

Technical Advisory Committee (TAC) Meeting

May 12, 2020

10:30 AM

AGENDA

- 1. CALL TO ORDER AND ROLL CALL**
- 2. PROOF OF PUBLICATION**
- 3. PRESENTATION**
 - A. Florida Department of Transportation (FDOT) – Florida Transportation Plan (FTP)**
FDOT staff will present on the Florida Transportation Plan
 - B. I-75 PD&E Study**
FDOT and their consultant team will provide an update to the on-going I-75 PD&E study
 - C. FY 2020 – 2025 Transportation Improvement Program (TIP)**
Staff will present a DRAFT version of the FY 2020 – 2025 Transportation Improvement Program
 - D. 2045 Long-Range Transportation Plan (LRTP)**
Staff will discuss updates to the LRTP and the current development of the needs plan.
- 4. ACTION ITEMS**
 - A. List of Priority Projects (LOPP)**
Staff will present an updated List of Priority Projects.
- 5. CONSENT AGENDA**
 - A. March 10, 2020 – Minutes**
- 6. COMMENTS BY FDOT**
- 7. COMMENTS BY TPO STAFF**
- 8. COMMENTS BY TAC MEMBERS**
- 9. PUBLIC COMMENT (Limited to 2 minutes)**
- 10. ADJOURNMENT**

If reasonable accommodations are needed for you to participate in this meeting, please call the TPO Office at (352) 438-2630 forty-eight (48) hours in advance so arrangements can be made.

Pursuant to Chapter 286.0105, Florida Statutes, if a person decides to appeal any decision made by the TPO with respect to any matter considered at this meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

*The next regular meeting of the Ocala/Marion County Transportation Planning Organization will be held on
June 09, 2020*

TO: Committee Members

RE: Florida Transportation Plan 2020 Update

Background

The Florida Transportation Plan (FTP) is the single overarching statewide plan guiding Florida's transportation future. It is a plan for all of Florida created by, and providing direction to, the Florida Department of Transportation (FDOT) and all organizations that are involved in planning and managing Florida's transportation system, including statewide, regional, and local partners.

The FTP provides policy guidance and establishes the policy framework for allocating the state and federal transportation funds which flow through FDOT's 5-year Work Program.

The FTP is important because it not only sets a long-range vision for the future but it guides transportation decision making today. It considers how we will:

- Attain our goal of zero fatalities on Florida's transportation system.
- Provide a more efficient and mobile transportation system.
- Meet the needs of a growing and changing population.
- Make our economy more competitive.
- Enhance the quality of life and environment of Florida's communities.
- Increase opportunities for access to transit and other modes of transportation.
- Address emerging issues such as the rapid changes in technology.

The FTP is updated every five years. The 2020 update is being led by a diverse steering committee with over 30 members from the public, private, and civic sectors (<http://www.floridatransportationplan.com/committee.htm>). The Metropolitan Planning Organization Advisory Council is among the organizations represented on the steering committee.

The FTP update is focusing on four cross-cutting topics:

Cooperative and comprehensive planning for our transportation needs
Marion County • City of Belleview • City of Dunnellon • City of Ocala

2710 E. Silver Springs Blvd. • Ocala, Florida 34470
Telephone: (352) 438 - 2630 • www.ocalamariontpo.org

CROSS-CUTTING TOPICS

TECHNOLOGY

Will technology change how and when we travel?

RESILIENCE

How do we prepare our transportation system for, and recover from, weather, environmental, economic, and operational disruptions?

STATE/ INTERREGIONAL

How do we improve the state's most strategic transportation systems?

REGIONAL/ LOCAL

What regional or local needs should we consider?

