Resolution
No. 25-6

RESOLUTION OF THE OCALA/MARION COUNTY
TRANSPORTATION PLANNING ORGANIZATION (TPO)
TRANSPORTATION IMPROVEMENT PROGRAM (TIP)
FOR FISCAL YEARS (FY) 2026 to 2030

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(j), 23 CFR Section 450.326 and Florida Statute 339.175(8) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as “a prioritized listing/program of transportation projects covering a period of 4 years that is developed and formally adopted by an MPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53” [23 CFR 450.104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board; and
- (ii) No revision or amendment performed by the TPO Director shall substantially modify any plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the Transportation Improvement Program for FY 2026 to FY 2030.

CERTIFICATE

The undersigned duly qualified and acting Chair of the Ocala/Marion County Transportation Planning Organization hereby certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the Ocala/Marion County Transportation Planning Organization held on this 23rd day of June 2025.

By: 
Carl Zalak, III, Chair

Attest: 
Robert Balmes, Director

Rob Balmes, AICP CTP, Director

Shakayla Irby, Administrative Specialist III/Social Media
Coordinator

Liz Mitchell, Grants Coordinator/Fiscal Planner/ Title VI Non-
Discrimination Coordinator

Mission

To plan for a future transportation system that is safe and accessible for the residents and visitors of our community.

Vision

A transportation system that supports growth, mobility and safety through leadership and planning.

The Ocala-Marion County Transportation Planning Organization (TPO) is committed to ensuring that no person is excluded from the transportation planning process and welcomes input from all interested parties, regardless of background, income level or cultural identity. The TPO does not tolerate discrimination in any of its programs, services, activities or employment practices. Pursuant to Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), the Age Discrimination Act of 1975, Executive Order 13898 (Environmental Justice) and 13166 (Limited English Proficiency), and other federal and state authorities. The TPO will not exclude from participation in, deny the benefits of, or subject to discrimination, anyone on the grounds of race, color, national origin, sex, age, disability, religion, income or family status. The TPO welcomes and actively seeks input from the public, to help guide decisions and establish a vision that encompasses all area communities and ensure that no one person(s) or segment(s) of the population bears a disproportionate share of adverse impacts. Persons wishing to express their may do so by contacting the TPO.

1. INTRODUCTION

Purpose

The Ocala-Marion County Transportation Planning Organization (TPO) is the designated Metropolitan Planning Organization (MPO) in Marion County, Florida and is responsible for developing the Transportation Improvement Program (TIP). The Fiscal Years (FY) 2026 to 2030 TIP is a five-year schedule of transportation projects to be implemented by government agencies within the Metropolitan Planning Area (MPA) of Marion County. The TIP documents the anticipated timing and cost of transportation improvements funded by federal, state and local sources and is developed on an annual basis in accordance with federal law [23 Code of Federal Regulations (C.F.R) 450.326]; [Title 49 United States Code (U.S.C), Chapter 53] and Subsection (S) 339.175(8), Florida Statutes (F.S.). The types of projects in the TIP include roadway capacity, interchanges, operations, maintenance, resurfacing, bicycle and pedestrian facilities, transit funding and aviation.

Fiscal Constraint

Transportation projects contained in the TIP are financially feasible and located within the designated MPA. Project funding is derived from current and proposed revenue sources based on the Florida Department of Transportation (FDOT) final Tentative Work Program (FY 2026 to FY 2030) for Marion County. As a condition of receiving federal project funding, the TIP must list all highway and public transportation projects proposed for funding under 23 U.S.C (highways) and 49 U.S.C (transit). The TIP must also contain state and locally funded regionally significant transportation projects. For a project to be considered fiscally constrained, the cost must not exceed anticipated revenue.

A list of the most current Federally Obligated projects is provided in **Appendix B**. The annual Federal Obligation list is a continuation of projects in the prior TIP, and in some cases started in previous TIP documents (23 C.F.R 450.334).

Planning Process (“3-C”)

As stated in the Federal Highway and Transit Acts of 1962 and 1964, each urbanized area over 50,000 people must have a continuing, cooperative and comprehensive transportation planning process. This process, also known as the “3-C” planning process, must be reflected in the TIP, in conjunction with the TPO’s Long-Range Transportation Plan (LRTP). The 3-C process enables consideration and implementation of projects and strategies that address 10 federal planning factors as defined in 23 U.S.C 134(h) (next page):

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and nonmotorized users;
3. Increase the security of the transportation system for motorized and nonmotorized users;
4. Increase accessibility and mobility of people and freight;
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
10. Enhance travel and tourism.

Consistency

All projects in the TIP must be supported and/or documented in the current 2045 LRTP. The TIP is also used to coordinate transportation projects between local, state and federal agencies, thereby ensuring the efficient use of transportation funding in Marion County. In summary, the TIP serves as the budget for carrying out the LRTP in five-year increments, and must be fully consistent.

TPO Planning Area

The TPO serves the cities of Belleview, Dunnellon, Ocala, and unincorporated Marion County. Due to population growth in the 1980s, the TPO Board approved the entirety of Marion County in 1992 as the MPA as displayed in Figure 1 (next page). The MPA is determined by the TPO Governing Board and the Governor every U.S. decennial census.

Figure 1: Map of TPO Planning Area (MPA)

Development of the TIP

Public and local government involvement for the development of the TIP is accomplished through regularly scheduled meetings of the TPO's Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and the TPO Governing Board. The TPO strives to also engage citizens and stakeholders, including public transit operators, to assist in the development of the TIP. The TPO seeks public input for a minimum of thirty (30) days once the Draft TIP document is publicly noticed, in accordance with 23 C.F.R 450.326(b). A Glossary of Terms and Acronyms used in the TIP and other TPO documents is provided in **Appendix A**.

TPO Boards and Committees

The TPO submits a draft TIP for review and feedback to the TAC and CAC. These committees are composed of members who represent a variety of government organizations and stakeholders, which include the Cities of Belleview, Dunnellon, and Ocala; the Marion County School Board; SunTran; the Florida Department of Transportation (FDOT); the Florida Department of Environmental Protection; and citizens of Marion County, including persons who are considered transportation disadvantaged.

The TPO also submits a draft TIP to the TPO Board for review. The TPO then addresses the recommendations provided by the Board and Committees, in addition to public input, prior to completing a final version of the TIP. The final version of the TIP is presented to the TPO Board for adoption in June of each year. In 2025, TPO staff presented the draft TIP to the TAC and CAC on May 13th and June 10th, the TPO Board on May 27th and June 23rd.

Public Involvement

In addition to meeting federal regulations, the TIP was developed in accordance with the TPO's Public Participation Plan (<https://ocalamariontpo.org/plans-and-programs/public-participation-plan-ppp>). The public was provided the opportunity to comment on the draft TIP at the aforementioned TAC, CAC and TPO Board meetings. Advance public notices were provided for all committee and board meetings per Florida Sunshine Law and the TPO's PPP. The TPO sought input from the public and other stakeholders by posting on its website, social media pages (Facebook, Twitter) and sending e-blast notifications. On May 6, 2025, a legal notice of the draft version of the TIP was advertised in the Ocala StarBanner. The public comment period for the TIP began on May 6, 2025 and concluded on June 13, 2025.

A copy of the public notice is provided in **Appendix E** and a list of public comments, including the TPO's response to each comment, is in **Appendix F**. On May 6th, the TPO also sent the Draft TIP to the following partner agencies: Federal Transit Administration, Federal Highway Administration, U.S. Forest Service, Florida Department of Transportation, Department of Economic Opportunity, Florida

Commission for the Transportation Disadvantaged, East Central Florida Regional Planning Council, Marion Transit, SunTran and the St. Johns River Water Management District.

Formal responses are provided to each citizen comment submitted to the TPO by email, mail or phone. Citizens are provided a formal response by the TPO and made aware how their public comment is documented, and how it may be addressed if related to a specific project(s) in the current TIP. In cases where further follow up is required, such as seeking project background information, additional contact is made with the citizen by TPO staff. All citizen, TPO committee, TPO Board and partner agency comments and corresponding TPO responses are summarized in **Appendix F**.

Joint Certification

The most recent joint certification between the TPO and FDOT was completed on March 25, 2025 through action by the TPO Board. This process includes a review by FDOT of the TPO's TIP and planning process. The next certification will occur from January to March of 2026.

Consistency with Other Plans and Programs

Projects and respective phases listed in the FY 2026 to 2030 TIP are consistent with state and local plans within the TPO's MPA [S. 339.175(8)(c)(7), F.S.]. The TPO ensures consistency with the following plans and programs:

2045 Long Range Transportation Plan (LRTP)

The 2045 LRTP outlines a long-term vision and goals for transportation. The 2045 LRTP includes a Needs Assessment and a Cost Feasible Plan. These two sections detail specific projects to fulfill long-term vision and goals. In order to remain current with the changing needs of Marion County, the TPO updates the LRTP every five years. The 2045 LRTP was adopted by the TPO Board on November 24, 2020, and amended on November 28, 2023, and June 25, 2024. A list of TIP projects referenced in the 2045 LRTP is provided in **Appendix H** (<https://ocalamariontpo.org/plans-and-programs/long-range-transportation-plan-lrtp>).

Congestion Management Plan (CMP)

Maintenance of a Congestion Management Process (CMP) is required for all TPOs in Florida [S. 339.175 (6)(c)1, F.S.]. Guidance from the Federal Final Rule on the CMP states the intent of the process is to, "address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system". The TPO has developed and maintains a CMP located on the website (<https://ocalamariontpo.org/congestion-management-process-cmp>).

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) serves as the state's long-range transportation vision and policy plan (<http://floridatransportationplan.com>).

Strategic Intermodal System (SIS)

The Strategic Intermodal System (SIS) Policy Plan establishes the policy framework for planning and managing Florida's Strategic Intermodal System, a network of transportation facilities that serves as the state's highest priority for transportation capacity investments. A map of the SIS is provided in **Appendix D**. Additionally, TIP projects supporting the SIS are noted in the individual project pages (SIS Project) (<https://www.fdot.gov/planning/systems/sis/plans.shtm>).

Florida's Strategic Highway Safety Plan (SHSP)

The Florida's Strategic Highway Safety Plan (SHSP) outlines a focus on safety programs to reduce crashes, serious injuries and fatalities to achieve zero traffic deaths and serious injuries (<https://www.fdot.gov/safety/shsp/shsp.shtm>).

Freight Mobility and Trade Plan (FMTP)

FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future (<https://www.fdot.gov/rail/plandevel/freight-mobility-and-trade-plan>).

Transportation Asset Management Plan (TAMP)

The Transportation Asset Management Plan (TAMP) outlines a process for effectively operating, maintaining, and improving physical transportation assets within Florida.

Transit Development Plan (TDP)

The SunTran Transit Development Plan (TDP) represents the vision for public transportation in Marion County for a 10-year horizon (<https://www.ocalafl.org/government/city-departments-i-z/suntran>).

Transportation Disadvantaged

The Transportation Disadvantaged (TD) program is a statewide program providing citizens with transportation to medical appointments, employment, educational and other life sustaining services. Persons eligible for TD services include those with a mental or physical disability, income level at or below 150% of the Federal Poverty Guideline; age 60 and older; or under 16 years old. In Marion County, TD transportation services are provided by Marion Transit. Program funding is included in the TIP (<https://www.mariontransit.org>).

Efficient Transportation Decision Making

Efficient Transportation Decision Making (ETDM) is a process used by FDOT to incorporate environmental, physical, cultural and community resource considerations into transportation planning to inform project delivery. FDOT screens some projects in the TIP, when necessary, through the ETDM process. Information for projects in Marion County is available on the ETDM public website (<https://etdmpub.flas-etat.org/est>).

TIP Revisions

Upon adoption, revisions to the TIP are required when projects are changed, added or deleted. TIP Amendments require TPO Board action and opportunity for public comment. TIP modifications do not require TPO Board action or public comment (23 C.F.R 450.104). As summarized in the FDOT MPO Management Handbook, there are four types of TIP revisions:

TIP Modification

Includes minor changes such as to project phase costs, funding sources and project initiation dates. TIP Modifications are less than 20 percent and \$2 million.

TIP Amendment

Involves major changes such as a project deletion or addition, project cost increase (over 20 percent and \$2 million), design concept or project scope.

Roll Forward Amendment

Projects programmed in the prior TIP that were not authorized by the end of the state fiscal year (June 30) may be authorized between July 1 and September 30, and included in an annual Roll-Forward TIP report to be amended in the new TIP. The Roll Forward amendment process occurs prior to the start of the federal fiscal year on October 1. The TPO Board approves annually a Roll Forward TIP Amendment, and is then added as an appendix to this document.

Administrative TIP Amendment

Projects that are added to year one of the FDOT Tentative Work Program will not be recognized by FHWA until their fiscal year on October 1. Administrative amendments are permitted between the state fiscal year period of July 1 to September 30 to fill the gap until the federal fiscal year begins on October 1.

2. PERFORMANCE MANAGEMENT

Performance Based Planning

Federal transportation law requires state departments of transportation (DOT), TPO/MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance measures are the quantitative expressions used to evaluate progress toward the goals. Performance targets are quantifiable levels of performance to be achieved within a specified time period. Overall, performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by Congress [23 C.F.R 490 or 23 U.S.C 150(b)] as follows:

- 1. Safety:** To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
- 2. Infrastructure Condition:** To maintain the highway infrastructure asset system in a state of good repair.
- 3. Congestion Reduction:** To achieve a significant reduction in congestion on the National Highway System (NHS).
- 4. System Reliability:** To improve the efficiency of the surface transportation system.
- 5. Freight Movement and Economic Vitality:** To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.
- 6. Environmental Sustainability:** To enhance the performance of the transportation system while protecting and enhancing the natural environment.
- 7. Reduced Project Delivery Delays:** To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance Measures and Targets

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have created highway and transit performance measures and requirements for State DOTs, TPO/MPOs and transit operators to establish and report performance targets for each performance measure. In order to determine the amount of progress made for each performance measure, the aforementioned

agencies and organizations must establish baseline data and performance targets; benchmarks used to determine whether transportation investments make progress in achieving national goals; and performance measures. Fact sheets explaining transportation performance management and target setting are provided in **Appendix C**.

