# TRANSPORTATION PLANNING ORGANIZATION 

Ocala Citizens Service Center 201 SE 3rd Street, Ocala FL 34471 $2^{\text {nd }}$ Floor Training Room
September 20, 2018
2:00 PM

## AGENDA

1. CALL TO ORDER AND ROLL CALL

## 2. PROOF OF PUBLICATION

## 3. PRESENTATION ITEMS

A. 2017 TRAFFIC COUNTS
Staff will present the 2017 Traffic Counts for review and discussion.

## B. CR 464B AND US 27 (FELLOWSHIP) PROPOSED INTERSECTION IMPROVEMENTS

FDOT will present qualitative assessment study and recommendation regarding the CR 464B and US 27 Intersection for review and discussion.

## 4. ACTION ITEMS

A. CENTRAL FLORIDA MPO ALLIANCE REGIONAL PRIORITIES

Each year, the Transportation Planning Organization in coordination with the Central Florida MPO Alliance develops a list of regional priority projects for a five-year planning horizon. Staff will present the FY 2023 Priority Projects. Staff is requesting review, and approval of the priority projects list.

## B. TPO DIRECTOR CONTRACT RENEWAL

The Personnel Evaluation Review by Chairman Moore and Co-Chairman as well as the existing contract are enclosed after review meeting scheduled for Monday, September 17, 2018.

## 5. CONSENT AGENDA

A. MINUTES - AUGUST 23, 2018
B. TRANSIT ASSET MANAGEMENT (TAM) PLAN

## 6. COMMENTS BY FDOT

7. COMMENTS BY TPO STAFF

## A. FINANCIAL BILLING INFORMATION

B. UPWP PROGRESS REPORT

## 8. COMMENTS BY TPO MEMBERS

9. PUBLIC COMMENT (Limited to 2 minutes)

## 10. ADJOURNMENT

If reasonable accommodations are needed for you to participate in this meeting, please call the TPO Office at (352) 629-8297 forty-eight (48) hours in advance, so arrangements can be made.

The next regular meeting of the Transportation Planning Organization will be held on October 23, 2018.

September 14, 2018

## TO: $\quad$ TPO Board Members <br> FROM: Kenneth Odom, Transportation Planner <br> RE: $\quad 2017$ Traffic Counts \& Trends Manual

The 2017 Traffic Counts Manual will be presented for your review and discussion at the September $25^{\text {th }}$ board meeting. Staff will provide a brief presentation outlining significant changes in traffic count patterns around the county and answer any questions regarding the counts and trends.

If you have any questions regarding the TIP or any of the projects included, please feel free to contact the TPO staff at 629-8297.

## INTRODUCTION

Traffic volumes are the benchmark by which the operating efficiency of all roadways is measured. Traffic counts individually reveal more about a roadway and the vehicles that use it more so than any other type of data. They are also used as the basis to generate virtually every other type of statistic that is used in roadway analysis and they are used in all phases of roadway project development, monitoring, maintenance, traffic crash monitoring, public information and transportation legislation.

Also included in this document are several different types of transportation and socioeconomic data. The purpose of this content is to illustrate the wide array of conditions and factors that impact the transportation network in Marion County. The variety of data that is contained in this report will illustrate developing trends and conditions in various areas such as accident information, population, employment, lawenforcement activities and the number of vehicles registered in Marion County.

The Ocala/Marion County TPO will continually produce and expand this report on an annual basis in order to provide an ongoing effort to better illustrate the developing growth trends that impact the Marion County regional area.

## MARION COUNTY POPULATION

Population counts are based on the 2010 United States Census and 2011 through 2017 are based on interpolated data from that base year. All data for these latter years are interpolations based on demographic trends as determined by the Bureau of Economic \& Business Research at the University of Florida.

| POPULATION | 2011 | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Belleview | 4,164 | 4,551 | 4,562 | 4,623 | 4,746 | 4,874 | 4,979 |
| Dunnellon | 1,871 | 1,740 | 1,754 | 1,770 | 1,771 | 1,768 | 1,805 |
| McIntosh | 451 | 455 | 457 | 457 | 450 | 449 | 457 |
| Reddick | 505 | 516 | 510 | 498 | 501 | 499 | 546 |
| Ocala | 56,815 | 57,041 | 57,387 | 57,337 | 58,355 | 59,720 | 59,668 |

| TOTAL | 331,298 | 331,745 | 332,989 | 335,008 | 341,205 | 345,749 | 349,267 |

## MARION COUNTY REGISTERED VEHICLES

The following table shows various classes of vehicle types and the number registered in each category during the years from 2011 to 2017. However, this table does not show every vehicle that is registered as it is not representative of aircraft, off-road vehicles, farm or industrial equipment. All other motorized vehicles are included.

| VEHICLE TYPE | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ | $\mathbf{2 0 1 4}$ | $\mathbf{2 0 1 5}$ | $\mathbf{2 0 1 6}$ | $\mathbf{2 0 1 7}$ |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Automobiles \& Pickups | 233,373 | 235,113 | 236,159 | 241,181 | 242,039 | 247,765 | 253,225 |
| Motorcycles | 12,407 | 12,471 | 12,735 | 13,170 | 13,277 | 13,590 | 13,834 |
| Mobile Homes | 43,458 | 43,151 | 42,671 | 42,305 | 42,317 | 41,971 | 41,651 |
| Heavy Trucks | 20,227 | 21,427 | 22,774 | 24,604 | 25,401 | 27,254 | 28,849 |
| Travel Trailers | 4,432 | 4,451 | 4,505 | 4,728 | 4,805 | 5,079 | 5,388 |
| Vessels | 15,572 | 15,405 | 15,333 | 15,683 | 15,884 | 16,495 | 16,853 |
| Vehicle Trailers | 46,557 | 46,914 | 47,101 | 48,774 | 48,927 | 50,968 | 52,522 |
| Buses \& Tools | 1,002 | 1,016 | 1,019 | 1,038 | 1,018 | 998 | 975 |
|  | $\mathbf{3 8 1 , 0 3 0}$ | $\mathbf{3 7 7 , 0 2 8}$ | $\mathbf{3 7 9 , 9 4 8}$ | $\mathbf{3 8 2 , 2 9 7}$ | $\mathbf{3 9 3 , 6 6 8}$ | $\mathbf{4 0 4 , 1 2 0}$ | $\mathbf{4 1 3 , 2 9 7}$ |

## MARION COUNTY LICENSED DRIVERS

2017 Florida Department Highway Safety \& Motor Vehicles indicates that there was a total of 287,947 registered driver's in Marion County. Of this total, 139,439 were men and 148,508 were women. The age range with the most licensed drivers was 21 to 30 years old with 66,815 license holders. The smallest age range was $90+$ with 1319 females and 1,176 males maintaining registered Florida driver's licenses.

## TRAFFIC COUNT METHODOLOGY

Through cooperation with the Traffic Engineering Departments of both the City of Ocala and Marion County, it was possible for TPO staff to accurately reflect the actual locations of count station within the maps by the use of Global Positioning System (GPS) coordinates recorded by the two agencies. (GPS coordinates for FDOT locations were recorded by TPO staff.)

As in previous versions, this traffic count book contains traffic counts for locations in and around the City of Ocala, the City of Belleview, the City of Dunnellon and throughout Marion County for a five-year period. The maps are divided into ten areas:

```
Map A (Northwest Marion County) Map B (Northeast Marion County)
Map C (Northwest Ocala)
Map E (Southwest Ocala)
Map G (Southwest Marion County)
Map I (Dunnellon)
Map B (Northeast Marion County)
Map D (Northeast Ocala)
Map F (Southeast Ocala)
Map H (Southeast Marion County)
Map J (Belleview)
```

All of the traffic counts contained in this book have been collected by one of the following sources: the City of Ocala, Marion County, or the Florida Department of Transportation. The source of the traffic count is denoted in the Source column indicating the count was taken by the City of Ocala (OCA), Marion County (MC), or the Florida Department of Transportation (FDOT).

This count book is available on the TPO website at www.ocalamariontpo.org.

## City of Ocala Traffic Counts:

The City of Ocala traffic count program consists of several different count types. To determine which type of count was taken for each location, simply locate the 'Count Type' column in the traffic count book. The 'Count Type' will be listed as a 1, 2 or 3 . Descriptions of the count types are as follows:

1- Monthly Count: A series of 24 -hour counts taken on a Tuesday, Wednesday, or Thursday at the same location once a month for a year.

