBE program
- 2. Record keeping and reporting
 - a. semi-annual reports to FDOT
- 3. Monitoring the DBE directory
 - a. Continual vigilance to maintain knowledge of registered small businesses on the DBE list within our
 - area

4. Contract monitoring to make DBE's inclusive:

- a. Ensure that contractors/consultants also follow DBE Program requirements and include DBE's in contracts and programs
- 5. Maintaining program updates:
 - a. Watch for any changes in rules and regulations of the DBE program in order to stay up to date
- 6. Having a Liaison Officer:
 - a. Program required: Our TPO Director, Rob Balmes
- 7. Maintain adherence to program requirements:
 - a. Assessing sanctions, progress payments, or disqualifying a contractor, if necessary

- 8. Good faith efforts to ensure contracting opportunities with continual measures to be taken to increase small business participation:
 - a. Requires monitoring, reporting and follow through on all of the listed items ensuring that we are making the best possible attempt at a fair and equitable program
- 9. Outreach to DBE's and community organizations:
 - a. Maintaining communications with area DBE's and keeping them aware of possible opportunities to help improve/assist in their success

10. Public participation, include the public:

a. Make the public aware and get their input

Ocala Marion TPO is committed to:

The TPO, and its consultants, shall take all necessary and reasonable steps to ensure that all DBE's have an opportunity to compete for and perform the contract work of the TPO in a non-discriminatory manner.

The TPO shall require its consultants to not discriminate on the basis of race, color, national origin, sex, age, disability, religion, income or familial status in the award and performance of its contracts.

The TPO does not tolerate discrimination in any of its programs, services, or activities. This is in accordance with applicable federal regulations and statutory references contained in the Disadvantaged Business Enterprise Program, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code.

RE: Amendment #2 of FY 2023 to 2027 Transportation Improvement Program (TIP)

<u>Summary</u>

Per the request of the Florida Department of Transportation (FDOT), two projects are proposed to be amended to the Fiscal Years (FY) 2023 to 2027 Transportation Improvement Program (TIP), pending approval of an amendment to the 2045 Long Range Transportation Plan (LRTP) at the TPO Board Public Hearing meeting on November 29, 2022. The projects may be found on the following attached pages of the TIP document.

FM# 435547-3: NW 44th Avenue Extension from SR 40 to NW 11th Street

- Total: \$9,000,000
- Funds to be added to FY 2023
- Construction funds (CST) for roadway extension project

FM# 450918-1: Dunnellon Trail from River View to Rainbow River Bridge

- Total: \$2,537,000
- Funds to be added to FY 2023
- Preliminary Engineering (PE) and CST funds for the trail project

<u>Attachment(s)</u>

- FDOT TIP Amendment Request
- TIP Proposed Amended Project Pages
- FY 2023 to 2027 TIP document

<u>Committee Recommendation(s)</u>

• The Citizens Advisory Committee (CAC) and Technical Advisory Committee (TAC) approved the TIP Amendment on September 13, 2022.

Action Requested

TPO staff is recommending approval of the FY 2023 to 2027 Transportation Improvement Program (TIP) Amendment #2.

If you have any questions about the TIP amendment, please contact me at: 438-2631.

RON DESANTIS GOVERNOR

605 Suwannee Street Tallahassee, FL 32399-0450 JARED W. PERDUE, P.E. SECRETARY

August 1, 2022

Mr. Robert Balmes, AICP, CTP, Executive Director Ocala-Marion Transportation Planning Organization (TPO) 2710 E Silver Springs Blvd Ocala, FL 34470

RE: Request to <u>Modify</u> Fiscal Year (FY) 2021/22-2025/26 Transportation Improvement Program (TIP) and <u>Amend</u> FY 2022/23-2026/27 TIP

Dear Mr. Balmes:

The purpose of this letter is to request Ocala Marion TPO modify the FY 2021/22-2025/26 TIP and amend the FY 2022/23-2026/27 TIP.

The <u>administrative modification</u> to the FY 2021/22-2025/26 TIP is to add project #448376-1 to the old TIP so that authorization of federal funds for the design phase of the project can be requested prior to October 1, 2022.

| FM# | Project | Project | Length | Phase | Fund | Amount | FY |
|----------|-------------|-------------------------------------|--------|-------|--------|-------------|------|
| | Description | Limits | | | Source | | |
| 448376-1 | I-75/SR-93 | SR-200 to north of SR- 500 | 4.469 | PE | ACNP | \$1,630,000 | 2023 |

The <u>amendment</u> to the FY 2022/23-2026/27 TIP is to add the two projects descried in the table below. These projects received funding through an appropriation of Florida Legislature during the 2022 session and will need to be included in the TIP.

| FM# | Project | Project | Length | Phase | Fund | Amount | FY |
|----------|---------------------|---------------------|----------|-------|--------|-------------|------|
| | Description | Limits | | | Source | | |
| 435547-3 | NW 44 th | SR 40 to | .8 miles | CST | GR23 | \$8,000,000 | 2023 |
| | Avenue | NW 11 th | | | LF | \$1,000,000 | |
| | Extension | Street | | | | | |
| 450918-1 | Dunnellon | River | .815 | PE | GR23 | \$ 375,000 | 2023 |
| | Trail | View to | miles | CST | | \$2,162,000 | |
| | | Rainbow | | | | | |
| | | River | | | | | |
| | | Bridge | | | | | |

As always, feel free to contact the Liaison Group at <u>D5-MPOLiaisons@dot.state.fl.us</u> if you would like to discuss further.

Sincerely,

Anna Taylor

Anna Taylor Government Liaison Administrator FDOT District Five

Transportation Improvement Program

Fiscal Years 2023 to 2027

Adopted June 28, 2022

Amendment 1: August 23, 2022 Amendment 2: November 29, 2022

This document was prepared with financial assistance from the Federal Highway Administration and the Federal Transit Administration of the U.S. Department of Transportation through the Florida Department of Transportation.

2710 E. Silver Springs Boulevard • Ocala, FL 34470 • 352-438-2630

RESOLUTION OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) TRANSPORTATION IMPROVEMENTPROGRAM (TIP) FOR FISCAL YEAR 2023 to 2027

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(j), 23 CFR Section 450.326 and Florida Statute 339.175(8) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as "a staged, multi-year, intermodal program of transportation projects which is consistent with the metropolitan (long-range) transportation plan [23 CFR 450.104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board;
- (ii) No revision or amendment performed by the TPO Director shall substantially modify any plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the amendment of Transportation Improvement Program for FY 2023 to 2027.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 29th day of November 2022.

1. INTRODUCTION

Purpose

The Ocala/Marion County Transportation Planning Organization (Ocala Marion TPO) is the federally designated Metropolitan Planning Organization (MPO) for Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The Fiscal Years (FY) 2023 to 2027 TIP is a five-year schedule of transportation projects to be implemented by government agencies within the Metropolitan Planning Area (MPA) of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is developed on an annual basis (23 C.F.R. 450.326(a)). The types of projects in the TIP include all modes of transportation, such as roadway construction, operations, maintenance, repaving, bicycle and pedestrian, transit and aviation.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the "3C" planning process, is reflected in the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The 2045 LRTP, which is also developed by the TPO, outlines the Ocala/Marion County transportation vision and goals 20 years into the future. The TIP outlines the short-term "action steps" necessary for achieving the long-term vision by programming specific transportation improvements.

Fiscal Constraint

Transportation projects contained in the TIP are financially feasible and located within the designated planning area. As a condition of receiving federal project funding, the TIP must list all highway and public transportation projects proposed for funding under Title 23 United States Code (23 U.S.C.) (highways) and 49 U.S.C. (transit). The TIP must also contain state and locally funded regionally significant transportation projects regardless of funding source. For a project to be considered financially feasible, the anticipated cost must not exceed anticipated revenue.

Consistency

All projects in the TIP are supported and documented in the 2045 LRTP. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding to Marion County. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments, and must be fully consistent.

A list of the most current Annually Federally Obligated projects is provided in **Appendix B.** The Obligation list is a continuation of projects in the prior TIP, and in some cases started in previous TIPs (23 CFR 450.334). The Obligated list will be updated and amended in September 2022.

TPO Planning Area

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to rapid population growth in the 1980s, the planning boundaries of the entire county were added. Figure 1 illustrates TPO planning area which includes all of Marion County and the cities of Belleview, Dunnellon and Ocala.

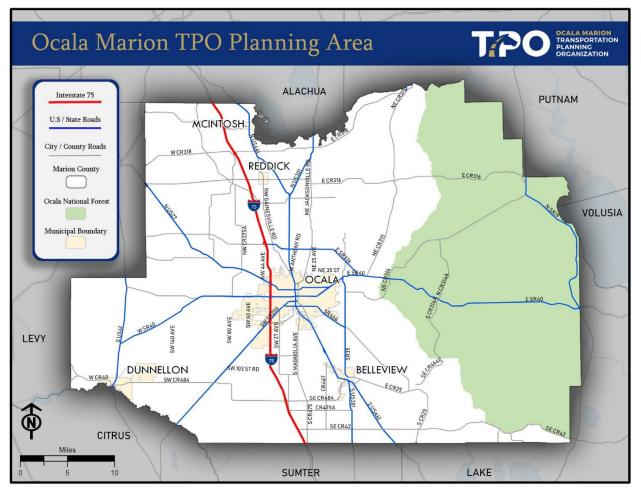

Figure 1: Map of TPO Planning Area

Development of the TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) and the TPO Board. The TPO strives to also engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 Code of Federal Regulation 23 C.F.R. 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents is contained in **Appendix G**.

TPO Boards and Committees

The TPO submits a draft TIP for review and feedback to the TPO's TAC and CAC. These boards/committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Department of Transportation (FDOT); the Florida Department of Environmental Protection; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review and to receive feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is then presented to the TPO Board for adoption in May or June of each year. In 2022, TPO staff presented the draft TIP to the TAC and CAC on May 10th and June 14th, the TPO Board on May 24th and June 28th.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public Participation Plan (PPP) (https://ocalamariontpo.org/plans-and-programs/publicparticipation-plan-ppp). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. The TAC and CAC meetings were held virtually and in person and therefore were also accessible to those with internet access. The TPO Board meetings were held both virtually and in-person. Advance public notices were provided for all committee and board meetings per Florida Sunshine Law and the TPO's PPP. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. Beginning on May 4th, a legal notice of the draft version of the TIP was advertised in the Ocala Star Banner. The public comment period for the TIP began on May 3, 2022 and concluded on June 28, 2022. A copy of the public notice can be found in **Appendix E** and a list of public comments, including the TPO's response to each comment, can be found in **Appendix F**. On May 3rd, the TPO sent the Draft TIP for review and comment to the following agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged and the St. Johns River Water Management District.

Formal responses are provided to each citizen comment submitted to the TPO by email, mail or phone. Citizens are provided a formal response by the TPO and made aware how their public comment is documented, and how it may be addressed if related to a specific project(s) in the current TIP. In cases where further follow up is required, such seeking project background information, additional contact is made with the citizen by the TPO. All citizen, TPO committee, TPO Board and partner agency comments and corresponding TPO responses are summarized in **Appendix F**.

Joint Certification

The most recent joint certification between the Ocala Marion TPO and FDOT was completed on March 22, 2022 through action by the TPO Board. FDOT certified the TPO's transportation planning process for Fiscal Year 2022. The next certification review will occur from February to March of 2023.

Consistency with Other Plans

The projects and project phases listed in the FY 2023 to 2027 TIP are consistent with the local public transit development plan (SunTran), aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2045 LRTP, Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Strategic Highway Safety Plan (SHSP), Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), TPO Congestion Management Process (CMP) and SunTran Transportation Development Plan (TDP).

2045 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long- term vision and goals for transportation, the 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020. A list of TIP projects referenced in the 2045 LRTP can be found in **Appendix I**. (https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-Irtp).

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety, provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies. (<u>http://floridatransportationplan.com</u>)

Strategic Intermodal System (SIS) 2022 Policy Plan

The Strategic Intermodal System (SIS) 2022 Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in **Appendix C**. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project).

(https://www.fdot.gov/planning/sis/default.shtm)

Florida's Strategic Highway Safety Plan (SHSP)

The Florida's 2021 to 2025 Strategic Highway Safety Plan (SHSP) was adopted in March 2021. This is an update to the prior plan, and was completed in coordination with all 27 Florida MPO/TPO's. Florida's SHSP outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries. A set of 12 emphasis areas organized into three categories (Roadways, Road Users, User Behavior) provide the foundation for improving safety. (https://www.fdot.gov/safety/shsp/shsp.shtm)

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. FDOT updated the FMTP in spring 2020. (https://www.fdot.gov/rail/plandevel/freight-mobility-and-trade-plan)

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines the process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed information, such as the department's assets, asset management strategies, and long-term expenditure forecasts to inform decision-making at both the State and Local levels.

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute (F.S.) [339.175 (6)(c)1]. Guidance from the Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system".

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP typically support improved travel conditions through the implementation of low cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time- consuming and expensive.

The TPO completed a major update to the CMP in 2021, including policies and procedures and state of system elements. The CMP update serves two purposes: to meet state statutes and help with prioritizing project needs, and to also meet federal requirements if the TPO becomes a Transportation Management Area (TMA) as a result of the 2020 Census. A TPO is considered a TMA when their urbanized area population exceeds 200,000. Completing an update to the CMP will keep the TPO in compliance with both state statute and federal requirements. (https://ocalamariontpo.org/congestion-management-process-cmp)

Transit Development Plan (TDP)

The Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon. A TDP is updated by SunTran every five years to ensure transit services offered meet the mobility needs of local communities. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies in Marion County. SunTran is completing a major TDP update in 2022.

TIP Revisions

Revisions to the TIP may be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added or deleted. TIP Amendments require TPO Board action and opportunity for public comment. TIP modifications to not require TPO Board action or public comment (23 C.F.R. 450.104). As summarized in the FDOT MPO Management Handbook, there are four types of TIP revisions.

TIP Modification

A TIP modification includes minor changes such as to project phase costs, funding sources and project initiation dates. TIP Modifications are less than 20 percent and \$2 million.

TIP Amendment

A TIP amendment involves major changes to project such as a deletion, addition, project cost increase (over 20 percent and \$2 million), design concept or project scope.

Roll Forward Amendment

Projects programmed in the prior TIP that were not authorized by the end of the state fiscal year (June 30) may be authorized between July 1 and September 30, and included in an annual Roll-Forward TIP report to be amended in the new TIP. The Roll Forward amendment process must occur prior to the start of the federal fiscal year, which is October 1. The TPO Board adopts Roll Forward TIP Amendment each year.

Administrative TIP Amendment

Projects that are added to year one of the FDOT Tentative Work Program will not be recognized by FHWA until their fiscal year on October 1. Administrative amendments are permitted between the state fiscal year period of July 1 to September 30 to fill the gap until the federal fiscal year begins on October 1.

Transportation Disadvantaged

The Transportation Disadvantaged (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline or age 60+ or <16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. Therefore, the TIP is developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County.

Efficient Transportation Decision Making

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in the TIP through the ETDM process. Public information for these projects is available at: <u>https://etdmpub.fla-etat.org/est</u>.

2. PERFORMANCE MANAGEMENT

Performance Based Planning

In order to develop a standardized process for monitoring the effectiveness of transportation investments across the country, the Federal government passed the Moving Ahead for Progress in the 21st Century Act (MAP-21). MAP-21 was enacted in 2012 by Congress to establish a framework to link performance management and decision-making for federally-funded transportation investments. MAP-21, which was supplemented by the FAST Act in 2015, requires the State Department of Transportations (DOTs) and TPOs/MPOs to conduct performance-based planning. The objective of performance-based planning is to invest resources in projects that help achieve the following seven national goals (23 CFR 490 or [23 USC 150(b)]):

1- Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads

2- Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair

3- Congestion Reduction

To achieve a significant reduction in congestion on the National Highway System

4- System Reliability

To improve the efficiency of the surface transportation system

5- Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development

6- Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment

7- Reduced Project Delivery Delays

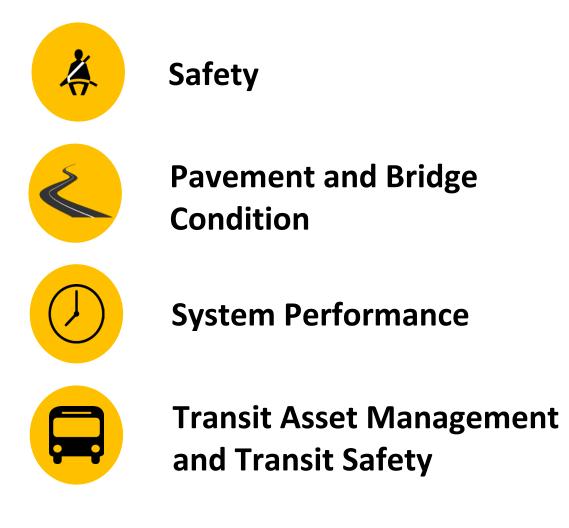

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance-based planning utilizes performance measures and performance targets to ensure the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes.

Performance Measures and Targets

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPOs/MPOs and transit operators to establish and report performance targets for each performance measure. Performance measures are quantitative criteria used to evaluate progress of the seven national goals. In order to determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets. Appendix D provides Transportation Performance Management Fact Sheets published by FDOT in April 2022.

In March 2016, the FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rule (PM1), effective April 14, 2016. The Safety PM Final Rule established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP. Additionally, the Safety PM Finals Rule established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether State DOTs have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, FDOT is fully committed to Vision Zero, and has set a statewide target of "0" for all five safety performance measures. Vision Zero is discussed in greater detail in the HSIP, the Florida Highway Safety Plan, and the Florida Transportation Plan. FDOT set its safety performance targets on August 31, 2017. In addition, FDOT completed a HSIP Implementation Plan in August 2020 to outline an approach toward meeting its safety performance targets in future years. In August of each calendar year, FDOT reports the following year's targets in the HSIP. The TPO is then required to either adopt FDOT's targets or set their own.

On February 27, 2018, the Ocala Marion TPO Board adopted its own safety performance targets to better track progress and reflect greater accountability to the public. The TPO is also developing Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion in 2022. Integrating the adopted targets with Commitment to Zero will be a part of the planning process. By adopting its own safety performance targets, the TPO is required to update targets annually. The TPO updated its annual safety targets on February 22, 2022. Figure 2 displays the safety performance targets in 2022 and 2021 from FDOT and the TPO.

The Ocala Marion TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which are addressed in the Commitment to Zero planning project. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST).

| Safety Performance Measures | FDOT Targets (2022) | TPO Targets (not to exceed) (2022) | TPO Targets (not to exceed) (2021) | TPO Target Results (2021) |
|---|------------------------|--|--|---------------------------------|
| Number of Fatalities | 0 | 98 | 97 | 91 |
| Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT) | 0 | 2.08 | 1.96 | 1.98 |
| Number of Serious Injuries | 0 | 378 | 432 | 263 |
| Rate of Serious Injuries per 100 Million VMT | 0 | 8.01 | 8.74 | 5.71 |
| Number of Non-motorized Fatalities and Non-motorized Serious Injuries | 0 | 57 | 61 | 50 |

Figure 2: Safety Performance Measure Targets and Results

Pavement and Bridge Condition

In January 2017, the FHWA published the Pavement and Bridge Condition Performance Measures Final Rule (PM2). The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in **Appendix C**.

The pavement condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics: International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

FDOT established its statewide targets for bridge and pavement condition on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets on in 2018. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years, and are displayed in Figure 3.

The bridge condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor

condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

| Pavement and Bridge Condition Performance Measures | FDOT/TPO Target (2-Year) | FDOT/TPO Target (4-Year) | TPO Target Results (2021) | | | | |
|---|-----------------------------|-----------------------------|------------------------------|--|--|--|--|
| Pavement Measures | | | | | | | |
| Percent of Interstate pavements in good condition | Not Required | ≥ 60% | 66.4% | | | | |
| Percent of Interstate pavements in poor condition | Not Required | ≤ 5% | 0% | | | | |
| Percent of non-Interstate NHS pavements in good condition | ≥ 40% | ≥ 40% | 37.8% | | | | |
| Percent of non-Interstate NHS pavements in poor condition | ≤ 5% | ≤ 5% | 0% | | | | |
| Bridge Deck | Area Measures | | | | | | |
| Percent of NHS bridges by deck area in good condition | ≥ 50% | ≥ 50% | 59.1% | | | | |
| Percent of NHS bridges by deck area in poor condition | ≤ 10% | ≤ 10% | 0% | | | | |

Figure 3: Performance Measure Targets and Results – Pavement and Bridge Condition

System Performance

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule (PM3). The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS.

LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday, and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person- miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non- single occupancy vehicle (SOV) travel, and total on- road mobile source emissions reductions. The Ocala Marion TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established its statewide targets for system performance on May 18, 2018. The Ocala Marion TPO and all MPO/TPO's in Florida agreed to support the FDOT statewide targets in October 2018. Figure 4 displays the most current System Performance measure targets and results.

| System Performance Measures | FDOT/TPO Target (2-Year) | FDOT/TPO Target (4-Year) | TPO Target Results (2021) |
|--|--------------------------------|--------------------------------|---------------------------------|
| Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR) | ≥ 75% | ≥ 70 % | 100% |
| Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR) | Not Required | ≥ 50 % | 95.9% |
| Truck Travel Time Reliability (TTTR) | 1.75 | 2.00 | 1.74 |

Figure 4: Performance Measure Targets and Results - System Performance

Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish "state of good repair" standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

On July 1, 2019, SunTran, the public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, moved from the oversight by the TPO to the City of Ocala. The SunTran system includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In July 2019, the City of Ocala set the transit asset targets in Figure 5, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets. SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC).

Figure 5 displays the percentage of SunTran's assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2019 and their performance targets for the next four years. FTA defines ULBs as "... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA." The performance targets assume the assets are replaced as they reach their ULB.

| Asset Class | 2019 Performance | 2020 Target | 2021 Target | 2022 Target | 2023 Target | |
|-------------------------|---------------------|----------------|----------------|----------------|----------------|--|
| | Rolling S | tock | | | | |
| Buses | 69% | 0% | 0% | 0% | 0% | |
| Cutaways | 0% | 0% | 0% | 0% | 100% | |
| Equipment | | | | | | |
| Non-Revenue Vehicles | 80% | 0% | 0% | 0% | 20% | |
| Facilities | | | | | | |
| Maintenance Facility | 0% | 0% | 0% | 0% | 0% | |

Figure 5: Performance Measure Targets and Results - Transit Asset Management

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. MPO/TPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

On December 1, 2020, SunTran submitted their PTASP and corresponding safety targets to the TPO, as adopted by City of Ocala City Council on November 30, 2020. On April 27, 2021, the TPO Board adopted the SunTran PTASP safety targets. Figure 6 displays the adopted SunTran PTASP targets.

| SunTran Safety Performance Targets Performance Targets based on collected data from the previous three years | | | | | | | |
|---|---------------------|---|-------------------|---|---------------------------|---|--------------------|
| Mode of Transit Service | Fatalities Total | Fatalities (per 100k vehicle revenue miles) VRM) | Injuries Total | Injuries (per 100k vehicle revenue miles VRM) | Safety Events Total | Safety Events (per 100k vehicle revenue miles VRM) | (VRM/ failures) |
| Fixed Route Bus | 0 | 0 | 1 | .20 | 5 | 1.03 | 7,492 |
| ADA Paratransit | 0 | 0 | 0 | 0 | 0 | 0 | 0 |

Figure 6: Performance Measure Targets and Results - Transit Safety Targets

3. FINANCIAL PLAN

The TIP shall include a financial element that demonstrates how the approved projects can be implemented, indicates the sources of funding that are reasonably expected to be made available, and recommends any additional financing strategies for needed projects and programs (23 CFR 350.326).

The FY 2023 to 2027 is financially constrained for each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program. The TIP has been developed in cooperation with Marion County, the Cities of Belleview, Dunnellon, and Ocala, FDOT, SunTran and Marion Transit. A summary of funding categories, distribution of funding by category and funding sources are summarized in Figures 7 to 9.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and all regional transportation projects requiring federal action. Projects in the TIP are also derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program (339.135, Florida Statute, F.S.). Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

| Acronym | Funding Category | Funding Source |
|---------|---|-------------------|
| ACFP | Advanced Construction Freight Program | Federal |
| ACNP | Advanced Construction NHPP | Federal |
| ACNR | Advanced Construction National Highway Resurfacing | Federal |
| ACSS | Advanced Construction (SS) | Federal |
| ART | Arterial Highways Program | State |
| BRRP | Bridge Repair/Rehabilitation | State |
| CIGP | County Incentive Grant Program | State |
| D | Unrestricted State Primary | State |
| DDR | District Dedicated Revenue | State |
| DIH | District In-House | State |
| DPTO | Public Transportation Office, State | State |

4. PROJECT PRIORITIZATION PROCESS

Overview

The project prioritization process of the TPO is undertaken during the development of the LRTP and annual List of Priority Projects (LOPP). During the development of the LRTP, once the identified projects have been determined as "needs", TPO committees, TPO staff and the TPO Board prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The result is the 'Cost Feasible Plan' of the LRTP, which then becomes a prioritized project list. This list becomes part of the TPO's annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, committee input and TPO Board approval. The LOPP is submitted to FDOT annually for projects to be considered in the next Tentative Work Program for funding. FDOT will decide which projects from the LOPP can be reasonably funded with the cost/funding projections. The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding. For further information about the LOPP process, please access the TPO website at: https://ocalamariontpo.org/priority-project-list.

Methodology

In 2022, the TPO modified its annual LOPP prioritization process. The revised process continues to place an emphasis on prioritizing projects based on criteria score. This includes an emphasis on projects closest to receiving construction funding; meet federal performance measures; are multimodal; improve safety and resilience; programmed funding; and/or include local funding and partnerships. A strategic refinement methodology is also applied to include necessary adjustments to address partner feedback. Overall, this approach involves collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop an annual LOPP. The end-results of the process are a set of nine project lists, including an overall Highest Priority Project List.

The TPO's project prioritization process is consistent with state statute (F.S. 339.1758b), federal law (23 C.F.R 450.332b), the 2045 LRTP, and with local aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO planning area, to the maximum extent feasible [339.175(8)(c)(7), F.S.].

Project Ranking

The priority projects ranking criteria is tied directly to the adopted 2045 LRTP Goals and Objectives, federally required performance measures and local priorities. The goals from the

2045 LRTP that are used in this prioritization and selection process include:

- Optimization and Preserve Existing Infrastructure
- Focus on Improving Safety and Security of the Transportation System
- Provide Efficient Transportation that Promotes Economic Development
- Promote Travel Choices that are Multimodal and Accessible
- Protect Natural Resources and Create Quality Places
- Ensure the Transportation System Meets the Needs of the Community.

The ranking criteria are grouped into the following ten categories and are summarized as follows:

- 1. **Prior Year Rank**: An emphasis on prior project ranking to help support program stability and advancement toward implementation.
- 2. **Project Cycle:** The status of projects in their development phase with an emphasis on the most weight given to projects that are ready for construction.
- 3. Local Funding Commitment: Projects receive points for including a local match commitment.
- 4. **Regional Connectivity and Partnerships**: Projects that involve a formal partnership between two or more jurisdictions and coordination between two or more jurisdictions.
- 5. **Safety**: Points given for being located on a roadway segment with a five-year history of serious injury and fatality crashes. Additional points for projects located on the Commitment to Zero High Injury Network.
- 6. **Congestion Management**: Points given for being located on the most up to date Congestion Management Plan Congested Corridors.
- 7. **Multimodal**: A sidewalk, trail and/or bicycle facility are given points and also receive additional points for connecting to existing multimodal facilities in Marion County.
- 8. **Transportation Resilience**: Points given for being located on an existing Florida Evacuation Route or connection to an Evacuation Route.
- 9. **Economic Development and Logistics**: Points given for connecting to or serving employment growth areas of Marion County, along with connecting to or being located on a facility that supports freight activity centers.
- 10. **Equity**: Projects that are located in one of three disadvantaged areas of Marion County as identified and mapped in the 2045 LRTP.

A complete summary of the LOPP ranking and scoring methodology and most up to date project lists are available on the TPO website.

The **2022 List of Priority Projects (LOPP), Top Priorities** is provided in Figure 10 on the next page. The remaining six lists may be found on the TPO's website: https://ocalamariontpo.org/priority-project-list/.

| Rank | FDOT Project Number | Project List | Project Name/Limits | Description | FY 23 to 27 TIP Programmed Phase(s) | FY 23 to 27 TIP Programmed Funding | Proposed Phase(s) | Funding Requested |
|------|------------------------|----------------|---|--|--|---------------------------------------|---------------------|-------------------|
| 1 | 435209-1 | Top Priorities | I-75 at NW 49th Street Interchange | Construction of a new interchange and roadway extension of NW 49th from NW 44th to NW 35th | CST | \$42,379,864 | | |
| 2 | 433652-1 | Top Priorities | SR 40 Intersections at SW 40th Avenue and SW 27th Avenue | Traffic operations, turn lanes at I-75 interchange and SW 40th and SW 27th intersections | ROW | \$1,399,654 | CST | \$5,500,000 |
| 3 | | Top Priorities | NW 44th Avenue, SR 40 to NW 11th St | Construction of four new roadway lanes | | | CST | \$14,000,000 |
| 4 | | Top Priorities | NW 80th/70th from N/O SR 40 to S/O US 27 | Widening to four lanes | | | CST | \$30,000,000 |
| 5 | | Top Priorities | SW 44th Avenue from SR 200 to SW 20th | Four-Lane roadway construction | *CST | \$9,000,000 | | |
| 6 | | Top Priorities | SW 44th Avenue from SW 20th to SR 40 | Addition of two lanes to complete four lane roadway | | | CST | \$5,000,000 |
| 7 | | Top Priorities | CR 484 Penn Avenue Multimodal | Roadway reconstruction, shared use path connection from downtown Dunnellon to Blue Run Park | *CST | \$2,537,000 | | |
| 8 | | Top Priorities | US 27/I-75 Interchange Operations, NW 44th to NW 35th | Safety and operational improvements at interchange area | | | PE, CST | \$29,341,000 |
| 9 | 450340-1 | Top Priorities | Emerald Road Extension | 92nd Loop to FN Railroad Connection | ROW, CST | \$9,650,000 | CST | \$4,700,000 |
| 10 | 237988-1 | Top Priorities | SR 40 at SR 35 intersection | Construction of a roundabout at the intersection | | | PE, ROW, CST | \$6,000,000 |
| 11 | | Top Priorities | SW 49th from Marion Oaks Trail to SW 95th | Construction of a four lane divided roadway | | | CST | \$18,000,000 |
| 12 | 238651-1 | Top Priorities | SR 200 from Citrus County to CR 484 | Widening to four lanes and pedestrian/wildlife underpass connecting greenway | | | CST | \$37,800,000 |
| 13 | 433660-1 | Top Priorities | US 441 (Pine Avenue) at SR 464 (SE 17th) | Intersection/Turn lane improvements | PE, CST | \$3,277,299 | | |
| 14 | 238648-1 | Top Priorities | US 41 from SW 110th to North of SR 40 | Widening to four lanes, sidewalks/path, shoulders | | | CST | \$38,100,000 |
| 15 | 410674-2 | Top Priorities | SR 40 from End of four lanes to CR 314 | Reconstruction, widening to four lanes, new bridges, medians | | | CST | \$110,100,000 |
| 16 | | Top Priorities | CR 484 from SW 49th Ave to CR 475A | Widening to six lanes, bridge replacement at I-75 | | | PD&E, DES, ROW, CST | \$55,000,000 |
| 17 | 449443-1 | Top Priorities | NE 8th Avenue from SR 40 to SR 492 | Construction of roundabouts on NE 8th Avenue | CST | \$4,452,800 | | |
| 18 | | Top Priorities | CR 484 from Marion Oaks Pass to SR 200 | Widening to six lanes | | | DES, ROW, CST | \$35,000,000 |
| 19 | | Top Priorities | I-75 at SR 326 Interchange | Interchange operational improvements | | | PE, DES, ROW, CST | TBD |
| 20 | | Top Priorities | SW 80th Avenue from north of 38th Street to SR 40 | Widening of roadway to four lanes | | | PE, DES, ROW, CST | \$25,000,000 |
| 21 | | Top Priorities | SR 35 and SR 464 Intersection Flyover | Flyover of SR 35 at SR 464 | | | PE, DES, CST | \$35,000,000 |

Figure 10: 2022 List of Priority Projects (LOPP), Top Priorities

5. PROJECTS

Overview

The FY 2023 to 2027 TIP projects are grouped into seven categories. All projects are also summarized in individual project pages by category to support a more accessible and user-friendly format for the citizens of Marion County.