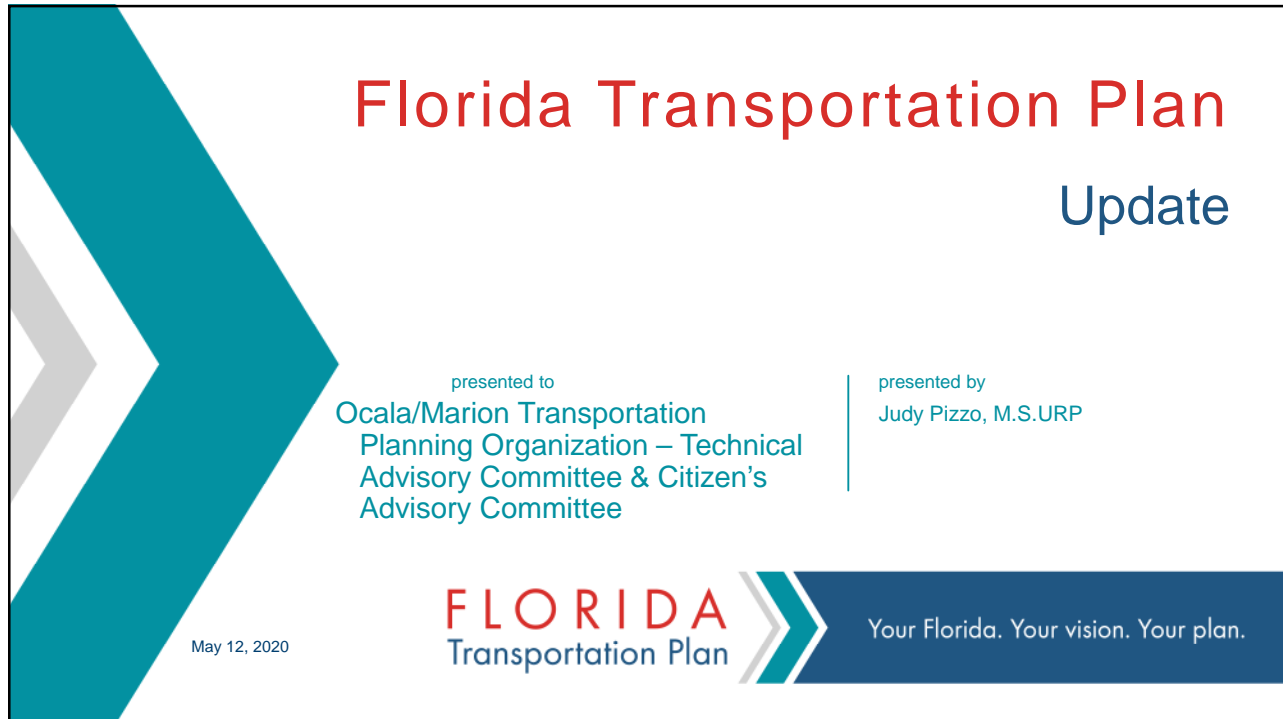

FDOT's presentation will cover the purpose of the FTP and why it matters and share ways to provide input on the FTP update. There will be a focus on the cross-cutting topics and obtaining responses to online polling questions.

Supporting documents

Meeting participants are encouraged to view/print out the three emerging trends handouts before the presentation.

FLORIDA
Transportation Plan

Your Florida. Your vision. Your plan.

1

What is the Florida Transportation Plan & Why it Matters?

- **Florida's long-range transportation plan**
- **A plan for all of Florida**
- **Provides framework for transportation decisions and investments**
- **Guides state, regional, local transportation decisions & investments**
- **FTPs have advanced Florida**
 - 2020 FTP (2000) – Strategic Intermodal System
 - 2025 FTP (2005) – Regional visioning and collaboration
 - 2060 FTP (2010) – Alignment with Florida Strategic Plan for Economic Development; Florida Mobility and Trade Plan
 - Current FTP (2015) – Resilience, Workforce, Choices