Once each State DOT develops its own performance targets for each performance measure, TPOs/MPOs are provided the option to either adopt state and/or transit agency targets, or develop their own targets. The following four performance management program areas are required for performance measure target reporting by the TPO:

- Safety (PM1)
- Pavement and Bridge Condition (PM2)
- System Performance (PM3)
- Transit Asset Management and Safety

Safety (PM1)

Effective April 14, 2016, FHWA published the Highway Safety Improvement Program (HSIP) and Safety Performance Management (Safety PM) Measures Final Rule (PM1). The Safety PM Final Rule established safety performance measures to assess **Fatalities** and **Serious Injuries** on all public roadways and carry out the HSIP. Additionally, the Safety PM Final Rule established a process for both State DOTs and TPOs to develop and report their safety targets and for FHWA to assess whether they have met, or are making significant progress toward meeting safety targets. This process works to improve data collection and analysis; foster transparency and accountability; and allow safety progress to be tracked at the national level. The HSIP annual report documents the statewide performance targets.

As outlined in the Safe System approach promoted by FHWA, the death or serious injury by any person is unacceptable. Consequently, the TPO and FDOT are fully committed to Vision Zero. FDOT has set statewide targets of “0” for all five safety performance measures. Vision Zero and Target Zero are discussed in greater detail in the Strategic Highway Safety Plan and the Florida Transportation Plan. FDOT set statewide safety (PM1) performance targets on August 31, 2024. The TPO was then required within 180 days to either adopt FDOT’s targets or set their own targets.

On February 27, 2018, the TPO Board first adopted safety performance targets to better track progress, engage in board level discussions, and reflect greater accountability of progress made to the general public. In November 2022, the TPO Board adopted

Commitment to Zero: An Action Plan for Safer Streets in Ocala Marion. The goal of Commitment to Zero is to eliminate fatalities and serious injuries by 2045, and to be in alignment with the 2045 LRTP, SHSP and Target Zero. Integrating the adopted targets with Commitment to Zero implementation activities is part of the TPO's ongoing planning process. By adopting its own safety performance targets, the TPO is required to perform annual updates.

On January 28, 2025, the TPO Board adopted declining safety targets (5% reductions) with a focus toward realistic annual progress in reaching zero by 2045. The targets will be reviewed again in 2026 to determine the percentage of decline and/or other necessary changes. Figure 2 displays the safety performance targets for 2025 from FDOT and the TPO, and also 2024 targets and results.

The TPO is committed to improving safety for all roadway users, as demonstrated through planning and programming activities. Programmed projects in the TIP are consistent with the SHSP, LRTP and TPO investment priorities through the annual project-prioritization process. The TPO also analyzes crash data and trends, which are addressed in the Commitment to Zero safety action plan, and published in an annual safety report and online crash dashboard. Additionally, the TPO participates in the Marion County Community Traffic Safety Team (CTST) and local and state safety events. Local partners on a regular basis pursue federal safety funding through the FDOT safety program, and national Safe Streets and Roads-for-All grants.

Figure 2: Safety Performance Measure Targets and Results

Safety Performance Measures	FDOT Targets (2025)	TPO 2025 Targets (not to exceed)	TPO 2024 Targets (not to exceed)	*TPO 2024 Target Results	TPO 2024 Targets Met?
Number of Fatalities	0	87	92	113	No
Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT)	0	1.79	1.88	2.18	No
Number of Serious Injuries	0	373	393	317	Yes
Rate of Serious Injuries per 100 Million VMT	0	7.63	8.03	6.13	Yes
Number of Non-motorized Fatalities and Non-motorized Serious Injuries	0	50	53	64	No

*Signal Four Analytics Florida Traffic Safety Dashboard, April 21, 2025

Pavement and Bridge Condition (PM2)

In January 2017, FHWA published the Pavement and Bridge Condition Performance Measures Final Rule (PM2). The second FHWA performance measure rule established six performance measures to assess pavement and bridge conditions for the National Highway System (NHS). A map of the NHS in Marion County is provided in **Appendix D**.

The **Pavement** condition measures represent the percentage of lane-miles on the Interstate and non-Interstate NHS that are in good or poor condition. FHWA established five pavement condition metrics and set a threshold for each metric to establish good, fair, or poor conditions. A pavement section is classified as being in good condition if three or more metric ratings are good, and in poor condition if two or more metric ratings are poor. Pavement sections that are not good or poor are classified as fair.

The **Bridge** condition measures represent the percentage of bridges, by deck area, on the NHS that are in good condition or poor condition. The condition of each bridge is evaluated by assessing four bridge components. The Final Rule created a metric rating threshold for each component to establish good, fair, or poor bridge condition ratings.

FDOT established two-year and four-year statewide targets for bridge and pavement condition on December 16, 2022. The TPO was required to adopt state targets, or set their own targets no later than June 14, 2023. On March 28, 2023, the TPO Board adopted two- and four-year state targets for pavement and bridge condition, agreeing to plan for projects in the TIP that once implemented are anticipated to make progress towards achieving statewide targets. The two-year and four-year targets represent bridge and pavement conditions at the end of both target years.

On October 1, 2024, FDOT revised one PM2 target (% of NHS bridges as Poor condition), requiring TPO Board action. On January 28, 2025, the TPO Board adopted the revised FDOT PM2 target.

Figure 3 (next page) displays the adopted two- and four-year pavement and bridge targets, with 2023 results in Marion County as a frame of reference. The TPO monitors and reports on the results to the TPO Board, Committees and public. As shown in Figure 3, 2023 target results indicate the percent of Interstate pavements in Good condition were not met in 2023; percent of Interstate pavements in Poor condition were met; and the percent of Non-Interstate NHS in Good and Poor condition were met. The percent of NHS bridges in Good and Poor condition were also met in 2023.

Figure 3: Pavement and Bridge Condition Targets and Results

Pavement and Bridge Condition Performance Measures (PM2)	FDOT/TPO 2023 Targets (2-Year)	2023 Target Results	2023 Targets Met?	FDOT/TPO 2025 Targets (4-Year)
Pavement Condition				
Percent of Interstate pavements in Good condition	60%	54.3%	No	60%
Percent of Interstate pavements in Poor condition	5.0%	0.3%	Yes	5.0%
Percent of non-Interstate NHS pavements in Good condition	40%	53.7%	Yes	40%
Percent of non-Interstate NHS pavements in Poor condition	5.0%	0.5%	Yes	5.0%
Bridge Condition				
Percent of NHS bridges by deck area in Good condition	50%	59.1%	Yes	50%
Percent of NHS bridges by deck area in Poor condition	10%	0.0%	Yes	5%

System Performance (PM3)

In January 2017, FHWA published the System Performance, Freight and Congestion Mitigation and Air Quality (CMAQ) Performance Measures Final Rule (PM3). The third and final Performance Measures Rule, established performance measures to assess reliability and congestion, freight movement and on-road mobile source emissions for the CMAQ program.

There are two specific NHS performance measures that represent the reliability of travel times for all vehicles on the Interstate and non-Interstate NHS. FHWA established the **(1) Level of Travel Time Reliability (LOTTR)** metric to calculate reliability on both the **Interstate** and **Non-Interstate NHS**. LOTTR is defined as the ratio of longer travel times (80th percentile) to a normal travel time (50th percentile) during four time periods from the hours of 6 AM to 8 PM each day. A segment of roadway is “Reliable” if the LOTTR is less than 1.5 during all time periods. If one or more time periods has a LOTTR of 1.5 or above, the segment is “Unreliable”.

FHWA established the **(2) Truck Travel Time Reliability (TTTR)** Index, which is defined as the ratio of longer truck travel times (95th percentile) to a normal truck travel time (50th percentile). This freight movement performance measure represents the reliability of travel times for trucks on the **Interstate**. The TTTR is generated by dividing the longer truck travel time by a normal travel time for

each segment of the Interstate over five time periods from all hours of each day. This is averaged across the length of all Interstate segments in the state or MPO/TPO planning area to determine the TTTR index.

FDOT established two-year and four-year statewide targets for these three **System Performance** measures on December 16, 2022. The TPO was required to adopt the state targets, or set their own no later than June 14, 2023. On March 28, 2023, the TPO Board adopted the two- and four-year state targets, agreeing to plan for projects in the TIP that once implemented, are anticipated to make progress toward achieving statewide targets.

On October 1, 2024, FDOT revised two of the PM3 targets (% of miles on Interstate Reliable, Percent of Non-Interstate NHS Reliable). On January 28, 2025, the TPO Board adopted the revised FDOT targets. The targets represent system performance at the end of both target years. Results from 2023 in Marion County are provided as information. The TPO monitors and reports on the results to the TPO Board, Committees and public. Figure 4 displays the most current System Performance measure targets and results. As shown, the targets for all three System Performance measures were met in 2023.

Figure 4: System Performance Targets and Results

System Performance Measures (PM3)	FDOT/TPO 2023 Targets (2-Year)	2023 Target Results	2023 Targets Met?	FDOT/TPO 2025 Targets (4-Year)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	75%	100%	Yes	75%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	50%	97.0%	Yes	60%
Truck Travel Time Reliability (TTTR)	1.75	1.72	Yes	2.00

Note: The State of Florida and TPO meet all current air quality standards and are not subject to establishing targets for performance measures of the CMAQ program.

Transit Asset Management and Safety

On July 26, 2016, the FTA published the final Transit Asset Management rule, which requires public transportation providers develop and implement transit asset management (TAM) plans, establish “state of good repair” standards, and establish performance measures for four asset categories; rolling stock, equipment, transit infrastructure and facilities.

SunTran, the local public transit agency, operates seven fixed bus routes primarily in the city of Ocala and in some areas of unincorporated Marion County. As the administrative body to SunTran, the City of Ocala is responsible for setting performance targets for **Transit Asset Management**. In January 2023, the City of Ocala set transit asset management targets, thereby agreeing to plan and program projects in the TIP that, once implemented, will make progress toward achieving transit asset targets. SunTran coordinates with FDOT on reporting targets to FTA through the National Transit Database (NTD). SunTran also coordinates with the TPO on a continuous basis and participates as a member of the Technical Advisory Committee (TAC). In May 2025, SunTran updated their Transit Asset Management Plan including transit asset targets (Figure 5).

Figure 5 displays the percentage of SunTran assets that have met or exceeded their Useful Life Benchmark (ULB) for each asset class in 2025 and their performance targets for the next five years. FTA defines ULBs as “... the expected lifecycle or the acceptable period of use in service for a capital asset, as determined by a transit provider, or the default benchmark provided by the FTA.” The performance targets assume the assets are replaced as they reach their ULB.

Figure 5: Transit Asset Management Targets and Results

Transit Asset Class	2025 Performance	2026 Target	2027 Target	2028 Target	2029 Target	2030 Target
Rolling Stock						
Buses	0%	0%	0%	0%	0%	0%
Cutaways	100%	0%	0%	0%	0%	0%
Equipment						
Non-Revenue Vehicles	0%	0%	0%	0%	0%	0%
Facilities						
Administrative and Maintenance Facility	0%	0%	0%	0%	0%	0%

On July 19, 2018, the FTA published the Public Transportation Agency Safety Action Plan (PTASP) regulation, as required (49 C.F.R Part 673), [49 U.S.C. 5329(d)]. The effective date of the regulation was July 19, 2019, but was extended to December 31, 2020 due to the global pandemic. The PTASP regulation implements a risk-based Safety Management System approach and requires all recipients and sub-recipients of federal transit financial assistance to establish and certify an Agency Safety Plan and corresponding safety performance targets. TPO/MPO's then have 180 days from the adoption of the PTASP targets set by the public transit agency (SunTran) to adopt or develop their own independent targets.

In November 2020, SunTran updated a PTASP, and then approved an update in January 2023. The update included reaffirmed **Safety Targets** as displayed in Figure 6.

Figure 6: Transit Safety Targets and Results

SunTran Safety Performance Targets Performance Targets based on collected data from the previous three years							
Mode of Transit Service	Fatalities Total	Fatalities (per 100k vehicle revenue miles VRM)	Injuries Total	Injuries (per 100k vehicle revenue miles VRM)	Safety Events Total	Safety Events (per 100k vehicle revenue miles VRM)	System Reliability (VRM/ failures)

3. FINANCIAL PLAN

Overview

The FY 2026 to 2030 TIP includes a financial element that demonstrates how approved projects and programs will be implemented, indicates the sources of funding that are reasonably expected to be made available, and recommends any additional financing strategies (23 C.F.R 350.326).

The TIP is financially constrained each year, meaning projects must be implemented using reasonably expected revenue sources. Projects in the TIP must use Year of Expenditure (YOE) dollars, which are dollars adjusted for inflation from the present time to the expected year of construction. The TIP includes the public and private financial resources that are reasonably expected to be available in order to accomplish the program.

All projects in the TIP are designated for funding from Title 23 and 49 of U.S.C funding sources and regional transportation projects requiring federal action. Projects in the TIP are derived from the FDOT Work Program and must include a balanced 36-month forecast of revenue and expenditures and a five-year finance plan (S. 339.135, F.S.).

Figures 7 to 10 display TIP financial summary information as follows:

Funding Categories and Sources (Figure 7)

A listing of the types of funding categories for projects in the TIP, including the sources of funding (Federal, State, Local).

Funding by Category and Fiscal Year (Figure 8)

A five-year summary of funding by category and fiscal year, including the TIP five-year total.

Funding Summary by Source, Project Mode/Type (Figures 9, 10, 11)

A summary of funding by source (Federal, State, Local) and by fiscal year, including the TIP five-year total (table and chart).

A summary of funding by mode/type, including Aviation, Bicycle-Pedestrian, Highway-Roadway, Maintenance-Planning and Transit.

Figure 7: Funding Categories and Sources

4. PROJECT PRIORITIZATION PROCESS

Overview

The TPO's project prioritization process is undertaken during the development of the LRTP and annual List of Priority Projects (LOPP). During the development of the LRTP, once projects have been determined as "needs", TPO committees, staff and the TPO Board prioritize the projects based on cost feasibility, using revenue forecasting from local, state and federally published sources. The result is the 'Cost Feasible Plan' and 'Needs Plan' of the LRTP, which become part of a prioritized set of project lists. These lists are also integrated into the TPO's annual List of Priority Projects (LOPP) process. On an annual basis, a revised LOPP is developed collaboratively by the TPO with local partners, TPO committee input and TPO Board approval. The LOPP is submitted to FDOT to receive consideration for funding in the Tentative Work Program. FDOT identifies projects from the LOPP that can be reasonably funded within cost/funding projections over the next five-year period.

