

Transportation Improvement Program (TIP) Fiscal Years 2025 to 2029

Adopted: June 25, 2024

Amendment #1: Sept 24, 2024

This document was prepared in cooperation with the Cities of Belleview, Dunnellon, Ocala and Marion County. Financial assistance is from the Federal Highway Administration and Federal Transit Administration of the U.S. Department of Transportation through the Florida Department of Transportation.

Ocala Marion Transportation Planning Organization
2710 East Silver Springs Blvd, Ocala, FL 34470

Resolution
No. 24-9

RESOLUTION OF THE OCALA/MARION COUNTY
TRANSPORTATION PLANNING ORGANIZATION (TPO)
TRANSPORTATION IMPROVEMENT PROGRAM (TIP)
FOR FISCAL YEARS (FY) 2025 to 2029

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(j), 23 CFR Section 450.326 and Florida Statute 339.175(8) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as "a staged, multi-year, inter-modal program of transportation projects which is consistent with the metropolitan (long-range) transportation plan [23 CFR 450.104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board;
- (ii) No revision or amendment performed by the TPO Director shall substantially modify any plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the amendment of the Transportation Improvement Program for FY 2025 to FY 2029.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 24th day of September 2024.

By: 
Kristen Dreyer, Chair

Attest: 
Robert Balmes, TPO Director

Ocala Marion Transportation Planning Organization (TPO)

Governing Board Members

Councilmember Kristen Dreyer, City of Ocala District 4, Chair
Commissioner Carl Zalak, III, Marion County District 4, Vice-Chair

Councilmember Ire Bethea, Sr., City of Ocala District 2

Commissioner Kathy Bryant, Marion County District 2

Commissioner Craig Curry, Marion County District 1

Commissioner Ray Dwyer, City of Belleview Seat 2

Councilmember James Hilty, City of Ocala District 5

Councilman Tim Inskeep, City of Dunnellon Seat 3

Councilmember Barry Mansfield, City of Ocala District 1

Mayor Ben Marciano, City of Ocala

Commissioner Matt McClain, Marion County District 3

Commissioner Michelle Stone, Marion County District 5

John E. Tyler, P.E., FDOT District Five Secretary, Non-Voting

TPO Staff

Rob Balmes, AICP CTP, TPO Director

Shakayla Irby, Administrative Specialist III/Social Media
Coordinator

Sara Brown, Transportation Planner

Liz Mitchell, Grants Coordinator/Fiscal Planner/ Title VI Non-
Discrimination Coordinator

Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

Vision

A transportation system that supports growth, mobility and safety through leadership and planning.

352-438-2630

The Ocala Marion Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

1. INTRODUCTION

Purpose

The Ocala/Marion County Transportation Planning Organization (Ocala Marion TPO) is the designated Metropolitan Planning Organization (MPO) in Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The **draft** Fiscal Years (FY) 2025 to 2029 TIP is a five-year schedule of transportation projects to be implemented by government agencies within the Metropolitan Planning Area (MPA) of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is developed on an annual basis [23 C.F.R. 450.326(a)]. The types of projects in the TIP include all modes of transportation, such as roadway construction, operations, maintenance, repaving, bicycle and pedestrian, transit and aviation.

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation process. This process, also known as the “3C” planning process, is reflected in the TIP, in conjunction with the Long-Range Transportation Plan (LRTP). The 2045 LRTP, which is also managed by the TPO, outlines the Ocala/Marion County transportation vision and goals 20 years into the future. The TIP outlines the short-term “action steps” necessary for achieving the long-term vision by programming specific transportation improvements.

Fiscal Constraint

Transportation projects contained in the TIP are financially feasible and located within the designated planning area. As a condition of receiving federal project funding, the TIP must list all highway and public transportation projects proposed for funding under Title 23 United States Code (23 U.S.C.) (highways) and 49 U.S.C. (transit). The TIP must also contain state and locally funded regionally significant transportation projects regardless of funding source. For a project to be considered financially feasible, the anticipated cost must not exceed anticipated revenue.

Consistency

All projects in the TIP are supported and documented in the 2045 LRTP. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding to Marion County. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments, and must be fully consistent.

A list of the most current Federally Obligated projects is provided in **Appendix B**. The Obligation list is a continuation of projects in the prior TIP, and in some cases started in previous TIPs (23 CFR 450.334).

TPO Planning Area

The TPO serves the cities of Belleview, Dunnellon, Ocala, and unincorporated Marion County. Due to population growth in the 1980s, the TPO Board approved the entirety of Marion County in 1992 as the Metropolitan Planning Area (MPA) displayed in the map in Figure 1 on the next page. The UPWP incorporates all federal, state, regional and local activities to be performed in the census-designated Urban Areas and the entirety of Marion County.

Metropolitan Planning Area Map

Figure 1: Map of TPO Planning Area

Development of the TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and the TPO Governing Board. The TPO strives to also engage both citizens and stakeholders to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 Code of Federal Regulation 23 C.F.R. 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents is contained in **Appendix G**.

TPO Boards and Committees

The TPO submits a draft TIP for review and feedback to the TPO's TAC and CAC. These committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; the Marion County Engineering, Planning, and Tourism Departments; SunTran; the Florida Department of Transportation (FDOT); the Florida Department of Environmental Protection; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review and to receive feedback. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, in developing the final version of the TIP. The final version of the TIP is then presented to the TPO Board for adoption in June of each year.

In 2024, TPO staff presented the draft TIP to the TAC and CAC on May 14th and June 11th, the TPO Board on May 28th and June 25th.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public [Participation Plan \(PPP\)](https://ocalamariontpo.org/plans-and-programs/public-participation-plan-ppp) (<https://ocalamariontpo.org/plans-and-programs/public-participation-plan-ppp>). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. Advance public notices were provided for all committee and board meetings per Florida Sunshine Law and the TPO's PPP. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. Beginning on May 7th, a legal notice of the draft version of the TIP was advertised in the Ocala Star Banner. The public comment period for the TIP began on May 7, 2024 and concluded on June 14, 2024. A copy of the public notice can be found in **Appendix E** and a list of public comments, including the TPO's response to each comment, can be found in **Appendix F**. On May 7th, the TPO sent the Draft TIP for review and comment to the following partner agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest

Service, Florida Department of Transportation, Department of Economic Opportunity, Florida Commission for the Transportation Disadvantaged, East Central Florida Regional Planning Council, Marion Transit and the St. Johns River Water Management District.

Formal responses are provided to each citizen comment submitted to the TPO by email, mail or phone. Citizens are provided a formal response by the TPO and made aware how their public comment is documented, and how it may be addressed if related to a specific project(s) in the current TIP. In cases where further follow up is required, such seeking project background information, additional contact is made with the citizen by TPO staff. All citizen, TPO committee, TPO Board and partner agency comments and corresponding TPO responses are summarized in **Appendix F**.

Joint Certification

The most recent joint certification between the Ocala Marion TPO and FDOT was completed on March 26, 2024 through action by the TPO Board. FDOT certified the TPO's transportation planning process for Fiscal Year 2024. The next certification review will occur from February to March of 2025.

Consistency with Other Plans

The projects and project phases listed in the FY 2025 to 2029 TIP are consistent with the local public transit development plan (SunTran), aviation, and the approved local government comprehensive plans for governments within the TPO's MPA [s.339.175(8)(c)(7), F.S.]. The TIP is consistent with the Ocala Marion TPO's 2045 LRTP, Florida Transportation Plan (FTP), Strategic Intermodal System (SIS) Policy Plan, Strategic Highway Safety Plan (SHSP), Freight Mobility and Trade Plan (FMTP), Transportation Asset Management Plan (TAMP), TPO Congestion Management Process (CMP) and SunTran Transportation Development Plan (TDP).

2045 Long Range Transportation Plan (LRTP)

In addition to documenting Marion County's long-term vision and goals for transportation, the 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail the specific projects to fulfill the County's long-term vision and goals. In order to remain current with the changing needs of Marion County, the Ocala Marion TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020, and amended on November 28, 2023. A list of TIP projects referenced in the 2045 LRTP is found in **Appendix I**. (<https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp>).

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan. The FTP focuses on ways to improve safety, provide a more efficient transportation system, meet the needs of a changing population, create a more competitive economy, enhance the overall quality of life and environment, increase access to transit and address emerging technologies. (<http://floridatransportationplan.com>)

Strategic Intermodal System (SIS) 2022 Policy Plan

The Strategic Intermodal System (SIS) 2022 Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. The Governor and Legislature established the SIS in 2003 to focus state resources on facilities most significant for promoting the state's economic competitiveness, including interregional, interstate and international travel. The SIS is the primary tool for implementing the Florida Transportation Plan (FTP). A map of the SIS can be found in **Appendix C**. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project).

(<https://www.fdot.gov/planning/systems/sis/plans.shtm>)

Florida's Strategic Highway Safety Plan (SHSP)

The Florida's 2021 to 2025 Strategic Highway Safety Plan (SHSP) was published in March 2021. This was an update to the prior plan, and completed in coordination with all 27 Florida MPO/TPO's. Florida's SHSP outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries. A set of 12 emphasis areas organized into three categories (Roadways, Road Users, User Behavior) provide the foundation for improving safety.

(<https://www.fdot.gov/safety/shsp/shsp.shtm>)

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP's Investment Element is specifically intended to identify freight needs, identify criteria for state investments in freight, and prioritize freight investments across modes. FDOT updated the FMTP in spring 2020.

(<https://www.fdot.gov/rail/plandevol/freight-mobility-and-trade-plan>)

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines a process for effectively operating, maintaining, and improving physical transportation assets within Florida. The plan also provides detailed information, such as the department’s assets, asset management strategies, and long-term expenditure forecasts to inform decision-making at both the State and Local levels.

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs under Florida Statute (F.S.) [339.175 (6)(c)1]. Guidance from the Final Rule on the CMP states the intent of the process is to, “address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system”.