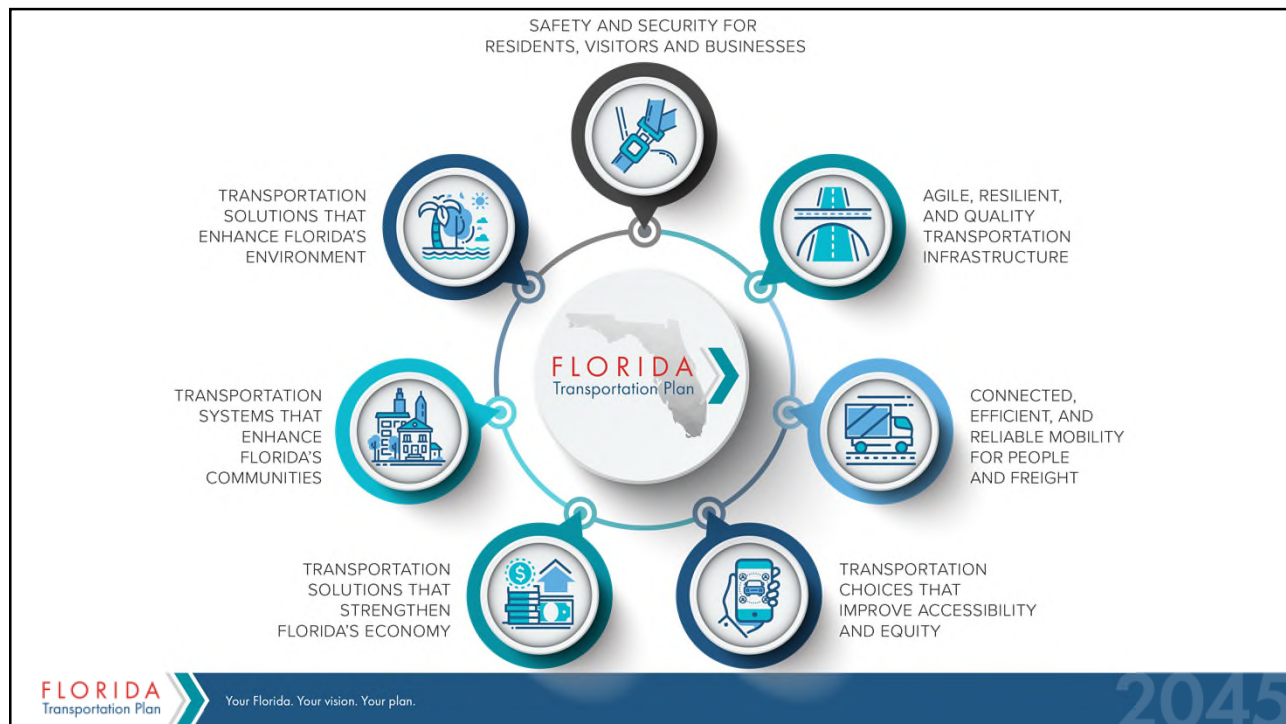

FLORIDA
Transportation Plan

Your Florida. Your vision. Your plan.

Technology	Resilience	State/Interregional	Regional/Local
<ul style="list-style-type: none"> Automated, connected, electric, and shared vehicles Transportation system management and operations Big data New materials and processes 	<ul style="list-style-type: none"> Extreme weather Emergency evacuation and response Sea level rise Flooding Economic and societal changes 	<ul style="list-style-type: none"> SIS, including modal facilities Trade & logistics Multi-use/multi-modal facilities Global, statewide, and interregional connectivity Florida's economic drivers and industries 	<ul style="list-style-type: none"> Urbanized, non-urbanized, and rural Congestion relief Land use and community planning Regional visions Environment Economic development

4

Cross-Cutting Topics and Trends - Examples

Technology

2,500,000,000,000,000,000
(2.5 QUINTILLION)
BYTES OF DATA
are created each day,
and the pace is accelerating

E-COMMERCE accounts for
64% of all
MANUFACTURING
SHIPMENTS

Resilience

By mid-century, the Southeast
is expected to experience up to
50 MORE DAYS
per year of temperatures exceeding
90 DEGREES

Approximately
6 MILLION PEOPLE EVACUATED
during Hurricane Irma. THE LARGEST EVACUATION IN U.S. HISTORY

Nearly
170 COASTAL COMMUNITIES
in the U.S. are projected to experience
FLOODING more than
26 TIMES PER YEAR
by 2035

State & Interregional

By 2045,
Florida's rail network
is projected to carry

42% MORE TONNAGE
worth more than
twice as much
as today

By 2045,
Florida's airports are
projected to carry

300% more freight tonnage
than today

WATERBORNE TRADE
comprises the majority of the state's total
trade by value at **55.3%**