Methodology

The TPO manages the annual LOPP prioritization, and continues to place an emphasis on prioritizing projects based on ranking criteria and board member strategic refinement. This includes projects closest to receiving construction funding; meeting federal performance measures; multimodal; improving safety, programmed funding; and/or include local funding and partnerships. Overall, this approach involves collaboration with the cities of Belleview, Dunnellon, Ocala, Marion County and FDOT to develop an annual LOPP. The end-results of the process are a set of priority project lists.

The TPO's project prioritization process is consistent with the 2045 LRTP, state statute [S. 339.175(8)(b), F.S.], federal law [23 C.F.R. 450.332(b)] and [23 C.F.R. 450.326(n)(1)], and with local aviation master plans, public transit development plans, and approved local government comprehensive plans within the TPO planning area, to the maximum extent feasible [S. 339.175(8)(c)(7), F.S.].

A complete summary of the LOPP Policies and Procedures guidance document, including ranking and scoring methodology and the most up to date project lists are available on the TPO website (<https://ocalamariontpo.org/priority-project-list>).

5. PROJECTS

Overview

The FY 2026 to 2030 TIP projects are grouped into five categories. Projects with specific roadway locations are summarized in pages with corresponding inset maps to support a user-friendly format for the citizens of Marion County.

TIP Categories:

- **Highway-Roadway Projects:** State, City, County Roads and Highways (e.g., I-75, State Road 40, U.S. 41, NE 8th Avenue, County Road 42)
- **Bicycle-Pedestrian Projects:** Trails, and Sidewalks and Paths on City, County and State roadways
- **Aviation Projects:** Marion County Airport, Ocala International Airport
- **Transit Funding:** Marion Transit, SunTran grant funding
- **Maintenance-Planning:** Operations/maintenance contracts, planning grant funding, other facility improvements

Figure 12 on the next page displays a summary table of the acronyms used for various project phases/activities and the terms associated with the projects displayed in TIP summary pages. This chart may be used as a reference when reviewing project information in this section. Figure 13 provides a summary listing of all programmed projects by fiscal year and category for FY 2026 to 2030 (page 91).

Appendix G contains a summary of changes to major transportation projects from the previous Fiscal Years 2025 to 2029 TIP [23 C.F.R. 450.326(n)(2)]. **Appendix I** contains a companion “snapshot” listing of the TIP projects as submitted by FDOT to the TPO in April 2025.

Figure 12: Project Phase/Activity and Acronym List

Acronym	Project Phase Information
ADM	Administration
CAP	Capital Grant
CRT MTN	Contract Routine Maintenance
CST	Construction (includes Construction, Engineering, Inspection)
DES	Design
ENG	Engineering
ENV CON	Environmental/Conservation
INC	Construction Incentive/Bonus
MNT	Maintenance
MSC	Miscellaneous Construction
OPS	Operations
PD&E	Project Development & Environmental Study
PE	Preliminary Engineering
PLEMO	Planning and Environmental Office Study
PLN	In House Planning
PST DES	Post Design
R/R CST	Railroad Construction
RELOC	Relocation
ROW	Rights-of-Way Support & Acquisition
RRU	Railroad & Utilities
RT MNT	Routine Maintenance
UTIL	Utilities Construction

TIP Online Interactive Map

The FY 2026 to 2030 TIP online map provides project locations and general information including funding and total project cost. Projects with a specific location are included in the interactive map. The map may be accessed through the TPO website or directly at the following link: <https://marioncountyfl.maps.arcgis.com/apps/webappviewer/index.html?id=a1591413f8aa4cc7b2d78110c9b4e1a3>

Performance Management and TIP Projects

The following provides a summary of the programmed projects and SunTran transit program funding in the TIP that support meeting federally required performance measures specifically on the NHS and local transit system, including: Safety (PM1); Pavement and Bridge condition (PM2); System Performance (PM3); and Transit Asset Management and Safety. Safety projects include the entire federal aid transportation system. In some cases, a project may support meeting more than one federal performance measure.

Safety (PM1)

TIP project investments that support impacting Safety (PM1) performance measures include adding roundabouts, intersection improvements, traffic operation improvements, sidewalks/shared use paths and safety-specific projects. Because safety is inherent in many state and local projects, and the approach to achieve Target Zero and Vision Zero, the programming of projects in this TIP is anticipated to support progress towards achieving both FDOT and TPO safety targets. The following programmed projects support investments toward the improvement of safety on transportation facilities in Marion County.

FM Number	Project	Limits	TIP Funding	Improvement(s)
443624-3	I-75 Interchange Justification/Modification	I-75 at SR 326 Interchange	\$12,546,000	Interchange improvements
452074-1	I-75 Interchange	I-75 at SR 326 Interchange	\$1,055,000	Interchange improvements
452074-1	I-75	SR 200 to SR 326	\$20,886,098	Auxiliary Lanes
238648-1	SR 45 (US 41)	SW 110th Street to North of SR 40	\$112,358,984	Add Lanes, Shared Use Path
433660-1	US 441	at SR 464 (SE 17th Street)	\$4,537,846	Traffic Operations
410674-2	SR 40	End of 4 Lanes to East of CR 314	\$129,751,356	Add Lanes, Shared-use Path

FM Number	Project	Limits	TIP Funding	Improvement(s)
451251-1	SR 40	at SW 27th Avenue	\$1,822,492	Traffic Operations
450952-2	SR 40	US 441 to 25th Avenue	\$716,993	Intersection Enhancements
451253-1	SR 200	at SW 60th Avenue	\$1,161,885	Traffic Operations
451060-1	CR 42(1)	at CR 25	\$782,910	Traffic Operations
451060-2	CR 42(2)	at CR 25	\$125,185	Traffic Operations
454939-1	CR 475A	Paved shoulders	\$1,913,000	Safety Improvements
449443-1	NE 8th Avenue	Roundabouts	\$5,222,469	Traffic Operations
454940-1	SE 100th Avenue	Paved shoulders	\$1,257,000	Safety Improvements
453543-1	Bellevue to Greenway Trail (1)	SE 52nd Court to US 301/441/27	\$868,700	Shared Use Path
453543-2	Bellevue to Greenway Trail (2)	SE 52nd Court to US 301/441/27	\$265,000	Shared Use Path
439238-2	SR 25/500/US 441	SE 102nd Place to SR 200/SW 10th Street	\$5,240,567	Sidewalks, Path

Pavement and Bridge Condition (PM2)

The TIP contains significant project investments impacting Pavement and Bridge condition (PM2) on the NHS. The projects include pavement resurfacing, replacement or reconstruction of roadways, and new lanes or widening projects. The following programmed projects support investments toward the improvement of pavement and bridge condition and impacting PM2 targets on I-75 (Interstate) and non-Interstate NHS facilities in Marion County (next page).

FM Number	Project	Limits	TIP Funding	Improvement(s)
4520741	I-75	SR 200 to SR 326	\$20,886,098	Auxiliary Lanes, Resurfacing
238648-1	SR 45 (US 41)	SW 110th Street to North of SR 40	\$112,358,984	Add Lanes, Reconstruct
454214-1	SR 200 (US 441/301/27)	2nd Street to CR 200A/NW 20th Street	\$47,640,321	Resurfacing
452694-1	SR 35 (US 301)	Sumter County to CR 42	\$5,651,409	Resurfacing
454215-1	SR 35 (US 301)	SE 142nd Place to SR 500 (US 27/441)	\$15,252,300	Resurfacing
452635-1	SR 200 (US 301/441/27)	SW 10th Street to NW 4th Street	\$979,612	Resurfacing
450637-1	SR 500 (US 27/441)	North of SE 178th Pl to South of SE 62nd Ave	\$14,581,492	Resurfacing
410674-2	SR 40	End of 4 Lanes to East of CR 314	\$129,751,356	Add Lanes, Reconstruct
452636-1	SR 40	US 41 to South of SW 119th Avenue	\$13,539,220	Resurfacing
450665-1	SR 40	SW 80th Avenue to SW 52nd Avenue	\$11,170,365	Resurfacing
450951-1	SR 40	25th Avenue to NE 64th Avenue	\$9,300,934	Resurfacing
450952-1	SR 40	U.S. 441/301 (Pine Ave.) to 25th Avenue	\$5,564,910	Resurfacing
450948-1	SR 40	NE 64th Avenue to West of SE 196th Terr Rd.	\$9,006,247	Resurfacing
450948-2	SR 40	SE 196th Terr Road to Lake County Line	\$9,147,325	Resurfacing
452634-1	SR 464	SR 200 to SR 25/500 (US 301/441/27)	\$3,737,117	Resurfacing

System Performance (PM3)

The TIP also contains significant investments in projects impacting System Performance (PM3) on the NHS. Projects include operational improvements, intersection improvements, new facilities (e.g., interchange) and roadways. The following programmed projects support investments toward the improvement of system performance and impacting PM3 targets on I-75 (Interstate) and non-Interstate NHS facilities in Marion County (next page).

FM Number	Project	Limits	TIP Funding	Improvement(s)
435209-1	I-75 (SR 93)	I-75 at NW 49th New Interchange	\$21,318,210	Interchange, Roadways
443624-3	I-75 Interchange Justification/Modification	I-75 at SR 326 Interchange	\$12,546,000	Interchange improvements
452074-1	I-75 Interchange	I-75 at SR 326 Interchange	\$1,055,000	Interchange improvements
452074-1	I-75	SR 200 to SR 326	\$20,886,098	Auxiliary Lanes
238648-1	SR 45 (US 41)	SW 110th Street to North of SR 40	\$112,358,984	Add Lanes

TIP Project Summary Pages

Summary pages and/or tables are provided for all programmed projects and are organized by project category.

Summary Page Definitions

Project: Project name, project limits and location.

Project Type: Type of project improvement(s).

FM Number: The Financial Management (FM) number in FDOT's project tracking system.

Lead Agency: The agency with project management oversight.

LRTP (Page #): How the project meets 2045 LRTP goals and planning consistency, and page location in the Cost Feasible Plan.

SIS: Denotes if a project is on the state's Strategic Intermodal System (SIS) network.

Description: Summarizes the project and highlights major improvements to be implemented.

Prior <Year: The amount of funding programmed in years prior to the current five-year TIP period.

Future >Year: The amount of funding programmed in years beyond the current five-year TIP period.

Total Project Cost: Total project cost programmed, including prior year(s), current five-year and future year(s) funding.

Phase: The stage in project development for which funding is programmed.

Fund Category: The type of funding programmed by phase for the project.

Funding Source: The source of funding by phase for the project (Federal, State, Local).

Fiscal Year: The fiscal year(s) when funding is programmed for the project.

The following pages summarize the programmed projects in the FY 2026 to FY 2030 TIP.

Highway-Roadway Projects

Project: I-75 (SR 93) at NW 49th Street from end of NW 49th Street to end of NW 35th Street

Project Type: Interchange

FM Number: 4352091

Lead Agency: FDOT

Length: N/A

LRTP (Page #): LRTP Cost Feasible (pages 112-113) (Table 7.10)

SIS Status: Yes

Description

Construction of a new I-75 interchange at NW 49th Street to improve mobility, and address projected increases in freight traffic and regional economic development. The project also includes extending NW 49th Street from NW 44th Avenue to NW 35th Avenue, pedestrian accommodations and lighting.

Project: SR 25/500/US 441/ from SE 102nd Place to SR 200/SW 10th Street

Project Type: Sidewalks and Path

FM Number: 4392382

Lead Agency: FDOT

Length: 7.23 miles

LRTP (Page #): LRTP Multimodal Boxed Fund (pages 106-107) (Table 7.8)

SIS Status: No

Description

Addition of sidewalks and a shared use path on U.S. 441/301 to fill in existing gaps. Project provides a multimodal connection from Belleview to Ocala.

Total:					\$2,682,743
FY 2030 Total:					\$248,729,635
FY 2026 to 2030 Total:					\$553,926,280

6. APPENDIX

Appendix A: Glossary of Terms and Acronyms

Glossary of Terms and Acronyms

OCALA MARION
TRANSPORTATION
PLANNING
ORGANIZATION

March 2025

ACRYONYM	NAME	DESCRIPTION
3C	Continuing, Cooperative and Comprehensive	A Continuing, Cooperative and Comprehensive (3C) process is required for all Metropolitan Planning Organizations (MPO) to be eligible for Federal transportation funding.
AADT	Average Annual Daily Traffic	Average daily traffic on a roadway segment for all days of the week during a period of one year expressed in vehicles per day.
ACS	American Community Survey	The American Community Survey is an ongoing survey that provides vital information on a yearly basis about our nation and its people.
ADA	Americans with Disabilities Act	The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.
ATMS	Automated Traffic Management System	ATMS is used to improve the efficiency of the transportation network. ATMS utilizes data-analysis and communication technology to reduce congestion in real-time due to crashes and other traffic problems.
BCA	Benefit-Cost Analysis	A benchmark to evaluate and compare expected benefits and costs of a transportation project.
BEA	Bureau of Economic Analysis	Federal agency within the Department of Commerce that provides economic data and projections.
BLS	Bureau of Labor Statistics	Federal agency within the Department of Labor that tracks federal employment data.
BTS	Bureau of Transportation Statistics	The Bureau of Transportation Statistics was established as a statistical agency in 1992. The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 created BTS to administer data collection, analysis, and reporting and to ensure the most cost-effective use of transportation- monitoring resources.
CAAA	Clean Air Act Amendments of 1990	The original Clean Air Act was passed in 1963, but the national air pollution control program is actually based on the 1970 revision of the law. The Clean Air Act as amended in 1990 made major changes and contains the most far reaching revisions of the 1970 law.
CAC	Citizen Advisory Committee	The Citizens Advisory Committee (CAC) advises the TPO on local transportation issues based on the input of citizens they represent in the area. The TPO strives to keeps the composition of the CAC diverse in terms of geographic location and professions represented.
CFMPOA	Central Florida Metropolitan Planning Organization Alliance	A partnership of Transportation Planning Organizations in Central Florida created to provide transportation solutions throughout the region.
CFR	Code of Federal Regulations	The codification of the rules published in the Federal Register by the executive departments and agencies of the Federal Government. These are the administrative rules and regulations that clarify the impact of the United States Code (USC) or the law.