Seven TIP Project Categories:

- Interstate: I-75
- U.S. Routes: US 27, US 41, US 301, US 441
- State and Local Routes: City and County Roads, State Roads (e.g., SR 200)
- **Bicycle and Pedestrian:** Park Trails, Sidewalks and Trails on City, County and State Roads
- Aviation (Airport): Ocala International Airport, Marion County Airport
- Transit, Funding and Grants: Marion Transit, SunTran, TPO, Others
- **ITS and Maintenance:** Operations, Aesthetics, Asset Management (repaving, rehabilitation, shoulders, bridges, lighting), ongoing Maintenance

Appendix H contains a summary of changes to major regional transportation projects from the previous Fiscal Years 2022 to 2026 TIP. **Appendix J** contains a companion "snapshot" listing of the TIP projects as submitted to the TPO by FDOT in April 2022.

Appendix K contains a summary report and listing of transportation projects included with the annual Roll Forward TIP Amendment process (Amendment #1). The project funding amounts are part of the year one (Fiscal Year 2023) summary totals as displayed in **Figures 8** and **9**.

Figure 11 provides a summary chart of the acronyms used for various project phases/activities and the terms associated with the projects displayed in the TIP summary pages. This chart may be used as a reference when reviewing the project summary pages in this section.

| Acronym | Project Phase and Information |
|---------|--|
| ADM | Administration |
| CST | Construction (includes Construction, Engineering and Inspection) |
| САР | Capital Grant |
| CEI | Construction, Engineering and Inspection |
| DES | Design |
| ENG | Engineering |
| ENV CON | Environmental/Conservation |
| FM | FDOT Financial Management Number |
| INC | Construction Incentive/Bonus |
| MNT | Maintenance |
| MSC | Miscellaneous Construction |
| OPS | Operations |
| PD&E | Project Development and Environment Study |
| PE | Preliminary Engineering |
| PLEMO | Planning and Environmental Offices Study |
| PLN | In House Planning |
| PST DES | Post Design |
| R/R CST | Railroad Construction |
| RELOC | Relocation |
| ROW | Right-of-Way Support & Acquisition |
| RRU | Railroad and Utilities |
| RT MNT | Routine Maintenance |
| SEG | Project Segment Number |
| UTIL | Utilities Construction |

Figure 11: Project Phase/Activity and Information Acronym List

TIP Online Interactive Map

The FY 2023 to 2027 TIP online map provides specific project locations and general information including funding and total project cost. Projects without a specific location (e.g. TPO grants, Marion Transit, SunTran grants) are not included in the interactive map. The map may be accessed through the TPO website or directly at the following link:

https://marioncountyfl.maps.arcgis.com/apps/webappviewer/index.html?i d=81b909295c9447d7adf4b38bc232adcf

Performance Management and TIP Projects

The following provides a summary of the projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: safety; bridge and pavement condition; system performance; and transit asset management and safety. Safety projects include the entire federal aid transportation system. In some cases, a project may support meeting more than one federal performance measure.

| FM Number | Project | Limits | TIP Funding |
|--------------|--------------------------------|--|--------------|
| 4348441 | CR 482 at 182nd Avenue (1) | at 182nd Avenue | \$350,000 |
| 4348442 | CR 482 at 182nd Avenue (2) | at 182nd Avenue | \$67,980 |
| 4493171 | CR 484 at SW 135th Street | at SW 135th Street | \$458,310 |
| 4492771 | CR 484 at Marion Oaks Blvd | at Marion Oaks Boulevard | \$536,625 |
| 4494431 | NE 8th Avenue | SR 40 to SR 492 | \$4,452,800 |
| 4492611 | SW 60th Avenue | SW 54th Street to SECO Energy Driveway | \$247,061 |
| 4336601 | U.S. 441 | at SR 464 (SE 17th Street) | \$3,277,299 |
| 4336511 | CR 484 (at I-75) | Southwest 20th Avenue to CR 475A | \$47,520 |
| 4375962 | SR 40/Silver Springs Boulevard | NW 27th Avenue to SW 7th Avenue | \$909,279 |
| 4392382 | SR 25/U.S. 441/301 | SR 25 to SR 200/SW 10th Street | \$2,975,178 |
| | | Total: | \$13,322,052 |

Safety (PM1) (10 projects)

Pavement and Bridge Condition (PM2) (7 projects)

| FM Number | Project | Limits | TIP Funding |
|--------------|-------------------|---|--------------|
| 4483761 | SR 93 (I-75) | SR 200 to N. of U.S. 27 | \$17,416,866 |
| 4486351 | SR 25 (U.S. 441) | CR 25A to Avenue I | \$7,571,976 |
| 4452181 | SR 25 (U.S. 441) | Avenue I to Alachua County Line | \$7,095,081 |
| 4485261 | SR 45 (U.S. 41) | N/O Citrus County Line to SW 110th | \$4,937,992 |
| 4452121 | SR 200 (U.S. 301) | South of NE 175th to Alachua County | \$4,729,689 |
| 4453021 | SR 35/U.S. 301 | North of CR 42 to North of SE 144th Place | \$3,054,497 |
| 4452171 | SR 326 | NW 12th Avenue to SR 40 | \$11,875,930 |
| | • | Total: | \$56,682,031 |

System Performance (PM3) (7 projects)

| FM Number | Project | Limits | TIP Funding |
|--------------|--------------------------------|--|--------------|
| 4352091 | I-75 (SR 93) at NW 49th Street | NW 49th Street to end of NW 35th Street | \$42,379,864 |
| 4336601 | U.S. 441 | at SR 464 (SE 17th Street) | \$3,277,299 |
| 4336611 | U.S. 441 | SR 40 to SR 40A (SW Broadway) | \$17,767 |
| 4336511 | CR 484 (at I-75) | Southwest 20th Avenue to CR 475A | \$47,520 |
| 4336521 | SR 40 Intersections | at SW 40th Avenue, at SW 27th Avenue | \$1,398,654 |
| 4456881 | U.S. 27/U.S. 441/Abshiver | at County Road 42 | \$1,099,429 |
| 4497641 | I-75 ITS Communications | I-75 Corridor, 24 miles in Marion County | \$954,356 |
| | | Total: | \$49,174,889 |

Transit Asset Management (TAM) and Transit Safety

| FM Number | Grant | TIP Funding |
|-----------|----------------------------------|--------------|
| 4271882 | Small Urban Capital Fixed Route | \$16,075,958 |
| 4424551 | Block Grant Operating Assistance | \$7,790,583 |
| | Total: | \$23,866,541 |

TIP Project Summary Pages

Summary pages are provided in the following pages for all programmed projects and are organized by the seven project categories.

Summary Page Definitions

Project: Includes the project name, project limits and location.

Project Type: Identifies the type of project improvement(s).

FM Number: References the financial management number in FDOT's project tracking system.

Lead Agency: Identifies the agency with project management oversight.

LRTP (Page #): References how the project reflects the 2045 LRTP goals and planning consistency.

SIS: Denotes if a project is on the state's Strategic Intermodal System (SIS) network.

Description: Summarizes the project and highlights major improvements to be implemented.

Prior <Year: Identifies the amount of funding programmed in years prior to the current five-year TIP period.

Future >Year: Identifies the amount of funding programmed in years beyond the current fiveyear TIP period.

Total Project Cost: Lists the total project cost programmed for the project, including prior year, current five-year and future year funding.

Phase: Identifies the stage in project development for which funding is programmed.

Fund Category: Identifies the type of funding programmed by phase for the project.

Funding Source: Identifies the source of funding by phase for the project (Federal, State and/or Local).

Fiscal Year: Identifies the federal fiscal year(s) when funding is programmed for the project.

Interstate 75 (I-75) Projects

1 (1)

Project: I-75 (SR 93) at NW 49th Street from end of NW 49th Street to end of NW 35th Street

| Project Type: | Interchange |
|----------------|--|
| FM Number: | 4352091 |
| Lead Agency: | FDOT |
| Length: | 0.1 miles |
| LRTP (Page #): | Goal 1, Objective 1.2 (14); Goal 2, Objective 2.1, 2.2, 2.3 (14); Goal 3, Objective 3.2 (14) |
| SIS Project | |

Description:

Construction of a new I-75 interchange at NW 49th Street to facilitate projected increases in freight traffic and regional economic development. This project also includes extending NW 49th Street from NW 44th Avenue to NW 35th Avenue.

| Prior <2023: | Future >2027: | Total Project Cost: |
|--------------|---------------|---------------------|
| \$18,087,376 | \$0 | \$60,467,240 |

| Phase | Fund Category | Funding Source | 2023 | 2024 | 2025 | 2026 | 2027 | Total |
|--------|------------------|-------------------|------|------|--------------|------|------|--------------|
| CST | CIGP | State | \$0 | \$0 | \$7,995,735 | \$0 | \$0 | \$7,995,735 |
| CST | DDR | State | \$0 | \$0 | \$5,046,899 | \$0 | \$0 | \$5,046,899 |
| CST | LF | Local | \$0 | \$0 | \$7,995,735 | \$0 | \$0 | \$7,995,735 |
| CST | SA | Federal | \$0 | \$0 | \$630 | \$0 | \$0 | \$630 |
| CST | SL | Federal | \$0 | \$0 | \$9,213,782 | \$0 | \$0 | \$9,213,782 |
| CST | SN | Federal | \$0 | \$0 | \$3,005,068 | \$0 | \$0 | \$3,005,068 |

Transportation Improvement Program Fiscal Years 2021/2022 to 2025/2026 Federal Obligations Report October 1, 2020 to September 30, 2021

Annual Listing of Federally Obligated Projects

Summary

On an annual basis, per Title 23, United States Code (USC) 450.334, the Ocala Marion Transportation Planning Organization (TPO) is required to provide a summary listing of projects for which federal funds have been *obligated in the preceding federal fiscal year (FFY) from October 1 to September 30. The Florida Department of Transportation (FDOT) assists the TPO in complying with this federal requirement by providing a detailed report of federal project obligations for Marion County. The report is included each year as an amendment to the current Transportation Improvement Program (TIP).

A net total of \$26,342,420 of federal funds were obligated in FFY 2021 on 30 transportation projects and programs in Marion County. The following summary report and detailed obligation document provide a listing of the federally obligated projects by phases and funding sources.

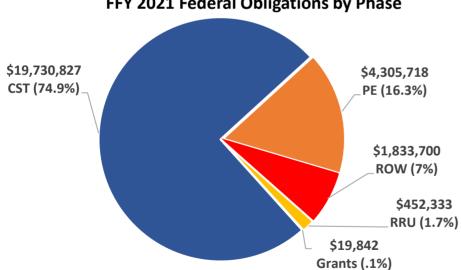

*Obligation is the legal commitment by the Federal government to pay or reimburse a State or other entity for the Federal share of a project's eligible cost. Obligated projects have been authorized by the federal government and funds have been approved for reimbursement. Funding for projects can in some cases also be de-obligated. Funding previously obligated is removed from a project due to changes such as cost, delay or cancellation.

Annual Listing of Federally Obligated Projects - Marion County Federal Fiscal Year (FFY) 2021 October 1, 2020 - September 30, 2021

APPENDIX D: Transportation Performance Management Fact Sheets

MPO Requirements

Florida Department of Transportation Office of Policy Planning

Transportation Performance Management

April 2022

OVERVIEW

This document highlights key provisions of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) performance management requirements for state Departments of Transportation, Metropolitan Planning Organizations, and transit providers, including target setting, performance reporting, and deadlines.

PLANNING RULE FRAMEWORK

FHWA and FTA jointly issued a Planning Rule in 2016 to document changes in the statewide and metropolitan planning processes consistent with the Moving Ahead for Progress in the 21st Century (MAP-21) Act and the Fixing America's Surface Transporta-

tion (FAST) Act. Among other changes, this rule specifies the requirements for state DOTs and MPOs to implement a performance-based approach to planning and programming. Under this framework, the three FHWA performance measures (PM) rules and the FTA transit asset management and transit safety rules established various performance measures to assess roadway safety (PM1), pavement and bridge condition (PM2), system performance and freight movement (PM3), transit asset management (TAM), and transit safety. The Planning Rule and the performance measures rules also specify how MPOs should set targets, report performance, and integrate performance management into their Long-Range Transportation Plans (LRTP) and Transportation Improvement Programs (TIP). FHWA and FTA are expected to issue an updated planning rule in 2022 to incorporate changes introduced in the Bipartisan Infrastructure Law passed in November 2021.

Long-Range Transportation Plans

The Planning Rule specifies how performance management is incorporated into the MPO's LRTP. The LRTP must:

- » Describe the federal performance measures and performance targets used in assessing the performance of the transportation system.
- » Include a System Performance Report that:
 - Evaluates the condition and performance of the transportation system with respect to performance targets.
 - Documents the progress achieved by the MPO in meeting the targets in comparison to performance recorded in past reports.
- » Integrate the goals, objectives, performance measures, and targets described in all the plans and processes required as part of a performance-based program.

Transportation Improvement Programs

The TIP must:

- Reflect the investment priorities established in the current long-range transportation plan.
- Be designed such that once implemented, it makes progress toward achieving the performance targets established.
- » Include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the LRTP, linking investment priorities to those performance targets.

Metropolitan Planning Organization Advisory Council (MPOAC) have developed model language for inclusion of performance measures and targets in the LRTPs and TIPs

FDOT and the

TIMELINE FOR MPO ACTIONS

TARGET SETTING OPTIONS

The Florida Department of Transportation (FDOT), the MPOs, and providers of public transportation set their respective performance targets in coordination with one another. Each MPO establishes a target for each applicable performance measure. For the **PM1**, **PM2**, and **PM3** measures, each MPO establishes targets by one of two options:

OR

Support the statewide target established by FDOT.

If the MPO chooses to support the statewide target, the MPO provides documentation to FDOT stating that the MPO agrees to plan and program projects so that they contribute toward the accomplishment of FDOT's statewide target for that performance measure.

Establish own target.

If the MPO chooses to establish its own target, the MPO coordinates with FDOT regarding the approach used to develop the target and the proposed target prior to establishing a final target. The MPO provides documentation to FDOT that includes the final target and the date the MPO established the target.

MPOs must establish their targets no later than 180 days after FDOT sets its target.

For the **transit asset management and safety measures,** MPOs may support the targets established by transit providers or establish their own targets. Initial action by the MPO must take place within 180 days of the transit provider action to establish targets. Subsequent MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current provider targets in the updated TIP.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

PM1: Safety

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The first of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on April 14, 2016, establishing measures to assess the condition of road safety. This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

PERFORMANCE MEASURES - APPLICABLE TO ALL PUBLIC ROADS

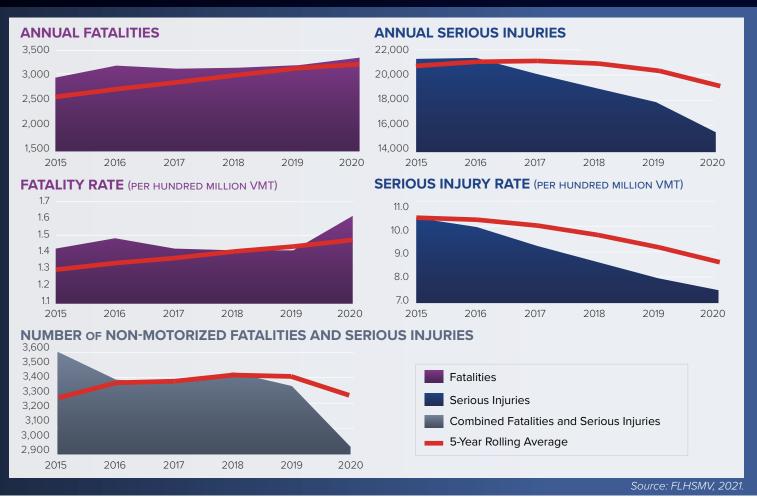

| | | The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year. | COORDINATION WITH OTHER PLANS |
|---|--|--|--|
| | | | Updates to FDOT's Florida |
| | RATE OF FATALITIES | The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year. | Transportation Plan (FTP) and MPO's Long-Range Transporta- tion Plans (LRTP) must include |
| | | | most recently reported safety |
| | NUMBER OF SERIOUS INJURIES | The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year. | performance data and targets. Updates to the Statewide Transportation Improvement |
| | | | Program (STIP) and Transpor- |
| | RATE OF SERIOUS INJURIES | The total number of serious injuries per 100 million VMT in a calendar year. | tation Improvement Programs (TIP) must include a description of how the STIP/TIP contributes |
| E | NUMBER OF NON-MOTORIZED ATALITIES AND NON-MOTORIZED SERIOUS INJURIES | The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year. | to achieving safety performance targets in the FTP/LRTP. |

TIMELINE

* Please refer to the fact sheet addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

STATEWIDE TARGETS

- » FDOT annually establishes statewide safety targets for the following calendar year as part of the HSIP Annual Report, which must be submitted by August 31 each year.
- » Targets are applicable to all public roads regardless of functional classification or ownership.

Given FDOT's firm belief that every life counts, **the target set for all safety performance measures is ZERO**.

MPO TARGETS

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs must annually update their targets by February 27 of each year.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four out of the five safety performance targets are met or the actual outcome for the safety performance target is better than baseline performance.

Based on FHWA's review, Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users. As requested by FHWA, FDOT has developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of these targets.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of adopted and amended LRTPs, and approval of MPO TIPs.

Erika Thompson, Statewide Metropolitan Planning Coordinator Florida Department of Transportation erika.thompson@dot.state.fl.us | (850) 414-4807

PM2: Bridge and Pavement

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The second of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess the condition of the pavements and bridges on the National Highway System (NHS). This fact sheet summarizes the requirements of this rule, the targets Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in *GOOD* condition.
- » Percentage of pavements on the Interstate System in POOR condition.
- » Percentage of pavements on the non-Interstate NHS in GOOD condition.
- » Percentage of pavements on the non-Interstate NHS in POOR condition.

BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) classified as in GOOD condition.
- » Percentage of NHS bridges (by deck area) classified as in POOR condition.

GOOD CONDITION

Suggests no major investment is needed.

POOR CONDITION

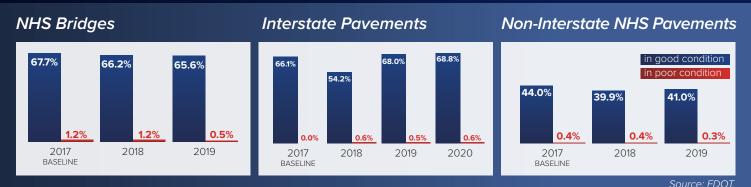

Suggests major investment is needed.

TIMELINE

* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

STATEWIDE TARGETS

FDOT established 2- and 4-year targets on May 18, 2018 for the full extent of the NHS in Florida. Two-year targets reflect the anticipated performance level at the mid point of each performance period, while 4-year targets reflect it for the end of the performance period.

| Performance Measure | 2-Year Target | 4-Year Target |
|---|------------------|------------------|
| Pavement | | |
| % of Interstate pavements in <i>GOOD</i> condition | Not required | ≥ 60% |
| % of Interstate pavements in <i>POOR</i> condition | Not required | ≤ 5% |
| % of non-Interstate NHS pavements in <i>GOOD</i> condition | ≥ 40% | ≥ 40% |
| % of non-Interstate NHS pavements in <i>POOR</i> condition | ≤ 5% | ≤ 5% |
| Bridge | | |
| % of NHS bridges (by deck area) classified in <i>GOOD</i> condition | ≥ 50% | ≥ 50% |
| % of NHS bridges (by deck area) classified in <i>POOR</i> condition | ≤ 10% | ≤ 10% |

Note: Two-year targets were not required for Interstate pavement condition for the first performance period, but will be required for the second and subsequent performance periods.

MPO TARGETS

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs set pavement and bridge targets for the first performance period by November 14, 2018. FDOT will set the targets for the second 4-year performance period by October 1, 2022, after which the MPOs will have 180 days to set their targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

Beginning in 2020 and continuing every two years thereafter, FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year applicable statewide target if either:

- » The actual condition/performance level is better than the baseline condition/performance; or
- » The actual condition/performance level is equal to or better than the established target.

In January 2021, FHWA determined Florida had made significant progress toward the two-year bridge and pavement targets based on reported data for 2018 and 2019. FHWA will not directly assess MPO progress toward meeting their targets. Rather, it will do so through the periodic transportation planning reviews, including the Transportation Management Area (TMA) MPO certification reviews and reviews of adopted/amended LRTPs and TIPs.

MINIMUM CONDITIONS

Every year, FHWA will assess if FDOT is meeting the statewide minimum condition requirements. If it is not, FDOT must obligate funds to meet minimum requirements.

FDOT IS ON TRACK TO MEET MINIMUM CONDITION REQUIREMENTS

- » Pavement: No more than 5 percent of the Interstate System in *Poor* condition for most recent year.
- » Bridge: No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (*Poor* condition) for three consecutive years.

FOR MORE INFORMATION PLEASE CONTACT

Erika Thompson, Statewide Metropolitan Planning Coordinator Florida Department of Transportation erika.thompson@dot.state.fl.us | (850) 414-4807

PM3: System Performance

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

April 2022

OVERVIEW

The third of the three performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess the performance of the National Highway System (NHS), freight movement on the Interstate System, and Congestion Mitigation and Air Quality Improvement Program (CMAQ). This fact sheet summarizes the requirements of this rule, the targets that the Florida Department of Transportation (FDOT) selected to meet them, and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

PERFORMANCE MEASURES

| Performance Measure | Typically Referred to As | What It Measures | |
|---|----------------------------|---|--|
| Percent of person-miles traveled on the Interstate that are reliable | Interstate reliability | Seeks to assess how reliable the NHS network is by creating a ratio (called Level of Travel Time Reliability, or | |
| Percent of person-miles traveled on the non- Interstate NHS that are reliable | Non-Interstate reliability | LOTTR) that compares the worst travel times on a road against the travel time that is typically experienced. Road miles with a LOTTR less than 1.5 are considered reliable. Traffic volume and an average vehicle occupancy are factored in to determine the person miles that are reliable, and this is converted to a percent of total miles. | |
| Truck travel time reliability (TTTR) index | Truck reliability | Seeks to assess how reliable the Interstate network is for trucks by creating a ratio (called Truck Travel Time Reliability, or TTTR) that compares the very worst travel times for trucks against the travel time they typically experience. | |

This rule also contains measures addressing CMAQ Program. These are applicable only for areas that are designated as nonattainment or maintenance, of which Florida currently has none. Therefore, they are currently not applicable to FDOT or any of Florida's MPOs.

TIMELINE

* Please refer to the fact sheet addressing MPO Requirements for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

| INTERSTATE RELIABILITY | 2017 | 82.2% |
|-------------------------------------|---|---|
| Percent of the person-miles | 2018 | 83.5% |
| traveled on the Interstate | 2019 | 83.4% |
| that are reliable | 2020 | 92.3% |
| NON-INTERSTATE NHS RELIABILITY | 2017 | 84.0% |
| Percent of the person-miles | 2018 | 86.3% |
| traveled on the non-Interstate | 2019 | 87.0 % |
| NHS that are reliable | 2020 | 93.5% |
| TRUCK RELIABILITY | 2017 | 1.43 |
| Truck travel time reliability index | 2018 | 1.42 |
| (Interstate) | 2019 | 1.45 |
| | 2020 | 1.34 |
| | Note: A higher Interstate and non-Interstate NHS reliability However, a higher TTTR index means lower reliability. | v percentage means greater reliability. |

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS)

STATEWIDE TARGETS

FDOT established the following 2- and 4-year targets on May 18, 2018. Two-year targets reflect the anticipated performance level at the end of calendar year 2019, while 4-year targets reflect anticipated performance at the end of 2021.

| Performance | 2-Year | 4-Year |
|--------------------------------|-----------------|--------|
| Measure | Target | Target |
| Interstate reliability | ≥ 75% | ≥ 70% |
| Non-Interstate NHS reliability | Not required | ≥ 50% |
| Truck reliability | ≤ 1.75 | ≤ 2.00 |

Note: Two-year targets were not required for non-Interstate reliability for the first performance period, but will be required for the second and subsequent performance periods.

MPO TARGETS

MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area. MPOs must set their targets within 180 days after FDOT sets the statewide targets. MPOs set system performance targets for the first performance period by November 14, 2018. FDOT will set its targets for the second 4-year performance period by October 1, 2022, after which the MPOs will have 180 days to set their targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

Beginning in 2020 and continuing every two years thereafter, FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year applicable statewide target if either:

- » The actual condition/performance level is better than the baseline condition/performance; or
- » The actual condition/performance level is equal to or better than the established target.

In January 2021, FHWA determined Florida had made significant progress toward the two-year targets for Interstate and truck reliability based on reported data. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and Federal Transit Administration (FTA) will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of updated and amended Long-Range Transportation Plans (LRTP), and approval of MPO Transportation Improvement Programs (TIP).

Erika Thompson, Statewide Metropolitan Planning Coordinator Florida Department of Transportation erika.thompson@dot.state.fl.us | (850) 414-4807

TRANSIT Asset Management

April 2022

Florida Department of Transportation Office of Policy Planning

MAP-21 Performance Management

OVERVIEW

The Transit Asset Management rule from the Federal Transit Administration (FTA) became effective on October 1, 2016. This rule applies to all recipients and subrecipients of federal transit funding that own, operate, or manage public transportation capital assets. The rule introduces requirements for new State of Good Repair (SGR) performance measures and Transit Asset Management (TAM) Plans. This fact sheet describes these requirements and the role of the Metropolitan Planning Organizations (MPO) under this rule.

STATE OF GOOD REPAIR PERFORMANCE MEASURES

Transit agencies are required to report transit asset performance measures and targets annually to the National Transit Database (NTD). Targets should be supported by the most recent condition data and reasonable financial projections.

| FTA Asset Categories | Type of Measure | Performance Measures |
|---|--------------------|---|
| EQUIPMENT Non-revenue support-service and maintenance vehicles | Age | Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their useful life benchmark (ULB) |
| ROLLING STOCK Revenue vehicles | Age | Percentage of revenue vehicles within a particular asset class that have either met or exceeded their ULB |
| INFRASTRUCTURE Rail fixed-guideway track | Performance | Percentage of track segments (by mode) with performance restrictions |
| FACILITIES Buildings and structures | Condition | Percentage of facilities within an asset class rated below condition 3 on the Transit Economic Requirement Model (TERM) scale |

Transit Asset Categories and Related Performance Measures

"State of good repair" is defined as the condition in which a capital asset is able to operate at a full level of performance. This means the asset:

- 1. Is able to perform its designed function.
- 2. Does not pose a known unacceptable safety risk.
- 3. Lifecycle investments have been met or recovered.

TIMELINE

Transit providers set targets annually in October, January, or April, depending on the provider's fiscal year.

TAM PLAN

By October 1, 2018 (two years from effective date of the Final Rule), Transit Asset Management Plans (TAM Plan) were required for all providers. These plans are either developed by the providers or by a group sponsor on behalf of multiple providers. These plan must be updated every four years. The Group TAM Plan must be updated by October 1, 2022, and individual TAM Plans by Tier I and Tier II providers must be updated by the start of the provider's fiscal year.

Tier I versus Tier II Agencies

The rule makes a distinction between Tier I and Tier II transit providers and establishes different requirements for them.

TIER II TIER I Owns, operates, or manages Owns, operates, or manages either: either: < = 100 vehicles in revenue > = 101 vehicles in revenue service during peak regular service during peak regular service across ALL non-rail fixed service across ALL fixed route route modes or in ANY one modes or ANY one non-fixed non-rail fixed route mode route mode OR OR Subrecipient under the 5311 program Rail transit OR Native American Tribe

TAM Plan Elements

Inventory of Capital Accet

| 1. Inventory of Capital Assets | ALL |
|----------------------------------|------------------|
| 2. Condition Assessment | ROVIDERS |
| 3. Decision Support Tools | (Tiers I and II) |
| 4. Investment Prioritization | |
| 5. TAM and SGR Policy | |
| 6. Implementation Strategy | TIER I ONLY |
| 7. List of Key Annual Activities | UNLI |
| 8. Identification of Resources | |
| 9. Evaluation Plan | |

A **TIER I** provider must develop its own TAM Plan. The Tier I provider must make the TAM plan, annual targets, and supporting materials available to the state DOTs and MPOs that provide funding to the provider.