The Ocala Marion TPO has developed the CMP to improve traffic operations and safety through the use of either strategies that reduce travel demand or the implementation of operational improvements. Recommendations in the CMP typically support improved travel conditions through the implementation of lower-cost improvements or strategies that can be implemented in a relatively short time frame (5-10 years) compared to traditional capacity improvements, such as adding travel lanes, which can be more time-consuming and expensive.

The TPO completed a major update to the CMP in 2021, including policies and procedures and state of system elements. The CMP update was completed to meet state statutes and support with prioritizing project needs, and to also serve as a resource to local government partners. The CMP State of the System section was completed in summer of 2023 (<https://ocalamariontpo.org/congestion-management-process-cmp>).

Transit Development Plan (TDP)

The Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon. The TDP was updated by SunTran in 2022 to ensure transit services offered meet the mobility needs of local communities. Specifically, the TDP details SunTran’s transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies in Marion County (<https://www.ocalafl.org/government/city-departments-i-z/suntran>).

TIP Revisions

Revisions to the TIP may be required following approval of the document by the TPO Board and State and Federal agencies. Revisions to the TIP are required when projects are changed, added or deleted. TIP Amendments require TPO Board action and

opportunity for public comment. TIP modifications do not require TPO Board action or public comment (23 C.F.R. 450.104). As summarized in the FDOT MPO Management Handbook, there are four types of TIP revisions.

TIP Modification

A TIP modification includes minor changes such as to project phase costs, funding sources and project initiation dates. TIP Modifications are less than 20 percent and \$2 million.

TIP Amendment

A TIP amendment involves major changes to project such as a deletion, addition, project cost increase (over 20 percent and \$2 million), design concept or project scope.

Roll Forward Amendment

Projects programmed in the prior TIP that were not authorized by the end of the state fiscal year (June 30) may be authorized between July 1 and September 30, and included in an annual Roll-Forward TIP report to be amended in the new TIP. The Roll Forward amendment process must occur prior to the start of the federal fiscal year, which is October 1. The TPO Board adopts Roll Forward TIP Amendment each year. The TIP Roll Forward Report is contained in **Appendix K**.

Administrative TIP Amendment

Projects that are added to year one of the FDOT Tentative Work Program will not be recognized by FHWA until their fiscal year on October 1. Administrative amendments are permitted between the state fiscal year period of July 1 to September 30 to fill the gap until the federal fiscal year begins on October 1.

Transportation Disadvantaged

The Transportation Disadvantaged (TD) program is a statewide program that provides vital transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline; age 60 and older; or under 16 years old.

In Marion County, TD transportation services are provided by Marion Transit. As a result of the overlap between the TD service area and the TPO service area, TD projects and funding are included in the TIP. Therefore, the TIP is developed in conjunction with Marion Transit, which also serves as the Community Transportation Coordinator (CTC) for Marion County. (<https://www.mariontransit.org>).

Efficient Transportation Decision Making

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some of the projects in the TIP through the ETDM process. Public information for these projects is available at: <https://etdmpub.fla-etat.org/est>.

2. PERFORMANCE MANAGEMENT

Performance Based Planning

Federal transportation law requires state departments of transportation (DOT), TPO/MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance measures are the quantitative expressions used to evaluate progress toward the goals. Performance targets are quantifiable levels of performance to be achieved within a specified time period. Overall, performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by Congress [23 CFR 490 or [23 USC 150(b)]:

1. Safety

To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.

2. Infrastructure Condition

To maintain the highway infrastructure asset system in a state of good repair.

3. Congestion Reduction

To achieve a significant reduction in congestion on the National Highway System (NHS).

4. System Reliability

To improve the efficiency of the surface transportation system.

5. Freight Movement and Economic Vitality

To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.

6. Environmental Sustainability

To enhance the performance of the transportation system while protecting and enhancing the natural environment.

7. Reduced Project Delivery Delays

To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance Measures and Targets

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPO/MPOs and transit operators to establish and report performance targets for each performance measure. In order to determine the amount of progress made for each performance measure, the aforementioned agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals; and performance measures.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets. Appendix D contains Transportation Performance Management Fact Sheets published by FDOT in January 2024.

Safety

Pavement and Bridge Condition

System Performance

Transit Asset Management and Transit Safety

Safety (PM1)

In March 2016, FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rule (PM1), effective April 14, 2016. The Safety PM Final Rule established safety performance measures to assess serious injuries and fatalities on all public roadways and carry out the HSIP.

Additionally, the Safety PM Finals Rule established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether they have met, or are making significant progress toward meeting, their safety targets. The legislation works to improve data; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, the TPO and FDOT are fully committed to Vision Zero. FDOT has set a statewide target of “0” for all five safety performance measures. Vision Zero and Target Zero are discussed in greater detail in the Strategic Highway Safety Plan and the Florida Transportation Plan. FDOT set statewide safety (PM1) performance targets on August 31, 2023. The TPO was then required within 180 days to either adopt FDOT’s targets or set their own targets.

On February 27, 2018, the Ocala Marion TPO Board first adopted safety performance targets to better track progress and reflect greater accountability to the public. In November 2022, the TPO Board adopted Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion. Integrating the adopted targets with Commitment to Zero will be a part of the planning process. By adopting its own safety performance targets, the TPO is required to annually update targets. On February 27, 2024, the TPO Board again adopted its own quantifiable safety targets. Figure 2 displays the safety performance targets in 2023 and also 2024 from FDOT and the TPO.

The TPO is committed to improving safety for all roadway users, which is demonstrated through planning and programming activities. The TIP includes specific investment priorities by using a project-prioritization and project-selection process that is based on the anticipated effect of reducing both fatal and serious injury crashes. The TPO also collects and analyzes crash data and trends, which are addressed in the Commitment to Zero planning project. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST).

Safety Performance Measures	FDOT Targets (2024)	TPO 2023 Targets (not to exceed)	TPO 2023 Results	TPO 2024 Targets (not to exceed)
Number of Fatalities	0	101	96	92
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	2.14	1.99	1.89
Number of Serious Injuries	0	417	415	393
Rate of Serious Injuries per 100 Million VMT	0	8.87	8.60	8.03
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	56	56	53

Figure 2: Safety Performance Measure Targets and Results

Pavement and Bridge Condition (PM2)

In January 2017, the FHWA published the Pavement and Bridge Condition Performance Measures Final Rule (PM2). The second FHWA performance measure rule established six performance measures to assess pavement conditions and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County can be found in **Appendix C**.

The **Pavement** condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics: International Roughness Index (IRI); cracking percent; rutting; faulting; and Present Serviceability Rating (PSR). FHWA set a threshold for each metric to establish good, fair, or poor condition. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

The **Bridge** condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components: deck, superstructure, substructure, and culverts. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor condition. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

FDOT established two-year and four-year statewide targets for bridge and pavement condition on December 16, 2022. The TPO was required to adopt the state targets, or set their own no later than June 14, 2023. On March 28, 2023, the TPO Board agreed to adopt the two- and four-year state targets for pavement and bridge condition, agreeing to plan and program projects in the TIP that once implemented are anticipated to make progress towards achieving the statewide targets. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years.

Figure 3 displays the adopted two- and four-year pavement and bridge targets, with 2021 results only as a frame of reference. The TPO will monitor and report on the 2023 and 2025 results in future reporting to the TPO Board, Committees and public.

Pavement and Bridge Condition Performance Measures (PM2)	FDOT/TPO 2023 Target (2-Year)	FDOT/TPO 2025 Target (4-Year)	TPO Target Results (2021)
Pavement Condition			
Percent of Interstate pavements in Good condition	60%	60%	64.0%
Percent of Interstate pavements in Poor condition	5.0%	5.0%	0.0%
Percent of non-Interstate NHS pavements in Good condition	40%	40%	51.5%
Percent of non-Interstate NHS pavements in Poor condition	5.0%	5.0%	0.3%
Bridge Condition			
Percent of NHS bridges by deck area in Good condition	50%	50%	59.2%
Percent of NHS bridges by deck area in Poor condition	10%	10%	0.0%

Figure 3: Performance Measure Targets and Results – Pavement and Bridge Condition

System Performance (PM3)

In January 2017, FHWA published the System Performance, Freight, and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule (PM3). The third and final Performance Measures Rule, established six measures to assess the performance of the NHS, freight movement on the Interstate System, and traffic congestion and on-road mobile source emissions for the CMAQ program.

There are two NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the Level of Travel Time Reliability (LOTTR) metric to calculate reliability on both the Interstate and non-Interstate NHS. LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day (AM peak, midday, and PM peak on Mondays through Fridays and weekends). The LOTTR ratio is calculated for each segment of applicable roadway. A segment is reliable if its LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, that segment is unreliable. The measures are expressed as the percentage of person- miles traveled on the Interstate and non-Interstate NHS that are reliable.

The single freight movement performance measure represents the reliability of travel times for trucks on the Interstate System. FHWA established the Truck Travel Time Reliability (TTTR) Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). The TTTR is generated by dividing the longer truck travel time by a normal travel time for each segment of the Interstate system over five time periods from all hours of each day (AM peak, midday, and PM peak on Mondays through Fridays, overnights for all days, and weekends). This is averaged across the length of all Interstate segments in the state or MPO planning area to determine the TTTR index.

There are three traffic congestion and on-road mobile source emissions performance measures that represent peak hour excessive delay per capita (PHED), non- single occupancy vehicle (SOV) travel, and total on- road mobile source emissions reductions. The TPO meets all current air quality standards and is not subject to establishing targets for these performance measures.

FDOT established two-year and four-year statewide targets for **System Performance** on December 16, 2022. The TPO is required to adopt the state targets, or set their own no later than June 14, 2023. On March 28, 2023, the TPO Board agreed to adopt the two- and four-year state targets agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The targets represent system performance at the end of both target years. Results from 2021 are provided as information. The TPO will monitor and report on the 2023 and 2025 results in future reporting to the TPO Board, Committees and public. Figure 4 displays the most current System Performance measure targets and results.