ACRYONYM	NAME	DESCRIPTION
CFRPM	Central Florida Regional Planning Model	Travel demand forecasting tool used by numerous planning agencies throughout central Florida.
CIP	Capital Improvement Program	The CIP is a multi-year schedule of programmed capital improvement projects, including cost estimates and budgeted by year. CIP documents are typically updates annually by a local government.
CMAQ	Congestion Mitigation and Air Quality Improvement Program	The CMAQ program funds transportation projects and programs in air quality non-attainment and maintenance areas that reduce traffic congestion and transportation related emissions (ozone, carbon monoxide, particulate matter, etc.).
CMP	Congestion Management Process	A systematic approach required in transportation management areas (TMAs) that provides for effective management and operation. Provides information on transportation system performance and finds alternative ways to alleviate congestion and enhance the mobility of people and goods, to levels that meet state and local needs.
COOP	Continuity of Operations Plan	The COOP outlines guidance to TPO Staff and Board Members to ensure all federal and state required essential functions continue to be performed in the event of an extended interruption of services due to a declared emergency or disaster.
CTC	Community Transportation Coordinator	Community Transportation Coordinators are businesses or county departments responsible for arrangement of transportation services delivered to the transportation disadvantaged. (Definition taken from Lee MPO - http://leempo.com/programs-products/transportation-disadvantaged/).
CTD	Commission for Transportation Disadvantaged	Created in 1989, the CTD was created to provide statewide policy guidance to Florida's Transportation Disadvantaged Program, which coordinates funds to provide older adults, persons with disabilities and people with limited access to employment, health care and educational opportunities (Definition taken from NCFRPC - http://www.ncfrpc.org/TD/td.html).
CTST	Community Traffic Safety Team	An organization created to inform the public about transportation safety issues. Major events conducted by the Marion County CTST include "Walk Your Child to School Day", a mock DUI scenario, and a Battle of the Belts competition.
DBE	Disadvantaged Business Enterprise	The DBE program ensures that federally-assisted contracts for transportation projects are made available for small businesses owned/ controlled by socially and economically disadvantaged individuals (Definition taken from FHWA - https://www.fhwa.dot.gov/civilrights/programs/dbe/).
DOPA	Designated Official Planning Agency	An agency that assists the Florida Commission for the Transportation Disadvantaged (CTD) in the coordination of safe, efficient, cost effective transportation services to those who are transportation disadvantaged. (Definition taken from CTD - https://ctd.fdot.gov/communitytransystem.htm)
DRI	Development of Regional Impact	A large-scale development project that may impact multiple counties or jurisdictions

ACRYONYM	NAME	DESCRIPTION
EIS	Environmental Impact Statement	Report developed as part of the National Environmental Policy Act requirements, which details any adverse economic, social, and environmental effects of a proposed transportation project for which Federal funding is part of the project.
EPA	Environmental Protection Agency	The federal regulatory agency responsible for administering and enforcing federal environmental laws, including the Clean Air Act, the Clean Water Act, the Endangered Species Act, and others.
ETDM	Efficient Transportation Decision Making	Developed by the Florida Department of Transportation (FDOT) to streamline the environmental review process, ETDM helps protect natural resources by involving stakeholders early in the transportation planning process. Specifically, ETDM is used to identify the impacts may occur from planned transportation projects.
FAA	Federal Aviation Administration	FAA provides a safe, secure, and efficient global aerospace system that contributes to national security and the promotion of US aerospace safety.
FAST Act	Fixing America's Surface Transportation Act	The Fixing America's Surface Transportation (FAST) Act is five-year legislation that was enacted into law on December 4, 2015. The main focus of the legislation is to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network.
FDOT	Florida Department of Transportation	Originally named the Florida State Road Department, the Florida Department of Transportation (FDOT) was created in 1969. FDOT's mission is to ensure the mobility of people and goods, enhance economic prosperity, and preserve the quality of the environment and community (Definition taken from State of Florida- https://jobs.myflorida.com/go/ Department-of-Transportation/2817700/).
FHWA	Federal Highway Administration	A branch of the U.S. Department of Transportation that administers the federal-aid highway program, providing financial assistance to states to construct and improve highways, urban and rural roads, and bridges.
FMTP	Freight Mobility and Trade Plan	FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development into the future.
FSUTMS	Florida Standard Urban Transportation Modeling Structure	FSUTMS is a computerized planning model that allows users to better predict the impact of transportation policies and programs by providing a standardized framework for the development, use and sharing of models.
FTA	Federal Transit Administration	A branch of the U.S. Department of Transportation that administers federal funding to transportation authorities, local governments, and states to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.
FTP	Florida Transportation Plan	Florida's long-range plan that guides current transportation decisions. The plan outlines transportation issues and solutions related to improving safety, efficiency, population growth, economic development, and access to transit and other modes of transportation.

ACRYONYM	NAME	DESCRIPTION
FY	Fiscal Year/ Federal Fiscal Year	The TPO's Fiscal Year is from July 1 to June 30. The Federal Fiscal Year is from October 1 to September 30.
GIS	Geographic Information System	Computerized data management system designed to capture, store, retrieve, analyze, and display geographically referenced information.
HOV	High-Occupancy Vehicle	Vehicles carrying two or more people.
HSIP	Highway Safety Improvement Program	The goal of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.
HUD	Department of Housing and Urban Development	HUD's mission is to increase homeownership, support community development and increase access to affordable housing free from discrimination. HUD's Community Development Block Grant Program (CDBG) is a program with many resources that are used to help address a wide array of community development needs, including sidewalks and other transportation infrastructure.
IIJA	Infrastructure Investment and Jobs Act	Commonly referred to as the Bipartisan Infrastructure Bill, IIJA was signed into law by President Biden on November 15, 2021. IIJA includes \$550 billion in new funding for transportation infrastructure. IIJA authorizes \$1.2 trillion in total spending.
IRI	International Roughness Index	International Roughness Index (IRI) is used by transportation professionals around the world as a standard to quantify road surface roughness. IRI is highly useful for assessing overall roadway pavement ride quality; a higher IRI value indicates a rougher road surface.
ITS	Intelligent Transportation Systems	Electronics, photonics, communications, or information processing to improve the efficiency or safety of the surface transportation system.
LOS	Level of Service	Level of Service (LOS) is a term that describes the operating conditions a driver, transit users, bicyclist, or pedestrian will experience while traveling on a particular street, highway or transit vehicle. LOS is used in transportation planning as a data friendly tool to help aid in the decision making process regarding road capacity. LOS data allows planners to make more informed decisions regarding transportation projects.
LOPP	List of Priority Projects	The List of Priority Projects (LOPP) is a formalized list developed each year by the TPO in collaboration with local government partners, and as required by state statute. The LOPP contains the highest priorities for future transportation projects and investments to receive consideration for federal and state funding.
L RTP/MTP	Long-Range Transportation Plan (or Metropolitan Transportation Plan)	A document that serves as the defining vision for the region's transportation systems and services. The L RTP addresses a planning horizon of no less than a 20-years and is developed, adopted, and updated every five years by the TPO. The most recent L RTP was adopted in December 2015. The plan can be viewed on the TPO website at: https://ocalamariantpo.org/plans-and-programs/long-range-transportation-plan-lrtp/ .

ACRYONYM	NAME	DESCRIPTION
LOTTR	Level of Travel Time Reliability	The Level of Travel Time Reliability (LOTTR) is the ratio of the 80th percentile travel time to the normal travel time (50th percentile) throughout a full calendar year. Data for this measure is derived from the FHWA National Performance Management Research Data set (NPMRDS).
MAP-21	Moving Ahead for Progress in the 21st Century	The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141), was signed into law in 2012. Funding surface transportation programs at over 105 billion for fiscal years (FY) 2013 and 2014, MAP-21 is the first long-term highway authorization enacted since 2005. MAP-21 creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991.
MPA	Metropolitan Planning Area	The geographic area determined by agreement between the transportation planning organization (TPO) for the area and the Governor, in which the metropolitan transportation planning process is carried out.
MPO	Metropolitan Planning Organization	An MPO, also known as a TPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated as an MPO, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
MPOAC	Metropolitan Planning Organization Advisory Council	A planning and policy organization created to assist individual MPO/TPOs across Florida in building a more collaborative transportation planning process.
MSA	Metropolitan Statistical Area	A Core Based Statistical Areas associated with at least one urbanized area that has a population of at least 50,000. The metropolitan statistical area comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.
NTD	National Transit Database	The National Transit Database (NTD) is the repository of data for the financial, operating and asset conditions of the nation's transit systems.
NEPA	National Environmental Policy Act of 1969	Established requirements that any project using federal funding or requiring federal approval, including transportation projects, examine the effects of proposed and alternative choices on the environment before a federal decision is made.
NHPP	National Highway Performance Program	The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS.
NHPP (Bridge)	National Highway Performance Program (Bridge)	Reconstruction, resurfacing, restoration, rehabilitation, or preservation of a bridge on a non-NHS Federal-aid highway (if Interstate System and NHS Bridge Condition provision requirements are satisfied) [23 U.S.C. 119(i)].
NHS	National Highway System	This system of highways designated and approved in accordance with the provisions of 23 U.S.C. 103(b) (23CFR500).

ACRYONYM	NAME	DESCRIPTION
PD&E	Project Development and Environmental Study	A study conducted to determine feasible building alternatives for transportation projects and their social, economic and environmental impacts. PD&E studies are required per the National Environmental Policy Act (NEPA). (Definition taken from FDOT, District 7 - https://www.fdotd7studies.com/what-is-a-pde-study.html).
PEA	Planning Emphasis Area	Planning Emphasis Areas set planning priorities that are supportive of the statewide Florida Transportation Plan (FTP), and give importance to topics that all MPOs are encouraged to address in their respective planning programs.
PM	Performance Management	Performance Management (PM) serves as federally required strategic approach that uses system data and information guide investment and policies to achieve national goals.
PPP	Public Participation Plan	The Public Participation Plan documents the goals, objectives and strategies for ensuring all individuals have every opportunity to be involved in transportation planning decisions. The plan is designed to provide a transparent planning process that is free from any cultural, social, racial or economic barriers and offers multiple opportunities for public participation and input.
PTASP	Public Transportation Agency Safety Action Plan	A plan that is developed by transit agencies to identify responsibilities for safety and day to day implementation of a safety management system.
RPC	Regional Planning Council	Organizations designated by Florida law to provide planning and technical expertise to local governments in order to promote regional collaboration.
SHSP	Strategic Highway Safety Plan	This is a statewide and coordinated safety plan that provides a comprehensive framework for eliminating highway fatalities and reducing serious injuries on all public roads.
SIS	Strategic Intermodal System	A network of transportation facilities important to the state's economy and mobility. The SIS was created to focus the state's limited resources on the facilities most significant for interregional, interstate and international travel (Definition taken from FDOT - https://www.fdot.gov/planning/sis/default.shtm).
SOV	Single-Occupancy Vehicle	Any motor vehicle operated or driven by a single person.
STBG	Surface Transportation Block Grant Program	The STBG federal funding promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
STIP	Statewide Transportation Improvement Program	The STIP is a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
STP	Surface Transportation Program	Federal-aid highway funding program that supports a broad range of surface transportation capital needs, including many roads, transit, sea and airport access, vanpool, bike, and pedestrian facilities.

ACRYONYM	NAME	DESCRIPTION
TAC	Technical Advisory Committee	The Technical Advisory Committee provides technical expertise to the TPO by reviewing transportation plans, programs and projects primarily from a technical standpoint. The TAC is comprised of professional planners, engineers, and other state and local professionals.
TAMP	Transportation Asset Management Plan	The TAMP outlines the process for effectively operating, maintaining and improving the physical transportation assets in Florida (e.g., roads, bridges, culverts).
TAZ	Traffic Analysis Zone	A defined geographic area used to tabulate traffic-related land use data and forecast travel demand. Traffic Analysis Zones typically consist of one or more Census blocks/tracts or block groups.
TD	Transportation Disadvantaged	Transportation Disadvantaged includes individuals with physical and economic challenges and senior citizens facing mobility issues.
TDLCB	Transportation Disadvantaged Local Coordinating Board	The TDLCB coordinates transportation needs of the disadvantaged, including individuals with physical and economic challenges and senior citizens facing mobility issues. The Board helps the TPO identify local service needs of the Transportation Disadvantaged (TD) community to the Community Transportation Coordinator (CTC).
TDM	Transportation Demand Management	Programs designed to reduce demand for transportation through various means, such as the use of public transit and of alternative work hours.
TDP	Transit Development Plan	The Transit Development Plan (TDP) represents the community's vision for public transportation in the Ocala Marion TPO service area for a 10- year span. Updated every five years, the Plan provides a comprehensive assessment of transit services in Marion County. Specifically, the TDP details SunTran's transit and mobility needs, cost and revenue projections, and community transit goals, objectives, and policies.
TDSP	Transportation Disadvantaged Service Plan	The TDSP is a tactical plan outlining the services provided to the transportation disadvantaged population served by the Community Transportation Coordinator (Marion Transit). The TDSP is update every year, and also undergoes a major update every five years by the TPO.
TIP	Transportation Improvement Program	A TIP is a prioritized listing/program of transportation projects covering a period of five years that is developed and formally adopted by a TPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
TMA	Transportation Management Area	An urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the TPO (or affected local officials), and officially designated by the Administrators of the FHWA and FTA. The TMA designation applies to the entire metropolitan planning area.
TMIP	Travel Model Improvement Program	TMIP supports and empowers planning agencies through leadership, innovation and support of planning analysis improvements to provide better information to support transportation and planning decisions.