Regional & Local

20%
of Floridians have a commute time
UNDER 15 MINUTES

18%
of Floridians have a commute time of
45 MINUTES OR LONGER

7% of households in Florida
while another
29% own only
ONE VEHICLE

Sharing our Ideas

- **Poll Everywhere – multiple ways to access the polls:**
 - Visit www.pollev.com/FTP2045 from your phone, tablet, or laptop to access the polling questions
 - Text "FTP2045" to 22333 to join the poll and respond to the polls via text message
 - Scan the QR code to the right to go directly to the website
 - Important note: A record of the poll responses will be kept for statutory records retention requirements

Your Florida. Your vision. Your plan.

2045

6

Who do you represent?

- City/County Government
- MPO/RPC/TPO
- Other State Government
- Private Industry Partner
- Private Citizen
- Non-Governmental Industry Organization

Your Florida. Your vision. Your plan.
2045

7

What trend is the most important to/will have the biggest impact on Florida's transportation future?

- Resilience
- Technology
- Funding/revenue/cost of transportation
- Sustainability
- Demographic shifts/population growth
- Evolving processes and decision making to meet changing demands/opportunities
- New way to travels (i.e., ride sharing, micromobility)
- Preservation of environment
- Economy
- Safety
- Less need to travel (i.e., e-commerce, telecommuting)

Start the presentation to see live content. Still no live content? Install the app or get help at PollEv.com/app

8

In your opinion, what is the greatest challenge for Florida to overcome related to changing technology and our transportation system?

Regulatory barriers

Rapid rate of development and adoption of new technologies

Integrating old/existing and new/emerging technologies in the same system at the same time

Planning and design challenges

Data security and privacy

Start the presentation to see live content. Still no live content? Install the app or get help at PollEv.com/app

9

🔔 When poll is active, respond at **PollEv.com/ftp2045**

📱 Text **FTP2045** to **22333** once to join

What regional or local needs should be considered as we update the FTP?

Start the presentation to see live content. Still no live content? Install the app or get help at PollEv.com/app

10

What are some strategies to increase statewide mobility for people and freight in the next five to ten years?

Start the presentation to see live content. Still no live content? Install the app or get help at PollEv.com/app

Florida Transportation Plan (FTP)

Home / Summary

Florida Transportation Plan Overview

The Florida Transportation Plan (FTP) is the state's long-range plan guiding Florida's transportation future. The FTP is a plan for all of Florida – and affects every resident, business, and visitor.

The FTP is important because it not only sets a long-range vision for the future, but it guides transportation decisions today. It considers how we will:

- Attain our goal of zero fatalities on Florida's transportation system.
- Provide a more efficient and modes transportation system.
- Meet the needs of a growing and changing population.
- Make our economy more competitive.
- Enhance the quality of life and environment of Florida's communities.
- Increase opportunities for access to transit and other modes of transportation.
- Address emerging issues such as the rapid changes in technology.

**RE: I-75 Forward PD&E Presentation by Florida Department of
Transportation (FDOT)**

The Florida Department of Transportation (FDOT) is conducting two PD&E studies to evaluate transportation improvements and upgrades to I-75 in Sumter, Marion and Alachua Counties. Both studies will take place simultaneously. The outcomes for both studies may result in different recommendations to address transportation corridor issues for each specific area. The two PD&E study segments include:

- Southern Segment: Florida Turnpike (SR 91) to SR 200
- Northern Segment: SR 200 to CR 234

The FDOT and its consultant team will provide a kick-off overview presentation to the TAC & CAC. The PD&E studies are scheduled to be conducted from 2020 to 2023.

If you have any questions, please contact me at 438-2632.

I-75 PD&E Studies

*Florida's Turnpike to S.R. 200 | S.R. 200 to C.R. 234
Sumter, Marion and Alachua Counties*

April 28, 2020

Financial Project Identification (FPID) No. 443623-1-21-1 | 443624-1-21-1
ETDM No. 14370 | 14385

Agenda

- Study Overview
- Purpose and Need
- Schedule and Next Steps

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated December 14, 2016 and executed by the Federal Highway Administration and FDOT.