2- Annual Three-Day Count: The average of three 24-hour counts.
3- One Day Count: A single 24-hour count, taken Monday through Thursday.

## Florida Department of Transportation:

The Florida Department of Transportation provided counts on state and federal roadways within the City of Ocala and throughout Marion County. These counts are denoted in the 'Count Source' column by FDOT, and the count station number where the count was recorded. All Florida Department of Transportation counts are daily counts representing a one-day (24-hour) count that has been adjusted using seasonal and axle factors.

For more information on the FDOT Traffic Count program, see their website: www.dot.state.fl.us/planning/statistics

## Count Station Types

There are two main types of count station facilities that are used to record traffic volumes. 'Temporary' stations and 'Permanent' stations.

The majority of all count stations in Marion County are temporary count stations. These sites feature a portable count computer and pneumatic tubes that are taped across the roadway.

Permanent count station locations are sites that feature permanent infrastructure that has been installed into the roadway surface. 'Loops' replace the use of pneumatic tubes that are used with the temporary stations. They are installed directly into the pavement of the roadway. These subsurface loops are fixed and can be connected to a portable count computer or a permanent cabinet. Some permanent count stations are further enhanced by the addition of 'piezos' that are also installed into the pavement and a fixed cabinet where a count computer can be installed permanently. These stations allow for basic counts as well as the capability to determine vehicle class and speed.

## Note:

- All traffic counts have been rounded to the nearest 100 .
- 'NC' - Indicates that there is no traffic count available at that specific location due to a reporting error or that the count is no longer warranted and is being phased out.
- 'CST' - Indicates that there is no traffic count available at that specific location because construction, resurfacing, or other maintenance procedures interfered with the counting process or would otherwise not allow for a accurate indication of traffic volumes.

RE: $\quad$ CR 464B and US 27 Intersection Qualitative Assessment Study

Based on a Qualitative Assessment Study that was completed in 2017, FDOT has put together $90 \%$ design plans for intersection improvements at CR 464B and US 27. The purpose of the assessment was to evaluate the prevailing operating traffic flow conditions and identify areas where improvements would be beneficial for safety and efficiency reasons.

FDOT staff will present their findings and will be available to answer comments and concerns from the TPO Board.

Should you have any questions regarding the study, please contact me in our office at 629-8297.

## PRE-CONSTRUCTION NOTES:

UTILITY CONTACTS:

2. contractor to submit concrete design mixes to project engineer 48 hours prior to beginnng construction. GENERAL NOTES:

CENTURYLINK DALE ELLIS
there are no lane closures on us 27 from 5:00 pm - 6:00 pm westbound. all lane closures shall be approved by the project engineer.
2. Contractor shall use optional shoulder treatment for dropoff protection per index 600.
3. PROPOSED directional median shall provide proper drainage flow. (SEE typicals)
4. TRAFFIC CONTROL SHALL BE PERFORMED IN ACCORDANCE WITH FLORIDA DEPARTMENT OF TRANSPORTATION DESIGN
STANDARDS INDICIES 600 AS APPLICABLE. EXISTING SPEED LMITS SHALL BE MAINTAINED DURING CONSTRUCTION.
5. the baseline is centered along us 27,with station 20+00 aligned with the power pole located 80.5' north of baseline.
6. ARROWS AND MESSAGES TO be PLACED PER INDEX No. 17346.
7. RADIUS AND OFFSET DIMENSIONS ARE SHOWN TO the FACE OF CURB.
8. EXISTING SIGNS TO REMAIN UNLESS OTHERWISE NOTED.
9. PAY ITEM 522-2 WILL be uSED to PLace the 5" COncrete within the medan noses and DIRECTIONAL MEDIAN.

## COLLISION ANALYSIS

According to crash records obtained by VHB from Signal4Analytics and CARS, there were seven crashes reported at the intersection during the latest 24-month period covering January 1, 2015 to December 31, 2016. Of the seven reported crashes, one included a fatality, two were injury crashes and four were property damage only crashes. The total property damage from the crashes was estimated at $\$ 88,800$. A collision diagram and collision summary table are provided in the following pages.

The number of crashes by type are as follows:

- Angle
4 (57.0\% of total, 3 in 2015 and 1 in 2016)
- Rear-End
3 (43.0\%, 3 in 2016)

One angle crash (\#1), a property damage only crash, involved a southbound US 27 motorist and a westbound motorist exiting the BP Gas Station Driveway. The contributing cause cited for this crash was FTYRW.

The angle crash which resulted in the fatality (\#2) occurred when a motorist entered the roadway traveling east from CR 464B in front of an approaching motorist traveling southbound on US 27. The eastbound operator stopped the vehicle in the inside lane of US 27 prior to the crash. Alcohol was found in the system of one operator, however, the amount was small and not believed to have impaired the operator's judgement. The contributing cause was cited as FTYRW.

The angle crash which resulted in the injury (\#4) and one of the property damage only angle crashes (\#3) occurred when a motorist moving east from CR 464B across the intersection into the BP Gas Station Driveway was hit by an approaching motorist traveling northbound on US 27. In the injury crash (\#4), the eastbound operator indicated that her visibility of oncoming traffic was impacted by a large truck stopped in the northbound left turn lane. The contributing cause in both crashes was cited as FTYRW, which is typical for angle type collisions.

The rear end crashes (\#5, \#6, \#7) occurred on CR 464B traveling east towards the intersection, and were the result of the trailing motorist thinking that the lead motorist had started and continued moving, only to realize too late that the lead motorist had stopped. The contributing causes were cited as careless driving.

Contributing causes cited in the crash reports are summarized as follows:

- FTYRW
4 (57.0\%)
- Careless Driving 3 (43.0\%)

Lighting conditions are summarized as follows:

- Daytime
- Dusk

Pavement conditions are also summarized as follows:

- Dry Pavement

6 (86.0\%)

Additional crash data from January 2012 through December 2014 was reviewed to determine if a crash pattern that extends beyond the initial two years of data. Data from 2012 revealed that no crashes were reported at the intersection.

In 2013, five angle crashes and one overturning crash were reported. One angle crash, which involved one operator under the influence of drugs, resulted in a fatality and two other angle crashes involved injuries. The contributing cause in the angle crashes was cited as FTYRW, and the contributing cause in the overturn crash was failure to maintain vehicle.

In 2014, one crash was reported within the influence area of the intersection involving a pedestrian. The crash, which occurred approximately 80 feet south of the intersection, during the day in dry conditions, resulted in an injury with an unknown contributing cause.

INTERSECTING ROUTE: CR-464B (NW 110th Ave)

## EIGHT HOUR TURNING MOVEMENT COUNTS

Eight-hour turning movement counts were collected at the intersection of US 27 and CR 464B/BP Gas Station Driveway from 7:00-9:00 a.m., 11:00 a.m. - 1:00 p.m. and 2:00-6:00 p.m. during a typical weekday. The traffic counts along US 27 revealed a balanced northbound-southbound directional flow pattern during the a.m. period and predominantly northbound flows during the mid-day and p.m. periods. Hourly directional traffic volumes on northbound US 27 range from 362 vehicles per hour (vph) in the a.m. period, to 744 vph in the mid-day, to 580 vph in the p.m. period. Southbound US 27 directional traffic volumes range from 378 vph in the a.m. period, to 341 vph in the mid-day, and 433 vph in the p.m. period. Traffic flow on eastbound CR 464B ranged from 91 to 142 vehicles per hour ( vph ) for seven of the eight hours with a peak flow of 161 vph during the a.m. period attributable to a high volume of right turns onto US 27. The westbound approach, the BP Gas Station driveway, exhibited hourly traffic flows ranging from 25 to 59 vph with 58 and 59 vehicles recorded during both the noon hour and the 5:00 p.m. hour. The majority ( $78.0 \%$ ) of the vehicles generated by CR 464 B turn right to travel south on US 27 while approximately $39 \%$ of traffic exiting the gas station driveway travels west straight through the intersection onto CR 464B. The northbound approach recorded 19 U-turn movements and the southbound approach recorded 2 U-turns during the 8 -hour period.