TIER II agencies may develop their own plans or participate in a group TAM plan, which is compiled by a group TAM plan sponsor. State Departments of Transportation (DOT) that pass FTA funds to subrecipients are required to be group TAM plan sponsors. The unified targets and narrative report for group plan participants are submitted on behalf of all participating agencies by the sponsor. Group plan sponsors must make the group plan, targets, and supporting materials available to the state DOTs and MPOs that program projects for any participants of the group plan. The Florida Department of Transportation (FDOT) developed a group plan for all subrecipients in 2018. The plan included collective targets for subrecipients.

MPO COORDINATION

- » Each public transit provider or its sponsors must share its targets with each MPO in which the transit provider operates services.
- » MPOs are required to establish initial transit asset management targets within 180 days of the date that public transportation providers establish initial targets. However, MPOs are not required to establish transit asset management targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. MPOs will reflect current provider TAM targets in the updated TIP.
- » When establishing transit asset management targets, the MPO can either agree to program projects that will support the transit provider's targets, or establish its own separate regional targets for the MPO planning area. MPO targets may differ from provider targets, especially if there are multiple transit agencies in the MPO planning area.
- » MPOs are required to coordinate with transit providers and group plan sponsors when selecting targets to ensure alignment of targets.
- » FTA will not assess MPO progress toward achieving transit targets. However, the Federal Highway Administration (FHWA) and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews, including the Transportation Management Area (TMA) MPO certification reviews, reviews of updated LRTPs, and approval of MPO TIPs.

Florida Department of Transportation erika.thompson@dot.state.fl.us | (850) 414-4807

PUBLIC TRANSIT Safety Performance

MAP-21 Performance Management

April 2022

OVERVIEW

The Federal Transit Administration (FTA) has established requirements through 49 CFR 673 for Public Transportation Agency Safety Plans (PTASP) and related performance measures as authorized by the Moving Ahead for Progress in the 21st Century Act (MAP–21). This rule requires certain operators of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53 to develop and implement PTASP based on a Safety Management Systems (SMS) approach. Development and implementation of agency safety plans will help ensure that public transportation systems are safe nationwide. This fact sheet summarizes the requirements of this rule and the responsibilities of Florida's transit providers and Metropolitan Planning Organizations (MPOs) in implementing the rule.

PUBLIC TRANSPORTATION AGENCY SAFETY PLANS (PTASP)

Federal Rule Applicability

| RECIPIENTS AND SUB-RECIPIENTS OF FTA 5307 FUNDS | FTA is deferring applicability for operators that only receive 5310 and/or 5311 funds. |
|---|--|
| SMALL PUBLIC TRANSPORTATION PROVIDERS (5307S) | Agencies: a) without rail; and b) with fewer than 101 revenue vehicles in operation during peak service may complete their own plan or have their plan drafted or certified by their state DOT. |

PUBLIC TRANSPORTATION SAFETY PERFORMANCE MEASURES

FATALITIES

Total number of reportable fatalities and rate per total vehicle revenue miles by mode.

INJURIES

Total number of reportable injuries and rate per total vehicle revenue miles by mode.

SAFETY EVENTS

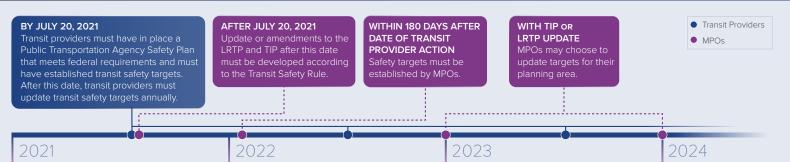

Total number of reportable events and rate per total vehicle revenue miles by mode.

SYSTEM RELIABILITY

Mean distance between major mechanical failures by mode.

TIMELINE

PTASP CERTIFICATION AND REVIEW

RELATIONSHIP OF PTASP TO FLORIDA REQUIREMENTS

Florida requires each Section 5307 and/or 5311 transit provider to have an adopted System Safety Program Plan (SSPP) (Chapter 14-90, Florida Administrative Code). The FTA PTASP rule and Florida's SSPP requirements are similar, but have some differences. Because Section 5307 providers in Florida must already have a SSPP, FDOT recommends that transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements.

FDOT has issued guidance to providers to assist them with revising existing SSPPs to be compliant with the FTA requirements.

While the PTASP rule requires transit providers to establish safety performance targets, the SSPP does not.

PTASP RELATIONSHIP TO OTHER FEDERALLY REQUIRED PLANS AND PRODUCTS

REQUIREMENTS

COORDINATION WITH METROPOLITAN, STATEWIDE, AND NON-METROPOLITAN PLANNING PROCESSES

- » Public transit providers will coordinate with FDOT and affected MPOs in the selection of transit safety performance targets.
- » Providers will give written notice to the MPO(s) and FDOT when the provider establishes transit safety targets. This notice will provide the established targets and the date of establishment.
- » MPOs that establish their own transit safety targets will coordinate with the public transit provider(s) and FDOT in the selection of transit safety performance targets. The MPOs will give written notice to the public transit providers and FDOT when the MPO establishes its own transit safety targets.
- » MPOs that agree to support a public transit provider's safety targets will provide FDOT and the public transit providers documentation that the MPO agrees to do so.

- » Public transit providers that annually draft and certify a PTASP must make the PTASP and underlying safety performance data available to FDOT and the MPOs to aid in the planning process.
- » Public transit providers will update the PTASP and establish transit safety targets annually. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. MPOs will reflect current provider PTASP targets in the updated TIP.
- » If two or more providers operate in an MPO planning area and establish different safety targets for a measure, the MPO may establish a single target for the MPO planning area or establish a set of targets for the MPO planning area that reflect the differing transit provider targets.

APPENDIX F: Public and Partner Comments

FY 2023 to 2027 Transportation Improvement Program (TIP)

Public Comments

Summary

The draft Fiscal Years 2023 to 2027 Transportation Improvement Program (TIP) was made available for public and partner agency review on May 3, 2022. The following public comments were received by the TPO.

- **Comment:** "Please expand I-75 and existing roads before destroying farms, nature, and the springs to build new ones. Once these resources are gone they can never be replaced."
 - **TPO Response**: Noted for public record. The citizen requested to not receive follow up from the TPO. The comment is part of public record and included in the TIP document for future planning considerations.
- **Comment:** "As a member of the TPO Board who works at Central Florida Community Action Agency and live in Alachua County, one of the things that I've noticed for some of the clients that we serve in Marion County, they have transportation needs to get back and forth to clinical sites that are often located in Belleview, Orlando, etc. I'm not sure if there is some sort of shuttle services that can assist students who are residents and need to travel outside of Marion County for clinicals, work, etc."
 - **TPO Response**: Noted for public record. The citizen was thanked for the comment and informed it will become part of public record, and included in the TIP document for future planning considerations.
- **Comment:** "The back and forth regarding opening Ocala Int'l Airport to commercial airlines needs to be resolved in two ways: The designation "International Airport" is misleading. That needs to be changed to something else to reflect the actual air traffic and constituent travel: Regional Airport? Regional Business Airpark? Dump the word "International". Second, a lot of frustration of air travelers having to drive to Orlando or Gainesville could be reduced by a highspeed railway system."
 - **TPO Response**: Noted for public record. The citizen was thanked for the comment and informed it will become part of public record, and included in the TIP document for future planning considerations.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

Editorial: Comments may be addressed by MPO, but would not affect approval of the document, i.e., grammatical, spelling and other related errors.

Enhancement: Comments may be addressed by MPO, but would not affect approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: Comment MUST be addressed to meet minimum state and federal requirements to obtain approval. The reviewer must clearly identify the applicable state or federal policies, regulations, guidance, procedures or statutes that the document does not conform with.

If a question is categorized, a comment must be included. In addition, if a question is answered with "no", a comment must also be included. Once the checklist is finalized, please share as a PDF.

APPENDIX G: Glossary of Terms and Acronyms

Glossary of Terms and Acronyms

OCALA MARION TRANSPORTATION PLANNING ORGANIZATION

February 2022

| ACRYONYM | NAME | DESCRIPTION |
|----------|---|---|
| 3C | Continuing, Cooperative and Comprehensive | A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding. |
| ACS | American Community Survey | The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people. |
| ADA | Americans with Disabilities Act | The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities. |
| ATMS | Automated Traffic Management System | ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems. |
| BEA | Bureau of Economic Analysis | Federal agency within the Department of Commerce that provides economic data and projections. |
| BLS | Bureau of Labor Statistics | Federal agency within the Department of Labor that tracks federal employment data. |
| BTS | Bureau of Transportation Statistics | The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources. |
| CAAA | Clean Air Act Amendments of 1990 | The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law. |
| CAC | Citizen Advisory Committee | The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented. |
| CBSA | Core Based Statistical Areas | CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel. |
| CFMPOA | Central Florida Metropolitan Planning Organization Alliance | A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region. |
| CFR | Code of Federal Regulations | The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|---|--|
| CFRPM | Central Florida Regional Planning Model | Travel demand forecasting tool used by numerous planning agencies throughout central Florida. |
| CMAQ | Congestion Mitigation and Air Quality Improvement Program | The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.). |
| СМР | Congestion Management Process | A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs. |
| стс | Community Transportation Coordinator | Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation- disadvantaged/). |
| СТД | Commission for Transportation Disadvantaged | Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funs to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc. org/TD/td.html). |
| СТРР | Census Transportation Planning Products | The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau. |
| СТЅТ | Community Traffic Safety Team | An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition. |
| DBE | Disadvantaged Business Enterprise | The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/ programs/dbe/). |
| DOPA | Designated Official Planning Agency | An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/ communitytransystem.htm) |
| DRI | Development of Regional Impact | A large-scale development project that may impact multiple counties or jurisdictions |
| EIS | Environmental Impact Statement | Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|--|---|
| EPA | Environmental Protection Agency | The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others. |
| ETDM | Efficient Transportation Decision Making | Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects. |
| FAA | Federal Aviation Administration | FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety. |
| FAST Act | Fixing America's Surface Transportation Act | The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network. |
| FDOT | Florida Department of Transportation | Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida-https://jobs.myflorida.com/go/ Department-of- Transportation/2817700/). |
| FHWA | Federal Highway Administration | A branch of the U.S. Department of Transportation that administers the federal- aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges. |
| FMTP | Freight Mobility and Trade Plan | FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future. |
| FSUTMS | Florida Standard Urban Transportation Modeling Structure | FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models. |
| FTA | Federal Transit Administration | A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers. |
| FTP | Florida Transportation Plan | Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation. |
| FY | Fiscal Year/ Federal Fiscal Year | The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30. |

| ACRYONYM | NAME | DESCRIPTION | | | | |
|----------|---|--|--|--|--|--|
| GIS | Geographic Information System | Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information. | | | | |
| HOV | High-Occupancy Vehicle | Vehicles carrying two or more people. | | | | |
| HSIP | Highway Safety Improvement Program | The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. | | | | |
| HUD | Department of Housing and Urban Development | HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure. | | | | |
| AUI | Infrastructure Investment and Jobs Act | Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending. | | | | |
| IRI | International Roughness Index | International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface. | | | | |
| ITS | Intelligent Transportation Systems | Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system. | | | | |
| LOS | Level of Service | Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects. | | | | |
| LOPP | List of Priority Projects | The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding. | | | | |
| LRTP/MTP | Long-Range Transportation Plan (or Metropolitan Transportation Plan) | A document that serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and- programs/long-range- transportation-plan-Irtp/. | | | | |

| ACRYONYM | NAME | DESCRIPTION | | | |
|------------------|---|---|--|--|--|
| LOTTR | Level of Travel Time Reliability | The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS). | | | |
| MAP-21 | Moving Ahead for Progress in the 21st Century | The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991. | | | |
| МРА | Metropolitan Planning Area | The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out. | | | |
| MPO | Metropolitan Planning Organization | An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau. | | | |
| ΜΡΟΑϹ | Metropolitan Planning Organization Advisory Council | A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process. | | | |
| MSA | Metropolitan Statistical Area | A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting. | | | |
| NTD | National Transit Database | The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems. | | | |
| NEPA | National Environmental Policy Act of 1969 | Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made. | | | |
| NHPP | National Highway Performance Program | The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS. | | | |
| NHPP (Bridge) | National Highway Performance Program (Bridge) | Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)]. | | | |
| NHS | National Highway System | This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500). | | | |

| ACRYONYM | NAME | DESCRIPTION | | | | |
|----------|--|---|--|--|--|--|
| PD&E | Project Development and Environmental Study | A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https:// www.fdotd7studies.com/what-is-a-pde-study.html). | | | | |
| PEA | Planning Emphasis Area | Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs. | | | | |
| PM | Performance Management | Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals. | | | | |
| РРР | Public Participation Plan | The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input. | | | | |
| PTASP | Public Transportation Agency Safety Action Plan | A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system. | | | | |
| RPC | Regional Planning Council | Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration. | | | | |
| SHSP | Strategic Highway Safety Plan | This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads. | | | | |
| SIS | Strategic Intermodal System | A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot. gov/planning/sis/default.shtm). | | | | |
| SOV | Single-Occupancy Vehicle | Any motor vehicle operated or driven by a single person. | | | | |
| STBG | Surface Transportation Block Grant Program | The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs. | | | | |
| STIP | Statewide Transportation Improvement Program | The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53. | | | | |
| STP | Surface Transportation Program | Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities. | | | | |

| ACRYONYM | NAME | DESCRIPTION | | | |
|----------|---|---|--|--|--|
| TAC | Technical Advisory Committee | The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals. | | | |
| ТАМР | Transportation Asset Management Plan | The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts). | | | |
| TAZ | Traffic Analysis Zone | A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups. | | | |
| TD | Transportation Disadvantaged | Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues. | | | |
| TDLCB | Transportation Disadvantaged Local Coordinating Board | The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC). | | | |
| TDM | Transportation Demand Management | Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours. | | | |
| TDP | Transit Development Plan | The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies. | | | |
| TIP | Transportation Improvement Program | A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53. | | | |
| TMA | Transportation Management Area | An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area. | | | |
| TMIP | Travel Model Improvement Program | TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions. | | | |

| ACRYONYM | NAME | DESCRIPTION | | | | |
|----------|--|---|--|--|--|--|
| TOD | Transit Oriented Development | Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half- mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org). | | | | |
| ТРМ | Transportation Performance Management | FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals. | | | | |
| ТРО | Transportation Planning Organization | A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau. | | | | |
| TRB | Transportation Research Board | The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research. | | | | |
| TRIP | Transportation Regional Incentive Program | Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities. | | | | |
| TTTR | Truck Travel Time Reliability Index | The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system. | | | | |
| UA | Urbanized Area | A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people. | | | | |
| ULB | Useful Life Benchmark | The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration. | | | | |
| UPWP | Unified Planning Work Program | UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds. | | | | |
| USC | United States Code | The codification by subject matter of the general and permanent laws of United States. | | | | |
| USDOT | United States Department of Transportation | When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency. | | | | |
| YOE | Year of Expenditure | The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed. | | | | |
| VMT | Vehicle Miles Traveled | A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia). | | | | |

APPENDIX H: Project Changes from Prior TIP

Project Changes from Prior Transportation Improvement Program (TIP)

The following lists (2) summarize major projects that were programmed in the previous FY 2022 to FY 2026 TIP and their respective status toward implementation. This includes projects that were advanced; completed; under construction (2022); or deferred.

Changes to total project funding are also noted for major projects programmed in both the previous FY 2022 to FY 2026 TIP and the current FY 2023 to FY 2027 TIP.

| | Project Status from Prior TIP: Advanced, Completed, Cor | nstruction or Deferred | |
|----------------------|--|------------------------|-------------------------|
| Project Number/FM | Project Description | Project Status | FY 22-26 TIP Funding |
| 2386481 | SR 45 (US 41) from SW 110th Street to North of SR 40 | Deferred Out | \$44,211,268 |
| 4112565 | SR 35 (US 301) Dallas Pond Redesign | Constrution 2022 | \$537,379 |
| 4336511 | CR 484 from SW 20th Avenue to CR 475A | Construction 2022 | \$15,302,481 |
| 4336611 | U.S. 441 from SR 40 to SR 40A (Broadway) | Construction 2022 | \$3,607,422 |
| 4348441 | CR 42 at SE 182nd Avenue | Deferred to FY 23 | \$407,200 |
| 4354842 | Pruitt Trail from SR 200 to Pruitt Trailhead | Deferred to FY 26 | \$2,158,000 |
| 4364742 | Saddlewood Elementary School Sidewalks | Construction 2022 | \$317,096 |
| 4364743 | Legacy Elementary School Sidewalks | Construction 2022 | \$1,411,659 |
| 4375962 | SR 40 from NW 27th Street to SW 7th Street Sidewalks | Completed 2021 | \$913,539 |
| 4384271 | Marion County Airport Airfield Pavement Improvements | Deferred to FY 25 | \$4,833,608 |
| 4384771 | Ocala International Airport Taxiway Improvements | Deferred to FY 26 | \$6,500,000 |
| 4407801 | Ocala International Airport Pavement Rehabilitation | Deferred to FY 24 | \$1,978,750 |
| 4408801 | Marion Oaks Marion Oaks Manor Sidewalk | Construction 2022 | \$36,210 |
| 4431701 | SR 93 (I-75) from Sumter County to SR 200 | Construction 2022 | \$30,271,013 |
| 4437301 | U.S. 301/U.S. 441 South of Split to North of Split Landscape | Construction 2022 | \$372,839 |
| 4453211 | Wildwood Mainline Weigh-In Motion (WIM) Screening | Construction 2022 | \$4,621,712 |
| 4456871 | U.S. 41/Williams from Brittan Alexander Bridge to River Road | Advanced to FY 22 | \$551,496 |
| 4458001 | SR 40 at SR 492 (NE 14th Street) | Advanced to FY 22 | \$987,415 |
| 4471371 | SR 200 Bridges and SR 40 Bridge Deck Rehabilitation | Construction 2022 | \$1,010,681 |
| 4483891 | NW 9th Street at Railroad Crossing #627174G | Completed 2022 | \$207,629 |
| 4485751 | Ocala International Airport ARFF Building | Deferred to FY 27 | \$1,608,894 |

| | Major Project Total Funding Changes: Prior TIP to Current TIP | | | | | |
|---------------------------------------|--|-----------------------------|------------------------------|--|--|--|
| Project Number/FM Project Description | | Project Schedule Changes | Change in Project Funding | | | |

Transportation Improvement Program Fiscal Years 2023 to 2027 Roll Forward Amendment Pending Approval August 23, 2022

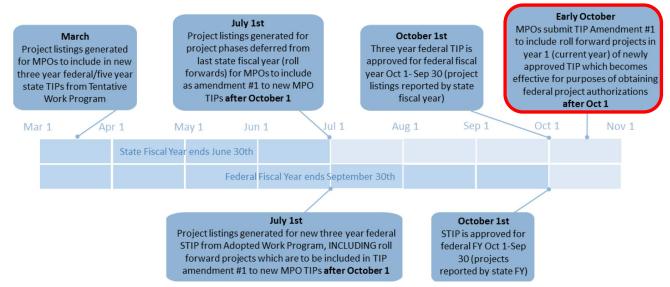

Roll Forward TIP Amendment

PURPOSE

The TPO's FY 2023 to FY 2027 Transportation Improvement Program (TIP) was adopted by the Board on June 28, 2022. The purpose of the TIP Roll Forward Amendment is to ensure full consistency by October 1 each year between the Ocala/Marion County Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) and the Florida Department of Transportation (FDOT) Work Program.

In some cases, project funding programmed in the previous fiscal year of the prior TIP document was not authorized and encumbered prior to June 30. These projects then roll-forward in the FDOT Work Program for year one (FY 2023), but not into the TPO's TIP to meet the timeline for annual adoption. As a result, the TPO's TIP must be amended each year to include roll-forward projects in the current fiscal year to ensure consistency with the FDOT Work Program. Hence, the process is called the Roll Forward TIP Amendment.

Unlike all other projects, Federal Transit Administration (FTA) projects to not automatically roll-forward in the FDOT Work Program. The TPO coordinates with SunTran to verify that project funding is appropriately accounted for in the Roll Forward TIP Amendment. The following graphic displays the Roll Forward process and all key milestones.

Source: Florida Department of Transportation MPO Program Management Handbook, 2021

Roll Forward Summary

The following tables summarize roll forward projects for the FY 2023 to FY 2027 TIP. The table includes current FY 2023 project funding, amount of funding rolled forward, and revised FY 2023 project funding.

| Project FM # | Project Name | Work Type | Phase(s) | Current TIP FY 2023 | Amount Rolled Forward | Revised TIP FY 2023 |

RON DESANTIS GOVERNOR

605 Suwannee Street Tallahassee, FL 32399-0450 JARED W. PERDUE, P.E. SECRETARY

July 11, 2022

Ocala Marion TPO ATTN: Rob Balmes, Executive Director 2710 E Silver Springs Blvd Ocala FL 34470

RE: Request to Amend Fiscal Year (FY) 2022/23-2026/27 Transportation Improvement Program (TIP) – Annual Roll Forward

Dear Mr. Balmes:

The purpose of this letter is to request Ocala Marion TPO amend the FY 2022/23-2026/27 TIP with the Annual Roll-Forward Report. The Roll Forward report reconciles differences between the TIP and Florida Department of Transportation's (FDOT) Adopted Five-Year Work Program. This is annual process is routine and assists the MPO with identifying projects using federal funds that were not committed during the previous state fiscal year (FY 2021/2022). These projects have automatically "rolled forward" in the FDOT Adopted Five-Year Work Program as of July 1, 2022. This amendment ensures that year one of the TIP matches year one of FDOT's Adopted Five-year Work Program.

The reason for this amendment is to ensure projects with federal funding can be authorized prior to the new Federal Fiscal Year (FFY) beginning on October 1 each year. Until then, Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) continue to recognize the FY 2021/22 – 2025/26 TIP as the effective document. Adopting the Roll Forward Report and amending it into the TIP ensure projects will continue to be authorized without interruption.

The affected projects are listed in the attached Roll-Forward Report dated July 5, 2022. The MPO is requested to add this report to the FY 2022/23-2026/27 TIP in its entirety.

Feel free to contact the Liaison Group at <u>D5-MPOLiaisons@dot.state.fl.us</u>.

Sincerely,

—DocuSigned by:

Rakinya Hinson

TO: Board Members

FROM: Rob Balmes, Director

RE: TPO Continuity of Operations Plan (COOP)

<u>Summary</u>

The TPO has prepared a draft Continuity of Operations Plan (COOP) document for the organization. Most, if not all of the TPO's peers in Florida already have a COOP in place, so this is a high priority document to complete in 2022.

A COOP is a standard government practice to help guide an organization through an extended emergency event or disaster. More specifically, for situations that result in a disruption limiting access to the TPO's office and/or boards and committee facilities.

The COOP document places a major emphasis on operations and the core essential functions of the TPO that must be maintained regardless of the type of event or disaster. Since the TPO is hosted by Marion County, this document references county procedures. Additionally, the draft document was shared with Marion County Administration and IT to obtain feedback. Attached to this memo is the current draft COOP for review and comment.

Attachment(s)

- Board Presentation
- Continuity of Operations Plan (COOP) document

Committee Recommendation(s)

• The Citizens Advisory Committee (CAC) and Technical Advisory Committee (TAC) recommended adoption on November 8, 2022.

Action Requested

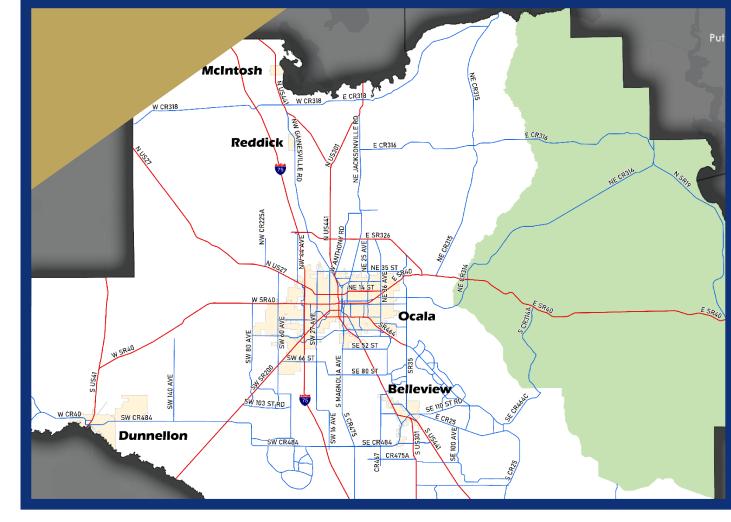

• Adoption of the Continuity of Operations Plan (COOP).

If you have any questions or concerns, please contact me at: 438-2631.

A transportation system that supports growth, mobility, and safety through leadership and planning Marion County • City of Belleview • City of Dunnellon • City of Ocala

Continuity of Operations Plan (COOP)

November 29, 2022

Background

- Outlines procedures to ensure Essential Functions continue despite an extended interruption(s) caused by an emergency or disaster event.
- Document based on FEMA, DHS Templates

COOP Activation Protocol

- Director and Chair Coordination
- Chair COOP Activation
- Notifications to Boards, Committees, Partners
- Coordination with Marion County on facilities, operations

Essential Functions

- Core Work Programs (federal, state required)
 - UPWP, LRTP, TIP, TDSP, LOPP, CTC Eval.
- o Boards, Committee Meetings
- o Grant Invoicing
- Contract Payments

Essential Functions (continued)

- Budget and Tracking
- o Timesheets, Progress Reports
- Coordination with Marion County Administration
- Coordination with Marion County IT

Other Key COOP Sections

- Leadership and Devolution
- **o** TPO Office and Meeting Facilities
- Vital Files, Records and Databases
- COOP Deactivation Protocol
- COOP Maintenance

TPO Office Location

Growth Services Building

Options if Office Closed (indefinitely, permanent):

- 1. Coordination Marion County Administration
 - On-Campus, other locations TBD

2. Government partner office options in Marion County

3. Procurement of office space within Marion County

TPO Board Meeting Locations

• McPherson Campus Auditorium

Alternative Sites:

- Growth Services Conference Room
- Ocala City Hall
- Belleview City Hall
- Dunnellon City Hall

Contact Information

- Emergency Contact Information
- Boards, Committees, Partner Agencies Email, Phone Contacts on File

Questions or Comments?

Recommendation:

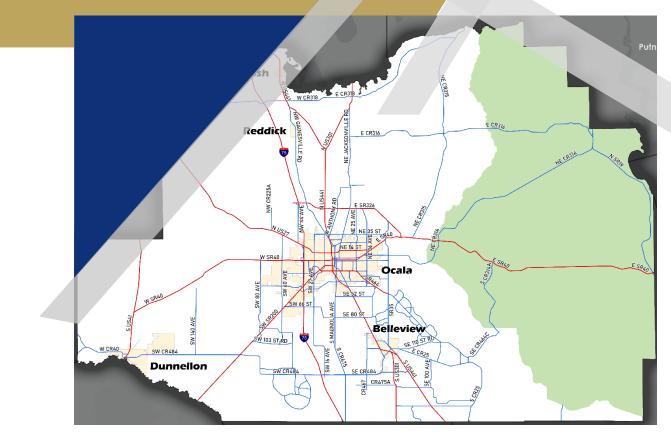

Adoption of TPO's COOP document.

Councilmember Ire Bethea Sr., City of Ocala District 2, Chair Commissioner Craig Curry, Marion County District 1, Vice-Chair

Commissioner Kathy Bryant, Marion County District 2 Councilmember Kristen Dreyer, City of Ocala District 4 Commissioner Jeff Gold, Marion County District 3 Mayor Kent Guinn, City of Ocala Councilmember James Hilty, City of Ocala District 5 Commissioner Ronald Livsey, City of Belleview Seat 3 Councilmember Barry Mansfield, City of Ocala District 1 Commissioner Michelle Stone, Marion County District 5 Mayor Bill White, City of Dunnellon Commissioner Carl Zalak III, Marion County District 4 John E. Tyler, P.E., FDOT District Five Secretary, Non-Voting

Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

Vision

A transportation system that supports growth, mobility and safety through leadership and planning.

www.ocalamariontpo.org

2710 East Silver Springs Boulevard, Ocala, FL 34470 352-438-2630

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

CONTINUITY OF OPERATIONS PLAN (COOP)

This Continuity of Operations Plan (COOP) was prepared by the Ocala/Marion County Transportation Planning Organization (TPO) to develop, implement and maintain a viable COOP capability. This document has been distributed to partner agencies that may be affected by its implementation. The document was prepared with financial assistance from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) of the United States Department of Transportation (USDOT) through the Florida Department of Transportation (FDOT). The contents do not necessarily reflect the official views or policies of the USDOT.

This COOP was approved by the TPO Board on November 29, 2022 [Pending Board Approval].

Ire Bethea Sr., Chair

Questions regarding the TPO's COOP should be directed to:

INTRODUCTION

This document summarizes the Ocala/Marion County Transportation Planning Organization (TPO) Continuity of Operations Plan (COOP). A COOP outlines guidance to TPO Staff and Board Members to ensure all federal and state required Essential Functions continue to be performed in the event of an extended interruption of services due to a declared emergency or disaster. This includes governance; advisory committees; delegation authority; plans and processes; and safekeeping of public records.

A COOP is a standard government practice and essential for all public agencies. This COOP document is organized based on circular guidance and templates from the Department of Homeland Security (DHS) and Federal Emergency Management Agency (FEMA).

The TPO is hosted by Marion County through a Staff Services agreement. Therefore, this COOP was also developed in a manner consistent with the Marion County Comprehensive Emergency Management Plan (CEMP) and Marion County Board of County Commissioners policies and procedures.

Unforeseen events in Marion County may involve, but are not limited to: hurricanes, tornadoes, flooding, fires, terrorist attacks, pandemics or other health outbreaks. The primary goal of the COOP is to ensure the TPO maintains continuous operations or resumes normal operations as soon as possible. This applies to circumstances when the impacts of an event limit or prevent access to the TPO's office facility (Marion County Growth Services Building – 2710 East Silver Springs Boulevard – Ocala, FL 34470), and the use of meeting facilities by TPO boards and committees.

OCALA MARION TRANSPORTATION PLANNING ORGANIZATION (TPO)

The TPO is a federally-mandated public agency responsible for planning and coordinating the allocation of federal and state funding to roadway, transit, freight, bicycle, pedestrian, aviation and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO is governed by a 12-member Board of locally elected officials responsible for the overall guidance of the transportation planning process in Marion County. The Board's guidance includes providing leadership and oversight for the development of transportation policies, plans, programs and strategies.

TPO Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

TPO Vision

A transportation system that supports growth, mobility and safety through leadership and planning.