- **Southern Study**

- Florida's Turnpike to S.R. 200
- Approx. 22.5 miles
- 4 interchanges

- **Northern Study**

- S.R. 200 to C.R. 234
- Approx. 25.3 miles
- 6 interchanges

Study Overview

Engineering

- Purpose and Need
- Traffic
- Alternatives Analysis
- Structures
- Right-of-Way
- Safety
- Drainage
- Utilities
- Geotech
- Cost

Environmental

- Noise
- Social and Community
- Wetlands
- Wildlife and Habitat
- Parks and Recreational Facilities
- Water Quality
- Cultural Resources
- Land Uses
- Economics
- Contamination
- Construction

Public Involvement

- Public Meetings
- Agency and Elected Official Briefings
- Stakeholder/Small Group Meetings
- Websites
- Newsletters
- Social Media
- Direct Mail

Purpose and Need

- Evaluate corridor and interchange improvements to increase the capacity of I-75 within the study areas to accommodate:

Area Growth

Freight Activity

Traffic and Safety

**Hurricane
Evacuation**

Historic Area Growth

Projected Area Growth

Residential Population

Visitor Population

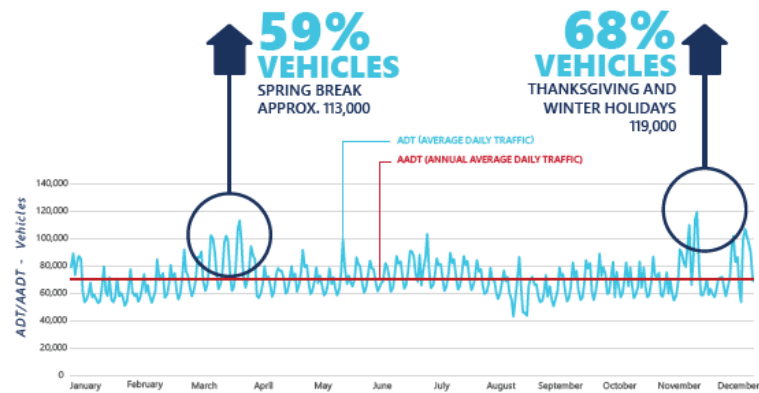

Traffic and Safety

Southern Study

Northern Study

Freight

1 in 5 vehicles on I-75 is a truck

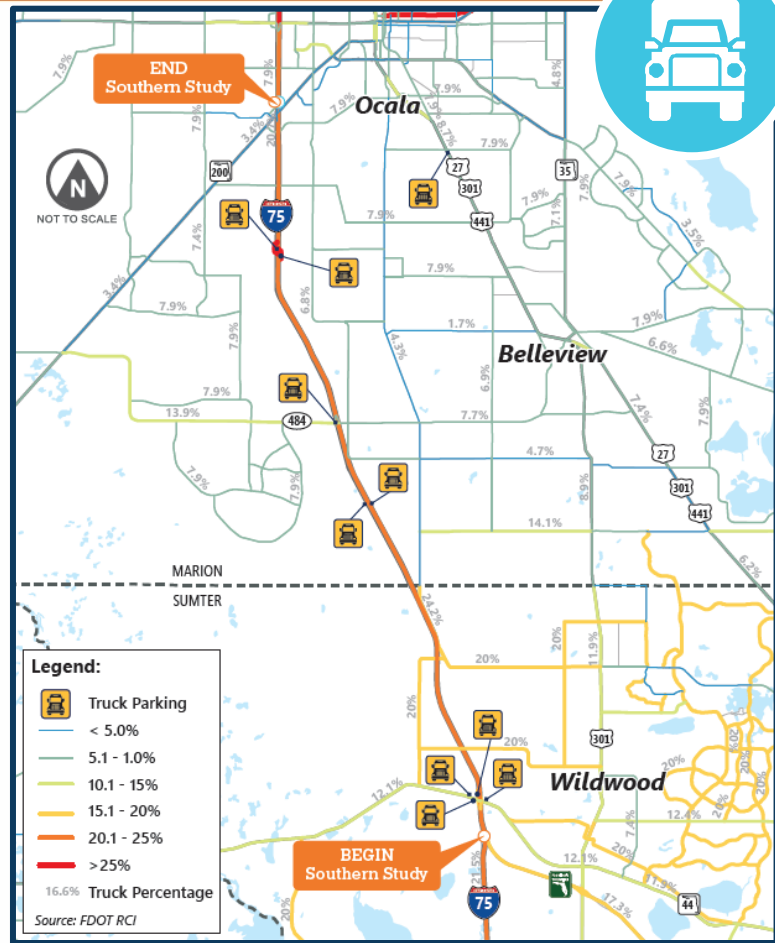

50,000 Kilotons
of freight is transported every year

Daily Truck Traffic in 2017

Primary Interchanges by Study Area

RE: 2020/21-2024/25 Transportation Improvement Program (TIP)

The TPO is currently in the process of updating the Transportation Improvement Program (TIP) for Fiscal Year 2020/2021-2024/2025. Staff will provide an overview of the proposed changes from the current TIP to the draft 20/21-24/25 TIP. The purpose of these changes is to simplify the language and improve the overall readability of the document in order to improve the accessibility of the information to a wider audience and to garner more public feedback. Major changes from the current TIP to the draft 20/21-24/25 TIP include:

- The rewriting, reorganizing, and consolidating of text throughout most sections
- Recategorizing the way projects are classified
- Creation of county-wide project map and improve readability of individual project maps
- Inclusion of interactive online map to accompany TIP document
- Removal of Transportation Performance Measures Consensus Planning Document (per request of the Federal Highway Administration and to be adopted separately by TPO Board)

If you have any further questions or concerns feel free to reach out to me directly at (352) 438-2635 or at anton.schauerte@marioncountyfl.org

RE: LRTP Update