System Performance Measures (PM3)	FDOT/TPO 2023 Target (2-Year)	FDOT/TPO 2025 Target (4-Year)	TPO Target Results (2021)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	75%	70%	100%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	50%	50%	95.9%
Truck Travel Time Reliability (TTTR)	1.75	2.00	1.74

Figure 4: Performance Measure Targets and Results – System Performance

Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires that public transportation providers develop and implement transit asset management (TAM) plans, establish “state of good repair” standards and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

SunTran, the local public transit agency that operates primarily in the city of Ocala and in parts of unincorporated Marion County, includes seven fixed bus routes contracted through a third-party company. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for Transit Asset Management. In January 2023, the City of Ocala set transit asset management targets, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving the transit asset targets. SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC). In May 2024, SunTran updated their Transit Asset Management Plan including their transit asset targets (Figure 5)

Figure 5 displays the percentage of SunTran’s assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2024 and their performance targets for the next five years. FTA defines ULBs as “... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA.” The performance targets assume the assets are replaced as they reach their ULB.

Transit Asset Class	2024 Performance	2025 Target	2026 Target	2027 Target	2028 Target	2029 Target
Rolling Stock						
Buses	0%	0%	0%	0%	0%	0%
Cutaways	100%	0%	0%	0%	0%	0%
Equipment						
Non-Revenue Vehicles	20%	20%	0%	0%	0%	0%
Facilities						
Administrative and Maintenance Facility	0%	0%	0%	0%	0%	0%

Figure 5: Performance Measure Targets and Results – Transit Asset Management

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, 49CFR Part 673, as required by 49 U.S.C. 5329(d). The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. TPO/MPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

In November 2020, SunTran updated a PTASP, and then approved an update in January 2023. The update included reaffirmed safety targets as displayed in Figure 6.

SunTran Safety Performance Targets							
Performance Targets based on collected data from the previous three years							
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles VRM)	Safety Events Total	Safety Events (per 100k vehicle revenue miles VRM)	System Reliability (VRM/ failures)
Fixed Route Bus	0	0	1	.20	5	1.03	7,492
ADA Paratransit	0	0	0	0	0	0	0

Figure 6: Performance Measure Targets and Results – Transit Safety Targets

3. FINANCIAL PLAN

The FY 2025 to 2029 TIP includes a financial element that demonstrates how the approved projects can be implemented, indicates the sources of funding that are reasonably expected to be made available, and recommends any additional financing strategies for needed projects and programs (23 CFR 350.326).

The TIP is financially constrained each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and regional transportation projects requiring federal action. Projects in the TIP are also derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan supporting the FDOT Work Program (339.135, Florida Statute, F.S.). Additionally, only projects that are reasonably expected to be funded may be included in the TIP.

Figures 7 to 10 display TIP financial summary information as follows.

Funding Categories and Associated Funding Sources (Figure 7)

A listing of the types of funding categories for projects in the TIP, including the sources of funding (Federal, State, Local).

Total Funding by Category and Fiscal Year (Figure 8)

A summary of funding by category and fiscal year, including the TIP five-year total.

Funding Summary by Source (Figures 9, 10)

A summary of funding by source (Federal, State, Local) and by fiscal year, including the TIP five-year total.

A summary of funding by mode/type, including Aviation, Bicycle/Pedestrian, Highway/Roadway, Ongoing Maintenance, Transit and Other funding sources.

Acronym	Funding Category	Funding Source

4. PROJECT PRIORITIZATION PROCESS

Overview

The project prioritization process of the TPO is undertaken during the development of the LRTP and annual List of Priority Projects (LOPP). During the development of the LRTP, once the identified projects have been determined as “needs”, TPO committees, TPO staff and the TPO Board prioritizes the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The result is the ‘Cost Feasible Plan’ of the LRTP, which then becomes a prioritized project list. This list becomes part of the TPO’s annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, committee input and TPO Board approval. The LOPP is submitted to FDOT annually for projects to be considered in the next Tentative Work Program for funding. FDOT will decide which projects from the LOPP can be reasonably funded with the cost/funding projections. The LOPP is a process undertaken to identify the highest priority projects in Marion County to receive consideration for federal and state funding. For further information about the LOPP process, please access the TPO website at: <https://ocalamariontpo.org/priority-project-list>.

Methodology

In 2022, the TPO modified its annual LOPP prioritization process. The revised process continues to place an emphasis on prioritizing projects based on criteria score. This includes projects closest to receiving construction funding; meet federal performance measures; are multimodal; improve safety and resilience; programmed funding; and/or include local funding and partnerships. A strategic refinement methodology is also applied to include necessary adjustments to address partner feedback. Overall, this approach involves collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop an annual LOPP. The end-results of the process are a set of seven project lists, including an overall Top 20 Priority Project List.

The TPO’s project prioritization process is consistent with state statute (F.S. 339.1758b), federal law (23 C.F.R 450.332b), the 2045 LRTP, and with local aviation master plans, public transit development plans, and the approved local government comprehensive plans within the TPO planning area, to the maximum extent feasible [339.175(8)(c)(7), F.S.].

Project Ranking

The priority projects ranking criteria is tied directly to the adopted 2045 LRTP Goals and Objectives, federally required performance measures and local priorities. The goals from the 2045 LRTP that are used in this prioritization and selection process include:

- Optimization and Preserve Existing Infrastructure;
- Focus on Improving Safety and Security of the Transportation System;
- Provide Efficient Transportation that Promotes Economic Development;
- Promote Travel Choices that are Multimodal and Accessible;
- Protect Natural Resources and Create Quality Places; and
- Ensure the Transportation System Meets the Needs of the Community.

The ranking criteria are grouped into the following ten categories and are summarized as follows:

Prior Year Rank: An emphasis on prior project ranking to help support program stability and advancement toward implementation.

Project Cycle: The status of projects in their development phase with an emphasis on the most weight given to projects that are ready for construction.

Local Funding Commitment: Projects receive points for including a local match commitment.

Regional Connectivity and Partnerships: Projects that involve a formal partnership between two or more jurisdictions and coordination between two or more jurisdictions.

Safety: Points given for being located on a roadway segment with a five-year history of serious injury and fatality crashes. Additional points for projects located on the Commitment to Zero High Injury Network.

Congestion Management: Points given for being located on the most up to date Congestion Management Plan Congested Corridors.

Multimodal: A sidewalk, trail and/or bicycle facility are given points and also receive additional points for connecting to existing multimodal facilities in Marion County.

Transportation Resilience: Points given for being located on an existing Florida Evacuation Route or connection to an Evacuation Route.

Economic Development and Logistics: Points given for connecting to or serving employment growth areas of Marion County, along with connecting to or being located on a facility that supports freight activity centers.

Equity: Projects that are located in one of three disadvantaged areas of Marion County as identified and mapped in the 2045 LRTP.

A complete summary of the LOPP ranking and scoring methodology and most up to date project lists are available on the TPO website.

The **2023 List of Priority Projects (LOPP), Top 20 Priorities** is provided in Figure 12 on the next page. The complete set of priority project lists may be found on the TPO's website: <https://ocalamariontpo.org/priority-project-list/>.

2024 Top 20 Priorities

Rank	FDOT Project Number	Project List(s)	Project Name/Limits	Description	Current TIP/Work Program Phase(s)	Current TIP/Work Program Funding	Proposed Phase(s)	Funding Requested
1	435209-1	Top Priorities SIS	I-75 at NW 49th Street Interchange	Construction of a new interchange and roadway extension from on NW 49th Avenue from NW 44th Avenue to NW 35th Street Road	ROW, CST	\$118,183,739		
2		Top Priorities Non-SIS Capacity	SW 44th Avenue from SW 20th to SR 40	Addition of two lanes to complete four lane roadway			CST	\$2,550,000
3		Top Priorities Non-SIS Capacity	NW 80th/70th from north of SR 200 to north of US 27	Widening to four lanes			CST	\$92,100,000
4		Top Priorities Non-SIS Capacity	SW 44th Avenue from SR 200 to SW 20th	Four-lane roadway construction			CST	\$4,000,000
5	435547-3	Top Priorities Non-SIS Capacity	NW 44th Avenue, SR 40 to NW 11th St	Construction of four new roadway lanes				
6	238651-1	Top Priorities Non-SIS Capacity	SR 200 from Citrus County to CR 484	Widening to four lanes and pedestrian/wildlife underpasses connecting Cross Florida Greenway			DES, CST	\$37,800,000
7	410674-2	Top Priorities SIS	SR 40 from End of four lanes to CR 314	Reconstruction, widening to four lanes, new bridges, medians			CST	\$103,000,000
8		Top Priorities Safety/Operations	US 27/I-75 Interchange Operations, NW 44th to NW 35th	Safety and operational improvements at interchange area and intersections			PE, CST	\$29,341,000
9		Top Priorities Non-SIS Capacity	SR 35 and SR 464 Intersection Flyover	Flyover of SR 35 (Baseline) at SR 464 (Maricamp)			PE, DES, ROW, CST	\$39,600,000
10		Top Priorities Non-SIS Capacity	SW 49th from Marion Oaks Trail to SW 95th Street	Construction of a four lane divided roadway			CST	\$20,400,000
11	238648-1	Top Priorities Non-SIS Capacity	US 41 from SW 110th to north of SR 40	Widening to four lanes, sidewalks, shared-use path, shoulders	CST	\$108,363,022		
12	433660-1	Top Priorities Safety/Operations	US 441 (Pine Avenue) at SR 464 (SE 17th)	Intersection/Turn lane improvements	PE, CST	\$4,392,757		
13		Top Priorities Non-SIS Cap.; Planning	CR 484 from Marion Oaks Blvd to CR 475A	Widening to six lanes			DES	\$1,125,000
14	431935-1	Top Priorities; Safety and Operations	SR 40 from US 441 to NE 8th Avenue	Pedestrian, streetlighting, landscaping improvements			PE, CST	
15		Top Priorities Non-SIS Cap.; Planning	CR 484 from Marion Oaks Pass to SR 200	Widening to four lanes			CST	\$40,000,000
16		Top Priorities Non-SIS Capacity	I-75 at CR 484 Interchange	I-75 bridge replacement to support six lane roadway			CST	\$5,000,000
17		Top Priorities Trails; Bicycle-Pedestrian	Belleview to Greenway Trail Connector	10-foot shared use path on SE 102nd Place from US 441/301 to SE 52nd Court (0.65 miles); Sharrows for 1.95 miles to Lake Lillian Park			DES, CST	\$1,000,000
18	449443-1	Top Priorities Safety/Operations	NE 8th Avenue from SR 40 to SR 492	Construction of roundabouts on NE 8th Avenue	CST	\$4,452,800		
19	237988-1	Top Priorities Safety/Operations	SR 40 at SR 35 intersection	Construction of a roundabout at the intersection			PE, ROW, CST	\$18,600,000
20		Top Priorities Non-SIS Capacity	NW 44th Avenue from NW 63rd to SR 326	Widening to four lanes			DES, ROW, CST	\$1,800,000

Figure 12: 2023 List of Priority Projects (LOPP), Top 20 Priorities

5. PROJECTS

Overview

The FY 2025 to 2029 TIP projects are grouped into seven categories. All projects are also summarized in individual project pages by category to support an accessible and user-friendly format for the citizens of Marion County.