COOP ACTIVATION PROTOCOL

When a county, state or federal State of Emergency is declared, the TPO Director or his/her designee shall notify the TPO Chair (Vice-Chair if Chair is not available). Based upon the circumstances and type of event, the TPO Director will consult with the Chair to determine if the COOP should be activated. Each event will be a case by case situation, including the status of Marion County government operations and impacts or access to the TPO office and meeting facilities.

When the COOP is activated by the TPO Chair, the TPO Director will immediately inform staff members and direct all work activities to only involve Essential Functions. The TPO Director will also send formal email and/or phone notifications to the following:

- TPO Board Members
- Transportation Disadvantaged Local Coordinating Board (TDLCB) Members
- Technical Advisory Committee (TAC) Members
- Citizens Advisory Committee (CAC) Members
- Florida Department of Transportation (FDOT) District Five Government Liaison Team
- Federal Highway Administration (FHWA)
- Federal Transit Administration (FTA)
- Commission for Transportation Disadvantaged (CTD)

The TPO maintains an active directory of email addresses, board and committee phone/cell numbers and staff cell numbers. All TPO employees are provided a copy of a comprehensive contact directory. A listing is provided in the Appendix for emergency and non-emergency partner agency contacts.

ESSENTIAL FUNCTIONS

In the event of an emergency or disaster requiring activation of the COOP, the TPO's responsibilities must continue to meet federal and state requirements, including grant invoicing, expense and contract payments. Actions that require an emergency Board meeting may be called by the Chair when in his/her opinion, an emergency exists which requires immediate action (e.g., budget or project amendments). Per TPO Board bylaws, a 24-hour advance notice of an emergency meeting shall be given prior to the meeting. Per the TPO Public Participation Plan (PPP) Emergency Procedure Resolution (April 28, 2020), the TPO shall also implement alternative virtual public participation during emergency situations. Depending upon the State of Emergency conditions, the use of alternate meeting locations and/or virtual meetings may also be options, including the requirement of proper public notification(s) in accordance with the TPO's PPP and Florida Sunshine Law.

The Essential Functions of the TPO that shall be performed to the maximum extent feasible during an activation of the COOP include:

- Execution core planning activities outlined in TPO's Unified Planning Work Program (UPWP). Specific activities with strict federal and state deadlines are listed.
 - Unified Planning Work Program document (UPWP) (Biennial, April)
 - Long Range Transportation Plan (LRTP) (Five years, November 2025)
 - Transportation Improvement Program (TIP) (Annual, June)
 - List of Priority Projects (LOPP) (Annual, June)
 - Transportation Disadvantaged Service Plan (TDSP) (Annual, June)
 - Community Transportation Coordinator (CTC) Evaluation (Annual, March)
- Maintain communication with TPO Board, TDLCB, TAC and CAC members; hold emergency or regularly scheduled meetings in-person, virtually or hybrid as deemed appropriate and necessary.
- Maintain contact and process grant invoicing to the Florida Department of Transportation (FDOT) and the Florida Commission for Transportation Disadvantaged (CTD).
- Maintain payments associated with contracts, direct and indirect expenses through Marion County Procurement Services Department.
- As necessary, amend UPWP and adjust TPO budget through Marion County, due to direct costs incurred from the emergency event or disaster.
- Ensure TPO Budget is submitted to Marion County Clerk of the Court (Annual, April).
- Ensure bi-weekly progress reports and timesheets are processed through the TPO.
- Ensure bi-weekly county timesheets are processed through Marion County Payroll.
- Maintain coordination with Marion County Administration regarding status of emergency event and county protocols.
- Review Marion County Human Resources Emergency Response Plan for guidance on personnel management.
- Coordination with Marion County Information Technology (IT) Department, as needed, regarding data and records, software licenses, computer network access, equipment, etc.

COOP LEADERSHIP AND DEVOLUTION

The TPO has a current staff of four approved full-time employees. The TPO Director shall serve as the COOP lead and is responsible for all coordination with staff, board and committee members and partner agencies. The following procedures shall be followed during an emergency or disaster event.

- As the COOP lead, the TPO Director shall retain responsibility for the continued operation and administration of the TPO.
- The TPO Director shall maintain ongoing coordination with the Board Chair and staff, including daily check-ins and weekly meetings.
- The TPO Director shall maintain ongoing coordination with Marion County Administration and pertinent County Departments (e.g., IT, Procurement).
- The TPO Director shall maintain ongoing coordination with partner agencies (e.g., FDOT).

 In the event the TPO Director is not available or incapacitated, the Principal Planner shall be the Acting COOP lead, responsible for coordination with staff members, Board Chair, Marion County and partner agencies. The Grants Coordinator/Fiscal Planner shall be next in order of succession, with the Administrative Specialist serving a key role in all coordination.

TPO OFFICE AND MEETING FACILITIES

Currently, the TPO's office is located in the Growth Services Building at the Marion County McPherson Governmental Campus. In the event the TPO office is unavailable or closed due to an extended emergency event or disaster, the TPO Director or Acting COOP lead will maintain coordination with Marion County Administration to determine the length of the closure and if an alternate office location is necessary. Coordination will also take place with Marion County IT to ensure proper remote-work procedures are followed during the period of time when access to the office is not possible. TPO staff will maintain all operations virtually, until an alternative facility is available or the TPO office is re-opened.

If an event impacts the long-term or permanent condition of the TPO office at the Growth Services Building, the following options will be reviewed in order of preference. Coordination will take place between the TPO Director, TPO Board and Marion County Administration to determine the most feasible solution.

- 1. Coordinate with Marion County Administration for availability of office space located within the McPherson Campus or other county locations.
- 2. Assess office space availability in Marion County with local and state government partners.
- 3. Procurement of new office space of similar size and function to the current TPO office within Marion County.

The TPO conducts board and committee meetings at the following locations:

TPO Board Meetings

McPherson Governmental Campus Auditorium 601 SE 25th Avenue Ocala, FL 34471

Transportation Disadvantaged Local Coordinating Board Meetings

Marion County Growth Services Training Room 2710 E. Silver Springs Boulevard Ocala, FL 34470

Technical Advisory Committee (TAC) and Citizen Advisory (CAC) Meetings

Marion County Library Headquarters 2720 E. Silver Springs Boulevard Ocala, FL 34470 If an event impacts the short-term, long-term or permanent condition of a meeting location, the following alternative locations will be considered.

TPO Board Meetings

Marion County Growth Services Training Room 2710 E. Silver Springs Boulevard Ocala, FL 34470

City of Ocala City Hall 110 SE Watula Avenue Second Floor – Council Chambers Ocala, FL 34471

City of Belleview City Hall 5343 SE Abshier Boulevard Commission Room Belleview, FL 34420

City of Dunnellon City Hall 20750 River Drive Dunnellon, FL 34431

Transportation Disadvantaged Local Coordinating Board Meetings

Marion Senior Services 1101 SW 20th Court Ocala, FL 34471

Technical Advisory Committee (TAC) and Citizen Advisory (CAC) Meetings

Ocala/Marion County Visitors and Convention Bureau 109 West Silver Springs Boulevard Ocala, FL 34475

Marion Senior Services 1101 SW 20th Court Ocala, FL 34471

VITAL FILES, RECORDS AND DATABASES

The protection of electronic and hardcopy documents, records, and meeting recordings to support essential functions is critical to the operation of the TPO. Currently, the TPO's electronic files and emails are backed up daily on a cloud-based server managed by the Marion County IT Department. Marion County IT has a Business Continuity Plan (BCP) that is reviewed annually by auditors. It outlines how the County's technical operations will continue or be restored in the event of a disaster. The County also has two separate Data Centers that mirror each other for redundancy and three levels of backups. Marion County also maintains records of all TPO financial transactions in the cloud-based Tyler Munis Technologies platform.

In the event of a foreseeable emergency, TPO essential document files will be backed up manually by the use of an external hard drive. A folder is maintained by year (starting in 2022) on the County server titled "COOP Essential Documents". This folder contains essential core planning documents, and will be copied to an external hard drive by the TPO Director only when the COOP is activated. The external hard drive will include encryption with a password stored through a cloud password management solution (e.g. LastPass). The files may need to be accessed while staff is working virtually, but only used as a backup to the County IT server if unavailable. On an annual basis, the TPO Director places electronic copies of the following files in the "COOP Essential Documents" folder. Hard copies of all core planning documents and agreements are also filed in the TPO office.

- Current COOP document
- Agreements
 - Metropolitan Planning Agreement (2-year Consolidated Planning Grant)
 - Commission for Transportation Disadvantaged grant agreement (current fiscal year)
 - Federal Transit Administration (FTA) 5305d active grant agreements
 - TPO-Marion County Staff Services Agreement
 - o Intergovernmental Coordination and Review (ICAR) Joint Agreement
 - Interlocal Agreement of the TPO
 - Planning Agreement with Lake~Sumter MPO
- Boards and Committees Bylaws
- Budget summary and tracking Files
- Recent grant invoice statements (past three months)
- Current consultant contracts
- Core planning documents and template files
 - UPWP (most up to date)
 - LRTP (current adopted)
 - TIP (most up to date)
 - Public Participation Plan (PPP)
 - LOPP (most recent adopted)
 - TDSP (most up to date)
 - Annual CTC Evaluation (prior year)
- Meeting minutes and recordings (past 12 months)
- TPO process documentation (TIP, Budget, Website, Social Media)
- TPO property inventory database

The TPO's website (<u>www.ocalamariontpo.org</u>) is maintained on a cloud-based server by its current consultant vendor (SGS Technolgie). The website contains all core planning documents, agreements, historic documents and a six-year history of meeting minutes and agendas. The website also contains the most current version of the COOP. These files may also serve as backup

in the case of an extended emergency or disaster event. The website is accessible to staff and the consultant.

In the event of total destruction of the TPO office and there is no immediate access to cloudbased files, FDOT, FHWA, FTA and CTD have copies of the TPO's core planning documents.

COMPUTER EQUIPMENT

All TPO staff members currently operate laptop computers maintained by Marion County IT, with capabilities of connecting to the cloud-based county server via a secure Virtual Private Network (VPN). When the COOP is activated, staff members will be directed to maintain possession of their respective assigned laptops and operate them only in a safe and secure location. This includes the TPO's laptop assigned specifically for board and committee meetings. If staff are required to use laptops remotely for an extended period of time, they will be expected to continue following all County IT directives. This includes access to the county server via VPN and ensuring updates are performed on a regular basis.

COOP DEACTIVATION PROTOCOL

Deactivation of the COOP is based on when recovery from the event is underway and the TPO current or new office space is permitted for normal operations. In coordination with the TPO Board Chair, the TPO Director will notify staff, board and committee members. The following steps will be taken.

- Staff shall return to normal operations in the TPO office.
- Staff shall return all equipment, including laptops, monitors or other supplies that were removed from the TPO office.
- The TPO Director will coordinate with Marion County IT to reestablish phone connectivity, server connectivity, print/copier device function and other equipment.
- The TPO Director will conduct a complete inventory of all equipment, supplies and other property. The TPO maintains an up to date inventory of assets.

COOP MAINTENANCE

The COOP will be reviewed annually by the TPO Director. This includes placement of files in the "COOP Essential Documents" electronic folder. The TPO Board will be requested to review the COOP when updates are made to the document.

| RE: | Annual Report Document and Template Scope of Services |

<u>Summary</u>

In 2020, the TPO revitalized the completion of an Annual Report as a service to the public, partner agencies and our elected leaders. Over the past two years, the TPO has used a template developed by a former staff member. This template needs to be updated to ensure a professional, public-friendly annual report document is maintained over time.

This project will involve a Task Order with the TPO's General Planning Consultant Kittelson and Associates to develop a document and template for use in the 2022 Annual Report publication. When completed, TPO staff will use the document template for annual report editions over the next three years (2022 to 2024).

Requesting Board Approval Annual Report Template and Document Task Order

Ocala Marion County TPO TPO Annual Report Document and Template Scope of Services

<u>Purpose</u>

The purpose of this task is for Kittelson and Associates (Consultant) to support the TPO by developing an annual report document and template. This service will enable TPO staff to deliver to the Ocala/Marion County community a professional, public-friendly annual report document over the next two years. The annual report document template will contain content and information provided by TPO staff to the Consultant. The detailed tasks to be performed in this scope of services are described in greater detail as follows.

<u>Services</u>

Task 1: Project Management

The TPO Project Manager and Consultant Project Manager will lead this task. The following tasks will be completed as part of this scope:

- Management of task, invoicing and deliverable
- Coordination between the TPO Project Manager and Consultant Project Manager to maintain schedule, deliverable and participation in virtual conference call meetings, as needed.

Task 2: Create Annual Report Document Template

The Consultant will lead this task to develop a public-friendly, professional annual report document template.

TPO staff will provide all content and information for the annual report. This includes annual report topics and corresponding text, supporting photos and graphics. All annual report topics shall be provided by TPO staff to the Consultant no later than December 9, 2022. All annual report content and information shall be provided by TPO staff to the Consultant no later than December 21, 2022.

Responsibilities of the TPO

TPO staff will perform the following tasks:

- Task #1 Project Management
- Task #2 Provide content and information. Review draft and final annual report document template

Responsibilities of the Consultant

Consultant will perform the following tasks:

- Task #1 Project Management
- Task #2 Completion of TPO Annual Report document template

Time of Completion

The project will begin on December 1, 2022 and be completed by January 31, 2023. Any changes that are made to the project schedule will be agreed upon by both parties, including the Consultant and TPO staff.

Deliverables to be provided by the Consultant

The following final deliverables are expected:

• Annual Report Document and Template

<u>Budget</u>

Invoices will be processed monthly by the Consultant based on the percent work completed for this task. A fee sheet is included with this Scope that outlines the Consultant hours and associated cost estimates for services performed for the task.

Total Budget: \$8,811.22

RE: Fiscal Years (FY) 2022/23 to 2023/24 Unified Planning Work Program (UPWP) Amendment

<u>Summary</u>

Pending Board approval, TPO staff proposes to amend the Fiscal Years (FY) 2022/2023 Unified Planning Work Program (UPWP) to include an activity related to consultant services support in task 6. This activity is derived from the task order scope of services detailed in agenda item 51. The proposed UPWP change is as follows:

• Task 6: Public Involvement

- Develop an Annual Report document and template for use by staff in conducting public outreach.
- Funding: No change, currently \$8,850 in budget.
 - Source: Federal Highway Administration (FHWA)-CPG, G2797 Grant

Attached to this memo is the proposed change, overview presentation and proposed amended UPWP document.

Attachment(s)

- Proposed UPWP summary of changes
- Presentation Overview
- Amended FY 22/23 to 23/24 UPWP, pending approval

Action Requested

TPO staff requests the TPO Board to approve a UPWP amendment to Task 6.

If you have any questions or concerns, please contact me at: 438-2631.

TASK 6: PUBLIC INVOLVEMENT - PROPOSED CHANGES

Purpose

Identifies all activities that involve the public in the TPO's '3C' transportation planning process. This includes information dissemination, review of all federally required plans and programs, TPO meetings, public hearings and workshops.

Previous Work Completed

The completed public transportation planning activities of the TPO in FY 2020/21 and FY 2021/22.

- Completed regular updates on the TPO website, including public notices for meetings, meeting agendas and minutes, meeting schedules and all federally required planning document reviews.
- Developed information fact sheets and postcards for public education and awareness.
- Maintained the TPO's Facebook and Twitter social media platforms.
- Regular Facebook and Twitter postings for meeting notices, community events, transportation information and publications.
- Updated the Public Participation Plan (PPP) in 2021.
- Hosted Mobility Week events in 2019 and 2020.
- Maintained social media archive services.
- Participated in American Association of Metropolitan Planning Organization (AMPO) social media and organization spotlight in 2021.
- Provided public notices for all meetings and workshops within seven (7) days to meet state Sunshine Law and PPP directives.
- Developed Limited English Proficiency "I Speak Cards" and Public Comment cards for use in all TPO meetings.
- Instituted non-discrimination statements in English on all public meeting notices and agendas.
- Instituted non-discrimination statement in Spanish on the TPO website.
- Title VI Plan update completed in 2020.
- Documented and responded to all public inquiries and requests for information.
- Developed Annual Reports for 2020 and 2021.
- Created public website page for the Commitment to Zero Safety Action Plan.
- Conducted outreach to solicit interest and applications for the Citizens Advisory Committee (CAC).

Required Activities

The Task 6 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|--|---------------------------|
| Promote more awareness and understanding of the TPO and the 3C planning process | Fact sheets, infographics, postcards | Ongoing |
| Regular updates to TPO website content | Up to date website | Ongoing |
| Develop Annual Report to highlight major activities, accomplishments | 2022, 2023 Annual Reports | January 2023, 2024 |
| Expand social media outreach to gain greater input and feedback on planning activities | Routine postings via Facebook, Twitter, LinkedIn | Weekly |
| Advertise all TPO meetings with minimum 7- days notice to meet state Sunshine Law | Meeting notifications | Monthly, As required |
| Updates to Public Participation Plan | Revised Public Participation Plan (PPP) | As needed |
| Updates to Title VI Plan | Revised Title VI Plan | As needed |
| Monitor and respond to all Title VI and ADA complaints | Formal response, documented report(s) | As needed, As required |
| Document and respond to all public inquiries and information requests | Formal responses, documented | Ongoing |
| *Develop an Annual Report document and template for use by staff in conducting public outreach and awareness | Annual Report document and template | January 2023 |
| Social media archive subscription renewals | Social Media archives subscription service | April 2023, 2024 |
| Attend Title VI, ADA, DBE, Limited English Proficiency (LEP) and public involvement training | Completed trainings | Ongoing, Annual |
| Outreach to attain membership for the Citizens Advisory Committee (CAC) | New members of the CAC | Ongoing |
| Participate in FDOT Mobility Week events | Serve as a local host partner | 2022, 2023 |
| Updates to the Safety Action Plan regarding activities and information | Safety Action Plan website updates | Ongoing |

Resolution No. 22-11

RESOLUTION OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) ENDORSING THE AMENDED UNIFIED PLANNING WORK PROGRAM FOR FISCAL YEARS 2022/23 to 2023/24.

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the Metropolitan Planning Organization (MPO) and body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 CFR Section 450.308(c) and Florida Statute 339.175(9) require each MPO to annually submit a Unified Planning Work Program; and

WHEREAS, a Unified Planning Work Program is defined as an annual transportation planning work program which identifies the planning budget and the planning activities to be undertaken by the TPO during the program year; and

WHEREAS, the Ocala/Marion County Transportation Planning Organization's 2022/23 to 2023/24 Unified Planning Work Program has been prepared consistent with Chapter 3 of the MPO Program Management Handbook.

WHEREAS, the 2022/23 to 2023/24 Unified Planning Work Program was approved by the Ocala/Marion County Transportation Planning Organization on April 26, 2022; and

WHEREAS, the Ocala/Marion County Transportation Planning Organization's 2022/23 to 2023/24 Unified Planning Work Program has been amended to:

- Obligate \$175,000 of Federal Highway Administration (FHWA) Planning (PL) funds in Fiscal Year 2022/23.
- The total funding amount in Fiscal Year 2022/23 of the UPWP will change from \$723,984 to \$898,984.

NOW THEREFORE BE IT RESOLVED by the Ocala/Marion County Transportation Planning Organization adopts the amended Unified Planning Work Program for 2022/23 to 2023/24 and authorizes the TPO Director to execute all applications, invoices, revisions, amendments, un-encumbrances and de-obligations that may be necessary during the duration of the UPWP.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 23rd day of August, 2022.

Cost Analysis Certification

Ocala/Marion County TPO

Unified Planning Work Program - FY 2023-2024

Adopted 4/26/2022

Revision Number: Initial Adoption

I hereby certify that the cost for each line item budget category has been evaluated and determined to be allowable, reasonable, and necessary, as required by <u>Section 216.3475, F.S.</u> Documentation is on file evidencing the methodology used and the conclusions reached.

Name: Rakinya Hinson

MPO Liaison District Five

Title and District

Rakinya Hinson

5/16/2022

Ocala Marion Transportation Planning Organization (TPO)

Governing Board Members

Councilmember Ire Bethea Sr., City of Ocala District 2, Chair Commissioner Craig Curry, Marion County District 1, Vice-Chair

Commissioner Kathy Bryant, Marion County District 2 Councilmember Kristen Dreyer, City of Ocala District 4 Commissioner Jeff Gold, Marion County District 3 Mayor Kent Guinn, City of Ocala Councilmember James Hilty, City of Ocala District 5 Commissioner Ronald Livsey, City of Belleview Seat 3 Councilmember Barry Mansfield, City of Ocala District 1 Commissioner Michelle Stone, Marion County District 5 Mayor Bill White, City of Dunnellon Commissioner Carl Zalak III, Marion County District 4 John E. Tyler, P.E., FDOT District Five Secretary, Non-Voting

Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

<u>Vision</u>

A transportation system that supports growth, mobility and safety through leadership and planning.

www.ocalamariontpo.org

2710 East Silver Springs Boulevard, Ocala, FL 34470 352-438-2630

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

INTRODUCTION

The Unified Planning Work Program (UPWP) outlines the Ocala/Marion County Transportation Planning Organization (Ocala Marion TPO) planning activities for the two-year period from July 1, 2022 to June 30, 2024 (fiscal years 2022/2023, 2023/2024). The federal definition of the UPWP is "a statement of work identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of the planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds" (23 CFR450.104).

The UPWP is required as a basis and condition for federal funding assistance by the joint planning regulations of the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). All planning activities in the UPWP must also follow a *Continuing, Cooperative and Comprehensive ('3C') transportation process and be in full compliance with Title 23 United States Code (USC), Sections 134 (Metropolitan Transportation Planning), 135 (Statewide Transportation Planning), Title 49 (Public Transportation) Chapter 53 and Florida Statutes (F.S.) 339.175(9).

FUNDING SOURCES

The UPWP provides a description and estimated budget for nine specific planning tasks to be undertaken by the TPO and partner agencies. Planning tasks programmed in the UPWP reflect the services anticipated to meet local priorities, as well as the requirements of FHWA, FTA and the Florida Department of Transportation (FDOT). The federal and state governments provide funding to support the TPO through FDOT and the Florida Commission for Transportation Disadvantaged (CTD), including three primary funding sources: FHWA Planning (PL funds), FTA Section 5305(d), and the CTD Transportation Disadvantaged grant. A portion of local funding is provided to some TPO activities that are non-reimbursable through the three grants.

The TPO and FDOT participate in the Consolidated Grant Program (CPG). The CPG enables FDOT, in cooperation with the TPO, FHWA, and FTA, to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division. These funds are annually apportioned to FDOT as the direct recipient and allocated to the TPO by FDOT utilizing formulas approved by the TPO, FDOT, FHWA, and FTA, in accordance with 23 Code of Federal Regulations (CFR) 420.109 and 49 USC Chapter 53. FDOT is fulfilling the CPG's required 18.07% non-federal share (match)

*3C Transportation Planning Process

The U.S. Department of Transportation (USDOT) requires the TPO to carry out a Continuing, Cooperative and Comprehensive (3C) transportation process. *Continuing*: Planning must be maintained as an ongoing activity and addresses both short-term needs and a long-term vision; *Cooperative*: The process must include the entire region and all partners through a public participation process; and *Comprehensive*: the process must cover all modes of transportation and consistent with local plans and priorities.

using Transportation Development Credits as permitted by 23 CFR 120(i) and FTA C 8100.1D. A summary of all planning activities, budget and matching funds for the two-year period are provided on pages 53 to 56.

PARTICIPATION PROCESS

The development of the UPWP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) (draft only) and the TPO Board (draft and final approval). The TPO also strives to engage citizens and stakeholders to assist in the development of the UPWP. The draft UPWP is provided to the public for a minimum of 30 days prior to adoption by the TPO Board. The TPO uses a variety of methods to involve the public through posting on its website and social media platforms, sending e-blast and press release notifications, and traditional print media. A printed copy of the UPWP is available for public review at the TPO office during regular business hours. The TPO also ensures the UPWP complies with all public involvement provisions identified in Title VI of the Civil Rights Act of 1964 Nondiscrimination Requirements. The public participation process of the UPWP is described in further detail in the TPO's Public Participation Plan on the TPO's public website. **Appendix A** consists of certification statements and assurances for all tasks in the UPWP. **Appendix B** provides a glossary of terms and acronyms used in this document and on a regular basis by the TPO.

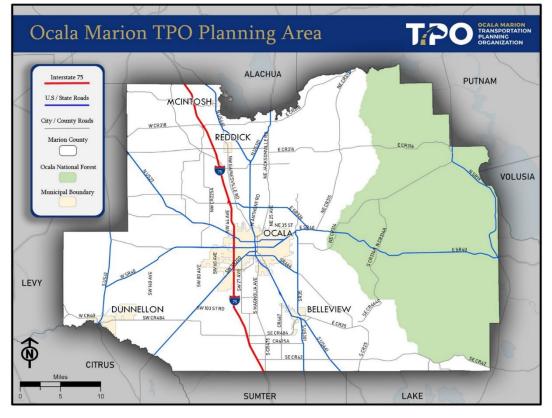

TPO PLANNING AREA

The Ocala Marion TPO is a federally-mandated public agency responsible for the planning and implementation of several modes of transportation, including highway, transit, freight, bicycle, pedestrian and paratransit. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County. The TPO was established in 1981 after the 1980 Census determined the urbanized area of Ocala exceeded a threshold of 50,000 people. Due to population growth in the 1980s, the planning boundaries of the entire county were added. **Figure 1** on the next page illustrates the TPO planning area, which includes all of Marion County. The UPWP incorporates all federal, state, regional and local activities to be performed in the census-designated TPO Urbanized Areas and Marion County.

TPO ORGANIZATION STRUCTURE

TPO Governing Board: The Ocala Marion TPO is governed by a 12-member Board of locally elected officials responsible for the overall guidance of the transportation planning process in Marion County. The Board's guidance includes providing leadership and oversight for the development of transportation policies, plans, programs and strategies. The Board is comprised of: City of Ocala Mayor and four members of the City of Ocala Council; all five Marion County Board of County Commissioners; one member of the City of Belleview City Commission; and one member of the City of Dunnellon City Council. The FDOT District Five

Secretary also serves on the TPO Board as a non-voting member. The Board is guided by bylaws, which were adopted in May 2004 and revised in 2021 and 2022 (https://ocalamariontpo.org/wp-content/uploads/2021/02/TPO-Bylaws-January-2021.pdf).

Transportation Disadvantaged Local Coordinating Board (TDLCB): Coordinates transportation needs of the disadvantaged in Marion County, including individuals with physical and economic challenges and senior citizens facing mobility issues.

Citizens Advisory Committee (CAC): Comprised of citizens from all areas of Marion County and its municipalities. Its primary function is to advise the TPO Board on local transportation issues based on the input of citizens in the area they represent.

Technical Advisory Committee (TAC): Comprised of planners, engineers, and other local and state professionals that review plans, programs and projects from a technical perspective, offering recommendations to the TPO Board.

TPO Staff: The TPO is comprised of professional staff members, including a Director, Grants Coordinator/Fiscal Planner, Administrative Specialist/Social Media Coordinator and a professional Planner. Figure 2 displays a staff organization chart of the TPO (April 2022).

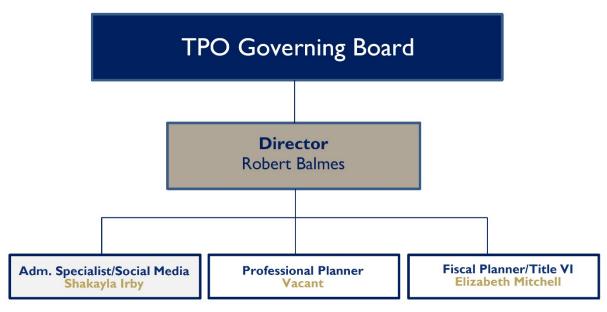

Figure 2: TPO Staff Organization Chart

TPO AGREEMENTS

The TPO executes a number of required agreements to support and facilitate the transportation planning process in Ocala/Marion County. An updated Interlocal Agreement was signed in June 2016 by the TPO's four local governments and FDOT. The Agreement establishes the TPO as the official planning agency for the Ocala urbanized area and other urbanized areas and clusters within Marion County as shown in Figure 1. Additional Joint Participation Agreements (JPA) have been executed for maintaining continued federal and state match funding. In August 2018, the TPO approved an extension to the JPA for the administration of all planning funds in Section 5305(d) through September 30, 2023. The Planning Funds (PL) JPA was approved in June 2021 and is reviewed as part of the annual certification process to ensure consistency with FDOT and TPO policies. In December 2020, a revised Joint Intergovernmental Coordination and Review (ICAR) and Public Transportation Agreement was approved which requires the TPO to have a continuing, cooperative and comprehensive transportation planning process, and coordinate public transportation planning. The agreement is between FDOT, the TPO, East Central Florida Regional Planning Council, City of Ocala and Marion County.

In January 2020, the TPO entered into a revised **Staff Services Agreement** with the Marion County Board of County Commissioners for the County to provide support services and an office facility to the TPO. The agreement also includes a Cost Allocation Plan that the TPO is responsible for payment on a monthly basis to Marion County for indirect services.

The JPA of March 4, 1991, involving the Commission for the Transportation Disadvantaged (CTD) established the Ocala Marion County TPO as the **Designated Official Planning Agency**

(DOPA) for transportation disadvantaged planning. This JPA also established the Ocala Marion TDLCB. The TDLCB meets on a quarterly basis as managed by the TPO.

The TPO is part of a coalition of six Metropolitan Planning Organizations (MPO) that are members of the **Central Florida Metropolitan Planning Organization Alliance (CFMPOA)**. The TPO is party to an **Interlocal Agreement** with the six MPOs, updated in 2018 and 2016.

In 2020, the TPO entered in a **Interlocal Metropolitan Planning Agreement** with the Lake-Sumter Metropolitan Planning Organization to formalize ongoing collaboration for transportation activities in Marion, Lake and Sumter counties.

All Agreements and Bylaws for the TPO Boards and Committees can be found on the TPO website (<u>https://ocalamariontpo.org</u>).

PLANNING EMPHASIS AREAS AND ACTIVITIES

The transportation planning activities of the UPWP are aligned with the '3C' process and follow specific organizational, federal and state emphasis areas. The following summarizes how the TPO's UPWP tasks in fiscal years (FY) 2022/23 and 2023/24 are guided by these respective areas.