As you all know, the TPO is currently working on an update to our Long-Range Transportation Plan (LRTP). The TPO board passed the Goals and Objectives for the LRTP in February, along with the associated weights to those Goals and Objectives. TPO staff coordinated those Goals and Objectives and their weights with our LRTP consultant. They have published a final document, known as the Goals and Objectives Technical Memo, which is available on the project website <https://ocalamarion2045.com>, along with various other documents and resources.

Also, the TPO was anticipating having a great deal of public outreach where we would go out to various locations in the community and discuss any transportation needs the public has. However, with the global pandemic going on, obviously it wouldn't be wise to have public meetings. Therefore, we are planning on setting up virtual meetings and an interactive map. We will use these tools to replace what would have been in person public meetings. The virtual meetings will include short presentations, documents, and an overall explanation on how to submit comments and transportation needs to us directly. The interactive map will be a visual representation of the needs that have been demonstrated in other local plans, including our current LRTP. We hope to have these meetings take place around the last week or two in May.

TPO staff has developed a DRAFT needs plan with a corresponding interactive map. You will find two tables attached. The first is a list of roadway and transit projects categorized by Roadway Operational, Public Transit, and Roadway Capacity. The second is a list of multimodal projects, categorized by Trail, Bicycle, and Sidewalk projects. We have built interactive mapping tools for each as well, so that you can review the projects in an online GIS environment:

- Motorized: <http://maps.kittelson.com/MarionCountyLRTP>
- Non-Motorized: <http://maps.kittelson.com/MarionCountyLRTPNonMotorized>

A few notes as you review the online maps:

Cooperative and comprehensive planning for our transportation needs
Marion County • City of Belleview • City of Dunnellon • City of Ocala

2710 E. Silver Springs Blvd. • Ocala, Florida 34470
Telephone: (352) 438 - 2630 • www.ocalamariontpo.org

- When you first open the sites, no projects are displayed. To display categories of projects, DO NOT click on the categories on the right side of the map. Please expand each category by clicking on the + to the left of the name.
- Then, you can turn on the subcategories individually and view them all together, or individually.
- To provide comments on projects or to add projects, please double click anywhere on the map. This will bring up a comment box that you can fill out.
- To view all comments input by anyone, you can click on the link in the left margin of the map called “View a list of existing comments”.

