Mission Statement

The Salvation Army, an international movement, is an evangelical part of the universal Christian Church. Its message is based on the Bible. Its ministry is motivated by the love of God. Its mission is to preach the Gospel of Jesus Christ and to meet human needs in His name without discrimination.

W

<u>The Center of Hope</u>—Trained staff provides case management, clothing vouchers, ID cards, and other necessary assistance.

<u>Community Feeding</u>—The Center of Hope provides two meals a day to thousands of homeless and low-income people every year.

Family Thrift Store—Donations of goods, gently used items from caring people in Marion county enable The Salvation Army Family Thrift Store to provide household goods and clothing to those in need.

<u>Senior Housing</u>—Our Evangeline Booth Apartment complex has 64 apartments for low-income seniors. The housing is subsidized by HUD and thus adheres to all regulations. <u>Emergency Shelter</u>—We offer a 42-bed men's dorm, a 20-bed female dorm, and transitional housing for six family rooms.

<u>Holiday Programs</u>—The Ocala Corps provides holiday meals at Thanksgiving and Christmas to those who would otherwise go without.

Corrections Program—The ministry of The Salvation Army extends to prisoners and parolees. The Salvation Army operates Marion County's Misdemeanor Probation Dept., working with Marion County courts to assist clients in fulfilling their court-ordered obligations.

H A T W E D O

Annual Red Kettle & Angel Tree Campaign

This event is an especially important time when we bring out our kettles to ring at local stores and give out food to qualified Marion County individuals, families, and toys for children. Donations from our kettles are used throughout the year to support The Salvation Army services in our community. Our Angel Tree Program begins in October and ends in mid-December when the gifts are given out. Caring individuals and groups who take angel tags are making sure those children have presents to open on Christmas Day.

Open to all is The Center for Worship and Service (Corps Chapel) on Sundays, weekly worship meetings, Bible study, basketball programs, scrapbooking groups and more.

Call the number above for details.

Item 10. Comments by CTC

Mr. Clayton Murch gave the following comments and updates.

- Ken McKelvey attended a Defensive Driving course and was able to obtain materials at no cost to the agency to train drivers on Defensive Driving internally.
- Cameras on buses allowed for weekly spot checks of drivers as they are driving for behaviors (speeding, not wearing a seatbelt, aggressive driving, etc.) If the behaviors were noticed drivers would be monitored daily until the next week when the driver could go back to regular weekly observation.
- Fleet Supervisor, Ed Rivers attended a Lively Paratransit Instructional Program that certified him to do lift inspections internally at no cost to the agency.
- Staffing updates
 - o 33 of 40 drivers employed

- o 6 drivers in process
- By not being fully staffed it was costing the ability to run some requested trips.
 Approximately 20-30 trips a day that were unable to be completed due to short staffing.
- o Covid cases had increased with 6 drivers out
- Audit by CTD on May 26th
 - o The TD application review process conducted every two years
 - o Form of income level that was non-certifiable proof
- More riders due to the high cost of fuel
- Suggestion boxes had been installed in all four parts of the buses
- Added Friday services to Dunnellon
- Several grants and CARES money that was approved to repave the parking lot and make roof repairs.
- Air infiltration units had been installed.
- Ridership was at 65% of what it was pre-COVID

Mr. Neal commented that Mr. Murch along with another staff member of Marion Senior Services attended a CUTR training and that the staff was doing everything they could to use their time wisely and seeking out additional training whenever they can.

YELLOW cells are <u>NEVER</u> Generated by Applying Authorized Rates

BLUE cells
Should be funds generated by rates in this spreadsheet

GREEN cells

MAY BE Revenue Generated by Applying Authorized Rate per Mile/Trip Charges

Fill in that portion of budgeted revenue in Column 2 that will be <u>GENERATED</u> through the application of authorized per mile, per trip, or combination per trip plus per mile rates. Also, include the amount of funds that are Earmarked as local match for Transportation Services and <u>NOT</u> Capital Equipment purchases.

If the Farebox Revenues are used as a source of Local Match Dollars, then identify the appropriate amount of Farebox Revenue that represents the portion of Local Match required on any state or federal grants. This does not mean that Farebox is the only source for Local Match.

Please review all Grant Applications and Agreements containing State and/or Federal funds for the proper Match Requirement levels and allowed sources.

GOLD cells

Fill in that portion of Budgeted Rate Subsidy Revenue in Column 4 that will come from Funds Earmarked by the Funding Source for Purchasing Capital Equipment. Also include the portion of Local Funds earmarked as Match related to the Purchase of Capital Equipment if a match amount is required by the Funding Source.

¹ Rate Base Adjustment Cell

If necessary and justified, this cell is where you could optionally adjust proposed service rates up or down to adjust for program revenue (or unapproved profit), or losses from the Actual period shown at the bottom of the Comprehensive Budget Sheet. This is not the only acceptable location or method of reconciling for excess gains or losses. If allowed by the respective funding sources, excess gains may also be adjusted by providing system subsidy revenue or by the purchase of additional trips in a period following the Actual period. If such an adjustment has been made, provide notation in the respective exlanation area of the Comprehensive Budget tab.