ACRYONYM	NAME	DESCRIPTION
TOD	Transit Oriented Development	Transit-oriented development, or TOD, is a type of community development that includes a mixture of housing, office, retail and/or other amenities integrated into a walkable neighborhood and located within a half-mile of quality public transportation (Definition taken from Reconnecting America-www.reconnectingamerica.org).
TPM	Transportation Performance Management	FHWA defines Transportation Performance Management as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.
TPO	Transportation Planning Organization	A TPO, also known as an MPO, is a forum for cooperative transportation decision-making for metropolitan planning areas. In order for a TPO to be designated, an urban area must have a population of at least 50,000 as defined by the US Census Bureau.
TRB	Transportation Research Board	The mission of the Transportation Research Board (TRB) is to promote innovation and progress in transportation through research.
TRIP	Transportation Regional Incentive Program	Created in 2005, the program provides state matching funds to improve regionally significant transportation facilities.
TTTR	Truck Travel Time Reliability Index	The Truck Travel Time Reliability Index (TTTR) is defined as the ratio of longer truck travel times (95th percentile) compared to normal truck travel times (50th percentile) on the interstate system.
UA	Urban Area	A statistical geographic entity delineated by the Census Bureau, consisting of densely settled census tracts and blocks and adjacent densely settled territory that together contain at least 50,000 people.
ULB	Useful Life Benchmark	The expected lifecycle or the acceptable period of use in service for a transit capital asset, as determined by the transit agency or by a default benchmark provided by the Federal Transit Administration.
UPWP	Unified Planning Work Program	UPWP means a Scope of Services identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.
USC	United States Code	The codification by subject matter of the general and permanent laws of United States.
USDOT	United States Department of Transportation	When used alone, indicates the U.S. Department of Transportation. In conjunction with a place name, indicates state, city, or county transportation agency.
YOE	Year of Expenditure	The current dollar in the year (adjusted for inflation) during which an expenditure is made or benefit realized, such as a project being constructed.
VMT	Vehicle Miles Traveled	A measurement of miles traveled by vehicles within a specified region for a specified time period (Definition taken from Wikipedia).

Appendix C: Transportation Performance Management

Transportation Performance Management

January 2024

OVERVIEW

This document highlights key target setting provisions of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) performance management requirements for state Departments of Transportation (DOT), Metropolitan Planning Organizations (MPO), and public transportation providers.*

TRANSPORTATION PERFORMANCE MANAGEMENT FRAMEWORK

Federal transportation law requires state DOTs and MPOs to implement Transportation Performance Management (TPM), a strategic approach to making investment and policy decisions to achieve performance goals. TPM uses past performance levels and

forecasted conditions to measure progress toward strategic goals as a means to guide investments.

Three FHWA Performance Measures (PM) rules and two FTA transit rules establish various performance measures to assess highway safety (PM1), bridge and pavement condition (PM2), system performance and freight movement (PM3), transit asset management (TAM), and transit safety. The FHWA and FTA Planning Rule and the performance measures rules also specify how MPOs should set targets, report performance, and integrate performance management into their Long Range Transportation Plans (LRTP) and Transportation Improvement Programs (TIP).*

Long Range Transportation Plans

The LRTP must:

- » Describe performance measures and targets used in assessing the performance of the transportation system.
- » Include a System Performance Report that:
 - Evaluates the performance of the transportation system with respect to performance targets.
 - Documents the progress achieved by the MPO in meeting the targets.
- » Integrate the goals, objectives, performance measures, and targets described in other plans and processes required as part of a performance-based program.

Transportation Improvement Programs

The TIP must:

- » Reflect the investment priorities established in the LRTP.
- » Be designed such that once implemented, it makes progress toward achieving the performance targets.
- » Include a description of the anticipated effect of the TIP toward achieving the performance targets, linking investment priorities to performance targets.

FDOT and the Metropolitan Planning Organization Advisory Council (MPOAC) have developed model language for inclusion of performance measures and targets in LRTPs and TIPs

*Please refer to the five accompanying fact sheets to obtain key information for the three FHWA performance measures rules and two FTA transit rules.

TIMELINE FOR MPO ACTIONS

PM1

BY FEBRUARY 27 (ANNUALLY)
MPOs must establish safety (PM1) targets for the current calendar year (180 days after FDOT establishes targets).

BY AUGUST 31 (ANNUALLY)
FDOT Safety Office establishes targets for the next calendar year in its Highway Safety Improvement Program (HSIP) annual report to FHWA.

● FDOT
■ MPOs

PM2 & PM3

BY OCTOBER 1, 2024
Mid Performance Period Report due: Includes 2023 performance and progress towards achieving 2023 targets. FDOT may adjust the 2025 targets.

BY MARCH 30, 2025
MPOs may update 2025 targets if FDOT adjusts its 2025 targets.

TIMEFRAME

TRANSIT ASSET MANAGEMENT AND TRANSIT SAFETY

PUBLIC TRANSPORTATION PROVIDERS

TAM

- Update TAM Plan/Group TAM Plan every 4 years
- Update TAM targets annually

Transit Safety

- Update safety targets annually

MPOs

- Update MPO transit targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current targets in each updated TIP

TARGET SETTING OPTIONS

The Florida Department of Transportation (FDOT), the MPOs, and public transportation providers set their respective performance targets in coordination with one another. All MPOs establish a target for each applicable performance measure by one of two options:

Support the target established by FDOT or the public transportation provider(s).

The MPO agrees to plan and program projects so that they contribute toward the accomplishment of the state or public transportation provider(s) target.

OR

Establish own target.

The MPO coordinates with FDOT or the public transportation provider(s) regarding the methodology used to develop the target and the proposed target prior to establishing a final target.

For the **PM1, PM2, and PM3 measures**, MPOs must establish their targets no later than 180 days after FDOT sets its targets. For the **transit asset management and safety measures**, MPOs are not required to establish transit targets annually each time the public transportation provider(s) establishes targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) targets in the updated TIP.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

Regina Colson, Transportation Performance Measures Coordinator

Florida Department of Transportation | Regina.Colson@dot.state.fl.us | (850) 414-5271

PM1: Safety (All Public Roads)

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The first of Federal Highway Administration's (FHWA) performance management rules establishes measures to assess safety on all public roads and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their safety targets.*

PERFORMANCE MEASURES – APPLICABLE TO ALL PUBLIC ROADS

NUMBER OF FATALITIES	<i>The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.</i>	RATE OF SERIOUS INJURIES	<i>The total number of serious injuries per 100 million VMT in a calendar year.</i>
RATE OF FATALITIES	<i>The total number of fatalities per 100 million vehicle miles traveled (VMT) in a calendar year.</i>	NUMBER OF NON-MOTORIZED FATALITIES AND NON-MOTORIZED SERIOUS INJURIES	<i>The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year.</i>
NUMBER OF SERIOUS INJURIES	<i>The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.</i>		

TIMELINE

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

ANNUAL FATALITIES

ANNUAL SERIOUS INJURIES

FATALITY RATE (PER HUNDRED MILLION VMT)

SERIOUS INJURY RATE (PER HUNDRED MILLION VMT)

NUMBER OF NON-MOTORIZED FATALITIES AND SERIOUS INJURIES

This is the current data available.

Source: FLHSMV, 2022.

STATEWIDE TARGETS

FDOT establishes statewide safety targets for the following calendar year as part of the [HSIP Annual Report](#), which must be submitted by August 31 each year.

Given FDOT's firm belief that every life counts, the target set for all safety performance measures is ZERO.

MPO TARGETS

MPOs must set targets by February 27 of each year (within 180 days after FDOT sets targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

MPOs must include the most recent reported performance and targets with each TIP update. The TIP must describe how the investments contribute to achieving the performance targets. The LRTP must include a System Performance Report that discusses the performance of the transportation system and progress achieved in meeting the targets over time.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four of the five safety targets are met or the actual outcome is better than baseline performance. Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users.

As requested by FHWA, FDOT annually develops an [HSIP Implementation Plan](#) to highlight strategies it will undertake in support of these targets. MPOs are encouraged to review this Plan each year to identify strategies appropriate for their planning area.

FHWA will not assess MPO target achievement. However, FHWA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

PM2: Bridge and Pavement

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The second Federal Highway Administration (FHWA) performance management rule establishes measures to assess the condition of bridges and pavement on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report targets.*

PAVEMENT PERFORMANCE MEASURES

- » Percentage of pavements on the Interstate System in **GOOD** condition.
- » Percentage of pavements on the Interstate System in **POOR** condition.
- » Percentage of pavements on the non-Interstate NHS in **GOOD** condition.
- » Percentage of pavements on the non-Interstate NHS in **POOR** condition.

GOOD CONDITION

Suggests no major investment is needed.

BRIDGE PERFORMANCE MEASURES

- » Percentage of NHS bridges (by deck area) in **GOOD** condition.
- » Percentage of NHS bridges (by deck area) in **POOR** condition.

POOR CONDITION

Suggests major investment is needed.

TIMELINE

SECOND Performance Period (January 1, 2022 to December 31, 2025)

BY OCTOBER 1, 2024

Mid Performance Period Report due: Includes 2023 performance and progress towards achieving 2023 targets. FDOT may adjust the 2025 targets.

BY MARCH 30, 2025

MPOs may update 2025 targets if FDOT adjusts its 2025 targets.

2024

2025

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

NHS Bridges

Year	in Good Condition	in Poor Condition
2018	66.8%	1.2%
2019	65.5%	0.5%
2020	63.7%	0.7%
2021 (Baseline)	61.5%	0.9%
2022	58.2%	0.6%

Interstate Pavements

Year	in Good Condition	in Poor Condition
2018	53.7%	0.6%
2019	68.5%	0.2%
2020	68.8%	0.6%
2021 (Baseline)	70.5%	0.3%
2022	73.4%	0.2%

Non-Interstate NHS Pavements

Year	in Good Condition	in Poor Condition
2018	40.1%	0.4%
2019	41.0%	0.2%
2020	N/A	N/A
2021 (Baseline)	47.5%	0.6%
2022	48.8%	0.6%

Source: FDOT and FHWA.

STATEWIDE TARGETS

FDOT established 2023 and 2025 targets for NHS bridge and pavement on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

Performance Measure	2023 Target	2025 Target
Bridge		
% of NHS bridges (by deck area) in GOOD condition	50.0%	50.0%
% of NHS bridges (by deck area) in POOR condition	10.0%	10.0%
Pavement		
% of Interstate pavements in GOOD condition	60.0%	60.0%
% of Interstate pavements in POOR condition	5.0%	5.0%
% of non-Interstate NHS pavements in GOOD condition	40.0%	40.0%
% of non-Interstate NHS pavements in POOR condition	5.0%	5.0%

MPO TARGETS

MPOs set their 2025 targets in June 2023 (180 days after FDOT set the statewide targets). MPOs may update their 2025 targets if FDOT adjusts its 2025 targets.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine if FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- » The actual condition/performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA determined that FDOT made significant progress toward its 2021 PM2 targets; FHWA's assessment toward the 2023 targets is anticipated to be provided in 2024.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

MINIMUM CONDITIONS

Every year, FHWA will assess if FDOT is meeting federal minimum condition standards for NHS bridges and Interstate pavements. If it is not, FDOT must obligate a specified percentage of available funds for maintenance of these facilities.

FDOT IS ON TRACK TO MEET MINIMUM CONDITION STANDARDS

- » **Bridge:** No more than 10 percent of total deck area of NHS bridges classified as Structurally Deficient (Poor condition) for three consecutive years. ✓
- » **Pavement:** No more than 5 percent of the Interstate System in Poor condition for most recent year. ✓

Regina Colson, Transportation Performance Measures Coordinator

Florida Department of Transportation | Regina.Colson@dot.state.fl.us | (850) 414-5271

PM3: System Performance

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The third Federal Highway Administration (FHWA) performance management rule establishes measures to assess the reliability of passenger and truck freight travel on the National Highway System (NHS) and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their targets.*

PERFORMANCE MEASURES

PERFORMANCE MEASURE	REFERRED TO AS	WHAT IT MEASURES
Percent of person-miles traveled on the Interstate that are reliable	Interstate reliability	Compares longer travel times (80 th percentile) to a normal travel time (50 th percentile). Vehicle occupancy is factored in to determine the person-miles traveled on segments considered reliable, and this is converted to a percent of total miles.
Percent of person-miles traveled on the non-Interstate NHS that are reliable	Non-Interstate NHS reliability	
Truck travel time reliability index (Interstate)	Truck reliability	Compares longer travel times (95 th percentile) to the normal travel time for trucks. This is expressed as a ratio called the Truck Travel Time Reliability Index, or TTTR.

The PM3 rule also defines measures for assessing the CMAQ Program that apply only to states and MPOs that are in a designated air quality non attainment areas or maintenance areas. Florida does not have any applicable areas, therefore the CMAQ measures are not addressed in this fact sheet.

TIMELINE

SECOND Performance Period (January 1, 2022 to December 31, 2025)

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

EXISTING STATEWIDE CONDITIONS

INTERSTATE RELIABILITY

Percent of person-miles traveled on the Interstate that are reliable

NON-INTERSTATE NHS RELIABILITY

Percent of person-miles traveled on the non-Interstate NHS that are reliable

TRUCK RELIABILITY

Truck travel time reliability index (Interstate)

Source: PM3 Report on Regional Integrated Transportation Information System (RITIS) platform using National Performance Management Data Research Data Set (NPMRDS).

STATEWIDE TARGETS

FDOT established the following 2023 and 2025 targets on December 16, 2022. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets.

PERFORMANCE MEASURE	2023 TARGET	2025 TARGET
INTERSTATE RELIABILITY	75.0%	70.0%
NON-INTERSTATE NHS RELIABILITY	50.0%	50.0%
TRUCK RELIABILITY	1.75	2.00

MPO TARGETS

MPOs set their 2025 targets in June 2023 (180 days after FDOT set the statewide targets). MPOs may update their 2025 targets if FDOT adjusts its 2025 targets.

The TIP must include the most recent reported performance and targets as well as a description of how the investments contribute to achieving the targets. The LRTP must include a System Performance Report that discusses performance and the progress achieved in meeting targets.

ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA will determine that FDOT has made significant progress toward the achievement of each 2-year or 4-year statewide target if either:

- » The actual performance level is better than the baseline performance; or
- » The actual performance level is equal to or better than the established target.