If you have any further questions or concerns feel free to reach out to me directly at (352) 438-2632 or at derrick.harris@marioncountyfl.org.

FROM: Derrick Harris, TPO Assistant Director

RE: List of Priority Projects

At the May 2019 TPO Board Meeting, staff received direction regarding how to formally proceed with ranking of the List of Priority Projects (LOPP). It was determined that staff should use a ranking system that was developed by TPO staff. Therefore, to give better insight on the ranking criteria, the following memo was created.

The ranking criteria developed is grouped into the following six categories:

1. **Multimodal:** The ranking criteria looks at whether a project incorporates different modes of transportation into the project or is multimodal. Therefore, if a project incorporates bike lanes, sidewalks, transit options, or offers a new alternative, such as a trail, it receives one point for being multimodal.
2. **Performance Measure:** Based on the latest federal transportation legislation, the Fixing America's Surface Transportation (FAST) Act was signed into law on December 4, 2015, which requires MPO/TPOs to measure the performance of projects. This is done by measuring projects on safety, system performance, pavement/bridge condition, and transit asset management. Therefore, the LOPP gives weight to any project that meets one of the performance measures, and an additional point if the project meets two. Please note: most projects could only obtain one point for a performance measure, as most performance measures require a project to either be on or demonstrate how it improves the performance of a corridor on the National Highway System (NHS). Therefore, most projects that obtained two points in this category were a part of the NHS.
3. **Project Development:** This ranking criteria looks at where the projects are in their development. For example, if a project is in the Project Development & Environmental (PD&E) stage it gets one point, and it receives an additional point for each stage the project is in up until construction, which would be four points. Please note: projects can only qualify for one of the phases, with one to four points possible.
4. **Funding Availability:** As we all know, and as the Florida Department of Transportation (FDOT) has mentioned on several occasions, funding is limited. Therefore, if a project has a lower cost

associated with it, and/or a lower cost still needed for completion, the project can receive one additional point.

5. Local Revenue/Funding Source: An additional category that staff thought was pertinent to the ranking system was local revenue. Therefore, if a project has local revenue being added to the project it receives an additional point.
6. Local Partnership: The ranking criteria considers whether a project has a formal partnership between two agencies. For example, a project could be a Local Agency Program (LAP) project, or a project that FDOT manages or helps manage for another jurisdiction. In this case, the project would receive an additional point.

The ranking criteria developed by TPO staff was based on several discussions with FDOT, various staff from local municipalities, and internal discussions. These discussions helped create a ranking criteria that was narrowed down based on the adopted 2040 Long-Range Transportation Plan's (LRTP) Goals and Objectives. The Goals from the 2040 LRTP which was focused on were Multimodal Choices (Goal #1), Economic Development and Growth (Goal #2), Safety and Security (Goal #3), Cooperation (Goal #4), and System Preservation (Goal #6).

TPO staff spent the month of April coordinating with both the City of Ocala and Marion County Engineering staff to revise/modify the list since last year's adoption. TPO staff is presenting the entire ranked LOPP and recommending the Top **20** projects from the list be transmitted to FDOT as the current list of the TPO's Top Priorities. Staff is requesting action for the ultimate approval of this list or some modification thereof.

If you have any further questions or concerns feel free to reach out to me directly at (352) 438-2632 or at derrick.harris@marioncountyfl.org.

INTERIM LIST OF PRIORITY PROJECTS (LOPP) RANKING

Technical Advisory Committee (TAC) Meeting

Marion County Public Library
2720 E. Silver Springs Blvd., Ocala, FL 34470
Meeting Room B
March 10, 2020
10:30 AM

MINUTES

Members Present:

Steven Neal
Dave Herlihy
Vickie Wyche
Kenneth Odom
Lonnie Smith
Nancy Smith
Eric Smith
Elton Holland

Members Not Present:

Bruce Phillips
Mickey Thomason
Loretta Shaffer

Others Present:

Rob Balmes, TPO
Derrick Harris, TPO
Shakayla Irby, TPO
Anton Schauerte, TPO

Item 1. Call to Order and Roll Call

Chairman Elton Holland started the meeting started at 10:30am. Secretary Shakayla Irby called the roll there was a quorum present.