PLANNING EMPHASIS AREAS

Long Range Transportation Plan

The **2045 Long Range Transportation Plan (LRTP)** outlines the vision for transportation in Marion County for the next 20 to 25 years. The LRTP reflects input and guidance from government officials, citizen's advisory boards, technical experts, community stakeholders and the general public. The LRTP is also used to forecast future travel demands in Marion County. The 2045 LRTP was adopted by the TPO Board on November 24, 2020 and includes a Needs Assessment and Cost Feasible Plan. Selected projects from the Cost Feasible Plan are identified in the Transportation Improvement Program (TIP) and List of Priority Projects (LOPP). These projects are prioritized on an annual basis. The vision and goals of the 2045 LRTP serve as guidance to transportation planning by the TPO, state and local partners.

2045 LRTP Vision

"Develop a safe, convenient and accessible multimodal transportation system that supports a vibrant economy, preserves existing assets, and protects the natural environment."

2045 LRTP Goals

- 1. Optimize and preserve existing infrastructure.
- 2. Focus on improving safety and security of the transportation system.
- 3. Provide efficient transportation that promotes economic development.
- 4. Promote travel choices that are multimodal and accessible.
- 5. Ensure the transportation system meets the needs of the community.
- 6. Protect natural resources and create quality places.

Federal Planning Factors

In November 2021, the Investment in Infrastructure Jobs Act (IIJA) was signed into law. The IIJA serves as the primary five-year surface transportation legislation and is valid until September 30, 2026. Since regulations and guidance for the TPO's development of the UPWP are not yet available from IIJA, this document will continue to follow the current guidelines under the Fixing America's Surface Transportation Act (Fast Act). The Fast Act identifies ten (10) Planning Factors that shall be considered as part of the development of transportation plans and programs of the TPO. The planning factors are outlined in Title 23 USC, Section 134(h) and listed on the next page. The TPO will update the UPWP, as needed, when new federal regulations and guidelines become available.

Ten Federal Planning Factors:

- 1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- 2. Increase the safety of the transportation system for motorized and non-motorized users;
- 3. Increase the security of the transportation system for motorized and nonmotorized users;
- 4. Increase the accessibility and mobility of people and for freight;
- 5. Protect and enhance the environment, promote energy conservation, improve quality of life, promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- 6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- 7. Promote efficient system management and operation;
- 8. Emphasize the preservation of the existing transportation system;
- 9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- 10. Enhance travel and tourism.

Figure 3 summarizes how the TPO's UPWP integrates the ten planning factors in the transportation planning process by Task.

| UPWP Task | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
|--------------------------|---|---|---|---|---|---|---|---|---|----|
| 1. Administration | х | х | х | х | х | х | Х | Х | х | х |
| 2. Data Collection | х | Х | х | Х | | Х | Х | Х | Х | |
| 3. Long Range Planning | х | х | х | Х | х | Х | Х | Х | Х | х |
| 4. Short Range Planning | х | х | х | х | х | х | Х | Х | х | х |
| 5. Public Transportation | х | Х | х | Х | х | Х | Х | | | Х |
| 6. Public Involvement | х | Х | х | Х | х | Х | Х | Х | Х | х |
| 7. Special Projects | х | Х | Х | Х | Х | Х | Х | Х | Х | Х |
| 8. Regional Activities | х | Х | х | Х | х | Х | Х | Х | Х | Х |
| 9. Local Fund | | | | | | | | | | |

Figure 3: FAST Act Ten (10) Planning Factors and UPWP Tasks

Federal Planning Emphasis Areas (PEA)

On December 30, 2021, FHWA and FTA jointly issued updated Planning Emphasis Areas (PEA). PEAs are specific areas the TPO shall integrate into the ongoing 3C planning work in Ocala/Marion County. The following provides a summary of the eight (8) federal PEAs. **Appendix C** contains more detailed information regarding the eight federal PEAs.

Eight Federal Planning Emphasis Areas (PEA):

- 1. Tackling the Climate Crisis: Transition to Clean Energy, Resilient Future
- 2. Equity and Justice in Transportation Planning
- 3. Complete Streets
- 4. Public Involvement
- 5. Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination
- 6. Federal Land Management Agency (FLMA) Coordination
- 7. Planning and Environmental Linkages (PEL)
- 8. Data in Transportation Planning

Florida Planning Emphasis Areas

The FDOT develops Planning Emphasis Areas on a two-year cycle in coordination with Metropolitan Planning Organizations' UPWP documents. The Emphasis areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPO's are encouraged to address in their respective planning programs. **Figure 4** illustrates the TPO's consideration of the Florida Planning Emphasis Areas in the transportation planning process over the two-year period.

| UPWP Task | Safety | Equity | Resilience | Emerging Mobility |
|--------------------------|--------|--------|------------|----------------------|
| 1. Administration | Х | Х | Х | Х |
| 2. Data Collection | Х | X | X | |
| 3. Long Range Planning | Х | X | X | Х |
| 4. Short Range Planning | Х | Х | Х | |
| 5. Public Transportation | Х | Х | | |
| 6. Public Involvement | Х | Х | Х | Х |
| 7. Special Projects | Х | Х | X | Х |
| 8. Regional Activities | Х | Х | Х | Х |
| 9. Local Fund | | | | |

Figure 4: Florida Planning Emphasis Areas and UPWP Tasks

Appendix C contains further background information from FDOT's Office of Policy Planning. The Florida Planning Emphasis Areas are summarized as follows:

<u>Safety</u>

The FTP and the State's Strategic Highway Safety Plan place top priority on safety, with a state target of zero traffic fatalities and serious injuries. In addition to adopting safety targets, the MPOs must show how their LRTPs and priority projects in their TIPs support progress toward those targets. The UPWP should consider enhancements to data analyses and community involvement to better inform the identification and prioritization of safety projects.

<u>Equity</u>

Executive Order 14008, Tackling the Climate Crisis at Home and Abroad, created the "Justice40 Initiative" that aims to deliver 40 percent of the overall benefits of relevant federal investments to disadvantaged communities. This initiative supports Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, outlines federal policy and defines equity as the consistent and systematic fair, just, and impartial treatment of individuals. The FTP seeks transportation choices that improve accessibility and equity by including a key strategy to enhance affordable transportation, service, and information access options for all ages and abilities and throughout underserved communities. The MPOs are key to identifying and implementing improvements based on data-driven project prioritization that considers not only impacts of transportation projects on a community, but also benefits of projects that can enhance opportunities for a community. The UPWP should address approaches to furthering transportation equity.

<u>Resilience</u>

With the passage of the FAST Act, resilience was introduced as a federal planning factor: "Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation." Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts.

MPOs can address resilience within their planning processes by leveraging tools such as the *FHWA Resilience and Transportation Planning Guide* and *the FDOT Quick Guide: Incorporating Resilience* in the MPO LRTP. It should be noted that while these documents focus primarily on the development of MPO LRTPs and TIPs, addressing resilience should be a consideration within every planning document prepared by an MPO. MPOs should place a particular emphasis on coordination with agency partners responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Additionally, MPOs should consider the additional costs associated with reducing vulnerability of the existing transportation infrastructure. Proactive resiliency planning will help the MPO develop planning documents that are ultimately more realistic and cost-effective.

Emerging Mobility

Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micromobility, to flying cars and space travel. These changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. Implementation of all seven goals of the Florida Transportation Plan can be furthered through both the transformation of major corridors and hubs and the expansion of transportation infrastructure to embrace and support the adoption of emerging mobility. The UPWP should recognize the important influence of emerging mobility on the multimodal transportation system and include related planning studies, collaboration efforts, research, or other activities.

FDOT District Five Planning Activities

The following summarizes the major planning activities of FDOT District Five for the two-year period. **Appendix C** contains more detailed information regarding District planning activities.

Improve Safety

FDOT's mission and top priority is to create a safe, efficient transportation system for all road users in the state of Florida. To continually improve the safety of the traveling public, FDOT participates in several safety campaigns throughout the year, consistently spreads awareness of safety practices through its communication and social media channels, and follows safety standards in every project, every time. FDOT supports the mission of Vision Zero by implementing Target Zero initiatives and by collaborating with our partners to reach zero fatalities and serious injuring on all roads in Florida.

Enhance Mobility

As Florida continues to gain more than 600 residents a day and welcomes more than 126 million annual visitors, it is essential to enhance mobility throughout the state to accommodate its consistent and rapid growth. The Florida Department of Transportation is committed to continuing to enhance our state's transportation system to fit the current and future needs of our residents and visitors. Whether that's through the expansion or enhancement of existing roadways or increased multimodal options, we are committed to building the Florida of the future.

Inspire Innovation

Since it was created, FDOT has been consistently creating innovative solutions to solve transportation challenges throughout the state and has become a leader in transportation across the country. The transportation industry is evolving at a rapid pace, and one of our goals at FDOT is to inspire innovation in everything we do. FDOT is proud to employ some of the best and brightest individuals. In order to continue to provide a safe, efficient transportation system for Florida's residents and visitors and prepare for the future, FDOT encourages every employee to think outside of the box. From the everyday processes we use to complete our work to incorporating the latest technologies, let us be forward-thinking in all we do.

Additional Planning Activities

- MPO Program Management
- Regional Planning
- Environmental Management

Regional Transportation Planning Activities

The following highlights two major regional transportation planning activities to be conducted over the next two-year period within Marion County and the Central Florida region.

I-75 Master Plan

FDOT is conducting a master plan to evaluate transportation improvements and upgrades to I-75 in Sumter, Marion and Alachua Counties. The outcome of this planning process may result in different recommendations to address transportation corridor and interchange needs for certain areas along I-75 in Marion County. The Master Plan is divided into two areas: The Southern Study is from Florida's Turnpike in Sumter County to SR 200 in Marion County (22.5 miles); The Northern Study is from SR 200 to County Road (CR) 234 in Alachua County (25.3 miles). Interchanges to be evaluated include SR 40, US 27, NW 49th, SR 326, CR 236 and CR 234.

Northern Turnpike Extension

The Florida's Turnpike Enterprise (FTE), part of the Florida Department of Transportation, is conducting an Alternative Corridor Evaluation (ACE) and Project Development and Environment (PD&E) Study to evaluate the extension of Florida's Turnpike (State Road 91). The project study area extends from the northern terminus of the Turnpike in Wildwood and includes Citrus, Levy, Marion and Sumter counties. Per Florida Statutes 339.66(6) and Senate Bill 100, the Turnpike is required to submit a PD&E Study status report to the Governor of Florida, President of the Florida Senate and Speaker of the Florida House of Representatives by December 31, 2022.

TPO PLANNING PRIORITIES

The following summarizes the major planning priorities of the TPO for FY 2022/23 and FY 2023/24. Some activities are identified as ongoing or as needed based on changes to federal and state requirements and organizational priorities.

Transportation Improvement Program (TIP)

The TPO will actively manage the FY 2022/23 to 2026/27 TIP, including amendments. The Roll Forward and Federal Obligations Amendments will be adopted by the TPO Board in 2022 and 2023. TPO staff will develop the next TIP for FY 2023/24 to 2027/28, scheduled for adoption by June 2023. The following fiscal year will involve the development of the FY 2024/25 to 2028/29 TIP, scheduled for adoption by June 2024.

2045 Long Range Transportation Plan (LRTP)

The TPO will actively manage the 2045 LRTP and process all amendments, potentially on an annual basis to ensure projects are amended into the Needs and/or Cost Feasible Elements.

2050 Long Range Transportation Plan (LRTP)

The TPO will begin the planning process for development of the 2050 LRTP, which is required to be adopted by the TPO Board in November 2025. Activities include a project management plan, scope development, identification of staff and consulting support, and project kick-off.

Public Participation Plan (PPP)

In 2021, the TPO updated the Public Participation Plan (PPP). The TPO typically updates the PPP every two to three years. During this UPWP cycle, the TPO will conduct an update to the PPP and ensure all public engagement requirements, practices and deadlines are reviewed and updated. This will include emerging or new methods of public participation.

Transportation Disadvantaged Local Coordinating Board (TDLCB)

The TPO serves the transportation disadvantaged community of Ocala/Marion County in partnership with representative agencies and the Community Transportation Coordinator (CTC), currently Marion Senior Services. The TPO will be involved in several major activities including updates to the Transportation Disadvantaged Service Plan (TDSP), annual CTC Evaluation, quarterly TDLCB meetings and annual workshops.

TPO Continuity of Operations Plan (COOP) and Process Documentation

The TPO will develop a Continuity of Operations Plan (COOP) to guide the continued functioning and performance of the TPO. COOP planning is standard organizational practice to ensure the fundamental mission of the TPO is carried out, including a TPO staff order of succession. The TPO will also formalize a compilation of process documentation related to all core work products and activities.

Congestion Management Plan (CMP), State of System Report

In 2021, the TPO completed a major update to the Congestion Management Plan (CMP), which

included a Policy and Procedures Element and a State of the System Report. The TPO plans to update the State of the System Report every two to three years. During this UPWP cycle, the TPO will complete one update to State of the System Report.

Safety Planning Implementation

Improving safety for all modes and users is critical to the future of transportation in Marion County. In 2022, the TPO, in collaboration with its state and local government partners, will adopt the Commitment to Zero Safety Action Plan. As part of future implementation, the TPO will identify and support projects that improve safety, including multimodal and complete streets. The TPO will also be involved in supporting grants; developing online reporting tools and crash reports; improving education and awareness; and the implementation strategies outlined in Commitment to Zero.

Equity in Transportation

The TPO will undertake a process to assess transportation equity in Ocala/Marion County. Based on the result of the 2020 Census, a study or analysis will be conducted that supports a further understanding of the opportunities and challenges associated with transportation equity, and how to support greater access to the multimodal transportation system for all members of the community.

Resiliency Planning

Improving resiliency is crucial to the long-term viability of the transportation system in Ocala/Marion County. As a follow-up to the Transportation Resilience Guidance Paper published in February 2022, the TPO will assess the further development of planning tools and/or a master planning project. The TPO will also identify and support resilience projects, data/information, grants, education and other opportunities.

ACES (Automated, Connected, Electric, Shared-use) Vehicles and Emerging Technologies

The transportation system of the nation is being transformed through ACES and other emerging technologies. The TPO will assess the future implications of these advancements, including the development of policies, plans and/or overall approaches, specific to Ocala/Marion County. This may also involve how to better integrate short-term and long-term planning through the TPO's core planning documents to address the opportunities and challenges of ACEs in the future.

Community Gateway Planning

The TPO will support the planning and coordination of interchange and community gateways in Ocala/Marion County with state and local partner agencies.

Freight Mobility

The transportation and logistics industry is experiencing significant growth in Ocala/Marion County. The TPO will provide support to state and local partners to improve freight mobility. This may include a local freight assessment and/or strategic planning to provide more

accessibility and safety for freight providers, the logistics industry and community residents.

Transportation Studies

As the Ocala/Marion County population and transportation system continues to expand and develop, the TPO may support local state and local governments by performing professional planning activities, not limited to the completion of trail feasibility studies, congestion management corridor studies, complete streets sub-area or corridor specific safety studies, transit and traffic circulation studies. The UPWP will be amended as specific studies are coordinated and formalized. These studies are dedicated to support the implementation of the Congestion Management Plan (CMP) and Commitment to Zero Safety Action Plan.

2020 Census Planning

Pending the outcome of the U.S. Census Urban Area boundaries and Transportation Management Area (TMA) designations by USDOT, the TPO may implement an organizational strategic plan to prepare for necessary transition planning. This may include an assessment of additional federal requirements and organizational changes. The estimated Census implementation timeline is from 2022 to 2024.

UPWP TASKS AND FUNDING

The activities of the UPWP are organized into nine (9) specific tasks. Each task provides an overview of the work completed in the previous UPWP, activities planned for the two-year period, and the funding sources and costs associated with the activities. Summary budget tables for FY 2022/2023 and FY 2023/2024 are on pages 53 to 56.

Task 1: Administration: Identifies all administrative functions to carry out the continuous, cooperative and comprehensive transportation planning process for the TPO area.

Task 2: Data Collection: Includes the collection and analysis of socioeconomic, traffic, crash, land use, and other transportation related data on a continuing basis in order to document changes within the TPO transportation study area.

Task 3: Long Range Planning: Includes work related to the development and maintenance of the Long-Range Transportation Plan (LRTP), performance management, as well as the Efficient Transportation Decision Making Process (ETDM).

Task 4: Short Range Planning: Includes development of the annual Transportation Improvement Program (TIP) and Priority Project development process and reviews of impacts to the transportation system.

Task 5: Public Transportation: Includes all work items related to the Transportation Disadvantaged (TD) Program and the public transportation system in Marion County.

Task 6: Public Involvement: Describes the activities used to encourage public participation in the '3C' transportation planning process.

Task 7: Special Projects: Identifies all short-term projects and/or planning studies undertaken or sponsored by the TPO.

Task 8: Regional Activities: Identifies the transfer of funds to MetroPlan in support of the Central Florida Metropolitan Planning Organization (MPO) Alliance regional planning.

Task 9: Local Fund: Identifies expenditures that are non-reimbursable from state and federal grant sources, provided by the local government host agency.

| A. Personnel | Salaries and fringe benefits. Fringe includes retirement, FICA, |
|----------------------|--|
| | health insurance, workers compensation, and life insurance. |
| B. Consultant | Costs for consulting services in support of TPO planning activities. |
| C. Travel | Costs for travel related to TPO activities. This includes costs |
| | associated with training and educational related activities. |
| D. Direct Expenses | Costs for public advertising, office supplies, computer |
| | equipment, furniture, copier, postage, printing and binding, |
| | software, professional dues, insurance, etc. |
| E. Indirect Expenses | Marion County Cost Allocation through Staff Services Agreement. |
| | |

Budget categories for the UPWP are as follows:

Ocala Marion TPO Unified Planning Work Program

State Soft Match

Section 120 of Title 23, USC, permits FDOT to use toll revenue expenditures as a credit (noncash) toward the non-federal matching share of authorized MPO programs. This credit, referred to as a soft-match, is listed as FDOT state funds in the agency participation tables on pages 53 to 56. For this UPWP cycle, the total soft match provided by FDOT is 18.07% of the CPG (consolidated FHWA PL and FTA 5305d funds). The soft-match replaces the required local government cash-match to the TPO's CPG. The soft-match provided by FDOT for carryover FTA 5305d funds is 20%. This soft-match replaces the previous cash-match requirement of 10% state and 10% local.

FHWA Approval

Any purchase equal to or greater than \$5,000 shall require the pre-approval of the Federal Highway Administration per Section 200 of Title 2, USC.

Indirect Rate – Cost Allocation Plan

Per the Staff Services Agreement between the TPO and Marion County Board of County Commissioners, calculated indirect rates are used by the Office of the Marion County Clerk of the Circuit Court and Comptroller to recover indirect costs of the TPO. These rates are derived from an annual TPO Cost Allocation Plan completed by the Clerk of the Circuit Court and Comptroller. The Plan is prepared in compliance with Section 200 of Title 2, USC. The Plan was presented to and approved in 2021 by the TPO Board and the FDOT. **Appendix E** contains the most current rate, prior TPO Cost Allocation rates, and the Staff Services Agreement with Marion County.

Funding Summary

The following chart summarizes the total funding by source allocated to the TPO for FY 2022/2023 and FY 2023/2024. The CPG is reflected as FHWA PL in each of the nine (9) task tables in both fiscal years for reporting purposes.

| Funding Source | Fiscal Year 2022/2023 | Fiscal Year 2023/2024 |
|--------------------------------------|--------------------------|--------------------------|
| Consolidated Planning Grant (CPG) | \$898,984 | \$669,715 |
| FHWA PL-112 | \$797,150 | \$567,881 |
| FTA 5305(d) | \$101,834 | \$101,834 |
| FTA 5305(d) Carryover (prior grants) | \$146,840 | \$0 |
| CTD (Transportation Disadvantaged) | \$27,551 | \$27,551 |
| Local Funding | \$2,000 | \$2,000 |
| Total: | \$1,075,375 | \$699,266 |

TASK 1: ADMINISTRATION

Purpose

Identifies all administrative functions necessary to carry out the '3C' (continuous, cooperative and comprehensive) transportation planning process for the TPO planning area.

Previous Work Completed

Summary of completed administrative activities in FY 2020/21 and FY 2021/22.

- Administration of TPO meetings, workshops, agendas and public notices.
- Documentation of all TPO meetings, including formal minutes, file management.
- Completion of financial and invoicing tasks for the PL-112 and 5305d grant reimbursement process.
- Travel and attendance to Central Florida MPO Alliance (CFMPOA) and Metropolitan Planning Organization Advisory Council (MPOAC) meetings.
- Development of regional priority projects lists, including coordination with local partners and the CFMPOA.
- Coordination and attendance of meetings with local, state and federal partners.
- Completion of UPWP and amendment updates.
- Completion of updates to the bylaws for the TPO Board, CAC and TAC.
- Completion of the annual Joint Certification with FDOT in 2021 and 2022.
- Completed an update to the TPO Disadvantaged Business Enterprise (DBE) Program, to be adopted in summer 2022.
- Monitored DBE participation and report payments for work completed for TPO.
- Staff and TPO Board travel at meetings, trainings, conferences and workshops.
- Review of federal and state legislation involving transportation funding and programs to MPO/TPO's.
- Coordination with Marion County Departments, including Human Resources, Payroll, Procurement, IT, Administration and Clerk of the Court and Comptroller.
- Annual host Marion County budget process conducted through the Marion County Clerk of the Court and Comptroller.
- Staff management, personnel changes and interviews.
- Staff Services Agreement with Marion County, including revisions.
- Ongoing communication with TPO Board regarding budget status.
- Procurement and contracting with consultants for tasks and projects.
- Procurement of office supplies, equipment and software licenses.
- Management of travel and training for staff and TPO Board members.
- Printing of information for meetings and workshops.
- TPO Audit coordination and completion with the FDOT Office of Inspector General.

Required Activities

The Task 1 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are summarized as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|----------------------------|-----------------------|
| Staff support, administration and security of | Meetings, packets, public | Monthly |
| TPO committees, boards, meetings, workshops | notifications, minutes | |
| Financial tasks, budget management and | Budgets for UPWP and | Ongoing |
| maintenance of electronic files and records | Host Agency | |
| Process timesheets, payroll and | Staff timesheets, | Bi-weekly |
| monthly/quarterly progress reporting | progress reports | |
| Prepare and submit invoices for federal grants, | Invoices, progress reports | Monthly, |
| progress reports and backup documentation | for federal grants | Quarterly |
| Amend, update FY 22/23 to FY 23/24 UPWP | FY 23-24 updated UPWP | As needed |
| Complete FY 24/25 to FY 25/26 UPWP | FY 25-26 new UPWP | May 2024 |
| Prepare financial budgets for host agency | Clerk of Court Budgets | June 2023, 2024 |
| TPO Board budget updates | Budget Summary Reports | Quarterly |
| Participate in annual Joint FDOT/TPO | Certification Reports, | March/April |
| Certification process | Certification Statements | 2023, 2024 |
| Participation in MPOAC and CFMPOA, regional | Meetings, trainings, | Quarterly, |
| or statewide partner meetings, trainings | | Ongoing |
| Coordination with MPOAC on regional and | State planning and | Ongoing |
| statewide planning, prioritization | coordination | |
| Coordinate and attend meetings with federal, | Meeting participation | Ongoing |
| state and local partners | | |
| Maintain and update TPO agreements, board | Revised agreements, | As needed |
| and committee bylaws | bylaws | |
| Update DBE Program guidance | DBE Program document | August 2022 |
| TPO Continuity of Operations Plan (COOP) and | COOP document, Process | December 2022 |

Table 1B: Task 1 Estimated Budget, FY 2023/2024

TASK 2: DATA COLLECTION

Purpose

Identifies all data collection and analysis activities from a number of sources including the City of Ocala, Belleview, Dunnellon, Marion County, FDOT, University of Florida, federal agencies, and law enforcement. This data is used in the development of geographic information systems (GIS) online applications and maps, the annual TPO Traffic Counts Report, crash reporting, support for the Congestion Management Plan (CMP), level of service/traffic analysis and other tasks as deemed necessary.

Previous Work Completed

Summary of completed data collection activities in FY 2020/21 and FY 2021/22.

- Completion of 2021 and 2020 Traffic Counts Reports.
- Completion of interactive and static maps for TPO website, including Traffic Counts, Transportation and Community Features, Transportation Improvement Program and Long-Range Transportation Plan.
- Coordination and review of traffic counts collection with FDOT, City of Ocala and Marion County.
- Collection of crash data and information from FDOT and University of Florida Signal Four Analytics database.
- Participation in Marion County Community Traffic Safety Team (CTST).
- Participation in statewide GIS coordination meetings.
- Data collection support for the Congestion Management Plan (CMP).
- Participation in the regional Transportation Systems Management and Operations (TSM&O) work group.

Required Activities

The Task 2 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|--------------------------|-----------------------|

TASK 3: LONG RANGE PLANNING

Purpose

Identifies activities that support the long-term implementation of TPO transportation programs and projects. Also included are activities that support transportation needs on a local or regional level.

Previous Work Completed

Summary of completed long-range planning activities in FY 2020/21 and FY 2021/22.

- Adoption of the 2045 Long Range Transportation Plan (LRTP).
- Completion of a modification and amendment to the 2045 LRTP.
- Annual updates and adoption of federally required performance measures, including PM-1 Safety, PM-2 Bridge and Pavement, and PM-3 System Performance.
- Coordination with local and regional partners on planning initiatives, local and regional trails and other major projects.
- Participation in the Central Florida Regional Planning Model review.
- Adoption of the FDOT/MPOAC Transportation Performance Measures Consensus Planning Document.
- Coordination with FDOT District Five on Strategic Intermodal System (SIS) project planning and priorities.

Required Activities

The Task 3 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|---------------------------|-----------------------|
| Complete modifications or amendments of the | Update/Amend the 2045 | Ongoing |

TASK 4: SHORT RANGE PLANNING

Purpose

Identifies activities that support the short-term implementation of TPO transportation programs and projects. Also included are activities in support of the annual development and updates of the Transportation Improvement Program (TIP) and List of Priority Projects (LOPP).

Previous Work Completed

The completed short-range planning activities of the TPO in FY 2020/21 and FY 2021/22.

- Developed the annual TIP for both FY 2021/22 to 2025/26 and FY 2022/23 to 2026/27.
- Development of a new TIP document format to support improved public access.
- Development of a new TIP interactive online map on the TPO website.
- Processed TIP amendments.
- Assisted local governments with submission of applications to FDOT for off-system projects.
- Completion of the Annual LOPP process for FY 2027 and FY 2028 (2021, 2022).
- Completion of a revised LOPP guidance publication, including methodology, scoring and ranking, and project lists.
- Published the annual listing of federally-funded obligated projects in the TIP for Federal Fiscal Years (FFY) 2020, 2021.

Required Activities

The Task 4 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|--------------------------|-----------------------|
| Prepare annual TIP, including project database, | FY 2023/24 to 2027/28 | June 2023 |

Table 4B: Task 4 Estimated Budget, FY 2023/2024

TASK 5: PUBLIC TRANSPORTATION

Purpose

Identifies TPO staff support activities that assist the local public transportation system, which includes services provided by SunTran and Marion Transit (MT). SunTran operates fixed-route service on seven routes. MT provides door-to-door paratransit services as well as Americans with Disabilities Act (ADA) service within the fixed-route area of SunTran service. MT also serves as the designated Community Transportation Coordinator (CTC) through the Florida Commission for Transportation Disadvantaged (CTD).

Previous Work Completed

The completed public transportation planning activities of the TPO in FY 2020/21 and FY 2021/22.

- Provided staff support and administration to the Transportation Disadvantaged Local Coordinating Board (TDLCB), quarterly meetings and annual workshop.
- Conducted administration responsibilities for the Florida Commission for Transportation Disadvantaged grant (TD), including quarterly reports, invoices and financial statements.
- Conducted annual reviews of the local CTC, Marion Transit (MT).
- Completed review and approval of the CTC Annual Operating Report (AOR).
- Reviewed CTC's Annual report.
- Developed Request for Proposal (RFP), procurement process and selection of a CTC.
- Completed a minor update to the Transportation Disadvantaged Service Plan (TDSP).
- Completed a major update to the TDSP.
- Conducted public survey to support the TDSP update.
- Completed updates/reviews of TDLCB Bylaws, Grievance Procedures and TD Service Plan revisions.
- Coordination with the CTD state grant program manager.
- Facilitated coordination between the TDLCB, CTC and MT.
- Coordination with SunTran for UPWP tasks and updates.
- Support to SunTran for selection of the Transit Development Plan (TDP), community amenities and facilities consultant teams.
- Participation with SunTran in the transit route realignments and public meetings.

Required Activities

The Task 5 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are on the next page.

| Activity | End Product(s) | Completion Date(s) |
|---|--|----------------------------|
| Staff support and administration of the TDLCB | Meetings, packets, public notifications, minutes | Quarterly |
| Perform CTC report and annual evaluation process | Annual Report | March 2023, 2024 |
| Financial tasks and maintain records for TD grant | Budget for UPWP and Marion Clerk of Court | Ongoing |
| Prepare and submit progress reports and invoices for TD grant | Invoices and progress reports | Quarterly |
| Meetings and coordination with CTC, Commission for Transportation Disadvantaged (CTD) and SunTran | Meetings | Ongoing, As needed |
| Staff training for Transportation Disadvantaged | CTD Annual Conference and workshops | 2022, 2023 |
| Updates/Reviews/Amendments to TDLCB Bylaws, Grievance Procedures and TD Service Plan (TDSP) | Updated documents | Ongoing, As needed |
| TDSP public survey and public engagement | TDSP survey report | Annual |
| Review and approval of CTC Annual Operating Report (AOR) | AOR Review | 2022, 2023 |
| Conduct TD annual Public workshop | Public workshop meeting | 2023, 2024 |
| Coordination and support for TDSP with MT and TDLCB | Annual updated tactical plan | June 2023 June 2024 |
| Prepare and review Actual Expenditure Report (AER) | Annual Expenditure Report (AER) | August 2022 August 2023 |
| Coordinate with SunTran for the Public Transportation Agency Safety Plan (PTASP) and required safety performance targets | PTASP targets | Annual |
| Coordinate with SunTran on the required PTASP transit safety performance measure targets | Reporting and amendment of targets in annual TIP | Annual |
| Coordination and support for public transportation in development of short-term and long-term planning needs for TPO area | Technical assistance, meetings, data and information gathering | As needed |
| Meetings, coordination, support to SunTran | Meetings, services | As needed |

SunTran Required Activities (not part of the TPO's budget)

Public transportation planning activities by SunTran for FY 2022/23 and FY 2023/24 include the following:

- Review congested route segments/intersections for potential ITS applications to improve service.
- Periodically review routes and schedules to determine effectiveness, identify linkages between residential and employment centers.
- Update SunTran website on a regular basis.
- Major update to the Transit Development Plan (TDP).
- Annually updates the TDP.
- Develop annual NTD Report.
- Develop shelter and bench program and projects for fixed-route service area.
- Feasibility Study for a microtransit pilot program.
- Electric Vehicle Fleet Transition Plan.