Seven TIP Project Categories:

- **Interstate:** I-75
- **U.S. Routes:** US 27, US 41, US 301, US 441
- **State and Local Routes:** City and County Roads, State Roads (e.g., SR 200)
- **Bicycle and Pedestrian:** Park Trails, Sidewalks and Trails on City, County and State Roads
- **Aviation (Airport):** Ocala International Airport, Marion County Airport
- **Transit, Funding and Grants:** Marion Transit, SunTran, TPO, Other
- **ITS and Maintenance:** Operations, Aesthetics, Asset Management (repaving, rehabilitation, shoulders, bridges, lighting), ongoing Maintenance

Appendix H contains a summary of changes to major regional transportation projects from the previous Fiscal Years 2024 to 2028 TIP.

Appendix J contains a companion “snapshot” listing of the TIP projects as submitted by FDOT to the TPO in April 2024.

Figure 13 on the next page displays a summary chart of the acronyms used for various project phases/activities and the terms associated with the projects displayed in the TIP summary pages. This chart may be used as a reference when reviewing the project summary pages in this section.

Figure 14 displays location specific projects that are associated with the project pages below.

Acronym	Project Phase and Information
ADM	Administration
CST	Construction (includes Construction, Engineering, Inspection)
CAP	Capital Grant
CEI	Construction, Engineering and Inspection
DES	Design
ENG	Engineering
ENV CON	Environmental/Conservation
FM	FDOT Financial Management Number
INC	Construction Incentive/Bonus
MNT	Maintenance
MSC	Miscellaneous Construction
OPS	Operations
PD&E	Project Development and Environment Study
PE	Preliminary Engineering
PLEMO	Planning and Environmental Offices Study
PLN	In-House Planning
PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Right-of-Way Support & Acquisition
RRU	Railroad and Utilities
RT MNT	Routine Maintenance
SEG	Project Segment Number
UTIL	Utilities Construction

Figure 13: Project Phase/Activity and Information Acronym List

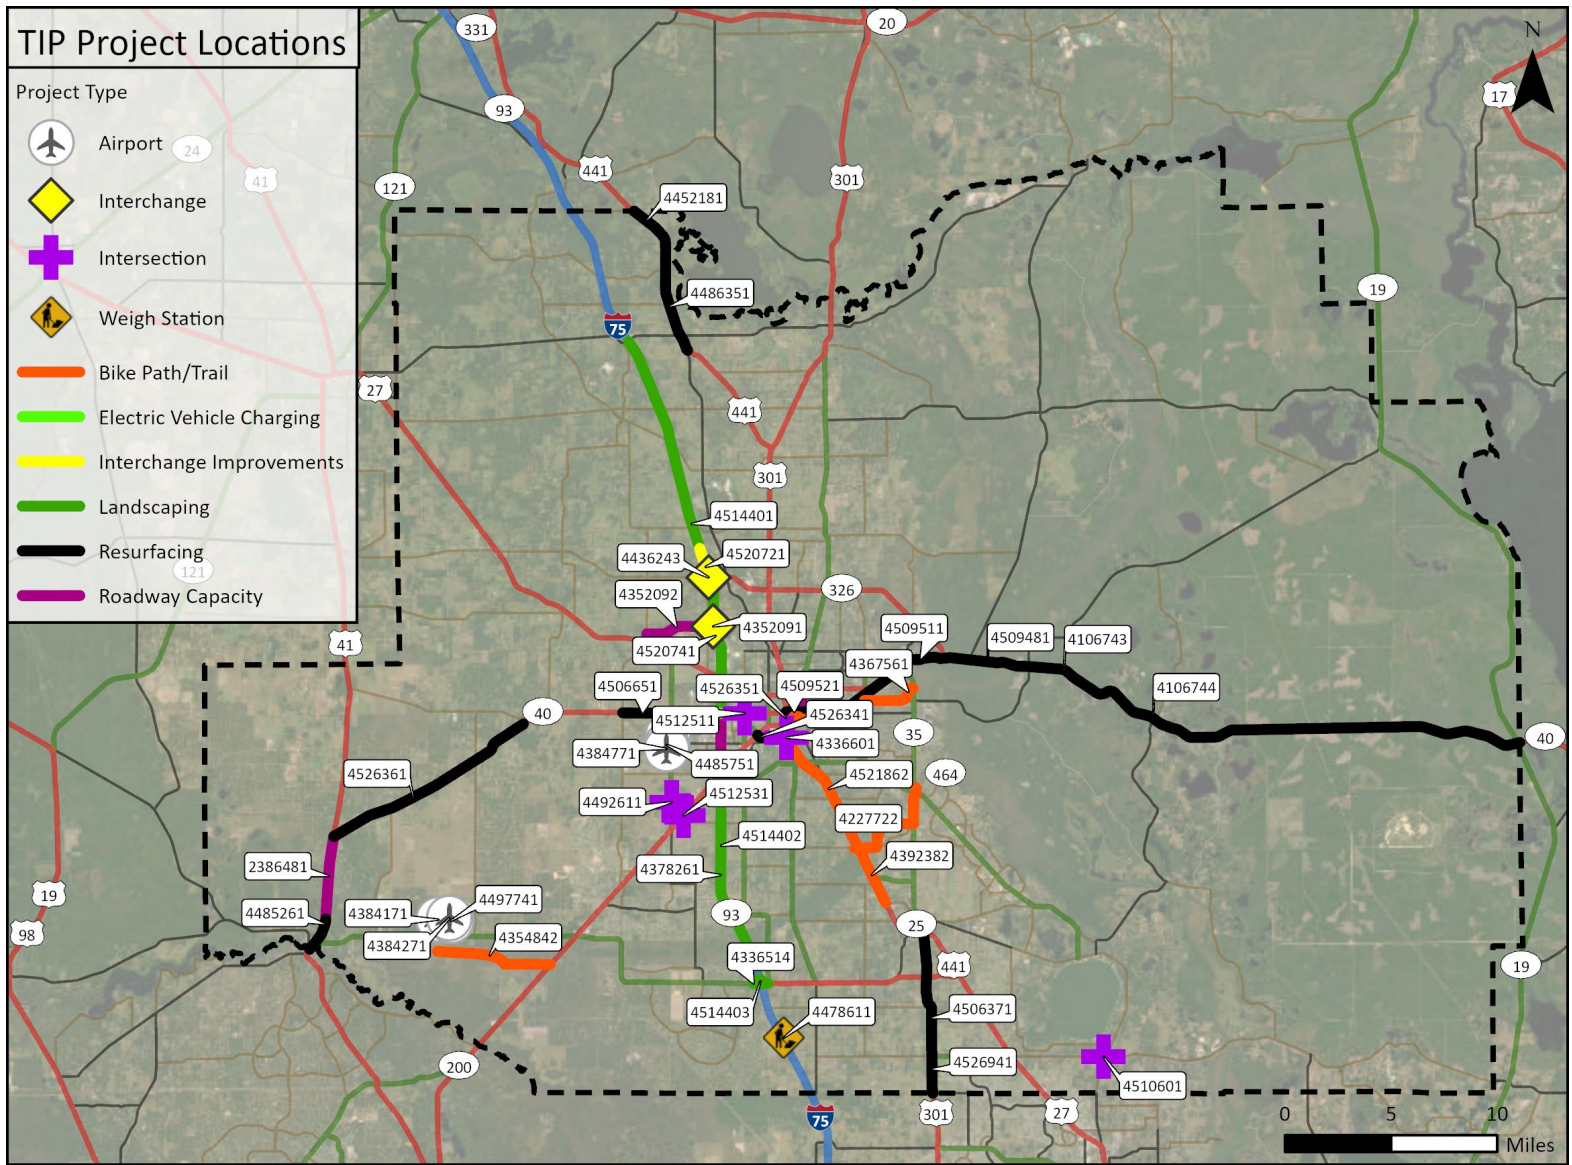

Figure 14: Location specific TIP projects

TIP Online Interactive Map

The FY 2025 to 2029 TIP online map provides specific project locations and general information including funding and total project cost. Projects without a specific location (e.g., ongoing maintenance, TPO, Marion Transit, SunTran grants) are not included in the interactive map. The map may be accessed through the TPO website or directly at the following link: <https://marioncountyfl.maps.arcgis.com/apps/dashboards/858f1b8aa5e642f0827d38362bd61149>

Performance Management and TIP Projects

The following provides a summary of the projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: safety; bridge and pavement condition; system performance; and transit asset management and safety. Safety projects include the entire federal aid transportation system. In some cases, a project may support meeting more than one federal performance measure.

Safety (PM1) (8 Projects)

The focus of Ocala Marion TPO's investments in safety performance includes adding roundabouts, intersection improvements, traffic operation improvements, adding sidewalks and bicycle lanes, and safety projects. Because safety is inherent in so many FDOT and Ocala Marion TPO programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Vision Zero, the program of projects in this TIP is anticipated to support progress towards achieving the safety targets.