FHWA's determination of significant progress toward the 2023 interstate reliability and truck reliability targets is anticipated to be provided in 2024. If FDOT does not make significant progress toward achieving a reliability target, it must document the actions it will take to achieve the target. For the truck reliability measure, it must provide additional freight congestion analysis and documentation.

FHWA will not assess MPO target achievement. However, FHWA and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

Florida Department of Transportation | Regina.Colson@dot.state.fl.us | (850) 414-5271

ASSET MANAGEMENT

Public Transit

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The Federal Transit Administration (FTA) Transit Asset Management rule applies to all recipients and subrecipients of federal transit funding that own, operate, or manage public transportation capital assets. The rule defines State of Good Repair (SGR) performance measures and establishes requirements for Transit Asset Management (TAM) Plans and performance targets. This fact sheet describes these requirements and the role of the Metropolitan Planning Organizations (MPO) under this rule.*

STATE OF GOOD REPAIR PERFORMANCE MEASURES

Transit Asset Categories and TAM Performance Measures

FTA ASSET CATEGORIES	PERFORMANCE MEASURES
EQUIPMENT Non-revenue support-service and maintenance vehicles	Percentage of non-revenue vehicles that have met or exceeded their useful life benchmark (ULB)
ROLLING STOCK Revenue vehicles	Percentage of revenue vehicles that have met or exceeded their ULB
INFRASTRUCTURE Rail fixed-guideway track	Percentage of track segments (by mode) with performance restrictions
FACILITIES Buildings and structures	Percentage of facilities rated below condition 3 on the Transit Economic Requirement Model (TERM) scale

“State of good repair” is defined as the condition in which a capital asset is able to operate at a full level of performance. This means the asset:

1. Is able to perform its designed function.
2. Does not pose a known unacceptable safety risk.
3. Lifecycle investment needs have been met or recovered.

Public transportation providers are required to report transit asset performance measures and targets annually to the National Transit Database (NTD).

TIMEFRAME

PUBLIC TRANSPORTATION PROVIDERS

- Update TAM Plan/Group TAM Plan every 4 years
- Update TAM targets annually

MPOs

- Update MPO TAM targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current TAM targets in each updated TIP

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

TAM PLAN

Tier I versus Tier II Agencies

The rule makes a distinction between Tier I and Tier II public transportation providers and establishes different requirements for them.

TIER I

Operates rail

OR

≥ 101 vehicles across all fixed route modes

OR

≥ 101 vehicles in one non-fixed route mode

TIER II

Subrecipient of 5311 funds

OR

American Indian Tribe

OR

≤ 100 vehicles across all fixed route modes

OR

≤ 100 vehicles in one non-fixed route mode

Required Elements of Provider TAM Plans

1. Inventory of Capital Assets

2. Condition Assessment

3. Decision Support Tools

4. Investment Prioritization

**TIERS I
AND II**

5. TAM and SGR Policy

6. Implementation Strategy

7. List of Key Annual Activities

8. Identification of Resources

9. Evaluation Plan

**TIER I
ONLY**

A **TIER I** public transportation provider must develop its own TAM Plan. The Tier I public transportation provider must make the TAM plan, annual targets, and supporting materials available to the state DOTs and MPOs that provide funding to the provider.

A **TIER II** public transportation provider may develop its own plan or participate in a group TAM plan, which is compiled by a group TAM plan sponsor. Group plan sponsors must make the group plan, targets, and supporting materials available to the state DOTs and MPOs that program projects for any participants of the group plan.

The Florida Department of Transportation (FDOT) developed a group plan for all subrecipients in 2022 that includes collective TAM targets for the participating providers. Participants in FDOT's Group TAM Plan primarily operate in areas of the state that are not served by an MPO.

MPO AND PUBLIC TRANSPORTATION PROVIDER COORDINATION

- » Each public transportation provider or its sponsor must share its targets with each MPO in which the public transportation provider operates services.
- » MPOs are not required to establish transit asset management targets each time the public transportation provider(s) establishes annual targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) TAM targets in the updated TIP.
- » When establishing transit asset management targets, the MPO can either agree to program projects that will support the public transportation provider(s) targets, or establish its own separate regional targets for the MPO planning area. MPO targets may differ from the public transportation provider(s) targets, especially if there are multiple public transportation providers in the MPO planning area.
- » MPOs are required to coordinate with the public transportation provider(s) and group plan sponsors when selecting targets.
- » FTA will not assess MPO progress toward achieving transit targets. However, Federal Highway Administration (FHWA) and FTA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

FOR MORE INFORMATION PLEASE CONTACT

Regina Colson, Transportation Performance Measures Coordinator

Florida Department of Transportation | Regina.Colson@dot.state.fl.us | (850) 414-5271

SAFETY

Public Transit

Florida Department of Transportation Forecasting & Trends Office

Performance Management

January 2024

OVERVIEW

The Federal Transit Administration (FTA) Public Transportation Agency Safety Plan (PTASP) rule established transit safety performance management requirements for certain providers of public transportation that receive federal financial assistance. This fact sheet describes these requirements and the role of Metropolitan Planning Organizations (MPO) under this rule.*

PUBLIC TRANSPORTATION AGENCY SAFETY PLANS (PTASP)

Federal Rule Applicability

Recipients and Sub-recipients of FTA 5307 funds

The rule applies to recipients and sub-recipients of FTA 5307 funds that operate a public transportation system and to operators of rail transit systems subject to FTA's State Safety Oversight Program.

The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the U.S. Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

Small public transportation providers without rail and with fewer than 101 revenue vehicles in operation during peak service may complete their own plan or have their plan drafted or certified by their state DOT.

PUBLIC TRANSPORTATION SAFETY PERFORMANCE MEASURES

FATALITIES	<i>Total number of reportable fatalities and rate per total vehicle revenue miles by mode.</i>
INJURIES	<i>Total number of reportable injuries and rate per total vehicle revenue miles by mode.</i>
SAFETY EVENTS	<i>Total number of reportable events and rate per total vehicle revenue miles by mode.</i>
SYSTEM RELIABILITY	<i>Mean distance between major mechanical failures by mode.</i>

TIMEFRAME

PUBLIC TRANSPORTATION PROVIDERS

- Update safety targets annually

MPOs

- Update MPO safety targets with every LRTP update
- Reflect MPO targets and public transportation provider(s) current safety targets in each updated TIP

* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

RELATIONSHIP OF PTASP TO FLORIDA REQUIREMENTS

Florida requires each Section 5307 and/or 5311 public transportation provider to have an adopted System Safety Program Plan (SSPP) (Chapter 14-90, Florida Administrative Code). Because Section 5307 public transportation providers in Florida must already have a SSPP, FDOT recommends that public transportation providers revise their existing SSPPs to be compliant with the FTA PTASP requirements.

FDOT has issued guidance to public transportation providers to assist them with revising existing SSPPs to be compliant with the FTA PTASP requirements.

While the PTASP rule requires public transportation providers to establish safety performance targets, the SSPP does not.