No pedestrian or bicycle activity was observed during the 8-hour count period.
Heavy vehicles accounted for approximately $6 \%$ of the total traffic on US 27.
Turning movement and pedestrian counts are provided in the Appendix section of this report. Turning movement patterns at the intersection consist of the following:

|  | NB | SB | EB | WB |
| :--- | :---: | :---: | :---: | :---: |
| Left-Turn/U-turn | $21.1 \%$ | $2.6 \%$ | $11.5 \%$ | $29.8 \%$ |
| Through | $74.1 \%$ | $94.0 \%$ | $11.2 \%$ | $38.6 \%$ |
| Right Turn | $4.8 \%$ | $3.4 \%$ | $77.3 \%$ | $31.6 \%$ |

## QUALITATIVE ASSESSMENT

A qualitative assessment based on field observations was performed by a registered engineer during the p.m. peak hour period (i.e., highest mainline volume) and during the mid-day period (i.e., highest side street volume) at the study intersection of US 27 and CR 464B. The purpose of the qualitative assessment was to evaluate prevailing operating traffic flow conditions and identify areas where improvements would be potentially beneficial for safety and efficiency reasons.

1. Vehicles approaching the intersection on US 27 were observed moving at or above the 65 mph posted speed limit. Vehicles entering the buffered left turn lanes generally began to decelerate slightly before the entrance to the turn lane. A clear view of the intersection is available for both northbound and southbound traffic.
2. Vehicles approaching on CR 464B were slowing due to the stop condition at the intersection. The posted speed limit on CR 464B eastbound is reduced to 40 MPH due to a combination horizontal/vertical curve in the roadway approximately 375 feet west of the intersection.
3. Pavement markings are in good condition. Signage condition varies from good to poor.
4. Intersection warning signs (W2-1) are posted approximately 960 feet north and 550 feet south of the intersection on US 27.
5. The median opening is approximately 42 feet wide, allowing for one standard passenger vehicle to stop and wait for a gap in opposing traffic. Many eastbound and westbound through and left turn movements were observed using the median to complete their movement in two stages. It was noted that many vehicles traversing the intersection were horse trailers or trucks with trailers attached, and these vehicles cannot always stop in the median area without impacting adjacent through traffic. The visibility for other left turning vehicles is clear unless a vehicle is stopped in the median area.
6. During the mid-day peak hour, northbound left turning vehicles on US 27 experienced a maximum queue of approximately 4 vehicles, which typically included at least one trailer or vehicle towing a trailer. Deceleration/storage space for this movement is adequate, and sight lines are generous provided there are no stopped southbound left turning vehicles or eastbound/westbound vehicles stopped in the median area. A maximum queue of 2 vehicles was observed for the southbound left turns. The visibility of oncoming traffic to a stopped northbound or southbound left turning motorist is clear unless a vehicle is queued in the opposing left turn lane. Motorists were observed proceeding to the edge of the buffer lane to determine if an adequate gap exists to complete their turn.
7. During the mid-day peak hour, a maximum queue of 3 vehicles was observed in the eastbound right turn lane and 2 vehicles in the eastbound left turn lane. Both movements typically included at least one trailer or vehicle towing a trailer. Visibility of approaching southbound traffic to eastbound right turning motorists is restricted when a vehicle is queued in the eastbound left turn lane. Right turning motorists were observed proceeding very slowly into the roadway to see approaching traffic, or waiting until the left turning vehicle moved to complete their turn. A maximum queue of 2 vehicles was observed exiting the gas station.
8. Visibility of approaching northbound traffic to eastbound left and through motorists is impacted by vehicles stopped in the northbound left turn lane, particularly when the queue includes a trailer.
9. Confusion was observed between eastbound and westbound left turn and through movements and between northbound left turning vehicles and either eastbound or westbound through/left vehicles. In several instances, a motorist began moving and stopped suddenly when a motorist in an opposing direction also began to move to occupy the median.
10. During the p.m. peak hour, a maximum queue of 5 vehicles was observed in the northbound left turn lane and 1 vehicle in the southbound left turn lane. On the eastbound approach, 6 vehicles were observed in the right turn lane while 2 were observed in the left turn lane. On the westbound approach, exiting the gas station, a maximum of 1 vehicle was observed. It should be noted that less vehicles towing trailers were observed traversing the intersection than during the mid-day peak hour.
11. On the westbound approach, the gas station driveway, a single white pavement marking stripe identifies the edge of the driveway, and fire lane striping is installed between the edge stripe and the physical edge of pavement. The fire lane striping stops approximately 30 feet east of US 27, and westbound right turning vehicles were observed using this unmarked area as a right turn lane. Through and left turning traffic generally stopped on the south side of the white stripe, within the "designated" driveway area.
12. Several motorists were observed exiting the BP Gas Station at its southernmost driveway and crossing the northbound approach to make a u-turn at CR 464B.
13. A left turn lane is marked just north of the intersection for the Fellowship Baptist Church, which is located on the southwest quadrant of the intersection. The lane begins approximately 25 feet north of the intersection, and the median opening to allow the turn into the site driveway is located approximately 630 feet north of the CR 464B intersection. Eastbound left turning motorists were observed using this deceleration lane as an acceleration lane to get up to speed before entering the through traffic lane.
14. Directional median openings for both northbound and southbound traffic are provided approximately 1,420 feet north and 1,240 feet south of the intersection. Both directional median openings feature u-turn bulb-outs to facilitate u-turn maneuvers by large vehicles.
15. Consideration was given to the installation of a roundabout at this intersection. Installation of a roundabout would slow approach speeds and allow for maintenance of all movements at the intersection while eliminating the potential for right angle crashes. If angle crashes do occur within a roundabout, they are generally low speed and much lower severity than at a traditional intersection. This intersection was screened using the FDOT Step 1 Roundabout Screening criteria, with the result of an optional Step 2 screening. If a roundabout was constructed at the existing intersection location, the gas station located on the east side of US 27 would be significantly impacted by the required approach realignment. To minimize the impact, the roundabout could be placed slightly south of the existing intersection, which would only require minor access modification. This would, however, impact right-of-way on the west side, as CR

464B would have to be realigned to the new intersection. FDOT can consider further screening for implementation of a roundabout as part of a separate project, however, installation of a roundabout is not recommended at this time.
16. Installation of a traffic signal at this intersection was also considered. Installation of a traffic signal would allow all movements at this intersection to be maintained, but it would eliminate conflicts between opposing movements at the intersection and decrease the potential for high speed, high severity crashes. A cursory review of the existing traffic volumes at the intersection and the 2016 crash reports indicate that they are not close to the thresholds required to satisfy signal warrants. The 2016 crash data indicated fewer crashes than the previous year which had 3 angle crashes including one fatality.
17. Based on observations of traffic flow patterns and demand, volume counts, crash records, qualitative assessment of the intersection operation, and consideration of potential improvement options, this study recommends:

- Installation of a directional median opening. Similar openings are installed along US 27 and would be a familiar condition to roadway users. It would eliminate the potential for conflict between side street and main line through and left turn movements, which were the movements highlighted in the "angle" crash reports. US 27 at CR 464B is Access Class 3, which requires a spacing of 1,320 feet between directional openings according to the FDOT Median Opening Handbook. The existing distances from the CR 464B intersection to the upstream and downstream northbound/southbound directional median openings, meet or fall within ten percent of the 1,320 foot criteria. Therefore, no adjacent roadway improvements are required at these locations. The northbound directional median opening at Fellowship Baptist Church is closer to the proposed directional opening than is allowed by the Median Opening Handbook, however, we recommend keeping this northbound directional median opening to maintain direct access to the church. A conceptual improvement diagram is provided on the following page.

| County: Marion | Intersecting Road: | CR |

## EXISTING CONTROL/PROJECT CLASSIFICATION

| EXISTING CONTROL/PROJECT CLASSIFICATION |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Control: | $\square$ Signal | $\square$ All Way Stop | $\square 2$ Way Stop | $\square$ Yield | $\square$ None |
| Classification: | $\square$ Design. | $\square$ Traffic Operations | $\square$ Other |  |  |

## SCREENING CRITERIA

1. Does the intersection have physical or geometric constraints that would limit visibility orno complicate construction? (comment below if "yes")
2. Does the major roadway AADT exceed $90 \%$ of the total intersection AADT?
no (comment below if "yes")
3. Does the intersection have pedestrians with special needs that would have difficultyyes crossing the road? (comment below if "yes")
4. Is the intersection located within a coordinated signal network? (comment below if "yes")yes
5. Is there downstream traffic control or conditions that could cause queues to back up intoyes the intersection? (comment below if "yes")
6. Would the installation of a roundabout create impacts to historical, $4(\mathrm{f})$, or environmentally sensitive sites? Would the relocation of residences or businesses be required? (comment below if "yes")
The gas station on the east side of US 27 would be significantly impacted if the roundabout is placed at the current intersection location. The existing access/egress driveway at the intersection is short, and reconfiguration of the approach would likely extend into the site The notential imnact could he lessened bv shiftina the roundabout to the south however this will cause Step 2 evaluation is required if no is checked for all criteria. Level 2 is optional if yes is checked for one or more of the criteria.