Secretary Shakayla Irby stated that the workshop had been published June 9, 2022 online on the TPO website and Facebook and Twitter pages, the City of Ocala, Belleview, and Dunnellon websites. The workshop was also published to the June 9, 2022 edition of the Ocala Star Banner.

Item 4A. Commitment to Zero Safety Action Plan Outline

Mr. Balmes said the Commitment to Zero Safety Action Plan was the TPO's effort to improve the safety of our transportation system by working to eliminate fatal and serious injury traffic crashes by requesting input from the community and partners.

An outline of the Commitment to Zero Safety Action Plan was provided to the board and Mr. Balmes gave an introduction to Chris Keller with Benesch.

Item 4B. Commitment to Zero Safety Action Plan with emphasis on the Transportation Disadvantaged

Mr. Keller gave a presentation on the Commitment to Zero Safety Action Plan providing an overview, developing actionable strategies, and engagement opportunities.

What is the Commitment to Zero?

- **Actionable-** The TPO's effort to improve the safety of our transportation system by working to eliminate fatal and serious injury traffic crashes.
- Collaborative- Collective data driven process involving citizens, elected officials, stakeholders, and public and private sector partners.
- Lasting- An ongoing effort that will need to be monitored and updated; it will be a marathon, not a sprint.

Partner Efforts

• State Commitment- Establishes "Target Zero," a safety vision of zero transportation-related deaths or serious injuries.

• Federal Commitment

- Road to Zero- The primary safety goal of FHWA is to reduce transportation-related fatalities and serious injuries across the transportation system, and for this reason it fully supports the vision of zero deaths.
- Bipartisan Infrastructure Law (BIL)- New and first of its kind \$6 billion Safe Streets and Roads for All program will fund local efforts to reduce roadway crashes and fatalities through grants for planning and projects.

Mr. Keller asked the board some questions:

- 1. How many people died in traffic-related crashes in Marion County from 2011-2022? The answer was 739.
- 2. How many people died in traffic-related crashes last year (2021)? The answer was 93
- 3. How many people died in traffic-related crashes so far this year (2022)? The answer was 39.

In the last decade there had been 3,698 serious injuries and 739 fatalities.

Mr. Keller gave information on the rate of fatalities saying deaths had become more common with the rising increases. Information on crash types, crash factors, and crash location were provided in Mr. Keller's presentation.

Commitment to Zero Approach

• Safe System Approach- the Safe System approach is a recognized international road safety best practice that is rapidly gaining awareness and application in the United States. Other countries have been able to achieve significant reductions in traffic-related deaths and serious injuries by adopting the Safe System approach. Working to create a Safe System requires strengthening all elements of the system and leveraging collaborative partnerships.

Safe System Principles

- No Death of Serious Injury is Acceptable
- Humans Make Mistakes
- Humans are Vulnerable to Injury
- Responsibility is Shared
- Proactive vs. Reactive
- Redundancy is Crucial

Safe System Differences

• Traditional Road Safety Practices vs. Safe System Approach- Whereas traditional road safety strives to modify human behavior and prevent all crashes, the Safe System approach refocuses transportation system design and operation on anticipated human mistakes and lessening impact forces to reduce crash severity and save lives.

The board engaged in discussion about strategies to increase safety on the roadways and awareness in the community and transportation disadvantaged.

Mr. Keller asked what would be the long term consequences of the community if serious injury crashes and fatalities were not addressed.

Ms. Sapp responded that the community would see more loss of life.

Vice-Chairwoman Melvin said it would be a larger population of the transportation disadvantaged for survivors of serious injury crashes.

Mr. Murch said eventually it would reach everyone at some point rather a serious injury or fatality. More severe challenges ahead if nothing changed.

Ms. Sapp said that the Health Department assisted with other community partners on "Seatbelt Wars" at each high school and count who is wearing a seatbelt and this year numbers had plummeted with 2022 being the first year no one hit the 90 percentile for wearing seatbelts. It is a behavior that is being developed by the youth.

Mr. Neal suggested doing a traffic stop for the high school students not wearing a seatbelt and instead of ticketing them give them an educational flyer about seatbelt safety.

Mr. Murch said that not wearing seatbelts and speeding was a human choice. We should focus more on preventing the crash in the first place and educate on seatbelts and defensive driving.

Mr. Balmes said that as part of the Commitment to Zero Safety Action Plan identifying specific strategies with education would be a huge component.

Mr. Neal talked about there being more involvement with first responders and law enforcement because their force on education carried more weight.

The board continued conversation on safety ideas and ways to educate.

Mr. Keller told the board that there was a Commitment to Zero online survey that would be accessible through July 1 and encouraged them to take the survey and share with others to take the survey also.