Responsible Agency: SunTran

TASK 6: PUBLIC INVOLVEMENT

Purpose

Identifies all activities that involve the public in the TPO's '3C' transportation planning process. This includes information dissemination, review of all federally required plans and programs, TPO meetings, public hearings and workshops.

Previous Work Completed

The completed public transportation planning activities of the TPO in FY 2020/21 and FY 2021/22.

- Completed regular updates on the TPO website, including public notices for meetings, meeting agendas and minutes, meeting schedules and all federally required planning document reviews.
- Developed information fact sheets and postcards for public education and awareness.
- Maintained the TPO's Facebook and Twitter social media platforms.
- Regular Facebook and Twitter postings for meeting notices, community events, transportation information and publications.
- Updated the Public Participation Plan (PPP) in 2021.
- Hosted Mobility Week events in 2019 and 2020.
- Maintained social media archive services.
- Participated in American Association of Metropolitan Planning Organization (AMPO) social media and organization spotlight in 2021.
- Provided public notices for all meetings and workshops within seven (7) days to meet state Sunshine Law and PPP directives.
- Developed Limited English Proficiency "I Speak Cards" and Public Comment cards for use in all TPO meetings.
- Instituted non-discrimination statements in English on all public meeting notices and agendas.
- Instituted non-discrimination statement in Spanish on the TPO website.
- Title VI Plan update completed in 2020.
- Documented and responded to all public inquiries and requests for information.
- Developed Annual Reports for 2020 and 2021.
- Created public website page for the Commitment to Zero Safety Action Plan.
- Conducted outreach to solicit interest and applications for the Citizens Advisory Committee (CAC).

Required Activities

The Task 6 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|--|-------------------------|
| Promote more awareness and understanding of the TPO and the 3C planning process | Fact sheets, infographics, postcards | Ongoing |
| Regular updates to TPO website content | Up to date website | Ongoing |
| Develop Annual Report to highlight major activities, accomplishments | 2022, 2023 Annual Reports | January 2023, 2024 |
| Expand social media outreach to gain greater input and feedback on planning activities | Routine postings via Facebook, Twitter, LinkedIn | Weekly |
| Advertise all TPO meetings with minimum 7- days notice to meet state Sunshine Law | Meeting notifications | Monthly, As required |
| Updates to Public Participation Plan | Revised Public Participation Plan (PPP) | As needed |
| Updates to Title VI Plan | Revised Title VI Plan | As needed |
| Monitor and respond to all Title VI and ADA | Formal response, | As needed, |
| complaints | documented report(s) | As required |
| Document and respond to all public inquiries and information requests | Formal responses, documented | Ongoing |
| *Develop an Annual Report document and template for use by staff in conducting public outreach and awareness | Annual Report document and template | January 2023 |
| Social media archive subscription renewals | Social Media archives subscription service | April 2023, 2024 |
| Attend Title VI, ADA, DBE, Limited English Proficiency (LEP) and public involvement training | Completed trainings | Ongoing, Annual |
| Outreach to attain membership for the Citizens Advisory Committee (CAC) | New members of the CAC | Ongoing |
| Participate in FDOT Mobility Week events | Serve as a local host partner | 2022, 2023 |
| Updates to the Safety Action Plan regarding activities and information | Safety Action Plan website updates | Ongoing |

*Task performed by consultant

TASK 7: SPECIAL PROJECTS

Purpose

Identifies special projects and activities that are non-recurring, such as planning studies and research in support of federal and state planning emphasis areas and TPO planning priorities.

Previous Work Completed

The completed special project planning activities of the TPO in FY 2020/21 and FY 2021/22.

- Completed a major update to the Congestion Management Plan (CMP), including public survey, policies and procedures and state of system elements.
- Completed a guidance paper on Transportation Resilience.
- Kick-off and significant progress toward completion of Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion in 2021.
- Development of task work orders, scheduling and procurement processing for CMP, Safety Action Plan and Transportation Resilience Guidance Publication.

Required Activities

The Task 7 activities planned for FY 2022/23 and FY 2023/24, including end products and completion dates are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|---------------------|-----------------------|
| Completion of the Commitment to Zero Safety Action | Commitment to | October 2022 |
| Plan, including online database, maps and files | Zero Action Plan | |
| Implementation of Commitment to Zero safety | Commitment to | Ongoing, as |
| activities, including plan update, online reporting tools, | Zero safety | needed and |
| education/awareness and strategy implementation | implementation | identified |
| Transportation Resiliency planning, including additional | Transportation | Ongoing, as |
| technical tools, master planning, data/information | resiliency planning | needed and |
| gathering, education and grant support for projects | | identified |

TASK 8: REGIONAL ACTIVITIES

Purpose

To promote and enhance interregional transportation planning and coordination with neighboring MPOs by supporting common interests through the Central Florida MPO Alliance (CFMPOA). Participating MPOs/TPOs include: Lake~Sumter MPO, MetroPlan Orlando, Ocala Marion TPO, Polk TPO, River to Sea TPO and Space Coast TPO.

Previous Work:

| Previous Work | Adoption Date/Status | | | | | | |
|--|----------------------|--|--|--|--|--|--|
| CFMPOA Regional priority project list | Annual | | | | | | |
| CFMPOA Quarterly meetings | Quarterly | | | | | | |
| CFMPOA Annual joint meeting with Sun | Annual | | | | | | |
| Coast Transportation Planning Alliance | | | | | | | |
| (SCTPA) | | | | | | | |

Required Activities:

| Required Activities and Work Products | Milestone/Completion Date |
|--|----------------------------|
| CFMPOA Regional Metropolitan | Spring 2024 |
| Transportation Plan summary | |
| CFMPOA Regional priority project list | July 2022 |
| | July 2023 |
| CFMPOA continued coordination amongst | Quarterly meetings/Ongoing |
| regional MPO partners | |

Responsible Agencies:

Participating agencies of CFMPOA include Lake-Sumter MPO, MetroPlan Orlando, Ocala-Marion TPO, Polk TPO, River to Sea TPO, and Space Coast TPO

Budget Tables:

The estimated budget for Task 8 in FY 2022/23 and FY 2023/24 is summarized in Tables 8A and 8B on the next page.

TASK 9: LOCAL FUND

Purpose

Identifies activities and expenditures that are non-reimbursable from state and federal grant sources or local match funds.

Previous Work Completed

Sources of local funds provided by the host agency Marion County supported the following activities in FY 2020/21 and FY 2021/22:

- Professional staff membership dues to the American Planning Association (APA).
- Legislative dues to the Florida Metropolitan Planning Organization Advisory Council (MPOAC).
- TPO Board member expenses.

Required Activities

The activities planned for FY 2022/23 and FY 2023/24 that will be supported by local funding are as follows.

| Activity | End Product(s) | Completion Date(s) |
|--|---------------------------------------|-----------------------|
| Staff professional planning membership dues | APA memberships, grant memberships | Annual |
| Payment for TPO Board member expenses not reimbursable by federal grants | Office expenses | As needed |

APPENDIX A: UPWP STATEMENTS AND ASSURANCES

FLORIDA DEPARTMENT OF TRANSPORTATION UNIFIED PLANNING WORK PROGRAM (UPWP) STATEMENTS AND ASSURANCES

DEBARMENT and SUSPENSION CERTIFICATION

As required by the USDOT regulation on Governmentwide Debarment and Suspension at 49 CFR 29.510

- (1) The Ocala/Marion County TPO hereby certifies to the best of its knowledge and belief, that it and its principals:
 - (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;
 - (b) Have not, within a three-year period preceding this proposal, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under a public transaction, violation of federal or state antitrust statutes; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of the offenses listed in paragraph (b) of this certification; and
 - (d) Have not, within a three-year period preceding this certification, had one or more public transactions (federal, state or local) terminated for cause or default.
- (2) The Ocala/Marion County TPO also hereby certifies that if, later, it becomes aware of any information contradicting the statements of paragraphs (a) through (d) above, it will promptly provide that information to the U.S.D.O.T.

LOBBYING CERTIFICATION for GRANTS, LOANS and COOPERATIVE AGREEMENTS

In accordance with Section 1352 of Title 31, United States Code, it is the policy of the Ocala/Marion County TPO that:

- (1) No Federal or state appropriated funds have been paid or will be paid by or on behalf of the Ocala/Marion County TPO, to any person for influencing or attempting to influence an officer or employee of any Federal or state agency, or a member of Congress or the state legislature in connection with the awarding of any Federal or state contract, the making of any Federal or state grant, the making of any Federal or state loan, extension, continuation, renewal, amendment, or modification of any Federal or state contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- (3) The Ocala/Marion County TPO shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants and contracts and subcontracts under grants, subgrants, loans, and cooperative agreement), which exceeds \$100,000, and that all such subrecipients shall certify and disclose accordingly.
- (4) This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each failure.

FLORIDA DEPARTMENT OF TRANSPORTATION UNIFIED PLANNING WORK PROGRAM (UPWP) STATEMENTS AND ASSURANCES

DISADVANTAGED BUSINESS ENTERPRISE UTILIZATION

It is the policy of the Ocala/Marion County TPO that disadvantaged businesses, as defined by 49 Code of Federal Regulations, Part 26, shall have an opportunity to participate in the performance of MPO contracts in a nondiscriminatory environment. The objectives of the Disadvantaged Business Enterprise Program are to ensure non-discrimination in the award and administration of contracts, ensure firms fully meet eligibility standards, help remove barriers to participation, create a level playing field, assist in development of a firm so it can compete successfully outside of the program, provide flexibility, and ensure narrow tailoring of the program.

The Ocala/Marion County TPO, and its consultants shall take all necessary and reasonable steps to ensure that disadvantaged businesses have an opportunity to compete for and perform the contract work of the Ocala/Marion County TPO, in a non-discriminatory environment.

The Ocala/Marion County TPO shall require its consultants to not discriminate on the basis of race, color, national origin and sex in the award and performance of its contracts. This policy covers in part the applicable federal regulations and the applicable statutory references contained therein for the Disadvantaged Business Enterprise Program Plan, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code

FLORIDA DEPARTMENT OF TRANSPORTATION UNIFIED PLANNING WORK PROGRAM (UPWP) STATEMENTS AND ASSURANCES

TITLE VI/ NONDISCRIMINATION ASSURANCE

Pursuant to Section 9 of US DOT Order 1050.2A, the Ocala/Marion County TPO assures the Florida Department of Transportation (FDOT) that no person shall on the basis of race, color, national origin, sex, age, disability, family or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, the Florida Civil Rights Act of 1992 and other nondiscrimination authorities be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity.

The Ocala/Marion County TPO further assures FDOT that it will undertake the following with respect to its programs and activities:

- 1. Designate a Title VI Liaison that has a responsible position within the organization and access to the Recipient's Chief Executive Officer.
- 2. Issue a policy statement signed by the Chief Executive Officer, which expresses its commitment to the nondiscrimination provisions of Title VI. The policy statement shall be circulated throughout the Recipient's organization and to the general public. Such information shall be published where appropriate in languages other than English.
- 3. Insert the clauses of *Appendices A and E* of this agreement in every contract subject to the Acts and the Regulations
- 4. Develop a complaint process and attempt to resolve complaints of discrimination against sub-recipients. Complaints against the Recipient shall immediately be forwarded to the FDOT District Title VI Coordinator.
- 5. Participate in training offered on Title VI and other nondiscrimination requirements.
- 6. If reviewed by FDOT or USDOT, take affirmative action to correct any deficiencies found within a reasonable time period, not to exceed ninety (90) calendar days.
- 7. Have a process to collect racial and ethnic data on persons impacted by your agency's programs.

THIS ASSURANCE is given in consideration of and for the purpose of obtaining any and all federal funds, grants, loans, contracts, properties, discounts or other federal financial assistance under all programs and activities and is binding. The person whose signature appears below is authorized to sign this assurance on behalf of the Recipient.

APPENDICES A and E

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "Contractor") agrees as follows:

- (1) **Compliance with Regulations:** The Contractor shall comply with the Regulations relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation (hereinafter, "USDOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.
- (2) **Nondiscrimination:** The Contractor, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.
- (3) Solicitations for Subcontractors, including Procurements of Materials and Equipment: In all solicitations made by the Contractor, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials or leases of equipment; each potential subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.
- (4) Information and Reports: The Contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the *Florida Department of Transportation*, the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the *Florida Department of Transportation, the Federal Motor Carrier Safety Administration, Federal Transit Administration, Federal Aviation Administration the florida Department of Transportation*, the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.*
- (5) **Sanctions for Noncompliance:** In the event of the Contractor's noncompliance with the nondiscrimination provisions of this contract, the *Florida Department of Transportation* shall impose such contract sanctions as it or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* may determine to be appropriate, including, but not limited to:
 - a. Withholding of payments to the Contractor under the contract until the Contractor complies, and/or
 - b. Cancellation, termination or suspension of the contract, in whole or in part.

FLORIDA DEPARTMENT OF TRANSPORTATION UNIFIED PLANNING WORK PROGRAM (UPWP) STATEMENTS AND ASSURANCES

- (6) **Incorporation of Provisions:** The Contractor shall include the provisions of paragraphs (1) through (7) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to any subcontract or procurement as the Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. In the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the Contractor may request the Florida Department of Transportation, and, in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.
- **Compliance with Nondiscrimination Statutes and Authorities:** Title VI of the (7) Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 -- 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures nondiscrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq)

APPENDIX B: GLOSSARY OF TERMS AND ACRONYMS

Glossary of Terms and Acronyms

OCALA MARION TRANSPORTATION PLANNING ORGANIZATION

February 2022

| ACRYONYM | NAME | DESCRIPTION |
|----------|---|---|
| 3C | Continuing, Cooperative and Comprehensive | A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding. |
| ACS | American Community Survey | The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people. |
| ADA | Americans with Disabilities Act | The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities. |
| ATMS | Automated Traffic Management System | ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems. |
| BEA | Bureau of Economic Analysis | Federal agency within the Department of Commerce that provides economic data and projections. |
| BLS | Bureau of Labor Statistics | Federal agency within the Department of Labor that tracks federal employment data. |
| BTS | Bureau of Transportation Statistics | The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources. |
| CAAA | Clean Air Act Amendments of 1990 | The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law. |
| CAC | Citizen Advisory Committee | The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented. |
| CBSA | Core Based Statistical Areas | CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel. |
| CFMPOA | Central Florida Metropolitan Planning Organization Alliance | A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region. |
| CFR | Code of Federal Regulations | The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|---|--|
| CFRPM | Central Florida Regional Planning Model | Travel demand forecasting tool used by numerous planning agencies throughout central Florida. |
| CMAQ | Congestion Mitigation and Air Quality Improvement Program | The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.). |
| СМР | Congestion Management Process | A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs. |
| стс | Community Transportation Coordinator | Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation- disadvantaged/). |
| СТД | Commission for Transportation Disadvantaged | Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funs to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc. org/TD/td.html). |
| СТРР | Census Transportation Planning Products | The CTPP is a set of special tabulations designed by and for transportation planners using large sample surveys conducted by the Census Bureau. |
| СТЅТ | Community Traffic Safety Team | An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition. |
| DBE | Disadvantaged Business Enterprise | The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/ programs/dbe/). |
| DOPA | Designated Official Planning Agency | An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/ communitytransystem.htm) |
| DRI | Development of Regional Impact | A large-scale development project that may impact multiple counties or jurisdictions |
| EIS | Environmental Impact Statement | Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|--|---|
| EPA | Environmental Protection Agency | The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others. |
| ETDM | Efficient Transportation Decision Making | Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects. |
| FAA | Federal Aviation Administration | FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety. |
| FAST Act | Fixing America's Surface Transportation Act | The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network. |
| FDOT | Florida Department of Transportation | Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida-https://jobs.myflorida.com/go/ Department-of- Transportation/2817700/). |
| FHWA | Federal Highway Administration | A branch of the U.S. Department of Transportation that administers the federal- aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges. |
| FMTP | Freight Mobility and Trade Plan | FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future. |
| FSUTMS | Florida Standard Urban Transportation Modeling Structure | FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models. |
| FTA | Federal Transit Administration | A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers. |
| FTP | Florida Transportation Plan | Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation. |
| FY | Fiscal Year/ Federal Fiscal Year | The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|---|--|
| GIS | Geographic Information System | Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information. |
| HOV | High-Occupancy Vehicle | Vehicles carrying two or more people. |
| HSIP | Highway Safety Improvement Program | The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. |
| HUD | Department of Housing and Urban Development | HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure. |
| AUI | Infrastructure Investment and Jobs Act | Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending. |
| IRI | International Roughness Index | International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface. |
| ITS | Intelligent Transportation Systems | Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system. |
| LOS | Level of Service | Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects. |
| LOPP | List of Priority Projects | The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding. |
| LRTP/MTP | Long-Range Transportation Plan (or Metropolitan Transportation Plan) | A document that serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and- programs/long-range- transportation-plan-Irtp/. |

| ACRYONYM | NAME | DESCRIPTION |
|------------------|---|---|
| LOTTR | Level of Travel Time Reliability | The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS). |
| MAP-21 | Moving Ahead for Progress in the 21st Century | The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991. |
| МРА | Metropolitan Planning Area | The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out. |
| MPO | Metropolitan Planning Organization | An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau. |
| ΜΡΟΑϹ | Metropolitan Planning Organization Advisory Council | A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process. |
| MSA | Metropolitan Statistical Area | A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting. |
| NTD | National Transit Database | The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems. |
| NEPA | National Environmental Policy Act of 1969 | Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made. |
| NHPP | National Highway Performance Program | The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS. |
| NHPP (Bridge) | National Highway Performance Program (Bridge) | Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)]. |
| NHS | National Highway System | This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500). |

| ACRYONYM | NAME | DESCRIPTION |
|----------|--|---|
| PD&E | Project Development and Environmental Study | A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https:// www.fdotd7studies.com/what-is-a-pde-study.html). |
| PEA | Planning Emphasis Area | Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs. |
| PM | Performance Management | Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals. |
| РРР | Public Participation Plan | The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input. |
| PTASP | Public Transportation Agency Safety Action Plan | A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system. |
| RPC | Regional Planning Council | Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration. |
| SHSP | Strategic Highway Safety Plan | This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads. |
| SIS | Strategic Intermodal System | A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot. gov/planning/sis/default.shtm). |
| SOV | Single-Occupancy Vehicle | Any motor vehicle operated or driven by a single person. |
| STBG | Surface Transportation Block Grant Program | The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs. |
| STIP | Statewide Transportation Improvement Program | The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53. |
| STP | Surface Transportation Program | Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|---|---|
| TAC | Technical Advisory Committee | The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals. |
| ТАМР | Transportation Asset Management Plan | The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts). |
| TAZ | Traffic Analysis Zone | A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups. |
| TD | Transportation Disadvantaged | Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues. |
| TDLCB | Transportation Disadvantaged Local Coordinating Board | The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC). |
| TDM | Transportation Demand Management | Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours. |
| TDP | Transit Development Plan | The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies. |
| TIP | Transportation Improvement Program | A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53. |
| TMA | Transportation Management Area | An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area. |
| TMIP | Travel Model Improvement Program | TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions. |

| ACRYONYM | NAME | DESCRIPTION |
|----------|--|---|
| TOD | TODTransit Oriented DevelopmentTransit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or othe amenities integrated into a walkable neighborhood and located within a half mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org). | |
| ТРМ | TPM Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals. | |
| ТРО | TPO Transportation Planning Organization Org | |
| TRB | Transportation Research Board | The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research. |
| TRIP | Transportation Regional Incentive Program | Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities. |
| TTTR | Truck Travel Time Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer | |
| UA | A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people. | |
| ULB | B Useful Life Benchmark The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration. | |
| UPWP | Unified Planning Work Program UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds. | |
| USC | United States Code | The codification by subject matter of the general and permanent laws of United States. |
| USDOT | United States Department of Transportation | When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency. |
| YOE | Year of Expenditure | The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed. |
| VMT | Vehicle Miles Traveled | A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia). |

APPENDIX C: PARTNER AGENCY PLANNING EMPHASIS AREAS AND ACTIVITIES

Federal Transit Administration Office of the Administrator

1200 New Jersey Ave., SE Washington, D.C. 20590

December 30, 2021

Attention: FHWA Division Administrators FTA Regional Administrators

Subject: 2021 Planning Emphasis Areas for use in the development of Metropolitan and Statewide Planning and Research Work programs.

With continued focus on transportation planning the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) Offices of Planning are jointly issuing updated Planning Emphasis Areas (PEAs). The PEAs are areas that FHWA and FTA field offices should emphasize when meeting with the metropolitan planning organizations, State departments of transportation, Public Transportation Agencies, and Federal Land Management Agency counterparts to identify and develop tasks associated with the Unified Planning Work Program and the Statewide Planning and Research Program. We recognize the variability of work program development and update cycles, so we encourage field offices to incorporate these PEAs as programs are updated.

Please note that this letter is intended only to provide clarity regarding existing requirements. It is not binding and does not have the force and effect of law. All relevant statutes and regulations still apply.

Sincerely,

Nuria Fernandez Administrator Federal Transit Administration

Enclosure

Stephen Pallock

Stephanie Pollack Acting Administrator Federal Highway Administration

<u>Tackling the Climate Crisis – Transition to a Clean Energy,</u> <u>Resilient Future</u>

Federal Highway Administration (FHWA) divisions and Federal Transit Administration (FTA) regional offices should work with State departments of transportation (State DOT), metropolitan planning organizations (MPO), and providers of public transportation to ensure that our transportation plans and infrastructure investments help achieve the national greenhouse gas reduction goals of 50-52 percent below 2005 levels by 2030, and net-zero emissions by 2050, and increase resilience to extreme weather events and other disasters resulting from the increasing effects of climate change. Field offices should encourage State DOTs and MPOs to use the transportation planning process to accelerate the transition toward electric and other alternative fueled vehicles, plan for a sustainable infrastructure system that works for all users, and undertake actions to prepare for and adapt to the impacts of climate change. Appropriate Unified Planning Work Program work tasks could include identifying the barriers to and opportunities for deployment of fueling and charging infrastructure; evaluating opportunities to reduce greenhouse gas emissions by reducing single-occupancy vehicle trips and increasing access to public transportation, shift to lower emission modes of transportation; and identifying transportation system vulnerabilities to climate change impacts and evaluating potential solutions. We encourage you to visit FHWA's Sustainable Transportation or FTA's Transit and Sustainability Webpages for more information.

(See <u>EO 14008</u> on "Tackling the Climate Crisis at Home and Abroad," <u>EO 13990</u> on "Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis." <u>EO 14030</u> on "Climate-Related Financial Risk," See also <u>FHWA Order 5520</u> "Transportation System Preparedness and Resilience to Extreme Weather Events," FTA's "<u>Hazard Mitigation Cost Effectiveness Tool</u>," FTA's <u>"Emergency Relief Manual</u>," and "<u>TCRP Document 70: Improving the Resilience of Transit Systems</u> <u>Threatened by Natural Disasters</u>")

Equity and Justice40 in Transportation Planning

FHWA Division and FTA regional offices should work with State DOTs, MPOs, and providers of public transportation to advance racial equity and support for underserved and disadvantaged communities. This will help ensure public involvement in the planning process and that plans and strategies reflect various perspectives, concerns, and priorities from impacted areas. We encourage the use of strategies that: (1) improve infrastructure for non-motorized travel, public transportation access, and increased public transportation service in underserved communities; (2) plan for the safety of all road users, particularly those on arterials, through infrastructure improvements and advanced speed management; (3) reduce single-occupancy vehicle travel and associated air pollution in communities near high-volume corridors; (4) offer reduced public transportation fares as appropriate; (5) target demand-response service towards communities with higher concentrations of older adults and those with poor access to essential services; and (6) consider equitable and sustainable practices while developing transit-oriented development including affordable housing strategies and consideration of environmental justice populations.

Executive Order 13985 (*Advancing Racial Equity and Support for Underserved Communities*) defines the term "equity" as the consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian

Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality. The term "underserved communities" refers to populations sharing a particular characteristic, as well as geographic communities, that have been systematically denied a full opportunity to participate in aspects of economic, social, and civic life, as exemplified by the list in the preceding definition of "equity." In addition, <u>Executive Order 14008</u> and <u>M-21-28</u> provides a whole-of-government approach to advancing environmental justice by stating that 40 percent of Federal investments flow to disadvantaged communities. FHWA Division and FTA regional offices should work with State DOTs, MPOs, and providers of public transportation to review current and new metropolitan transportation plans to advance Federal investments to disadvantaged communities.

To accomplish both initiatives, our joint planning processes should support State and MPO goals for economic opportunity in disadvantaged communities that have been historically marginalized and overburdened by pollution and underinvestment in housing, transportation, water and wastewater infrastructure, recreation, and health care.

Complete Streets

FHWA Division and FTA regional offices should work with State DOTs, MPOs and providers of public transportation to review current policies, rules, and procedures to determine their impact on safety for all road users. This effort should work to include provisions for safety in future transportation infrastructure, particularly those outside automobiles.

A complete street is safe, and feels safe, for everyone using the street. FHWA and FTA seek to help Federal aid recipients plan, develop, and operate streets and networks that prioritize safety, comfort, and access to destinations for people who use the street network, including pedestrians, bicyclists, transit riders, micro-mobility users, freight delivery services, and motorists. The goal is to provide an equitable and safe transportation network for travelers of all ages and abilities, including those from marginalized communities facing historic disinvestment. This vision is not achieved through a one-size-fits-all solution – each complete street is unique and developed to best serve its community context and its primary role in the network.

Per the National Highway Traffic Safety Administration's 2019 data, 62 percent of the motor vehicle crashes that resulted in pedestrian fatalities took place on arterials. Arterials tend to be designed for vehicle movement rather than mobility for non-motorized users and often lack convenient and safe crossing opportunities. They can function as barriers to a safe travel network for road users outside of vehicles.

To be considered complete, these roads should include safe pedestrian facilities, safe transit stops (if present), and safe crossing opportunities on an interval necessary for accessing destinations. A safe and complete network for bicycles can also be achieved through a safe and comfortable bicycle facility located on the roadway, adjacent to the road, or on a nearby parallel corridor. Jurisdictions will be encouraged to prioritize safety improvements and speed management on arterials that are essential to creating complete travel networks for those without access to single-occupancy vehicles.

Public Involvement

Early, effective, and continuous public involvement brings diverse viewpoints into the decisionmaking process. FHWA Division and FTA regional offices should encourage MPOs, State DOTs, and providers of public transportation to increase meaningful public involvement in transportation planning by integrating Virtual Public Involvement (VPI) tools into the overall public involvement approach while ensuring continued public participation by individuals without access to computers and mobile devices. The use of VPI broadens the reach of information to the public and makes participation more convenient and affordable to greater numbers of people. Virtual tools provide increased transparency and access to transportation planning activities and decisionmaking processes. Many virtual tools also provide information in visual and interactive formats that enhance public and stakeholder understanding of proposed plans, programs, and projects. Increasing participation earlier in the process can reduce project delays and lower staff time and costs. More information on VPI is available here.

<u>Strategic Highway Network (STRAHNET)/U.S. Department of</u> <u>Defense (DOD) Coordination</u>

FHWA Division and FTA regional offices should encourage MPOs and State DOTs to coordinate with representatives from DOD in the transportation planning and project programming process on infrastructure and connectivity needs for STRAHNET routes and other public roads that connect to DOD facilities. According to the Declaration of Policy in 23 U.S.C. 101(b)(1), it is in the national interest to accelerate construction of the Federal-aid highway system, including the Dwight D. Eisenhower National System of Interstate and Defense Highways, because many of the highways (or portions of the highways) are inadequate to meet the needs of national and civil defense. The DOD's facilities include military bases, ports, and depots. The road networks that provide access and connections to these facilities are essential to national security. The 64,200-mile STRAHNET system consists of public highways that provide access, continuity, and emergency transportation of personnel and equipment in times of peace and war. It includes the entire 48,482 miles of the Dwight D. Eisenhower National System of Interstate and Defense Highways and 14,000 miles of other non-Interstate public highways on the National Highway System. The STRAHNET also contains approximately 1,800 miles of connector routes linking more than 200 military installations and ports to the primary highway system. The DOD's facilities are also often major employers in a region, generating substantial volumes of commuter and freight traffic on the transportation network and around entry points to the military facilities. Stakeholders are encouraged to review the STRAHNET maps and recent Power Project Platform (PPP) studies. These can be a useful resource in the State and MPO areas covered by these route analyses.

Federal Land Management Agency (FLMA) Coordination

FHWA Division and FTA regional offices should encourage MPOs and State DOTs to coordinate with FLMAs in the transportation planning and project programming process on infrastructure and connectivity needs related to access routes and other public roads and transportation services that connect to Federal lands. Through joint coordination, the State DOTs, MPOs, Tribal Governments, FLMAs, and local agencies should focus on integration of their transportation planning activities and develop cross-cutting State and MPO long range transportation plans, programs, and corridor studies, as well as the Office of Federal Lands

Highway's developed transportation plans and programs. Agencies should explore opportunities to leverage transportation funding to support access and transportation needs of FLMAs before transportation projects are programmed in the Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). Each State must consider the concerns of FLMAs that have jurisdiction over land within the boundaries of the State (23 CFR 450.208(a)(3)). MPOs must appropriately involve FLMAs in the development of the metropolitan transportation plan and the TIP (23 CFR 450.316(d)). Additionally, the Tribal Transportation Program, Federal Lands Transportation Program, and the Federal Lands Access Program TIPs must be included in the STIP, directly or by reference, after FHWA approval in accordance with 23 U.S.C. 201(c) (23 CFR 450.218(e)).

Planning and Environment Linkages (PEL)

FHWA Division and FTA regional offices should encourage State DOTs, MPOs and Public Transportation Agencies to implement PEL as part of the transportation planning and environmental review processes. The use of PEL is a collaborative and integrated approach to transportation decisionmaking that considers environmental, community, and economic goals early in the transportation planning process, and uses the information, analysis, and products developed during planning to inform the environmental review process. PEL leads to interagency relationship building among planning, resource, and regulatory agencies in the early stages of planning to inform and improve project delivery timeframes, including minimizing duplication and creating one cohesive flow of information. This results in transportation programs and projects that serve the community's transportation needs more effectively while avoiding and minimizing the impacts on human and natural resources. More information on PEL is available <u>here</u>.