## MEMORANDUM

September 19, 2018

TO: TPO MEMBERS
FROM: MICHAEL DANIELS, DIRECTOR
SUBJECT: CENTRAL FLORIDA MPO ALLIANCE REGIONAL PRIORITIES

At its October 12, 2018 meeting, the Central Florida MPO Alliance will be discussing the draft FY 2018/19 Regional Priority Lists for highway, transit and regional trails. Attached please find each of the approved lists. The list for highways and trails include several projects within the Marion County area. The biggest change from the Ocala/Marion TPO was to move the NW 49th Street Interchange project up to \#2 on the list. In addition, the Pruitt Gap trail projects was also added to the trails priority list. We do not have any projects on the transit list.

Staff is requesting approval of the priority lists. If you have any questions or would like to discuss this information further, please contact our office at 629-8297.

## FY 2018/19 CENTRAL FLORIDA MPO ALLIANCE LIST OF PRIORITY PROJECTS

## CFMPOA Regional Transit Priorities

## Transit Projects Programmed/Under Construction

- Brightline (West Palm Beach - Orlando) - Private Sector

## Prospective Transit Projects Currently Being Pursued

- SunRail - Phase II North (DeBary - DeLand)
- SunRail - Phase III (Meadow Wood Station to OIA)
- OIA Refresh Alternatives Analysis
- US 192 Bus Rapid Transit
- SR 50 Bus Rapid Transit
- Lymmo Expansion (North/South)
- SR 436 - LYNX Premium Transit Service
- Prospective Brightline Brevard Station Study

## Privately Funded Transit Projects Being Pursued

- Brightline/Hyperloop (Orlando - Tampa )

## Future Transit Projects that will be studied

- East Central Florida Corridor Task Force Transit Study

# Executive Director Performance Review 

Reviewer: Chairman David Moore
Employee: Michael Daniels
Review Period: October 26, 2016 to September 10, 2018
Review Date: September 18, 2018
Review Scale:
5= Exceeds Job Expectations
4= Above Job Expectations
3= Meets Job Expectations
2= Needs Improvement
1= Does not meet Job Expectations

## EVALUATION

1. Maintains effective communications with and availability for the Ocala/Marion TPO Board Rate: 4
2. Represents the Ocala/Marion TPO Board well, understands role and implements the Board's vision
Rate: 3
3. Understands and maintains compliance with Federal and State MPO requirements as they apply to the Ocala/Marion TPO Board
Rate: 2
Comments: Better communication with FDOT
4. Understands current trends and issues impacting the Ocala/Marion TPO Board and membership, informs the Board as to their implications
Rate: 3
5. Hires and develops qualified staff appropriate for day-to-day operations and guides staff to achieve objectives
Rate: 3
6. Maintains public image of the Ocala/Marion TPO Board representing service, vitality and professionalism while enhancing the visibility and identity of the organization
Rate: 2.5
Comments: FDOT issue
7. Builds relationships and encourages the creation of partnerships with other organizations that contribute to the Ocala/Marion TPO Board's mission and vision
Rate: 2.5
Comments: FDOT relationship
8. Develops sound budget for current and future revenues and expenses necessary to maintain daily and overall operations
Rate: 4
9. Meets challenges head on

Rate: 2
10. Manages assets including technology, budget and office space Rate: 4
11. Encourages public involvement and maintains transparency for the Board, public and staff Rate: 3
12. Inspires confidence, establishes credibility with the Ocala/Marion TPO Board

Rate: 2.5
Comments: FDOT notification
13. Maintains a "big picture" outlook and is aware of industry issues

Rate: 3.5
14. Exhibits diligence in leading the Ocala/Marion TPO

Rate: 3
15. Forecasts trends, responds to change, and invites innovation

Rate: 4
Comments: MPOAC
16. Solicits and acts upon the ideas of others when appropriate

Rate: 3.5
17. Demonstrates excellence in carrying out job responsibilities and accomplishing goals

Rate: 2.5
18. Participates in relevant and worthwhile professional organizations

Rate: 4

## Areas for Improvement:

Already made changes with regard to FDOT communication and billings. Need to continue to improve these areas and relationships.

## Additional Comments:

When issues arise notify the TPO Board immediately so we can address the issue.

TOTAL AVERAGE SCORE: 3.1

## TOTAL AVERAGE FROM COMBINED SCORES: 3.2

Comments: Urban Planning

## Areas for Improvement:

The area is being addressed and it is how we handled our FDOT finance. You have set a new procedure and goal that seems obtainable.

## Additional Comments:

Future education to TPO Board members of how the "behind the scenes of it all work" regarding finances, staff duties day to day.

## TPO DIRECTOR EMPLOYMENT AGREEMENT

THIS AGREEMENT made and entered into this day of Decenbe20T6, by and between the City of Ocala ("City") on behalf of the Ocala/Marion County Transportation Planning Organization ("TPO"), an agency created pursuant to federal and state law ("Employer") and Michael P. Daniels ("Director") both of whom understand as follows:

## WITNESSETH

WHEREAS, 23 U.S.C 134 and Florida Statute, § 339.175 provides for the designation of a metropolitan planning organization for each urbanized area of the state; and

WHEREAS, pursuant to Florida Statute, § 339.175(4), the Governor, by letter dated the 13th day of February 2014, approved the apportionment and boundary plan submitted by the TPO; and

WHEREAS, the TPO, pursuant to the power conferred upon it by Florida Statute, § $339.175(6)(\mathrm{g})$ and Section 5.00 of the Interlocal Agreement between Marion County, Florida, the City of Ocala, the City of Belleview, the City of Dunnellon and the Florida Department of Transportation (FDOT), dated May 18, 2004 may enter into agreements with local agencies to utilize the staff resources of such agencies or for the performance of certain services by such agencies; and

WHEREAS, pursuant to Florida Statute, $\S 339.175(2)$ (b) the TPO is an independent governmental entity separate and distinct from the City; and

WHEREAS, the TPO and the City entered into a Staff Services Agreement dated May 24, 2016 whereby the City agreed to furnish the TPO with the staff necessary for professional, technical, administrative, and clerical services, office and other space, and other incidental items as may be required and necessary to manage the business and affairs of the TPO and to carry on the transportation planning and programming process specified by the Transportation Planning Joint Participation Agreement.

WHEREAS, Employer desires to contract for the services of Michael P. Daniels as Director of the Ocala/Marion County TPO through the City pursuant to the Staff Services Agreement; and

WHEREAS, it is the desire of Employer to provide certain benefits, establish certain conditions of employment and to set working conditions of said Director; and

WHEREAS, it is the desire of the Employer to: (1) retain the services of the Director, (2) provide inducement for him to remain in such employment, (3) make possible full work productivity and independence by assuring Director's morale and peace of mind with respect to future security, and (4) to provide a just means for terminating Director's services at such time that Employer may desire to terminate his employment.

NOW THEREFORE, in consideration of the mutual covenants herein contained, the parties agree as follows:

## Section 1. General Terms of Employment

1.1 Employer hereby agrees to employ Michael P. Daniels as TPO's Director, under the supervision of the TPO Board of Directors (the "Board") and Director agrees to perform the functions of such office. During the term of his employment Director shall perform all duties customary to such office, and such other duties and responsibilities, as may be determined by the Board. Director shall have the responsibility for selection, placement, transfer, supervision, and management of staff personnel hired by the City pursuant to the Staff Services Agreement; shall keep the Board informed as to any staff changes; and shall obtain prior approval to create any positions that result in a net increase in the number of staff positions. Director will perform the duties and obligations as Director in a faithful and diligent manner, including the devotion of not less than forty (40) hours per week (subject to the use of approved leave) to the performance of those duties and obligation, knowing full well that the duties of the position may require more hours of service that will not be otherwise compensated. Director agrees to conform to such personnel rules, management policies and other procedures as other City employees. Director agrees to devote his entire time and attention to his office, and will not be employed by any other person or entity while employed as Director.