FM Number	Project	Limits	TIP Funding	Improvement(s)
4494431	NE 8th Avenue	SR 40 to SR 492	\$4,452,800	Roundabout
4492611	SW 60th Avenue	SW 54th Street to SECO Energy Driveway	\$199,243	Intersection improvements
4336601	US 441	at SR 464	\$4,392,757	Traffic ops improvement
4392382	SR 25/US 441/ US 301	SE 102 Place to SR 200/SW 10 th Street	\$4,591,971	Bike Lane/sidewalk

Pavement and Bridge Condition (PM2) (14 Projects)

The Ocala Marion TPO TIP reflects investment priorities established in the 2045 Long Range Transportation Plan. The focus of Ocala Marion TPO's investments in bridge and pavement condition include pavement replacement or reconstruction (on the NHS) and new NHS lanes or widening projects. The TIP will fund \$115 million for resurfacing, and \$213 million for new capacity.

FM Number	Project	Limits	TIP Funding	Improvement(s)
4486351	SR 25 (U.S. 441)	North of CR 25A to Avenue I	\$7,943,273	Resurfacing
4452181	SR 25 (U.S. 441)	Avenue I to Alachua County Line	\$8,036,954	Resurfacing
4485261	SR 45/US-41/Williams Street	North of Citrus County Line to SW 110th	\$5,142,526	Resurfacing
2386481	SR 45 (U.S. 41)	SW 110th Street to North of SR 40	\$108,363,022	Add Lanes & Reconstruct

4526941	SR 35 (U.S. 301)	From Sumter County Line to North of SE Highway 42	\$5,168,316	Pavement Only Resurface

System Performance (PM3) (8 Projects)

The focus of Ocala Marion TPO's investments in system performance includes corridor improvements, intersection improvements, and freight improvements. The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. Investments include projects listed in the table below as well as some other projects listed below in the project pages.

FM Number	Project	Limits	TIP Funding	Improvement(s)
4352091	I-75 (SR 93) at NW 49th Street	NW 49th Street to end of NW 35th Street	\$121,279,072	New Interchange

TIP Project Summary Pages

Summary pages are provided for all programmed projects and are organized by project category.

Summary Page Definitions

Project: Includes the project name, project limits and location.

Project Type: Identifies the type of project improvement(s).

FM Number: References the financial management number in FDOT’s project tracking system.

Lead Agency: Identifies the agency with project management oversight.

LRTP (Page #): References how the project reflects the 2045 LRTP goals and planning consistency and/or page location in the Cost Feasible Plan section.

SIS: Denotes if a project is on the state’s Strategic Intermodal System (SIS) network.

Description: Summarizes the project and highlights major improvements to be implemented.

Prior <Year: Identifies the amount of funding programmed in years prior to the current five-year TIP period.

Future >Year: Identifies the amount of funding programmed in years beyond the current five-year TIP period.

Total Project Cost: Lists the total project cost programmed for the project, including prior year, current five-year and future year funding.

Phase: Identifies the stage in project development for which funding is programmed.

Fund Category: Identifies the type of funding programmed by phase for the project.

Funding Source: Identifies the source of funding by phase for the project (Federal, State and/or Local).

Fiscal Year: Identifies the federal fiscal year(s) when funding is programmed for the project.

Appendix B: List of Federally Obligated Projects

ANNUAL LISTING OF FEDERALLY OBLIGATED PROJECTS

Summary

On an annual basis, per Title 23, United States Code (USC) 450.334, the Ocala Marion Transportation Planning Organization (TPO) is required to provide a summary listing of projects for which federal funds have been *obligated in the preceding federal fiscal year (FFY) from October 1 to September 30. The Florida Department of Transportation (FDOT) assists the TPO in complying with this requirement by providing a detailed report of federal obligations for Marion County. The report is included each year as an amendment to the current Transportation Improvement Program (TIP).

A net total of \$68,078,620 of federal funds were obligated in FFY 2023 for 35 transportation projects and programs in Marion County. Projects or programs for which federal funds have been obligated are not necessarily initiated or completed in the FFY, and the amount of the obligation in a fiscal year will typically not equal the total cost of the entire project. The following summary and companion FDOT report provide a listing of the federally obligated projects by phases and funding sources. In some cases, the FFY totals are negative, which reflect a de-obligation of project or program funding.

*Obligation is the legal commitment by the Federal government to pay or reimburse a State or other entity for the Federal share of a project's eligible cost. Obligated projects have been authorized by the federal government and funds have been approved for reimbursement. Funding for projects can in some cases also be de-obligated. Funding previously obligated is removed from a project due to changes such as cost, delay or cancellation.

Florida Department of Transportation
Strategic Intermodal System

Appendix D: Transportation Performance Management Sheets

Transportation Performance Management

January 2024

OVERVIEW

This document highlights key target setting provisions of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) performance management requirements for state Departments of Transportation (DOT), Metropolitan Planning Organizations (MPO), and public transportation providers.*

TRANSPORTATION PERFORMANCE MANAGEMENT FRAMEWORK

Federal transportation law requires state DOTs and MPOs to implement Transportation Performance Management (TPM), a strategic approach to making investment and policy decisions to achieve performance goals. TPM uses past performance levels and forecasted conditions to measure progress toward strategic goals as a means to guide investments.

Three FHWA Performance Measures (PM) rules and two FTA transit rules establish various performance measures to assess highway safety (PM1), bridge and pavement condition (PM2), system performance and freight movement (PM3), transit asset management (TAM), and transit safety. The FHWA and FTA Planning Rule and the performance measures rules also specify how MPOs should set targets, report performance, and integrate performance management into their Long Range Transportation Plans (LRTP) and Transportation Improvement Programs (TIP).*

Long Range Transportation Plans

The LRTP must:

- » Describe performance measures and targets used in assessing the performance of the transportation system.
- » Include a System Performance Report that:
 - Evaluates the performance of the transportation system with respect to performance targets.
 - Documents the progress achieved by the MPO in meeting the targets.
- » Integrate the goals, objectives, performance measures, and targets described in other plans and processes required as part of a performance-based program.

Transportation Improvement Programs

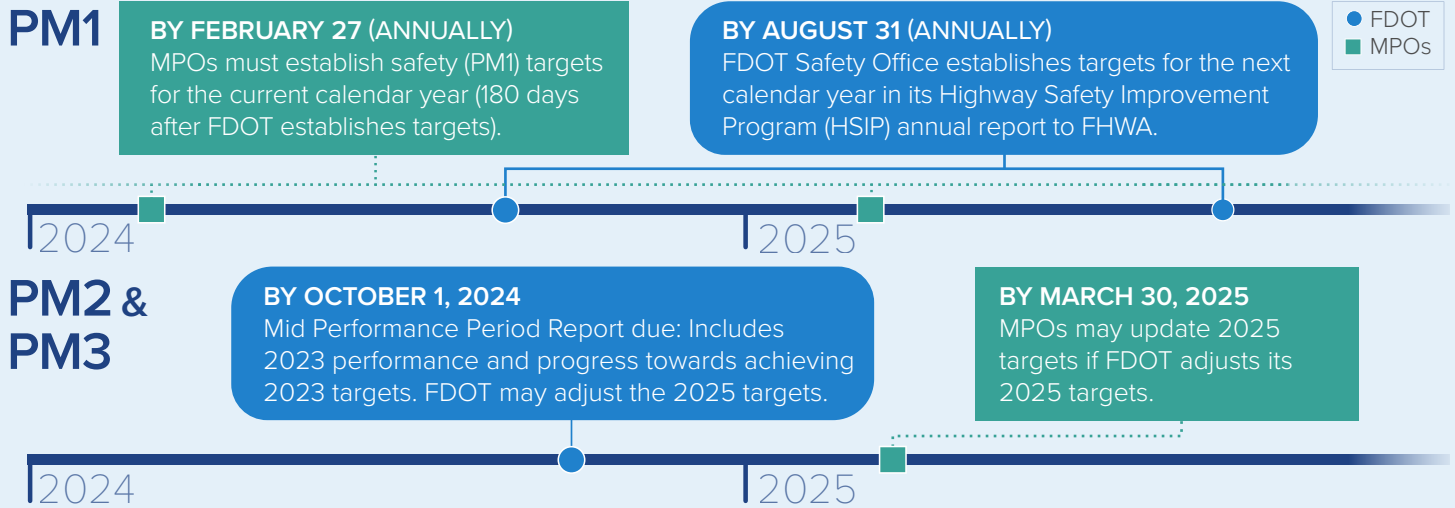

The TIP must:

- » Reflect the investment priorities established in the LRTP.
- » Be designed such that once implemented, it makes progress toward achieving the performance targets.
- » Include a description of the anticipated effect of the TIP toward achieving the performance targets, linking investment priorities to performance targets.

FDOT and the Metropolitan Planning Organization Advisory Council (MPOAC) have developed model language for inclusion of performance measures and targets in LRTPs and TIPs

*Please refer to the five accompanying fact sheets to obtain key information for the three FHWA performance measures rules and two FTA transit rules.