Data in Transportation Planning

To address the emerging topic areas of data sharing, needs, and analytics, FHWA Division and FTA regional offices should encourage State DOTs, MPOs, and providers of public transportation to incorporate data sharing and consideration into the transportation planning process, because data assets have value across multiple programs. Data sharing principles and data management can be used for a variety of issues, such as freight, bike and pedestrian planning, equity analyses, managing curb space, performance management, travel time reliability, connected and autonomous vehicles, mobility services, and safety. Developing and advancing data sharing principles allows for efficient use of resources and improved policy and decisionmaking at the State, MPO, regional, and local levels for all parties.

Florida Planning Emphasis Areas 2021

The Florida Department of Transportation (FDOT) Office of Policy Planning develops *Planning Emphasis Areas* on a two-year cycle in coordination with the development of metropolitan planning organizations' (MPOs) respective Unified Planning Work Programs (UPWPs). Emphasis areas set planning priorities, support the Florida Transportation Plan, and give importance to topic areas which MPOs are encouraged to address as they develop their planning programs. Implementation of the seven (7) goals of the Florida Transportation Plan requires embracing innovation; extensive collaboration across jurisdictions, modes and disciplines; an emphasis on customer service; data and performance feedback; and strategic investments for the efficient and effective allocation of resources.

Florida MPOs should consider emphasizing the following four (4) planning topics when updating their UPWPs.

Safety

The Florida Transportation Plan and the State's Strategic Highway Safety Plan place top priority on safety, with a state target of zero traffic fatalities and serious injuries. In addition to adopting safety targets, the MPOs must show how their Long Range Transportation Plan (LRTP) and priority projects in their Transportation Improvement Program (TIP) support progress toward those targets. The UPWP should consider enhancements to data analyses and community involvement to better inform the identification and prioritization of safety projects.

Equity

Executive Order 14008, <u>Tackling the Climate Crisis at Home and Abroad</u>, created the "Justice40 Initiative" that aims to deliver 40 percent of the overall benefits of relevant federal investments to disadvantaged communities. This initiative supports Executive Order 13985, <u>Advancing</u> <u>Racial Equity and Support for Underserved Communities Through the Federal Government</u>, outlines federal policy and defines equity as the consistent and systematic fair, just, and impartial treatment of individuals. The Florida Transportation Plan seeks transportation choices that improve accessibility and equity by including a key strategy to enhance affordable transportation, service, and information access options for all ages and abilities and throughout underserved communities. The MPOs are key to identifying and implementing improvements based on data-driven project prioritization that considers not only impacts of transportation projects on a community, but also benefits of projects that can enhance opportunities for a community. The UPWP should address approaches to furthering transportation equity.

Resilience

With the passage of the FAST Act, resilience was introduced as a federal planning factor: "Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation." Resilience is defined as the ability to adapt to changing

conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts.

MPOs can address resilience within their planning processes by leveraging tools such as the *FHWA Resilience and Transportation Planning Guide* and *the FDOT Quick Guide: Incorporating Resilience* in the MPO LRTP. It should be noted that while these documents focus primarily on the development of MPO LRTPs and TIPs, addressing resilience should be a consideration within every planning document prepared by an MPO. MPOs should place a particular emphasis on coordination with agency partners responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Additionally, MPOs should consider the additional costs associated with reducing vulnerability of the existing transportation infrastructure. Proactive resiliency planning will help the MPO develop planning documents that are ultimately more realistic and cost-effective.

Emerging Mobility

Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility, to flying cars and space travel. These changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. Implementation of all seven goals of the Florida Transportation Plan can be furthered through both the transformation of major corridors and hubs and the expansion of transportation infrastructure to embrace and support the adoption of emerging mobility.

The UPWP should recognize the important influence of emerging mobility on the multi-modal transportation system and include related planning studies, collaboration efforts, research, or other activities.

Contact Information: Abra Horne, FDOT, Metropolitan Planning Administrator 850-414-4901 Abra.Horne@dot.state.fl.us

District Planning Activities

At Florida Department of Transportation (FDOT), our mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of our environment and communities. In order to achieve FDOT's mission and to remain one of the top DOTs in the country, FDOT Secretary Kevin J. Thibault has implemented the department's Vital Few: **Improve Safety, Enhance Mobility, Inspire Innovation, and Foster Talent.** These four core areas should be at the forefront of everything we do as we continue to serve the residents and visitors of Florida. We should always strive to improve safety for all road users, enhance mobility for a growing Florida, inspire innovation within the transportation industry and foster talent within our agency by attracting the best and brightest employees in the nation.

Improve Safety

FDOT's mission and top priority is to create a safe, efficient transportation system for all road users in the state of Florida. To continually improve the safety of the traveling public, FDOT participates in several safety campaigns throughout the year, consistently spreads awareness of safety practices through its communication and social media channels, and follows safety standards in every project, every time. FDOT supports the mission of Vision Zero by implementing Target Zero initiatives and by collaborating with our partners to reach zero fatalities and serious injuring on all roads in Florida.

- Incorporate safety into all planning activities for all modes
 - Corridor studies
 - Bicycle and Pedestrian plans and projects
 - o Transit plans and projects
 - Operational improvements
 - Intersection safety
 - Rail safety
 - Establish target speed for corridors and projects
- Develop and maintain District safety plans
- State Highway Safety Plan
- Safety Campaigns:
 - o Target Zero
 - o Alert Today Florida
 - Safe Mobility for Life
- Safety Emphasis Areas
 - Aggressive driving
 - Aging road users and teen drivers
 - Distracted driving

- Impaired driving
- Intersection crashes
- Lane departure crashes
- Traffic records data
- Vulnerable road users
- Speed Management
- Crash data

Enhance Mobility

As Florida continues to gain more than 600 residents a day and welcomes more than 126 million annual visitors, it is essential to enhance mobility throughout the state to accommodate its consistent and rapid growth. The Florida Department of Transportation is committed to continuing to enhance our state's transportation system to fit the current and future needs of our residents and visitors. Whether that's through the expansion or enhancement of existing roadways or increased multimodal options, we are committed to building the Florida of the future.

- Systems Planning
 - Travel demand model development
 - o Interchange analysis and reviews
 - Level of Service (LOS)
 - Growth management reviews (traffic impact analysis)
 - System maintenance
 - GIS application development and data maintenance
 - Management of data and statistics (track trends)
 - Traffic count program
 - Functional classification
 - Incorporate CAV technology into infrastructure improvements
- Modal Development
 - Incorporate all modes into planning activities
 - Corridor studies that integrate transportation and land use
 - Bicycle and pedestrian facilities
 - Filing gaps in the network
 - Improvements and enhancements included with all plans and projects
 - Multi use trails and side paths
 - Connections to transit
 - o Public transit
 - Increasing accessibility to transit routes
 - Commuter Assistance Program
 - Transit agency program management and technical assistance

Florida Department of Transportation District Five

- Administration/Program Management of state and federal transit funds
- Assistance to develop transit plans
 - Transit Development Plan (TDP)
 - Transit Asset Management
 - Title VI
 - Transit Disadvantaged Service Plan (TDSP)
- Fixed Guideway Systems
 - Greater Orlando Area Airport (GOAA)
 - SunRail
- Triennial safety audits
- Transportation Disadvantaged Local Coordinating Boards
- Freight and goods movement
 - District Freight Plan
 - Truck Parking Feasibility Studies
 - Sub-area Freight Studies
- o SunRail
- Context Classification
- Incident management
- Active work zone management
- Incorporate TSM&O strategies
- Expand flexibility of funding to support multimodal projects
 - District allocation of state funds for transit operations

Inspire Innovation

Since it was created, FDOT has been consistently creating innovative solutions to solve transportation challenges throughout the state and has become a leader in transportation across the country. The transportation industry is evolving at a rapid pace, and one of our goals at FDOT is to inspire innovation in everything we do. FDOT is proud to employ some of the best and brightest individuals. In order to continue to provide a safe, efficient transportation system for Florida's residents and visitors and prepare for the future, FDOT encourages every employee to think outside of the box. From the everyday processes we use to complete our work to incorporating the latest technologies, let us be forward-thinking in all we do.

- Improve innovation process
 - o Ideation approach
 - o Incorporate innovation into all FDOT activities and function
- Training
- Data needs and sharing
- Launch platform to engage FDOT staff

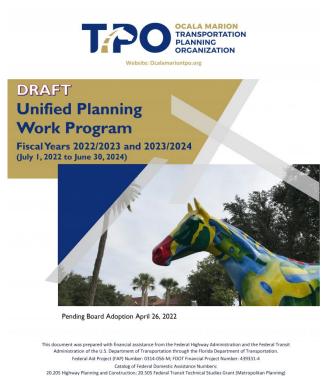

- o Innovator Teams
- Migrate ideas
- Monitor and report
 - Develop reports
 - Share information

Additional Planning Activities

- MPO Program Management

FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) COMMENTS

UNIFIED PLANNING WORK PROGRAM (UPWP) REVIEW CHECKLIST

TPO responses in red (4/6/2022).

| MPO: | Ocala Marion TPO | | UPWP Draft # or Date: | Draft #1 3/14/22 |
|-----------|------------------|-------------------------------|-----------------------|------------------|
| Review #: | 1 | Date of Review: March 15, 202 | 2 Reviewed By: | LLH |

The following UPWP Review Checklist is provided to assist in the review of the MPO's UPWP. This Review Checklist is to be completed by the MPO Liaison and included in the UPWP Appendix.

Comments should be categorized as:

Editorial: Comments may be addressed by MPO, but would not affect approval of the document, i.e., grammatical, spelling, and other related errors.

Enhancement: Comments may be addressed by MPO, but would not affect approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: Comment MUST be addressed to meet minimum state and federal requirements to obtain approval. The reviewer must clearly identify the applicable state or federal policies, regulations, guidance, procedures, or statues that the document does not conform with.

TPO Response

A space for comments for each section is provided at the bottom of each section.

UPWP Cover & Title Page

Does the cover or title page include the following information?

- MPO name, address, website? Yes If yes, page number: 1
- CFDA number (FHWA PL & SU: 20.205, FTA 5305: 20.505)? Yes If yes, page number: 1
- Identification of agencies providing funds for the UPWP? Yes If yes, page number: 1
- Financial Project Number (FPN) for each contract shown in UPWP? Yes If yes, page number: 1
- Federal Award Identification Number (FAIN) for FHWA contracts (or the Federal Aid Project Number [FAP])? Yes If yes, page number: 1
- Correct State Fiscal Years? Yes If yes, page number: 1
- Statement of nondiscrimination? Yes If yes, page number: 2
- DRAFT UPWP: Space for adoption date and revision dates? Yes If yes, page number: 1
- FINAL UPWP: Adoption date and space for revision dates? Select response If yes, page number: xx

Editorial Page numbers referred to correspond with page numbers of pdf file.

Required Content

Does the UPWP have the following information?

• Introduction? Yes If yes, page number: 5

- Organization and Management? Select response If yes, page number: xx
- UPWP Planning Task Pages? Yes If yes, page number: 6
- Funding Source Budget Table and Summary Budget Table? Yes If yes, page number: 20
- Definition of acronyms used in UPWP? Yes If yes, page number: 67
- District Planning Activities? Yes If yes, page number: 14
- Indirect Rate Approval (if required)? Yes If yes, page number: 94
 - o Cost Allocation Plan and Certificate of Indirect Cost in an appendix? Yes If yes, page number: 92
- In TMAs, the MPO must identify and include cost estimates for transportation planning, research and technology transfer activities funded with other federal or state and/or local funds being conducted within the MPO area (this includes planning and feasibility studies by other entities) (23 CFR 420.111(e)). Not Applicable If yes, page number: xx
- DRAFT UPWP:
 - o A place for the signed Resolution adopting the final UPWP? Yes If yes, page number: 3
 - A place for the draft Resolution to adopt Travel Policy if not using FDOT policy (if required)? No If yes, page number: xx
 - o A place for the Cost Analysis Certification Statement? No If yes, page number: xx
 - A place for the FHWA Certifications and Assurances? Yes If yes, page number: 60
- FINAL UPWP:
 - The signed Resolution adopting the UPWP? Select response If yes, page number: xx
 - The signed Resolution adopting the Travel Policy if not using FDOT policy (if required)? Select response If yes, page number: xx
 - o The signed Cost Analysis Certification Statement? Select response If yes, page number: xx
 - The signed FHWA Certifications and Assurances? Select response If yes, page number: xx
 - UPWP Comments? Select response If yes, page number: xx
- Appendix to include items previously mentioned: Travel Policy (if required), Cost Allocation Plan and Certificate of Indirect Cost (if required), and UPWP Comments? Yes If yes, page number: 60

| | | TPO Responses |
|----------|---|---|
| Critical | -Include Cost Analysis Certification Statement in final UPWP document | ent • TPO included Certification Form in Fina |
| Childi | -Include resolution adopting Travel Policy | TPO included Travel Resolution for Final |

Introduction

Does the introduction include the following elements?

- Definition and purpose of the UPWP? Yes If yes, page number: 5
- Overview of MPO's comprehensive transportation planning activities? Yes If yes, page number: 5
- Discussion of planning priorities, both MPO and local? Yes If yes, page number: 16
- Statement of CPG participation: "The FDOT and the (insert organization name) participate in the Consolidated Planning Grant (CPG). The CPG enables FDOT, in cooperation with the MPO, FHWA, and FTA, to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division. These funds are annually apportioned to FDOT as the direct recipient and allocated to the MPO by FDOT utilizing formulas approved by the MPO, FDOT, FHWA and FTA in accordance

with 23 CFR 420.109 and 49, U.S.C. Chapter 53. The FDOT is fulfilling the CPG's required 18.07% non-federal share (match) using Transportation Development Credits as permitted by 23 CFR 120(i) and FTA C 8100.1D". Yes If yes, page number: 5

- Definition of soft match: Section 120 of Title 23, U.S.C., permits a State to use certain toll revenue expenditures as a credit toward the non-Federal matching share of all programs authorized by Title 23, (with the exception of Emergency Relief Programs) and for transit programs authorized by Chapter 53 of Title 49, U.S.C. This is in essence a "soft-match" provision that allows the Federal share to be increased up to 100% to the extent credits are available. The "soft match" amount being utilized to match the FHWA funding in the UPWP is 18.07% of FHWA program funds for a total of \$? Yes If yes, page number: 20
- Description of public involvement process used in development of MPO's UPWP? Yes 🛛 No 🗆 Page number: 6
- Description of how the MPO's addresses the <u>Federal Planning Factors</u>-(23 CFR 450.306(b)) can be demonstrated using a matrix? Yes If yes, page number: 10
- Description of how the MPO's UPWP addresses the <u>Florida Planning Emphasis Areas 2021</u> and the <u>2021 Federal</u> <u>Planning Emphasis Areas</u>? Yes If yes, page number: 11
- If MPO is not in attainment, description of transportation related air quality planning activities regardless of funding sources or agencies conducting activities? Not Applicable If yes, page number: xx

No comment Click here to enter comments

MPO Organization and Management

At a minimum, does the UPWP include information on the following items?

- Identification of participants and description of role in the UPWP planning process? Yes If yes, page number: 5
- Discussion of agreements, including date executed
 - Metropolitan Planning Agreement (FHWA funds)? Yes If yes, page number: 8
 - Public Transportation Grant Agreements (prior year FTA funds)? Yes If yes, page number: 8
 - Interlocal Agreement for the Creation (or Redesignation) of the Metropolitan Planning Organization?
 Yes If yes, page number: 8
 - Intergovernmental Coordination and Review and Public Transportation Coordination Joint Participation Agreement (ICAR)? Yes If yes, page number: 8
 - Memorandum of Understanding between MPOs and/or FDOT if transferring funds to accomplish Regional Activities?

No If yes, page number: xx

- Discussion and identification of operational procedures and bylaws including date executed?
 - Continuity of Operations (COOP): Yes If yes, page number: 16
 - MPO Bylaws: No If yes, page number: xx
- Does the MPO include the following SIGNED Certifications and Assurances section?
 - o Disadvantaged Business Enterprise Utilization? Yes If yes, page number: 63
 - o Debarment and Suspension Certification? Yes If yes, page number: 61
 - o Lobbying Certification for Grants, Loans and Cooperative Agreements? Yes If yes, page number: 62

- o Title VI/Nondiscrimination Assurances? Yes If yes, page number: 64
- Appendices A and E? Yes If yes, page number: 65
- Discussion of Indirect Rate Plan, and in an appendix include signed Cost Allocation Plan and Certificate of Indirect Cost, if applicable? Yes If yes, page number: 92

- MPO must include discussion of bylaws and operational procedures, with date adopted. Note link to bylaws is included in document. <u>TPO Responses</u>

Critical

- -No discussion of indirect rate -Include CFMPO MOU
- TPO added date/background to TPO Board bylaws
- Indirect rate is discussed in detail under Cost Allocation on page 17 TPO changed sub-section heading to Indirect Rate Cost Allocation
- CFMPO Interlocal Agreement updates in 2016, 2018 were referenced

Work Elements/Tasks Sheets

At a minimum, does the UPWP have the following distinct tasks or subtasks?

- MPO Administration? Yes If yes, page number: 21
- Transportation Improvement Program (TIP)? Yes If yes, page number: 32
- Long Range Transportation Plan (LRTP)? Yes If yes, page number: 29
- MPO Regional Activities Task (if required)? Yes If yes, page number: 50

No comment Click here to enter comments

Do each of the Work Element/Task Summary Pages include the following?

- Is each Task Sheet named and numbered? Yes
- Does each Task Sheet include Purpose, Previous Work, Required Activities? Yes
- Do the required activities list who will be completing the work? No
- Does each Tasks Sheet indicate who is the responsible agency or agencies? Yes
- Does each Task Sheet include end products/deliverables with scope and estimated completion date? Yes
- Does supporting narrative for each task provide sufficient detail to determine eligibility, necessity, and reasonableness of the purchase? Yes
- If memberships are listed as an expense, does it state that the memberships are for organizational memberships, not individual memberships? No If yes, page number: xx

-Include more detail about who will complete work tasks and activities (TPO staff, consultant,

Critical

- other agency staff, etc.) -Indicate agency memberships vs. individual memberships. Note that membership expenses are
- budgeted as local funds TPO Responses
 - TPO completed by adding responsible parties by task for both fiscal years.
 - Memberships are professional for staff and were be identified more clearly in Task 9

Work Elements/Tasks Sheets Budget Tables

Did the MPO use the UPWP Budget Table template provided by Central Office for task budget tables? Yes

Did the MPO prepare Task Summary Budget tables for year 1 and year 2 (either individually or combined)? Yes page number: 56

Does MPO Administration Task have subcategory for:

• Personnel Services? Yes If yes, page number: 23

- Equipment? Equipment costing more than \$5,000 per item should be listed separately. Yes If yes, page number: 23
- Travel? Yes If yes, page number: 23
- Supplies? Supplies costing more than \$1,000 per item should be listed separately. Yes If yes, page number: 23
- Direct Expenses? Yes If yes, page number: 23
- o Indirect Expenses (only required if MPO has an approved indirect rate)? Yes If yes, page number: 23
- Are Atypical expenses (see <u>Guide for UPWP Development</u>) clearly described? No If yes, page number: xx
- Is Annual Audit expense included, if required? Yes If yes, page number: 93

Do each of the other Work Element/Task Summary Estimated Budget Tables include the following?

- Personnel Services? Yes
- Consultant Services (if using consultant on task)? Yes
- Travel (if needed)? Yes
- Direct Expenses (if needed)? Yes
- Indirect Expenses (only required if MPO has an approved indirect rate)? Not Applicable

| Supplies (i | if needed)? Not Applicable | TPO Responses |
|---------------------------------|---|--|
| | | • The TPO has not meet the SSA - Single Source Audit |
| Equipmen | t (if needed)? Not Applicable | threshold of \$750,000 expended of federal funds in one |
| | -Note annual audit expenses included in Cost Allocation Plan -No atypical expenses noted, please include if there are any | |
| Editorial | -No capital expenses (equipment greater than \$5000) noted table if any anticipated • None currently planned, but will be n | l, please include separately in budget loted in future through amendment, if needed |
| | -No supply costs greater than \$1000 noted, please include s anticipated • TPO denoted more details in Task 1 related to softw | |

MPO Regional Activities Task (required if MPO is transferring funds between MPOs and/or FDOT to complete regional planning activities)

Does the MPO have distinct tables to reflect MPO funding and overall regional task funding? In the UPWP Budget Table template provided by Central Office, these tables are called MPO Regional Activities and All Regional Accounting. Yes page number: 51

Do the Regional Work Element/Task Budget Table(s):

- Show ALL agencies (e.g., other MPOs, FDOT) that are included in the regional activities? Yes If yes, page number:
 50
- Show amounts to be transferred by the MPO to other agencies (if applicable)? Yes If yes, page number: 51
- Show amounts to be received by the MPO from other agencies (if applicable)? Not Applicable If yes, page number:
 xx
- Show activities the funds are being used for? Yes If yes, page number: 50
- Do all participating MPOs use identical:
 - Descriptions of the activities to be completed Select response If yes, page number: xx

o Task name, activity description(s) and budgeted funds Select response If yes, page number: xx

Editorial Regional planning task language and comparison with CFMPOA member MPO draft UPWP documents will be forthcoming. Thank you.

Funding Source Budget Table

Did the MPO use the UPWP Budget Table template provided by Central Office for Funding Source Budget Table? Yes

Total FY 2023 contract amounts:

- DRAFT UPWP:
 - PL funds, which include FDOT FY 23 FTA 5305(d) and FY 23 PL funds (refer to Chris Bratton's PL Spreadsheet *total should not include estimated amount to be de-ob'd from FY 2021-22*)? Yes If yes, page number: 56
 - o STBG or other federal funds (FY 2023 amount shown in FDOT Tentative Work Program)? Yes
 - Prior year active FTA contracts (PTGAs) with estimated amount? (contracts will be trued up in the fall once we have remaining balances at end of fiscal year.) Yes

• FINAL UPWP:

- PL funds, which include FDOT FY 23 FTA 5305(d) and FY 23 PL funds (refer to Chris Bratton's UPDATED PL Spreadsheet which will include the MPO Board approved de-ob'd amount)? Select response
- STBG funds or other federal funds (FY 2023 amount shown in FDOT Tentative Work Program) + MPO Board approved de-ob'd funds (if applicable) Select response
- Prior year active FTA contracts (PTGAs) with estimated amount? (contracts will be true-d up in fall once we have remaining balances at end of fiscal year.) Select response
- Does Funding Source Budget Table include soft match amounts? Yes
- No comment Click here to enter comments

Total FY 2024 contract amounts:

- DRAFT UPWP:
 - PL funds, which include FDOT FY 24 FTA 5305(d) and FY 24 PL funds (refer to Chris Bratton's PL Spreadsheet)? Yes If yes, page number: 57
 - o STBG or other federal funds (FY 2024 amount shown in FDOT Tentative Work Program)? Yes
- FINAL UPWP:
 - PL funds, which include FDOT FY 24 FTA 5305(d) and FY 23 PL funds (refer to Chris Bratton's UPDATED PL Spreadsheet)? Select response
 - STBG funds or other federal funds (FY 2023 amount shown in FDOT Tentative Work Program) + MPO Board approved de-ob'd funds (if applicable) Select response
- Does Funding Source Budget Table include soft match amounts? Yes

Choose a category Click here to enter comments

Since the UPWP is the "Scope of Service" for the MPO Agreement, it is important to confirm that the total of Year 1 and Year 2 amounts in the UPWP also match what is shown on the MPO Agreement.

- Does FINAL UPWP PL amounts shown in FY 2023 plus FY 2024 match what is shown on new MPO Agreement? Yes
- Does Other FHWA funding (i.e., SU, CMAQ, etc.,) amounts shown in FY 2023 and FY 2024 match what is shown on new MPO Agreement? Yes

Editorial New MPO agreements forthcoming

Summary Budget Table

Did the MPO use the UPWP Budget Table template provided by Central Office for the Summary Budget Table? Yes

Do the total FY 2023 contract amounts match what is shown on Funding Source Budget Table? Yes

Do the total FY 2024 contract amounts match what is shown on Funding Source Budget Table? Yes

TPO Response: Changes made to Task 8 Regional Planning. This includes identifying outgoing funds to MetroPlan Orlando in orange.

UPWP Guide provided by Central Office states:

MPO Regional Activities

The MPO Regional Activities and All Regional Accounting tables should be used to show incoming and outgoing funds for regional tasks that involve the transfer of funds between MPOs. These table are only for tasks that require the physical transfer of funds. This does not include shared costs (e.g., health benefits for MPO staff) or activities that do not result in the transfer of funds or participation of a single MPO in coordination with other regional entities (e.g., attendance at MPOAC or FTC meetings, or MPOAC dues). All participating MPOs shall use consistent descriptions of the activities to be completed. Task name and activity description must be consistent between MPOs. Regional tasks must be supported by a MOU signed by all participating MPOs.⁴ Funds are authorized in the UPWP but are encumbered via contracts. Depending on the source, funds may need to be on separate contracts.

MPO Regional Activities

This table is for the MPO's funds for regional tasks that include the transfer of funds. The MPO shall list funds it is transferring to other agencies (e.g., other MPOs, FDOT) and funds it is receiving from other agencies for regional activities. The table summarizes the total amount of funds by source and what activities the funds are to be used for. Purple highlights indicate incoming funds, while orange highlights indicate outgoing funds. Within the UPWP document, include a legend or footnote for the table stating how the incoming funds and outgoing funds are formatted.

All Regional Accounting

This table summarizes the lead agency for regional tasks and all funding contributed to regional activities by fund source. Purple highlights indicate funds transferred to the lead agency. This table must be consistent for all MPOs participating in the regional activities. Within the UPWP document, include a legend or footnote for the table stating how the incoming funds and outgoing funds are formatted.

Regional Activities

- 1. Reflect as Regional Task and identify CFMPOA work separately from other regional planning activities of the MPO
- 2. Include executed MOA for CFMPOA
- 3. Use text below for narrative

Task X – Regional Activities

<u>Purpose</u>: To promote and enhance interregional transportation planning and coordination with neighboring MPOs by supporting coming interests through the Central Florida MPO Alliance (CFMPOA).

Previous Work:

| Previous Work | Adoption Date/Status |
|--|----------------------|
| CFMPOA Regional priority project list | Annual |
| CFMPOA Quarterly meetings | Quarterly |
| CFMPOA Annual joint meeting with Sun | Annual |
| Coast Transportation Planning Alliance | |
| (SCTPA) | |

Required Activities:

| Required Activities and Work Products | Milestone/Completion Date |
|--|----------------------------|
| CFMPOA Regional Metropolitan | Spring 2024 |
| Transportation Plan summary | |
| CFMPOA Regional priority project list | July 2022 |
| | July 2023 |
| CFMPOA continued coordination | Quarterly meetings/Ongoing |
| amongst regional MPO partners | |

Responsible Agencies:

Participating agencies of CFMPOA include Lake-Sumter MPO, MetroPlan Orlando, Ocala-Marion TPO, Polk TPO, River to Sea TPO, and Space Coast TPO.

Budget Tables:

| Task 1.1 Regional Activities | | | | | | | |

17. Information and Reports. The TPO will provide all required information and reports and will permit access to its books, records, accounts, and other sources of information, and its facilities as may be determined by FDOT, FHWA, or FTA to be pertinent to ascertain compliance with such regulations, orders and instructions. The TPO shall adhere to Chapter 119 Florida Statutes regarding public records. Where any information required of the TPO is in the exclusive possession of another who fails or refuses to furnish this information, the TPO shall certify to FDOT, FHWA, or FTA as appropriate, and shall set forth what efforts it has made to obtain the information.

18. Amendment of Agreement. The COUNTY and the TPO may, upon initiation of either party, amend this Agreement to cure any ambiguity, defect, omission or to grant any additional powers, or to confer additional duties which are consistent with the intent and purpose of this Agreement subject to formal approval by resolution of each party.

19. Effective Date and Term. This Agreement shall become effective on January 28, 2020 upon approval by the TPO and the Marion County Board of County Commission and remain in effect for a period of five years. At that time, the TPO shall review this Agreement to determine if any changes are warranted.

20. Termination. Either party may terminate this Agreement by providing written notice of intent to terminate to the other party at least ninety (90) days prior to the then current fiscal year; provided, that financial commitments made prior to termination are effective and binding for their full term and amount regardless of termination. The effective date of any termination shall be the end of the then current fiscal year, unless both parties agree to an alternative date of termination.

IN WITNESS WHEREOF, the undersigned parties have caused this Staff Services Agreement to be duly executed in their behalf this 21 day of Tanuary , 2020.

APPENDIX F: TPO TRAVEL POLICY

Ocala Marion County Transportation Planning Organization

Travel Policy

Resolution No. 22-6

RESOLUTION OF THE OCALA/MARION COUNTY TRANSPORTATION PLANNING ORGANIZATION (TPO) ENDORSING THE ADOPTION OF THE TPO TRAVEL POLICY

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the Metropolitan Planning Organization (MPO) and body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Florida Statutes Section 112.061(14) allows TPO/MPOs to establish rates that vary from the standard state per diem rates by enactment of a resolution, provided that the rates apply uniformly to all travel by the entity; and

WHEREAS, the policies and procedures concerning the reimbursement of travel expenses are outlined in the TPO Travel Policy, updated and approved by the TPO Board on February 22, 2022.

NOW THEREFORE BE IT RESOLVED by the Ocala/Marion County Transportation Planning Organization adopts the TPO Travel Policy.

CERTIFICATE

The undersigned duly qualified and acting Chairman of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 26th day of April 2022.

Section 1: General

1.1 Purpose

To establish policies and procedures for the payment and/or reimbursement of expenses incurred while traveling on official TPO business.

1.2 Scope and Applicability

These regulations apply to all travel for TPO employees, elected and appointed officials, advisory board members, volunteers, and all others who are authorized to travel on official TPO business.

1.3 Roles and Responsibility

- 1) Director
 - a) Ensure all travel expenditures have been budgeted.
 - b) Ensure that travel is related to TPO business and expenses are reasonable and necessary in accordance with this policy.
 - c) Ensure that travelers understand their responsibilities and initiate the appropriate action when procedures are not followed.
 - d) Review travel related documentation to ensure that travelers have adhered to the travel policy.
 - e) Ensure that accurate and complete Travel Expense Reports are submitted in accordance with the schedule established in this policy.
 - f) Authorize travel and approve the Travel Expense Report.
 - g) Retain Travel Expense Report and backup information subject to audit.
- 2) Travelers
 - a) Exercise the same care in incurring expenses that a prudent person would exercise if traveling on personal business.
 - b) Be knowledgeable of and adhere to the requirements set forth in this policy.
 - c) Submit Travel Expense Report within 15 business days after the completion of travel that documents all expenses related to the total cost of travel.