Item 2. Proof of Publication

Secretary Shakayla Irby stated that the meeting had been published online on the TPO website, the City of Ocala, Belleview, Marion County and Dunnellon websites on March 3rd, 2020. The meeting had also been published to the Star Banner news calendar, and the TPOs Facebook and Twitter pages.

Item 3a. Gateway & Pillar Signage

The presentation was postponed due to a meeting conflict.

Item 4a. MPOAC Freight Priority Projects

Mr. Harris presented the MPOAC Freight Priority Projects and said that each year the Metropolitan Planning Organization Advisory Council (MPOAC) called on each MPO/TPO to submit a list of regional freight priorities. The list of priorities would then be voted upon at one of the MPOAC's quarterly meetings. The approved list would then be transmitted to FDOT for further consideration of funding with a higher priority being placed on the projects as they had been vetted through a collaborative effort among all MPO/TPOs in the state of Florida.

The Ocala Marion TPO suggested to include the following projects in the years regional freight priorities submission to MPOAC for consideration in their regional/statewide list:

- NW 49th Street Interchange
- CR 484 Interchange

In addition, the TPO included informational resources that gave background on the MPOAC's process for submitting freight projects on their regional/statewide list to each committee member.

There was committee discussion on the Freight Priority Projects and there was consensus to add the project East State Road 40 widening to the list.

Mr. Harris said a total of three projects would be submitted.

- NW 49th Street Interchange
- CR 484 Interchange
- E SR 40 Widening

Item 5a. Long-Range Transportation Plan (LRTP) Metric Methodology

Mr. Harris presented the LRTP Metric Methodology and said that the TPO was in the process of updating the 2045 LRTP and finalizing the Goals and Objectives portion. The next step for the TPO and most important was the needs plan. With the current update staff was looking to adopt a metric methodology that would be based on the approved Goals and Objectives. The intent of the metrics was to assess and prioritize the needs.

A DRAFT metrics methodology was presented to the committee for discussion before finalization.

Mr. Odom made a motion to approve the LRTP Metric Methodology as presented. Mr. Herlihy seconded, and the motion passed unanimously.

Item 5b. Title VI/Non-Discrimination Plan DRAFT

Mr. Harris presented and said that the Ocala Marion TPO was committed to ensuring that no person was excluded from the transportation planning process, regardless of background, income level or cultural identity.

The TPO complied with the Title VI of the Civil Rights Act of 1964, and other nondiscrimination statutes, regulations and authorities.

Therefore, a DRAFT Title VI/ Non-Discrimination Plan was presented to the committee for feedback and approval.

Chairman Holland asked how often the Title VI/Non-Discrimination Plan was updated.

Mr. Harris responded that every couple of years TPO staff would try and update the plan so that all information and policies stay current.

Ms. Smith asked if the TPO had any Title VI complaints.

Mr. Harris responded that there had been no complaints.

Mr. Neal made a motion to approve the Title VI/Non-Discrimination Plan DRAFT as presented. Ms. Smith seconded, and the motion passed unanimously.

Item 6. Consent Agenda

Mr. Odom made a motion to approve the Consent Agenda. Ms. Smith seconded, and the motion passed unanimously.

Item 7. Comments by FDOT

Ms. Wyche informed that there were two I-75 PD&E studies that were coming up soon and she would send information when meeting were set.

Item 8. Comments by TPO Staff

Mr. Harris said that there would be an I-75 PD&E presentation given to the committee in April.

Mr. Harris also said that before the committee met again there would be a second round of public involvement regarding the needs plans and asked the committee to share information that is given out regarding meetings.

Item 9. Comments by TAC Members

Mr. Herlihy asked how goal #2 data needs in the LRTP Metric Methodology was gathered.

Mr. Harris said that staff had worked close with the Chamber of Commerce and Loretta Shaffer with Tourist Development to gather employment growth data. There was also trade mobility data that came from the State.

Item 10. Public Comment

There was no public comment.

Item 11. Adjournment

The meeting was adjourned by Chairman Holland at 11:05am.

Respectfully Submitted By:

Shakayla Irby, TPO Administrative Assistant