## Section 2. Term of Agreement

2.1 Director will be employed by the Employer for an initial term starting on October 26, 2016 and concluding on September 30, 2018. Thereafter the Director's employment term may be successively extended for a period of two additional years by the TPO Board. Reappointment without the execution of a new agreement shall constitute renewal of this Agreement, or if the Agreement is amended, the Amended Agreement.
2.2 The Director serves at the pleasure of the Employer and nothing herein shall be taken to prevent, limit or otherwise interfere with the right of the Employer to terminate the services of the Director at any time subject only to the provisions of Section 6 of this Agreement.
2.3 In the event Director desires to voluntarily resign as TPO Director before expiration of the term of this Agreement, then Director shall give the Employer 90 days advance notice unless the parties agree otherwise. Failure to provide such advance notice shall preclude Director from receiving those benefits that Director may have otherwise been entitled to receive pursuant to Section 6 of this Agreement.

## Section 3. Compensation

3.1 Base Salary: Employer agrees to pay Director for services rendered pursuant hereto as TPO Director an annual base salary of $\$ 90,000$ payable biweekly effective October 26, 2016.
3.2 Incentive Compensation: The parties recognize that Director's compensation package for any given year is not limited to base pay and benefits, and that Director's annual income, in any given year, may also include, in recognition of Director's value to the Board and superior performance, and at the sole discretion of the Board, a supplemental one-time payment, which does not increase base salary, of not more than fifteen (15\%) percent of Director's base salary.
3.3 Deferred Compensation: Employer agrees to pay the Director annual deferred compensation in biweekly installment amounts equal to $5 \%$ of base salary. Said deferred compensation shall be paid to the ICMA Retirement Corporation or any other retirement fund or funds designated by the Director. Employer agrees the employee's interest is $100 \%$ vested when biweekly deposits are made to the plan.

## Section 4. Benefits

4.1 Pension: The Director shall participate in the City's General Employee 401(a) Defined Contribution Plan on the same terms and conditions as all other City employees participating in that Plan.
4.2 Vacation and Sick Leave: Director shall receive credit for time served with the City of Ocala and shall accrue vacation and sick leave commiserate with the accrual rates set forth in the City Employee Handbook.
4.3 Life Insurance: Employer will pay for term life insurance equal to the employee's base salary rounded to even thousands plus $\$ 100,000$ in additional life insurance.
4.4 Health Insurance: The Director shall be entitled to participate in the same health, eye care, and dental plans as all other City employees and on the same payment basis.
4.5 Automobile Allowance: Employer shall provide a car allowance of $\$ 3,000$ per year, payable at a prorated amount on a biweekly basis. Said car allowance shall be in lieu of a City vehicle. All business travel outside of Marion County shall be reimbursed at cents per mile equal to the IRS allowable rate then in effect.
4.6 Cell Phone: Employer shall also provide a cell phone for business use and personal use, provided such personal use does not interfere with business use or result in an expense exceeding the plan limitations for the plan provided to Director.

## Section 5. Reimbursable Expenses

5.1 Employer will reimburse the Director for expenses reasonably incurred by him for travel, lodging, meals, and out of pocket expenses in connection with TPO business, subject to his
compliance with the policies and guidelines of the TPO Board, including requirements as to documentation.

## Section 6. Termination and Severance Pay

6.1 In the event the Director is not reappointed by the Employer and the Employer does not provide at least a 90 -day notice as required in Section 2(0), then Employer agrees to pay Director a lump sum of cash payment equal to 20 weeks compensation as "severance" as that term is defined in Florida Statute, $\S 215.425(4)(\mathrm{d})$, to include benefits and perquisites such as retirement contribution, deferred compensation payments, and car allowance. In the event the Director is terminated without cause at any other time, then Employer agrees to pay Director a lump sum severance equal to 20 weeks compensation. The Director shall also be paid out for all earned Paid vacation, sick leave, holidays, and other accrued benefits to-date in accordance with the City Employee Handbook, calculated at the rate of pay in effect upon termination. If Employer provides at least 90 days' notice of intent not to reappoint, Director may voluntarily separate from Employer and receive severance equal to remaining term under this employment agreement, and shall also be paid out for all earned vacation, sick leave, holidays, and other accrued benefits to-date in accordance with the City Employee Handbook, calculated at the rate of pay in effect upon termination.
6.2 In the event the Director is terminated by the Employer without cause, all life, health, dental, and disability insurance and all other Employer provided benefits shall continue in force and coverage, at Employer expense, for a 20 -week severance period or until similar coverage is provided to Director by a subsequent employer (and in full force and effect) whichever comes first. Said continuation, of group health insurance coverage shall be in addition to any protection afforded Employee by the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). Coverage under COBRA shall begin on the date all coverage extended under the severance provisions herein expires.
6.3 In the event the Employer at any time reduces the salary, compensation or other benefits of the Director in a greater amount than an applicable across-the-board reduction for all employees of Employer, or in the event the Employer refuses to comply with any other provision benefiting the Director herein, then in that event Director may at his option, be deemed to be terminated without cause, as provided herein.
6.4 In the event the Director is terminated for "cause" then Employer's only obligation to employee is to pay all compensation and benefits accrued but unpaid at the date of termination. "Cause" is defined and hereby limited for the purposes of this Agreement to the following reasons: (1) willful dereliction of duty; (2) any felony or misdemeanor conviction of any crime involving moral turpitude; (3) material dishonesty; public insobriety or drug or alcohol addiction; (4) misconduct as defined in Florida Statute, $\S 443.036(29)$ in which case, by statute, such payment would be prohibited; or (5) any other act of a similar nature of the same or greater seriousness.
6.5 Should the Director be permanently disabled or otherwise unable to perform his duties because of sickness, accident, injury, mental incapacity or health for a period of four successive weeks beyond any accrued leave, the Employer shall have the right to terminate this agreement subject to payment of the severance benefits set forth in Sections 6.1 and 6.2 above.
6.6 For the purpose of complying with Section 6 of this Agreement, appropriations held as encumbered fund balances in any fund or account shall be deemed to be available and authorized for transfer to the appropriate salary and benefit expenditure accounts to insure fulfillment of this provision of the Employment Agreement.
6.7 The terms of this Agreement shall remain in full force and effect until employment is terminated under the terms herein, or a new Agreement has been negotiated and entered into by the Director and Council.
6.8 Contemporaneously with the delivery of the severance pay hereinabove set out, employee agrees to execute and deliver to Employer a release releasing Employer of all claims that employee may have against Employer.

## Section 7. Professional Development.

7.1 Employer agrees to budget for and to pay the professional dues, subscriptions, and travel and subsistence expense of the Director for professional participation and travel, meetings and occasions adequate to continue his professional development. Said participation shall include, but not be limited to attendance at the annual conferences which said participation is beneficial to Employer, as well as associated short courses, institutes, and seminars.

## Section 8. Performance Evaluation.

8.1 The Ocala/Marion County TPO current Chairman and Vice Chairman shall review and evaluate the performance of the Director normally no later than October 1 of each year. Employer agrees to increase base salary and other benefits of the Director at the time of said review, in such amounts and to such extent as the Employer may determine that it is desirable to do so, in light of the performance by Director. It is further understood that merit increases based on annual performance evaluations and salary reviews are exclusive of any general cost-of-living increases provided to other employees. The Director shall receive all cost-of-living increases, if any, at the same time and in the same manner said increases are granted to other city employees.

## Section 9. General Provisions.

9.1 The text herein shall constitute the entire Agreement between the parties.
9.2 This Agreement shall become effective upon adoption and approval by the Employer.
9.3 If any provisions, or any portion thereof, contained in this Agreement is held unconstitutional, invalid or unenforceable, the remainder of this Agreement, or portion thereof, shall not be affected and shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Agreement on the date set forth above.

Patrick G. Gilligan
City Attorney

TPO DIRECTOR

Michael P. Daniels, TPO Director

Roseann J. Fusco
Deputy City Clerk

# TRANSPORTATION PLANNING ORGANIZATION 

Marion County Commission Auditorium 601 SE $25^{\text {th }}$ Avenue, Ocala, FL 34471

August 23, 2018

## PUBLIC HEARING MINUTES

## Members Present:

Commissioner Kathy Bryant (arrived at 4:06pm)
Mayor Kent Guinn
Councilwoman Valerie Hanchar
Commissioner Ronald Livsey
Councilman Brent Malever
Commissioner David Moore
Commissioner Michelle Stone
Commissioner Carl Zalak

## Members Not Present:

Commissioner Jeff Gold
Councilman Justin Grabelle
Councilman Jay Musleh
Councilwoman Mary Rich

## Others Present:

Oliver Cromwell, SunTran
Mark Reichert, FDOT
Steven Buck, FDOT
Alison Stettner, DOT
Oscar Tovar, City of Ocala
Tracey Straub, Marion County
Amber Gartner, Kimley Horn
Darren Park, City of Ocala
Sean Lanier, City of Ocala
Carl Mikyska, MPOAC

## Item 1. Call to Order and Roll Call

Chairman Moore called the Public Hearing to order at 4:02 PM. Secretary Shakayla Pullings called the roll of members. A quorum was present.