TIMELINE FOR MPO ACTIONS

TIMEFRAME

TRANSIT ASSET MANAGEMENT AND TRANSIT SAFETY

PUBLIC TRANSPORTATION PROVIDERS		MPOs
TAM	Transit Safety	<ul style="list-style-type: none"> Update MPO transit targets with every LRTP update Reflect MPO targets and public transportation provider(s) current targets in each updated TIP
<ul style="list-style-type: none"> Update TAM Plan/Group TAM Plan every 4 years Update TAM targets annually 	<ul style="list-style-type: none"> Update safety targets annually 	

TARGET SETTING OPTIONS

The Florida Department of Transportation (FDOT), the MPOs, and public transportation providers set their respective performance targets in coordination with one another. All MPOs establish a target for each applicable performance measure by one of two options:

<p>Support the target established by FDOT or the public transportation provider(s).</p> <p>The MPO agrees to plan and program projects so that they contribute toward the accomplishment of the state or public transportation provider(s) target.</p>	OR	<p>Establish own target.</p> <p>The MPO coordinates with FDOT or the public transportation provider(s) regarding the methodology used to develop the target and the proposed target prior to establishing a final target.</p>
---	-----------	--

For the **PM1, PM2, and PM3 measures**, MPOs must establish their targets no later than 180 days after FDOT sets its targets. For the **transit asset management and safety measures**, MPOs are not required to establish transit targets annually each time the public transportation provider(s) establishes targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) targets in the updated TIP.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

FOR MORE INFORMATION PLEASE CONTACT

Regina Colson, Transportation Performance Measures Coordinator
 Florida Department of Transportation | Regina.Colson@dot.state.fl.us | (850) 414-5271

PM1: Safety (All Public Roads)

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The first of Federal Highway Administration's (FHWA) performance management rules establishes measures to assess safety on all public roads and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their safety targets.*

PERFORMANCE MEASURES – APPLICABLE TO ALL PUBLIC ROADS

NUMBER OF FATALITIES	<i>The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.</i>	RATE OF SERIOUS INJURIES	<i>The total number of serious injuries per 100 million VMT in a calendar year.</i>
RATE OF FATALITIES	<i>The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year.</i>	NUMBER OF NON-MOTORIZED FATALITIES AND NON-MOTORIZED SERIOUS INJURIES	<i>The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year.</i>
NUMBER OF SERIOUS INJURIES	<i>The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.</i>		

TIMELINE

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

ANNUAL FATALITIES

ANNUAL SERIOUS INJURIES

FATALITY RATE (PER HUNDRED MILLION VMT)

SERIOUS INJURY RATE (PER HUNDRED MILLION VMT)

NUMBER OF NON-MOTORIZED FATALITIES AND SERIOUS INJURIES

This is the current data available.

Source: FLHSMV, 2022.

STATEWIDE TARGETS

FDOT establishes statewide safety targets for the following calendar year as part of the [HSIP Annual Report](#), which must be submitted by August 31 each year.

Given FDOT's firm belief that every life counts, the target set for all safety performance measures is ZERO.

MPO TARGETS

MPOs must set targets by February 27 of each year (within 180 days after FDOT sets targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

MPOs must include the most recent reported performance and targets with each TIP update. The TIP must describe how the investments contribute to achieving the performance targets. The LRTP must include a System Performance Report that discusses the performance of the transportation system and progress achieved in meeting the targets over time.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four of the five safety targets are met or the actual outcome is better than baseline performance. Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users.

As requested by FHWA, FDOT annually develops an [HSIP Implementation Plan](#) to highlight strategies it will undertake in support of these targets. MPOs are encouraged to review this Plan each year to identify strategies appropriate for their planning area.

FHWA will not assess MPO target achievement. However, FHWA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

FOR MORE INFORMATION PLEASE CONTACT

Regina Colson, Transportation Performance Measures Coordinator

Florida Department of Transportation | Regina.Colson@dot.state.fl.us | (850) 414-5271

PM2: Bridge and Pavement

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The second Federal Highway Administration (FHWA) performance management rule establishes measures to assess the condition of bridges and pavement on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report targets.*

PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in **GOOD** condition.
- » Percentage of pavements on the Interstate System in **POOR** condition.
- » Percentage of pavements on the non-Interstate NHS in **GOOD** condition.
- » Percentage of pavements on the non-Interstate NHS in **POOR** condition.

GOOD CONDITION

Suggests no major investment is needed.

BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) in **GOOD** condition.
- » Percentage of NHS bridges (by deck area) in **POOR** condition.

POOR CONDITION

Suggests major investment is needed.

TIMELINE

SECOND Performance Period (January 1, 2022 to December 31, 2025)

BY OCTOBER 1, 2024

Mid Performance Period Report due: Includes 2023 performance and progress towards achieving 2023 targets. FDOT may adjust the 2025 targets.

BY MARCH 30, 2025

MPOs may update 2025 targets if FDOT adjusts its 2025 targets.

- FDOT
- MPOs

2024

2025

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

NHS Bridges

Year	in Good Condition	in Poor Condition
2018	66.8%	1.2%
2019	65.5%	0.5%
2020	63.7%	0.7%
2021 (Baseline)	61.5%	0.9%
2022	58.2%	0.6%

Interstate Pavements

Year	in Good Condition	in Poor Condition
2018	53.7%	0.6%
2019	68.5%	0.2%
2020	68.8%	0.6%
2021 (Baseline)	70.5%	0.3%
2022	73.4%	0.2%

Non-Interstate NHS Pavements

Year	in Good Condition	in Poor Condition
2018	40.1%	0.4%
2019	41.0%	0.2%
2020	N/A	N/A
2021 (Baseline)	47.5%	0.6%
2022	48.8%	0.6%

Source: FDOT and FHWA.

STATEWIDE TARGETS

FDOT established 2023 and 2025 targets for NHS bridge and pavement on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

Performance Measure	2023 Target	2025 Target
Bridge		
% of NHS bridges (by deck area) in GOOD condition	50.0%	50.0%
% of NHS bridges (by deck area) in POOR condition	10.0%	10.0%
Pavement		
% of Interstate pavements in GOOD condition	60.0%	60.0%
% of Interstate pavements in POOR condition	5.0%	5.0%
% of non-Interstate NHS pavements in GOOD condition	40.0%	40.0%
% of non-Interstate NHS pavements in POOR condition	5.0%	5.0%

MPO TARGETS

MPOs set their 2025 targets in June 2023 (180 days after FDOT set the statewide targets). MPOs may update their 2025 targets if FDOT adjusts its 2025 targets.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- » The actual condition/performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA determined that FDOT made significant progress toward its 2021 PM2 targets; FHWA's assessment toward the 2023 targets is anticipated to be provided in 2024.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

MINIMUM CONDITIONS

Every year, FHWA will assess if FDOT is meeting federal minimum condition standards for NHS bridges and Interstate pavements. If it is not, FDOT must obligate a specified percentage of available funds for maintenance of these facilities.

FDOT IS ON TRACK TO MEET MINIMUM CONDITION STANDARDS

- » **Bridge:** No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (*Poor* condition) for three consecutive years. ✓
- » **Pavement:** No more than 5 percent of the Interstate System in *Poor* condition for most recent year. ✓

PM3: System Performance

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The third Federal Highway Administration (FHWA) performance management rule establishes measures to assess the reliability of passenger and truck freight travel on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their targets.*

PERFORMANCE MEASURES

PERFORMANCE MEASURE	REFERRED TO AS	WHAT IT MEASURES
Percent of person-miles traveled on the Interstate that are reliable	Interstate reliability	Compares longer travel times (80 th percentile) to a normal travel time (50 th percentile). Vehicle occupancy is factored in to determine the person-miles traveled on segments considered reliable, and this is converted to a percent of total miles.
Percent of person-miles traveled on the non-Interstate NHS that are reliable	Non-Interstate NHS reliability	Compares longer travel times (80 th percentile) to a normal travel time (50 th percentile). Vehicle occupancy is factored in to determine the person-miles traveled on segments considered reliable, and this is converted to a percent of total miles.
Truck travel time reliability index (Interstate)	Truck reliability	Compares longer travel times (95 th percentile) to the normal travel time for trucks. This is expressed as a ratio called the Truck Travel Time Reliability Index, or TTTR.

The PM3 rule also defines measures for assessing the CMAQ Program that apply only to states and MPOs that are in a designated air quality non attainment areas or maintenance areas. Florida does not have any applicable areas, therefore the CMAQ measures are not addressed in this fact sheet.

TIMELINE

SECOND Performance Period (January 1, 2022 to December 31, 2025)

BY OCTOBER 1, 2024

Mid Performance Period Report due: Includes 2023 performance and progress towards achieving 2023 targets. FDOT may adjust the 2025 targets.

BY MARCH 30, 2025

MPOs may update 2025 targets if FDOT adjusts its 2025 targets.

2024

2025

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

INTERSTATE RELIABILITY

Percent of person-miles traveled on the Interstate that are reliable

NON-INTERSTATE NHS RELIABILITY

Percent of person-miles traveled on the non-Interstate NHS that are reliable

TRUCK RELIABILITY

Truck travel time reliability index (Interstate)

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS).

STATEWIDE TARGETS

FDOT established the following 2023 and 2025 targets on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets.

PERFORMANCE MEASURE	2023 TARGET	2025 TARGET
INTERSTATE RELIABILITY	75.0%	70.0%
NON-INTERSTATE NHS RELIABILITY	50.0%	50.0%
TRUCK RELIABILITY	1.75	2.00

MPO TARGETS

MPOs set their 2025 targets in June 2023 (180 days after FDOT set the statewide targets). MPOs may update their 2025 targets if FDOT adjusts its 2025 targets.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- » The actual performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA’s determination of significant progress toward the 2023 interstate reliability and truck reliability targets is anticipated to be provided in 2024. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight congestion analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

ASSET MANAGEMENT

Public Transit

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The Federal Transit Administration (FTA) Transit Asset Management rule applies to all recipients and subrecipients of federal transit funding that own, operate, or manage public transportation capital assets. The rule defines State of Good Repair (SGR) performance measures and establishes requirements for Transit Asset Management (TAM) Plans and performance targets. This fact sheet describes these requirements and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

STATE OF GOOD REPAIR PERFORMANCE MEASURES

Transit Asset Categories and TAM Performance Measures

FTA ASSET CATEGORIES	PERFORMANCE MEASURES
EQUIPMENT Non-revenue support-service and maintenance vehicles	Percentage of non-revenue vehicles that have met or exceeded their useful life benchmark (ULB)
ROLLING STOCK Revenue vehicles	Percentage of revenue vehicles that have met or exceeded their ULB
INFRASTRUCTURE Rail fixed-guideway track	Percentage of track segments (by mode) with performance restrictions
FACILITIES Buildings and structures	Percentage of facilities rated below condition 3 on the Transit Economic Requirement Model (TERM) scale

“State of good repair” is defined as the condition in which a capital asset is able to operate at a full level of performance. This means the asset:

1. Is able to perform its designed function.
2. Does not pose a known unacceptable safety risk.
3. Lifecycle investment needs have been met or recovered.

Public transportation providers are required to report transit asset performance measures and targets annually to the National Transit Database (NTD).