1.4 Authorizations

- 1) Every traveler should seek approval from the Director prior to incurring any expenses.
- 2) Travel must be necessary for the proper execution of official TPO business. Meetings and conferences must be of a professional nature that will increase the attending individual's value to the TPO.
- 3) Upon the completion of travel, a Travel Expense Report will be completed and the following will review the request for compliance with the TPO's travel policy.
 - a) Director will be approved by the TPO Board.
- 4) Travel Advances are considered the exception, not the rule. If a travel advance is necessary, it must be approved by the Director. The traveler is responsible to submit this request the Friday prior to the scheduled payroll run.
- 5) A payroll deduction will automatically be made if a travel advance is outstanding for more than 30 days, and is directly attributed to the traveler's failure to properly file the Travel Expense Report.

1.5 Procurement Card Use

- 1) The procurement card (P-card) shall be used to pay for airline tickets, lodging, car rental, and registration fees whenever possible. If the traveler does not possess a P-card and someone else within their department does, the cardholder may elect to authorize these charges on their P-card.
- 2) The P-card SHALL NOT BE used for expenses that are reimbursed to the traveler at a flat rate, e.g. meals and mileage.
- 3) The P-card may be used to purchase gas when the traveler is using a Marion County or rental vehicle for out-of-town travel.
- 4) The traveler is responsible for documenting and submitting copies of these receipts on the Travel Expense Report.

1.6 Missing Receipts

If travel expense receipts are lost or stolen, a reasonable attempt to obtain duplicate receipts must be made. If duplicates cannot be secured, a statement of the facts explaining the incident must accompany the completed Travel Expense Report.

1.7 Letter of Agreement

When an employee attends advanced-level training that exceeds \$2,000 and leaves the TPO before the end of one year after completion of training, the traveler will be required to enter into a

contractual agreement to reimburse the TPO on a pro-rated basis for travel expenses as defined in the Marion County Employee Handbook and the Marion County Training Reimbursement Policy and Agreement.

Advanced-level training is training that is not required by the Director and will enhance an employee's abilities and/or advance their career.

Section 2: Travel Expense Requirements/Guidelines

2.1 General Principles

- 1) The traveler shall be reimbursed for authorized expenses that are in compliance with the requirements of this policy and are associated with an approved trip.
- 2) Travel arrangements should be made as early as possible to take advantage of early discounts and advance purchase prices.
- 3) When online travel is available, unless otherwise approved by Director, travel will not be permitted. Arrangements associated with the travel shall be the most economical available and result in the shortest "time-away".
- 4) Reimbursement is limited to the traveler only. The TPO will not reimburse any expenses for a traveler's spouse and family.
- 5) The TPO is exempt from the Florida Sales Tax. The traveler must print a copy of the tax exemption certificate prior to traveling in order to obtain the exemption. The traveler is responsible for taxes charged unless there is a written justifiable explanation of the facts.
- 6) Any travel associated with grants or other funding sources must comply with all provisions stipulated by the sponsoring agency or with all provisions of this travel policy if more restrictive. If the sponsoring agency's provisions are more restrictive than this policy, TPO policy will take precedence and the TPO will compensate for the difference.
- 7) Any advance or reimbursement due to the employee will be paid through the employee's payroll direct deposit as a non-taxable reimbursement. Same day travel meals described in Section 2.4.3 will be processed through payroll also, but as a taxable fringe benefit (per IRS regulations). IRS rules will prevail over the taxability of reimbursements.
- 8) Travelers must submit a complete Travel Expense Report that includes all travel related expenses such as, registration, gas, mileage, lodging, meals, tolls, parking fees, or rental car for trips outside of Marion County.

2.2 Registration Fees

- 1) Fees should only be paid after the proper travel authorization is secured.
- 2) Fees for registration, including meals and other programmed affairs sponsored by a conference or convention organization, shall be prepaid whenever possible. The use of the P-card for this expense is the preferred method of payment. A traveler can be reimbursed if a paid receipt is presented.
- 3) Payment for registration fees will be written directly to the sponsoring organization. The traveler is responsible to disburse backup documentation to the organization.
- 4) The TPO will not pay fees associated with entertainment events/dinners that are optional and not included as a part of the registration fee. These fees should not be charged to the P-card.
- 5) For payment to be advanced or reimbursed, a traveler must submit a copy of the agenda, or a certificate of attendance.

2.3 Transportation

- 1) Commercial Air Travel
 - a) Coach fare class shall be taken for all travel by air.
 - b) If air travel is booked via the Internet, the confirmation notice that states the amount shall be submitted to verify the cost.
 - c) Ticket insurance and additional accident or life insurance for persons traveling by commercial air travel will not be reimbursed.
 - d) The actual cost incurred for parking a private vehicle at the airport while the traveler is away shall be reimbursed. A receipt is required.
- 2) TPO Vehicle
 - a) The use of TPO-owned vehicles must be authorized by the Director.
 - b) When transportation is by a TPO-owned vehicle, reimbursable expenses will be limited to actual costs incurred for fuel, oil, and necessary vehicular maintenance and repairs supported by receipt or invoice; however, the P-card is the preferred method of payment for these expenses.
 - c) Parking tickets and moving vehicle citations are the responsibility of the traveler.
- 3) Privately Owned Automobile
 - a) The use of a privately-owned vehicle requires Director approval. Mileage reimbursement for use of a privately-owned vehicle will not be authorized without Director approval.
 - b) The traveler is entitled to a mileage allowance not to exceed IRS guidelines.
 - c) The individual operating the privately owned vehicle must possess a valid driver's license and the

Ocala Marion TPO Travel Policy

vehicle must be insured with the minimum required insurance for the State of Florida.

- d) The mileage reimbursed shall be reasonable and comparable to other methods of travel. If MapQuest or another similar source is used, a printout substantiating the mileage claim should be attached to the Travel Expense Report.
- e) The mileage allowable will be from the traveler's official headquarters or point of origin, whichever is less, to the destination point. The official headquarters is defined as the traveler's normal work place or if there is no normal work place, the departmental headquarters location.
- f) A reasonable amount of vicinity travel is reimbursable to the traveler. Reasonable vicinity mileage is considered less than 25 miles per travel period. Requests for vicinity mileage exceeding 25 miles should be accompanied by a written explanation from the traveler substantiating the mileage claim.
- g) If there are multiple travelers going to the same destination, carpooling is required unless specifically authorized by the Director. If there are multiple travelers riding in the same privately owned vehicle, only one individual will be reimbursed for mileage.
- h) Employees receiving a vehicle allowance as part of their salary package are entitled to reimbursement for mileage when using their personal vehicle outside of Marion County.
- i) Parking tickets and moving vehicle citations are the responsibility of the traveler.
- 4) Rental Vehicle
 - a) A vehicle may be rented when deemed appropriate by the Director. The use of rental vehicles should be limited to those instances where Marion County, privately owned vehicles or reasonable public transportation is unavailable.
 - b) Whenever possible, the State contract for rental cars should be utilized.
 - c) Maximum reimbursement for rental cars will be limited to the mid-size sedan rate or a vehicle with a comparable rate.
 - d) Travelers utilizing rental cars will be reimbursed for gasoline if receipts are provided; however, the P-card is the preferred method of payment.
 - e) Collision-damage waivers are recommended to be purchased when obtaining a rental vehicle. Marion County also has a self-insured program to cover claims.
 - f) If a rental vehicle is booked via the Internet, the confirmation notice that states the amount shall be submitted to verify the cost. A receipt shall also be submitted upon return.

2.4 Meals and Incidentals

1) Employees shall be paid per diem for TPO related travel in accordance with U.S. General Services Administration (GSA). The most current meal and incidental allowances for standard and specified rates are provided at: <u>www.GSA.gov/travel-resources</u>.

2) No receipts for meals are required.

Ocala Marion TPO Travel Policy

- 3) Meals for same day travel, which do not require an overnight stay, are allowed as provided in section 2.8.3 of this policy. Reimbursements granted will be a taxable fringe benefit (per IRS regulations) and will be included in your payroll direct deposit as taxable.
- 4) **The TPO, at its discretion, may allow employees to claim a meal allowance at an event with a meal(s) included as part of the registration fee if:
 - a. You are unable to consume the furnished meal(s) because of medical requirements or religious beliefs.
 - b. You requested specific approval to claim the full meal allowance prior to your travel.
 - c. You have made a reasonable effort to make alternative meal arrangements, but were unable to do so.
 - d. You purchased substitute meals in order to satisfy your medical or religious requirements.
- 5) At the TPO's discretion, you may also claim the full meal allowance if you were unable to take part in an event furnished meal due to the conduct of official business.

2.5 Lodging

- 1) The use of the P-card for this expense is the preferred method of payment.
- 2) The lodging expense is limited to single occupancy or occupancy shared with another TPO traveler.
- 3) Lodging costs in excess of the single room rate will not be reimbursed except when the additional occupant is an authorized TPO traveler.
- 4) If a hotel is booked via the Internet, the confirmation notice that states the amount shall be submitted to verify the cost.
- 5) Requests for reimbursement for lodging must be accompanied by an itemized paid receipt from the hotel, motel, etc. Extended stays must be paid by the traveler.

**Source: General Services Administration (GSA) Subchapter B-Allowable Travel Expenses- <u>https://www.gsa.gov/policy-regulations/regulations/federal-travel-regulation-ftr/i1206091#i1204040</u>

2.6 Miscellaneous Expenses

- 1) Communication expenses, including charges for telephone, facsimile, and internet access, to conduct official TPO business with the traveler are reimbursable if a receipt is provided.
- 2) Bridge, road, and tunnel tolls will be reimbursed when receipts are provided.
- 3) Parking charges will be reimbursed. Receipts for all parking charges must be provided. Parking meter charges will be paid without receipts if reasonable and approved by the Director.
- 4) Any other reasonable expense not otherwise provided for but incurred for the benefit of the TPO, will be reimbursed if receipts are provided and approved by the Director.

2.7 Nonrefundable Travel Expenses in Connection with Canceled Travel

- 1) Reimbursement for prepaid travel expenses may be allowed when the travel is canceled for legitimate reasons. Only the portion of the prepaid expenses that is nonrefundable is reimbursable.
- 2) The originating department shall be responsible for requesting a refund (full or partial) of expenses paid in advance by the TPO when the traveler does not attend the function.
- 3) A memo justifying the cancellation of travel, a paid receipt and certification that the expense is nonrefundable should be included with the Travel Expense Report.
- 4) The traveler shall be personally responsible for reimbursement of any expenses paid by the TPO when the traveler does not attend the function due to their own negligence.

2.8 Same Day Travel – Out of County

- 1) If the use of a privately owned vehicle is approved by the Director, mileage will be reimbursed in accordance with IRS guidelines.
- 2) Travelers must submit a Travel Expense Report if there are any travel related expenses such as registration, gas, mileage, lodging, meals, or rental vehicles. One report can be used if several travelers register for the same conference, travel in one vehicle and do not have a reimbursement due.
- 3) For same day travel which does not require an overnight stay, the standard meal allowance will be granted, but it will be a taxable fringe benefit (per IRS regulations) This reimbursement will be included in your payroll direct deposit as taxable.

2.9 Intra-County Travel

- 1) Employees that have a need to travel within the boundaries of Marion County shall use a Marion County vehicle, when possible. The use of a privately-owned vehicle for Intra-County travel must be approved by the Director.
- 2) Employees who utilize their personal vehicle and are not receiving an auto allowance are entitled to a mileage allowance equal to the standard mileage rate established annually by the IRS.
- 3) Employees receiving an auto allowance shall use their personal vehicles and will not be reimbursed for mileage for Intra-County Travel.
- 4) Reimbursement for Intra-County mileage will be submitted on the Intra-County Reimbursement form.
- 5) Parking tickets and moving vehicle citations are the responsibility of the traveler.
- 6) Travel Expense Reports are NOT required for travel within Marion County.

RE: Regional Transportation System Management and Operations (TSM&O) Program Participation

<u>Summary</u>

Transportation Systems Management and Operations (TSMO) is the application of multimodal transportation strategies and technologies intended to maximize the efficiency, safety, and reliability of the transportation network. Examples include, but are not limited to, work zone management, traffic incident management, special event management, transit management, traffic signal coordination, congestion pricing, and integrated corridor management. Related plans to the TPO include the required congestion management process (CMP).

In 2021, eight metropolitan planning organizations (MPO) in Central and West Florida formed a regional Working Group to share strategies and solutions for implementing TSM&O. They included MetroPlan Orlando, Forward Pinellas, Hillsborough TPO, Pasco MPO, Polk TPO, Sarasota-Manatee MPO, Space Coast TPO and River to Sea TPO. The Working Group was formalized through a Memorandum of Understanding (MOU) in 2021.

Based on recent conversations between our TPO and MetroPlan (host of meetings), a request was made to include Ocala/Marion as part of the Working Group in 2023. Additionally, conversations took place with Lake~Sumter MPO to also be included in the group.

Working Group meetings are anticipated to take place monthly and hosted by MetroPlan. The benefits of being part of a larger regional working group include collaboration, partnership building, project need identification, learning best practices and information sharing. There is no financial obligation or commitment for membership in the Working Group.

Regional TSMO Program Working Group

The Working Group shares strategies on planning for operations, including best practices for the Congestion Management Process that is required by federal and M/TPOs of the Regional TSMO Program (RTSMOP). The following draft content was assembled as reference for use in discussions for formalizing activities of the working group.

Working Group Meeting Logistics

- 1. Working Group to conduct standing monthly meetings.
- 2. Meetings to be chaired by MetroPlan Orlando staff.
- 3. Working Group activities to be supported by MetroPlan Orlando staff.
- 4. The support team will record and circulate decisions and action items of meetings.

Working Group Membership Composition

Members of the Working Group will be determined by the RTSMOP Directors to represent their planning agency, FDOT Districts One, Five and Seven TSMO Engineers, FTE, CFX and THEA.

Management & Operations Working Group Goals

- 1. Knowledge Transfer: Provide a venue for transferring Transportation Systems Management and Operations (TSMO) knowledge, experiences, and best practices among members and partners.
- 2. Policy Coordination: Advocate for integrating TSMO strategies into local planning and management-related policies, initiatives and regulations through the use of data, identifying safety improvement, community outreach and coordination with local road networks.
- 3. Coordinate Planning Initiatives for Emerging TSMO Issues: Facilitate a uniform planning approach to emerging issues in the TSMO field among RTSMOP by coordinating TSMO-related initiatives across member agencies.
- 4. Transportation Management Plans (MTP): Support member MTPO efforts to integrate TSMO supportive commentary and recommendations into their MTPs.
- 5. Congestion Management Process (CMP): Support member agency efforts to integrate TSMO-oriented congestion management strategies into their CMP, including the use of performance measures to monitor congestion and inform those strategies.

Tasks

- 1. Knowledge Transfer
 - A. Conduct monthly meetings with presentations by subject matter experts. Report on Working Group at quarterly meetings of the CFMPOA and CCC.
 - B. Distribute pertinent information (TSMO-related publications, websites, training opportunities, etc.) to members via e-mail.
 - C. Work with member agencies and other Working Groups and FDOT to host training sessions for MTPO staff and other interested stakeholders on technical topics related to TSMO programs and activities, including associated materials.
 - D. Coordinate with Universities in Central Florida on TSMO related research initiatives.

2. TSMO Policy Coordination

- A. Prepare comment letters on the anticipated impacts of federal and state TSMO and congestion management-related policies, initiatives, and legislation for consideration by the RTSMOP Directors Group on an as-needed basis.
- B. In coordination with other Working Groups and FDOT, monitor and provide input on state legislation to support the advancement of innovative transportation mobility solutions on an as-needed basis.
- C. Connect with the TSMO Champion for your agency.
- D. Identify opportunities to address the equitable impact of transportation technology and data in underserved communities, recognizing the impacts of transformative technology on underserved and unbanked communities.
- 3. <u>Coordinate Planning Initiatives for Emerging TSMO Issues</u>
 - A. Promote a common approach to emerging issues where feasible and practical, and support member agency actions to implement TSMO-related programs and projects, especially those of statewide and/or inter-regional significance.
 - B. In coordination with other Working Groups and FDOT, identify emerging issues in the TSMO field that are of broad interest and significance across the state.
 - C. In coordination with other Working Groups and FDOT, convene roundtables of MPO staff and subject matter experts to discuss how MPOs can best prepare for these emerging issues.

- D. Prepare fact sheets and supporting materials outlining how MTPOs can prepare for emerging issues.
- E. Identify appropriate existing funding sources for TSMO strategies and develop additional funding requests to bring to appropriate funding source.

4. Metropolitan Transportation Plans

- A. Support member MPO efforts to integrate TSMO-supportive commentary and recommendations into their MTPs including, but not limited to:
 - i. Importance of interagency and multi-jurisdictional coordination and collaboration;
 - ii. Identification of desired future capabilities that regional TSMO partners want to develop and the associated ITS field instrumentation deployments needed to support those capabilities; and
 - iii. Impacts of recent trends and emerging technologies.
- B. Provide TSMO resources for member agencies to use when revising/updating their MTPs.
- C. Produce a fact sheet listing key TSMO-supportive concepts for MTPOs to consider integrating into their MTPs.
- D. Review and comment on member agency draft TSMO-related materials on an asneeded basis.

5. <u>Congestion Management Process (CMP)</u>

- A. Provide congestion management-related TSMO resources for MTPOs to refer to when revising/updating their CMPs.
- B. Produce a fact sheet discussing key TSMO-oriented congestion management strategies for MTPOs to consider integrating into their CMP.
- C. Review and comment on member agency draft CMP-related materials on an asneeded basis.
- D. Collaborate with other Working Groups, FDOT and member agencies in support of efforts to integrate data collection and analytics into CMPs.

REGIONAL TRANSPORTATION MANAGEMENT AND OPERATIONS PROGRAM MEMORANDUM OF UNDERSTANDING

THIS MEMORANDUM OF UNDERSTANDING (MOU), dated the 1st day of March, 2021, is made by and between MetroPlan Orlando, and Forward Pinellas, Hillsborough MPO, Lake - Sumter MPO, Ocala/Marion TPO, Pasco County MPO, Polk County TPO, Sarasota/Manatee MPO, Space Coast TPO, and River-to-Sea TPO, all metropolitan planning agencies created by separate interlocal agreement and all operating pursuant to Section 339.175, Florida Statutes (hereafter referred to as the "the M/TPOs").

RECITALS:

WHEREAS, this MOU is for the purpose of facilitating cooperation and coordination of Regional Transportation Systems Management & Operations (TSMO) Program RTSMOP; and

WHEREAS, TSMO is the application of multimodal transportation strategies and technologies intended to maximize the efficiency, safety, and utility of the existing transportation network; and

WHEREAS, TSMO includes a set of projects and strategies that use technology and real-time operational procedures, that when integrated at the state, regional and local levels, enhances the movement of people and goods, all with a positive impact on individual and national economic prosperity such as Work Zone Management; Traffic Incident Management; Special Event Management; Transit Management; Traffic Signal Coordination; Congestion Pricing; Active Transportation and Demand Management; and Integrated Corridor Management; and

WHEREAS, the application of Information and Communication Technologies (ICT) to manage and operate transportation systems will expand and evolve as more innovative solutions appear in transportation operations and planning, including connected and autonomous vehicles; and

WHEREAS, for transportation systems in the 21st Century, M/TPOs will need to advance, further, and increase their capacity in this area through workforce development and understanding of TSMO applications to improve the safety, efficiency and performance of transportation systems; and

WHEREAS, collaborating with the M/TPOs to plan and fund TSMO strategies in RTSMOP will increase efficiency and improve regional mobility; and

WHEREAS, the M/TPOs each have the power to execute and implement an MOU for regional cooperation with regard to TSMO; and

WHEREAS, Section 339.175(6)(j)1.,Florida Statutes (2020), requires MPOs to develop coordination mechanisms with one another to expand and improve transportation within the state; and

WHEREAS, the M/TPOs have determined that this MOU is a flexible method of coordination for a transportation project, namely the RTSMOP.

NOW, THEREFORE, in consideration of the covenants herein to the other and of the mutual benefits to be realized by the parties hereto, the parties hereto agree as follows:

SECTION 1. Recitals. Each and all of the above recitals ("WHEREAS") are hereby incorporated herein.

SECTION 2. Process.

(a) MetroPlan Orlando has been actively collaborating with its partners to advance TSMO strategies for several years by: establishing TSMO as a business unit; enriching staff's abilities to integrate TSMO alternatives investments; maintaining a formal TSMO Advisory Committee represented by planners and traffic engineers in the planning area; allocating resources to deploy projects in MetroPlan Orlando's Transportation Improvement Program (TIP); mainstreaming TSMO in the transportation planning process; and cultivating local, state and federal "Champions".

(b) As the agency initiating this process, MetroPlan Orlando proposes to advance their TSMO planning activities as described below (hereinafter the "Program.").

1. A Work Plan, attached as Exhibit "A" to this MOU and incorporated herein by this reference into this MOU, provides a high-level description of the activities for the first year of this Program, terminating on December 31, 2021. The Work Plan will be modified, as needed, to suit each of the M/TPO that is a party to this MOU. The Work Plan will be used to monitor the activities and progress on performance of the Mid/Central Florida Corridor Coalition Regional Transportation Systems Management & Operations Program.

2. The parties to this MOU agree that each individual M/TPOs shall continue to have the authority to maintain autonomy to direct and to oversee their own TSMO activities, planning and strategies.

3. MetroPlan shall provide overall operational and administrative guidance for this Program pursuant to this MOU. Technical and/or additional administrative support will be provided by existing staff from each respective M/TPOs. This MOU is not a commitment of funds by or to any M/TPO that is a party to this MOU. When funding is needed by any M/TPO that is a party to this MOU to pursue an agreed upon project, program or activity within the spirit of this MOU, then the expectation and requirement is that the funding may be pursued by the one M/TPO only with the endorsement and support of another M/TPO, only if such endorsement and support has been approved by the M/TPO. Additionally, this MOU does not commit any M/TPO to

Revised 11.18.22

any project or financial obligation. The M/TPOs understand that any and all approvals of a project, program and activity must first be obtained by each M/TPO that is going to participate in said project, program, or activity, prior to any funding and commitment to any project, program or activity.

SECTION 3. The Director. The Director of TSMO pursuant to this MOU shall be unilaterally appointed, suspended, or removed by MetroPlan Orlando as it shall choose. Upon resignation, suspension or removal of any person as the Director, MetroPlan Orlando shall provide notice within ten (10) days to the other M/TPOs that are a party to this MOU. Thereafter, MetroPlan Orlando shall appoint a new person to serve as the Director and shall provide notice within ten (10) days to the other M/TPOs that are a party to this MOU. The initial Director pursuant to this MOU shall be Eric Hill.

SECTION 4. Notice.

(a) A notice or communication, under this MOU by one party, on the one hand, to other parties to this MOU shall be sufficiently given or delivered if dispatched by hand delivery, or by nationally recognized overnight courier (*i.e.* – Federal Express, United Parcel Services, electronic delivery, *etc.*) providing receipts, or by U.S. certified mail, postage prepaid, return receipt requested to:

Forward Pinellas 310 Court Street, 2nd Floor Clearwater, FL 33756

Hillsborough MPO 601 E. Kennedy Blvd., 18th Floor P.O. Box 1110 Tampa, FL 33602

Lake – Sumter MPO 1300 Citizens Blvd. Suite 175 Leesburg, FL 34748

Ocala/Marion TPO 2710 E. Silver Springs Blvd. Ocala, FL 34470

MetroPlan Orlando 250 S. Orange Ave. Suite 200 Orlando, FL 32801 Pasco County MPO West Pasco Government Center 8731 Citizen Drive, Suite 230 New Port Richey, FL 34654

Polk TPO 330 W. Church Street Bartow, FL 33830

River to Sea TPO 2570 W International Speedway Blvd Ste. 120 Daytona Beach, FL 32114-8145

Sarasota/Manatee MPO 8100 15th Street East Sarasota, FL 34243-3248

Space Coast TPO 2725 Judge Fran Jamieson Way, #B Melbourne, FL 32940

Revised 11.18.22

(b) Notices; Addresses; Time. Any M/TPO that is a party to this MOU may unilaterally change its addressee or address by giving written notice thereof to the other M/TPOs but the change is not effective against another M/TPO until the change notice is actually received by the other M/TPO. Notice given by U.S. certified mail, return receipt requested, properly addressed and with postage fully prepaid, is deemed given when deposited in the United States mails within the continental United States, if the notice is thereafter delivered in due course at the address to which properly sent. Notice given by overnight courier, service prepaid, properly addressed is deemed given when deposited with the courier within the continental United States, if the notice is thereafter delivered in due course at the address to which properly sent. Notice given by given only when actually received by the recipient.

(c) Relay of Official Notices and Communications. If any M/TPO that is a party to this MOU receives any notice from a governmental body or governmental officer that pertains to this MOU, or receives any notice of litigation or threatened litigation affecting the MOU or a project, program, or activity being conducted pursuant to this MOU, the receiving party shall promptly send it (or a copy of it) to all other M/TPO parties to this MOU.

SECTION 5. Term of MOU; Admission to or Withdrawal from MOU.

(a) This MOU shall have an initial term of one (1) non-calendar year, from March1, 2021 to February 28, 2022. This MOU shall automatically renew in each subsequent year, unless terminated at least sixty (60) days prior to any renewed term; provided, that in no event shall this MOU have a term beyond September 30, 2025. During 2025, the parties to this MOU may review, revise, and sign a new MOU, if so desired.

(b) Notwithstanding sub-section (a), any party may terminate it participation as a party to this MOU for its convenience at any time.

(c) Notwithstanding other provisions in this MOU, additional parties may be admitted as parties to this MOU by amendment to the MOU approved and executed by all parties then a party to this MOU.

SECTION 7. Effective Date; Counterpart Signature Pages.

(a) This MOU shall become effective upon full and proper execution of each of the parties hereto.

(b) This MOU may be executed in counterparts, each of which shall be deemed an original. Any such counterparts shall constitute one and the same instrument. This MOU shall become effective only upon Effective Date and delivery of by the parties hereto.

IN WITNESS WHEREOF, the parties hereto have caused this Memorandum of Understanding to be signed in their respective names by their authorized representatives.

Ocala/Marion County Project Status Update as of October 31, 2022

The following is a brief status update on major FDOT road construction projects in Marion County as of the October cutoff. The next cutoff date is November 30, 2022. Information is also available on <u>www.cflroads.com</u>. For questions, please contact Marquise McMiller at 386-943-5150 or via email at <u>marquise.mcmiller@dot.state.fl.us</u>.

MARION COUNTY

Upcoming Projects:

S.R. 40 Intersection Improvements (FDOT Financial Information Numbers 433661-1 & 445800-1)

- Contract: T5747
- Contractor: CW Roberts Contracting, Inc.
- Estimated Start: Fall 2022
- Contract amount: 5.3 million
- Estimated Completion: Winter 2022
- The traffic signals at the intersections will be upgraded and the roadway will be repaved. Adding a 7-foot-wide buffered bike lane and new pedestrian crosswalk.
- This is estimated to be a 90-day project.
- Pre-con to be held on November 15, 2022

Current Projects:

Mill and resurface U.S. 441 from County Road 25A in Ocala north 8.8 miles to the U.S. 441/301 split. (FDOT Financial Information Number 441136-1)

- Contract: T5705
- Contractor: Anderson Columbia Inc.
- Construction cost: \$15.4 million
- Estimated Start: Fall 2021
- Estimated Completion: Fall 2022
- Update: Controlling items of work for this project include widening and pavement friction operations. Contractor has completed mainline resurfacing from SR-326 to the North end (US-301/US-441). They have also completed some restricted medians and drainage improvements are almost complete as well as lighting improvements. Contractor is also working on signalization and median improvements and currently daytime and nighttime lane closures in place within the project limits.

Improve Safety, Enhance Mobility, Inspire Innovation www.fdot.gov

Resurface U.S. 441 from State Road 35 (SE Baseline Road) to State Road 200 (FDOT Financial Information Number 439238-1)

- Contract: T5675
- Contractor: C.W. Roberts Contracting, Inc.
- Construction cost: \$15.7 million
- Estimated Start: Winter 2021
- Estimated Completion: Winter 2022
- Update: Contractor has been working on paving, signalization, and signage operations. Emerald Coast needs to continue to work on the missing crosswalk striping and signs. JKI will continue to pull wires and motorists should expect nighttime lane closures within the project limits.

Bridge Rehabilitation SR 200 and SR 40 (FDOT Financial Information Number 447137-1)

- Contract: E58A8
- Contractor: M&J Construction Company
- Estimated Start: Summer 2022
- Estimated Completion: Fall 2022
- Update: This is a maintenance project that includes bridge epoxy overlay and joint rehabilitation for SR 200, Bridges 360059 & 360044 and SR 40, Bridge 360055. There are currently nighttime lane closures from 7 p.m. to 7 a.m. Motorists should expect eastbound and westbound intermittent lane closures on SR 40 Bridge over the Ocklawaha River for bridge deck repairs with flagger operations. Motorists should also expect eastbound and westbound alternating lane closures from inside to outside on SR 200 bridges over the CSX Railroad for bridge deck repairs.

Marion County ITS Operational Improvements (FDOT Financial information number 436361-1)

- Contract T5754
- Contractor: Chinchor Electric, Inc.
- Contract amount: \$488,000
- Estimated start: Fall 2022
- Estimated completion: Fall 2023
- Update: Contractor will be following a five-day work week and controlling items of work include CCTV Cameras, ITS Cabinet Equipment, Camera Cable. TMC work scheduled for mid-October as per the contractor. Lane closures within the project limits will be from 9:00 PM to 8:00AM, Left turn lanes approaching intersection of US-27 and Martin Luther King Jr. Blvd., one turn lane will be closed at a time, for the purpose of installing and testing video detection equipment (overhead work).

RE: Central Florida MPO Alliance Update

<u>Summary</u>

At the October 7, 2022 meeting of the Central Florida MPO Alliance, the Central Florida Regional Priority Projects lists were adopted. The lists include Transportation Regional Incentive (TRIP), Strategic Intermodal System (SIS) and Regional Trails projects. Please find attached the adopted lists with Ocala/Marion County projects highlighted in yellow. These specific projects were approved by the TPO Board in August.