## Item 2. Proof of Publication

Secretary Shakayla Pullings stated that the Public Hearing had been published to the August 9, 2018 edition of the Star Banner and published online to the TPO website and on the City of Ocala, Marion County, Belleview, and Dunnellon websites.

## Item 3. Public Comment

There was no public comment.

## Item 4a. SunTran- Route Realignment

Mr. Daniels presented the SunTran Route Realignment and said that to maximize the efficiency of the SunTran network, the proposed route alignments from the SunTran COA, finalized in February 2016, and the Transit Development Plan Update in 2018, with some necessary modifications, were assumed to be the base network to the existing system. The revised network took the current funding environment into account.

Mr. Daniels summarized the modifications to the route alignments:
Blue Route - The proposed alignment of the Blue route would provide one-way service on the majority of the route, including a one-way loop along Blitchton Road that is currently serviced by the Purple route with 60-minute headways. The alignment would provide a more direct travel path between several important anchors: the Health Department, the Ocala Regional Medical Center, SW 17th Street, Downtown, and the northwest area identified as an important transit market. The alignment would benefit ridership due to the directness of travel between major anchor points and the available transfers at the Downtown Transfer Station. This would also make service more efficient in the northwest, as it would provide a transfer opportunity to all other routes serving the Downtown Station before continuing to the Health Department.
Yellow Route - The proposed alignment operates similar to the current Yellow B route, with some segments with two-way service and a loop in the northeast. This route was redesigned to reduce out-of-direction travel, provide coverage service in the northeast, and provide more premium two-way service in the area. This route alignment provides two-way service on NW 35th Street that previously only had one-way service every other hour by removing the out-of-direction travel that had served some very low ridership segments in close proximity to the current and proposed Green routes. This alignment maintains a substantial level of coverage in the northeast, increases efficiencies in service, and improves the frequency of the Yellow route.

Green Route - The proposed alignment operates similar to the current Green Route with a minor exception of expanding to provide service directly to the Marion County Library and removing a segment northeast of the Silver Springs Walmart by continuing on SR 40. The alignment then continues the current inbound alignment, returning to Downtown. This alignment has the effect of providing counter-clockwise loop service (opposite the Yellow route) on a few roadways, providing two-way transit service on those routes. This alignment reduces overall out-of-direction travel on the outbound trip by adding service where the current Blue route alignment had provided service on. Additionally, this alignment provides coverage to a significant portion of the northeast that was modified to increase efficiencies for the Yellow route.
Orange Route - The proposed alignment is a combination of the Orange and Yellow A routes, with extended service past the I-75 corridor. This alignment uses N Magnolia/1st Avenue (one-way pairs) to exit/enter the Downtown area and station. This alignment removes some difficult turning movements from the current Orange alignment near the medical centers south of Downtown that are served by the Blue route in this recommendation, without the need to complete the difficult turn. This has the effect of reducing out-of-direction travel and providing two-way service along portions of the route. The newly-added service area along SR 200 was a top request of current and potential riders and was identified as a sizeable transit market due to the employment density in the area. This alignment may also assist in attracting paratransit trips to fixed route
service in an area with an already high number of paratransit trips.
Purple Route - The proposed alignment is a combination of the current Purple, Orange, and Yellow A routes. It provides more direct service to the southwest and a second route option to the northwest, both important coverage areas. This alignment also provides coverage in the southwest where the Orange and Yellow A routes were assessed as being too close to each other. This alignment extends route service to Paddock Mall before returning to Downtown. This new alignment would serve several high-ridership stops in coverage areas while providing access to several key anchor points in the southwest.
Red Route - The proposed alignment preserves the western portion of the existing route from the Health Department as it continues east but would connect directly to Winn-Dixie and Walmart using SE Maricamp Road and not bifurcate into A and B branches at the Winn-Dixie. The Red route is presently the lowest ridership route and has the highest operating cost per passenger trip. It is proposed to eliminate the last trip of day due to low ridership.

## Silver Route to the Ocala / Marion County Commerce Park

The proposed alignment shall provide service to the Ocala/Marion County Commerce Park, which is a growing employment center for Fed Ex Ground, Chewy.com, and Autozone. The route shall be coordinated to run during employee shift changes.

Ms. Stone made a motion to approve the SunTran Route Realignment. Ms. Bryant seconded and the motion passed unanimously.

## Item 5. Adjournment

Chairman Moore adjourned the Public Hearing at 4:13 PM.

Respectfully Submitted By:

Shakayla Pullings, TPO Administrative Assistant

## Item 1. Call to Order and Roll Call

Chairman Moore called the meeting to order at 4:13 PM. Secretary Shakayla Pullings called the roll of members. A quorum was present.

## Item 2. Proof of Publication

Secretary Shakayla Pullings stated that the meeting had been published online on the TPO website and on the City of Ocala, Marion County, Belleview, and Dunnellon websites.

## Item 3a. NE 25 ${ }^{\text {th }}$ Avenue Widening

Steven Buck with the Florida Department of Transportation (FDOT) presented the NE $25^{\text {th }}$ Avenue Widening project that was currently under design.

Mr. Buck said progress on the design was at approximately twenty percent and the new corridor was planned to include four travel lanes with dedicated turn-lanes, sidewalks, bicycle lanes and a grade-separated bridge over the CSX lines.

Mr. Buck gave some background on the project that included:
> Highway System- Off-state Facility, City of Ocala and Marion County, Existing 2-lane undivided, rural collector
$>$ TPO Priority- Ranked $21^{\text {st }}$ on the Priority List
$>$ Project Sponsor- FDOT
> Commitment- Grade separation over CSX
Mr. Buck said there was a South Project and North Project and he explained to the board the proposals for both projects starting with the South Project:
$>$ Project would begin at NE $14^{\text {th }}$ Street (State Road 492) and end north of NE $24^{\text {th }}$ Street with a length of 0.830 miles
> Typical Section-Roadway (proposed)
o Two Travel lanes in each direction (each 11 feet wide)
o 20-foot median
o 7-foot buffered bicycle lanes (both sides)
o 6-foot sidewalks (both sides)
o Additional right of way needed
> Bridge over CSX Railroad (proposed)
o Two Travel lanes in each direction (each 11 feet wide)
o 20-foot median
o 7-foot buffered bicycle lanes (both sides)
o 5-foot sidewalks (protected by concrete barrier walls)
> Proposed Roundabout at NE $24^{\text {th }}$ Street
o Two-lane roundabout
o Passed steps 1 and 2 (of 3-stepscreening process)
> Noise Abatement Wall at Wagon Wheel MHP
> Pond Locations
o Ponds being optimized to account for geotechnical information
The North Project:
$>$ Would begin north of NE $24^{\text {th }}$ Street and end at NE $35^{\text {th }}$ Street with the length of 0.758 miles
> Typical Section- Roadway (proposed)
o Improved one travel lane in each direction (each 11 feet wide)
o No frontage roads
o 42-foot wide median (to accommodate future widening)
o 7-foot buffered bicycle lanes
o 6-foot sidewalks
o Additional right of way needed
$>$ Proposed Roundabout at NE $28^{\text {th }}$ Street
o Single lane roundabout
o Passed steps 1 and 2 (of 3-step screening process)
> Perimeter Wall at Raven Glen
o Provided per RFP Commitment
> Pond Location
o Ponds being optimized to account for geotechnical information
Mr. Buck gave the board upcoming Public Hearing information and said the Project Schedule was:
Design- January 2020
Right of Way Acquisition- Not yet funded
Construction- Not yet funded
There was some board discussion about the project.
Mr. Moore said that roundabouts do not work and wanted to let the board and the FDOT know that he did not like them.

Mr. Buck said that Mr. Moore's concerns were noted and that the FDOT had certain safety and operational improvements for the roadway before a roundabout could be considered.