TIMEFRAME

PUBLIC TRANSPORTATION PROVIDERS

- Update TAM Plan/Group TAM Plan every 4 years
- Update TAM targets annually

MPOs

- Update MPO TAM targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current TAM targets in each updated TIP

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

TAM PLAN

Tier I versus Tier II Agencies

The rule makes a distinction between Tier I and Tier II public transportation providers and establishes different requirements for them.

TIER I

Operates rail

OR

≥ 101 vehicles across all fixed route modes

OR

≥ 101 vehicles in one non-fixed route mode

TIER II

Subrecipient of 5311 funds

OR

American Indian Tribe

OR

≤ 100 vehicles across all fixed route modes

OR

≤ 100 vehicles in one non-fixed route mode

Required Elements of Provider TAM Plans

1. Inventory of Capital Assets

TIERS I AND II

2. Condition Assessment

3. Decision Support Tools

4. Investment Prioritization

5. TAM and SGR Policy

TIER I ONLY

6. Implementation Strategy

7. List of Key Annual Activities

8. Identification of Resources

9. Evaluation Plan

A **TIER I** public transportation provider must develop its own TAM Plan. The Tier I public transportation provider must make the TAM plan, annual targets, and supporting materials available to the state DOTs and MPOs that provide funding to the provider.

A **TIER II** public transportation provider may develop its own plan or participate in a group TAM plan, which is compiled by a group TAM plan sponsor. Group plan sponsors must make the group plan, targets, and supporting materials available to the state DOTs and MPOs that program projects for any participants of the group plan.

The Florida Department of Transportation (FDOT) developed a group plan for all subrecipients in 2022 that includes collective TAM targets for the participating providers. Participants in FDOT's Group TAM Plan primarily operate in areas of the state that are not served by an MPO.

MPO AND PUBLIC TRANSPORTATION PROVIDER COORDINATION

- » Each public transportation provider or its sponsor must share its targets with each MPO in which the public transportation provider operates services.
- » MPOs are not required to establish transit asset management targets each time the public transportation provider(s) establishes annual targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) TAM targets in the updated TIP.
- » When establishing transit asset management targets, the MPO can either agree to program projects that will support the public transportation provider(s) targets, or establish its own separate regional targets for the MPO planning area. MPO targets may differ from the public transportation provider(s) targets, especially if there are multiple public transportation providers in the MPO planning area.
- » MPOs are required to coordinate with the public transportation provider(s) and group plan sponsors when selecting targets.
- » FTA will not assess MPO progress toward achieving transit targets. However, Federal Highway Administration (FHWA) and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

SAFETY

Public Transit

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The Federal Transit Administration (FTA) Public Transportation Agency Safety Plan (PTASP) rule established transit safety performance management requirements for certain providers of public transportation that receive federal financial assistance. This fact sheet describes these requirements and the role of Metropolitan Planning Organizations (MPO) under this rule.*

PUBLIC TRANSPORTATION AGENCY SAFETY PLANS (PTASP)

Federal Rule Applicability

Recipients and Sub-recipients of FTA 5307 funds

The rule applies to recipients and sub-recipients of FTA 5307 funds that operate a public transportation system and to operators of rail transit systems subject to FTA's State Safety Oversight Program.

The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the U.S. Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

Small public transportation providers without rail and with fewer than 101 revenue vehicles in operation during peak service may complete their own plan or have their plan drafted or certified by their state DOT.

PUBLIC TRANSPORTATION SAFETY PERFORMANCE MEASURES

FATALITIES	<i>Total number of reportable fatalities and rate per total vehicle revenue miles by mode.</i>
INJURIES	<i>Total number of reportable injuries and rate per total vehicle revenue miles by mode.</i>
SAFETY EVENTS	<i>Total number of reportable events and rate per total vehicle revenue miles by mode.</i>
SYSTEM RELIABILITY	<i>Mean distance between major mechanical failures by mode.</i>

TIMEFRAME

PUBLIC TRANSPORTATION PROVIDERS

- Update safety targets annually

MPOs

- Update MPO safety targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current safety targets in each updated TIP

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

RELATIONSHIP OF PTASP TO FLORIDA REQUIREMENTS

Florida requires each Section 5307 and/or 5311 public transportation provider to have an adopted System Safety Program Plan (SSPP) (Chapter 14-90, Florida Administrative Code). Because Section 5307 public transportation providers in Florida must already have a SSPP, FDOT recommends that public transportation providers revise their existing SSPPs to be compliant with the FTA PTASP requirements.

FDOT has issued guidance to public transportation providers to assist them with revising existing SSPPs to be compliant with the FTA PTASP requirements.

While the PTASP rule requires public transportation providers to establish safety performance targets, the SSPP does not.

REQUIREMENTS

TRANSIT SAFETY TARGET COORDINATION BETWEEN FDOT, MPOS, AND PUBLIC TRANSPORTATION PROVIDERS

- » Public transportation providers that annually draft and certify a PTASP and transit safety targets must make the PTASP and underlying safety performance data available to FDOT and the MPOs to aid in the planning process.
- » MPOs are not required to establish transit safety targets annually each time the public transportation provider(s) establishes targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) PTASP targets in the updated TIP.
- » Public transportation providers will coordinate with FDOT and affected MPOs in the selection of transit safety performance targets.
- » Public transportation providers will give written notice to the MPO(s) and FDOT when the public transportation provider establishes transit safety targets.
- » When establishing transit safety targets, the MPO can either agree to program projects that will support the public transportation provider targets, or establish its own separate targets for the MPO planning area.
- » MPOs that establish their own transit safety targets will coordinate with the public transportation provider(s) and FDOT in the selection of transit safety performance targets, and will give written notice to the public transportation provider(s) and FDOT when the MPO establishes its own transit safety targets.
- » MPOs that agree to support the public transportation provider(s) safety targets will provide FDOT and the public transportation providers documentation that the MPO agrees to do so.
- » If two or more public transportation providers operate in an MPO planning area and establish different safety targets for a measure, the MPO may establish a single target for the MPO planning area or establish a set of targets that reflect the differing public transportation provider targets.

Govt Public Notices

Originally published at ocala.com on 05/07/2024

The Ocala Marion TPO Draft Transportation Improvement Program (TIP) is now available

for public review and comment.

The Ocala Marion Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) is a five-year schedule of transportation improvements throughout the Metropolitan Planning Area of Marion County. The TIP documents the anticipated timing and cost of transportation projects funded by federal, state, and local sources. Projects in the TIP may include roadway and bridge construction; operations;

resurfacing; bicycle and pedestrian; transit, and aviation.

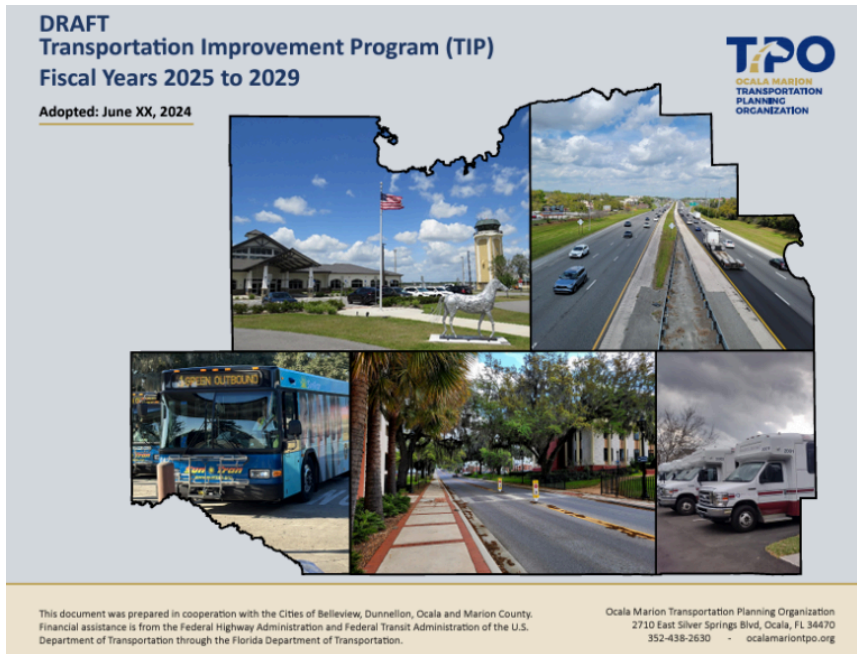

The Draft TIP for Fiscal Years 2025 to 2029 is now available for public review by accessing the TPO website at: [https://ocalamariontpo.o](https://ocalamariontpo.org/plans-and-programs/transportation-improvement-program-tip/)

TRANSPORTATION IMPROVEMENT PROGRAM

Review Checklist

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

Editorial: The MPO may address comments regarding grammatical, spelling, and other related errors, but this would not affect the document's approval.

Enhancement: Comments may be addressed by the MPO but would not affect the approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: The comment **MUST** be addressed to meet the minimum state and federal requirements for approval. The reviewer must clearly identify the applicable state or federal statutes, regulations, policies, guidance, or procedures to which the document does not conform.

If a question is categorized, a comment must accompany it. If a question is answered with "no," a comment must accompany it.

MPO: **Ocala Marion TPO**

Draft FY 25 to 29 Transportation Improvement Program (TIP)

Public Comments

Summary

The draft Fiscal Years 2025 to 2029 Transportation Improvement Program (TIP) was made available for public and partner agency review from May 7 to June 14, 2024. The following public comment was received by the TPO.

- **Public Comment:** “In the draft TIP map online, project FM 436756-1 does not include further detail about the project. I own a few properties along that route and would like to know more about the project and if any designs have been made.”
 - **TPO Response:** Noted for public record. The citizen was thanked for the comment and was told that the project in the TIP is funded for preliminary engineering in FY 25. The TPO also gave the citizen contact information for the city to ask if they have any further design information for the project.