REQUIREMENTS

TRANSIT SAFETY TARGET COORDINATION BETWEEN FDOT, MPOS, AND PUBLIC TRANSPORTATION PROVIDERS

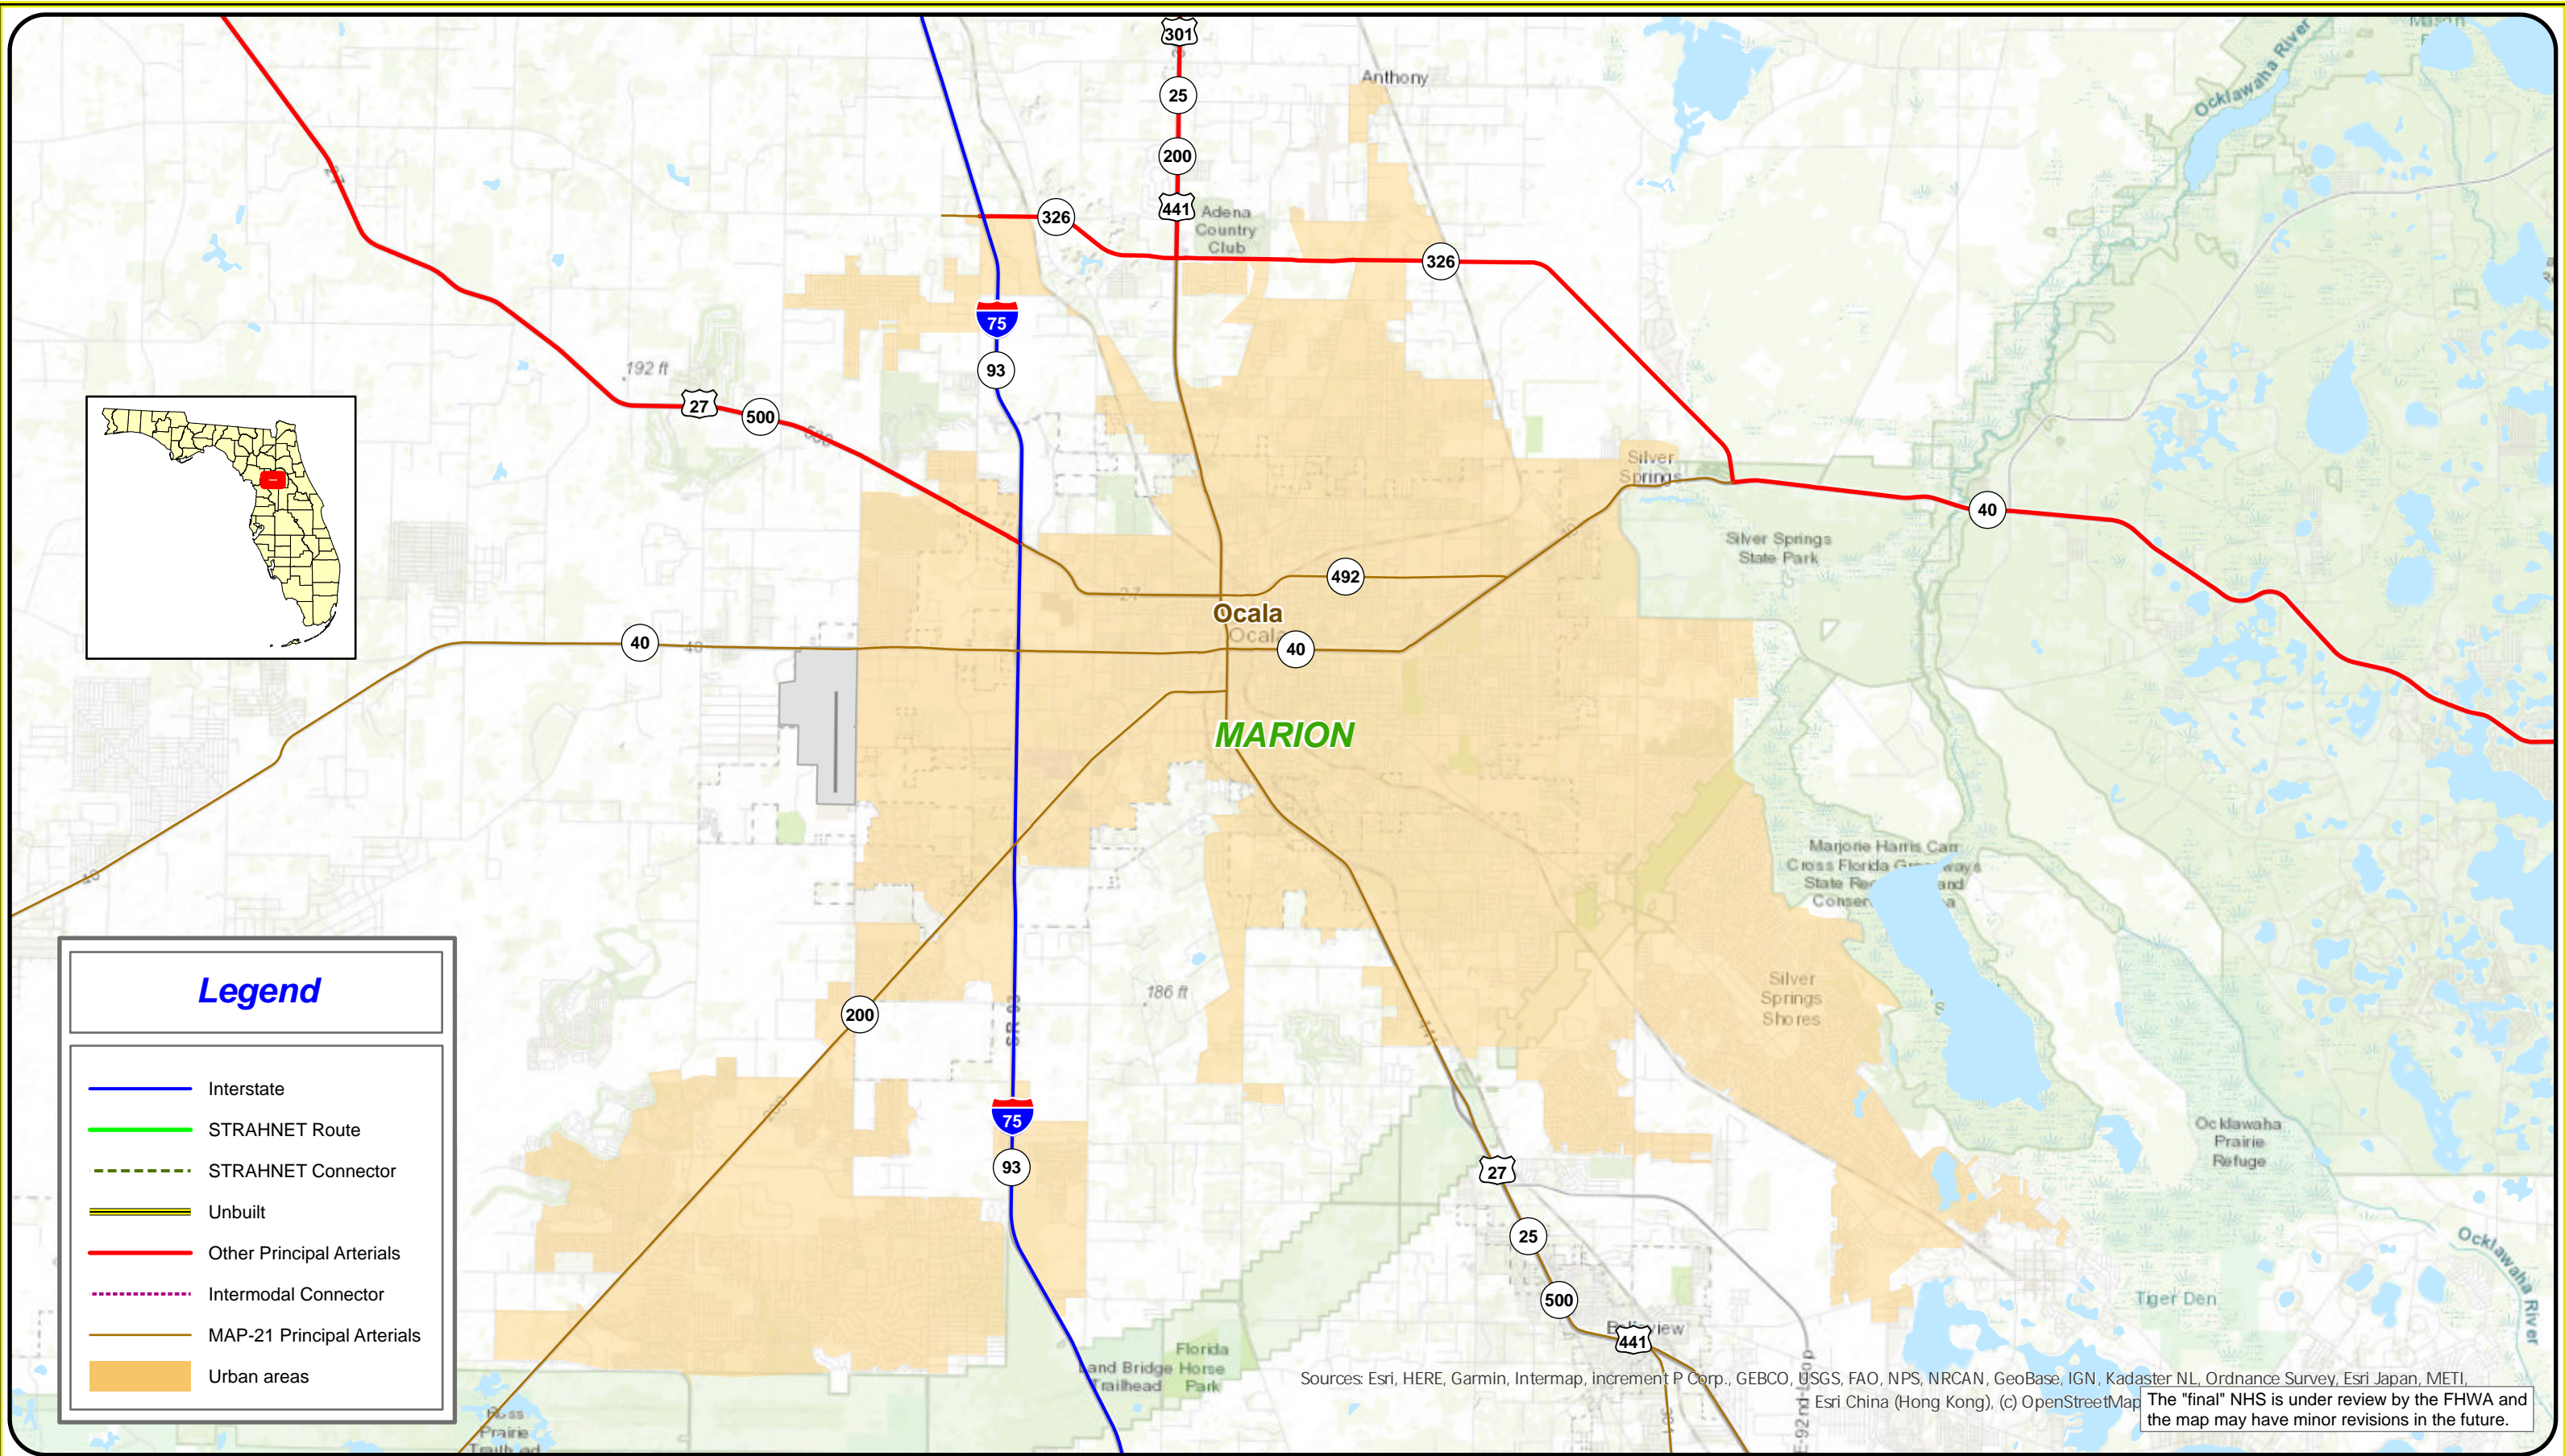

- » Public transportation providers that annually draft and certify a PTASP and transit safety targets must make the PTASP and underlying safety performance data available to FDOT and the MPOs to aid in the planning process.
- » MPOs are not required to establish transit safety targets annually each time the public transportation provider(s) establishes targets. Instead, MPO transit targets must be established when the MPO updates the LRTP. MPOs will reflect current public transportation provider(s) PTASP targets in the updated TIP.
- » Public transportation providers will coordinate with FDOT and affected MPOs in the selection of transit safety performance targets.
- » Public transportation providers will give written notice to the MPO(s) and FDOT when the public transportation provider establishes transit safety targets.
- » When establishing transit safety targets, the MPO can either agree to program projects that will support the public transportation provider targets, or establish its own separate targets for the MPO planning area.
- » MPOs that establish their own transit safety targets will coordinate with the public transportation provider(s) and FDOT in the selection of transit safety performance targets, and will give written notice to the public transportation provider(s) and FDOT when the MPO establishes its own transit safety targets.
- » MPOs that agree to support the public transportation provider(s) safety targets will provide FDOT and the public transportation providers documentation that the MPO agrees to do so.
- » If two or more public transportation providers operate in an MPO planning area and establish different safety targets for a measure, the MPO may establish a single target for the MPO planning area or establish a set of targets that reflect the differing public transportation provider targets.

NEWS RELEASE

FOR IMMEDIATE RELEASE
MAY 6, 2025

The Ocala-Marion Transportation Planning Organization (TPO) Draft Fiscal Years 2026 to 2030 Transportation Improvement Program (TIP) is available for public review and comment

The Transportation Improvement Program (TIP) is a five-year schedule of funded transportation improvements throughout Marion County. The TIP document includes the anticipated timing and cost of transportation projects funded with federal, state and local sources. TIP projects include: roadway and interchange construction, traffic operations, roadway widening, resurfacing, bicycle-pedestrian, transit funding and aviation.

The **Draft TIP for Fiscal Years 2026 to 2030** is available by accessing the TPO website at: <https://ocalamariontpo.org/plans-and-programs/transportation-improvement-program-tip>.

Please send feedback by email to: OcalaMarionTPO@marionfl.org; or contact Rob Balmes, TPO Director at: 352-438-2630, rob.balmes@marionfl.org. The comment period closes on **June 13, 2025**.

#

The Ocala Marion Transportation Planning Organization is a federally-mandated public agency responsible for allocating state and federal funds to roadway, freight, transit, bicycle and pedestrian projects within Marion County. The TPO serves the cities of Belleview, Dunnellon, Ocala and Marion County.

The Draft TIP for Fiscal Years 2026 to 2030 is now available for public review – Transportation Planning Organization

Govt Public Notices

AMENDED PUBLIC NOTICE
Advertisement of Availability of Coronavirus Funding of \$200,000, Substantial Amendment to the CDBG 2019-2023 Five-Year Consolidated Plan, Substantial Amendment to the 2019-2020 Annual Action Plan
Changing the Public Hearing Date From May 6, 2025, to May 20, 2025

Funding Availability
Substantial Amendment
2019-2020 Annual Action Plan
Citizen Participation Plan

The City of Ocala Community Development Services is proposing to amend both the 2019-2023 Consolidated Plan and the 2019 Annual Action Plan and for use of the Community Development Block Grant (CDBG) funds. In accordance with 24 CFR 91.05(c) (2) and subpart B of the federal regulations relative to citizen participation for Community Development Services Programs; and applicable waivers made available to those requirements through the Coronavirus Aid, Relief, and Economic Security Act CARES Act. This is a Substantial amendment because the City is re-allocating funds from previously approved CDBG activities. The City originally received an allocation of CDBG-CV funds and amended its HUD Five Year Consolidated Plan 2019-2023 and Annual Action Plan Fiscal Year 2019-2020 to receive additional CDBG funding made available to the City of Ocala by HUD through the CARES Act and to enable the City of Ocala to administer \$422,871 in CDBG funding from the U.S. Department of Housing and Urban Development (HUD). The above funds were allocated to support the activities below that was designed to focus the City's COVID-19 relief and recovery activities:

- Microenterprises
- Education Programs targeted to students from LMI families who may have fallen behind in their education as a result of the pandemic due to absenteeism, inadequate internet access, or other lack of other support for remote learning.
- Public Services, Meals on Wheels
- Broadband infrastructure projects to expand high speed internet access to LMI communities.

The City of Ocala is proposing to re-allocate \$200,000 from its Microenterprises strategy to a rental assistance strategy to better address the needs of the community. The proposed Annual Action Plan and amendments to the Consolidated Plan and Annual Action Plan can be viewed at <https://www.ocalafl.org/government/city-departments-a-h/community-development-services/community-programs>
Public Comment Period and Process:
This Consolidated Plan and Annual Action Plan amendment is available for public review and comment period from April 11, 2025, to May 20, 2025. Citizens who wish to submit written comments during the public review and comment period may mail them via United States Postal Services (USPS), postmarked no later than May 20, 2025, to the following address:

City of Ocala
Attention: James Haynes
Director, Community Development
201 SE 3rd Street, 2nd Floor
Ocala, FL 34470

You may also email comments no later than May 20, 2025, to jhaynes@ocalafl.gov.
Public Hearing:
There will be a public hearing during the City's regularly scheduled City Council Meeting held Tuesday May 20, 2025, at 4:00 pm at City Hall, 110 SE Watula Ave, Ocala FL 34471.
Anyone needing special accommodations for either meeting should contact Natalia Cox at ncox@ocalafl.gov or (352) 629-8322.
11289110

Notice To Creditors

IN THE FIFTH JUDICIAL CIRCUIT COURT IN AND FOR MARION COUNTY, FLORIDA
PROBATE DIVISION
File No.: 42-2023-CP-1121
IN RE: ESTATE OF BARRINGTON ANTHONY QUALLO
Deceased.

NOTICE TO CREDITORS
The administration of the estate of BARRINGTON ANTHONY QUALLO, deceased, whose date of death was August 30, 2024, is pending in the Circuit Court for Marion County, Florida, Probate Division, the address of which is 110 NW 1ST AVENUE OCALA, FL 34470. The names and addresses of the personal representative and the personal representative's attorney are set forth below.

All creditors of the decedent and other persons having claims or demands against decedent's estate on whom a copy of this notice is required to be served must file their claims with this court ON OR BEFORE THE LATER OF 3 MONTHS AFTER THE TIME OF THE FIRST PUBLICATION OF THIS NOTICE OR 30 DAYS AFTER THE DATE OF SERVICE OF A COPY OF THIS NOTICE ON THEM.

The personal representative has no duty to discover whether any property held at the time of the decedent's death by the decedent or the decedent's surviving spouse is property to which the Florida Uniform Disposition of Community Property Rights at Death Act as described in ss. 732.216-732.228, Florida Statutes, applies, or may apply, unless a written demand is made by a creditor as specified under s. 732.2211, Florida Statutes.

All other creditors of the decedent and other persons having claims or demands against decedent's estate must file their claims with this court WITHIN 3 MONTHS AFTER THE DATE OF THE FIRST PUBLICATION OF THIS NOTICE. ALL CLAIMS NOT FILED WITHIN THE TIME PERIODS SET FORTH IN FLORIDA STATUTES SECTION 733.702 WILL BE FOREVER BARRED. NOTWITHSTANDING THE TIME PERIODS SET FORTH ABOVE, ANY CLAIM FILED TWO (2) YEARS OR MORE AFTER THE DECEDENT'S DATE OF DEATH IS BARRED. The date of first publication of this notice is May 6th, 2025. Respectfully submitted,

Personal Representative:
Beverly Quallo

The World's Lightest Wheelchair

For those of us who've found daily activities becoming more challenging, there's a remarkable breakthrough in mobility that's changing lives. This ultra-lightweight wheelchair is nothing like the bulky and heavy models of yesterday weighing over 35lbs! - imagine gliding effortlessly through your garden again, joining your family at the park, or meeting friends for coffee, all without worry of fatigue or dependency. Why not take that first step toward renewed freedom? Your next chapter of independence is here.

Throughout the ages, there have been significant advancements in mobility aids. From canes to walkers, rollators, and scooters,

these devices were created to help those with mobility issues maintain their independence. However, there haven't been any truly revolutionary new products in this field until now. Until now, that is, because a team of engineers has developed something that's set to change the game. They've created the world's lightest wheelchair, weighing only 13.5 lbs, a personal mobility solution that's been called a game-changer. It's called the **Featherweight Wheelchair**, and there is nothing out there quite like it.

The first thing you'll notice about the **Featherweight Wheelchair** is how light it is! This is the world's lightest wheelchair at 13.5lbs, making it possible for anyone to lift into a vehicle. It's modern design and custom color options make it very lightweight, durable, and great to look at.

Why take our word for it? Call now, and **receive \$50 Off** when you purchase a **Matte Black Featherweight Wheelchair! Only \$599!** Mention CODE 50FEATHER to start your journey towards effortless mobility.

Only 13.5 lbs!

Jennifer F. us

01/09/25

★★★★★ Lightweight wheelchair

It's so light weight that it's no problem to lift in and out of the back of my car. It's also easy to set up and collapse down. It is very compact and the wheels come off for compact packing alongside luggage or groceries etc. My Mom finds it very comfortable to ride in as well and enjoys the look. We both love it.

1800 WHEELCHAIR.COM
Since 1997

855-520-6122

*13.5 lbs. with the rear wheels removed. Overall weight, with rear wheels, is 19 lbs.

Appendix F: Partner Agency Comments

FY 2026 TO 2030 TIP PARTNER AGENCY COMMENTS

The following list summarizes comments received from partner agencies during the public comment period from May 6 to June 13, 2025.