## Item 3b. Financial and Billing Update

Mr. Daniels presented the Financial and Billing Update and said on June 25, 2018, The Florida Department of Transportation issued specific award condition requirements for the Ocala/Marion County TPO's Metropolitan Planning (PL) funding. The reasons for the conditions were due to the timeliness and accuracy of our billing submittals provided in the enclosed letter. The PL funding was outlined in our 2 - year Work Program (UPWP), which was an estimated budget for each of the planning tasks undertaken by the TPO. Staff had worked closely with the FDOT to ensure that billing was timely and accurate. Staff had diligently complied with all of the requirements laid out in FDOT's specific conditions letter and had revamped the billing process to create a more accurate and efficient billing process. At the time of the Director, Michael Daniels memo, the TPO
had been approved for, or had submitted to FDOT for review of all outstanding invoicing. In addition, Mr. Daniels said that billings had been submitted to FDOT prior to the TPO meeting. To ensure that the Board was kept up to date with the financial and billing activity, at each monthly meeting Mr. Daniels said he would submit a financial report which would update the Board on expenses and invoicing for the fiscal year. In addition, would provide an update to the approved Unified Planning Work Program Tasks, so that the Board can see the progress that had been made on achieving the tasks in the approved UPWP.

Mark Reichert, Administrator from Metropolitan Planning with the FDOT in Tallahassee. Mr. Reichert said his reasoning for attending the TPO meeting was that any time a Special Conditions Letter is provided to an MPO the FDOT Central Office is notified and is their intent to make sure the board is aware and working with the TPO Staff to make sure the issues are being resolved.

Mr. Reichert said the Ocala/Marion TPO was not being held to a higher standard than any other MPO in the state but because of the history of invoicing issues the TPO had been rated at a Higher Risk and the ranking elevates the level of monitoring that is required by FDOT as the pass-through agency for Federal Highway Administration funds and that about three years ago the Florida Department of Financial Services changed the rules for invoicing requiring more documentation.

Mr. Reichert said he would encourage Mr. Daniels to continue to work closely with the FDOT District and foster a relationship of mutual respect and corporation.

Mr. Reichert said he was very encouraged to see that there would be regularly financial reports given to the board.

Mr. Zalak asked how many MPO’s are having the issues that Ocala/Marion was having in the state.

Mr. Reichert said not very many and that there was one that had issues more severe than the ones being dealt with by Ocala/Marion.

Mr. Zalak asked if there were issues with the billings issued prior to the ones over the last six months.

Ms. Vickie Wyche with FDOT said there were some issues that included timesheets and tracking of the timesheets and unallowable expenses.

Ms. Allison Stettner with FDOT said that when the Special Conditions Letter was sent it was to provide a type of structured way to provide technical assistance and it is a learning curve that is in depth and said that Desi (TPO Grant Coordinator) had gone to DeLand for additional training and FDOT would continue to work closely with Mr. Daniels to make sure that invoices and spending was consistent with the agreement.

Ms. Rich asked when the new rules came into place was the TPO doing what needed to be done at that time.

Ms. Stettner said considering the timely processing and the amount of times that billings had to be rejected was being improved.

Mr. Moore asked when did the problem begin.

Ms. Stettner said FDOT started seeing the first issues in the year 2016.
Mr. Daniels said there was a new UPWP that started in 2016 and there was also a fourmonth lag where there was no Director and the billing was behind and when he started the job there was a learning curve so trying to get back on schedule was very difficult and personnel changes as well.

Mayor Guinn asked what the risk was.

Ms. Stettner said the risk was not being reimbursed for Federal Funds and for Planning Funds.

Ms. Bryant said that if the issues continued the board would need to have some more serious discussions.

Mr. Zalak expressed concerns about not knowing about the issues quick enough so he asked Ms. Wyche as the Liaison to the Ocala/Marion TPO to make sure the board was aware immediately of issues. Mr. Zalak said he wanted to make sure the relationship with FDOT was phenomenal like it had been in the past.

Mayor Guinn said he sat on the TPO Board for 19 years and never had a problem with FDOT and wanted to receive a summary of the issues that had been occurring.

Ms. Stettner said she would provide a summary to the board.
Ms. Bryant said if there were any other issues that would put the board at risk the board needs to be notified immediately.

Mr. Malever asked how long it would take to get off High Risk.
Ms. Stettner said usually within the year if progress is being made and re-evaluation is done every year.

## Item 4. Consent Agenda

Ms. Bryant made a motion to approve the Consent Agenda. Ms. Hanchar seconded and the motion passed unanimously.

## Item 5. Comments by FDOT

Ms. Vickie Wyche provided the board with construction updates.

## Item 6. Comments by TPO Staff

Mr. Daniels said that he was coming up on his two-year anniversary and his contract was good for two years so he would need to setup a date with the Chair and Vice-Chair for his performance evaluation.

Mr. Daniels also said the September meeting proposed date was Thursday, September 20 at 2 pm .

## Item 7. Comments by TPO Members

Ms. Bryant asked FDOT to send an update within six months to let the board know how things were coming along.

Ms. Stettner said that she would provide the update and also wanted to let the board know she would not classify the relationship with the TPO as a bad one and wanted to make sure it was clear that FDOT and the TPO were good partners.

Mr. Zalak asked what Ms. Stettner would classify it as.
Ms. Stettner said she would classify it as excellent and have open communication and working to provide technical assistance.

Councilman Malever asked if there would be more shelters up in the future.
Mr. Daniels said yes there would be more shelters up.

## Item 8. Public Comment

There was no public comment.

## Item 9. Adjournment

Commissioner Moore adjourned the meeting at 4:58pm.

Respectfully Submitted By:

Shakayla Pullings, TPO Administrative Assistant

RE: $\quad$ Transit Asset Management Plan (TAMS)

Every agency must develop a transit asset management (TAM) plan if it owns, operates, or manages capital assets used to provide public transportation and receives federal financial assistance under 49 U.S.C. Chapter 53 as a recipient or subrecipient. Each transit provider must designate an Accountable Executive (49 CFR 625.5) to ensure appropriate resources for implementing the agency's TAM plan and the Transit Agency Safety Plan.

Each TAM plan should:

- Outline how people, processes, and tools come together to address asset management policy and goals
- Provide accountability and visibility for furthering understanding of leveraging asset management practices
- Support planning, budgeting, and communications to internal and external stakeholders
- Should you have any questions regarding these issues prior to the scheduled meeting, please contact me in our office at 629-8297.

Should you have any questions regarding these issues prior to the scheduled meeting, please contact me in our office at 629-8297.

# Ocala/Marion County <br> TPO / SunTran <br> Management Plan 

## Introduction

The SunTran bus system administered by the Ocala/Marion TPO, is committed to effectively managing its capital assets and maintaining its system in a State of Good Repair (SGR) to enhance safety, reduce maintenance costs, increase reliability and improve service delivery. This policy outlines the agencies approach to overall asset management, identifies responsibility for monitoring and administering the Transit Asset Management (TAM) Plan and is established to ensure compliance with federal laws and regulations including Moving Ahead for Progress in the 21st Century (MAP-21) and 49 U.S.C. Section 5326.

SunTran has 6 bus routes predominantly in and around the City of Ocala. This agency receives financial assistance through the Federal Transit Administration, State Block Grant and Local funds. While our main assets are bus vehicles, we also manage an operation and maintenance building and service vehicles which all work together to provide the best service for the Ocala/Marion County area.

For the purposes of complying with applicable federal regulations, SunTran, as a Tier II provider (100 or fewer vehicles in peak revenue service), has developed a TAM plan which includes the following required elements:

1. An inventory of the number and type of capital assets that includes all capital assets owned by the agency except "non- service vehicle" equipment with an acquisition value under $\$ 50,000$.
2. A condition assessment of inventoried assets in a level of detail sufficient to:
a. Monitor and predict the performance of the assets
b. Inform the investment prioritization
3. A description of analytical processes or decision-support tools that allows SunTran to estimate capital investment needs over time and develop an investment prioritization
4. A project-based prioritization of investments, developed in accordance with CFR 49 Section 625.33

| Asset Category-- <br> Performance Measure | Asset Class | 2019 Target |

| Bus Wash | 1 | 5 | n/a | $\$ 15,000$ | $100 \%$ |

Decision Support Tools and Management Approach

Investment Prioritization

Maintenance managers use their best judgment to prioritize needs and return a list of priorities to the General Manager and in turn sends the list to the TPO for review and approval.