Appendix G: Glossary of Terms and Acronyms

Glossary of Terms and Acronyms

OCALA MARION
TRANSPORTATION
PLANNING
ORGANIZATION

November 2023

ACRYONYM	NAME	DESCRIPTION
3C	Continuing, Cooperative and Comprehensive	A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding.
AADT	Average Annual Daily Traffic	Average daily traffic on a roadway segment for all days of the week during a period of one year expressed in vehicles per day.
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.
ADA	Americans with Disabilities Act	The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections.
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data.
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources.
CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented.
CBSA	Core Based Statistical Areas	CBSAs consist of the county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population plus adjacent counties having a high degree of social and economic integration with the core. Social and economic integration is measured in the form of commuting and other reoccurring travel.
CFMPOA	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law.

ACRYONYM	NAME	DESCRIPTION
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.
CIP	Capital Improvement Program	The CIP is a multi-year schedule of programmed capital improvement projects, including cost estimates and budgeted by year. CIP documents are typically updated annually by a local government.
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.).
CMP	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.
COOP	Continuity of Operations Plan	The COOP outlines guidance to TPO Staff and Board Members to ensure all federal and state required essential functions continue to be performed in the event of an extended interruption of services due to a declared emergency or disaster.
CTC	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation-disadvantaged/).
CTD	Commission for Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funds to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc.org/TD/td.html).
CTST	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition.
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/programs/dbe/).
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/communitytransystem.htm)
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions

ACRYONYM	NAME	DESCRIPTION
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project.
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects.
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.
FAST Act	Fixing America's Surface Transportation Act	The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.
FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida- https://jobs.myflorida.com/go/ Department-of-Transportation/2817700/).
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal-aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.
FMTP	Freight Mobility and Trade Plan	FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future.
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.

ACRYONYM	NAME	DESCRIPTION
FY	Fiscal Year/ Federal Fiscal Year	The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30.
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.
HSIP	Highway Safety Improvement Program	The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.
HUD	Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.
IIJA	Infrastructure Investment and Jobs Act	Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending.
IRI	International Roughness Index	International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface.
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system.
LOS	Level of Service	Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.
LOPP	List of Priority Projects	The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding.
LRTP/MTP	Long-Range Transportation Plan (or Metropolitan Transportation Plan)	A document that serves as the defining vision for the region's transportation systems and services. The LRTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent LRTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp/ .

ACRYONYM	NAME	DESCRIPTION
LOTTR	Level of Travel Time Reliability	The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS).
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.
MPA	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.
MPO	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
MPOAC	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.
MSA	Metropolitan Statistical Area	A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.
NTD	National Transit Database	The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems.
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)].
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500).

ACRYONYM	NAME	DESCRIPTION
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https://www.fdotd7studies.com/what-is-a-pde-study.html).
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.
PM	Performance Management	Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals.
PPP	Public Participation Plan	The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.
PTASP	Public Transportation Agency Safety Action Plan	A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system.
RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.
SHSP	Strategic Highway Safety Plan	This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads.
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot.gov/planning/sis/default.shtm).
SOV	Single-Occupancy Vehicle	Any motor vehicle operated or driven by a single person.
STBG	Surface Transportation Block Grant Program	The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.

ACRYONYM	NAME	DESCRIPTION
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals.
TAMP	Transportation Asset Management Plan	The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts).
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.
TD	Transportation Disadvantaged	Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues.
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.
TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.
TDSP	Transportation Disadvantaged Service Plan	The TDSP is a tactical plan outlining the services provided to the transportation disadvantaged population served by the Community Transportation Coordinator (Marion Transit). The TDSP is update every year, and also undergoes a major update every five years by the TPO.
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.

ACRYONYM	NAME	DESCRIPTION
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half-mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org).
TPM	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.
TPO	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities.
TTTR	Truck Travel Time Reliability Index	The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system.
UA	Urban Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.
ULB	Useful Life Benchmark	The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration.
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.
USC	United States Code	The codification by subject matter of the general and permanent laws of United States.
USDOT	United States Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.
YOE	Year of Expenditure	The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed.
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia).

Appendix H: Project Changes from Prior TIP

MAJOR PROJECT CHANGES FROM PRIOR TIP

The following list summarizes major projects that were programmed in the previous Fiscal Years (FY) 2024 to 2028 TIP and their respective status toward implementation. This includes projects advanced; completed; construction (2024/2025); or deferred. The project status denoted references the general fiscal year time frame.

Project Status from Prior TIP: Advanced, Completed, Construction or Deferred			
Project Number/FM	Project Description	Project Status	FY 2024-2028 TIP Funding
2386481	SR 45 (US 41) from SW 110th St to North of SR 40	Deferred FY 28 to FY 29	62,027,312
4336511	CR 484 from SW 20th Avenue to CR 475A	Construction 2024/2025	\$46,260
4336514	CR 484 from SW 20th Avenue to CR 475A	Construction 2024/2025	\$213,492
4375962	SR 40/Silver Springs Blvd from NW 27th Ave to SW 7th Ave	Construction 2024/2025	\$909,279
4384171	Marion County Airport Runway Improvements	Deferred FY 24 to FY 26	\$437,500
4385621	I-75 (SR 93) Rest Area from North of CR 484 to South of SR 200	Construction 2024/2025	\$42,379,924
4392341	SR 200 from I-75 to U.S. 301	Construction 2024/2025	\$12,455,781
4407801	Ocala International Airport Pavement Rehabilitation	Deferred FY 24 to FY 25	\$1,250,000
4411411	SR 464 from U.S. 441/U.S. 301 to SR 35 (Baseline Road)	Construction 2024/2025	\$21,644,972
4452121	U.S. 301 from S of NE 175th St to Alachua County Line	Construction 2024/2025	\$4,729,689
4452171	SR 326 from NW 12th to SR 40	Construction 2024/2025	\$11,875,930
4456881	U.S. 27/U.S. 441/Abshiver Boulevard at CR 42	Construction 2024/2025	\$1,099,429
4457011	SE Abshier Blvd from SW Hames Rd to North of SE Agnew Rd	Construction 2024/2025	\$2,062,140
4489241	SR 492 over CSX Railroad Line	Construction 2024/2025	\$391,249
4492611	SW 60th Ave from SW 54th Street to SECO Energy Driveway	Deferred FY 24 to 28	\$199,243
4497741	Marion County Airport Hangar	Construction 2025/2027	\$2,500,000
4392382	SR 25/U.S. 441/SR 500 from SR 35/SE Baseline Road to SR 200/SW 10th Streets	Deferred FY 25 to 27	\$3,919,169
4506371	U.S. 27 from Sumter County Line to U.S. 301/Abshier (Bellevue)	Construction 2025/2026	\$24,752,774
4453021	SR 35/U.S. 301 from North of CR 42 to North of SE 114 th Place Road	Construction 2024/2025	\$5,347,959

TIP Funding and schedule changes are summarized in the following table for major projects programmed in both the previous FY 2024 to FY 2028 TIP and the current draft FY 2025 to FY 2029 TIP. Also summarized are projects previously deferred in a prior TIP, and are now programmed in the current FY 2025 to FY 2029 TIP.

Major Project Total Funding Changes: Prior TIP Years (2024 to 2028) to Current TIP Years (2025 to 2029)			
Project Number/FM	Project Description	Project Schedule Changes	Change in Project Funding
*2386481	SR 45 (US 41) from SW 110th St to North of SR 40	Programmed FY 2029	\$46,335,710
4336601	U.S. 441 at SR 464	None	\$1,004,203
4352091	I-75 (SR 93) at NW 49th St from end of NW 49th to NW 35th	None	\$67,480,581
4392382	U.S. 441 from SE 102nd Place to SW 10th/SR 200	Deferred FY 25 to FY 27	\$672,802
4452181	U.S. 441 from Avenue I to Alachua County Line	None	\$1,483,565
4485261	U.S. 41/Williams from N of Citrus County to SW 110th St	None	\$731,088
4486351	U.S. 441 from County Road 25A to Avenue I	None	-\$83,635
4520741	I-75 IMPROVEMENTS FROM SR 200 TO SR 326	None	\$54,809,480
4520721	I-75 AT SR 326 INTERCHANGE IMPROVEMENTS	None	\$16,158,465
4509521	SR 40 FROM U.S. 41 to 25th Ave	None	-\$5,514,218
4509481	SR 40 FROM NE 64TH AVE TO LAKE COUNTY LINE	None	\$5,255,078
4520721	I-75 AT SR 326 INTERCHANGE IMPROVEMENTS	None	\$16,158,465

*Project deferred in a prior TIP years, programmed in current FY 2025 to FY 2029 TIP

Appendix K: Roll Forward Amendment

Transportation Improvement Program (TIP) Fiscal Years 2025 to 2029

Roll Forward Amendment

Pending Approval

September 24, 2024

This document was prepared in cooperation with the Cities of Belleview, Dunnellon, Ocala and Marion County. Financial assistance is from the Federal Highway Administration and Federal Transit Administration of the U.S. Department of Transportation through the Florida Department of Transportation.

Ocala Marion Transportation Planning Organization
2710 East Silver Springs Blvd, Ocala, FL 34470

ROLL FORWARD AMENDMENT

Purpose

The Fiscal Years (FY) 2025 to 2029 Transportation Improvement Program (TIP) was adopted by the Board on June 25, 2024. The purpose of the TIP Roll Forward Amendment is to ensure full consistency by October 1 each year between the Ocala/Marion County Transportation Planning Organization (TPO) Transportation Improvement Program (TIP) and the Florida Department of Transportation (FDOT) Work Program.

In some cases, project funding programmed in the previous fiscal year of the prior TIP document was not authorized and encumbered prior to June 30. These projects then roll-forward in the FDOT Work Program for year one (FY 2025), but not into the TPO's TIP to meet the timeline for annual adoption. As a result, the TPO's TIP must be amended each year to include roll-forward projects in the current fiscal year to ensure consistency with the FDOT Work Program. Hence, the process is called the Roll Forward TIP Amendment.

Unlike all other projects, Federal Transit Administration (FTA) projects do not automatically roll-forward in the FDOT Work Program. The TPO coordinates with SunTran to verify that project funding is appropriately accounted for in the Roll Forward TIP Amendment. The following graphic displays the Roll Forward process and all key milestones. Project phase acronym descriptions are provided at the last page of this document.