Florida Department of Transportation (FDOT)

- See checklist on next page

East Central Florida Regional Planning Council

- In Figure 1, there seems to be elements on the map that are not reflected in the legend.
- I believe the descriptions in each project could be more descriptive. For example, when stating operational improvements, what do these look like?
- Commitment to Vision Zero is mentioned but not exemplified in these projects. When applicable, perhaps describing how each project contributes to Vision Zero could be beneficial.
- I enjoyed exploring the interactive WebApp and think this will be useful in conveying information.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

MPO: **Ocala Marion**

LRTP Submittal Date:

Review #: **1**Date of Review: **6/9/2025**Reviewed By: **Kia Powell**

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

Editorial: The MPO may address comments regarding grammatical, spelling, and other related errors, but this would not affect the document's approval.

Enhancement: Comments may be addressed by the MPO but would not affect the approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: The comment MUST be addressed to meet the minimum state and federal requirements for approval. The reviewer must clearly identify the applicable state or federal statutes, regulations, policies, guidance, or procedures to which the document does not conform.

If a question is categorized as Editorial, Enhancement, or Critical, a comment must accompany it. If a question is answered with "no," a comment must accompany it.

TIP Formatting and Content

- Does the cover page include the MPO name, address, and correct fiscal years and provide a location to add the date of adoption? Address can be listed on the subsequent pages as needed. **Yes** | If yes, page number: **1**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the Table of Contents show the title of each section with the correct page number? **Yes** | If yes, page number: **4**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP include an endorsement that it was developed following state and federal requirements and include the date of official MPO approval? This would be an MPO resolution or signed signature block on the cover.
Not Applicable | If yes, page number: **2**
[Editorial](#) | [Draft TIP](#)

- Does the TIP include a list of definitions, abbreviations, funding, phase codes, and acronyms? **Yes** | If yes, page number: **98**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP begin with a statement of purpose (provide a prioritization of projects covering a five-year period consistent with the LRTP, containing all transportation projects funded with FHWA & FTA funds and regionally significant projects regardless of funding source)? [23 CFR 450.326(a)]; [49 USC Chapter 53] **Yes** | If yes, page number: **5**
[Choose an item.](#) | [Click here to enter comments](#)
- Did the MPO develop the TIP in cooperation with the state and public transit operator(s), who provided the MPO with estimates of available federal and state funds for the MPO to develop the financial plan? [s. 339.175(8) FS]; [23 CFR 450.326(a)] **Yes** | If yes, page number: **5**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP demonstrate sufficient funds (federal, state, local, and private) to implement proposed transportation system improvements, and identify any innovative financing techniques by comparing revenues and costs for each year? It is recommended that the TIP include a table(s) that compares funding sources and amounts, by year, to total project costs. [23 CFR 450.326(k)]; [23 CFR 450.326(j)]; [s. 339.175(8)(c)(3) FS] **Yes** | If yes, page number: **27-32**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP describe the project selection process and state that it is consistent with federal requirements in 23 CFR 450.332(b) and 23 CFR. 450.332(c) for non-TMA MPOs? **Yes** | If yes, page number: **26**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP identify the MPO's criteria and process for prioritizing projects from the LRTP (including multimodal tradeoffs) for inclusion in the TIP and explain any changes in priorities from the previous TIP? The MPO's TIP project priorities must be consistent with the LRTP. [23 CFR 450.326(n)(1)] **Yes** | If yes, page number: **26**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP describe how projects are consistent with the MPO's LRTP and, to the extent feasible, with port and aviation masterplans, public transit development plans, and approved local government comprehensive plans for those local governments located within the MPO area? [s. 339.175(8)(a) FS] For consistency guidance, see [Section 1. Florida LRTP Amendment Thresholds](#) and [Section 2. Meeting Planning Requirements for NEPA Approval](#). **Yes** | If yes, page number: **9**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP cross-reference projects with corresponding LRTP projects when appropriate? [s. 339.175(8)(c)(7) FS] **Yes** | If yes, page number: **26**
[Choose an item.](#) | [Click here to enter comments](#)

- Does the TIP include the FDOT Annual List of Obligated Projects or a link? The annual listing is located for download [HERE](#). [23 CFR 450.334]; [s. 339.175(8)(h), FS] **Yes** | If yes, page number: **108**
[Choose an item.](#) | [Click here to enter comments](#)
- Was the TIP developed with input from the public? [23 CFR 450.316]; [23 CFR 450.326(b)]; The document should outline techniques used to reach citizens (flyers, websites, meeting notices, billboards, etc.) **Yes** | If yes, page number: **8**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP discuss the MPO's current FDOT annual joint certification and past FHWA/FTA quadrennial certification (for TMA MPOs)? For TMA MPOs the TIP should include the anticipated date of the next FHWA/FTA quadrennial certification. **Yes** | If yes, page number: **9**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP discuss the congestion management process? All MPOs are required to have a congestion management process that provides for the effective management and operation of new and existing facilities using travel demand reduction and operational management strategies. [s. 339.175(6)(c)(1), FS] **Yes** | If yes, page number: **9**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP discuss the development of Transportation Disadvantaged (TD) services, a description of costs and revenues from TD services, and a list of improvements funded with TD funds? [s. 427.015(1) FS and 41-2.009(2) FAC] **Yes** | If yes, page number: **10**
[Choose an item.](#) | [Click here to enter comments](#)
- Does the TIP discuss how once implemented, the MPO will make progress toward achieving the performance targets for:
 - ✓ Safety performance measures
 - ✓ System performance measures
 - ✓ Bridge performance measures
 - ✓ Pavement performance measures
 - ✓ State asset management plan, including risk to off-system facilities during emergency events (if applicable)
 - ✓ State freight plan

If the MPO incorporated the [TIP Performance Measures Template](#) directly or adapted it to suit their needs, they would have met the requirements. [23 CFR 450.326(c)] **Yes** | If yes, page number: **13-19**
[Choose an item.](#) | [Click here to enter comments](#)

- Does the TIP discuss the anticipated effect of achieving the performance targets identified in the LRTP, linking investment priorities to those performance targets for:
 - ✓ Safety performance measures
 - ✓ System performance measures
 - ✓ Bridge performance measures
 - ✓ Pavement performance measures
 - ✓ State asset management plan
 - ✓ State freight plan

If the MPO incorporated the [TIP Performance Measures Template](#) directly or adapted it to suit their needs, they would have met the requirements. [23 CFR 450.326(d)] **Yes** | If yes, page number: **13-19**

[Choose an item.](#) | [Click here to enter comments](#)

- Does the TIP include all Federal discretionary grants that fund capital projects under Title 23 or Title 49, USC, per the Infrastructure Investment and Jobs Act (IIJA)? Federal discretionary grants that fund capital projects must be in the TIP before executing a grant agreement with USDOT. For more information, see this [link](#). **Yes** | If yes, page number: **20**

[Choose an item.](#) | [Click here to enter comments](#)

- Does the TIP contain projects listed in FDOT's [23 CFR Part 667 Report](#)? If so, does the MPO reference the report in the TIP for that project? **No** | If yes, page number: **xx**

[Choose an item.](#) | [Click here to enter comments](#)

Detail Project Listing for Five Fiscal Years

- Does each project in the TIP include the following information?
 - ✓ Sufficient description of the project (type of work, termini, and length)
 - ✓ Financial Project Number (FPN)
 - ✓ Estimated total project cost and year of anticipated funding
 - ✓ Page number or identification number where the project can be found in LRTP (spot check)
 - ✓ Category of Federal Funds and source(s) of non-Federal Funds
 - ✓ FTA section number included in project title or description

Yes | If yes, page number: **109-118**

[Choose an item.](#) | [Click here to enter comments](#)

TIP Review

- What date did the MPO upload the document into the [Grant Application Process \(GAP\)](#) System for review by the District, Office of Policy Planning, FloridaCommerce, FTA, & FHWA? Include the date of submission in the comments. **Yes** | **5/6/2025**

Appendix G: Changes from Prior Transportation Improvement Program (TIP)

MAJOR CHANGES FROM PRIOR TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

The following list summarizes major projects that were programmed in the previous Fiscal Years (FY) 2025 to 2029 Transportation Improvement Program (TIP) and their respective status toward implementation. This includes projects advanced; completed/underway; construction; deleted; or deferred.

Project Status from Prior Transportation Improvement Program (TIP) Advanced, Completed/Underway, Construction, Deleted, Deferred			
Project Number/FM	Project Description	Project Status	FY 25-29 TIP Funding
4106744	SR 40 from 314A to Levy Hammock Road	ENV Completed/Underway	\$65,000
4336514	CR 484 from SW 20th Avenue to CR 475A, Landscaping	Construction Phase	\$250,335
4367561	Downtown Ocala Trail to Silver Springs State Park	PE Completed/Underway	\$253,001
4352092	NW 49th Street from NW 70th to NW 44th Avenue	Construction Phase	\$3,424,000
4378261	I-75 Marion County Rest Areas, Landscaping	Construction Phase	\$488,301
4352091	I-75 (SR 93) at NW 49th Street new interchange	Construction Phase	\$121,279,072
4384271	Marion Airfield Pavement Improvements	Construction Phase	\$2,500,000
4407801	Marion-Ocala International Pavement Rehabilitation	Construction Phase	\$1,250,000
4452181	SR 25 (US 441) from Avenue I to Alachua County, Resurfacing	Construction Phase	\$8,036,954
4486351	SR 25 (US 441) from North of CR 25A to Avenue I, Resurfacing	Construction Phase	\$7,943,273
4485261	SR 45/US 41 from Citrus County to SW 110th, Resurfacing	Construction Phase	\$5,142,526
2386481	SR 45 (US 41) from SW 110th Street to north of SR 40	Deferred FY 28/29 to 29/30	\$108,363,022
4384771	Marion-Ocala International Taxiway Improvements	Deferred FY 25/26 to 26/27	\$6,500,000
4485751	Marion-Ocala International Airport Rescue and Firefighting ARFF	Deferred FY 26/27 to 29/30	\$1,000,000
4506651	SR 40 from SW 80th Avenue to SW 52nd Avenue, Resurfacing	Deferred FY 25/26 to 27/28	\$8,637,342
4514401	SR 93/I-75 from SR 40 to SR 318 interchanges, Landscaping	Deferred FY 27/28 to 28/29	\$510,307
4514402	SR 93/I-75 from SR 200 to south of Flyover, Landscaping	Deferred FY 27/28 to 28/29	\$637,884
4514403	SR 93/I-75 at County Road 484 Interchange, Landscaping	Deferred FY 27/28 to 28/29	\$511,979
4526341	SR 464 from SR 200 to SR 25/500 (Pine Avenue), Resurfacing	Deferred FY 26/27 to 28/29	\$3,619,177

(continued on next page)

Project Number/FM	Project Description	Project Status	FY 25-29 TIP Funding
4526941	SR 35 (US 301) from Sumter County Line to CR 42, Resurfacing	Deferred FY 26/27 to 27/28	\$5,168,316
4492611	SW 60th Avenue from SW 54th Street to SECO, Intersection	Deleted	\$199,243
4521862	US 301 (US 27/US 441) GAP EV Charging Phase II	Deleted	\$2,400,000
4523642	I-75 (SR 93) GAP EV Phase I	Deleted	\$3,960,000

Also summarized as follows are major projects programmed in the prior FY 2025-2029 TIP and respective project schedule and/or funding changes in comparison to the FY 2026-2030 TIP.

Major Project Funding Changes Prior FY 25-29 TIP to Current 26-30 TIP			
Project Number/FM	Project Description	Project Schedule Changes	*Change in Programmed Funding
2386481	SR 45 (US 41) from SW 110th Street to north of SR 40	Deferred CST FY 28/29 to 29/30	\$3,995,962
4106743	SR 40 from East of CR 314 to East of CR 314A	None	\$7,261,443
4336601	US 441 at SR 464 Intersection	None	\$145,089
4352091	I-75 (SR 93) at NW 49th Street new interchange	ROW, DSB Programmed FY 2026-2029	(\$99,960,862)
4354842	Pruitt Trail from SR 200 to Pruitt Trailhead	None	\$954,633
4392382	SR 25/500/US 441 from SE 102nd to SR 200, Sidewalks/Path	None	\$648,596
4494431	NE 8th Avenue from SR 40 to SR 492, Roundabouts	None	\$769,669
4506651	SR 40 from SW 80th Avenue to SW 52nd Avenue, Resurfacing	CST Deferred FY 25/26 to 27/28	\$2,533,023
4509481	SR 40 from NE 64th Avenue to Lake County Line	Project limits changed	---
4509511	SR 40 from 25th Avenue to 64th Avenue, Resurfacing	None	\$86,897
4509521	SR 40 from US 441 to 25th Avenue, Resurfacing	None	(\$148,214)
4526361	SR 40 from US 41 to South of SW 119th Avenue	None	\$3,516,622
4526941	SR 35 (US 301) from Sumter County to N of SE 42, Resurfacing	Deferred FY 26/27 to 27/28	\$483,093
4520721	I-75 at SR 326 Interchange Improvements	DSB Programmed FY 2026-2028	(\$17,093,465)
4520741	I-75 Improvements from SR 200 to SR 326	PE, ROW Programmed FY 2026-2030	(\$84,111,382)
4526341	SR 464 from SR 200 to SR 25/500 (Pine Avenue), Resurfacing	CST Deferred FY 26/27 to 28/29	\$117,940

*Projects programmed in prior TIP documents are also part of the annual Roll Forward TIP amendment process. Funding for projects may be rolled forward from the prior TIP to the current TIP annually by October.

Appendix H: List of TIP Projects in the 2045 Long Range Transportation Plan (LRTP)

FIGURE 7.2: 2021-2025 PROJECTS

Boxed Fund Projects

The Corridor Studies, ITS, and Multimodal boxed funds programs include more than 200 projects identified through the system needs assessment described in **Chapter 5**, the 2018 ITS Strategic Plan, and the TPO’s bicycle, pedestrian, and regional trails plans reviewed in the Plan Synthesis, respectively. The boxed funds projects are listed in the following tables and illustrated on respective maps.