Decision Support Tools
The following tools are used in making investment decisions:

| Process/Tool | Brief Description |
| :--- | :--- |
| Funding | Determination of the various funding sources and funds <br> availability from those sources by the TPO |
| TERM scale condition Rating | Inspection Checklist performed by a qualified inspector <br> providing TERM scale Condition ratings |
| Vehicle Rating Scale | Inspection checklist performed by a qualified inspector, <br> providing condition ratings. |
| Bus Replacement Schedule | Replacement Schedule spreadsheets are used to assist with a <br> broad view of the fleet needs based on ULB and federal interest <br> remaining. |
| Maintenance Plan | Sun Tran's Maintenance Plan outlines the strategies and Useful <br> life for all of the inventory for the fleet and facilities assets. |

Investment Prioritization
The list of prioritized investment projects is provided in Appendix C.

September 14, 2018

TO: TPO Board Members

FROM: Michael Daniels, TPO Director

RE: $\quad$ Financial Billing Update

To ensure that the Board is kept up to date with our financial and billing activity, at each monthly meeting we will submit a financial report which updates the Board on our expenses and invoicing for the fiscal year. In addition, we will provide an update to our approved Unified Planning Work Program Tasks, so that the Board can see the progress that has been made on achieving the tasks in the approved UPWP.

Should you have any questions regarding these issues prior to the scheduled meeting, please contact me in our office at 629-8297.

Planning Funds (PL) 17-18

| FY Qtr | Beginning <br> Balance | Billing Amount | Remaining | Date Approved | Approval <br> Required |  |  |
| :--- | :--- | :--- | :--- | ---: | ---: | :---: | :---: |
| FY 2017-2018 | $\$ 595,466.00$ |  |  |  |  |  |  |

# UPWP PROGRESS REPORT July 1, 2018 to August 15, 2018 

## UPWP TASK 1.0 -ADMINISTRATION

## STAFF SUPPORT

Conducted TPO Meetings on July 11 and July 17.

- Prepared meeting notice via email and website
- Posted meeting packet on website
- Developed agenda package
- Coordinated presentations

Conducted TAC and CAC Meetings on August 14

- Prepared meeting notice
- Posted Meeting Packet on website
- Developed agenda package
- Coordinated presentations

Conducted TPO Meeting on August 23

- Prepared meeting notice
- Posted Meeting Packet on website
- Developed agenda package
- Coordinated presentations
- Prepared Payroll documents and PL Invoices for FDOT
- Address PL invoice review comments
- Completed and submitted Final PL Invoice for FY17/18 UPWP to FDOT for review
- Began working on FY18/19 UPWP PL Invoices
- Submitted DRAFT PL Invoice \#1 for FY18/19UPWP to FDOT for review
- Began working on FY 18/19 UPWP PL Invoice \#2
- Reviewed expenditures

Provide general administrative support for the day to day operations of the TPO.

- Payroll processing
- Travel support
- General office support
- Grant management
- Invoice preparation
- Created updated Speaker Cards for TPO meetings

## CERTIFICATION

No activity this period
AUDIT
No activity this period

TRAINING

- GMS Accounting and Financial Management System Demo Webinar

## DATA COLLECTION

- Traffic Count Data Collection Correspondence with Marion County Engineering Staff
- Traffic Counts \& Trends Manual Data Entry and Table Preparation
- NW 49 ${ }^{\text {th }}$ Street Interchange - Additional traffic count scheduling to augment PD\&E
- Attended City of Ocala monthly GIS meeting
- Worked with American Community Survey data for information in the Dunnellon area

## SAFETY

- Marion County's 2017 traffic crash data; download from FIRES and begin cleanup.
- Review Marion County's 2018 fatal traffic crashes.
- Continued cleanup of traffic crash data for 2017
- Queried TPO traffic crash database for 2013-2017 traffic crashes in the SR 40 Silver Springs Corridor study area
- Queried TPO traffic crash database for 2017 traffic crashes involving bicyclists and pedestrians; noted injury severity
- Continued general cleanup of 2017 traffic crashes (street names, location, node assignment, direction and distance)

## UPWP TASK 3.0 - LONG RANGE PLANNING

## 2045 LONG RANGE TRANSPORTATION PLAN

- Attend monthly LRTP Progress Meeting
- Review / Evaluation of 2045 Revenue Forecast
- LRTP Pre-Meeting w/Kittleson \& Associates
- LRTP Review - Multi-Modal Accessibility Review

## AIR CONFORMITY

No Activity this period

## PERFORMANCE MEASURES

- Attend mobility performance measure FDOT workshop.

## INTELLIGENT TRANSPORTATION SYSTEMS (ITS)

- Attend Marion County Joint Planning Agreement discussion regarding ITS.
- TIMS Meeting Polk County - ITS

```
REGIONAL COORDINATION
```

- Attend CFMPOA Policy meeting

## REGIONAL TRAILS

- Corrections to the Marion County Regional Trail Projects map.
- Future Trails Connectivity Assessments (DEP, Heart of Florida, Local)

## UPWP TASK 4.0 - SHORT RANGE PLANNING

## TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

- Meeting with County Engineering Staff - FDOT Applications
- SRTS Comparative Candidate Evaluation
- Project Application Preparation
- SW 49 ${ }^{\text {th }}$ Ave - Phase II
- SW $49^{\text {th }}$ Ave - Phase III
- SR 40 Silver Springs Corridor: edited crosswalk gap data and added pedestrian lighting on both sides of SR 40 from east of Wal-Mart to SR 35
- SR 40 Silver Springs Corridor: realign Black Bear Trail to north side of SR 40 and away from private parcel \#24006-000-00
- 

## MONITOR TRANSPORTATION SYSTEM IMPACTS

- Marion County monthly Transportation Coordination meeting
- City of Ocala monthly projects development meeting
- NW $44^{\text {th }}$ Avenue development (City of Ocala/Marion County Executive Staff \& Senior Administration)
- Traffic Study Reviews
- Winter Green Development (Continuing)
- Country Green Development (Continuing)
- FDOT Application Preparation
- NW $37^{\text {th }}$ Avenue
- SR 40 - Silver Springs
- Lake Tuscawilla Drainage Basin Expansion
- SR 200 Wildlife Underpass
- Bridges Road Closure Stakeholders Teleconference
- NE $25^{\text {th }}$ Avenue roadway widening project (FM \# 431797-1) Agency Coordination meeting and discussion with FDOT and consultants.
- Additional research and discussion with FDOT staff and County staff regarding available funding options for the NW $49^{\text {th }}$ Street interchange project.
- Multi-Modal Connectivity Reviews for Committed \& Existing Facilities
- Collect information regarding the SW $44^{\text {th }}$ Avenue project to submit to FDOT for review
- Collection title search information regarding the SR 40 Downtown Multimodal project and submit to FDOT for review.
- Traffic Incident Management Meeting - ATMS

FAST ACT TRANSPORTATION ALTERNATIVES (TA) PROGRAM
No activity this period

LEGISLATIVE ACTIVITIES
No activity this period

## SUNTRAN

- Realignments to SunTran Blue, Silver \& Red Routes in preparation for Public Hearing

TRANSPORTATION DISADVANTAGED
No Activity this period

## UPWP TASK 6.0 - PUBLIC INVOLVEMENT

TPO

- Updated the TPO website with the approved PIP and Title VI documents and signed resolutions
- Updated the TPO website with the Final ATMS Plan
- SunTran Route Change Engagement: (GIS) created $24 \times 36$ display maps for all 7 routes plus an overall map of the newly aligned transit system.
- SunTran Route Engagement Meetings
- Silver Springs Shores Community Center (8/6)
- Downtown Transfer Station (8/7)
- Marion County Health Department Transfer Station (8/8)
- Ed Croskey Center (week of 8/13 to 8/17)
- CF Campus (8/20 to 8/24).
- CTST Monthly Meeting
- Safe Kids Marion Monthly Meeting
- For the Week of $7 / 16$ to $7 / 20$
- SunTran Website Content Review
- SunTran Route Changes Public Involvement Coordination

## UPWP TASK 7.0 - SPECIAL PROJECTS

7.1 NE $8^{\text {th }}$ Avenue Road Diet Study

No Activity this period
7.2 Trails Wayfinding, Safety \& Supporting Facilities Master Plan

- Data Needs \& Public Involvement Strategy Meeting
- Discussion with FDOT staff and consultant regarding revising the scope of the Trails, Wayfinding, Safety, \& Supporting Facilities Master Plan.
7.3 Nature Coast Trail Feasibility Study

No Activity this period
7.4 US 27 Corridor Assessment

No Activity this period

### 7.5 CR 484 Corridor Assessment

No Activity this period

### 7.6 CR 484 Pennsylvania Avenue Study Addendum

- Pre-Stakeholder's Meeting Strategy Session
- Stakeholder' List Candidate Review
- Scoping \& Public Involvement Strategy
